HIGHWAY CONSTRUCTION. Cost as follows: Riverside, Riverside Co., Cal. Engineer, County Surveyor, Riverside. Owners, Riverside County. At the last meeting of the County Supervisors two bids were opened for the contract of concreting the Scully ranch section that of the Connor Co. of Los Angeles, 10,136.29, and that of H. E. Cox of Pasadena, \$12,226. A third bid from the Isbell Contracting Co., Ventura, arrived too late to be considered. After considering the bids the Board rejected them as being too high. The county was to have furnished the material for the work.

BRIDGE FIGURES OPENED BY HIGHWAY COMMISSION.

Mercer-Fraser Co. Will Probably Build New Highway Bridge Over Santa Ynez River.

(By Special Wire.)
SACRAMENTO, CAL.—Aug. 21, 1916.—Nine sets of figures were opened today by the State Highway Commission for constructing a steel and timber bridge consisting of five spans over the Santa Ynez River in Santa Barbara County. The Engineer's estimate for the work was \$130,397, while the Mercer-Fraser Co., Eureka, presented the lowest bid at \$124,650.

All bids were taken under advisement. A complete list of the bids received follows:

Santa Ynez Bridge.
Mercer-Fraser Co., Eureka....\$124,650
W. M. Ledbetter, L. A.....133,480
George E. Preble, Santa Ana....133,218
Smaer-Chist, New York.....121,969
P. M. Kearns, Long Beach....149,000

Delaware Rice Co., L. A.134,000
Ross Don't Co., Sacramento, 143,760
Meridian Bridge Co., L. A.143,073
Mullard and Sons Co., Kansas City, Mo.,148,970

PORTLAND AND OREGON

SCHOOL—1 story and base, brick and concrete. Cost not stated. Gardiner, Oregon. Architect, Charles Burggraf, Albany, Oregon. Owners, City of Gardiner. Will cover an area of 100 by 105 feet. Plans being prepared.

APARTMENT HOUSE—2 story and base, brick, \$30,000. Portland, Oregon. Architect, none. Owner, T. A. Sutherland, 1981 Hawthorne avenue, Portland. Location, Irvington District. Will cover an area of 160 by 100 feet. Plans completed and figures being taken.

POST OFFICE—1 story and base. Class A construction, \$1,000,000. Portland, Ore. Architect, Lewis P. Hobart, Crocker Bldg., S. F. Owners, United States Government. Contractors: Grant Lee, 2210 16th street, S. F., general construction, \$762; J. F. Shea, Portland, plumbing and heating, \$76,138. Electric work, Ne-Pace-McKenny Co., Pittock Block, Portland, electric wiring. Contract price not stated.

SEATTLE AND WASHINGTON

APARTMENT HOUSE—1 story and base, brick and steel, \$50,000. Tacoma, Wash. Architect, P. C. Creso, Spanway Wash. Owner, P. C. Creso. Location, Ninth and E streets, covering an area of 65 by 120 feet. Will contain 90 apartments of 2 and 3 rooms. Plans complete and work to be done by Day Labor.

Contracts Awarded.

FACTORY—3 story and base, reinforced concrete, \$35,000. Seattle, Wash. Architect, none. Owners, Washington Mattress Co. Contractors, Ferre Concrete Construction Co., Empire Bldg., Seattle. Contract price, \$35,000.

FACTORY BUILDINGS AND WHARF—2 and 5 story, reinforced concrete, \$250,000. Seattle, Wash. Architect, Engineering Dept., American Can Co., New York City. Owners, American Can Co. Contractors, A. W. Quist & Co., Hoge Bldg., Seattle. Contract price, \$250,000.

PRESIDENTIAL ELECTION WILL NOT AFFECT BUSINESS.

Wheat Production Will be Less Than 1915 bumper crop but Only Slightly Under the Ten Year Average. Manufacturing is Reported to be in Excellent State Practically Everywhere With Factories Full of Orders and the Products Commanding High Prices.

WASHINGTON, August 12.—With the buying mostly for immediate needs and apparently little speculation there appears to be almost an entire absence of any concern as to the effect upon business either of the Presidential election, the possible coming of peace in Europe, or any other factors of possible disturbance. Such is the opinion expressed by the Committee on Statistics and Standards of the Chamber of Commerce of the United States, of which A. W. Douglas, of St. Louis, is the chairman. According to this authority

campaign year need not be regarded with apprehension by the industrial and commercial interests of the country. The total yield of winter wheat will be approximately between 465,000,000 and 475,000,000 bushels. The quality is most excellent. As a whole harvesting was done under generally favorable weather conditions.

Probable Total Wheat Harvest Slightly Under Ten Year Averages.

It seems likely, the Chamber of Commerce experts declare, that the total wheat crop of 1916 will be approximately thirty per cent less than the yield in 1915, and slightly under the average for the past ten years. It must be remembered, however, the committee points out, that the 1915 yield was a record production. An estimate of the final production of corn, due to the varied weather conditions is largely approximate at best but it does not seem likely at this time, the committee reports, that it can be less than 2,700,000,000 bushels and it may run as high as 2,850,000,000 bushels, or approximately the average yield for the past ten years. * * *

Plenty of Orders for the Busy Factories.

Manufacturing is practically everywhere in excellent condition with factories full of orders, the committee reports, labor fully employed and the products commanding high prices. The only exceptions are where strikes prevail.

The lumber industry varies from poor to good in different sections, according to various local conditions. On the Pacific Slope complaint is made of lack of export market and of shipping facilities, while in the southwestern portions of the country the story is the lack of orders in some cases and in others the lack of cars to move the product. As a whole the industry is in better shape than for many years.

Oil and gas is distinctly in good condition, despite recent declines in the price of crude oil. Naval stores, turpentine and resin are suffering from lack of demand because of the European war. This is likewise true of the phosphate mines in Florida.

Building Industry in Excellent Shape.

Stone and marble quarries of all description are very busy. This is not true of slate which is generally dull. Mining of all kinds, in general, is in excellent shape. The principal exceptions to this are coal mines suffering here and there from strikes or lack of demand. In Southwestern Missouri and the neighboring sections of Arkansas, zinc and lead mines are feeling the result of the recent drop in the price of these metals. Fisheries in general are good in New England, moderate further South along the Virginia and Carolina coast, and only fair on the Pacific slope.

The building industry is reported to be in generally excellent shape. It is, in the opinion of the committee, the best barometer of general business since building in the country districts means the extensive use of materials in almost every line of commercial business. Despite the high price of material, the committee report concludes, the building outlook continues good.

Public Employment Bureaus of State of California.

The Public Employment Bureaus of the State of California did more business during the first six months of their existence than had been estimated for the entire first year. This shown by the first semi-annual report just issued by State Labor Commissioner John P. McLaughlin. Since February 1, the state bureaus of San Francisco, Oakland, Sacramento and Los Angeles filled 29,962 positions and thereby saved the employes \$11,924, which they would have had to pay to private employment agencies if the state was not in the employment business. Because the efficiency of the state bureaus is being daily demonstrated, their popularity with both the employe and the employer is steadily growing. 23,425 men and women have applied for positions and 11,025 applications for employes have come in, the total number of employes desired being 25,175.

There is a steady increase in business not only from among private employers but also from leading companies and corporations. The "repeat" orders for employes are especially large, showing that the bureaus' ability to choose suitable employes for all grades of work is being recognized. The bureaus' out-of-town business continues to go forward by leaps and bounds, farmers, ranches, summer resort owners, millmen, miners, public utility companies, etc., finding the state employment service of great value.

During July, there were 3,648 applicants for employment at the four state bureaus. 2,170 applications for 6,132 employes came in during this month and 4,869 men and women obtained positions. There were more applications for employes during July than during any preceding month, July beating June by 341.

An interesting feature of the July business is that the bureau furnished 903 more out-of-town than in-town positions, the total out-of-town positions being 2,886 and the total out-of-town orders for employes 915. The out-of-town positions were divided as follows: San Francisco, 745; Oakland, 160; Sacramento, 471; Los Angeles, 1,630.

The San Francisco bureaus have furnished 8,178 positions during the past six months, 6,453 to men and 1,725 to women. 9,700 men and 5,236 women have applied for work during this period. There have been a total of 4,995 orders for employes requesting 10,536 employes. During July, there were 5,236 applications for employment, 1,295 orders for 2,439 employes and 1,725 positions filled by the San Francisco bureaus.

Since February 1, the Sacramento bureau filled 2,495 positions, 777 during July, 2,868 men and women have registered for employment during this period. During July 801 asked employment and 340 applications came in for 959 employes.

At the Oakland bureau, 4,621 have registered for employment during the past six months and 3,110 positions have been filled. During July, this bureau found employment for 787 men and women and there were 541 applications for work. During this month, 729 orders were received for 994 employes.

The Los Angeles bureau has found employment for 7,179 men and women since its organization, February 1. Of this number 1,630 found work at this bureau during July. The orders for employes totaled 346 and the number of employes wanted was 1,740, last month.

The superintendent of the four employment bureaus is C. B. Sexton. The managers of the bureaus are as follows: San Francisco, men's bureau, W. M. Collins; San Francisco, Women's bureau, Miss N. V. Longtin; Oakland, Mrs. Helen Power; Sacramento, men's bureau, F. E. Stahl; Sacramento, women's bureau, Miss Anna E. Purdy; Los Angeles, H. C. Donoho.

PUBLIC OPINION SAVES GIANT REDWOODS.

SACRAMENTO, Cal., Aug. 15.—How public opinion saved a grove of giant redwoods from the woodman's axe is recorded in the files of the State Corporation Department.

Recently the Reyes Lumber Company secured an option to purchase the famous Armstrong Woods situated near Guerneville, Sonoma County, intending to erect a sawmill and fell timber for the market. The company proposed to sell stock principally to the lumber dealers of Sonoma County to raise the necessary funds with which to carry out its plans.

Commissioner of Corporations H. L. Carnahan has now been advised by the company that it has been unable to sell its shares. Prospective investors in the enterprise, reports the company, feared a boycott of their own business by the people of Sonoma County, who were interested in saving the grove which has been a mecca for thousands of visitors to the Russian River section, if they aided in its destruction.

The company proposed to meet this condition by reserving sixty acres of the woods for public use, providing that the public would subscribe \$12,000 for such purpose. The option held by the company, however, has expired and it is unable to secure an extension.

PORT IMPROVEMENTS IN THE MAGDALENA.

Plans for the improvement of the port of Girardot, in the Magdalena River, are to be put into execution in accordance with a law enacted in 1913. The President of Colombia has appointed an honorary board in the city of Girardot, which, with the assistance of a qualified engineer, will supervise the port works in conformity with plans approved by the Minister of Agriculture and Commerce. A fund for the improvement of this port and others in the upper Magdalena is provided by a special assignment of 20 per cent of the fluvial tax, which was authorized in 1887, according to the Diario Oficial of June 19.

Girardot is of particular importance as a shipping point, because it is the only port connected by rail with the city of Bogota, and, moreover, it connects with the Tolima Railway, which runs to Espinal. In the event of the realization of Colombia's plan to join the Tolima and Pacific Railways by a line across the Andes, Girardot would have the distinction of connecting the capital of Colombia with Buenaventura on the west as well as with Barran-

quilla on the north, and it would be a distributing port for imports for two seas.

Kellastone Stucco.

The Blake Plaster Company of Oakland has taken over the sale of Kellastone stucco for the northern Pacific Coast. This product has formerly been sold in the bay cities by the West Company of Oakland, who will still continue to look after the manufacturing end.

Kellastone is a nationally advertised plaster, and has been manufactured and sold in the east for ten years and in California for the last three years. It is used for outside stucco work, interior plaster, drainboards and flooring.

Kellastone is much superior to any cement plaster as it is fireproof, 93 per cent waterproof by test and has an elastic quality that enables it to stand many times more settling strain than cement without cracking.

For exterior work it is put on over ordinary wood lath nailed directly to the sheathing over a good quality of building paper and when properly applied one-half inch thick it will last indefinitely.

Unlike cement plaster, Kellastone does not contract but expands to the extent that it fits up tightly to window frames and casings and thus gets a very tight grip between the wood lath. This bond is much stronger than that secured by using cement plaster over metal lath, experience showing that the metal lath rusts out after a few years leaving nothing for the cement to bond to. Kellastone does not depend entirely upon the key between the lath, but has a peculiar property of gripping the surface of the lath.

The same method of preparation and application may be used in the avercoating of old buildings. A great deal of this is being done at present all over the country as it not only gives a new and pleasing appearance, but extends the life of the building and very much increases its value.

Kellastone flooring has no equal for office buildings, garages and the like where a durable, fireproof, sanitary floor is needed. It will stand very rough usage, yet is much more easy to walk on than other composition floorings, owing to its elastic, resilient properties.

It is ideal for drainboards, bath room floors and wainscoting, as it withstands moisture, is easy to keep clean and takes a smooth handsome finish.

The sale of Kellastone for outside stucco work is increasing tremendously on the Pacific Coast and throughout the east. The National Kellastone Company of Chicago have a large and rapidly growing business in the middle western states and are shipping their material as far east as New England.

There are some imitations of Kellastone in the field but none of them have stood the test of time.

The local company's office is at No. 227 Bacon Bldg., Oakland, and they solicit correspondence from architects and dealers on the northern Pacific Coast in regard to their product. Personal supervision will be given to buildings under construction where Kellastone is to be used.

MOLYBDENUM AND NICKEL CONCENTRATES IN CALIFORNIA.

In view of the interest in metals entering into war supplies, two concise reports of the Department of the Interior, written by F. C. Calkins, of the United States Geological Survey, on molybdenite and nickel ore in San Diego County, Cal., are timely. Mr. Calkins describes clearly the modes of occurrence of the ores and gives helpful suggestions for further development work and prospecting.

The molybdenum prospect is in a dike of the fine grained granite (rhyolite) containing an average of much less than 1 per cent of the mineral molybdenite (molybdenum sulphide). Only one prospect has been located thus far, but the surrounding country is favorable for the discovery of others. The nickel deposit is an irregular body in a dark igneous rock (gabbro) and is shown by Mr. Calkins to have an origin similar to that attributed by most geologists to the famous deposits at Sudbury, Ontario. The nickel occurs in an iron-nickel sulphide (probably polydymite) and assays more than 1 per cent of nickel have been obtained. Copper is also present in quantities ranging from a trace to 2.4 per cent, and conditions are favorable for the presence of platinum.

These reports are published together as Bulletin 649-D, which may be obtained free on application to the Director, U. S. Geological Survey, Washington, D. C.

ALTA CHROME SHIPMENTS.

ALTA—During the last week there have been three carloads of chrome shipped from here, billed to Eastern points. The ore is from the property of J. R. Hodges and is being hauled by motor truck. A pack train is engaged in bringing chrome from Green Valley on the American River, to Towle for shipment. The shipments are being made by the Manganese Co. of California, San Francisco. Manganese is also being packed from the deposits of D. J. Sullivan, near Bear River, and a carload soon will be ready for shipment.

THE ELEPHANT BUTTE DAM.

EL PASO, TEX.—President Wilson will start the waters of the Rio Grande flowing through the spillways of the great Elephant Butte dam on October 14. It will bring in 200,000 acres of fertile lands in the chain of valleys in New Mexico, Texas and Old Mexico. The Elephant Butte dam is a mass of concrete and steel thrown across the Rio Grande on the desert of New Mexico at the point where a great rock formed like the head and body of a mastadonic elephant, seems to drink from the river. This giant impounding dam has formed the largest irrigation reservoir in the world. More than 4 miles in length and 8 miles across, the lake stores the melted snows of the Colorado Mountains.

NEW THEATRE IN VANCOUVER.

VANCOUVER, B. C. — Excavation work is underway for a theatre building to replace the present Pantages Theatre in this city, in which bookings of the Pantages Circuit are shown. It will have a frontage of 193 feet, a seat-

ing capacity of about 1,500, will cost in the neighborhood of \$265,000, and be modern in every respect. The exterior will be finished with white glazed terra cotta in Italian renaissance style. The ventilation system will be so arranged that the air in the building will be ice washed during the summer months, have an extra distribution, and be changed every two minutes. Especial attention will also be paid to the accessibility of the balcony and gallery. It is expected that the new theatre will be opened about December 1, 1916. The manager of the theatre is A. W. Gillis, Pantages Theatre, Vancouver, B. C.

VLADIVOSTOK A FIELD FOR AMERICAN EXPORTS.

Vladivostok seems to offer an attractive field for American exports. Almost everything that is produced in American mills and factories and on American farms is needed and would be eagerly bought in this city and its vicinity, if it could be placed there at reasonable cost. Merchants and importers, buyers in the shops, people in the hotels and in the streets inquire about American goods and American plans to take advantage of the great opportunity offered by the European war to supply goods that cannot now be produced in Europe.

The port is now open the entire year, ice-breakers keeping a free channel to the high sea. Vladivostok is becoming increasingly important as a great entrepot for European and Asiatic Russia, as well as for central Asia and southeastern Europe.

It is though by the best informed men in this part of Siberia that years must elapse, after the conclusion of the present war, before Russian manufactured goods can compete with those from foreign countries. Ample time will be allowed in which American manufacturers and exporters, if they are alert and aggressive, can occupy and hold a large portion of this rich and expanding territory.

Presents Opportunity for an American Bank.

As banking facilities are not advanced, the best Russian firms are willing at present to pay cash for all purchases, although the Germans and English were very accommodating in granting credit. It would seem to be an excellent field for the establishment of an American bank. A good system of finance and credit here, in the hands of Americans, would probably prove profitable in itself and of great value to Vladivostok.

Vladivostok is a city of some 100,000 population and is growing rapidly. It is thoroughly modern and progressive, and is the distributing point for a large and rich territory.

Things needed at present in Vladivostok are many. A few may be mentioned. Gloves of leather or cloth are in great demand. There are few or none in most of the large shops. It is not advisable to send silk or embroidered gloves. Hosiery for men and women is needed. There is particular demand for fine grades. Japan is sending some hosiery, but it is not gaining a wide market.

Ready-made suits for men and women are in demand. The prices of Russian goods, inflated by war taxes,

is very much above the prices for which equal goods from the United States could be sold at Vladivostok. Since the Russian depends for warmth upon fur outer clothing, light weights are preferred about the weight used in the United States in the autumn and early spring.

Overall, etc., meet with favor. Very cheap American goods are now being sold to the fishermen and common laborers, and a large trade could be worked up. American shoes are in favor in this part of the Far East.

American Machinery Improperly Packed.

Machinery, especially motors and farm implements, is eagerly sought. Every ship from the west brings in some of this cargo for Vladivostok, and the docks at this city and at Tsugura are crowded with shipments from the United States for the factories and farms of Siberia. Much of this machinery was so insecurely packed that it was likely to be broken or injured on the voyage, and so exposed as to be liable to rust on the way from the United States to eastern Siberia. It was packed as if for a journey between the factory at home and some near suburb, instead of an ocean voyage of thousands of miles during which it is subjected to as rough usage as is possible even on the high seas.

Among the demands of the Vladivostok field are those for salesmen and samples of American clothing and clothing materials. In every shop the inquiry has been made: "Will your exporters send us samples? We can do nothing without samples. The Germans and English sent us all the samples we needed." In the Far East, the United States supplies the styles, while other countries supply the material. They take American fashion plates, and make clothes of British or German cloth. The United States could furnish the material, also, and the ready-made clothes, if it went after the business as others have gone after it. Salesmen, also, would find Vladivostok a profitable field. Agents, importing houses, branch houses, etc., are needed.

Shops Transact Large Volume of Business.

There are many prosperous shops in Vladivostok, which would repay the investigations of salesmen on the spot, and the volume of business transacted is remarkably large, even in time of war. The demand is so great and so rapidly increasing that traffic continues even under the most unfavorable conditions. The war has already advanced prices by 10 to 100 per cent, but this has not seriously affected the growth and prosperity of the city.

The principal stores in Vladivostok handling wearing apparel are eager to receive samples and information concerning prices, styles, terms, etc.

[A list of the stores in Vladivostok can be obtained at the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco. Refer to file No. 950.]

FIRM IN CHINA SEEKS HEATING-PLANT AGENCY.

A firm in Hankow, China, has stated to the American consul general, Edwin S. Cunningham, its desire to obtain an agency for American plumbing and heating plants. In accepting such an

agency it would expect the manufacturer to send out a competent and reliable American thoroughly acquainted with the work. "We would be prepared," it states in a letter, "to pay half his salary while he was out here, on a time contract of say three or five years, as well as a small interest in the business in the way of a commission on all his sales and on all orders taken by the firm in this particular line. We would expect the agency firm in America to pay his passage out to China, in consideration of our placing all our orders for materials, etc., through them, and on the termination of his contract would agree to pay his passage back to the States.

The name of the firm in Hankow mentioned may be obtained from the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco. Refer to file No. 78706.

LIGHT AND FOG-SIGNAL STATION FOR PACIFIC COAST.

The sundry civil act, approved July 1, 1916, appropriated \$80,000 for establishing a light and fog-signal station at Point Vicente, Cal. Point Vicente is the most prominent point on the California coast between Point Loma and Point Conception, a distance of 220 nautical miles. There is at present an unlighted gap of 32 nautical miles on the usual course of coasting vessels, between Point Lumenec and Point Fernin light stations, which will be broken up by the proposed station. This light will serve the increased traffic due to the opening of the Panama Canal.

The work contemplated to carry out the provisions of this appropriation consists of the erection of a tower, including the acquisition of a site and providing a water supply, the installation of illuminating and fog-signal apparatus (the latter in a separate building), the construction of dwellings for three keepers, and the construction of outbuildings, fences, oil storage, piping, and necessary accessories.

Instructions have been given by the United States Lighthouse Service that the work be proceeded with as promptly as possible.

"THE EXTENTE CORDALE."

F-W-D Trucks the Subject of Diplomatic Representation.

Old Petrich once said, "We cannot so act as to please all the world."

Fortunately or unfortunately the Four Wheel Drive Auto Company of Clintonville, makers of that now world famous F-W-D Truck, is having its share of super-abundance of popularity.

It has gone so far as to affect the gaiety of the nations, and even farther for some of them have become peeved because the others have been trying to monopolize this indispensable and unfailing transporter of heavy guns and munitions of war over the almost impossible fields of conflict at home and abroad.

Two of the contestants had signed contracts for the entire output of F-W-D Trucks for months ahead.

Meanwhile the U. S. Government, having discovered how indispensable these trucks were in operations in Mexico, commandeered the entire out-

put of the factory, which caused such an explosion in diplomatic circles abroad that the foreign representatives of these governments at Washington made it the subject of a diplomatic discussion between themselves and the U. S. Government officials, resulting happily in a compromise wherein all contracts are to be carried out as originally planned.

The triumphal march to world fame of these Monarchs of the Road, the F-W-D Trucks, is a tremendous asset for the makers whose plant has had to be enlarged again and again to meet the increasing demand for these trucks whose use in war as well as in peace has demonstrated the correctness of the four wheel drive principle and established them upon a pinnacle of popularity from which they will never be dislodged.

First in war, first in peace, first in the hearts of truck drivers and owners, in all parts of the world, where they are doing duty—a record of achievement reflecting credit alike upon their makers and their country.

CHEMICAL PRODUCTION WORKS.

BAKERSFIELD, CAL.—Establishment of a big chemical reduction works in Bakersfield to handle minerals such as antimony, chrome, arsenic, barium and magnesite, is planned by Dr. W. L. Smith of the Mineral Resources Co., financed by Kansas City and Chicago capitalists, if a five-year contract for fuel gas can be obtained from the Valley Gas Co. The plant would require at least 1,000,000 feet of gas daily and that cheap gas would be the inducement to locate in Bakersfield.

Properties of the Calcium Silicates and Calcium Aluminate Occurring in Portland Cement.

It has been shown comparatively recently that the constituents of Portland cement of normal composition and normal burning are tricalcium silicate, dicalcium silicate and tricalcium aluminate. The present investigation was undertaken to show what part each of these played in developing the physical properties of this material. By the use of small amounts of boric acid and chromium oxide as "mineralizers," the two silicates were prepared in a fair condition of purity and in amounts large enough to permit of the making of neat and standard sand mortar test pieces. These test pieces were broken over a period of one year. The rate of setting and of hydrating was also studied, the latter both chemically and microscopically. The results show that the aluminate sets and hydrates almost immediately on the addition of water, but never attains a strength much over 100 pounds per square inch; the dicalcium silicate takes several days for setting and at the end of one year contains but 5.5 per cent water of hydration. It has practically no strength at seven days, but at the end of one year has a tensile strength of 600 pounds per square inch. The tricalcium silicate has all the properties of Portland cement, both in regard to setting and attaining strength.

Mixtures of either silicate with aluminate and with the aluminate and plaster, and of both silicates with the aluminate and plaster, were also studied. The effect of the aluminate

was more marked on the setting properties, as was also the ease with the plaster additions; the effect of either of these two additions on the strength of either silicate or a mixture of the two was not very striking, in general not materially changing the strength of the silicate.

Copies of this report, Technologic Paper No. 78, will be ready for distribution in a few days and may be obtained without charge upon application to the Bureau of Standards, Washington, D. C.

AMERICAN MINERAL WAX.

The American need for ozokerite (a substance commonly known as mineral wax) has heretofore been largely met by imports from the mines in Galicia Austria, but as the war in Europe has seriously affected ocean transportation, interest in the domestic supply of this material has been stimulated. In order to obtain information regarding the deposits of ozokerite in Utah, the principal deposits in this country, a geologist of the U. S. Geological Survey, Department of the Interior, examined, in September, 1914, the deposits near Soldier Summit and Colton in the central part of the State.

As described in the resulting report by H. M. Robinson the ozokerite is found in fissures and brecciated zones, principally in the Wasatch formation, of Eocene age. Tests made by the Bureau of Mines on six samples show their specific gravity, solubility, melting point, and the fractional distillates they yield, and it is suggested that by boiling crude ozokerite with strong denatured alcohol a commercial separation of the refined product ceresin may be made. On account of the irregular distribution of the ozokerite no safe estimate can be made as to the quantity of undeveloped ozokerite, but the quality, as far as the melting point is concerned, compares favorably with the Austrian product and the market conditions brought about by the war in Europe offer exceptional opportunities for the development of Utah ozokerite.

Ozokerite is a nonconductor of electricity and is extensively used for insulating. Candles made from ozokerite have superior qualities. Much of the ozokerite mined is converted into ceresin, a highly purified product which is used to replace or mix with beeswax and has a variety of other uses. Ozokerite is also used as a foundation for various waxes and polishes; as a covering to protect metal surfaces from the action of moisture, acids or alkalis; and for wax figures and dolls.

A copy of the report—Bulletin 641-A—may be obtained free on application to the Director of the Geological Survey, Washington, D. C.

OIL-MIXED CONCRETE FOR ROAD BUILDING.

WASHINGTON, D. C.—Concrete as a road building material is of "perhaps more universal adaption than any other material now in use," said Director Logan Walter Page, of the office of Public Roads of the United States Department of Agriculture, recently. Concrete, as sized up by the department, has the following advantages:

1. Durability under ordinary conditions.

2. A smooth, even surface, not too slippery.

3. Practically no dust.

4. Is easily cleaned and maintained at small cost until patching or resurfacing becomes necessary.

5. A pleasing appearance.

6. Forms an excellent basis for other materials when resurfacing becomes necessary.

Its disadvantages are as follows:

1. Noisy under horse traffic.

2. Difficult to repair.

3. Cracks must be given prompt attention or deterioration will ensue.

Improved concrete for road building as well as for other purposes, that is proof against water absorption has been announced by the department in oil-mixed concrete.

After extensive experiments with a view to producing a non-absorbent concrete mixture, the department found that the addition of ten per cent of heavy, mineral oil to the Portland cement paste acted as an effective repellent to moisture. The susceptibility long been recognized as one of its inherent weaknesses as a road-building material.

The addition of the oil does not lower the tensile strength, the department

has found, and has the further advantage of making the mixture impervious to the destructive action of alkali salts.

AMERICAN "ICHTHYOL."

The current publication of the United States Geological Survey, Department of the Interior, on the production of asphalt and related bitumens in 1915 contains a brief note on the subject of ichthyol. Prior to August, 1914, this asphaltic material, which is employed as an antiseptic medicant, was imported from Europe. It is derived from a bituminous rock, filled with fossil fish, that is found in the Austrian Tyrol. American imports had increased from 24,000 pounds in 1910 to 60,000 pounds in 1914, but dropped off last year to less than 25,000 pounds. In view of the inadequacy of the foreign supply to meet the domestic demand under present conditions, it is interesting to know that in this product, as in others, America has come to depend on its own resources. So far as known, there are in the United States no deposits of asphaltic material of the peculiar type from which ichthyol is derived, but American chemists have

solved the problem of supplying the domestic needs in this regard, and favorably recommended substitutes for ichthyol, prepared from domestic materials by synthetic methods, are now available in the markets.

The Geological Survey's general report on "Asphalt, Related Bitumens, and Bituminous Rock in 1915" is now ready for distribution. During the year the natural asphalt of all varieties sold at the sources of production in the United States aggregated 75,751 short tons, valued at \$526,490.

CONCESSION FOR WATER POWER IN PERU.

The Government of Peru has granted to the Hydroelectric Co. of the Canon del Pato, a concession for water power in the River Santa to be used for industrial purposes. The concession as published in El Peruano of July 1: grants water rights of 45,000 liters per second in a section of the river 500 meters above the confluence of the Santa with the Colcas for a distance of 25 kilometers, following the course of the River Santa. This water is conceded for manufacturing, and may not be used for any other purpose. Definite plans covering the utilization of the water must be presented before December 1 of next year, and the work must be completed within three years from that date.

To guarantee the fulfillment of its obligations in connection with this concession the company must deposit with the Peruvian Government before December 31, 1917, the sum of 20,000 pounds gold (pound equals \$4.8665) or its equivalent in national bonds. At least 50 per cent of the company's employees, technical men as well as laborers, must be native Peruvians. The company shall be governed according to the laws of Peru, and the concession cannot be transferred without Government permission. If all the section of the river conceded to the company is not utilized at the time specified, the Government may concede the unused part to another applicant. The Government reserves the right to expropriate the property of the company in accordance with terms set forth in the concession.

COUNTY COURT HOUSE AND HOSPITAL FOR TULARE COUNTY.

VISALIA, Cal.—Expenditure by the county for improvements and additions to county institutions close to \$200,-

000 is now under consideration. Committees are investigating plans and sites. The expenditures by the county include \$40,000 for a new county jail or improvements to the present structure; \$80,000 for a new hospital for the county and a like amount for a new hall of records.

A committee is now investigating sites for a new county hospital to replace the structure which has stood for a quarter of a century.

EUREKA'S BUILDING OPERATIONS.

UNDER SWISS SYSTEM ONLY YOUNG MEN WOULD SERVE.

Major-General Wood Says It Would Give Us a Citizen Reserve of 3,500,000 Men.

"In this country," testified Major-General Leonard Wood, before the House Committee on Military Affairs "we have in round numbers, a million men coming of age every year. That means possibly 500,000 fit for military training. To begin military service (that is training and liability to service in time of war) at 18 years of age, and terminate it at 25 years of age, you would have three and a half million men on whom you could depend, and that would be a force up to the limit of need in any ordinary war.

"Out of that force you could have organized certain military units—infantry, cavalry, artillery, field and coast engineers, reserves, etc. Every man ought to be used in that arrangement in the line of work for which he is best fitted.

Benefits Far More Than Equivalent to Service.

"The men in these organizations would be taken from the men within the period of obligatory service, let us say from 18 to 25. The procedure would probably be to permit such men as wanted to enter the organized unit of the reserve to do so, and in case any district failed to present its proper quota, the men would then be drawn by lot. All men liable to serve would have to take the chance of being drawn to fill up any units which were not filled otherwise. This liability would only last during the period for which they are liable to service. These organized units would correspond to the present militia except that they would be the organized units of a federal force. They should be paid a little something while at maneuvers and camps of instruction but not at any other time. Men not serving in these organizations and not engaged in any duties as instructors or otherwise will not receive pay. They would simply be performing their obligatory military service for the nation. The period would be brief and they would receive benefits far more than equivalent to the time they give to the nation."

Better Preparedness at Reduced Cost.

"That last fact needs to be kept in mind—the compensating benefits that would accrue to the individual youth from this training. Incidentally, the country would have a vast increase of preparedness and save money by the change.

"Under these circumstances," suggested Representative Hull, "we could maintain a large army at very much less expense?"

"Yes," replied General Wood. "Take the Swiss system. Their number rate is about 12 per 1,000,000, against a rate of

121 per 1,000,000 here. Taking those figures into consideration it would seem that their military training has done some good. They are running their entire military establishment (or were when the European war started) on about \$7,000,000 a year. They could put 250,000 men into the line in 18 hours, and they would have 200,000 more in reserve. This has been done by means of the acceptance of the general principle that every man owes something to the nation's service. That is what we shall have to come to."

In a special letter, from the Military Training Camp at Plattsburg, to H. H. Sheets, Secretary and Treasurer and Founder of the Association for National Training, General Wood forwarded the following statement, which is most illuminating, and is presented in his usual forceful and convincing manner.

General Wood writes:

"Have we anything worth defending—country, religion, institutions, ideals, convictions, family? If we have do we intend to defend them? Have we training, equipment and organization to do it? Are we intelligent enough to realize that without training, equipment and organization we cannot meet with any hope of success, just as good men physically, intellectually and morally as we are, who in addition have training, equipment and organization?"

"This is the proposition in a nut shell. If we haven't anything worth defending, of course, we are not interested, but we have and we are going to defend them to the last. It behooves us to look the matter squarely in the face and decide whether or not we shall take those reasonable measures of preparation which will enable us to defend with some hope of success those things which we believe worth defending.

"The condition throughout the world today is one which indicates however much we may desire universal arbitration and however hard we may work for world's peace, that arbitration is not of general application and world's peace is certainly not with us at present. The existing situation, while very unfortunate, is one which must be reckoned with and while we are going to continue our struggle for peace and for a wider application of arbitration we must recognize facts as they are and prepare for our own defense. We must recognize that the forces of wrong must be met by the organized strength of right."

BONDS

EUREKA, HUMBOLDT CO., CAL. Humboldt County's proposed road bond issue, calling for the expenditure of \$1,500,000, was decisively defeated at the election held last week.

SAN RAFAEL, MARIN CO., CAL. The City Council of San Rafael has called the \$50,000 canal bond election for October 30th.

OROVILLE, BUTTE CO., CAL. The bonds for the construction of ditches, headgates and waterways at Drainage District No. 100, have been validated by order of the Superior Court of Butte County. George E. Jones of Oroville was counsel for the drainage district, which is located near Richvale.

SAN RAFAEL, MARIN CO., CAL. The Marin Municipal Water District bonds of \$3,000,000 have been declared valid. The bonds were voted to finance the purchase of the existing water companies.

SANTA ANA, ORANGE CO., CAL. The United Storm District, formed for the purpose of constructing protection works for about 60,000 acres in Orange County, proposed the following work, as outlined in a statement to voters, as follows: A channel 1100 feet wide, 1 1/2 miles long, the construction of a dike 50 feet on top, with zig-zag pilings and barbed wire to protect this dike, and the planting of trees. The estimated cost will be \$15,000 for moving 300,000 cubic yards dirt for the channel; \$5,000 for 100,000 pounds barbed wire, \$11,000 for piling and placing 5200 piles; other labor and materials bringing total up to \$125,000, of which it is possible the county may pay \$25,000. O. B. Stewart is the district engineer.

PORTERVILLE, TULARE CO., CAL. —E. J. Schul of San Francisco plans the erection of a \$20,000 natatorium in this city. Several sites are under consideration.

MODESTO, STANISLAUS CO., CAL. By a vote of about 5 to 1 the Water-Division Irrigation District voted bonds of \$165,000 for the construction work of the new district and to pay the Modesto District for the use of water from its canals. Of the entire sum \$254,000 will go to the Modesto District, and the balance will be used in construction work. It is understood that the bonds will be advertised for sale at once, and as soon as the money is available bids for the construction of canals and laterals will be advertised.

MERCED, MERCED CO., CAL. The Board of Education has decided to purchase a site for the new \$150,000 High School, and is now negotiating for the grounds. Many tracts have been offered.

SACRAMENTO, CAL. The Board of Supervisors have fixed October 23rd as the date on which the people will vote on \$1,700,000 worth of bonds to construct roads in Sacramento County.

SAN DIEGO, SAN DIEGO CO., CAL. The City Council has decided to submit to voters the proposition of a bond is-

sue for the construction of one only dam, to be at Lower Otay and to cost \$82,200. The election will probably include a proposition to build a pipe line from La Mesa dam to the city distributing system at a cost of \$125,000. The City Attorney of San Diego has been instructed to include in the forthcoming bond election a proposition to vote \$85,000 to pay the cost of placing an apron 8 inches in thickness of 1:2:4 concrete, reinforced with 5/8-inch steel bars on 8-inch centers.

WILLOWS, GLENN CO., CAL. The Larkin School District, ten miles east of this city on the river, has voted \$10,000 bonds for the construction of a new school building.

PIEDMONT, ALAMEDA CO., CAL. —Unanimous approval of the proposed bond issue of 114,000 by the Board of Trustees was given by a mass meeting of citizens called to consider the move.

BRIDGES, DAMS AND HARBOR WORK

WILLOWS, GLENN CO., CAL. —Bridges, 4 reinforced concrete. Cost not stated. Engineers, Leonard & Day, Rialto Bldg., S. E. Owners, Glenn County. Plans are nearly complete for four reinforced concrete bridges to be erected in the various Road Districts in Glenn County. Bids will be called for shortly.

VISALIA, TULARE CO., CAL. —Bridge, reinforced concrete, \$6,400. Engineer, County Surveyor, Visalia. Owners, Tulare County. The Board of Supervisors has approved plans for a \$6,400 concrete bridge to be built at Springfield, just above the swinging bridge.

SANTA BARBARA, SANTA BARBARA CO., CAL. —Bridge, reinforced concrete, \$18,000. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Bids will be opened on September 6th at 10 a. m. for the construction of a reinforced concrete bridge across Arroyo Quemado, at Station 305 plus 00, Section F, on the Route of the State Highway, in the Third Road District. The structure consists of two 110-foot arch spans with approaches, being about 100 feet long and 75 feet high.

SEATTLE, WASH. —Bridge superstructure. Cost not stated. Engineers, Port of Seattle Commission, Seattle. Owners, City of Seattle. At a recent meeting of the Seattle Board of Public Works the Beers Building Co., Seattle, contractors for the superstructure of the 16th avenue, northeast, or Eastlake Bridge, was declared in default following the receipt of a letter from N. H. Beers. The sureties on the contract, the Guardian Casualty Co. of Salt Lake City, have been notified to complete the contract.

Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Visalia. Owners, Tulare County. Bids have been ordered received up to September 8th, 2 p. m., for the construc-

tion of the proposed reinforced concrete Springville bridge, over the Tule River at Springville. Plans may be had from the County Clerk.

Contracts Awarded.

CHICO, BUTTE CO., CAL.—Bridge, reinforced concrete and steel, \$7,000. Engineer, City Engineer, Chico. Owners, City of Chico. Contractor, T. H. Polk. Chico. Contract price, \$7,000.

GOVERNMENT WORK & SUPPLIES

Hilo, H. T. Light Fixtures.

As previously reported, the contract for installing lighting fixtures in the U. S. post office at Hilo, H. T., was awarded to the Beardslee Chandler Manufacturing Company, Chicago, Ill., at \$4,531.80. In the prosecution of the work, fixtures and material manufactured by the following firms will be used: Pendant switches, Perkins; keyless sockets, Weber; reflectors and glassware, Ivanhoe-Regent Works.

Nelson Reservoir, Milk River Project.

The following bid for earthwork on Nelson Reservoir, South Canal, Milk river project, Montana, was received at the United States Reclamation Service, Malta, Mont., on August 14:

James O'Connor & John T. Whalin, Malta, Mont., \$108,352.50.

Portland, Oreg., Mechanical Equipment.

The contract for installing mechanical equipment, except elevators, lifts, and lighting fixtures in the U. S. post office at Portland, Oreg., has been awarded to J. F. Shea, 2 N. 2d street, Portland, Oreg., at \$76,138; time, 22 months.

Macon, Ga., Plumbing, Etc.

The contract for installing plumbing, heating, and lighting repairs in the U. S. post office and court house at Macon, Ga., has been awarded to Algenon Blair, Montgomery, Ala., at \$2,675; time, 100 days.

HONOLULU, HAWAII—Army post building, 1 and 2 story, frame and concrete, \$300,000. Engineer's name not given. Owners, United States Government. The Chief Ordnance Office at Honolulu will shortly call for bids for approximately \$200,000 worth of construction to be done at Honolulu under his direction. Included in the work will be 5 large warehouses, 6 gun sheds, 2 magazines, 2 shop buildings, 1 office building, 1 barracks, 1 field officers' quarters, 1 company officers' quarters, 2 non-commissioned officers' quarters, 1 stable and 1 wagon shed. Construction will be of concrete, brick and frame. Further mention will be made of this work.

HOSPITALS

FRESNO, FRESNO CO., CAL.—Hospital, 4 story and base, reinforced concrete, \$75,000. Architect, J. E. Kraft & Sons, Phelps Bldg., S. F. Owners, Burnett Sanitarium Co. Will cover an area of 75 by 130 feet. Interior arranged for wards and private rooms. Plans complete and figures being taken.

CLARKDALE, ARIZ.—Hospital, 2 and 3 story and base, reinforced concrete, \$80,000. Architect, Arthur R. Kelly Story Bldg., L. A. Owners, United Verde Mining Co. Location, Clark street. Only preliminary plans have been prepared. Further mention will be made of the work when the attached returns from Arizona.

GLOBE, ARIZ.—Hospital, 2 story and base, reinforced concrete. Cost not stated. Architects, Lecher & Kibbey, Phoenix. Owners, Old Dominion Copper & Smelting Co. Will cover an area of 50 by 165 feet. Arranged for wards, private rooms, office and operating room. Plans being prepared.

HOTELS

STOCKTON, SAN JOAQUIN CO., CAL.—Hotel, 3 story and base, frame, brick, \$16,000. Architects, Foley, Sala and Frank Mayo, Commercial & Savings Bank Bldg., Stockton. Owner, S. Sanguenetti. Location, south El Dorado street, near Lafayette. Will contain office and stores on first floor and a number of single rooms on the upper floors. Plans being prepared.

GLENDALE, LOS ANGELES CO., CAL.—Hotel, 2 story and base, brick, \$25,000. Architect, C. C. Rittenhouse, Wilcox Bldg., L. A. Owner, H. E. Betz. Location, 227 Brand Boulevard, covering an area of 55 by 81 feet. Will contain stores on the first floor and a number of single rooms and baths above. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL.—Hotel, 10 story and base. Class A construction, \$260,000. Architects, John M. Cooper and Douglas Lee, Marsh-Strong Bldg., L. A. Owner, John M. Cooper. Location, south West Eighth street, near Hope, covering an area of 75 by 165 feet. Will contain 252 rooms, all of which will have private baths. Reinforced concrete construction throughout. Plans being revised.

IRRIGATION PROJECTS

MALTA, MONT.—Irrigation work, \$108,325. Engineers, United States Reclamation Service, Malta. Owners, United States Government. Contractor Jas. O'Connor was the only bidder when the United States Reclamation Office opened bids for the largest piece of excavation work ever let in the Milk River excavation project. For the removal of 615,000 cubic yards of earth O'Connor bid somewhat under engineer's estimate of \$108,325. O'Connor will probably be awarded the contract.

RAILROAD CONSTRUCTION AND EQUIPMENT

PORTLAND, ORE.—Warehouse addition, 1 story, reinforced concrete, \$35,000. Engineer, Engineer's Depart-

ment O. R. & N., Portland. Owners, Oregon-Washington Railway & Navigation Co. Location, North Portland. Plans being prepared.

ROSEBURG, ORE.—Railroad construction, \$300,000. Engineer's name not given. Owners, Roseburg & Eastern. Bids are being advertised for by the city of Roseburg, Ore., calling for contract figures on constructing the proposed Roseburg & Eastern Railway which the city is financing. It is understood that a tentative agreement has already been reached with Kendall Bros., of Pittsburg, whereby they will handle the job, which is expected to run close to \$300,000. In fact, it is understood that they have already offered practically all of the materials. With the railroad work under way the city officials have every reason to believe that Kendall Bros. will erect a large sawmill plant at Roseburg to cost about \$250,000. The railroad is to be 25 miles in length, and taps a rich lumber belt.

RESIDENCES

SAN FRANCISCO—Residence, 2 story and base, frame, \$5,000. Architects, Sidney R. and Noble Newsum, Nevada Bldg., S. F. Owner, Frank L. Fenton. Location, 11th avenue. Will contain seven rooms, two baths and basement garage. Plans complete and figures being taken.

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,600. Architect, none. Owner, F. Monson, 351 Sussex street, S. F. Location, East 18th avenue, south of Balboa. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, O. E. Evans & Co., 2569 Mission street, S. F. Owner, G. Lindberg. Location, Crocker Amazon Tract. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$5,000 each. Architect, none. Owner, Albert A. Russell, 75 Broome street, S. F. Location, East 9th avenue, north of Anza. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, none. Owner, N. J. Nelson, 547 Elizabeth street, S. F. Location, East 22nd avenue, south of Clement. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$7,500. Architect, none. Owners, Allen & Co., 125 Sutter street, S. F. Location, northeast corner of 29th avenue and Lake street. Will contain eight rooms, two baths and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame. Cost not stated. Architects, O. E. Evans & Co., 2569 Mission street, S. F. Owner's name not given. Location, Glen Park. Will contain five rooms and bath. Plans complete and figures being taken.

BERKELEY, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, \$6,000. Architect, James W. Plachek, Acheson Bldg., Berkeley. Owner, Robert Shney. Location, Benvenue, near Ashby. Will contain eight rooms, three baths and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, R. C. Mack, 559 29th street, Oakland. Location, South Rich, west of Webster. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, Alvin J. Stern, 206 11th street, Oakland. Owner, Roy Pellotton. Location, 41st and Manila. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Arvid H. Olson, 2129 Telegraph avenue, Berkeley. Location, East Park, north of Oregon. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ALAMEDA, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,200. Architect, none. Owner, G. H. Noble, 2229 Central avenue, Alameda. Location, 2503 Noble avenue. Will contain four rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Edward Larmer, 470 Boulevard Way, Oakland. Location, South Derby and Ellsworth. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, A. D. Darling, 2264 East 21st street, Oakland. Location, south corner of 23rd avenue and East 29th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, P. S. Walsh, 495 Rich street, Oakland. Location, South Rich, east of Telegraph. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—1, 1 story and base, frame, \$2,000 each. Architect, none. Owner, R. C. Hillen, 420 Haight avenue, Alameda. Location, South Arkansas, east of Curran avenue. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$2,500. Architect, none. Owner, L. J. Dolan, 2257 East 16th street, Oakland. Location, East Santa Clara, south of Valle Vista. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,600.

250. Architect, none. Owner, M. E. Taylor, 1607 Sonoma avenue, Berkeley. Location, North Ada, west of Sacramento. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,800. Architect, none. Owner, S. Matto, 5125 Lawton avenue, Oakland. Location East Lawton, north of 51st. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, R. C. Hillen, 120 Haight avenue, Alameda. Location, West Sacramento, north of Cedar. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, none. Owner, James Welsh, 543 18th avenue, S. E. Location, East 18th avenue, north of Balboa. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$30,000. Architect, G. Albert Lansburgh, 709 Mission street, S. F. Owner, Fred. B. Henderson. Location, northwest corner of Washington and Laurel. Will contain fourteen rooms, three baths and separate garage. Plans complete and figures being taken.

STOCKTON, SAN JOAQUIN CO., CAL.—Theatre, 2 story and base, brick and steel, \$65,000. Architect, A. W. Cornelius, Merchants National Bank Bldg., S. E. Owners, Turner & Dahnen Circuit Contractor, James Mulcahy, 526 Grant street, Stockton. Contract price, \$65,000.

SEALED PROPOSALS

NOTICE TO CONTRACTORS.

Office Constructing Quartermaster, Fort Mason, Cal.—Sealed proposals, in triplicate, for constructing improvements to Water Supply System at Presidio of San Francisco, Cal., will be received here until 11:00 a. m., September 18, 1916, and then opened. Further information on application.

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, St. Ignatius, Mont., until 2 o'clock p. m., September 20, 1916, for the construction of canals and structures on the Flathead project, Montana, involving about 125,000 cubic yards of excavation, 195 cubic yards of reinforced concrete, 14,000 square yards of paving, 10,100 square feet of canal lining, manufacturing and laying 3,100 linear feet of concrete pipe, laying 210 cubic yards of dry rubble and placing 9,000 pounds of structural and reinforcing steel. The work is located from 3 to 10 miles west of Roman, Mont. For particulars address the United States Reclamation Service, Washington, D. C., Denver, Colo., or St. Ignatius, Mont. MORRIS BERN, acting director.

PROPOSALS FOR VALVES.

VALVES—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 p. m., September 20, 1916, for furnishing needle valves for the north tunnel of the Roosevelt Dam, Salt River project, Arizona. For particulars address the United States Reclamation Service, Washington, D. C., or Denver, Colo. A. P. Davis, chief engineer.

PROPOSALS FOR CEMENT, ETC.

CEMENT, STONE AND SAND—U. S. Engineer Office, 723 Central Building, Los Angeles, Cal.—Sealed proposals will be received at this office until 11 a. m., September 15, 1916, for furnishing American Portland cement sand and stone at San Pedro, Cal information on application.

PROPOSALS FOR CANAL WORK.

CANAL WORK, ETC.—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed

proposals will be received at the office of the United States Reclamation Service, Helena, Mont., until 2 o'clock p. m., September 27, 1916, for the construction of structures on the Milk River project, Montana, involving about 10,000 cubic yards of excavation, 600 cubic yards of reinforced concrete, 1,300 square yards of paving, the placing of 10,000 pounds of structural steel and the placing in wooden structures of about 154,000 feet, b. m. of lumber. The work is located in the vicinity of Saco and Hamilton, Mont., on the Great Northern Railway. For particulars address the United States Reclamation Service, Washington, D. C., Denver, Colo., or Malta, Mont. A. P. DAVIS, chief engineer.

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Fort Laramie, Wyo., until 2 o'clock p. m., September 28, 1916, for the construction of structures on about 19 miles of main canal, Fort Laramie unit, North Platte project, Nebraska-Wyoming, involving the excavation of approximately 1,435,000 cubic yards of material and the placing of approximately 1,150 cubic yards of concrete. This work is situated near the Badger-Gunnesey line of the Chicago, Burlington and Quincy Railway in the vicinity of Torrington and Lingle, Wyo. For particulars address the United States Reclamation Service, Washington, D. C., Denver, Colo., or Fort Laramie, Wyo. A. P. DAVIS, chief engineer.

NOTICE TO CONTRACTORS.

OFFICE of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County at his office, until Monday, September 11, 1916, at 10 o'clock a. m. (the day when said bids will be opened and the contract awarded) for the construction of a Tubercular Hospital Building, on the site near Layman owned by the County of Alameda.

Complete plans and specifications for said work are on file in the office of the County Clerk, in the Hall of Records Building, Oakland, California, where copies may be obtained by depositing with the County Clerk a fee of ten (10) dollars. Contractors will be restricted as to the length of time they may retain these plans and specifications to ten (10) days.

Contractors failing to return said plans and specifications within said time limit will forfeit their deposit. The entire amount of the deposit will be returned to contractors returning plans and specifications in good condition within said time limit.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal, certified to by some responsible bank, and made payable to the order of the County of Alameda, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

(Seal)
Clerk of the Board of Supervisors of the County of Alameda.
Dated August 11, 1916.

PROPOSALS FOR POWER PLANT.

POWER PLANT—Sealed Proposals endorsed "Proposals for Heating and Power Plant" will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 1 o'clock a. m., September 30, 1916, and there publicly opened, for installing generator sets furnished by the government, and furnishing and installing boilers, condensers, pumps, motors, switchboard equipment, pump, wiring, lighting, etc. for the heating and power plant at the naval torpedo station, Puget Sound, Wash. Plans and specifications can be obtained on application to the Bureau of Yards and Docks, Navy Yard, Bremerton, Wash. P. R. HARRIS, chief of bureau.

PROPOSAL FOR CANAL WORK.

CANAL WORK. Department of the Interior, United States Reclamation Service, Washington, D. C., August 11, 1916.—Sealed proposals will be received at the office of the United States Reclamation Service, Montrose, Colo., until 4 o'clock p. m., September 15, 1916, for the construction of the Lonestone Canal extension, California Mesa Lateral No. 3 and the Butterfield Lateral, Uncompahgre Valley project, in the vicinity of Delta and Clifton, Colo. This work involves the excavation of about 84,500 cubic yards of material in open cut. For particulars address the United States Reclamation Service, Montrose, Colo., Denver, Colo., or Washington, D. C. MORRIS BREN, acting director.

PROPOSALS FOR EXCAVATING.

EXCAVATING. Department of the Interior, U. S. Reclamation Service, Washington, D. C., August 11, 1916.—Sealed proposals will be received at the office of the United States Reclamation Service, Grand Junction, Colo., until 2 o'clock p. m., September 11, 1916, for about 112,700 yards of lateral excavation. The work is situated in the vicinity of Mack, Colo. For particulars address the United States Reclamation Service, Grand Junction, Colo.; Denver, Colo., or Washington, D. C. MORRIS BREN, acting director.

INVITATION FOR PROPOSALS.

TREASURY DEPARTMENT. Supervising Architect's Office, Washington, D. C., August 17, 1916.—Sealed proposals will be opened in this office at 3 p. m., October 2, 1916, for the construction complete of the United States post office at Willows, Cal. Drawings and specifications may be obtained from the custodian of site at Willows, Cal., or at this office in the discretion of the Supervising Architect. JAS. A. WETMORE, Acting Supervising Architect.

PROPOSALS FOR MAIL-HANDLING DEVICE.

MAIL-HANDLING DEVICE. Treasury Department, Supervising Architect's office, Washington, D. C.—Sealed proposals will be opened in this office at 3 p. m., October 2, 1916, for mail-handling devices, etc., in the U. S. post office at Denver, Colo., in accordance with specification and drawing, copies of which may be obtained at this office, in the discretion of the supervising architect. JAMES A. WETMORE, acting supervising architect.

TO STUDY ELECTRICAL-GOODS MARKETS ABROAD.

The markets for electrical goods in China, India, Australia, South Africa, and several other countries which are in the Far East are to be studied by a representative of the Bureau of Foreign and Domestic Commerce. The war has greatly handicapped the principal European competitors of American manufacturers of electrical goods in the Far Eastern field, and strong efforts will be made to obtain such information as will enable exporters in this country to conduct an effective campaign for trade extension. R. A. Lundquist, consulting engineer of Minneapolis, has been selected for this work.

Much preliminary study is still needed, and Special Agent Lundquist will ascertain the types, quantities, and costs of electric apparatus with which American goods come into competition, as well as look into the general opportunities for the sale of such goods. Before leaving on the trip the special agent will spend some weeks in the principal business and manufacturing centers conferring with manufacturers and exporters.

Mr. Lundquist graduated from the University of Minnesota in 1905 with

the degree of electrical engineer, following which he put in six years with prominent electrical houses. Since 1911 he has been in business for himself in Minneapolis, specializing in hydroelectric and transmission-line work. He is the author of "Transmission Line Construction—Methods and Costs," and has contributed numerous articles to the technical press. He is chairman of the Minnesota section of the American Institute of Electrical Engineers.

Railway Equipment in Asia, Australia and South Africa.

An expert from the Division of Valuations of the Interstate Commerce Commission will represent the Bureau of Foreign and Domestic Commerce in an investigation of the field for American railway equipment and supplies in the Far East, Australia, and South Africa.

Frank Rhea is the special agent appointed to make the investigation, and he is already engaged in making arrangements for conferences with manufacturers, contractors, and selling agents, which will be held during a preliminary trip to the principal manufacturing centers in this country. This preliminary trip will be made in September. He will then go abroad to enter upon a careful study of the conditions as they affect railway construction, equipment, traffic, the probable reconstruction of railways, tramways, etc. While all specific opportunities for securing orders will be promptly reported, the real purpose of the investigation is to gather fundamental facts for the American manufacturer.

Those who wish to get in touch with Mr. Rhea before he leaves this country should address the Division of Commercial Agents, Bureau of Foreign and Domestic Commerce, Customhouse, New York. This is the new office opened in New York by the Bureau to keep in closer touch with business houses interested in foreign trade.

Nicaraguan Railway Agreement.

Formal approval of the agreement between the Nicaraguan Government and the Pacific Railroad Co. of Nicaragua has been given by both houses of the Nicaraguan Congress and is promulgated by the President in La Gaceta of June 28. Under the terms of this agreement the railroad company, which is financed in New York City, will construct and operate a railway from the Atlantic coast to the present Pacific railway system of Nicaragua or to the steamship lines owned by the same company. The total length of the new railway will be about 200 miles and it will supply much needed transportation facilities from the Atlantic coast.

New South African Business for American Firms.

An initial order for pencil sharpeners, from which excellent business should develop, an agency for a paper bag company, which has already hooked orders from several large milling companies; a complete year's supply of garden seeds; agencies for several lines of butcher's supplies; an

order for an outfit of drills, taps and dies, with an agency in view; a consignment of glassware; and negotiations that will shortly end in an order for a complete set of store fixtures and a new store front—all this new South African business for American firms has resulted, either directly or indirectly, during the past quarter from information obtained at the Port Elizabeth consulate.

PYRAMID LAKE DAM.

RENO, NEV.—Surveyors practically have completed their work at Pyramid Lake preparatory to the construction of a permanent dam for irrigation project on the Indian reservation. An appropriation of \$20,000 was made last year to start the work and supplies and material for the dam have been ordered. The project calls for the expenditure of \$85,000.

OAKLAND ARCHITECT DIES SUDDENLY IN CITY OFFICE.

While working at his desk in the offices of Maurice C. Couchot, an engineer in the French Bank Building, William Sading, an Oakland architect, fell to the floor dead last Thursday from heart failure. Sading was 36 years of age and resided with his mother at 768 Fifty-fourth street, Oakland. According to his employers, he had been working for them but a few days and had complained of serious headaches.

BORDEN TO ERECT MILK CONDENSER IN STANISLAUS CO.

MODESTO, CAL.—A hundred thousand dollar condensed milk plant will be erected here by the Gail Borden Condensed Milk Company. A two-story brick building 280 feet long will be erected for the initial plant, Stanislaus County now has 40,000 dairy cows, and will be able to support the plant. Borden has fifteen milk plants west of the Mississippi River.

CONSULAR TRADE WORK IN NEW ZEALAND.

An order for 50 tons of supercalendered printing paper resulting from the publication of a "trade opportunity" in Commerce Reports, an order for furniture that followed the sending of catalogues from the consular files to a leading Auckland furniture dealer, and the establishment of an agency for lead-headed nails with prospects of business amounting to \$100,000 a year, formed part of the new business placed with American firms by New Zealand houses during the past quarter, as reported by Consul General Alfred A. Winslow.

NEW SCHOOL BUILDING IN COLON.

The building division of the Panama Canal has begun the erection of a new school building for the accommodation of the children of canal employees residing in Colon and in Cristobal, Canal Zone. The new school house will be constructed of reinforced concrete, with Spanish tile roof; it will be 174 feet long by 56 feet wide, two stories in height, and in its 18 class rooms it will provide accommodation for all the

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO.

RESIDENCE—2 story and base, frame, \$2,500. San Francisco. Architect, none. Owner, F. Monson, 351 Sussex street, S. F. Location, East 18th avenue, south of Balboa. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, G. E. Evans & Co., 2563 Mission street, S. F. Owner, G. Lindberg. Location, Crocker Amazon Tract. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 2 story and base, frame, \$3,000 each. San Francisco. Architect, none. Owner, Albert A. Russell, 75 Brosnan street, S. F. Location, East 9th avenue, north of Anza. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, none. Owner, N. J. Nelson, 517 Elizabeth street, S. F. Location, East 22d avenue, south of Clement. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$7,500. San Francisco. Architect, none. Owners, Allen & Co., 125 Sutter street, S. F. Location, northeast corner of 29th avenue and Lake street. Will contain eight rooms, two baths and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame. Cost not stated. San Francisco. Architects, O. E. Evans & Co., 2563 Mission street, S. F. Owner's name not given. Location, Glen Park. Will contain five rooms and bath. Plans complete and figures being taken.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Owner, James Welsh, 543 18th avenue, S. F. Location, East 18th avenue, north of Balboa. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$30,000. San Francisco. Architect, G. Albert Lansburgh, 709 Mission street, S. F. Owner, Fred. B. Henderson. Location, northwest corner of Washington and Laurel. Will contain fourteen rooms, three baths and separate garage. Plans complete and figures being taken.

STREET IMPROVEMENTS. Cost as follows: San Francisco, Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The following contracts for street improvements have been awarded by the Board of Public Works:

The improvement of Francisco street, between Polk street and Van Ness avenue, by the construction of artificial stone sidewalks of the full width where asphalt or artificial stone sidewalks are

not already constructed at least 6 feet in width. Awarded to Owen L. McHugh, 301 Russ Bldg., San Francisco, for \$44.10.

The improvement of Mariposa street between Utah street and San Bruno avenue, and of the crossing of Utah and Mariposa streets by the construction of an 8-inch vitrified, salt-glazed ironstone pipe sewer with 10 Y branches and 1 brick manhole, galvanized iron, wrought iron steps, concrete curbs; artificial stone sidewalks; and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to D. L. Binfield, Phelan Bldg., San Francisco, for \$2,928.18.

The improvement of Bessie street, opposite the termination of Manchester street, where not already improved, by the construction of granite curbs; artificial stone sidewalks; one brick catch basin with cast iron frame, grating and trap; 10-inch vitrified, salt-glazed ironstone pipe culvert on the southeast angular corner; basalt block gutters; and a basalt block pavement on sand with a gravel filler on the remainder of the roadway thereof. Awarded to D. L. Binfield, Phelan Bldg., San Francisco, for \$187.21.

APARTMENT HOUSE—2 story and base, frame, \$10,000. San Francisco. Architect, none. Owner, L. B. Ham, 274 25th avenue, S. F. Location, West Palm avenue, south of Euclid. Will contain four apartments of four rooms each. Basement garage. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—3 story and base, frame, \$50,000. San Francisco. Architect, Houghton Sawyer, Shreve Bldg., S. F. Owner, Dr. Edith H. Williams. Location, California, near Gough. Will contain a number of two and three room apartments. Plans complete and figures being taken.

FLATS—2 story and base, frame, \$5,000. San Francisco. Architect, none. Owner, P. W. Neckenberg, 1837 Oak street, S. F. Location, East Shrader, south of Revoli. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$4,000. San Francisco. Architect, none. Owner, D. J. Clancy, 2884 Folsom street, S. F. Location, East 8th avenue, south of Lincoln Way. Will contain two flats of four and five rooms. Plans complete and work to be done by Day Labor.

GARAGE—1 story, reinforced concrete, \$7,000. San Francisco. Architect, Charles Fantoni, 916 Kearny street, S. F. Owner, Paolo Arata. Location, North Pacific, west of Dupont, covering an area of 36 by 137½ feet. Designed for a commercial garage. Plans complete and figures being taken.

ARMY POST BUILDING—1 and 2 story, frame and concrete, \$300,000. Honolulu, Hawaii. Engineer's name not given. Owners, United States Government. The Chief Ordnance Office at

Honolulu will shortly call for bids for approximately \$200,000 worth of construction to be done at Honolulu under his direction. Included in the work will be five large warehouses, 6 gun sheds, 2 magazines, 2 shop buildings, 1 office building, 1 barracks, 1 field officers' quarters, 1 company officers' quarters, 2 non-commissioned officers' quarters, 1 stable and 1 wagon shed. Construction will be of concrete, brick and frame. Further mention will be made of this work.

STORES AND OFFICES—4 story and base, reinforced concrete, \$100,000. San Francisco. Architect, Edward G. Bolles, 600 Market street, S. F. Owner, C. W. Burgess. Location, northeast corner of Ecker and Mission, covering an area of 100 by 100 feet. Will contain stores on the first floor and offices and lofts above. Plans being prepared.

STORES REPAIRS—1 story, frame, \$3,000. San Francisco. Architect, John Elder, 601 Mission street, S. F. Owners, Borlin Estate. Location, southwest corner of 8th and Tehama. Work will consist of repairs to fire damage. Plans complete and work to be done by Day Labor.

STORES, \$5,000. San Francisco. Architect, \$5,000. San Francisco. Architects, Sidney B. and Noble Newson, Nevada Bank Bldg., S. F. Owner, Frank L. Fenton. Location, 11th avenue. Will contain seven rooms, two baths and basement garage. Plans complete and figures being taken.

WOOD PAVING BLOCKS—Cost as follows: San Francisco, Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Contractors, Pacific Crossting Co., S. F. Contract

Two-story and basement frame (4)
apartments.

Contractors all over the country are moving more material in less time and at a smaller expense with
FOUR WHEEL DRIVE TRUCKS
than with any other method of transportation.

Consider what power on all four wheels would mean for you in your business.

Large Contractors and corporations the world over are finding that power on all four wheels results definitely and decisively in:--

100 per cent saving in cost of tires.

Greater durability to every wearing part.

Allows equal distribution of load, thus

Eliminating undue strain on any one part.

Enormous saving in cost of up-keep.

More mileage per gallon of gasoline and oil.

DEPENDABLE SERVICE - no idle days waiting for repairs.

Remember that every F. W. D. Truck built in the past seven years is working to-day, and they are performing harder and more persistent service at a given cost than any other truck built to-day.

You owe it to yourself to investigate the F. W. D. truck.

Four Wheel Drive Truck Co.

RECEIVE FIGURES FOR HIGH SCHOOL ADDITION.

Contract for Two Reinforced Concrete Additions to San Jose High School to Be Awarded.

(By Special Wire.)

SAN JOSE, CAL.—Bids were received at the Monday meeting of the Board of Education for the construction of two one-story concrete additions which are to be made to the San Jose High School building. The lowest figures were submitted by Monson Bros., 1907 Bryant street, San Francisco. They will probably be awarded the work. Plans were prepared by Architect, William Binder, Rea Bldg., San Jose. A complete list of the bids follows:

High School Addition.

Morrison Bros.	\$45,277
Z. O. Field	48,176
J. H. Miller	44,563
R. O. Summers	51,460
Monson Bros. (low)	42,950
Boyd-John-Arnold Co.	49,450
Charles Thomas	45,544
F. S. Edmans	48,226

Bids were received at the same meeting for installing heating systems in the Hawthorne School and in the First Ward School. C. L. Moisterheim was awarded the contract on the former at \$2,745 and F. Studer the contract for the latter at \$2,675. Both men are from San Jose.

GARAGE AND SALESROOM—1 story and base, brick, \$20,000. Hollywood, Los Angeles Co., Cal. Architect, Ellet P. Patcher, Hollywood Bldg., L. A. Owner, Olaf Johnson, leased to Overland Automobile Co. Location, Hollywood, Boulevard and Argyle avenue, covering an area of 100 by 55 feet. Plans being prepared and work to be done by Day Labor.

HOSPITAL—2 and 2 story and base, reinforced concrete, \$80,000. Clarkdale, Ariz. Architect, Arthur R. Kelly, Story Bldg., L. A. Owners, United Verde Mining Co. Location, Clark street. Only preliminary plans have been prepared. Further mention will be made of the work when the architect returns from Arizona.

HOTEL—10 story and base. Class A construction, \$200,000. Los Angeles, Cal. Architects, John M. Cooper and Douglas Lee, Marsh-Strong Bldg., L. A. Owner, John M. Cooper. Location, South West Sixth street, near Hope, covering an area of 75 by 163 feet. Will contain 252 rooms all of which will have private baths. Reinforced concrete construction throughout. Plans being revised.

HOTEL—2 story and base, brick, \$25,000. Glendale, Los Angeles Co., Cal. Architect, C. C. Rittenhouse, Wilcox Bldg., L. A. Owner, H. E. Betz. Location, 327 Brand Boulevard, covering an area of 53 by 84 feet. Will contain stores on the first floor and a number of single rooms and baths above. Plans complete and work to be done by Day Labor.

SCHOOL GROUP—1 and 2 story, frame and stone. Cost not stated. Los Angeles, Cal. Architect, Robert Orr, Van Nuys Bldg., L. A. Owners, Claremont School for Boys. Site embraces 20 acres. There will be 2 dormitory buildings, one 35x86 feet, containing 22 rooms, baths, etc., and one 25x72 feet, divided into 13 rooms, matron's quarters, etc.; a service bldg., 40x106, divided into social hall, dining room and kitchen department. A porch and portico will connect the service building with the school rooms, of which there will be six, and an assembly hall. There will also be an athletic field, a gymnasium building, 36x60 feet, with locker rooms, director's quarters, showers, etc., and open concrete pool, 60x25 feet.

THEATRE—2 story and base, brick, \$25,000. South Pasadena, Los Angeles Co., Cal. Architect, E. J. Borgmeyer, Stinson Bldg., L. A. Owner, Edward N. Jarecki. Location, Fair Oaks avenue. Will contain two stores, and a theatre seating 600 people. Plans being prepared.

Contracts Awarded.

STORE AND LOFTS—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architect, Richard D. King, Van Nuys Bldg., L. A. Owners, W. A. and M. T. Glaucock. Contractor, Carl J. Lange, Story Bldg., L. A. Contract price not stated.

SCHOOL—1 story and base, hollow tile, \$20,900. La Canada, Los Angeles

Co. Ltd. Architects, Wilson & Allison, Ithmanian Bldg., 100 A. Owners, L. A. Canada School District. Contractor, M. N. Yesberg, 1650 Morton avenue, L. A. Contract price, \$26,500.

PORTLAND AND OREGON

THEATRE—1 story and base, reinforced concrete, \$30,000. Oregon City, Ore. Architect, White Bros., Oregon City. Owner, W. A. Long. Arranged for stores, offices and a theatre seating 1,000 people. Plans complete and figures to be called for at once.

STORIES AND OFFICES—5 story and base, brick and tile, \$150,000. Portland, Ore. Architect, J. V. Bennes, Chamber of Commerce Bldg., Portland. Owner, Anton Huth, Tacoma. Leased to Liebes & Co. Location, Broadway and Morrison. Will cover a considerable ground area. First floor store and upper floors lofts and offices. Plans complete and figures being taken.

CHURCH—1 story and base, brick \$20,358. Astoria, Ore. Architects, Whitehouse & Foulhoux, Wilcox Bldg., Portland. Owners, Methodist Episcopal Church. Contractors, Burgess and Burgess, Astoria. Contract price, \$20,358.

GARAGE—2 story and base, reinforced concrete, \$20,000. Portland, Ore. Architects, Whitehouse & Foulhoux, Wilson Bldg., Portland. Owner, M. J. Thomsen. Location, 10th and Washington streets. Designed for a commercial garage. Plans complete and figures being taken.

WAREHOUSE ADDITION—1 story, reinforced concrete, \$35,000. Portland, Ore. Engineer, Engineering Department, O. R. & N., Portland. Owners, Oregon-Washington Railway & Navigation Co. Location, North Portland. Plans being prepared.

RAILROAD CONSTRUCTION—\$300,000. Roseburg, Ore. Engineer's name not given. Owner's Roseburg & Eastern. Bids are being advertised for by the city of Roseburg, Ore., calling for contract figures on constructing the proposed Roseburg & Eastern Railway, which the city is financing. It is understood that a tentative agreement has already been reached with Kendall Bros., of Pittsburgh, whereby they will handle the job, which is expected to run close to \$300,000. In fact, it is understood that they have already offered practically all of the materials. With the railroad work under way the city officials have every reason to believe that Kendall Bros. will erect a large sawmill plant at Roseburg, to cost about \$250,000. The railroad is to be 25 miles in length, and taps a rich lumber belt.

SEATTLE AND WASHINGTON

BRIDGE SUPERSTRUCTURE—Cost not stated. Seattle, Wash. Engineers, Port of Seattle Commission, Seattle. Owners, City of Seattle. At a recent meeting of the Seattle Board of Public Works the Beers Building Co., Seattle, contractors for the superstructure of the 10th Avenue N. E., or Eastlake Bridge, was declared in default following the receipt of a letter from N. H. Beers. The superintendent on the contract, the Guardian Construction Co., of Salt Lake City, have been notified to complete the contract.

WAREHOUSE ADDITION—2 story, frame, \$31,000. Seattle, Wash. Archi-

tect, Port of Seattle Commission, Seattle. Owners, City of Seattle. Location, foot of Spokane street. Will cover an area of 350 by 50 feet. Plans being prepared.

SHIP BUILDING PLANT—\$5,000,000. Harbor Island, Wash. Engineer's name not given. Owners, J. E. Duthie Co., Seattle. Contractors, E. J. Rounds Construction Co., Walker Bldg., Seattle. Note, this first unit of this plant has been awarded at a contract price of \$25,000. Other contracts will follow shortly.

WORK FOR SEASON 1916-1917 UNDER AUSPICES OF ARCHITECTURAL CLUB.

A Class in Structural Engineering under the instruction of Mr. R. S. Chew, C. E., who has conducted very successful classes at the San Francisco Architectural Club during the past two years. Owing to requests from a number of members who wish to take up this work it is proposed to form a new class and start from the beginning. The following is a synopsis of the subjects included in the course:

Mechanics of Simple Structures, including motion, forces, moments, and the principles of static equilibrium.

Mechanics of Materials, including strength, stiffness, elasticity, stresses and strains, bending moments, shear, moment of inertia, radius of gyration, etc.

Manufacture of Various Materials, Graphical Method of Analysis.

Design, Beams, columns, trusses, retaining walls.

The course will be completed by the final design of ten plates which will include the problems in the above topics. The dues will be \$2.50 per month to club members. Full details will be taken up at a special organization meeting to be held in the club rooms at 126 Post street, Thursday, evening, August 21, 1916, at 8.00 o'clock. Anyone interested is cordially invited to attend this meeting. A card with your name and address will bring you further announcements of this class.

Architectural Student Work.

The San Francisco Architectural Club is the Western headquarters of the Society of Beaux Arts Architects, by whom the programs and prizes for the various competitions are arranged.

Through the kindness of Architects John Reid, Jr., and John Baur, every student receives personal criticism of his work as the problem progresses.

The Class B Analytiques (Order Problems) are open to new students for the study of the Application of the orders of Architecture, and their Detail at a large scale.

The Class B Projects (Problems in Design) require not only good architectural treatment of the elevations and sections of a building, in character with its use, but a well composed plan, in which the general arrangement is simple, the structural features carefully studied, and the circulation and the location of the stairways arranged in a practical manner.

The Class B Esquisse-Esquisses (Rendered Sketches) are given to teach the student to design and present rapidly and skillfully simple architectural problems. This training is of the greatest assistance in the studying of larger architectural problems and is of the utmost importance.

The Class A Projects (Problems in Advanced Design) require an advanced knowledge of planning, and the principles of decoration. In general a well composed plan which shall meet intelligently the requirements of the Programme is of primary consideration, but if the problem is a decorative one, the composition of the decoration may take precedence over the plan and structural requirements.

The Class Esquisse-Esquisses (Rendered Sketches) for students studying problems in Advanced Design, require sketch designs completed within nine (9) hours. Small monuments, the decorative treatment of some subject simple in plan, group plans, etc., etc., are typical subjects.

The Archaeology Projects (Problems in Different Epochs of Design) are given to familiarize students of Class A and Class B with the recognized styles of architecture in the different epochs of design. An archaeology Project requires an esquisse (Preliminary Sketch) to be made en loge and the Project Rendu (Final Drawings) to be prepared as in Class A or B Competitions in conformity with the regulations of the programmes of competition which often permit the advantageous use of color in the rendering and in which the shadows must be accurately cast.

Active Atelier work will start about September 26, 1916. A calendar showing the dates for all problems during the 1916-1917 season will be posted in the club rooms about September 15, 1916.

If interested, send your name and address, and further information will be forwarded to you.

STOCKTON ARCHITECTS ORGANIZE.

New Organization Promotes Much Better Feeling and Will Result in New Building Code.

A permanent organization of the Stockton architects has been accomplished and regular monthly meetings are now being held. Members of the organization are more than pleased and report the best of feeling.

Stockton has for years been without a building code, only construction within the fire limits being subjected to any restriction. This matter has been entirely in the hands of the Chief of the Stockton Fire Department and has been very unsatisfactory. The architects have now secured the support of the City Council, and a committee of their organization is at work compiling a building code for the city.

CITY AND TOWN PLANNING AIDED BY THE UNIVERSITY.

Wise forethought by California communities in taking up problems of civic improvement, landscape gardening, tree-planting and floriculture is to be aided by the University of California.

The Division of Landscape Gardening and Floriculture of the University of California, of which Professor J. W. Gregg is the head, will hereafter send a representative to any California community which wants preliminary study of any particular problem of landscape or floral interest. No charge whatever is made when such service

is of general civic value, but when of value to individuals only, a charge is made for the expense incurred. This work is planned to be advisory and educational in character, and in cases where the problem is of such a nature and of such size as to need the services of a practical landscape architect, the community or individual is so advised.

Without expense, also, the University will send experts to give public addresses on any phase of civic improvement of landscape gardening on which light is desired by improvement clubs, chambers of commerce, city and town planning commissions, school boards or other organizations interested in improving the landscape and town-planning conditions of their home communities.

The movement in favor of universal military training and service is growing rapidly throughout the country, according to reports received by the National Security League.

A year and a half ago there was practically no expression of public sentiment on the subject of universal service. The first discussion of the subject by a body of assembled delegates occurred at the National Defense Congress of the National Security League, held in Chicago, November 27, 1915. At that time, however, action was deferred because it was thought the public was not then sufficiently familiar with the idea to insure its receiving the consideration its importance warranted.

After a thorough study of the question, especially with reference to its application to our democratic form of government, a special committee of the League, to which it had been referred recommended it strongly, and a resolution approving the principle was unanimously adopted at the National Security Congress last January.

The growth of the sentiment for universal service has since that time been demonstrated by the number and character of expressions favorable to it which have come from all parts of the country. The introduction of a universal service bill in Congress by Senator Chamberlain of Oregon, and a nation-wide discussion, disclosing the democratic spirit of such a system, attracted attention to its merits as the basic foundation of national defense, and a recognition of the necessity for its adoption. This necessity has been emphasized by the experience of the militia call to the Mexican border which has disclosed the inequality and unfairness of a system that imposes all the burden upon the few who had voluntarily qualified themselves for service.

A striking feature disclosed in the educational campaign on this subject is that the real opposition to obligatory training and service is very limited. It has been shown that wherever serious thought has been given to the subject sentiment is generally favorable to the principle. A positive expression of opinion is often held in reserve on account of a lack of thorough understanding of the principle of universal service, but expressions of disapproval are rare.

Since the adoption of the resolution favoring universal service at the National Security Congress in Washing-

ton, several other conventions have adopted similar resolutions at the instance of the League.

Every canvass or referendum vote has shown a strong sentiment in favor of universal service and training. The vote by which the Chamber of Commerce of the United States, with its membership of 300,000 business men, endorsed such a system was at the ratio of \$89 for to 56 against.

The resolution of the Merchants' Association of New York adopted at their meeting in May of this year recommended military training of the entire male population physically able to bear arms, such training to be during the non-productive period of their lives before they have taken up their profession, business or vocation.

The Chicago school board, without a dissenting vote, adopted a resolution making the rudiments of military training a part of the curriculum of the high schools.

During the convention of the National Education Association held recently in New York, the National Security League submitted a resolution urging "That a system of universal physical training, as nearly as practicable similar to the system in vogue in Switzerland, be introduced in the elementary schools of the United States, and that instruction in the rudiments of military drill be established in the high schools and colleges." While the National Education Association did not accept this suggestion in its entirety, it adopted a resolution saying: "While it recognizes that the community or the state may introduce such elements of military training into the schools as may seem wise and prudent, yet it believes that such training should be strictly educational in its aim and organization, and that military ends should not be permitted to pervert the educational purposes and practices of the schools."

A referendum vote taken by the Chicago Tribune showed only 75 votes against the proposition out of 6,255 votes recorded. A similar vote taken by the Baltimore Sun in a number of States showed \$186 for universal service and 1,055 against. Votes taken in a like manner in various parts of the country have shown like results.

The results already achieved in awakening sentiment for universal service greatly encourage officials of the National Security League in the continuance of its campaign for the ultimate acceptance by the country of this necessary system of national defense.

HUGE CEMENT MERGER IS FOUGHT.

PORTLAND, ORE.—In a \$1,500,000 suit on file in the United States court here, fourteen big western and Canadian cement companies are charged with illegally combining in violation of the Sherman and Clayton anti-trust acts. The action was instituted by A. N. Moore, vice-president and treasurer of the Oregon Portland Cement Company of Oswego.

He asserts the alleged international trust seeks to absolutely control or ruin his concern, that it arbitrarily confines his production of cement to one-sixth the capacity of his plant, dictates the exact territory he may do business in and has attempted several

times to ruin him by methods known in the world of high finance. It is further alleged that the combine makes cement rates pay \$1,200,000 more for cement annually than they should pay.

The following defendants are named: Pacific Portland Cement Company, San Francisco; Santa Cruz Portland Cement Company, San Francisco; Standard Portland Cement Company, San Francisco; Henry Cowell Lime and Cement Company, San Francisco; Washington Portland Cement Company, Seattle; Superior Portland Cement Company, Seattle; Olympic Portland Cement Company, Seattle; Colorado Portland Cement Company, Denver; International Portland Cement Company, Spokane; Lehigh Portland Cement Company, Allentown, Pa.; Three Forks Portland Cement Company, Butte, Mont.; Cement Securities Company, Ogden, Utah; Vancouver Portland Cement Company, Limited, of Vancouver, B. C., and a number of individuals.

FURNACES NOW TO BE HEATED BY ELECTRICITY.

MODESTO, Cal.—An "electric furnace" is the invention of Modesto's latest inventor, A. C. Fingerle. The invention is now protected by a "patent applied for" just received from the patent office at Washington through James L. Norris, patent attorney, by Attorney E. H. Zion, and Fingerle is ready to talk business to any manufacturer who may make him the proper offer in royalties or outright purchase.

Fingerle's "electric furnace" is the result of grievous personal experiences with coal furnaces, and experiments with electric heating devices in his own home. A heating plate placed in the floor in a corner of one of the rooms at the Fingerle home on Hackberry avenue last winter brought good results and the conception that electricity might be used instead of coal or gas in heating a furnace to warm an entire house.

The heating device for the electric furnace consists simply of a plate of Lincoln clay, a Sacramento valley product containing little or no iron. In this plate are arranged resistance coils alternately with perforations through which air passes from the door of the furnace to the conduits which carry the heated product to the rooms of the house. The clay plate is placed upon a hollow base of concrete and is surrounded by an air chamber insulated to retain the heat with the least possible loss.

Search of the patent office at Washington by Attorney Norris discovered no similar previous invention. Tests which have been made by Fingerle indicate that the use of electricity for heating this furnace is within the range of economy.

ASSISTANT CITY ENGINEER CHOSEN

FRESNO, CAL.—C. C. Van Valkenburgh has been appointed deputy city engineer to fill the position recently resigned by Leo A. Granger. Van Valkenburgh has been a member of the city engineer's force for two months assisting in preparations for the construction of the new sanitary sewers and storm drainage system.

WATER WORKS IN CITIES.

The Bureau of the United States census has published a report giving statistics concerning water works, for the year ending June 30, 1915, for all municipally owned plants in cities of more than 50,000 population.

Of the 204 cities of the country of more than 50,000 population, only 46 have not a municipal supply; but 3 of the others—San Francisco, Birmingham and Denver—purchase most of their supplies from private corporations, the municipal systems being small ones. Municipal plans are found in all the 19 cities larger than 500,000; in 36 of the 42 cities of between 100,000 and 500,000 population; in 44 of the 66 cities of between 50,000 and 100,000 and in 56 of the 82 cities of between 20,000 and 50,000. Indianapolis, Ind., population 259,820, is the largest city supplied exclusively by a private company.

Between 1880 and 1889, 7 of these cities purchased existing water systems; between 1890 and 1899, 14 cities; between 1900 and 1909, 16 cities; and 11 have purchased the systems since 1909. Only 20 of these cities have built their own systems since 1880.

The estimated values of the municipal systems of these 155 cities is \$1,071,291,511, of which \$350,044,152 is the value of New York City's. The per capita values (based on populations reported served) are as follows: Cities of more than 500,000 population each, \$14.26; those of 300,000 to 500,000, \$44.44; those between 100,000 and 300,000, \$37.63; those between 50,000 and 100,000, \$32; those between 20,000 and 50,000, \$36.95. New York City's value is \$65.62 per capita, and that of the cities larger than 500,000 excluding New York is \$29.15.

Rivers and small streams furnished the whole of the principal supply for 6 of the 9 cities in the first group (larger than 500,000), 7 of the 10 cities in the next group, 26 of the 36 in the next group; 25 of the 14 in the next group, and 29 of the 56 smallest cities. Wells formed the sole source of supply in none of the first and second groups (although a large part of the supply of Brooklyn borough of New York City is from wells, as is the small municipal supply in San Francisco); in 6 of the third group; in 11 of the fourth group, and in 16 of the fifth group. The largest city relying entirely upon wells is Memphis, Tenn., although Spokane, Wash., supplies nearly two and a half times as much water from its wells to 80 per cent as many consumers. Lakes and ponds furnish the bulk of the supply to 3 cities of the first group, 2 of the second group, 4 of the third, 7 of the fourth, and 10 of the fifth group.

Standpipes are found in 98 of the 155 cities, the total number being 162. Several of the larger cities have more than one standpipe. Pittsburgh having 12, New York 9, Philadelphia and St. Louis each 3, Boston and Baltimore each 2. Of the second group of cities, Seattle has 9, Cincinnati 6, Washington 4, Milwaukee and Minneapolis each 2. Of the remaining 24 have more than one standpipe, Dallas, Spokane and Wheeling each having 6; Fall River and Woonsocket 4, Portland, Tacoma, Youngstown, Duluth, Brockton and Kalamazoo 3 each. Schenectady has 2 with a combined capacity of 3,000,000

gallons, or an average of 1,500,000 gallons each, this being the largest average capacity of any city.

The wells used total 3,668 in number, of which New York has 1,367, Lowell 689, Newton 250, Dayton 126, Camden 106, South Bend 100, Canton and Portland each 90, and Memphis, the largest city relying exclusively on wells, 80. The diameter of the wells vary from 2½ inches to 26 inches; also one 25 feet and two 47 feet diameter. The majority lie between 4 and 12 inches.

The depths vary from 25 feet to 3,000 feet, those over 1,000 feet being found at Dallas, Houston, Jacksonville, Rockford, Duquesne, Joliet, Cedar Rapids, Waterloo, Aurora and Waco.

Pumping is done by all but 23 of the 155 cities. In these plants the total horsepower capacity of steam engines other than turbines is 253,369, while that of steam turbines is 26,331. Electric turbines have a combined capacity of 55,076 horsepower; water-power, 11,032 horsepower; and gas and oil engines, 2,965. The number of engines used are: steam, 712; steam turbine, 69; electric motors, 349; gas and oil, 42; waterwheels and turbines, 36.

More than twice as many plunger pumps are used as centrifugals, but with less than twice the capacity; the average capacity of the former being 8.0 million gallons per day, and that of the latter, 3.2. In the cities of 30,000 to 50,000 population, there are 145 plunger pumps with an average capacity of 4.2 million gallons per day, and 164 centrifugal pumps averaging 3.5. New York has the largest number of pumps, 162; Philadelphia is next with 62, and Chicago follows with 48. Philadelphia leads in capacity, having a combined capacity of 1,040 million gallons per day; New York has 987 million gallons, and Chicago 877.

On the average, only 39 per cent of the available capacity of the pumps is required to perform the work of the average day, leaving in most cases considerable surplus capacity for days or hours of maximum consumption. Several cities state that the average daily requirement for the maximum month is 25 to 30 per cent greater than that of the daily average for the year, and in some years the requirement for the maximum day is twice as great as the average for the year.

LUMBER IN ITALY.

ROME—Ocean freights on American lumber have increased tenfold since the war began and the Italian Government is beginning to make inroads on its own previous reserve stocks of standing timber. There are about 16,000 square miles of forest area in Italy, or one-seventh of the total area of the country. Most of the timber wood is found in the Apennine Mountains which follows the entire length of Italy, beginning north of Genoa and rising out of the fertile plains of Piedmont. The wood is being used by the Government in large quantities for the construction of soldier barracks at the front, for strengthening trenches, for railroad and foot or wagon bridges along the countless new roads built at the front, as a part of the army's transportation system. Much of this lumber is carried piece by piece far above the timber line of the mountains, where

the soldiers are fighting on barren glaciers. The kind of wood being cut in Italy's forest is fir, oak and sycamore, woods formerly imported from Austria. Until recently many ship loads of pitch pine, mostly from the gulf ports of the United States, were delivered into Italy. But the freight and handling cost has made the price prohibitive. Anderson Polk, an American timber agent traveling in Italy, stated to the Associated Press correspondent that the value of the cargo of one of the last ships to arrive at Genoa from Tampa, Fla., was board measure, costing \$25 per 1000 feet at the wharf before the war, at present costing \$100 per 1000 feet.

SOLANO IRRIGATION.

DIXON, CAL.—It is stated on good authority northern Solano will have an irrigation system in less than two years. The source of water is said to be Cache Creek and Prospect Slough in the vicinity of Maine Prairie with the main ditch running southwest of Dixon towards Winters, Yolo County, which would require one or two lifts operated by powerful pumps.

TO INSTALL REDUCTION PLANT.

BAKERSFIELD, CAL.—A reduction plant of 100 tons capacity for handling the copper ore at the Winger mine in the Woody district, 30 miles north of Bakersfield, will be installed by the owner, Jos. Wetinger, this year. Some \$50,000 capital is to be invested in the mine, from which very good ore is being shipped. At the prevailing price of 25c to 27c a pound, it is claimed there is several million dollars' worth of ore in sight in the mine.

ARGENTINE-BOLIVIAN RAILWAY CONSTRUCTION.

ROSARIO, ARGENTINE.—By a decree of June 21, 1916, the Argentine Government has approved the plans and estimates prepared by the administration of State Railways for the extension of the Central Norte line to the Bolivian frontier to meet the La Quiaca-Tupiza line. The plans call for the construction of 1,568 feet of track, a culvert and a stone bridge across the La Quiaca River, and an expenditure of \$30,109. This includes one-half the cost of the bridge, as the Bolivian Government will pay the other half.

THE TITLE "ENGINEER."

It is unfortunate, according to the Engineering Record, that in America most people associate the word "engineer" with a man who runs an engine or a boiler. Even the man who operates the boilers of an apartment building is called an "engineer," although the name is entirely a misnomer when applied to him. He may be a good mechanic, but he is not an engineer. The gray haired man who drives the locomotive of a transcontinental limited and who holds the lives of hundreds of human beings in his care belongs to the very highest type of mechanic, but he is not an engineer, except in the United States and Canada. All foreign languages have words that properly designate the work these men are doing. In our country there is no word to distinguish them from the bridge builder, the sanitary expert, etc.

MILLION DOLLARS FOR NATIONAL FOREST ROADS THIS YEAR ALLOTTED.

Plans Announced for Work Under Federal Road Act.

WASHINGTON, D. C. — Secretary Houston has just announced the plan to be pursued in spending the ten million dollars appropriated by the Federal Aid Road Act for the construction and maintenance of roads and trails within or partly within National Forests, and has tentatively allotted among the various National Forest States the million dollars which is expendable this fiscal year.

The tentative allotments to the principal National Forest States are as follows: Alaska, \$46,250; Arizona, \$59,795; Arkansas, \$11,294; California, \$140,763; Colorado, \$62,335; Idaho, \$108,010; Montana, \$89,901; Nevada, \$19,195; New Mexico, \$42,622; Oregon, \$127,794; South Dakota, \$8,115; Utah, \$10,982; Washington, \$91,739; Wyoming, \$40,566. In addition, a total of \$9,552 has been tentatively assigned to Florida, Michigan, Minnesota, Nebraska, North Dakota, and Oklahoma, while the Eastern States—Maine, New Hampshire, Virginia, West Virginia, North Carolina, South Carolina, Tennessee, and Georgia—in which the Government is purchasing lands for National Forests, have been allotted \$21,057.

"In general," said Secretary Houston, "the States and counties will be required to furnish co-operation in an amount at least equal to 50 per cent of the estimated cost of the surveys and construction. However, upon a satisfactory showing by the applicant State or county that such proportion of co-operation is inequitable, it may be altered and the ratio of co-operation fixed upon a basis equitable to both the State or county and the United States."

The method followed in apportioning the money was explained by Secretary Houston as follows: Ten per cent of the amount available each year will be withheld as a contingent fund. One-half of the remainder will be allotted to the States in amounts which will be based on the area of National Forest lands in each State. The other half will be apportioned on a basis of estimated value of timber and forage resources which the Forests contain. Amounts apportioned but unexpended with three years, and any balance of the contingent fund which remains unapportioned at the end of each year, will be reapportioned on the same basis as the original allotments.

The two groups of States to which lump sums are allotted are, it was explained, to be considered as single units of apportionment. Apportionments now to be made are for the current fiscal year only. Hereafter new apportionments will be made, giving consideration to the number and character of applications made by the State and county officials for expenditures on specific projects. These applications must be filed with the District Foresters in the seven National Forest Districts on or before January 1 of each year, for the fiscal year beginning the following July 1.

The determination of the projects upon which funds will be expended

during the current fiscal year will be made on the basis of applications which must be filed with the District Foresters on or before October 1, 1916. Each application must contain a statement of the public needs to be served by the proposed road and the manner and extent to which it would aid in the development of resources upon which communities within or adjacent to the National Forests are dependent, and must also show the general location of the proposed road and its estimated cost. As already stated, in general States and counties must be prepared to furnish co-operation equal to at least 50 per cent of the estimated cost of surveys and construction. This co-operation may be in the form of money, labor and materials, or the construction of roads. Where other factors are equal, the approval of a project may be determined upon the relative amount of co-operation offered. Many applications have, it is stated, already been received for expenditures upon specific projects.

BRICK AND TILE PRODUCTS.

The value of the brick and tile products of the United States in 1915, according to the United States Geological Survey, Department of the Interior, was \$125,794,844. Three varieties of brick and tile and miscellaneous products increased in value in 1915 compared with 1914. Front brick, valued at \$9,555,556, increased \$245,913, or nearly 3 per cent over 1914; drain tile, valued at \$8,879,264, increased \$457,225, or 4 per cent; fire brick, valued at \$18,839,931, increased \$2,412,384, or nearly 15 per cent; and miscellaneous products, valued at \$3,716,914, increased \$551,130, or 17 per cent. There was a decrease of the total product of about 3 per cent.

The product that showed the greatest decline was sewer pipe. Common brick and terra cotta also showed decrease compared with 1914. The decrease in these industries occurred during the early months of the year, but the conditions improved during the last three or four months of the year, the year closing with bright prospects for 1916.

THE FIRST ELECTRIC LAMP.

The basic discovery of the possibility of electric light was made by Sir Humphry Davy in 1810, but for the next fifty years the developments were solely scientific and no practical use was made of them. In 1862, however, an arc light was installed in lighthouse at Pungeness, and this is generally believed to be the first electric lamp in regular service.

CENTRAL CALIFORNIA GAS CO.

TULARE, CAL.—The Central California Gas Co. has filed with the Railroad Commission an application for authority to install a municipal street lighting system in Tulare, Tulare County, to issue a sufficient preferred or common stock to pay for the construction and to contract with the city of Tulare for gas service at \$52 a year for each of forty-four lights for five years. The commission has also authorized the Central California Co. to

issue a total of \$49,500 in common and preferred stock for the purpose of making improvements on its Visalia plant. This makes a total of nearly \$50,000 asked for by President Forney. Of this amount about \$50,000 is to be expended in Visalia. A new generator and other improvements will be added, including more and larger mains.

HIG COPPER REDUCTION PLANT

According to A. P. Peake, Butte mining man, additional capital totaling \$40,000 or more will be supplied this fall for the erection of a 100-ton reduction plant at the Weringer mines in the Woody District, Kern County. An equal sum of money is said to have been expended in developing the property during the past several months. The property is 30 miles northeast of Bakersfield.

PUBLICATION ANNOUNCEMENT.

The Portland Cement Association, Chicago, Ill., has published two very interesting booklets dealing with concrete and some of its uses.

One booklet, entitled, "Concrete Sewers," contains 43 pages of information for contractors and engineers on sewer construction. The booklet entitled "Concrete Swimming and Wading Pools and How to Build Them" gives some very good ideas on the design of swimming tanks, etc. Both books are well illustrated and may be obtained free of charge upon request of the Portland Cement Association, 111 West Washington street, Chicago.

MARTINEZ SOON TO BE BIG CITY.

MARTINEZ, CAL.—The Shell Oil Company is doing some big things in Martinez at present. A new town has sprung up on account of the activity of three of the great oil companies of this country, the Shell Company, the Associated Oil Company and the American-Oriental Oil Company. Shell avenue is destined to play an important part in the business development of the new city as it connects up the Santa Fe Railroad with the great industrial activity which now is going on.

GRADE CHICO STREETS.

CHICO, CAL.—The reconstruction of thirty-two blocks of streets in the Chico Vecino suburb has been started by the county under the direction of Supervisor Robert P. Holmes. The streets will be graveled before the winter sets in.

SUBMARINE REPAIRING PLANT.

VALLEJO, CAL.—A submarine repairing plant to cost \$120,000 is to be installed at Mare Island this fall by the Public Works Department for the Machinery division, according to information received here from the Bureau of Steam Engineering. The plant will be one of the most modern of its kind in the United States, and when in operation the navy yard will be in a position to construct as well as to thoroughly repair submarines of all types.

KLINGSTONE PRODUCTS.

Klingstone Stucco and other magnesite products, manufactured by the Magnesite Products Company, 1295 Humboldt Bank Building, San Francisco, have now been before the public for somewhat over a year and the material is not only proving all that the manufacturers claim for it, but shows results which are very astonishing to those who have either used it or investigated its application. It has, without doubt, been demonstrated to the Pacific Coast Builders and Architects that Magnesite, as a building material, is destined to play a very important part in future construction work.

Magnesite Stucco has been used very

pendable durable and economical line of magnesite building materials and on the other hand because the entire Western Hemisphere is today dependent on California for its supply of Magnesite.

With the supply and demand thus afforded, and in evidence of the success and popularity of Klingstone, the Magnesite Products Company have already applied their material to a great many buildings, both new and old, and under such varying conditions that the heavy rains and fogs of the Coast cities and the dry burning winds of the inland valleys have had full opportunity in accomplishing such destruction or deterioration as is within

bonding directly to the surface to which it is applied. On account of the nature of the mix there is no shrinkage of mass in the material, no such thing as hairline cracks and no drawing away of the stucco from doors and window trims. There is no appreciable shrinkage or expansion due to variation in the temperature, and as a result of these qualities the possibility of moisture penetrating and getting behind the stucco coating of the building is practically eliminated.

Klingstone, when set, has many times the tensile and breaking strength of lime and cement plaster. It also possesses considerable elasticity, and it is, on account of the combination of these qualities, which no cement plaster has ever been known to possess, that it shows such remarkable durability as a building material.

There are three very satisfactory methods of preparing a frame building for Klingstone Stucco.

1. Sheath the building with four inch or six inch rough boards and if one side is surfaced put the rough side out. Over this sheathing, nail one inch galvanized eighteen or twenty gauge chicken wire and place strips of same material on all inside and outside corners.

2. Sheath the building with six inch rough boards each board having three longitudinal saw cuts or grooves approximately one-quarter inch wide by one-quarter inch deep. Place strips of one-half inch mesh wire on all inside and outside corners.

3. Sheath the building horizontally with the same size and grade of lumber as is used for cement plaster and then nail standard wood lath diagonally in the same manner and spacing as for inside lathing. Use one inch galvanized eight-een or twenty gauge or one-half mesh strips on all inside and outside corners.

Under any of these methods building paper may be used behind the sheathing, or under method three the paper may be used under lathing, but in no case is it necessary. Furring strips are not recommended under any condition, and the standard method of using paper and furring strips is not desirable as it not only requires more material than is necessary, but results in a bond between the Klingstone and the paper, with no substantial tie between the paper and the surface of the sheathing. The corner strips in all cases should be nailed well and should lap at least four and one-half inches each way. In applying the first coat of Klingstone, the surface of the building is first treated with a light wash of Klingstone Oil in order to prepare the surface and to produce a bond between the two materials. After a few days set the second coat may be applied and floated, stippled or dashed as may be desired.

The matter of proper construction and preparation is as necessary with the use of Klingstone as with any other material, and while Klingstone will stand considerably more stress and rougher usage, such things as settling corners and poorly constructed bays, cornices and other structures, if improperly braced, have been known to cause breaks and to mar what would otherwise be first class work.

In addition to new work, Klingstone is used very extensively for the over-coating of existing frame buildings.

Residence of Mr. Daniel McPhee, 880 El Camino Del Mar and 32nd Ave., San Francisco, Covered With Klingstone Stucco.

extensively and successfully in the Eastern States for the past ten years, but on account of the scarcity of high-grade magnesite and also on account of the high cost of transportation, little had been known of this material on the Pacific Coast previous to the last few years.

The Magnesite Products Company in San Francisco have associated with them those who have had a great many years experience in the manufacture of magnesite products. They are closely associated with the Sonoma Magnesite Company, of California, which company owns one of the largest properties in the State. The two companies have joined the ranks of our Home Industries and have made an extensive investment in this State, because on one hand the Pacific Coast offers an immense market for a thoroughly de-

veloped power, and limiting the power of the Elements is the purpose of this material.

Klingstone is made up of two component parts, one, the dry material which is prepared and mixed in the San Francisco Plant of the company and which is shipped in 100-lb. sacks, and the other, Klingstone Oil, handled in 50-gallon drums which is a liquid preparation containing the setting and waterproofing materials. The powder and liquid are mixed, applied and finished in a manner differing little from that of cement plaster. At any rate, the method of use is readily understood by any intelligent workman.

The material is applied in two coats to a total thickness of 1½ inch. It can be floated in three hours after application and sets extremely hard in twenty-four hours at the same time

Any building, no matter what its finish may be, no matter what its design may be, can be transformed into a modern stucco building by the use of chicken wire nailed directly over the painted or unpainted surface, and then applying Klingstone the same as on new work. As a beautifier, as an additional protection against the weather, and as a means of enhancing the value of ones property, this offers a most satisfactory and economical means.

The Magnesite Products Company, at their general office, 1265 Humboldt Bank Building, San Francisco, have samples of various finishes on display and welcome at all times a visit or call from those who may be interested.

DEEP WELLS THAT FEEL THE SEA.

In their investigation of the underground water resources of the Coastal Plain of Virginia the geologists of the United States Geological Survey have collected data relating to the many hundreds of artesian wells that yield excellent waters in large areas of the coastal region. Particular note has been made of the quantity and quality of the supply afforded by wells that give flows at the surface. The water of most of these wells is admirably adapted to household uses, though that of some of them contains enough mineral salts in solution to make trouble in boilers used for steam production.

The variation in flow exhibited by these wells with the rise and fall of the tide is of peculiar interest, the flow being notably greater at the flood than at the ebb tide. It is the general opinion among well drillers that practically all flowing wells near tidal rivers or inlets from open bays do feel the distant sea, but some of them so slightly that the variation in flow is not noticeable.

The geologist in charge of the ground-water investigations in Virginia states that changes in water level in wells, due to fluctuations in the height of the surface of some neighboring body of water, have been observed all over the world. It is customary to explain these changes by supposing a direct connection between the river, lake, or bay; but in many places, as in eastern Virginia, such connection is clearly impossible, owing to the depth of the wells and the nature of the intervening beds some of them dense, tough marls and clays. These beds, however, though they do not transmit water, nevertheless contain it, and as water is practically incompressible, any variation of level on the river or bay is transmitted to the well through the water-filled gravels, sands, clays, and marls. When a porous bed is tapped by a well the water rises to the point of equilibrium and fluctuates as the head of the ocean varies its pressure on the beds that confine the artesian flow.

LAUREL THE EFFICIENCY HARDWOOD.

Do you know that California Laurel, being one of our native woods, is the cheapest hardwood obtainable in this market? Its value is becoming more appreciated every day. Here in San Francisco some of our largest buildings, for instance the Palace and St. Francis Hotels, are finished in Mahoganyized Birch. California Laurel

achieves the same or better results at a much lower price.

California Laurel does not cost very much more than Redwood or Oregon Pine. It costs considerably less than any other hardwood. It can be used for practically any purpose where hardwood is required, either for strength or adornment, and it is fast becoming a general utility hardwood. It makes fine furniture, durable store, bank and office fixtures, and lasting and dependable interior trim. Like birch, it mahoganizes easily and well and it is much cheaper than birch. It is easily worked and at the same time very strong so that whether desired for strength or adornment, California Laurel will fill the bill most economically and efficiently.

PLEA TO HOUSE FOR ADEQUATE NAVY PROGRAM.

WASHINGTON, D. C.—A strong appeal for an adequate navy program has been addressed to Chairman Padgett of the House Committee on Naval Affairs by Bascom Little, of Cleveland, Chairman of the Committee on National Defense of the Chamber of Commerce of the United States.

Mr. Little sets forth that a program

of naval construction sufficient to re-equip the United States at least to its former position or second naval power in the Atlantic, with a surplus force in the Pacific sufficient to protect our coast trade routes, possessions, the Canal Zone and adjacent territory, was recommended by an overwhelming vote in the recent referendum on National Defense taken by the Chamber of Commerce of the United States. He informed Chairman Padgett the actual count of votes showed 952 votes in favor and only 10 against.

Three hundred and fifty-nine commercial and trade organizations representing forty-three states according to Mr. Little took part in the ballot.

"This record of business opinion in favor of an adequate navy has seemed to us momentous," Mr. Little argues, "and I am writing to urge upon you and your committee the adoption of a program not less than that passed by the Senate. Even the construction endorsed by the Senate will not, we are informed, attain the full measure of defense which the business men of the country have recommended. It seems, however, to offer a practical and tangible beginning and I take the liberty of urging it upon you on that account."

LAKE PROJECT IS PROGRESSING RAPIDLY.

TULARE, CAL.—The proposition to reclaim 262,000 acres of the Tulare Lake basin and construct a reservoir and canals to hold the lake waters for irrigation purposes, at a cost of \$6,000,000, is being presented to land owners, and after a few more signatures are secured the plan will be presented to the State Reclamation Commission, according to a statement made by A. G. Wishon, general manager of the San Joaquin Light and Power Company, when he returned from the lake to Fresno Wednesday. At present 175,000 acres of the lake bed is under water, and the damage this season was \$2,000,000. The cost of the reclamation project is estimated at \$20 per each acre of land benefited, but more than this amount will be added to the value of the land. It is planned to confine the lake to a reservoir covering 20,000 acres, to lead the water into the reservoir from the various rivers and streams flowing into the lake, and to provide canals to carry off the surplus water.

PROPOSE TO RECLAIM THOUSANDS OF ACRES.

HANFORD, Aug. 8. —Reclamation and irrigation of 262,000 acres of Tulare basin lands is the project being presented to the interested land owners by the San Joaquin Light and Power Corporation, prior to taking the matter up with the State Reclamation Commission. Providing investigation proves there are sufficiently interested land owners the project will be taken up under the new irrigation and reclamation law by the creation of a district.

The project contemplates the checking of the flood waters of streams emptying into Tulare lake and storing the water for irrigation, thereby preventing the damaging of crops by floods. There are said to be 175,000 acres around Tulare lake covered by only a few inches of water and the system of dykes contemplated would reclaim this tract for farming.

The plan includes the construction of parallel dykes along both sides of streams flowing into the lake, thereby shutting the flood from the adjoining lands and impounding sufficient water in a 20,000 acre space of the lake for irrigating the reclaimed acreage. The cost is estimated at approximately \$6,000,000.

NEW MUNICIPAL BUILDING IN COLON.

COLON, PANAMA.—The city of Colon has just contracted for the erection of a new municipal building, which is to be situated at the corner of Broadway and Sixth street. It will have a frontage of 120 feet on Sixth street and will occupy two blocks with the exception of a space to be devoted to grass plats. It will be a reinforced concrete structure, two stories high, in the style of the Italian Renaissance with modifications.

The new building, which is to be as nearly fireproof as possible, will cost \$50,000.

ADVANCEMENT OF PERMANENT ROAD CONSTRUCTION.

In a recent address upon road building, Dean W. F. M. Goss, of the University of Illinois, reviewed at length the advancement in permanent road construction in the last two years, and said, in part:

"Every community, savage or civilized, has in some way sought to develop its means of travel and intercommunication. It was the established policy of the Romans when they had conquered a people and established a province, to open up highways which would connect the new possession with the sea and thence with Rome in order that a way might be established over which the vigor of the province and the refinement of the Capitol might flow and intermingle. It used to be a maxim in this western country of ours that 'every man has a right to have a road to meeting, to market and to mill.'"

"The character of the highway has always depended upon the nature and volume of the traffic it is designed to sustain. The foot traffic of the American Indian was served by the simple trail. Horse-drawn vehicles required a broader road, and the modern motor driven vehicle demands a way which is better located and more securely established. As a consequence the road of today must respond to high standards of excellence with reference to grade, curvature, character of surface, and in resistance offered to wear and disintegration under influences hitherto unknown. Moreover, these qualities must all be secured in return for minimum costs, for today choice in the selection of a public utility is largely competitive. The public cannot have all that it desires, and in the long run it selects that for which it thinks it is best able to pay."

"Two years ago there assembled in this place a group of men who were interested in the art of constructing roadways of Portland cement concrete. Their meeting constituted the First National Conference on Concrete Road Building. The existing mileage of concrete roads was then exceedingly small and the period during which such roads had been in service was short. The record of actual experience, both in construction and maintenance, was meager, but there was a three days discussion, and so well did the Conference work that towards its close there were drawn up a series of recommendations touching many questions which were fundamental in the art of concrete road building. These recommendations were put forth as constituting a summary of the best information then obtainable, touching the important matters which they were designed to cover. Ten thousand copies of the Proceedings of this first Conference were printed, and so great has been the demand for them that the supply was exhausted before the end of the year

The recommendation of the Conference received wide publicity through many different channels."

"Their use has served to develop uniformity in practice. The specifications of State, county and municipality have been improved by being brought into conformity with their requirements. In the year following the first Conference, there was built 14,200,000 square yards of concrete highways, pavements and alleys, an amount which was 10 per cent in excess of that of the preceding year, and which is equivalent approximately to 1,500 miles of 16-foot roadway. In spite of the human conditions of the country in 1915 and the inclemency of the weather in many portions of the country during the construction period of that year some 15,000,000 square yards of concrete roadway were constructed."

"The States of New York, Ohio, Wisconsin and California each laid over a million square yards, and Michigan, Illinois and Indiana each laid almost as much. The States of Delaware, Pennsylvania and Mississippi, during this year their first extensive investments in concrete roads, all with the result that more than 3,000 miles of concrete roads have been built during the past two years."

SHIP AND BOATBUILDING MATERIALS.

Getting the proper lumber in order to go on with the enormous amount of wooden ships and boats under construction has been quite a problem this year. Materials have, to a great extent, been contracted for before arrival, so that any builder wanting to pick up a keel or special sized piece of lumber in a hurry has quite frequently been up against it. The situation is being eased somewhat now as the results of foresight in ordering from the mills.

White Brothers, the pioneer hardwood dealers of the Pacific Coast, have tried in every way to give the best possible service to their many friends during these trying times. By bringing in everything which they could procure in the Eastern and foreign markets in the way of ship and boat building material, and issuing at frequent periods lists of the stock on hand for immediate shipment, they have helped the ship builders to know just what they could count on.

The latest list issued by these people under date of August 21st shows a goodly number of sticks, 1x14 inches up to 4x24 inches, 16 to 20 feet long in Hemlock and Oak, 16 to 20 feet long in Douglas Fir and Spotted Gum. Teak plank from 1 inch to 19 inches in thickness, a large quantity of Wybrock bending oak, some Treenails, and a number of Oak boat knees, natural crooks, to be had at very reasonable prices.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house, 4 story and base. Class C construction, \$85,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owners, Gerard Investment Co. Location, southeast Hyde and O'Farrell. Will contain a number of two, three and four room apartments. Plans complete and segregated figures being taken.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$17,000. Architect, O. R. Thayer, 217 Montgomery street, S. F. Owner's name withheld. Location, northeast 8th avenue and California street. Will contain six four-room apartments, basement garage, social hall and billiard room. Plans complete and figures being taken.

SAN FRANCISCO—Apartment house alterations, 3 story, frame, \$3,500. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner's name withheld. Location, Mission District. Work will include new plastering, painting, plumbing, electric work and interior and exterior carpentry. Plans complete and figures being taken.

SAN FRANCISCO—Apartment house alteration, 2 story, frame, \$2,000. Architect, W. S. Rhodes, 2372 16th street, S. F. Owner Mrs. Toner. Location, 1193 Dolores street. Work will include interior and exterior plastering, new interior trim, painting, plumbing and electric work. Work will be done by Day Labor.

SAN FRANCISCO—Apartment house and store, 1 story. Class C, \$15,000. Architect, Frank S. Holland, Call-Post Bldg., S. F. Owners, Estate of Ruben H. Lloyd. Location, north Sutter south Mason. Will contain store in front portion of building and living apartments in the rear. Plans complete and figures being taken.

EUREKA, HUMBOLDT CO., CAL.—Apartment house, 3 story and base, frame. Cost not stated. Architects, Koenig & Christiansen, Humboldt Bank Bldg., S. F. Owner, C. D. Daly. Location, Hillsdale and E streets. Will contain 29 apartments of two, three and four rooms. Plans complete and being figured.

SAN FRANCISCO—Apartment house alterations, frame, \$7,500. Architect, Edward T. Foulke, Crocker Bldg., S. F. Owner, George Goepfert. Location, north Green near Fillmore. Work will consist of alterations of five rooms each. Plans being prepared.

SAN FRANCISCO—Apartment house alteration, 2 story, frame, \$4,000. Architect, none. Owner, A. Petry, 336 Pierce street, S. F. Location, northeast Page and Scott. Work will consist of altering three flats into six modern apartments. Plans complete and work to be done by Day Labor.

Contracts Awarded

LOS ANGELES, CAL.—Apartment house, 2 story and base, brick and

steel. Cost not stated. Architect, Arthur Heineman, San Fernando Bldg., L. A. Owner, William J. Donald. Contractor, H. S. Heineman, San Fernando Bldg., L. A. Contract price not stated.

BATH HOUSES.

LODI, SAN JOAQUIN CO., CAL.—Bath house, 1 story, frame. Cost not stated. Engineer, City Engineer, Lodi Owners, City of Lodi Bids are being taken by the City Trustees for the erection of the proposed one story frame natatorium building to be erected in Lodi. Revised plans for this structure were prepared by City Engineer Barzellotti. Bids close Monday evening, September 18th. The tank for the structure is already in place.

BONDS

YUBA CITY, SUTTER CO., CAL.—The County Supervisors have definitely decided that the proposition of voting upon \$320,000 worth of county bonds for the Nicolaus, Live Oak and Grimes bridges, the completion of the Long bridge and a new hospital. The issue will be provided for on the November ballot.

The issue if carried will be disbursed as follows: Nicolaus bridge, \$165,000; Grimes bridge ($\frac{1}{2}$ cost), \$45,000; Live Oak bridge ($\frac{1}{2}$ cost), \$20,000; completion of Long Bridge Trestle, \$60,000; new county hospital, \$20,000.

PALO ALTO, SANTA CLARA CO., CAL.—A delegation from the San Jose Chamber of Commerce met with the Chamber of Commerce of this city at its regular meeting and agreed to petition the Board of Supervisors of this county toward having a new roads bond issue put for decision before the people at the November election.

According to the plans outlined by the joint body, the county will be asked to agree to a bonded indebtedness of \$1,000,000 to carry on the work.

SUSANVILLE, LASSEN CO., CAL.—The present \$20,000 county hospital has proven too small, and it is probable that a bond election will be called to provide funds for making additions to the structure.

MOCKELMNE HILL, CALAVERAS CO., CAL.—A petition is being circulated for the calling of an election to establish a high school in this district. The nearest high school at present is located at the county seat, a distance of ten miles. After the formation of the district a bond election will be called to provide funds for the building to be erected.

GLENDALE, LOS ANGELES CO., CAL.—The City Council has adopted a resolution to call a \$15,000 bond election for the purpose of purchasing new fire apparatus, including chemical wagons, several hundred feet of fire and chemical hose, couplings, etc.

LOS ANGELES, CAL.—The Panoche Valley Railroad Company has filed with

the State Railroad Commission, an application for permission to build a broad gauge railroad from South Dos Palos or Los Banos, through the Little and Big Panoche Valleys to what is known as the Ashurst ranch, in San Benito County, a distance of 52 miles. The estimated cost of construction is \$1,200,000. The company proposes to finance the construction by issuing \$100,000 worth of stock and \$800,000 of bonds. The incorporators are: B. J. Klarman, Geo. F. Eisenmeyer, Samuel Taylor, H. W. Altman, Harry A. Hollzer, all of Los Angeles.

SANTA MONICA, LOS ANGELES CO., CAL.—R. H. Moulton & Co. have been awarded the \$712,500 issue of Santa Monica Water Works 5% bonds, at par and a premium of \$51,557.81. There were twelve other bidders.

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—The Board of Supervisors has been petitioned to include in the next tax levy a sum of about \$25,000 for the construction of a cut-off from Deep Creek to the dam at the head of Big Bear Valley.

EAGLE ROCK, LOS ANGELES CO., CAL.—The proposed bond issue in the sum of \$60,000 for the erection of new school buildings at Eagle Rock failed to carry.

BRIDGES, DAMS AND HARBOR WORK

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—Bridge, steel. Cost not stated. Engineer, County Surveyor San Bernardino. Owners, San Bernardino County. Bids will be received by the Board of Supervisors up to 11 a. m. of September 25th for the construction of one 168-foot steel truss highway bridge across Timoteo Creek known as the Barton Avenue bridge, in accordance with plans and specifications on file at the office of the Board. Certified clerk for 5 per cent required. L. R. Patty is the Clerk of the Board.

CULUSA, COLUSA CO., CAL.—Levee construction. Cost not stated. Engineer, City Engineer, Colusa. Owner, City of Colusa. The Town Trustees have instructed Clerk F. E. Wright to advertise for bids for the proposed levee work from the east line of the city to the west. The bids will be to team and dredger work. Plans may be had from Town Clerk F. E. Wright.

Contracts Awarded

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—Bridges, 2 steel, \$20,200. Engineer, County Surveyor, San Bernardino. Owners, San Bernardino County. Contractors, Mercereau Bridge and Construction Co., Pacific Electric Bldg., L. A. Contract price, \$20,200.

BAKERSFIELD, KERN CO., CAL.—Bridge, reinforced concrete, \$2,653.33. Engineer, County Surveyor, Bakersfield Owners, Kern County. Contractor, Castro & Blaisdell, Bakersfield. Contract price, \$2,653.33.

MARYSVILLE, YUBA CO., CAL.—Bridge, reinforced concrete, \$4,199. Engineer, County Surveyor, Marysville. Owners, Yuba and Nevada Counties. The Supervisors of Yuba and Nevada Counties at a joint session awarded the contract for the joint county bridge over Dry Creek, near Spencer-ville to A. H. Burton of Grass Valley, being the lowest of four bidders at \$4,199. The highest bid for the work was \$8,300.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Bridge, steel and reinforced concrete, \$40,150. Engineers, Mayberry & Johnson, Pacific Electric Bldg., L. A. Owners, Santa Barbara County. Contractor, W. M. Ledbetter & Co., Pacific Electric Bldg., L. A. Contract price, \$40,150.

CHURCHES

SAN JOSE, SANTA CLARA CO., CAL.—Convent, 3 story, brick or reinforced concrete, \$100,000. Architect, William Klinkert, San Jose. Owners, Notre Dame Convent. The Sister Superior of Notre Dame Convent has informed our representative that all construction work contemplated at that institution will be carried on under the direction of Architect William Klinkert. This work will consist of the construction of a three-story and basement building either of reinforced concrete or brick and steel, which will cost about \$100,000. Construction will not be started for at least several months. Further mention will be made.

FLATS

SAN FRANCISCO—Flats, 2 story and base, frame, \$4,000. Architect, none. Owner, A. T. Morris, 501 11th avenue, S. F. Location, west 9th avenue north Cabrillo. Will contain two flats of five and six rooms with basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Flats, 2 story and base, frame, \$3,700. Architect, W. S. Rhodes, 3372 16th street, S. F. Owner, Margaret E. Grace. Location, Claremont avenue northeast Cobby. Will contain two flats and a store. Plans complete and figures being taken.

SAN FRANCISCO—Flats, 2 story and base, frame, \$5,000. Architect, Edward J. Foulkes, Crocker Bldg., S. F. Owner, J. W. McCarthy. Location, Balboa and 15th avenue. Will contain two modern flats with basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$7,500 each. Architects Antonovich & Harris, Monadnock Bldg., S. F. Owner, York Realty Co., 75 utter street, S. F. Location, east Aruello Boulevard south California. Each building will contain two flats of five and six rooms. Basement garage. Plans complete and figures being taken.

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$5,000 each. Architect, one. Owner, J. Johnson, 150 17th avenue, S. F. Location, east 17th avenue north Clement. Each building will contain two flats of five and six rooms with basement garage. Plans complete and work to be done by Day Labor.

GOVERNMENT WORK & SUPPLIES

Canal Work, Shoshone Project.

The following bids were received at the U. S. reclamation service, Powell, Wyo., for the construction of canal on the Shoshone project, Wyoming:

Hoyt Hayden, Great Falls, Mont., schedule 1, \$25,500; schedule 2, \$15,750; schedule 3, \$30,910; schedule 4, \$41,500; grand total, \$113,690.

Geo. P. Wright, Tacoma, Wash., schedule 1, \$27,084; schedule 2, \$16,110; schedule 3, \$32,257.50; schedule 4, \$10,145; grand total, \$115,596.50.

Tebbs & Taggart, Cowley, Wyo., schedule 1, \$27,130; schedule 2, \$15,823; schedule 3, \$34,694; schedule 4, \$48,860; grand total, \$126,507.

J. E. Hilton, Billings, Mont., schedule 1, \$26,020; schedule 2, \$15,790; schedule 3, \$34,270; schedule 4, \$42,260; grand total, \$118,340.

Lynn Brothers, Lovell, Wyo., schedule 2, \$17,725.

Threet Brothers & Jolly, Lovell, Wyo., schedule 1, \$27,400; schedule 2, \$15,980; schedule 3, \$34,800; schedule 4, \$47,880; grand total, \$126,060.

R. M. Lynn, Lovell, Wyo., schedule 1, \$27,520.

C. A. Welch, Cowley, Wyo., schedule 2, \$16,930.

David Lewis, Cowley, Wyo., schedule 2, \$16,175; schedule 3, \$38,660.

M. O. Mortensen, Cowley, Wyo., schedule 3, \$35,708.75.

San Francisco, Cal., Pipe Line.

The following bids were received by the chief of the bureau of yards and docks, Navy Department, Washington, D. C., for a 4-inch flexible joint submerged pipe line at the U. S. naval training station, San Francisco, Cal.:

Item 1, work complete; 2, alternate specification; 3, for substituting a 6-inch main instead of a 4-inch main; 4, 6-inch pipe line under alternate specification.

Thomas Crowley, San Francisco, Cal., item 1, \$19,913, 80 days; 3, \$26,967.

The Dalles, Ore., Shelving.

The contract for installing metal vault shelving in the U. S. post office at The Dalles, Ore., has been awarded to The H. H. Shults Co., Gowanda, N. Y., at \$380.

Roseburg, Ore., Post Office.

As previously reported, the contract for the construction, complete, of the U. S. post office at Roseburg, Ore., was awarded to Stebbinger Brothers, Portland, Ore., at \$83,745, who will use the following fixtures and material in the prosecution of the work: Plumbing fixtures, John Douglas Co.; radiators, U. S. Radiator Corporation; radiator valves, the Kennedy Valve Co.; air valves for radiators, American Radiator Co.; air valves for steam mains, Jenkins Bros.; cabinet and tablet, Frank Adams Electric Co.; conduit, Youngstown Sheet and Tube Co.; rubber-covered wire, Rose Wire Co.; flush switches, Hart & Hegeman.

McMillan Reservoir Spillways.

Under authority from the Secretary of the Interior the reclamation service has awarded contract to John Mulligan, of El Paso, Texas, for earthwork on the McMillan reservoir spillways, Carlsbad irrigation project, New Mexico. The contract price is \$45,452. The

work involves the excavation of about 175,000 cubic yards of material, and is located about 15 miles northwest of Carlsbad, on the A. T. & S. F. Railway.

Yakima Project, Power and Plumbing Equipment.

The following awards have been made by the reclamation service for furnishing power and plumbing equipment for the Grand View irrigation district, Yakima project, Washington: Westinghouse Electric and Manufacturing Co., Pittsburgh, Pa., \$5,900, for electrical apparatus.

Pittsburgh Transformer Co., Pittsburgh, Pa., \$1,152, for transformers. Trump Manufacturing Co., Springfield, Ohio, \$2,250, for hydraulic apparatus.

S. Morgan Smith Co., York, Pa., \$10,230, for direct pumping unit.

The Western Pipe and Steel Co., San Francisco, Cal., \$2,713, for riveted steel pipe.

Vulcan Iron Works, Denver, Colo., \$420, for cast iron head gates.

Judson Manufacturing Co., San Francisco, Cal., \$397, for trash racks, etc.

Port Townsend, Wash., Weather Strips.

The following bids were received by the custodian, U. S. post office, Port Townsend, Wash., recently for installing metal weather strips in the above building:

Hendrickson & Co., Seattle, Wash., \$220; 90 days.

Norby & With, Port Townsend, Wash., \$257; 120 days.

Port Townsend, Wash., Roof Repairs.

The following bids were received by the custodian, U. S. post office, Port Townsend, Wash., recently for roof repairs at the above building:

Hendrickson & Co., Seattle, Wash., \$3,800.

Norby & With, Port Townsend, Wash., \$4,109.

Denver, Colo., Mailing Cases

The following bids were received by the custodian, U. S. post office, Denver, Colo., for installing 4 plain oak mailing cases in the above building:

Southern Seating and Cabinet Co., Jackson, Tenn., \$192; 50 days.

Maly & Son, Cincinnati, Ohio, \$260; 90 days.

McPhee & McMinnity Co., Denver, Colo., \$180; 30 days; accepted.

The Federal Equipment Co., Carlisle, Pa., \$182; 75 days.

Furnas Office and Bank Furniture Co., Indianapolis, Ind., \$224; 90 days.

Jacob Beitzel & Sons, York, Pa., \$260; 80 days.

Budde & Weis Manufacturing Co., Jackson, Tenn., \$200; 120 days.

H. R. Sadler Furniture Co., Denver, Colo., \$235; time not stated.

The J. P. Paulson Manufacturing Co., Denver, Colo., \$249; 80 days.

San Francisco, Cal., Cases.

The following bids were received by the custodian, U. S. custom house, San Francisco, Cal., recently for steel transfer cases for the above building:

Watson Manufacturing Co., Jamestown, N. Y., \$2,936; accepted.

The Shaw-Walker Co., Muskegon, Mich., \$1,740.30.

The General Fireproofing Co., Youngstown, Ohio, \$1,983.60.

The Berger Manufacturing Co., San

ert Shuey. Location, Benvenue near Russell. Will contain eight rooms, two baths and sleeping porch. Plans complete and figures being taken.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$3,000. Architect, W. L. Broderick, 201 Colusa avenue, Berkeley. Owner, C. L. Porter. Location, Thousand Oaks Park. Will contain seven rooms, bath and sleeping porch. Plans complete and figures being taken.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, Edwin C. Graff, Syndicate Bldg., Oakland. Location, west Jean street south Santa Clara. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, J. Lockhart, Sacramento. Location, 1328 V street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOLS

MOUNTAIN VIEW, SANTA CLARA CO., CAL.—School, 1 story, frame, \$6,000. Architect, F. D. Wolfe, Bank of Italy Bldg., San Jose. Owners, Mountain View School District. Will contain two class rooms. Heating by stoves. Plans complete and figures to be called for at once.

MODESTO, STANISLAUS CO., CAL.—School, 1 story and base. Class Construction, \$33,000. Architects, Hewitt & De Remer, L. A. Owners, City of Modesto. For the second time the date of opening bids for this work has been postponed. The new date set is October 3rd.

SEATTLE, WASH.—School, 4 story and base, reinforced concrete, \$179,850. Architect, Edgar Blair, 901 7th avenue, Seattle. Owners, City of Seattle. The lowest bid submitted for this work was received from Scherrer and Carlson, 111 Pine street, at \$179,850. They will probably be awarded the contract.

BERKELEY, ALAMEDA CO., CAL.—Chemistry building, 1 story and base. Class A construction, \$209,456. Architect, John Galen Howard, 604 Mission street, S. F. Owners, Regents of the University of California. The following contracts have been awarded in connection with the construction of the chemistry building: Excavation, grading and concrete awarded to Clinton Construction Co. for \$65,250. Exterior cement finish awarded to MacGruer & Co. for \$13,331. Roofing and sheet metal work awarded to Forrester Cornice Works for \$4,976. Marble and terrazzo awarded to Joseph Musto Sons-Keenan Co. for \$4,755. Plumbing awarded to Scott Co. for \$16,965. Heating and ventilating awarded to Scott Co. for \$11,030. Elevator awarded to Otis Elevator Co. for \$2,090. Electric wiring awarded to Newberry Electric Co. for \$29,980. Acoustic felt awarded to Johns-Manville Co. for \$753.

SAN FRANCISCO—Schools, portable, \$21,120. Architect's name not given. Owners, City and County of San Francisco. The Board of Public Works has requested the Board of Supervisors to

appropriate \$21,120 for twenty portable schools.

FRESNO, FRESNO CO., CAL.—School, addition, 1 story, brick. Cost not stated. Architect, Ernest J. Kump, Royal Bldg., Fresno. Owners, St. John's Parish. Designed for a parochial school and will contain five class rooms and service department. Plans being prepared.

Contracts Awarded.

AVON, CONTRA COSTA CO., CAL.—School, 1 story, frame, \$2,850. Architect's name not given. Owners, Avon School District. Contractor, W. H. Ecker, Martinez. Contract price, \$2,850.

SEWERS, STREET WORK & WATER SYSTEMS

HILLSBOROUGH, SAN MATEO CO., CAL.—Street paving, etc. Cost not stated. Engineer, City Engineer, 202 Holbrook Bldg., S. F. Owners, City of Hillsborough. Bids will be opened on September 19th for grading, surfacing and otherwise improving Barrillobet avenue from the east limits of the city of Hillsborough to the west line of Brewer Drive.

FRESNO, FRESNO CO., CAL.—Sanitary sewer system, \$332,000. Engineer, City Engineer, Fresno. Owners, City of Fresno. The Coast Construction Co., 1419 East 29th street, L. A., presented the lowest figure for the work at approximately \$332,000 and will probably be awarded the contract. The next lowest bid was received from a combination of Bent Bros. of Los Angeles and the Tibbitts Pacific Co. of San Francisco at \$346,000, while James Kennedy of Los Angeles presented the third lowest figure at \$352,000.

SALINAS, MONTEREY CO., CAL.—Highway construction, etc. Cost not stated. Engineer, County Surveyor, Salinas. Owners, Monterey County. The County Supervisors have ordered bids received up to September 15th at 1:30 p. m. for the improvement of the Old Toll road at the Elkhorn Slough Crossing near Hudson Landing, in the Pajaro Road District.

Bids for constructing bank protection in the Salinas River above the King City bridge, in the King City Road District, were also ordered received up to September 15th at 1:30 p. m.

Plans presented by County Surveyor Howard F. Cozzens for repairing the Gonzales bridge across the Salinas River from Gonzales were approved and bids ordered received up to September 15th at 1:30 p. m.

The same action was also taken on the plans for constructing bank protection on the Salinas River above the Filltown bridge in the Alisal Road District.

BURLINGAME, SAN MATEO CO., CAL.—Street paving, \$4,000. Engineer, City Engineer, Holbrook Bldg., S. F. Owners, City of Burlingame. Contractors, Federal Construction Co., Sharon Bldg., S. F. Contract price, \$4,000.

SEATTLE, WASH.—Highway construction, \$72,600. Engineer, County Surveyor, Seattle. Owners, King County. Contractors, Sparger Concrete Co., Colman Bldg., Seattle. Contract price, \$72,600.

RIVERSIDE, RIVERSIDE CO., CAL.—Highway construction, \$10,136.20. Engineer, County Surveyor, Riverside. Owners, Riverside County. Contractors,

Construction Co., Higgins

L. A. Contract price, \$10,136.20.

BERKELEY, ALAMEDA CO., CAL.—Improvement. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on September 19th at 10 a. m.

Street improvements authorized under the following resolution: That portions of Fulton street between Allen Way and Dwight Way be graded, contract concrete curbs and gutters on the roadway be paved with asphalt wearing surface 2 inches thick laid on a concrete base 5 inches thick.

MONTEREY, MONTEREY CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Monterey. Owners, City of Monterey. No bids received by the City Council at their last meeting for the improvement of Pacific street and Fremont street, and new bids have been ordered received up to September 19th at 7 p. m. Plans may be had from the City Clerk.

MARTINEZ, CONTRA COSTA CO., CAL.—Fire alarm system. Cost not stated. Engineer, City Engineer, Martinez. Owners, City of Martinez. The City Trustees at their last meeting postponed action of installing the Gamewell electric fire alarm system in this city. The matter will be taken up at the next meeting scheduled for September 18th.

MARTINEZ, CONTRA COSTA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Martinez. Owners, City of Martinez. Owing to error in the proceedings, all bids for the grading of Talbott and High streets were rejected and the proceedings will have to be started anew. The Trustees will call for new bids within the next few weeks.

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Richmond. Owners, City of Richmond. Bids will be opened on September 18th at 8 p. m. for street improvements authorized under the following resolution: That 15th street, between Ohio avenue and Paterno avenue, be graded, curbed, guttered and sidewalked with cement concrete, and paved with Richmond standard macadam, consisting of broken stone and of asphaltum having a penetration of from 125 degrees to 140 degrees, District of Columbia Standard.

REDDING, SHASTA CO., CAL.—Highway improvements. Cost not stated. Engineer, County Surveyor, Redding. Owners, Shasta County. All bids for grading the 6,160 feet of the Ono road near the Clear Creek bridge were rejected by the Supervisors. They will be opened again on October 1st. It was found that the survey made by County Surveyor C. R. Weigel did not conform with that made six years ago by former County Surveyor Robert J. Redding. As the call for bids stated that the Reading survey would be followed, it was found necessary to re-advertise. The bidders were Jesse Sutton of Anderson and W. J. Hammons of Ono.

STOCKTON, SAN JOAQUIN CO., CAL.—Highway improvements. Cost as follows. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. The following bids were received by the San Joaquin County Supervisors at their last meeting for various road improvements throughout the county. Lane Road—Cyrus Moreing & Sons,

OAKLAND, CAL.—Stores and lofts alterations, 2 story and base, brick. Cost not stated. Architect, Charles W. McCall, Central Bank Bldg., Oakland. Owner, F. Diehl. Location, Second and Franklin streets. Work will consist of new store fronts, interior trim, plastering, plumbing and painting. Plans complete and figures being taken.

OAKLAND, CAL.—Stores, 1, 1 story and 1, 2 story and base, brick. Cost not stated. Architect, Charles W. McCall, Central Bank Bldg., Oakland. Owners, Fruit and Produce Realty Co. Location, Second and Franklin streets. Plans complete and figures being taken.

THEATRES

SOUTH PASADENA, LOS ANGELES CO., CAL.—Theatre, 2 story and base, brick, \$25,000. Architect, E. J. Borgmeyer, Stimson Bldg., 1 A. Owner, Edward N. Jarecki. Location, Fair Oaks avenue south Winegar, covering an area of 50 by 110 feet. Plans complete and work to be done by Day Labor.

SEALED PROPOSALS

NOTICE TO CONTRACTORS.

Office Constructing Quartermaster, Fort Mason, Cal.—Sealed proposals, in triplicate, for constructing improvements to Water Supply System at Presidio of San Francisco, Cal., will be received here until 11:00 a. m., **September 18, 1936**, and then opened. Further information on application.

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed Proposals will be received at the office of the United States Reclamation Service, St. Ignatius, Mont., until 2 o'clock p. m., **September 20, 1936**, for the construction of canals and structures on the Flathead project, Montana, involving about 125,000 cubic yards of excavation, 495 cubic yards of reinforced concrete, 1,000 square yards of paving, 10,100 square feet of canal lining, manufacturing and laying 2 in. linear feet of concrete pipe, laying 210 cubic yards of dry rubble wall and placing 70,000 pounds of structural and reinforcing steel. The work is located from 3 to 10 miles west of Roman, Mont. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or St. Ignatius, Mont. MORRIS BLEN, acting director.

PROPOSALS FOR VALVES.

VALVES—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 p. m., **September 20, 1936**, for furnishing needle valves for the north tunnel of the Roosevelt Dam, Salt River project, Arizona. CHICAGO BRIDGE & IRON WORKS OFFICES IN FLORIDA.

The Chicago Bridge & Iron Works whose local offices are in the Monadnock Bldg., San Francisco, have opened an office in Jacksonville, Florida, in the Florida Life Building, in charge of Elwood G. Ladd. This office will handle the company's sales in the States of Georgia, Florida and Alabama.

Clean Traveling.

Electric travel does away with the grime, soot and other disagreeable inconveniences that go with usual railroad travel.

You are brought to your destination feeling just as fresh as when you started.

Use the electric line between San Francisco and Oakland and Sacramento, Woodland, Oroville, Colusa and Chico.

Contractors all over the country are moving more material in less time and at a smaller expense with
FOUR WHEEL DRIVE TRUCKS
than with any other method of transportation.

Consider what power on all four wheels would mean for you in your business.

Large Contractors and corporations the world over are finding that power on all four wheels results definitely and decisively in:--

100 per cent saving in cost of tires.

Greater durability to every wearing part.

Allows equal distribution of load, thus

Eliminating undue strain on any one part.

Enormous saving in cost of up-keep.

More mileage per gallon of gasoline and oil.

DEPENDABLE SERVICE - no idle days waiting for repairs.

Remember that every F. W. D. Truck built in the past seven years is working to-day, and they are performing harder and more persistent service at a given cost than any other truck built to-day.

You owe it to yourself to investigate the F. W. D. truck.

BIDS RECEIVED FOR NEW ALBANY SCHOOL

Board of Education will Probably Reject all Bids and Re-advertise Work. Six Bids Submitted

ALBANY, Alameda Co., Cal.—Bids were received at the Thursday evening session of the Board of Education for the construction of the new Class "C" school building to be erected in Albany from plans prepared by Architect W. H. Weeks, 75 Post Street, San Francisco. While no official statement was given out, it is understood that all bids were in excess of the amount available for construction and that the work would be re-figured.

Bids were taken as follows: General construction, tile roof substituted for tar and gravel, substituting flush doors for panel; substituting cloister walls for wood; substituting maple floors for pine; and omitting cloister walls and corridors. Following is a complete list of the bids as received:

Albany School.

Carnahan & Mulford (1) \$26,164; (2) \$1,100; (3) \$100; (4) \$850; (5) \$135; (6) \$22,576.

Dan R. Wagner (1) \$28,900; (2) \$1,600; (3) \$100; (4) \$370; (5) \$240; (6) \$1,400. G. B. Hollenbeck (1) \$25,700; (2) \$1,650; (3) \$123; (4) \$250; (5) \$270; (6) \$3,500.

Nail & Bishop (1) \$30,000; (2) \$2,000; (3) \$5; (4) \$375; (5) \$252; (6) \$3,900. Masow & Morrison (1) \$28,151; (2) \$1,242; (3) \$165; (4) \$885; (5) \$560; (6) \$3,256.

L. G. Bergeten & Son (1) \$28,117; (2) \$1,208; (3) \$100; (4) \$530; (5) \$250; (6) \$1,300.

Heating and Ventilating.

W. Morgan & Co. \$1,468 and \$525
John G. Sutton & Co. 1,895 and 655
Robt. Dalton Jr. Co. 1,657 and 665
J. C. Hurley & Co. 1,541 and 649
Ideal Heating & Eng. Co. 1,548 and \$440

Bids were also received at the same meeting for constructing a tar and gravel roof in place of a shingle roof on the present school building. John H. Hall and Jowitt bid \$1,390.85; Cushing & Bingham bid \$2,336 and Bishop & Nail bid \$2,125.

Sept. 1, 1916—SANGER. (Building of H. B. Smith.) Southern Pacific Co. as to improvements on leased property

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

PUMPING PLANT—Reinforced concrete. Cost not stated. Carmichael, Sacramento Co., Cal. Engineer, Albert Givan, Forum Bldg., Sacramento. Owners, Carmichael Irrigation District. Bids will be opened on September 25th at 10 a. m. for a reinforced concrete pumping station. Complete details can be had from the engineer.

APARTMENT HOUSE—3 story and base, frame. Cost not stated. Kureka, Humboldt Co., Cal. Architects, Koenig & Christiansen, Humboldt Bank Bldg., S. E. Owner, C. D. Daly. Location, Hillsdale and E streets. Will contain 29 apartments of two, three and four rooms. Plans complete and being figured.

BATH HOUSE—1 story, frame. Cost not stated. Lodi, San Joaquin Co., Cal. Engineer, City Engineer, Lodi. Owners, City of Lodi. Bids are being taken by the City Trustees for the erection of the proposed one story frame natatorium building to be erected in Lodi. Revised plans for this structure were prepared by City Engineer Barzellotti. Bids close Monday evening, September 18th. The tank for the structure is already in place.

HOSPITAL WARD—2, 2 story and base, hollow tile, \$76,077. Sacramento, Cal. Architect, R. A. Herold, Forum

Bldg., Sacramento. Owners, Sacramento County. William C. Keating, Sacramento, presented the lowest figure for this work at \$76,077 and will probably be awarded the contract. A complete list of the bids received will be found under the heading of Sacramento and Northern California in this issue.

HIGHWAY IMPROVEMENTS—Cost not stated. Redding, Shasta Co., Cal. Engineer, County Surveyor, Redding. Owners, Shasta County. All bids for grading the 6,160 feet of the One road near the Clear Creek bridge were rejected by the Supervisors. They will be opened again on October 1st. It was found that the survey made by County Surveyor C. R. Weigel did not conform with that made six years ago by former County Surveyor Robert J. Reading. As the call for bids stated that the Reading survey would be followed it was found necessary to readvertise. The bidders were Jesse Sutton of Anderson and W. J. Hammans of Ono.

HIGHWAY IMPROVEMENTS—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin Co. The following bids were received by the San Joaquin County Supervisors at their last meeting for various road improvements throughout the county: Lane Road—Cyrus Moreing & Sons, rock, \$19,246.24; gravel, \$13,550.10; Gaskill & Foley, rock, \$23,035.14; gravel, \$18,865.11. Miller Road—Moreing & Sons, rock, \$17,792.35. Angier & Norton Road—S. W. McLeary, \$2,428.30; Cy Moreing & Sons, \$2,716; Gaskill & Foley, \$2,658.65. McKinley Avenue Sewer—W. F. Edwards, \$1,926; Chambers & Heafy, \$1,823.10; P. C. McIntire, \$2,135. It is probable that a contract will be awarded the lowest bidder in each case.

CULVERTS—Reinforced concrete. Cost as follows. Marysville, Yuba Co., Cal. Engineer, County Surveyor, Marysville. Owners, Yuba County. Bids for the construction of a culvert on the La Port stage road have been rejected by the County Supervisors as being too high. Two bids were received as follows: F. D. Groh, \$3,806; Jenkins & Wells, \$3,528. The County Surveyor was directed to investigate if the work could not be done cheaper by the county.

LEVEE CONSTRUCTION—Cost not stated. Colusa, Colusa Co., Cal. Engineer, City Engineer, Colusa. Owners, City of Colusa. The Town Trustees have instructed Clerk F. E. Wright to advertise for bids for the proposed levee work from the east line of the city to the west. The bids will be taken for team and dredger work. Plans may be had from Town Clerk F. E. Wright.

RESIDENCE—1 story and base, frame, \$2,000. Sacramento, Cal. Architect, none. Owner, Henry Willis Singleton Hotel, Sacramento. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Sacramento, Cal. Architect, none. Owner, J. Lockhart, Sacramento. Location, 1328 V street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

Contracts Awarded.

BRIDGE—Reinforced concrete, \$1,199. Marysville, Yuba Co., Cal. Engineer, County Surveyor, Marysville. Owners,

Yuba and Nevada Counties. The Supervisors of Yuba and Nevada Counties at a joint session awarded the contract for the joint county bridge over Dry Creek, near Spenceville to A. H. Burton of Grass Valley, being the lowest of four bidders at \$1,199. The highest bid for the work was \$8,300.

WATER PIPE—Wood. State. Cost not stated. Fort Bragg, Mendocino Co., Cal. Engineer, City Engineer. Fort Bragg. Owners, City of Fort Bragg. Contractors, Pacific Tank and Pipe Co., 5th and Bryant streets, S. F. Contract price not stated.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer. Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That 15th street from C street to D street be improved by constructing concrete curb, concrete gutter, filling in behind the curbs with earth; placing cast iron gutter drains with 4-inch, vitrified, ironstone sewer pipe elbows attached; reconstructing one concrete manhole; filling in two old catch basins with earth; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 1 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento.

That the alley between L and M streets from 14th street to 5th street be improved by constructing 193 linear feet of concrete curb wall; constructing one concrete catch basin; reconstructing one concrete manhole; placing six linear feet of 8-inch, vitrified, ironstone sewer pipe drain; grading the alley and constructing thereon an asphaltic pavement consisting of an asphaltic macadam foundation 3 inches thick and a sheet wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co.

HON. GATES, \$1,950 15. Stockton, San Joaquin Co., Cal. Engineer, City Engineer. Stockton. Owners, City of Stockton. Contractors, Stockton Tool Works, Stockton. Contract price, \$1,950.45.

RECEIVE FIGURES FOR SACRAMENTO CO. HOSPITAL.

Six Sacramento Firms Only Bidders for Two New Ward Buildings to be Erected at County Hospital.

(By Special Wire.)
SACRAMENTO, Cal., Sept. 6th, 1916—Only six sets of figures were received by the County Supervisors today for the construction of two ward buildings to be erected at the new County Hospital. Each building will be two stories in height and will be of hollow tile construction. Plans were prepared by Architect R. A. Herold, Forum Building, Sacramento. All bidders were from Sacramento. Following is a complete list of the bids opened:

Hospital Ward Buildings.
Siller Bros., ... \$83,870
Mathews Constr. Co. ... 77,533

PUBLIC WORKS IN SALVADOR.

The town of Moncagua is to be sup-
 plied with water by hydraulic power

carrying 21,000 gallons in 24 hours a
 distance of 2,900 feet and to a height
 of 160 feet. Other towns installing
 water systems are San Miguel, Ahua-
 chapam, Usulután, Sonsonate, and San
 Juan Nonualco. Electric lighting is
 being installed in Coatepeque and San
 Vicente, and acetylene lighting in
 Metapan and Chalatenango.

Concession for Soap Factory.

The Congress of Salvador has grant-
 ed to Fabrian Marciano Trigueros the
 exclusive right for five years to manu-
 facture the soaps known as Klamol and
 Black Balsam of Salvador. The con-
 cession, as published in the Diario
 Oficial of July 29, states that Mr. Tri-
 gueros is the inventor of these soaps,
 and the sole right to exploit them is
 granted as a protection to a new indus-
 try.

TOLL RECEIPTS OF PANAMA CANAL.

Including the earnings of tolls for the
 month of July, 1916, amounting to \$160,-
 123, the tolls collected on traffic passing
 through the Panama Canal from the be-
 ginning of the towing of laden barges
 between the terminal ports in May,
 1914, have amounted to \$7,217,956. Ac-
 cording to the August 16 issue of the
 Canal Record, the collections from ves-
 sels in the coastwise trade of the United
 States formed \$1,923,122 of this total..

Secretary T. I. Kawashima, of the
 Japanese Chamber of Commerce of San
 Francisco, is preparing to make a trip
 to Japan for a study of trade conditions
 and the possibilities of increased busi-
 ness between Japan and the United
 States. He will spend four or five
 months on the trip, sailing probably the
 latter part of September. He desires to
 receive suggestions from American
 business men.

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor
 what quantity of each you may need for immediate delivery, you can depend
 upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled
 with fair prices as our standard. We have the quantity and the variety on hand for
 immediate delivery.

If you do not deal with us, we both lose.

MUNICIPAL WATER PLANT AT LINCOLN PAYS WELL

LINCOLN (Placer Co.)—Municipal ownership of the local water system has proven a financial success.

The receipts from the system for the last fiscal year totaled \$6,552.29. Deducting expenses, a total of \$3,245.65 was left in the City Treasury as profit.

One-half of the bonds have been paid off, leaving a small indebtedness against the system.

Lincoln has over 400 water consumers. The system consists of six miles of mains. The plant is operated by gravity system, and has a strong force. At a recent fire in Lincoln five streams of water were used for one hour without affecting the pressure. The value of the system is about \$75,000. The system cost about \$47,000 when it was constructed in 1896.

CUBA.

[Consul Henry M. Wolcott, detailed as vice consul at Habana, July 28.]

Preparation of Shipping Documents

In view of the experience of several large importing firms in Habana recently it is considered advisable again to call the attention of exporters in the United States to the importance of careful and painstaking preparation of invoices and shipping documents accompanying export shipments.

In two instances lately an American firm in Habana has been required by the customs authorities to pay full duty at the general rate (instead of the reduced rate applicable to imports from the United States) because of failure to attach the certificate of origin of the merchandise to the consular invoice. It is also within the knowledge of this office that two other firms in Cuba are now experiencing difficulties with the customs authorities on account of blunders in the preparation of shipping documents.

These mistakes are invariably costly, and it seems poor economy on the part of our exporters to employ any but the most capable clerks for performing this work. It is suggested that it would be well to establish a check system on all documents covering foreign shipments, which will eliminate to the greatest degree possible the probability of error. This is important not only because it means a saving in customs duties and avoidance of fines and penalties, but because it also means satisfied customers and a continuance of trade in the future.

[Information regarding the proper preparation of consular invoices and certificates of origin is contained in Tariff Series No. 21 (Consular Regulations of Foreign Countries, Canada, and Latin America), copies of which are for sale at the district offices of the Bureau of Foreign and Domestic Commerce, or by the Superintendent of Documents, Washington, D. C., for 10 cents.]

CHANGE IN TITLE OF NAVAL RADIO SERVICE.

Hereafter the Naval Radio Service will be known as the "Naval Communication Service." Charges on all traffic exchanges between other systems (radio, telegraph, and cable) and

radio stations (ship and shore) operated by the Navy will be accounted for by the Naval Communication Service. In addition to his other duties, the Director of Naval Communication will perform the duties formerly assigned to the Superintendent of Naval Radio Service.

Correspondence relating to the Naval Communication Service should be addressed to the Director of Naval Communications, Radio, Va. Remittances should be made payable to the Naval Communication Service. If used, money orders should be drawn on postmaster, Washington, D. C.

WHAT I CLAIM IS.

Claim 1: A gold washing and saving machine comprising a main supporting frame, a screening rejecting and washing cylinder, rotatively mounted on top of same, diagonally reciprocative rifle boards below same adapted to catch the screenings from said cylinder and submit same to a further washing, settling and screening process, and by gravital descent deposit them on to a diagonally reciprocating silvered plate board below same, to which the gold, etc., adheres, depositing by gravity the heavier segregated matter into a trough containing quicksilver and agitating means for amalgamating and retaining the concentrated values

and allowing the dross to flow over into the tailings, and mechanical means for imparting motion to the said screening and settling mechanism substantially as described for the purpose specified.

Claim 2: A gold washing and saving machine of the character referred to and claimed in the preceding claim, and comprising vibrating rifles and silvered plate boards so mechanically disposed as to be actuated separately by a cam lift and gravital return motion, accelerated by spring tension at such displacements of 120 degrees of the cam shafts.

KEEP HEALTHY.

What profiteth a man that he eat on the whole world yet loose his health?

Naturalists say that long ago the prehistoric waters were infested with a species of enormous shark which finally became extinct by reason of the workings of its voracious appetite. Thus Nature eliminates the over-fed.

The desire for ease of life and plentiful diet is universal and is the great stimulus of man and animal alike. When man becomes greedy and takes more ease and food and drink than is his share, Nature discards him.

In the race for power and place, for ease of circumstances and relief from the stimulus of hunger, the modern man is apt to forget that unless he is careful of his body he will soon be made to suffer for the infraction of Nature's inexorable physical law. With the loss in body tone comes an equal loss in mental acuity and the brain which for a time was able to operate despite the complaints of an over-fed, under-exercised, self-poisoned body, stops working.

Scientists have discovered that the mortality rate of persons in the United States over 15 years of age is increasing. The strenuous life of today is not alone responsible for this. Lack of health-giving exercise, superfluity of diet, lack of restoring sleep, over-stimulation, the high pressure of the race for power, wealth and position, plus physical neglect. These bring early decay. The goal is reached—wealth is amassed—honor, position and power are just being grasped when the apple of accomplishment turns to the ashes of dissolution. The brilliant mind becomes clouded, the steady hand is no longer accurate, the eye which once gazed fearlessly on the whole world is dimmed and it is not long before the final break up occurs. All of this was entirely preventable.

Other things being equal it is the man who leads the well-balanced life, who lasts the longest, whose work to the end is uniformly the best. He who neither over-works nor over-plays, neither over-eats, over-drinks, nor over-sleeps, he who maintains a standard of simple healthful diet in moderation, who offsets mental work with physical recreation, who is as honest with his own body as he is with his own business. When success comes to such an one his physical and mental condition is such that he can enjoy in peace of mind and contentment of body the fruits of his labors.

The regulations of U. S. Public Health Service states: "It is the duty of officers to maintain their physical as well as their professional fitness. To this end they shall be allowed time for recreation and study whenever their official duties will permit." If the

Government regards it as essential that its sanitary experts shall be safeguarded in this way, is it not equally important to every citizen that he should maintain a high standard of physical integrity?

CRITICAL TIME FOR FOREST RANGERS.

Emphasizing the increase in the forest fire danger due to the opening of the hunting season, and pointing out that the fire period in California has now reached its most critical stage, a warning issued by District Forester Talbot urges the camping public to maintain extraordinary care with fire in the National Forests until the autumn rains decrease the risk of complete and cigarette.

So far this season, it is said, the fire situation in the National Forests is well in hand, notwithstanding the fact that for California as a whole the season is a severe one, as evidenced by the fires now raging in the Santa Cruz Mountains and Sonoma Hills. Since the beginning of the year, 888 fires, burning over a total of 55,861 acres, have been reported by the Forest officers as against 731, burning over 22,086 acres, for the same period of 1915. Of the fires this season to date, lightning caused 291—all but 10 of which occurred during August. Railroads and lumbering operations are responsible for 2.

The number for which the camper is held responsible has increased from 10 of last year to 225 for this season to date. This is said to be a small increase, considering that travel in the Forests has been three to four times greater than it was last year. In the opinion of Forest officers, the average camper is showing greater care with fire than ever before.

That the incendiary problem in the National Forests is in way of being solved is evidenced by the decrease of incendiary fires from 104 last year to 3 for this season to date. This decrease is thought to be due largely to co-operation between the Forest Service and mountain settlers in the burning of brush areas that in some localities constitute a menace to the settler's holdings and industries and yet do not afford watershed protection or possess timber values.

Of the 888 fires for the season on the National Forests, 416 have burned over less than a quarter of an acre each, 280 more than a quarter but less than 100 acres, and 182 over ten acres. The largest fire occurred on the Big Sun in the Monterey Forest where almost 10,000 acres were swept with flames. A fire of 8,000 acres occurred on the California National Forest. Fortunately not much timber was destroyed by either. Both fires are attributed to the carelessness of hunters or campers.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO. Apartment house, 3-story and base, frame, \$14,000. Architect, O. R. Thorne. Location, Montgomery street, S. E. Owner, name not given. Location, northeast of Ocean and California street. Will contain six modern apartment of two rooms each with bath and sun porch. Present garage. Plans complete and figures being taken.

PORTLAND, ORE. Apartment house, 3-story and base, brick and concrete, \$15,000. Architect, none. Owner, Carl Magnusson. Mkt. Belt & Dodge Products Co., Portland. Location, North and Stout streets. Will contain two, three and four room apartments. Plans complete and work to be done by Day Labor.

SAN FRANCISCO. Apartment house, 2-story and base, frame, \$5,000. Architect, Kenneth McDonald. St. Call-Post Bldg., S. F. Owner, C. J. Carter. Location, Lake street between 21st and 22nd avenues. Will contain two apartments of five rooms each. Basement garage. Plans complete and segregated figures being taken.

OAKLAND, CAL. Apartment house alteration, 2-story, frame, \$1,600. Architect, none. Owner, S. C. Kendall, 1410 Jackson street Oakland. Location, east Jackson street north 14th. Work will consist of altering a two-story dwelling into modern apartments. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. Apartment house, 2-story and base, frame, \$7,500. Architect, none. Owner, Henry A. Dodge, 1121 Broadway, Oakland. Location, east Broadway north 13th street. Will contain two and three room apartments. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL. Apartment house, 1-story and base, Class C. Cost not stated. Architect, George W. Eldredge, Consolidated Realty Bldg., Owner, D. W. Ferguson. Location, Westlake avenue near Sixth. Will cover an area of 50 by 110 feet. Plans complete and segregated figures being taken.

SEATTLE, WASH. Apartment house, 3-story and base, brick and concrete, \$25,000. Architect, F. H. Perkins, Lumber Exchange Bldg., Seattle. Owner, F. J. Tetlow. Location, 18th avenue North. Will cover an area of 10 by 90 feet and contain four apartment and two seven-room apartments. Plans complete and figures being taken.

BONDS

REDDING, SHASTA CO., CAL. The Redding Chamber of Commerce has appointed a committee to draft resolutions endorsing the \$15,000,000 highway bond issue to be voted on at the November election.

Attorney Francis Carr, Father Thomas J. Hayes and Walter H. Fink were the committee named.

DOS PALOS SCHOOL DISTRICT, FRESNO CO., CAL. The County Supervisors have approved the \$10,000 bond issue of the Dos Palos School District. The district lies partly in Fresno and Merced Counties and a similar approval must be given by the Merced Supervisors.

MODESTO, STANISLAUS CO., CAL. Another election will be held by the city of Modesto for the voting of bonds of \$155,000 for the erection of a high school building at H and Washington streets. The issue will also provide for furnishing the building.

SAN BERNARDINO, SAN BERNARDINO CO., CAL. A proposal to issue at least \$1,000,000 in bonds to improve the famous "101 miles on the rim of the world" road through the San Bernardino Mountains has been made to the San Bernardino Board of Supervisors by automobilists. A 9-foot wide pavement the entire circuit, with about 40 miles additional as connecting roads is asked. To pay interest and principal on the bonds as well as take care of the highway upkeep a toll of \$2. for every automobile passing over it is suggested. This, it is declared, would be unnecessary in case of Federal or State aid for the mountain highway. The rim of the world circuit could be paved for about \$8,000 a mile engineers estimate.

BAKERSFIELD, KERN CO., CAL. Bids will be received by the County Supervisors up to October 2nd for the purchase of the \$20,000 bond issue of the Midway School District.

MERCED, MERCED CO., CAL. Funds having been voted and sold the Trustees will shortly select an architect to design plans for the new high school building to cost \$150,000. A site for the structure has already been selected.

LONG BEACH, LOS ANGELES CO., CAL. An election will be held October 11 for the purpose of voting on a joint bond issue, involving \$50,000. Of this sum \$300,000 is to be used for the development and expansion of an inside passage of the Long Beach harbor connecting with Los Angeles harbor. \$500,000 for the construction of a horseshoe pier, spanning American and Pine avenues and \$50,000 for the erection and maintenance of a city hospital on a city owned site.

SANTA BARBARA, SANTA BARBARA CO., CAL. Bids will be received by the Board of Supervisors up to 10 a. m. of September 28, 1916, for the sale of State Highway Bridge bonds in the sum of \$50,000. The funds will be used for the construction of a bridge over the Santa Ynez River.

SANTA ANA, ORANGE CO., CAL. An election will be held September 23 in the Olive and East Protection District for the purpose of voting on a proposed bond issue in the sum of \$31,000 for protection work in the district, including a dike.

PAJO ALTO, SANTA CLARA CO., CAL.—The Chamber of Commerce has endorsed the Santa Clara County bond issue for \$1,000,000 for a permanent system of good roads.

BRIDGES, DAMS AND HARBOR WORK

SAN JOSE, SANTA CLARA CO., CAL.—Bridges, reinforced concrete. Cost not stated. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Bids will be opened on October 2nd at 11 a. m. for the construction of a reinforced concrete bridge on Montague road in Supervisor District No. 3. On the same date bids will also be opened for the construction of a reinforced concrete bridge on McKean road near Bowles place in Supervisor District No. 1.

MADERA, MADERA CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, Madera. Owners, Madera County. At the last meeting of the County Supervisors bids were received for the building of four bridges. They are the Bethel bridge over Upper Pine Gold Creek, a bridge over the North Fork of the San Joaquin River at the Pine road, one over Winkelman Creek at the Pines road and one over Berenda Slough. The bids were as follows: Ed Layne, Madera, Winkelman, \$955; Bethel, \$1393; Pine, \$1342; and Berenda, \$2170. J. P. Hurt, Berenda, \$2560; Winkelman, \$570; Bethel, \$1303, and Pines, \$745. Manning Bros., Fresno, Berenda, \$3370. J. P. Hurt was given the contract for the Winkelman and Pines bridges. The Berenda Slough and Bethel bridge will be re-advertised, as the Board believed the bids were too high. If the bids are not lowered they will be built by Day Labor by the county.

REDDING, SHASTA CO., CAL.—Bridges, 2, reinforced concrete. Cost not stated. Engineer, County Surveyor, Redding. Owners, Shasta County. Bids will be opened on October 2 at 2 p. m. for the construction of two reinforced concrete girder bridges over Griffith Gulch on the Anderson-Olinda road.

OAKLAND, CAL. Bridges and culverts, reinforced concrete. Cost not stated. Engineer, County Surveyor, Oakland. Owners, Alameda County. The following figures were received by the Alameda County Board of Supervisors for the construction of a box culvert and for two reinforced concrete bridges to be erected in Eden Township. All bids were referred to the Committee of the Whole:

Palomes Road Bridge No. 1.—Unit prices were submitted as follows: (1) excavating, (2) excavating and fill, (3) concrete per cubic yard, (4) steel bars, (5) old bridge, (6) curb steel and (7) oil macadam.

P. Mathieson—(1) 60c; (2) 60c; (3) \$10; (4) 7c; (5) \$10; (6) 20c; (7) 20c.

Edwall & Alforno—(1) \$1,111; (2) \$1,141; (3) \$13,96; (4) 6c; (5) \$125; (6) 27c; (7) 12c.

Western Construction Co., (1) 80c; (2) 40c; (3) \$12; (4) 5 1/2c; (5) \$50; (6) 40c; (7) 6c.

M. E. Fernandez—(1) 75c; (2) 25c; (3) \$9.50; (4) 5c; (5) \$35; (6) 30c; (7) 2c.

Tieslau Bros.—(1) 55c; (2) 30c; (3) \$16.20; (4) 6c; (5) \$50; (6) 10c; (7) 5c. Thos. B. Russell—(1) 45c; (2) 30c; (3) \$9.5 1/2c; (4) 55c; (5) \$50; (6) 10c; (7) 5c.

C. A. Bruce—(1) \$1; (2) 10c; (3) \$12; (4) 6c; (5) \$50; (6) 30c; (7) 10c.

Palomares Road Bridge No. 2.—The same unit prices were also called for on the construction of this bridge.

M. E. Fernandez—(1) \$75c; (2) 25c; (3) \$9.50; (4) 5c; (5) \$25; (6) 30c; (7) 2c.

C. A. Bruce—(1) \$10; (2) 30c; (3) \$12; (4) 5c; (5) \$50; (6) 30c; (7) 10c. Thomas B. Russell—(1) 50c; (2) 35c; (3) \$10; (4) 5 1/2c; (5) \$50; (6) 15c; (7) 5c.

Edwall & Alforno—(1) \$1,111; (2) \$1,141; (3) \$13,96; (4) 6c; (5) \$85; (6) 27c; (7) 12c.

Western Construction Co., (1) 75c; (2) 40c; (3) \$12; (4) 5 1/2c; (5) \$25; (6) 40c; (7) 2c.

Tieslau Bros.—(1) 65c; (2) 35c; (3) \$16.20; (4) 6c; (5) \$35; (6) 10c; (7) 5c. P. Mathieson—(1) 60c; (2) 60c; (3) \$10; (4) 7c; (5) \$10; (6) 50c; (7) 20c.

Box Culverts.—Unit prices were asked for on this work as follows: (1) excavating, (2) road grading, (3) concrete per cubic yard, (4) steel bars, (5) temporary road, (6) curbs.

M. E. Fernandez—(1) 75c; (2) 25c; (3) \$9.50; (4) 5c; (5) \$15; (6) 35c.

Western Construction Co., (1) 75c; (2) 40c; (3) \$12; (4) 5 1/2c; (5) \$25; (6) 40c.

C. A. Bruce—(1) \$1; (2) 10c; (3) \$12; (4) 5 1/2c; (5) \$20; (6) 30c.

Thos. B. Russell—(1) 50c; (2) 35c; (3) \$10.50; (4) 6c; (5) \$10; (6) 50c.

Tieslau Bros.—(1) 65c; (2) 35c; (3) \$16.20; (4) 6c; (5) \$35; (6) 10c.

Edwall & Alforno—(1) \$1,111; (2) \$1,141; (3) \$13,96; (4) 6c; (5) \$75; (6) 27c.

P. Mathieson—(1) 60c; (2) 60c; (3) C. A. Bruce—(1) \$10; (2) 10c; (3) WILLOWS, GLENN CO., CAL.—

Bridges, 7, reinforced concrete. Cost not stated. Engineers, Leonard & Day.

Rialto Bldg., S. F., and County Surveyor, Willows, Owners, Glenn County. Bids will be opened on October 3rd for the construction of four bridges designed by Leonard & Day and for three smaller structures designed by the County Surveyor.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Santa Barbara, Owners, Santa Barbara County. Bids will be received by the Board of Supervisors up to 10 a. m. of September 28th for the construction of a reinforced concrete arch bridge across Gaviota Creek at Station No. 104-00 in Sec. E, on the route of the State highway in the Fourth Road District. Plans and specifications on file at the office of the County Clerk, and may be obtained from the County Surveyor upon deposit of \$10, to be returned. Certified check for 10 per cent required. C. A. Hunt is the Clerk.

SAN DIEGO, SAN DIEGO CO., CAL.—Bridges, 6, reinforced concrete, \$25,000. Engineer, County Surveyor, San

Diego, Owner, San Diego, County. Bids will be received by the Board of Supervisors up to October 11th for the construction of six bridges as follows: 10-foot combination truss bridge across Campo Creek at Campo, 26-foot wood on span with concrete foundation across Descanso Creek near Descanso, 250-foot pile trestle and one on trestle across Sweetwater River at Bonita, 225-foot pile trestle over San Vicente Creek between Lakeside and Escondido, 92-foot pile trestle in Green Valley north of Descanso.

Contracts Awarded.

REDWOOD CITY, SAN MATEO CO., CAL.—Bridge, reinforced concrete, 31 ft. 8 in. Engineer, County Surveyor, Redwood City, Owners, San Mateo County, Contractor, A. Madison, San Bruno, Contract price, \$1,418.

OROVILLE, BUTTE CO., CAL.—Bridge and fill, \$3,961 and \$2,780. Engineer, County Surveyor, Oroville, Owners, Butte County, Contractor, E. D. Sharp, Gridley, on trestling bridge floor. Contract price, \$2,961. HOWARD & FELCH, Marysville, fill. Contract price, \$2,380.

VISALIA, TULARE CO., CAL.—Bridge, reinforced concrete, \$5,986. Engineer, County Surveyor, Visalia, Owners, Tulare County, Contractors, Parlier & reed, Tulare. Contract price, \$5,956.

EUREKA, HUMBOLDT CO., CAL.—Bridges, timber and reinforced concrete. Cost as follows. Engineer, County Surveyor, Eureka, Owners, Humboldt County, The County Supervisors at their last meeting awarded contracts for road and bridge improvements totaling \$16,626.75. W. F. Nottley was awarded the contract for constructing the Elk and Bridge Creek structures at \$3,549. Poland & Robinson were the successful bidders for building the highway bridge across the North Fork of the Mattole River near Petrolia. Their bid was \$1,825. The contract for the Jordan and Bear Creek jobs went to Mercer-Fraser Co., First and G street, Eureka, on a bid of \$1,710. These two bridges and those across Elk and Bridge Creeks are on the State highway in Supervisorial District No. 2. Henry Padgett, Field Landing, was the successful bidder on the Lost Man's Creek contract, near Orick. Walter R. Hunter will construct a section of road in the Mattole Valley, having bid to do the work for \$600. On the Davis Creek bridge D. C. Farnell was the winner on a bid of \$799. The Rease Creek bridge will be built by H. Padgett on his bid of \$1,767.

CHURCHES

SAN JOSE, SANTA CLARA CO., CAL.—Church, 1 and 2 story and base frame, \$75,000. Architect, John I. Foley, 46 Kearny street, S. F. Owners, Church of the Five Wounds. Will contain a main auditorium seating 900 people and Sunday school rooms. Plans complete and work to be done by Day Labor under the direction of Frank Nevis, 551 Harrison street, Santa Clara.

MERCED, MERCED CO., CAL.—Church, 1 story and base, frame, \$20,000. Architects, Shea & Latouret, Bankers' Investment Bldg., S. F. Owners, La Merced de Dios, Location, 21st and L streets. Will contain main and

side altars, 100 seats, Sunday school rooms and parlor. Study Plans complete and figures to be called for by City.

FACTORIES AND WAREHOUSES

SAN FRANCISCO—Factory, 2 story and base, brick, \$33,000. Architect, W. E. Chubb, Jr., 125 Kenny street, S. F. Owner, M. A. McLaughlin, Location, 317 1/2 south Harrison, covering an area of 62 1/2 by 185 feet. Plans complete and figures being taken.

SAN FRANCISCO—Warehouse, 2 story and base, Class C construction, 30,000. Architect, Sylvain Schmittauer, 233 Post street, S. F. Owners, Rochester Co., Location, north Harrison near 5th. Will cover a considerable ground area. Plans complete and figures have been taken. Contract to be awarded at once.

FIRE HOUSES AND JAILS

BAKERSFIELD, KERN CO., CAL.—Bldg., 2, 1 story, reinforced concrete, cost not stated. Architect's name not given. Owners, Kern County. Bids will be opened on October 11th for two small jail buildings, one to be erected on Mojave and the other at Randburg.

FLATS

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$5,000 each. Architect, none. Owner, William J. Keenan, 8 Atchafalaya Terrace, S. F. Location, north Grove west Masonic. Each building will contain two modern flats of five and six rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flat alteration, 2 story and base, frame, \$2,000. Architect, Albert Lapache, 110 Sutter street, S. F. Owner's name not given. Location, Eddy near Buchanan. Work will consist of plastering, plumbing, painting and electric work. Plans being prepared.

SAN FRANCISCO—Flats, 2 story and base, frame, \$5,000. Architect, none. Owner, J. S. Purcell, 556 Presidio Avenue, S. F. Location, east 15th avenue north Anza. Will contain two flats of five and six rooms and basement garage. Plans complete and work to be done by Day Labor.

GARAGES

SAN FRANCISCO—Garage, 1 story, reinforced concrete. Cost not stated. Architect, Benj. G. McLaughlin, Sheldon Bldg., S. F. Owner, T. C. Kierulff, Location, Polk near Market. Designed for a commercial garage. Plans being prepared.

GOVERNMENT WORK & SUPPLIES

Ice-Making Plant at Pekin, China.

The following Bids were received by the chief of the bureau of yards and docks, Navy Department, Washington, D. C., for constructing an ice-making and cold-storage plant for the U. S. Marine Barracks at Pekin, China:

Item 1, work, complete, delivered at Pekin, 2, do, in accordance with bidder's plan and specification; 3, price for service of supervising engineer for a period of 30 calendar days, 1, price per diem for service of supervising engineer for time in excess of 30 days.

The Arctic Ice Machine Co., 920 Mar-

ket avenue, Canton, Mass., 1 story, \$5,189; 2, \$5,189; 3, \$900; 4, \$1,000. The Viter Mfg. Co., Canton street, Milwaukee, Wis., 1 story, \$6,900; 2, \$1,500; 4, \$12.

Kroeschell Bros. Inc., 1 story, \$17 W. Erie street, Chicago, Ill., 1 story, \$1,536; 2, \$1,065; 4, \$800; 8, \$1,500; 16, \$5,000; 2, \$7,675; 3, \$1,100.

Mare Island, Elevator.

The contract for an electric freight elevator at the Mare Island, has been awarded to the Otis Elevator Company, of Huntington, D. C., at \$4,500.

Fort Mason, Cal.

The first installment \$25,000, has been allotted by the War Department for the construction of the new army post to be known as Fort McArthur near Los Angeles. The Constructing Quartermaster at Fort Mason will probably handle all work in connection with the new post as a preliminary plans have been prepared under the direction of that office. The layout, as approved by the War Department, provides for a full town company artillery post and will consist of about forty buildings, road construction, sewer and water systems. It is expected that the work will be advertised shortly and that construction will be underway this year.

The Depot Quartermaster has moved into his new office at Wharf No. 1 at Fort Mason. Plans and estimated cost will shortly be submitted to Washington to finish up the local Army Supply Depot and to create a separate reservation for the same. About two officers' quarters, a seven-story office and warehouse, covering an area of 200 by 200 feet, a machine shop, entrance gates and iron fences are included in the project.

The Government has purchased the railroad tracks in the Presidio Reservation from the Panama-Pacific Exposition Co. for \$6,200 and these will be connected with the present belt line railroad.

BENICIA, SOLANO CO., CAL.—Machine shop addition, 1 story, reinforced concrete, \$100,000. Engineers, Bureau of Yards and Docks, Washington, D. C. Owners, United States Government. Bids will be called for shortly for the construction of a one-story addition to the machine shop at Benicia. Further mention will be made of the work.

HOSPITALS

OAKLAND, CAL.—Hospital wards, 5, 1 story, frame, \$80,000. Architect, Henry H. Meyer-Kohl Bldg., 8, F. Owners, Alameda County. The Alameda Board of Supervisors has received all figures for the construction of six one-story frame buildings to be erected near Livermore as a county tuberculosis sanitarium. Doctor H. Stock presented the lowest bid at \$1,078. The architect will revise the plans so that the work may be brought within the amount available, which is \$80,000.

SAN BERNARDINO, CAL.—SAN BERNARDINO CO., CAL.—Hospital buildings, 3, 3 story and 1, 1 story, concrete and brick. Cost not stated. Architect, Lyman Farwell, Story Bldg., 12, A. Owners, San Bernardino County. Bids

will be opened on October 11th for this work. Administration building, 92 by 56 feet, and service building, 88 by 115 feet. Plans can be had from the architect or County Clerk.

Contracts Awarded

REDDING, SHASTA CO., CAL.—Hospital ward, 1 story, frame, \$4,000. Architect, none. Owners, Shasta County. Contractors W. H. Bolton and W. A. Rhynsdress, Redding. Contract price \$4,000.

PORTLAND, ORE.—Hospital wards, 2 and 3 story, brick, \$60,000. Architect, A. E. Doyle, Worcester Bldg., Portland. Owners, White Shield Home. Contractors, Mun & McCellan, Chamber of Commerce Bldg., Portland. Contract price, \$60,000.

SACRAMENTO, CAL.—Hospital wards, 2, 2 story and base, hollow tile, \$76,077. Architect, R. A. Herold, Forum Bldg., Sacramento. Owners, Sacramento County. Contractor, William C. Keating, Forum Bldg., Sacramento. Contract price, \$76,077.

HOTELS

LOS ANGELES, CAL.—Hotel, 4 story and base. Class C construction, \$25,000. Architect, Edward Gray Taylor, Hays Bldg., 1, A. Owner, Fred W. Siegel. Location, San Juan street between 7th and 8th street. Will contain 55 rooms and several baths. Plans complete and figures being taken.

IRRIGATION PROJECTS

SAN JOSE, SANTA CLARA CO., CAL.—Drainage ditch. Cost not stated. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Bids will be opened on October 2 at 11 a. m. for the construction of a drainage ditch in Supervisors' Districts Nos. 4 and 5.

MERCED, MERCED CO., CAL.—Drainage ditches. Cost not stated. Engineer, County Surveyor, Merced. Owners, Merced County. One of the most important actions of the County Supervisors at their last meeting was the ordering of the construction of the drainage canal in Drainage District No. 2, which embraces Atwater and its environs. The plans and specifications for this work as prepared by the County Engineer were approved, and an order made requiring that official to proceed to make an estimate and assessment of the cost of the work. In the Drainage Improvement District No. 2 matter, the Board ordered work to be done. Plans and specifications were adopted and the County Surveyor ordered to make an estimate and assessment as to the work.

LIBRARIES

SACRAMENTO, CAL.—Library, 3 story and base. Class C construction, \$120,000. Architect, Loring P. Rixford, Shattuck Bldg., 8, F. Owners, City of Sacramento. Location, 9th and 1st Sts. Will contain main library, school department, work room and offices. Plans complete and figures being taken. Bids open on October 5th. Plans can be secured from the Clerk of the Library Commission at Sacramento or from the architect.

Contracts Awarded.

MADERA, MADERA CO., CAL.—Library, 1 story and base, brick, \$12,383. Architect's name not given. Owners, City of Madera. Contractor, Edward Layne, Madera. Contract price, \$12,383.

RESIDENCES

SAN FRANCISCO—Residences, 4, 1½ story and base, frame, \$1,800 each. Architect, none. Owner, Lazar Aydukovich, 1378 16th avenue, S. F. Location, east 26th avenue south Judah. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 4, 2 story and base, frame, \$3,000 each. Architect, none. Owner, Emil Nelson, 880 13rd avenue, S. F. Location, east 15th avenue south Balboa. Each dwelling will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1½ story and base, frame, \$2,500. Architect, none. Owners, Oscar Heyman & Bros., 742 Market street, S. F. Location, west 40th avenue south Cabrillo. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, H. C. Pfirang, 320 Forest street, Oakland. Location, east James north Clifton. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, A. H. Broad, 2117 Kittridge street, Berkeley. Location, 1931 McGee. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1½ story and base, frame, \$3,000. Architect, none. Owner, George H. Johnson, 5457 Vicente street, Oakland. Location, west San Sebastian north Elsinor. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, H. A. Pfeiffer, 954 Fruitvale avenue, Oakland. Location, north Noble street east Seminary. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect,

none. Owner, R. C. Hullen, 150 Haight avenue, Alameda. Location, north Maine east Curran avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Glenn R. Ball, 145 Franklin street, Oakland. Location, south 39th street west Market. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

Contracts Awarded.

LANKERSHIM, LOS ANGELES CO., CAL.—Residences, 2, 2 story and base, frame, \$32,000. Architect, L. A. Barton, 111 North Spring street, L. A. Owner, P. W. Blanchard, Contractor. William Flemming Co., 692 South Alvarado street, L. A. Contract price \$32,000.

SCHOOLS

SAN FRANCISCO—School addition, 2 story, frame, \$30,000. Architect, City Department of Architecture, City Hall. S. F. Owners, City and County of San Francisco. Bids will be opened on September 25th for the construction of a two-story addition to the Mission High School. Plans can be secured from the City Department of Architecture.

ALAMEDA, ALAMEDA CO., CAL.—School, 2 story and base, brick and concrete, \$60,000. Architects, Cunningham & Politeo, First National Bank Bldg., S. F. Owners, City of Alameda. Revised plans have been completed and figures are to be opened on October 3rd for the construction of the Lincoln School. Plans can be secured from the architects or the Clerk of the Board of Education. Segregated figures are being taken.

UKIAH, MENDOCINO CO., CAL.—School, 1 story and base, brick or reinforced concrete, \$20,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, City of Ukiah. Preliminary plans for the first unit of the proposed new school will be approved at the next meeting of the Board of Education. A \$60,000 building will be erected in units of three. Further mention will be made of this work.

PLACERVILLE, EL DORADO CO., CAL.—Schools, 2, 1 story and base, hollow tile, \$27,000 and \$3,000. Architects, N. W. Sexton & Co., Merchants National Bank Bldg., S. F. Owners, Placerville School District. All bids for the construction of these two buildings have been returned to the bidders unopened. This action was taken because the Board of Education believed that it was impossible to get the buildings under roof before the winter set in. New bids will be called for in the spring.

ALBANY, ALAMEDA CO., CAL.—School, 1 story, reinforced concrete, \$20,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Town of Albany. Revised plans being prepared. Work to be refigured. Bids open on September 28th.

Contracts Awarded

VISALIA, TULARE CO., CAL.—School, 2 story and base, Class C construction, \$17,000. Architects, Swartz & Swartz, Row-H Bldg., Fresno. Owners, City of Visalia. Contractor, T. B. Day, Woodlake, general construction.

YUBA, YUBA CO., CAL.—Plumbing Co., heating and ventilating, \$1,000.

SEWERS, STREET WORK & WATER SYSTEMS

SACRAMENTO, CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The City Commission has awarded a contract to A. L. Gilbert & Son, Ochsner Bldg., Sacramento, for the following work: That Spalding avenue, from the south line of Madison avenue to the north line of Cypress avenue, be improved by constructing concrete gutter, one on each manhole, 6-inch, vitrified, from stone sewer pipe drains, placing two cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick.

OAKLAND, CAL.—Street work. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on September 28th at 12 o'clock for street improvements authorized under the following resolutions: That cement sidewalks 6 feet wide, where cement or bitumen sidewalks do not already exist, be constructed on the sidewalks of Seminary avenue from the northeastern line of East 11th street to the southwest line of Foothill Boulevard.

That cement sidewalks 6 feet wide be constructed on the sidewalks of 15th avenue, from the northeast line of East 11th street to the south line of Bond street, where cement or bitumen sidewalks do not already exist.

HANFORD, KINGS CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. At the last meeting of the Kings County Supervisors the Board instructed the County Clerk to advertise for bids for the unit of highway running from the north terminus of Douy street to the Alcorn bridge, 6 miles north, and for a strip three miles east from this unit into the Excelsior District, a total of 9½ miles. The bids will be opened on October 2nd. Plans for this work may be had from the County Clerk.

TULARE, TULARE CO., CAL.—Street paving, etc. Cost as follows. Engineer, City Engineer, Tulare. Owners, City of Tulare. Two bids were received by the City Trustees for the paving of three streets in Tulare. The bids received were as follows: Clark & Henry Construction Co., Ochsner Bldg., Sacramento—Grading, 1c; paving, 11.2c; gutters, 3c, curbs, 2c. Federal Construction Co., 323 Sharon Bldg., S. F.—Grading, 4c; paving, 11.5c; gutters, 20c; curbs, either 3c or 3.5c. The bids were referred to the City Engineer for report.

SACRAMENTO, CAL.—Highway construction. Cost not stated. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Bids will be opened on October 9th at 2 p. m. for highway grading in Sonoma County between Cotati and Petaluma, a distance of about 3.6 miles.

SALINAS, MONTEREY CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Salinas. Owners, City of Salinas. The City Council has awarded contracts for street work as follows: To W. A. Duntanville, Salinas, for grading the roadway of that portion of Stone street from the north line of Central avenue to the south line of Market street, and constructing thereon a hydraulic cement concrete base with a two-course asphalt and screening surface, to the official grade, together with concrete curbs along both sides of the roadway, also for grading the roadway of that portion of Salinas street from the south line of Alisal street to the north line of San Luis street, and constructing thereon a hydraulic cement concrete base with a two-course asphalt and screening surface, to the official grade, together with concrete curbs along both sides of the roadway.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on September 26th for street work authorized under the following resolutions: That 21st street, from the north line of B street to the north line of J street, be improved by constructing concrete curb, concrete gutter; grading the space between the property line and curb; constructing concrete sidewalk; 6 and 8 inch, vitrified, ironstone sewer pipe drains; reconstructing two concrete manholes; constructing eleven concrete manholes complete; placing twenty-seven cast iron gutter drains with 6-inch, vitrified ironstone sewer pipe elbows attached; grading the roadway and constructing thereon an asphaltic concrete concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick.

That the alley between K and L Sts. from the east line of 14th street to the west line of 15th street, be improved by constructing one concrete catch basin; placing 6 linear feet of 8-inch, vitrified, ironstone sewer pipe drain connecting catch basin to sewer; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 6 inches thick and a sheet asphalt wearing surface 1½ inches thick.

That the alley first north of First avenue in Oak Grove, from the manhole in place in Lower Stockton Road to a point 105 feet west from the center line of East avenue, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, three concrete manholes, placing 58 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer, and doing all necessary excavating and backfilling of trenches.

OROVILLE, BUTTE CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Oroville. Owners, Butte County. The County Supervisors have rejected all bids received for the construction of a road 3½ miles in length, which was to be constructed of waterbound macadam. Three bids were received, but all considered too high, and the work was ordered done under the supervision of Supervisor Holmes.

CULSA, COLUSA CO., CAL.—Road improvements. Cost not stated. Engineer, County Surveyor, Colusa. Owners, Colusa County. The County Supervisors have rejected all bids received for the construction of the earthwork on the portion of the county road extending from the town of Colusa to the town of Sycamore, and the work has been ordered done under the supervision of C. J. Wescott, Supervisor of the district.

SAN RAFAEL, MARIN CO., CAL.—Culverts and storm drains. Cost not stated. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. Bids will be opened on October 2nd for the construction of two reinforced concrete storm drains and seven concrete and corrugated iron culverts.

Contracts Awarded.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Contracts for street improvements have been awarded under the following resolutions: That Arthur street, from 73rd avenue to Church street, as it exists between Arthur and Fresno streets, be graded, curbed with redwood, guttered with concrete gutters 3 feet wide, and paved with oil macadam. Awarded to A. H. Kopperud, 2030 High street, Oakland.

That 2nd street from Webster St. to Alice street, be graded, curbed with granite, guttered with brick gutters 14 inches wide, and paved with asphalt; also that four brick catch basins with cast iron tops be constructed in 2nd street, one in each quarter of the north halves of the crossings of Harrison and Alice Sts.; also that vitrified pipe conduits, having internal diameters of 16 inches be constructed. Catch basins awarded to Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That East 11th street, from 28th avenue to 29th avenue, be graded, curbed with redwood, guttered with concrete gutters 3 feet wide, and paved with oil macadam pavement; also a sewer having an internal diameter of 8 inches be constructed; a lamphole, Y branches having 5-inch openings. Y branches and lampholes shall be constructed of vitrified sewer pipe. Awarded to A. H. Kopperud, 2030 High street, Oakland.

That Fairfax avenue, from Frances street to Courtland avenue, be graded, curbed with redwood, guttered with concrete gutters 3 feet wide paved with oil macadam and sidewalked with cement sidewalks 6 feet wide. Awarded to Hutchinson Co., 13th and Franklin streets, Oakland.

SAN FRANCISCO.—Street improvements. Cost as follows. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Contracts for street improvements have been awarded under the following resolutions: The improvement of Leroy Place from Sacramento street to its northern termination by the construction of granite curbs and vitrified brick pavement on the roadway thereof. Awarded to D. L. Bienfeld, Phelan Bldg., for \$947.67.

The improvement of Farallones St., between Plymouth and San Jose avenue, by grading to official line and grade. Awarded to Flinn & Treacy, 404 First National Bank Bldg., for \$4,757.40. The improvement of Capitol avenue,

from Ocean avenue to Lakeview avenue, including the crossings of Capitol avenue and De Montford avenue, Capitol avenue and Holloway avenue, and Capitol avenue and Grafton avenue; grading to official line and grade, concrete curbs; artificial stone sidewalks; catch basins; 10-inch, vitrified, salt-glazed, ironstone pipe sewer along the center line of De Montford avenue, between the east and center lines of Capitol avenue; by the construction of a 14-foot central strip of vitrified brick pavement between Grafton avenue and Lakeview avenue; constructing an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway thereof. Awarded to Ransome-Crummey Co., 1st National Bank Bldg., Oakland, for \$21,156.85.

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Richmond. Owners, City of Richmond. Bids will be opened on September 25th at 8 p. m. for street improvements authorized under the following resolution: That the alley between Bishop avenue and Crest avenue, from the center line of the alley running from Front avenue to Crest avenue, northeast, a distance of 250 feet, a portion of Bishop avenue and Front street, be improved by constructing 8, 12 and 6 inch, vitrified, salt-glazed sewer pipe, manholes of brick and concrete, lampholes of vitrified, salt-glazed sewer pipe, Y branches, vitrified, salt-glazed sewer pipe and risers of vitrified, salt-glazed sewer pipe with bends and tees with cast iron vents and covers, be constructed on said sewers.

The construction of sewers and appurtenances in Railroad avenue between San Bruno and Ingerson avenues. Awarded to The Tibbitts Pacific Co., 16 California street, for \$1,714.70.

The improvement of the westerly side of Leavenworth street between Union and Filbert streets by the construction of artificial stone sidewalks 6 feet wide where not already constructed at least 6 feet wide. Awarded to Thos. A. Clark, 68 Post street.

STOCKTON, SAN JOAQUIN CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Stockton. Owners, City of Stockton. Clark & Henery Construction Co., 38 South Street street, Stockton, has been awarded the contract by the City Council for the following street work: The improvement of portions of Pine, Hazel, Locust, Hawthorne, McClellan avenue, Chestnut, Walnut and Maple, by grading, curbing and guttering; concrete sidewalks; paving the roadway with asphalt concrete 4 inches thick after rolling on a base of gravel of a cementing nature 2 inches thick after rolling.

RICHMOND CONTRA COSTA CO., CAL.—Street improvements. Cost as follows. Engineer, City Engineer, Richmond. Owners, City of Richmond. One street contract was withheld and two others awarded by the Council at its last meeting. J. E. Staniger, who submitted the low bid for the improvement of Contra Costa street, was not awarded the contract because he was not known by the Council. Staniger's bid was \$1,226.08. L. L. Page, 8th and

Bissell street, Richmond, was the other bidder. His bid was \$17,586.32. S. C. Rogers, 401 Chansler avenue, Richmond, was awarded the contract for improving one block on First street. His bid was \$2,863.26. Other bidders were G. W. Cushing, \$3,266.68; J. C. Staniger, \$3,461.58; L. L. Page, \$5,944.10. The contract for installing sewers in Pullman Park tract was awarded to Chambers & Healy, Bacon Bldg., Oakland. Their bid was \$2,030.50. Other bidders were J. P. Staniger, \$2,283.16; Raven & Co., \$2,110; L. L. Page, \$2,411. The bid of F. R. Ritchie was declared not valid it having no signature or date.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That S street, from Front street to 21st street, be improved by constructing concrete sidewalk on official line and grade where concrete sidewalk does not exist on official line and grade, and grading the space between the property line and curb. Awarded to L. Beancalana.

That T street, from Front street to 28th street, be improved by removing and disposing of all surplus and refuse material in the sidewalk area, constructing concrete sidewalk 6 feet wide and 2½ inches thick on official line and grade where concrete sidewalks do not exist on official line and grade, and grading the space between the property line and curb. Awarded to L. Beancalana.

That M street, from 20th to 31st St., be improved by grading the space between the property line and curb where concrete sidewalk does not exist on official line and grade. Awarded to A. Olsen, 2724 First avenue, Sacramento.

SAN RAFAEL, MARIN CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. Contractors, Blake Bros., Oakland Bank of Savings Bldg., Oakland. Contract price not stated.

ENTERPRISE, ORE.—Stores and offices, 2 story and base, brick and concrete. Cost not stated. Architects, Tourtellotte & Hummel, Rothechild Bldg., Portland. Owner, S. D. Keltner. Contractor, John Oberg, Enterprise. Contract price not given.

SEALED PROPOSALS

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, St. Ignatius, Mont., until 2 o'clock p. m., **October 10, 1916**, for the construction of canals and structures on the Flathead project, Montana, involving about 165,000 cubic yards of excavation, 125 cubic yards of reinforced concrete, 1,100 square yards of paving, laying 1,100 linear feet of vitrified pipe, erecting 81,000 feet, b. m., of lumber, erecting 2,000 linear feet of steel flume and placing 35,000 pounds of structural and reinforcing steel. The work is located near St. Ignatius and Dixon, Mont. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or St. Ignatius, Mont. A. P. DAVIS, chief engineer.

PROPOSALS FOR Q. M. SUPPLIES.

SAN FRANCISCO, No. 78—Office of the Depot Quartermaster, U. S. Army, Fort Mason, San Francisco, Cal.—Sealed proposals will be received here until **September 27, 1916**, under proposal No. 78 for furnishing 55 coal baskets, 60 dozen backsaw blades, 18 ambulance bridles, 2,000 sheets bristol board, 1,000 bristol cards, 48 basin catches, 500 feet brass chain, 1,922 boxes paper clips, 1,000 counterpane, 200 pounds graphite, 12 grindstones, 700 pounds flat iron, 12 wagon jacks, 111 table knives, 11 saddlers' kits, 68 team lines, 60 hose nozzles, 650 candle bars, 100 pie plates, 8 dozen plates, 500 parts for electric fan, 15 pounds brass pine, 12 pitchforks, 50 racks, comb and brush, 250 pounds rivets and burrs, harness, 2,000 pounds white cotton waste, 50 folding tables, 26 water coolers, 110 quires empty enemy cloth, 120 tin boilers, 12 backsaws, 184 pairs ambulance harness hames, 18 blacksmiths' fullers and 500 pounds steel. For further information address JOHN T. KNIGHT, colonel, quartermaster corps, U. S. Army, depot quartermaster.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA, CIRCULAR 1679—Proposals for Kerosene and Gasoline. Annual estimate for the period ending June 30, 1917.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:20 a. m., September 23, 1916**, at which time they will be opened in public, for furnishing the above mentioned articles. Plans and general information relating to this circular (No. 1679) may be obtained from this office or the office of the assistant purchasing agent, Fort Panaman, Panama, Cal., also from the U. S. engineer offices in the following cities: Seattle, Wash., Los Angeles, Cal., EARL I. BROWN, major, corps of engineers, U. S. Army, general purchasing officer.

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, St. Ignatius, Mont., until 2 o'clock p. m., **September 20, 1916**, for the construction of canals and structures on the Flathead project, Montana, involving about 125,000 cubic yards of excavation, 495 cubic yards of reinforced concrete, 1,000 square yards of paving, 10,100 square feet of canal lining, manufacturing and laying 3,100 linear feet of concrete pipe, laying 210 cubic yards of dry rubble wall and placing 70,000 pounds of structural and reinforcing steel. The work is located from 3 to 10 miles west of Ronan, Mont. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or St. Ignatius, Mont. MORRIS BIEN, acting director.

PROPOSALS FOR VALVES.

VALVES—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 p. m., **September 20, 1916**, for the construction of valves for the north tunnel of the Roosevelt Dam, Salt River project, Arizona. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., A. P. Davis, chief engineer.

STATE OF CALIFORNIA.

DEPARTMENT OF ENGINEERING.

CALIFORNIA HIGHWAY COMMISSION.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of the **California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock p. m., on October 9, 1916**, at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portions of State highway as follows:

Sonoma County, on the road between Cotati and Ukiah from Highland Avenue to Willow Creek (15-801-1-C), about 3.6 miles in length, to be graded. Plans may be seen, and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willets, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the Notice to Contractors annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The board of Civil Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

CHARLES D. DARRINGTON,
NEWELL D. DARRINGTON,
CHARLES F. STERN,
California Highway Commission
GEO. R. WINNSLOW,
1st Assistant Engineer
WILSON R. ELLIS,
Secretary.

Contractors all over the country are moving more material in less time and at a smaller expense with
FOUR WHEEL DRIVE TRUCKS
than with any other method of transportation.

Consider what power on all four wheels would mean for you in your business.

Large Contractors and corporations the world over are finding that power on all four wheels results definitely and decisively in:--

100 per cent saving in cost of tires.

Greater durability to every wearing part.

Allows equal distribution of load, thus

Eliminating undue strain on any one part.

Enormous saving in cost of up-keep.

More mileage per gallon of gasoline and oil.

DEPENDABLE SERVICE - no idle days waiting for repairs.

Remember that every F. W. D. Truck built in the past seven years is working to-day, and they are performing harder and more persistent service at a given cost than any other truck built to-day.

You owe it to yourself to investigate the F. W. D. truck.

Bond, \$1747.50. Sureties, New Amsterdam Casualty Co. Limit, 45 working days. Forfeited, \$5 per day. Plans and specifications filed.

MARIN, CONTRA COSTA AND SONOMA COUNTIES

STREET IMPROVEMENT—Cost not stated. Richmond, Contra Costa Co., Cal. Engineer, City Engineer, Richmond. Owners, City of Richmond. Bids will be opened on September 25th at 8 p. m. for street improvements authorized under the following resolution: That the alley between Bishop avenue and Crest avenue, from the center line of the alley running from Front avenue to Crest avenue northeast, a distance of 280 feet, a portion of Bishop avenue and Front street, be improved by constructing 8, 12 and 6 inch, vitrified, salt-glazed sewer pipe, manholes of brick and concrete, lampholes of vitrified, salt-glazed sewer pipe, Y branches, vitrified, salt-glazed sewer pipe and risers of vitrified, salt-glazed sewer pipe with bends and tees with cast iron vents and covers, be constructed on said sewers.

STREET IMPROVEMENTS—Cost as follows. Richmond, Contra Costa Co., Cal. Engineer, City Engineer, Richmond. Owners, City of Richmond. One street contract was withheld and two others awarded by the Council at its last meeting. J. E. Staniger, who submitted the low bid for the improvement of Contra Costa street, was not awarded the contract because he was not known by the Council. Staniger's bid was \$1,226.08, L. L. Page, 5th and Bissell streets, Richmond, was the other bidder for the work. His bid was \$1,886.32, S. C. Rogers, 191 Chancellor avenue, Richmond, was awarded the contract for improving one block on First street. His bid was \$2,863.26. Other bidders were G. W. Cushing, \$3,206.68; J. C. Staniger, \$3,161.58, L. L. Page, \$3,944.10. The contract for installing sewers in Pullman Park tract was awarded to Chambers & Heafy, Bacon Bldg., Oakland. Their bid was \$2,020.50. Other bidders were J. F. Staniger, \$2,293.40; Raven & Co., \$2,110; L. L. Page, \$2,141. The bid of E. R. Ritchie was declared not valid, it having no signature or date.

MACHINE SHOP ADDITION—1 story reinforced concrete, \$10,000. Benicia, Solano Co., Cal. Engineers, Bureau of Yards and Docks, Washington, D. C. Owners, United States Government. Bids will be called for shortly for the construction of a one-story addition to the machine shop at Benicia. Further mention will be made of the work.

CULVERTS AND STORM DRAINS

Cost not stated. San Rafael, Marin Co., Cal. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. Bids will be opened on October 2nd for the construction of two reinforced concrete storm drains and seven concrete and corrugated iron culverts.

STREET PAVING—Cost not stated. San Rafael, Marin Co., Cal. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. Contractors, Blake Bros., Oakland Bank of Savings Bldg., Oakland. Contract price not stated.

Day's work. COST, \$1800

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

HIGHWAY CONSTRUCTION—Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford. Owners, Kings County. At the last meeting of the Kings County Supervisors, the Board instructed the County Clerk to advertise for bids for the mill of highway running from the north terminus of Dooty street to the Alcorn bridge, 6 miles north, and for a strip three miles east from this unit into the Excelsior district, a total of 9½ miles. The bids will be opened on October 2nd. Plans for this work may be had from the County Clerk.

STREET PAVING, ETC—Cost as follows. Tulare, Tulare Co., Cal. Engineer, City Engineer, Tulare. Owners, City of Tulare. Two bids were received by the City Trustees for the paving of three streets in Tulare. The bids received were as follows. Clark & Henry Construction Co., Oberner Bldg., Sacramento—Grading, bet. paving, 11.2c, gutters, 3c, curbs, 2c.
Federal Construction Co., 323 Sharon Bldg., S. F. Grading, bet. paving, 11.5c; gutters, 2c; curbs, either 3sc or 3.8c.

The bids were referred to the City Engineer for report.

BRIDES—Reinforced concrete. Cost as follows. Madera, Madera Co., Cal. Engineer, County Surveyor, Madera. Owners, Madera County. At the last meeting of the County Supervisors bids were received for the building of four bridges. They are the Bethel bridge over upper Fine old Creek, a bridge over the North Fork of the San Joaquin River at the Pine road, one over Winkelman Creek at the Pines road and one over Berenda Slough. The bids were as follows: Ed Layne, Madera, Winkelman, \$955; Bethel, \$1398; Pine, \$1342, and Berenda, \$2470. J. P. Hurt, Berenda, \$2280; Winkelman, \$870; Bethel, \$1209, and Pines, \$745. Manning Bros., Fresno, Berenda, \$3,370. J. P. Hurt was given the contract for the Winkelman and Pines bridges. The Berenda Slough and Bethel bridges will be re-advertised, as the Board believed the bids were too high. If the bids are not lowered they will be built by Day Labor by the county.

RESIDENCE—1½ story and base, frame, \$6,000. Newman, Stanislaus Co., Cal. Architect, Ralph P. Morrell, Odd Fellows Bldg., Stockton. Owner, William J. Burris, Cashier First National Bank, Newman. Will contain eight rooms, two baths and sleeping porches. Separate garage. Plans being prepared.

JAHS—2, 1 story, reinforced concrete. Cost not stated. Bakersfield, Kern Co., Cal. Architect's name not given. Owners, Kern County. Bids will be opened on October 11th for two small jail buildings, one to be erected at Mojave and the other at Handsburg.

DRAINAGE DITCHES—Cost not stated. Engineer, County Surveyor, Merced. Owners, Merced County. One of the most important actions of the County Supervisors at their last meeting was the ordering of the construction of the drainage canal in Drainage District No. 2. Plans and specifications for this work as prepared by the County engineer, were approved and an order made requiring that official to proceed to make an estimate and assessment of the cost of the work. In the Drainage Improvement District No. 2 matter the Board ordered work to be done. Plans and specifications were adopted and the County Surveyor ordered to make an estimate and assessment as to the work.

CHURCH—1 story and base, frame, \$20,000. Merced, Merced Co., Cal. Architects, Shea & Lofquist, Bankers' Investment Bldg., S. F. Owners, La Merced de Dios. Location, 21st and L Sts. Will contain main auditorium, seating 50 people, Sunday school rooms and pastor's study. Plans complete and figures to be called for shortly.

Contracts Awarded.

BRIDGE—Reinforced concrete, \$5,986. Visalia, Tulare Co., Cal. Engineer, County Surveyor, Visalia. Owners, Tulare County. Contractors, Parker & Green, Tulare. Contract price, \$5,986.

LIBRARY—1 story and base, brick, \$12,382. Madera, Madera Co., Cal. Architect's name not given. Owners, City of Madera. Contractor, Edward Layne, Madera. Contract price, \$12,382.

SCHOOL—2 story and base. Class C construction, \$47,000. Visalia, Tulare Co., Cal. Architects, Swartz & Swartz, Rowell Bldg., Fresno. Owners, City of

Visalia. Contractor, D. B. Day, Woodlake, general construction, \$39,294. Visalia Plumbing Co., heating and ventilating, \$4,000.

HIGHWAY IMPROVEMENT—Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford. Owners, Kings County. Contractors, Ralsch Improvement Co., Crocker Bldg., S. F. Contract covers the construction of 15½ miles of highway. Contract price not stated.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

STREET IMPROVEMENT—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The City Commission has awarded a contract to A. Teichert & Son, Ochsner Bldg., Sacramento for the following work: That Spofford avenue from the south line of Madrone avenue to the north line of Cypress avenue, be improved by constructing concrete gutter, one concrete manhole, 6-inch, vitrified, ironstone sewer pipe drains, placing two cast iron gutter drains with 6-inch, vitrified ironstone sewer pipe elbows attached; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick.

BRIDGES—2 reinforced concrete. Cost not stated. Redding, Shasta Co., Cal. Engineer, County Surveyor, Redding. Owners, Shasta County. Bids will be opened on October 2nd at 2 p. m. for the construction of two reinforced concrete girder bridges over Griffiths Gulch on the Anderson-Quinda road.

RESIDENCE—1 story and base, frame, \$3,500. Ripon, San Joaquin Co., Cal. Architect, Ralph P. Morrell, Odd Fellows Bldg., Stockton. Owner, C. K. Elnbridge. Will contain six rooms, bath and sleeping porch. Plans being prepared.

ENCLOSURE AND BARN—1 story frame, \$2,000. Stockton, San Joaquin Co., Cal. Architect, Ralph P. Morrell, Odd Fellows Bldg., Stockton. Owner,

M. J. Gynorn. Will contain five rooms, bath and sleeping porch. Plans being prepared.

HIGHWAY CONSTRUCTION—Cost not stated. Sacramento, Cal. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Bids will be opened on October 30th at 2 p. m. for highway grading in Sonoma County between Cotati and Petaluma, a distance of about 3.6 miles.

STREET IMPROVEMENTS—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Clark & Henry Construction Co., 35 South Sutter street, Stockton, has been awarded the contract by the City Council for the following street work: The improvement of portions of Pine, Hazel, Locust, Hawthorne, McCloud avenue, Chestnut, Walnut and Maple, by grading, curbing and guttering; concrete sidewalks; paving the roadway with asphalt concrete 4 inches thick after rolling on a base of gravel of a cementing nature 2 inches thick after rolling.

LIBRARY—3 story and base, Class C construction, \$130,000. Sacramento, Cal. Architect, Loring P. Rixford, Sharon Bldg., S. F. Owners, City of Sacramento. Location, 9th and I Sts. Will contain main library, school department, work room and offices. Plans complete and figures being taken. Bids open on October 5th. Plans can be seen from the Clerk of the Library Commission at Sacramento or from the architect.

SCHOOLS—2, 1 story and base, hollow tile, \$27,000 and \$3,000. Placerville, El Dorado Co., Cal. Architects, N. W. Sexton & Co., Merchants' National Bank Bldg., S. F. Owners, Placerville School District. All bids for the construction of these two buildings have been returned to the bidders unopened. This action was taken because the Board of Education believed that it was impossible to get the buildings under roof before the winter set in. New bids will be called for in the spring.

SCHOOL—1 story and base, brick or reinforced concrete, \$20,000. Ukiah, Mendocino Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, City of Ukiah. Preliminary plans for the first unit of the proposed new school will be approved at the next meeting of the Board of Education. A \$60,000 building will be erected in units of three. Further mention will be made of this work.

BRIDGES—7 reinforced concrete. Cost not stated. Willows, Glenn Co., Cal. Engineers, Leonard & Day, Rialto Bldg., S. F., and County Surveyor, Willows. Owners, Glenn County. Bids will be opened on October 3rd for the construction of four bridges designed by Leonard & Day and for three smaller structures designed by the County Surveyor.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on September 26th for street work authorized under the following resolutions: That 31st street, from the north line of B street to the north line of J street, be improved by constructing concrete curb; concrete gutter; grading the space between the property line and curb; constructing con-

crete sidewalk, 6 and 8 inch, vitrified, ironstone sewer pipe drains; reconstructing two concrete manholes; constructing eleven concrete manholes complete, placing twenty-seven cast iron gutter drains with 6 inch, vitrified ironstone sewer pipe elbows attached, grading the roadway and constructing thereon an asphaltic concrete concrete pavement, consisting of a excavating and backfilling of trenches, hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2 inches thick.

That the alley between K and L Sts., from the east line of 14th street to the west line of 15th street, be improved by constructing one concrete catch basin; placing 6 linear feet of 8-inch, vitrified, ironstone sewer pipe, drain connecting catch basin to sewer; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 6 inches thick and a sheet asphalt wearing surface 1 1/2 inches thick.

That the alley first north of First avenue in Oak Grove, from the manhole in place in Lower Stockton Road to a point 162 feet west from the center line of East avenue, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, three concrete manholes, placing 58 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer, and doing all necessary excavation.

HIGHWAY CONSTRUCTION—Cost not stated. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville, Owners, Butte County. The County Supervisors have rejected all bids received for the construction of a road 3 1/2 miles in length, which was to be constructed of waterbound macadam. Three bids were received, but all considered too high, and the work was ordered done under the supervision of Supervisor Holmes.

ROAD IMPROVEMENTS—Cost not stated. Colusa, Colusa Co., Cal. Engineer, County Surveyor, Colusa, Owners, Colusa County. The County Supervisors have rejected all bids received for the construction of the earthwork on the portion of the county road extending from the town of Colusa to the town of Sycamore, and the work has been ordered done under the supervision of C. J. Wescott, Supervisor of the district.

Contracts Awarded.

ROAD GRADING AND CURBVERTS—Cost not stated. Auburn, Placer Co., Cal. Engineer, City Engineer, Auburn, Owners, City of Auburn, Contractors, Paul & Caldwell, Stockton. Contract price not stated.

BRIDGE AND FILL—\$3,961 and \$2,380. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville, Owners, Butte County, Contractor, E. D. Sharp, Gridley, concrete bridge floor. Contract price, \$3,961. Hewitt & Felch, Marysville, Ill. Contract price, \$2,380.

BRIDGES—Timber and reinforced concrete. Cost as follows: Eureka, Humboldt Co., Cal. Engineer, County Surveyor, Eureka, Owners, Humboldt County. The County Supervisors at their last meeting awarded contracts for road and bridge improvements totaling \$16,626.75. W. F. Notley was awarded the contract for constructing the Elk and Bridge Creek structures at

\$2,549. Poland & Robinson were the successful bidders for building the highway bridge across the North Fork of the Mattole River near Petrolia. Their bid was \$1,785. The contract for the Jordan and Bear Creek jobs, won by Morrey-Fisher Co., 14 and 15 streets, Eureka on a bid of \$1,719. These two bridges and those across Elk and Bridge Creeks are on the State highway in Supervisory District No. 2. Henry Padgett, Field Landing, was the successful bidder on the Lost Mary's Creek contract near Orick. Walter R. Hunter will construct a section of road in the Mattole Valley, having bid to do the work for \$600. On the Davis Creek bridge D. C. Farnell was the winner on a bid of \$790. The Rouse Creek bridge will be built by H. Padgett on his bid of \$1,565.

HOSPITAL, WARD—1 story, frame, \$1,000. Redding, Shasta Co., Cal. Architect, none. Owners, Shasta County, Contractors, W. H. Bolton and W. A. Rhynsdress, Redding. Contract price, \$1,000.

HOSPITAL, WARDS—2, 2 story and base, hollow tile, \$76,077. Sacramento, Cal. Architect, R. A. Herold, Forum Bldg., Sacramento. Owners, Sacramento County, Contractor, William C. Keating, Forum Bldg., Sacramento. Contract price, \$76,077.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento, Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That S street, from Front street to 31st street, be improved by constructing concrete sidewalk on official line and grade while concrete sidewalk does not exist on official line and grade, and grading the space between the prop-

erty line and curb. Awarded to L. Beanelana.

That T street, from Front street to 28th street, be improved by removing and disposing of all surplus and refuse material in the sidewalk area; constructing concrete sidewalk 6 feet wide and 2 1/2 inches thick on official line and grade, where concrete sidewalks do not exist on official line and grade, and grading the space between the property line and curb. Awarded to L. Beanelana.

That M street, from 20th street to 31st street, be improved by grading the space between the property line and curb where concrete sidewalk does not exist on official line and grade. Awarded to A. Olsen, 2724 1st avenue, Sacramento.

LOS ANGELES AND SOUTHERN CALIFORNIA

APARTMENT HOUSE—4 story and base. Class C. Cost not stated. Los Angeles, Cal. Architect, George W. Eldredge, Consolidated Realty Bldg. Owner, D. W. Ferguson. Location, Westlake avenue near Sixth. Will cover an area of 50 by 110 feet. Plans complete and segregated figures being taken.

BRIDGE—Reinforced concrete. Cost not stated. Santa Barbara, Santa Barbara Co., Cal. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Bids will be received by the Board of Supervisors up to 10 a. m. of September 28th for the construction of a reinforced concrete arch bridge across Gaviota Creek at Station No. 104-00 in Sec. E, on the route of the State Highway in the Fourth Road District. Plans and specifications on file at the office of the County Clerk, and may be obtained from the County Surveyor upon deposit of \$10, to be returned. Certified check for 10 per cent required. C. A. Hunt is the Clerk.

BRIDGES — 6, reinforced concrete, \$25,000. San Diego, San Diego Co., Cal. Engineer, County Surveyor, San Diego. Owners, San Diego County. Bids will be received by the Board of Supervisors up to October 4th for the construction of six bridges as follows: 40-foot combination truss bridge across Campo Creek at Campo; 26-foot wooden span with concrete foundations across Descanso Creek near Descanso; 250-foot pile trestle and one 50-foot pile trestle across Sweetwater River at Bonita; 225-foot pile trestle over San Vicente Creek between Lakeside and Foster; 92-foot pile trestle in Green Valley north of Descanso.

HOSPITAL BUILDINGS—1, 3 story and 1, 1 story, concrete and brick. Cost not stated. San Bernardino, San Bernardino Co., Cal. Architect, Lyman Farwell, Story Bldg., L. A. Owners, San Bernardino County. Bids will be

opened on October 11th for this work. Administration building, 92 by 56 feet, and service building, 88 by 115 feet. Plans can be had from the architect or County Clerk.

HOTEL, 4 story and base. Class C construction, \$25,000. Los Angeles, Cal. Architect, Edward Gray Taylor, Hias Bldg., L. A. Owner, Fred W. Siegel. Location, San Juan street between 7th and 8th. Will contain 58 rooms and several baths. Plans complete and figures being taken.

DEPARTMENT STORE—6 story and base, Class A construction. Cost not stated. Los Angeles, Cal. Architect, John Parkinson, Security Bldg., L. A. Owners, Arthur Fleming and R. C. Gillis, Los Angeles Investment Bldg., L. A. Location, southwest Broadway and Ninth. No details of the construction have been given out as yet. Further mention will be made of the work when the preliminary plans have been completed.

Contracts Awarded

RESIDENCES—2, 2 story and base, frame, \$32,000. Lankershim, Los Angeles Co., Cal. Architect, A. B. Benton, 111 North Spring street, L. A. Owner, F. W. Blanchard. Contractors, William Flemming Co., 692 South Alvarado St., L. A. Contract price, \$32,000.

PORTLAND AND OREGON

APARTMENT HOUSE—3 story and base, brick and concrete, \$15,000. Portland, Ore. Architect, none. Owner, Carl Magnusson, Manager Belt & Dodge Products Co., Portland. Location, Nar-tilla and Stout streets. Will contain two, three and four room apartments. Plans complete and work to be done by Day Labor.

Contracts Awarded.

HOSPITAL WARD—2 and 3 story, brick, \$60,000. Portland, Ore. Architect, A. E. Doyle, Worcester Bldg., Portland. Owners, White Shield Home. Contractors, Muir & McClellan, Chamber of Commerce Bldg., Portland.

STORES AND OFFICES—2 story and base, brick and concrete. Cost not stated. Enterprise, Ore. Architects, Tourtelotte & Hummel, Rothchild Bldg., Portland. Owner, S. D. Keltner. Contractor, John Oberg, Enterprise. Contract price not given.

SEATTLE AND WASHINGTON

APARTMENT HOUSE—3 story and base, brick and concrete, \$25,000. Seattle, Wash. Architect, F. H. Perkins, Lumber Exchange Bldg., Seattle. Owner, F. J. Tetzner. Location, 18th avenue North. Will cover an area of 40 by 96 feet and contain four six-room and two seven-room apartments. Plans complete and figures being taken.

Contracts Awarded.

STORES—3 story and base, brick, \$10,000. Tacoma, Wash. Architects, Heath & Gove, National Realty Bldg., Tacoma. Owners, Feist & Bachrach. Location, 13th and Broadway, covering an area of 99 by 100 feet. Contractors, Knoll Bros., 1211 South L Street, Tacoma. Contract price, \$10,000.

NEW ZEALAND INTEREST IN HEATING APPLIANCES.

AUCKLAND—The heating of factories in certain portions of New Zealand

has been discussed in Parliament. If efforts to have the factory law amended so as to compel owners of factories in certain of the colder sections of this Dominion to heat the plants during the winter months are successful, there should be a good demand in New Zealand for heating appliances. American manufacturers should study the situation.

The proposed action would lead to a greater general demand for heating appliances such as are placed in public buildings, churches, theatres, etc., and even in the homes, which at present in most parts of the country are poorly heated, as heating is understood in the United States.

HOMESTEADS OPEN OCTOBER 10.

SACRAMENTO—The greater part of Government land open to homesteaders in the Western sides of Shasta and Tehama counties, as well as a portion of the Government land in Siskiyou county, has been declared by the U. S. Geological Survey to be subject to enlarged, or 320-acre homestead application, after October 10, according to Register H. P. Andrews of the Sacramento U. S. Land Office.

GOLD MINING IN THE BOISE BASIN, IDAHO.

The Boise Basin of western Idaho has always been primarily a gold placer region, and for a decade after the discovery of gold there, late in 1862, it is credited with an annual placer production of one to five million dollars. In later years the yield has fluctuated greatly, but in 1912, 1913, and 1914 it still amounted to approximately half a million dollars annually. Many of the veins from which the placers derived their gold were located in the early days, and in recent years they have received increasing attention. To meet the many demands for information concerning these lodes, the United States Geological Survey, Department of the Interior, has just published a reconnaissance report on the region as Bulletin 640-E, which is obtainable on request from the Director of the Survey, Washington, D. C.

According to this report the depression known as the Boise Basin has resulted from the sinking of a fault block 15 miles long and 12 miles wide. The region lies within a great area of granite that extends over more than 20,000 square miles, the surface of a mass known as the Idaho batholith, which is believed to be of late Cretaceous or early Tertiary age. Porphyritic dike rocks of considerable variety were intruded into the granite and afterward the metalliferous veins were formed. The veins occupy zones of close-spaced fracturing in granite, and as the maximum depth to which mining has extended is not great most of the ores now mined are somewhat oxidized.

The principal primary ore minerals are native gold, pyrite, galena, sphalerite, chalcopirite, stibnite, and tetraedrite. The secondary minerals are cerussite, chalcocite, malachite, and native copper. Only the precious metals are now recovered from these ores, but as the mines go deeper the ores become increasingly base, and in the near future lead, copper, and possibly zinc

will doubtless be saved. Probably less than 50 per cent of the gold can now be saved by amalgamation.

The geologic history of the region after the mineral veins had been formed was eventful. Most of the basin was occupied by a Tertiary lake, formed by the damming of Snake River and its tributaries, and into this lake great sheets of basaltic lava were poured.

It is of interest to note the widespread occurrence in the placer gravels of the Boise Basin of monazite, which is extensively used in the manufacture of gas mantles. This source of supply, however, is not now utilized. An unidentified radium-bearing mineral also occurs sparingly in the gravels at one locality.

PHOTOGRAPHING INTERIOR STRUCTURE OF CONCRETE WORK, SWITZERLAND

Some successful experiments in photographing the iron reinforcements of concrete work with Roentgen rays, recently made by Inspecting Engineer E. Stettler of the Swiss Railway Department, are attracting much attention among Swiss construction engineers. The advantages of being able to make an examination of the condition of such reinforcements or the proper disposition and situation thereof without destroying the concrete structure are self-evident, as well as the desirability of being able to make an inspection of the position of the reinforcing iron rods upon the completion of the cement parts of a new building or a new cement structure.

Engineer Stettler, by the use of special plates adapted to any construction, has apparently obtained serviceable pictures of the inner structure of cement blocks. To eyes accustomed to pictures with great detail and much light and shadow, the first results of the Roentgen exposure may seem somewhat meager. However, the iron reinforcements in the pictures are shown in their proper size and situation, as also the connections and crossings, so that the imperfect connections can be clearly recognized.

ORIGIN OF "PETRIFIED FOREST."

The "Petrified Forest" of Arizona, really a series of petrified forests, lies a short distance south of Adamana, on the line of the Santa Fe railway. There are four "forests" included in a Government reservation called "Petrified Forest National Monument," created by presidential proclamation in 1906. The name "forest" is not strictly appropriate, for the petrified tree trunks are all prostrate and are broken into sections. The logs are the remains of giant trees that grew in Triassic time, the age of reptiles. The trees were of several kinds, but most of them were related to the Norfolk Island pine, now used for indoor decoration. Doubtless they grew in a near-by region and, after falling, drifted down a watercourse and lodged in some eddy or a sand bank. Later they were buried by sand and clay, finally to a depth of several thousand feet. The conversion to stone was effected by gradual replacement of the woody material by silica in the form called chalcidony, deposited by underground water. A small amount of iron oxides deposited at the same time has given the brilliant and beautiful brown, yellow, and red tints

which appear in much of the material.

Some of the tree trunks are 6 feet in diameter and more than 100 feet in length. In the first forest there is a fine trunk that forms a natural bridge over a small ravine, the water having first washed away the overlying clay sand and then, following a crevice, worked out the channel underneath. The length of this log is 110 feet, and the diameter 4 feet at the butt and 1½ feet at the top.

The petrified woods are beautiful objects for study. When thin slices are carefully ground down to a thickness of 0.003 inch or less and placed under the microscope they show perfectly the original wood structure, all the cells being distinct, though now they are replaced by chalcidony. By studying the sections F. H. Knowlton, of the United States Geological Survey, Department of the Interior, has found that most of these araucarian trees were of the species *Araucarioxylon arizonicum*, a tree now extinct. It is known to have lived at the same geologic time also in the east-central part of the United States, where the remains of some of its associates have also been found. These included other cone-bearing trees, tree ferns, cycads, and gigantic horse-tails, which indicate that at that time, the rainfall was abundant.—U. S. Geological Survey.

THE AUTOCAR IN THE BUILDING FIELD.

The building trades are indeed in on the wave of bigger business that is sweeping over the country. People have money today and they are spending it—building is one of the first businesses to feel the boom.

The hauling of materials and men is one of the largest factors in this class of work. Contractors have from the start been one of the biggest users of motor trucks. There are a great many features that make for efficiency in motor equipment for contractors; first and foremost is reliability. Material must be at the place of construction on time or expensive labor is standing idle and the whole job is held up. Economy of operation is important, too, and when combined with reliability increases the profits handsomely.

Ease of handling motor trucks counts much with contractors. It is so often necessary to operate in small space, and then, too, a compact truck gets from place to place through crowded traffic so much faster than a long truck.

The Autocar two-ton truck has just seemed to meet the requirements of builders and contractors. It is mechanically simple and for that reason reliable and economical, too.

Because of the distinctive construction of the Autocar, with the motor under the raising seat structure, a two-ton load is carried on a 97" wheel base. For two reasons this feature is of great value; it distributes the load carried evenly on the chassis, and it enables the Autocar to work in spaces so small as to be most inconvenient for horse-drawn vehicles or larger motor trucks.

In every part of the country the Autocar is fast being standardized on by contractors. A great many contractors have used Autocars for years

in the most exacting service and have bought and rebought. They have found by carefully keeping actual costs that the light yet sturdy Autocar is carrying more material a greater distance at less cost per ton mile than any other equipment they have ever used.

After a study of the contractors' needs we have developed a power body-hoisting mechanism that greatly increases the efficiency of the Autocar. The power comes from the ear motor and raises the body to its full height with capacity load in less than thirty seconds.

The all-steered contractors' body that was announced and fully described in the February Messenger met with instant success. This body is designed to carry two cubic yards of material and will stand no end of the hard, battering wear that is part of the contractor's every day work.

Such is the wide-spread demand for Autocar two-ton power hoist trucks that it is keeping the factory busy getting them out. A large number of orders for single cars and for fleets are coming in every day—they presage the busiest spring building in many a long year. The Autocar is represented on this Coast by the M. S. Bulky Co., E. L. Anderson, 561 Golden Gate Avenue, San Francisco.

FORMER SECRETARY OF WAR FOR NATIONAL MILITARY TRAINING.

Compulsory Volunteer System, Says National Guard Inadequate.

Hon. Elihu Root, at the request of the Association for National Service, makes a distinct contribution to the literature on National Military Training and National Service in the following interview.

The Association is conducting a nationwide campaign for an expression of public opinion on the adoption of a system of military and naval training for the youth of the Nation. The question is being submitted through the daily press by means of the subjoined ballot form.

After praising the patriotic endeavor of the Association, and the educational campaign which it is prosecuting, Mr. Root says:

Spirit of National Service Needed.

"We certainly need the spirit of National Service in our country. It is a mistake to suppose that a people can have good government, peace, order, and progress for any period without any effort on their part. We in the United States need to have our patriotism awakened, throw off our indifference, and think more of our duties as well as of our rights. Every one who is fit to be a citizen of a free country ought to be willing to serve the country, when called upon, in accordance with his ability. The young men who are physically fit for military duty should hold themselves ready to fight for their country if need be, and if they are not ready when the need comes they will not long have any country, and they will not deserve to have any.

"The vast change in the way of carrying on war which has occurred within a very few years has created a situation in which it is perfectly plain that no country can be ready to defend her independence against foreign aggres-

sion except by universal military training and a resulting universal readiness for military service.

"The old way of waiting until war came and then calling for volunteers has become obsolete and is no longer effective.

"The national guard system is not adequate and can not be made adequate to meet the needs of national defense under any real assault upon our rights. It is impossible to have an effective body of soldiers who serve two masters and are raised and organized to accomplish two different purposes.

"Universal training and readiness for service are not only demanded by plain common sense, but they are essentially democratic. They were required by law during the early years of our republic, for every male citizen between the ages of eighteen and forty-five was required to be ready to fight for his country and was required to be trained and provided with arms in accordance with the simple needs of warfare in those days.

"It is only necessary now to apply the principles and requirements of the national law of 1799, adapted to present conditions."

(Issued by the Association for National Service)

IRRIGATION WORK AT PARADISE OUTLINED.

Directors to Be Asked to Approve Construction of Magalia Reservoir.

PARADISE, CAL.—The Board of Directors of the Paradise Irrigation District at the next meeting will be asked to approve the following plan of work:

Building of a dam at Magalia to store eighty feet of water, and building of the first unit of the distributing system to water all land now planted in the district and new plantings to total 3,000 acres. It is estimated this will suffice for the next five years, at the end of which time—or sooner, if required—the second unit of the distributing system will be built, covering an additional 2,000 acres. When a total of 5,000 acres are taking water, the third unit of the distributing system will be built and the dam at Magalia raised to the 125 feet depth of stored water.

This will supply the entire district and will probably be ten years or more from the present time, unless the Paradise district is planted more rapidly than has been the average experience elsewhere.

HYDRATED LIME AND ITS ADVANTAGES IN CONCRETE.

Considerable literature is being published advocating that small percentage of hydrated lime is used in concrete. The advantages which are claimed for the hydrate lime, and which are backed up by actual demonstrations in the field, are truly worthy of the earnest attention of every engineer. No admixture to cement for concrete has met with more general favor in recent years than hydrated lime. It is a standard commercial product and is covered by standard specifications of the American Society for Testing Materials. When mixed with water it is the most plastic of any building material. Small percentages of hydrate used in concrete

give added plasticity to the mixture, make it flow down spouts without the use of too much water, so that the possibility of segregation in handling and placing it is greatly reduced. It makes concrete work better in the forms.

These features are all demonstrated actions and help to produce the all important factors of good concrete—uniformity, density and impermeability. These facts should excite the attention of engineers to the possibilities of service which hydrated lime offers.

COST OF BUILDING OPERATIONS INCREASE.

Building operations in many of the larger cities of the country increased in 1915 according to the United States Geological Survey, Department of the Interior. In 48 selected cities the total cost of building operations was \$641,769,199, an increase of \$22,016,845, or nearly 4 per cent over 1914. Twenty-eight of these cities showed increase and 20 showed decrease. New York was the leading city in cost of building operations, with \$162,623,806, an increase of \$28,993,559 over 1914. Chicago, which was the leading city in 1914, was second in 1915, with building operations costing \$97,291,400, an increase of \$14,629,696. Brooklyn was third, with a total of \$45,601,851, an increase of \$3,729,544 over 1914. The number of permits issued or buildings erected in 1915 in these 48 cities was 201,190, a decrease of 2,512 compared with 1914. The number of permits or buildings ranged from 469 in St. Joseph, Mo., to 14,515 in Brooklyn, N. Y. The average cost per operation was \$3,180 in 1915 compared with \$3,012 in 1914.

CLAY-MINING INDUSTRY AFFECTED BY EUROPEAN WAR.

According to the United States Geological Survey, Department of the Interior, the war in Europe has caused a shortage in high-grade fire clay formerly imported from Germany which has seriously affected the manufacture of crucibles and lead pencils in this country. Efforts have been successful, however, in locating a domestic supply of clays suitable for use in these industries in Arkansas, Illinois, Missouri, and Ohio.

Clay mining in 1915 was more prosperous, especially during the later part of the year, than in 1914, the quantity of clay marketed being 2,562,954 short tons, valued at \$3,971,941, an increase of 153,994 tons in quantity and \$215,373 in value over 1914. Fire clay is the most important variety of clay, 1,579,181 tons being reported for 1915, valued at \$2,341,482, an increase of 161,011 tons and \$211,205 over 1914. There were 28,631 tons of domestic kaolin, the purest form of clay, marketed in 1915, valued at \$241,520, a small decrease from 1914.

The imports of clay decreased considerably in quantity and value and were the smallest in quantity since 1908 and the lowest in value since 1903.

THE TITLE "ENGINEER."

It is unfortunate, according to the Engineering Record, that in America

most people associate the word "engineer" with a man who runs an engine or a boiler. Even the man who operates the boilers of an apartment building is called an "engineer," although the name is entirely a misnomer when applied to him. He may be a good mechanic, but he is not an engineer. The gray haired man who drives the locomotive of a transcontinental limited and who holds the lives of hundreds of human beings in his care belongs to the very highest type of mechanic, but he is not an engineer, except in the United States and Canada. Till foreign languages have words that properly designate the work these men are doing. In our country there is no word to distinguish them from the bridge builder, the sanitary expert, etc.

STATE ENGINEER SECURES RIVER DATA.

KNIGHTS LANDING (Yolo Co., Cal.) The State Engineering Department has a force of engineers at this point to obtain a record of measurements for determining the amount of water being diverted for irrigation purposes from the Sacramento River and its tributaries.

This work is in co-operation with the hydrographic branch of the Geological Survey. Measurements will be taken at various points along the Sacramento and Feather Rivers.

OIL DEPOT BEING PLANNED FOR VALLEJO.

The proposition of establishing an oil depot on the Vallejo waterfront, was revived when Joseph Childers, representing one of the large oil companies, visited Vallejo to look over the field and inspect sites for the proposed depot.

Childers stated that he considered the arena back of the bulkhead between North and South Vallejo an ideal site for an oil depot as the tanks would be in an isolated location and would endanger no property in the event of a fire.

If the oil depot is established it is the intention to enclose the tanks in concrete structures so that in the event of a fire or other accident the oils would not run into the bay or over adjacent land.

The proposed depot will be utilized for the purpose of supplying the local trade as well as that in nearby cities, it being the plan to haul the oil to neighboring cities in motor-driven tank wagons.

CONTRACTOR OFFERS SOME ADVICE

Frank Gilbreth, New York contractor, has summarized his views on steel and concrete construction as follows:

A steel frame, properly painted and buried in masonry, will not rust enough in thirteen years to affect its strength any measurable amount.

The better the steel is coated with mortar the less it will rust.

Portland cement is better than lime mortar for imbedding steel to prevent it from rusting.

Unpainted iron beds buried in mortar composed of lime and a large pro-

portion of Portland cement rust very little* certainly not enough to impair their strength.

Columns should be of such cross section that they can be thoroughly imbedded in Portland cement, avoiding a hollow column unless latticed and filled with very soft concrete.

Wherever possible, preference should be given to those shapes of steel that present the least surface to the action of rust.

If steel is not thoroughly cleaned from rust before it is painted, the paint will not greatly retard the progress of the rust.

It is much easier to cover steel thoroughly with concrete than with brick masonry. If brick masonry is to be used, the bricklayer should thoroughly plaster the steel work ahead of the brick work.

The quality of paint used, though important, is not so important as surrounding every part of the steel with Portland cement.

Interior columns do not rust as much as exterior columns.

Cinder concrete does not injure to the slightest degree a steel floor beam that has been painted.

No pipes or wires should ever be placed behind fireproofing, as they will buckle from the heat and push off the fireproofing.

POWER DEVELOPMENT.

The Pacific Gas and Electric Company has let contracts for raising the height of its famous dam at Lake Spaulding from 225 to 260 feet, thus increasing by almost 50 per cent the storage capacity of the lake.

The dam was completed to its present height in 1913 and at the same time the initial installation of 33,000 horse power was placed in service. Two more generating stations are now in course of erection, which will add another 23,000 horse power to the generating capacity. The increase in the height of the dam will guarantee an ample supply of water at all times for the hydro-electric stations, and will bring up the capacity of the storage reservoirs from 43,600 acre-feet to 63,900 acre-feet.

An appropriation has also been made by the company of \$250,000 for the construction of tunnels and other equipment necessary to supply the Newcastle territory with water for irrigation. The bringing under cultivation of this district will add materially in other ways, besides sale of water, to the revenues of the company.

GOVERNMENT CONSTRUCTION OF HOMES IN NEW ZEALAND.

[Consul General Alfred A. Winslow, Auckland, July 15.]

The New Zealand Government has elected during the past nine years 548 homes for workmen in this Dominion, under the act entitled "Workers' Dwelling Act of 1905," which originally provided that the homes should cost no more than £300 (\$1,460) each, and these were to be placed at the disposal of the workers under a lease of 50 years, with a fixed rental of 5 per cent of the capital value of the dwelling, plus insurance and taxes.

SOLID STUCCO FOR EXTERIOR WALLS.

An authority on the subject says the type of stucco construction that is giving the best results is that known as solid stucco, says Building Age. No sheathing is used, the lath being applied directly to the studding and plastered on both sides. Three coats are used on the outside and one on the inside of the lath. The first coat is usually about one-half inch thick, the second the same, and the same thickness is used for the back plaster. The finishing coat on the exterior is about one-quarter inch thick. This gives an exterior wall covering $\frac{1\frac{1}{2}}$ inch thick with the metal lath so imbedded that the wall is practically a reinforced concrete slab.

PROPOSED CANADIAN NORTHERN RAILWAY STATION.

BRITISH COLUMBIA. The Canadian Northern Railway has made application to the civic authorities for a building permit for the erection of the main portion of its railway depot on the reclaimed lands of False Creek. The estimated cost is \$574,929. This permit does not include platforms or sheds. The contractors are the Northern Construction Co., 726 Granville Street, Vancouver, British Columbia.

BUILDERS OF CHILEAN RAILWAY SHOPS.

SANTIAGO, Chile. —The Ultimas Noticias of July 19, of Santiago, Chile, states that "the Compania Holandesa de Cemento Amado has secured the contract for putting up the building of the new railway shops at San Bernardo at about \$550,000 United States gold. [The call for bids on this work appeared in Commerce Reports for March 14.] This company is now constructing the port of San Antonio. Contracts will be signed in a few days and work will begin in October, 1916.

REPORT ON PLATINUM AND ALLIED METALS.

The statement on Platinum and Allied Metals, issued annually by the Geological Survey, Department of the Interior, is now available for 1915. The production of crude platinum from California and Oregon during the year was 719.91 troy ounces, having a value of about \$23,500.

MILLION DOLLAR HARBOR STARTED

RICHMOND, Cal. First steps toward harbor improvements to cost \$1,000,000 were taken when the city council ordered the mayor and city clerk to sign a dredging and fill contract with the Bay Counties Land Company. The agreement, which has been under consideration for several months by the Council, demands \$60,000 in dredging from the Bay Counties Land Company, for which the city is to compensate them with thirty-one acres of waterfront property.

It is estimated that the deepening of the inner harbor and the construction of a bulkhead with an eight foot fill on the present mud flats will approximate \$1,000,000.

TO REBUILD BRIDGE.

OTTAWA, Ont.—The St. Lawrence Bridge Company has notified the Canadian government that it accepts full responsibility for the fall of the Quebec bridge span, and gave notice it would undertake to replace the span and complete the bridge as soon as possible.

With steel scarce, it is believed it will take two years to construct a new span.

PLAN SYSTEM OF FLOOD CONTROL.

PORTERVILLE, Cal.—City Attorney Ciny Knapp is in consultation with officers of the Southern Pacific railroad relative to a comprehensive plan of control of flood waters of the Tule river. As a result of the conference it is expected that a scheme will be mapped out whereby co-operative effort in this work will be put forward by the Southern Pacific, Santa Fe, and by the city and county.

IRRIGATION CANAL TO WATER 20,000 ACRES.

OROVILLE, Cal.—According to a decision reached by a committee chosen to map out plans for the irrigation of 20,000 acres of land lying southwest of this city, the Chamber of Commerce will ascertain from the State Water and Railroad Commissions what rates are charged for water for similar projects. The information will be presented to the Western Canal officials for consideration.

It is planned to irrigate the 20,000 acres from the Feather River at the Western Canal headgate, a few miles south of this city. The water will be carried at about the 125-foot contour around the Pacific Heights to irrigate below that level.

The Western Canal people have already been approached in regard to the matter of constructing the canal, and it is believed the officials will act favorably upon any suggestion made by the local committee.

CONSTRUCTION WORK ABROAD.

CANADA.

[Vancouver, British Columbia.] Construction of Jetty at New Westminster.

The Marsh Hutton Power Constructing Co. of New Westminster, British Columbia, recently received instructions from the Dominion Government to proceed with the construction of the third unit of the large jetty being constructed at the mouth of the Fraser River for the purpose of confining its channel. This unit will be 100,000 feet in length and will cost about \$500,000. It is proposed to construct another jetty on the opposite side of the river in order to keep the channel automatically clear.

The first unit of the jetty, completed last year, was 6,900 feet in length, that of the second unit, which was started in May, 1915, is 7,100 feet in length. With the third unit completed this jetty will be approximately 14,000 feet in length.

NEW ZEALAND

New Reinforced Concrete Bridge. AUCKLAND—A reinforced concrete

bridge across the Tamaki River has just been completed, at a cost of \$47,709. It is an up-to-date structure, on the principal thoroughfare leading east from Auckland. Seventy-five per cent of the cost was paid by the Manakau County Council and the remainder by other tributary local bodies.

Additions to Auckland Hospital and Costly Home

Contracts have been let for additions to the children's ward of the Auckland Main Hospital and to the Costley Home, under the supervision of the architect, Mr. G. W. Allison. The addition to the Auckland Hospital is to cost \$91,471. The contractor is J. J. Holland, of Auckland. The addition to the Costley Home will supply 37 additional beds, at a cost of \$28,303. Facer & Co, Auckland, are the contractors. These structures are to be of brick and reinforced concrete, with slate roofs.

To Start Dilworth Agricultural Institute.

The contract has been let to W. F. Hutchinson, of Auckland, for \$32,975 to construct the first unite of the Dilworth Agricultural Institute for Boys at Papatoetoe, near Auckland. It will accommodate 300 boys. This is a gift of the late Mr. Dilworth, of this city, and is to be built of brick, with tiled roof and modern sanitary conveniences. It has been ordered that the work be completed as soon as possible. Instruction will be given in agriculture, horticulture, and general farm methods.

MICA IN 1915.

The quantity of sheet mica, rough trimmed and cut, produced in the United States in 1915 is smaller than that for any of the twelve preceding years but the value of the product is the highest ever recorded. Statistics collected by the United States Geological Survey, Department of the Interior, recently published, show that high prices have produced a prosperous condition in the mica-mining industry in certain parts of the country, so that, as one correspondent in the South writes, "Everybody and their children are digging for mica."

The average price of sheet mica in 1915 was 68 cents a pound, compared with 50 cents a pound in 1914 and 21 cents a pound in 1913. The total value of all sheet and scrap mica produced in 1915 was \$428,769, a value exceeded, though but slightly, only by that for 1913. Scrap mica did not change much in value. North Carolina produced more than half the output, New Hampshire, Idaho, and South Dakota being relatively the next largest producers. There was a small production of lepidolite (a lithia mica) in California of clinocllore (a chlorite related to mica) in Georgia, and biotite (a dark mica) in Colorado. The value of the mica imported in 1915 exceeded the value of the mica produced in that year.

The report on mica in 1915, by W. T. Schaller, can be had by applying to the Director of the U. S. Geological Survey, Washington, D. C.

UNIQUE LIFE BUOY.

PORTLAND—The under and over seas life buoy, which is anchored in the Willamette River at the foot of

15th street, is the invention of a Portland man and is to be manufactured by the G. W. McPherson Co. for use of vessels upon the Pacific Coast. The buoy as constructed is 3 feet high and 12 feet in diameter, with 3 feet deck space; weight 2000 pounds, and of 11 gauge steel, with a telescope anchor 15 feet long, which is raised and lowered at will, and will be of much service should the buoy be washed upon the beach. Under each individual seat is stored water together with food enough to last at least 10 days. There is also electric light provided for night service, which can be seen from a passing vessel many miles away. There are rockets to attract the attention of any passing ship and a medicine chest fully equipped for immediate service. The buoy can be loaded within three minutes and there is no possibility of being thrown into the water when launched over the ship's side. If the time is too short to launch in the usual way it may be left upon the deck of the vessel and will leave when the ship sinks from under it, as it is air-tight and will return to the surface. Then the air valve in the conning tower can be opened and a fan, which is provided to change the air every half minute, can be put into operation. The man on the lookout in the tower operates the valve which keeps the heavy seas from entering the buoy. The person on entering the buoy takes a seat and straps himself to it and retains this seat until the buoy is picked up by a passing boat.

BIG RECLAMATION PLAN.

Twenty-six thousand acres in Reclamation District No. 293, adjoining Ryer Island on the Sacramento river, fourteen miles below Sacramento, are to be leveed and a drainage system installed by a big corporation owning 10,000 acres of delta land in San Joaquin and Contra Costa Counties. The drainage will include the installation of pumps and the building of ditches, and will cost \$500,000. Ten huge dredges and two ditching machines will be utilized in the work which will require two years to complete.

BORDEN PLANT FOR MODESTO.

MODESTO—Modesto the center of the banner dairy county of California, and delivery point at present for milk and cream of at least 12,000 cows, has just won the greatest honor by being chosen by the Borden Condensed Milk Co., a \$23,000,000 corporation, as location for its first plant in California, the 16th west of the Mississippi. The enterprise will represent an investment of \$100,000, and will give employment at the outset to 100 people. Selection of Modesto as location for Borden's first plant in this State has been made by C. V. Van Derson, field representative, who spent two months investigating possibilities in this State. Stanislaus County has 40,000 producing dairy cows supplying at present milk and cream for two cheese factories, one condensary and six creameries, besides large dairy shipments of cream and milk to the city markets. The dairy output of the country last year in milk products was valued at \$5,095,250, the greatest production of any county in the State.

BAUXITE AND ALUMINUM.

The Geological Survey, Department of the Interior, announces that it has now ready for distribution its annual statement on Bauxite and Aluminum in 1915.

AVON SCHOOL CONTRACT TO BE AWARDED.

AVON, Contra Costa Co., Cal.—W. H. Becker of Martinez submitted the lowest figure for the construction of a one-story frame school building to be erected in the Avon School District. His bid was \$2,750. Four bids were submitted in all. W. Pascoe was second low at \$2,888. A contract will be awarded to the low bidder.

STATE CORPORATION DEPARTMENT.

SACRAMENTO, Cal., Sept. 5, 1916.—W. H. Berry, the base ball impresario of San Francisco, has again taken up his project of financing the Coast League Club and franchise at San Francisco for the purpose of building a new grandstand and bleachers and enlarging the playing field at 15th and Valencia streets.

San Francisco Base Ball Club, the corporation formed for the purpose, has been permitted by Commissioner of Corporations H. L. Carnahan to issue \$500,000 par value of its shares to Recreation Park Association in exchange for all of its property and assets, including the Coast League franchise for San Francisco; to issue \$150,000 par value of its shares to W. H. Berry in exchange for his 20-year leases on the present park and on contiguous property to be used for enlarging the field, together with its equipment, and to sell 20,000 shares at par, \$5 per share, to net the company not less than 50% of the selling price.

The permit provides that all of the shares issued to Recreation Parks Association and to W. H. Berry shall be held as an escrow and shall not be sold or offered for sale except by permission first obtained from the Commissioner.

In permitting Patterson Glass Co. to sell \$10,000 par value of its shares for the purpose of reopening a glass manufacturing plant at Stockton, Commissioner of Corporations H. L. Carnahan, has provided that the full amount must be subscribed on or before the 15th day of September, at which time the option on the lease expires.

It is also provided that R. M. Patterson, who is to receive a like amount of stock in exchange for the lease, shall execute an agreement waiving all claim to any dividends that may accrue on his shares until the cash investors shall have been repaid the full amount of their investment.

The plant which Patterson proposes to operate was one of the ventures of the distinct California Safe Deposit & Trust Co. and was operated unsuccessfully by it. Until recently, the plant has been operated for a year by W. P. Fuller Co. with Patterson as manager. Patterson is now endeavoring to finance it as an independent venture and estimates \$15,000 will be sufficient to start the plant in operation.

CANADA PRODUCES ELECTROLYTIC COPPER.

FERNIE, British Columbia.—The first pure copper known to the trade as electrolytic copper was turned out at the new copper refinery in Trail, British Columbia, on August 26, 1916.

The electric current was switched on to some of the tanks containing the copper anodes, and the pure metal, the gold and silver values being left in the slimes, was the result. In the near future a daily production of 10 tons is expected. This is the only place in Canada where pure copper has been made.

Articles on Canada's mineral production were published in Commerce Reports for March 21 and March 28, 1916, and one on the production of blister copper in British Columbia in the issue of January 12, 1916.]

CANAL TRAFFIC IN JULY.

The official report of the operation of the Panama Canal for July places the number of ocean-going vessels making the transit of the canal in that month at 150—77 from the Atlantic to the Pacific and 73 from the Pacific to the Atlantic. By nationality these vessels were: United States, 28; British, 75; Japanese, 11; Peruvian, 9; Dutch, 2; Chilean, 7; Norwegian, 3; Swedish, 3; Mexican, 1; French, 1; Danish, 3; and Panamanian, 1. The total net tonnage of vessels marking the transit was 488,968.

STATE CORPORATION DEPARTMENT.

SACRAMENTO, CAL.—Lane's Klutch & Transmission Kontrol Co. has been granted a permit by Commissioner of Corporations H. L. Carnahan authorizing it to sell 2500 shares of its capital stock at par, for cash, and to issue to Chas. C. Lane and F. L. Hanson a certificate for a like number of shares as often as shares shall be sold and issued for cash.

This company was organized with an authorized capital stock of \$50,000, par value \$10, for the purpose of developing and marketing a certain invention of Chas. C. Lane relating to an automobile clutch controlling device.

A VARIABLE SELF AND MUTUAL INDUCTION.

The United States Bureau of Standards has just published a paper which describes a new form of instrument for varying that property of an electrical circuit (self inductance) which opposes any change in the strength of a cur-

rent, just as the inertia of a heavy train of cars opposes any change in its speed. It consists of two sets of coils of insulated wire mounted in circular hard-rubber plates between which a similar plate carrying two coils is arranged to turn, thus varying the inductance. Diagrams and data are given from which instruments of this type may be designed to meet the requirements of a given use. Comparison is made between the new instrument and older ones.

Copies of this report, Scientific Paper No. 290, will be ready for distribution in a few days and may be obtained without charge upon application to the Bureau of Standards, Washington, D. C.

WATER FRONT IMPROVED AT VERA CRUZ.

VERA CRUZ, Mexico.—In order to beautify the esplanade along the water front called the "Malecon," the favorite promenade of the people of Vera Cruz in the late afternoon and evening, the Mexican authorities are providing a new electric light system. The lights are being placed about 25 feet apart in the center of the esplanade, in a line approximately 100 yards long. They are arranged in clusters of five, which surmount ornamental iron supports.

The Vera Cruz Electric Light, Power and Traction Co., an English concern with an American manager, is installing the system. Since the beginning of the European war, the company has bought most of its supplies in the United States.

ROUTE FOR NEW RAILWAY IN COLOMBIA.

The Minister of Public Works of Colombia has adopted for the proposed railway from Cali to Popayan the route recommended by a committee of the Colombian Society of Engineers in a recent number of the Diario Oficial. This route which is almost wholly in the valley of the Cauca River, was found to be the shortest and most practicable of the various routes suggested by the Pacific Railway Co. in a report to the Colombian Government in 1915. With the completion of the railway to Popayan, the capital of the Department of Cauca and the terminus of an old commercial road running south through Ecuador, an important region would be opened to shipping through the port of Buenaventura.

FOREST NOTES.

More people are spending their vacations on National Forests this summer than have ever done so before, many persons traveling long distances by automobile in order to camp in these public playgrounds.

Experiments at the Forest Products Laboratory at Madison, Wisconsin, have resulted in the discovery of a method whereby the yields of alcohol and acetate of lime from the destructive distillation of hardwoods have been increased fifteen per cent.

The rabies epidemic which is carried by infected coyotes is spreading eastward in Utah. Rabid Coyotes are common in the entire western part of the State, and one has been killed within thirty miles of Salt Lake City.

August Building Totals.

As the season lengthens, building operations continue to give a good account of themselves. Although the actual construction work has been very active in recent months, a large amount of new business keeps coming into view. August makes a creditable showing. The official reports of building permits, issue in 118 of the principal cities of the United States, as received by The American Contractor, Chicago. The California Development Board and Daily Pacific Builder, total \$71,253,858, as compared with \$71,922,456 for August last year.

A majority of the cities included in the statement below show gains, 75 out of 118 increasing in volume of business after a year ago.

City	August, 1916	August, 1915
Cost.	Cost.	
Akron	\$ 2,102,642	\$ 199,040

Contracts Awarded.

LODI, SAN JOAQUIN CO., CAL.—Bath house, 1-story, frame, \$6,818. Architect's name not given. Owners, City of Lodi. Contractors, Philbrick & Colvin, Lodi. Contract price, \$6,818.

BONDS

SACRAMENTO, CAL.—First steps toward the erection of a new school on the block bounded by Seventeenth and Eighteenth, E and F, were taken by the Board of Education when President E. J. Carragher and Secretary Charles C. Hughes were appointed a committee to prepare for the necessary proceedings.

The Board has \$167,000 on hand for the erection of the building, and will receive \$33,000 from the county.

BAKERSFIELD, KERN CO., CAL.—The East Bakersfield Municipal Improvement district has been divided into two precincts for the bond election to be held there on October 24, for the purpose of having the voters decide whether bonds in the sum of \$175,000 shall be issued for the purchase of a municipal water works for that section.

SAN RAFAEL, MARIN CO., CAL.—Against the vote of four members, the Board of Directors of the Marin Municipal Water District passed a resolution accepting an offer by the Sutherland Construction Company of Kansas City to purchase the entire \$3,000,000 bond issue and start construction of the Alpine dam.

ANDERSON, SHASTA CO., CAL.—The Shasta County Development Association, at a meeting here, adopted a resolution strongly favoring the \$15,000,000 bond issue for the extension of the State highway system.

SUSANVILLE, LASSEN CO., CAL.—Two irrigation districts have been formed since last December in Lassen County, and petitions are being published to be presented to the Supervisors, asking them to call elections for the formation of two more.

One is to cover the fertile lands near Janesville, comprising 7,000 acres, and the other in Long Valley, is to comprise nearly 35,000 acres.

In case these districts are organized the four will cover approximately 120,000 acres, all in Lassen County.

WATERFORD IRRIGATION DISTRICT, STANISLAUS CO., CAL.—Bids are being received by the Directors of the Waterford Irrigation District for the purchase of bonds of \$165,000. The proceeds of the sale will be used in improvements for the district.

POCATELLO, IDAHO.—The citizens of Pocatello have voted in favor of issuing \$300,000 bonds for the purpose of extending and otherwise perfecting the water system.

BELLEVUE-WILFRED DRAINAGE DISTRICT, SONOMA CO., CAL.—An election will be held in the Bellevue-Wilfred Drainage District on September 27th to vote bonds of \$20,000 to provide funds for the purpose of constructing necessary conduits, drains, sluices, water gates, embankments and all works necessary for the purpose of drainage.

SAN MATEO, SAN MATEO CO., CAL.—The election held in this city last week to bond the city for \$10,000 for a swimming tank and mechanical department for the Union High School, failed to carry.

PITALUMA, SONOMA CO., CAL.—Both bond propositions, creek and street improvements, were defeated at a recent bond election.

ROSWELL, N. MEX.—Business men of Roswell, representing the Pecos Val-

ley, are planning a bond issue in the sum of \$100,000 for constructing a system of good roads in Chaves County.

LOS ANGELES, CAL.—An election will be held in the Hollywood district on October 18, for voting on a bond issue in the sum of \$1,020,000 for the purpose of buying and extending the system of the Union Hollywood Water Company. The bonds were voted at a previous election but a technical error necessitates the revoting of them.

PHOENIX, ARIZ.—An election will be held on October 23, for the purpose of voting bonds in the sum of \$600,000 for the construction of an electric light plant and gas plant to be owned and controlled by the city.

BRIDGES, DAMS AND HARBOR WORK

FRESNO, FRESNO CO., CAL.—Bridge construction, steel and concrete. Cost not stated. Engineer, City Engineer, Fresno. Owners, City of Fresno. At the last meeting of the City Trustees, on recommendation of City Engineer Cronkite and Street Superintendent Chaplin, the Trustees ordered the City Clerk to advertise for bids for the lengthening of concrete bridges over the ditch on California avenue, and the construction of a new bridge at Santa Clara and California avenues. The bridges will be lengthened as follows: O and California, 6 feet on each end; G and California, 22½ feet on east end and 14 feet on west end; Isabella and California, 11 feet; last and California, 8 feet east end and 4 feet west end.

MONTEREY, MONTEREY CO., CAL.—Bridge repairs. Cost not stated. Engineer, County Surveyor, Monterey. Owners, Monterey County. Bids will be opened on October 3rd at 2 p. m. for grading a portion of the San Lucas-Peach Tree Road, in Peach Tree Road District; also for repairing bridge across the Salinas River at a point near the town of San Ardo.

HOLLISTER, SAN BENITO CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor W. A. Winn, Hollister. Owners, San Benito County. Bids will be opened on October 2nd at 2 p. m. for constructing a reinforced concrete bridge over Santa Ana Creek near Hollister.

SAN JOSE, SANTA CLARA CO., CAL.—Bridges, reinforced concrete. Cost not stated. Engineer, County Surveyor, San Jose. Owners Santa Clara County. Plans and specifications for the following bridges were approved at the last meeting of the County Supervisors and bids were ordered received up to 11 a. m. of October 16th: Bridge on Almaden road near Elwood road; bridge on Almaden road near Cooney place; bridge on Almaden road near Schneider place; culverts on San Felipe and Wehner roads. Plans and further information may be had from County Clerk Henry A. Pfister.

REDWOOD CITY, SAN MATEO CO., CAL.—Retaining wall, etc. Cost not stated. Engineer, County Surveyor Redwood City. Owners San Mateo County. Bids will be opened on October 2nd at 10 a. m. for the construction of retaining walls and timber bulkheads on the Redwood City to San Gregorio road, located in the Third and Fifth Road Districts.

SANTA ROSA, SONOMA CO., CAL.—Bridge and culvert. Cost not stated. Engineer, County Surveyor, Santa Rosa Owners, Sonoma County. Bids will be opened on October 11th at 12 noon for the construction of a combined truss highway bridge over Sausal Creek on Pine Flat road, and for a highway culvert on Forestville-Steptopoul county road at Harline ranch.

SANTA ROSA, SONOMA CO., CAL.—Bridges, etc., concrete. Cost as follows. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. All bids received by the Sonoma County Supervisors for the construction of bridges and culverts throughout the county have been rejected. The following bids were opened:

Comstock Bridge—W. L. Proctor, \$1,829; Call Construction Co., \$1,633.15; Bailey-Comstock Co., \$1,350.50; \$1,357.40, \$1,680.90, \$1,348.80; W. L. Proctor, \$2,768.

Cook Bridge—W. L. Proctor, \$1,071; Call Construction Co., \$1,325.

Orr Bridge—Call Construction Co., \$1,525; W. L. Proctor, \$1,047.

Green Valley Bridge—Bailey-Comstock Co., \$2,256.30; 50c yard; \$15 per yard concrete, steel 4½c and 1½c; D. E. Albers, \$2,145; No. 2 60c, \$9 per yard concrete, ¾c, 5c, ¾c per pound for steel; W. L. Proctor, \$1,758; No. 2 27c yard ex., No. 3 \$13 per cubic yard concrete, No. 4 4½c for ¾, 4.15c for ¾ steel; Call Construction Co., \$2,516.35, No. 2 60c yard ex., No. 3 \$16 concrete, No. 4 5c for steel.

Ducker Bridge—Bailey-Comstock Co., \$1,832.10, 80c per yard ex.; D. E. Albers \$1,800, 50c per yard ex.; W. L. Proctor \$2,005, 42½c per yard ex.; Call Construction Co., \$1,317.55, 40c per yard ex.

AUBURN, PLACER CO., CAL.—Bridges, concrete. Cost not stated. Engineer, County Surveyor, Auburn. Owners, Placer County. The County Supervisors have rejected all bids received for the construction of the Yankee Slough bridges and new bids have been ordered to be opened at the October meeting. Plans and further information may be had from the County Clerk.

PORTLAND, ORE.—Viaduct, reinforced concrete, \$750,000. Engineer, City Engineer, Portland. Owners, City of Portland. The Council has adopted a resolution authorizing an invitation for contract figures for the proposed O. W. R. & N. East Side grade crossings. The official call will probably be published November 6th to close December 6th. The work involves the erection of various reinforced concrete viaduct structures spanning the railroad company's lines through Sullivan's Gulch.

MARYSVILLE, YUBA CO., CAL.—Bridges, 2, reinforced concrete, \$7,500. Engineer, County Surveyor, Marysville Owners, Yuba County. Bids will be opened on October 2nd at 10 a. m. for the construction of three concrete bridges located as follows: Extension Parks Bar bridge on road to Smartsville, Yuba River, 50 feet 11 inches in

length. J. Losey bridge on road to Smartsville, one mile from Parks Bar bridge, at the J. Losey roadhouse, 19 feet in length. Smith bridge on Bangor road, 6½ miles from Marysville 43 feet 1 inches in length.

EUREKA, HUMBOLDT CO., CAL.—Bridge, concrete and steel. Cost not stated. Engineer, County Surveyor Eureka. Owners, Humboldt County. Bids will be opened on October 10th at 2 p. m. for the construction of a highway bridge across Ohman Creek three miles south of Phillipsville, in Road District No. 2.

Contracts Awarded

SANTA BARBARA CO., CAL.—Highway bridge, steel and concrete, \$124,650. Engineer, State Highway Commission, Forum Bldg., S. F. Owners, State of California. Contractors, Mercer-Fraser Co., First and G streets, Eureka. Contract price, \$124,650.

CHURCHES

LIVERMORE, ALAMEDA CO., CAL.—Church, 1 story, brick or concrete, \$35,000. Architect, C. E. McCrea, First National Bank Bldg., Oakland. Owners, Roman Catholic Church. Will contain main auditorium and Sunday school rooms. Plans being prepared.

IRRIGATION PROJECTS

MODESTO. STANISLAUS CO., CAL.—Long canal, concrete. Cost not stated. Engineer, Chief Engineer, Modesto. Owners, Modesto Irrigation District. Bids will be opened on October 12th at 10 a. m. for the construction of concrete lining in the main canal of the Modesto Irrigation District immediately below Raiderd Fill and such work is more particularly de-

LOS ANGELES, CAL.—Drainage system described and specified in the plans and specifications.

Cost not stated. Engineer's name not given. Owners, Dominguez Estate Co., Title Insurance Bldg., L. A. Bids will be received by the Dominguez Estate Co. up to midnight October 3rd, 1916, for the construction of a drainage canal for conveying the surface waters of Nigger Slough to a point at or near Watson Station on the Pacific Electric line to San Pedro Plains and specifications may be obtained at the office of the company. The approximate quantities of work required are: 147,500 cubic yards of excavation, 460 lineal feet of 5-inch concrete pipe, 30 yards of plain concrete for wing walls. Certified check for \$3,000 is required. George H. Hand is the engineer. The length of the canal will be 21,000 feet, with a maximum cut of 18 feet, base of canal 10 feet, with one side slope. Average cut about 10 feet, estimated wet excavation, 17,500 cubic yards, dry excavation, 130,000 yards. The canal will drain about 1,500 acres and will provide an outlet for the storm waters of the Gardena district.

LIBRARIES

Contracts Awarded.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Library, 2 story and base reinforced concrete, \$59,938. Architect, Francis W. Wilson, 717½ State street, Santa Barbara. Owners, City of Santa Barbara. Contractors, W. E. Kier Construction Co., San Diego. Contract price, \$59,938.

POWER PLANTS AND WATER SYSTEMS.

SAN FRANCISCO—Water system improvements, \$80,000. Engineer, Constructing Quartermaster, Fort Mason Owners, United States Government. Although T. W. McClenahan presented the low bid for all work except the construction of the pipe line at \$21,530, and T. D. Cowden the low bid for the pipe line at \$6,500, contracts will not be awarded to them. Cowden's bid did not state "all or none," and he admits a mistake in figuring the pipe line. Frank M. Garden Co. will probably be awarded the contract for clearing the site and constructing the concrete dam. Pacific Wire Fence Co. the contract for the fencing and Pringle-Dunn Co. the contract for the pipe line. Pringle-Dunn Co.'s figure for the pipe line is \$16,485.

SAN RAFAEL, MARIN CO., CAL.—Water supply system, \$2,000,000. Engineer's name not given. Owners, Marin Municipal Water District. Against the vote of four members, the Board of Directors of the Marin Municipal Water District passed a resolution accepting an offer by the Sutherland Construction Co. of Kansas City to purchase the entire \$3,000,000 bond issue and start construction of the Alpin dam.

LOS ANGELES, CAL.—Water system. Cost not stated. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Sealed bids will be received by the Board of Supervisors of Los Angeles County until 2 p. m. October 21, 1916, for furnishing and

installing a water system for Los Angeles Water Works District No. 2 in accordance with plans and specifications on file with said Board of Supervisors. Separate bids will be received for the sinking of the well, for the deep well pumping system and for the piping, etc. It is proposed to sink a 12-inch well approximately 400 feet in depth, to be cased with No. 12 gauge double stovepipe casing. An alternate bid will be received for sinking a well by rotary process, furnishing 12-inch screw casing. The pumping system will consist of a deep well turbine pattern centrifugal pump with Lutwiler type pump, pump to be capable of delivering 500 gallons of water per minute, the total lift being 90 feet. Pump is to be motor driven. The piping required will include 3,200 feet of 6-inch and 16,000 feet of 4-inch wood stave pipe, 2-inch circulating line, cast iron fittings, etc. There will be a 50,000 gallon wood stave tank on a 50-foot wooden tower, resting on concrete piers.

Contracts Awarded.

SAN PABLO, CONTRA COSTA CO., CAL.—Dam, reinforced concrete, \$2,000,000. Engineer, Engineering Dept. People's Water Co., Oakland. Owners, People's Water Co. Contractors, Bates Portland & Ayer, Oakland. Bank of Savings Bldg., Oakland. Contract price \$2,000,000.

RAILROAD CONSTRUCTION AND EQUIPMENT.

Contracts Awarded.

PORTLAND, ORE.—Railroad construction, \$200,000. Engineer's name not given. Owners, Oregon-Washington Railroad and Navigation Co. Contractors, Twoby Bros., Portland. Contract price, \$200,000.

RESIDENCES

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,500. Architect none. Owner, S. A. Born Building Co., 660 Market street, S. F. Location, lot 19 Lincoln Manor. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 1 story and base, frame, \$2,000 each. Architect, none. Owners, MacArthur Bros., 1560 Fell street, S. F. Location, west Madrid south Peru. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 1 story and base, frame, \$2,000 each. Architect, none. Owner, N. P. Nilsson, 355 Coleridge street, S. F. Location, north Santa Ynez east Olsego. Each house will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect none. Owner, L. A. Seright, 680 9th avenue, S. F. Location, east 34th avenue south Lincoln. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,500. Architect, N. W. Mohr, 45 Kearny street, S. F. Owner, John J. Lane. Location, east Collingwood south 21st. Will contain five

rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,000. Architect, A. Aronson. Owner, O. F. Garside, 2521 19th avenue S. F. Location, west 25th avenue south Taraval. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$12,000. Architects, Fitch & Knoll, Hearst Bldg., S. F. Owner's name withheld. Location, Forest Hill. Will contain twelve rooms, three baths and a separate garage. Plans being prepared.

SAN FRANCISCO—Residences, 5, 2 story and base, frame, \$2,000 each. Architect, J. C. Hladik, Monadnock Bldg., S. F. Owner, George Wagner. Location, south Sunnyside west Baden. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame. Cost not stated. Architect, C. S. McNally, 46 Kearny street, S. F. Owner's name withheld. Location, 17th avenue and 21st street. Will contain five rooms and bath. Plans complete and figures being taken.

ALAMEDA, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, R. C. Hillen, 420 Haight avenue, Alameda. Location, 3275 Liberty avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,200. Architect, F. Holberg Reimers, 2125 Shattuck avenue, Berkeley. Owner, F. Holberg Reimers. Location, south Grayson west 7th. Will contain four rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ALBANY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Oscar Swanson, 572 Clipper street, S. F. Location, west Curtis north Marin. Will contain six rooms and bath. Plans complete and work to be done by Day Labor.

ALAMEDA, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,200. Architect, none. Owner, Joseph E. Reite, 1561 5th street, Alameda. Location, 749 Taylor street. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

ALAMEDA, ALAMEDA CO., CAL.—Residence alterations, 2 story and base, frame, \$1,000. Architect, John Reid, Jr., First National Bank Bldg., S. F. Owner, J. R. Christy. Location, San Antonio avenue near Oak. Work will consist of interior and exterior alterations, plumbing, etc. Plans are being prepared.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, J. F. Whalen, 1748 Broadway, Oakland. Location, east Everett south Hampel. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect none. Owner, S. A. Isakson, 1464 55th avenue, Oakland. Location, west 38th avenue north Hopkins. Will contain five rooms, bath and sleeping porch.

Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,350. Architect none. Owner, C. M. Dean, 512 12th St., Oakland. Location, south Deluth east Fruitvale. Will contain five rooms bath and sleeping porch. Plans complete and figures being taken.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, B. A. Dice, 429 12th St., Oakland. Location, east Shafter south 40th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$4,500. Architect, M. I. Diggs Syndicate Bldg., Oakland. Owner, John D. Garreston, Thomson Bldg., Location, east Thomas north Broadway. Will contain eight rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Thomas Kearny, 2219 McKinley street, Berkeley. Location east McKinley south Allston. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect none. Owner, F. Vonn 1219 18th avenue, Oakland. Location 1219 18th avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect none. Owner, W. E. McChesney, 1315 San Luis avenue, Oakland. Location, south Braum east Havenscourt. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$3,000. Architect, none. Owner, J. Coward, 6081 Claremont avenue, Oakland. Location, north Chabot Road east Elsie. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residences, 2, 1 story and base, frame, \$2,900 each. Architect none. Owner, R. C. Hillen 430 Haight avenue, Alameda. Location southeast Virginia and Chestnut. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

MT. DIABLO, CONTRA COSTA CO., CAL.—Residence, 2 story and base, frame. Cost not stated. Architects, Universal Drafting Bureau, 1841 5th avenue, Oakland. Owner, E. J. Bull. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

VISALIA, TULARE CO., CAL.—Residence, 2 story and base, frame, \$25,000. Architect, Alvin J. Stern, 206 11th St., Oakland. Owner, B. B. Dudley. Will contain fifteen rooms, five baths, sleeping porch and separate garage. Plans complete and in the hands of the owner who will do the work by Day Labor.

SACRAMENTO, CAL.—Residence, 2 story and base, frame, \$2,000. Architect, none. Owner, I. B. Mattson, 2817 K street, Sacramento. Location, 311 28th avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, W. D. McKay, 117 19th street, Sacramento. Location, lot 8, North Sacramento. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO.—Residence, 2 story and base, frame, \$30,000. Architects Bakewell & Brown, 251 Kearny street. S. F. Owner, Frank King. Location Jackson and Walnut. Will contain 12 rooms and 6 baths. Plans complete and figures being taken.

SAN FRANCISCO.—Residences, 1, 2 story and base, frame, \$3,500 each. Architect, H. H. Guttersen, 278 Post St., S. F. Owners, St. Francis Home Building Co. Location, south Terrace Drive, east Portola Drive. Each dwelling will contain six rooms and bath. Separate garages. Plans complete and work to be done by Day Labor.

SAN FRANCISCO.—Residence, 2 story and base, frame, \$3,000. Architect none. Owner, A. T. Morris, 501 11th avenue, S. F. Location, west 10th avenue south Balboa. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$2,500. Architect, none. Owner, Ole Kolen, 3127 Bruce street, Oakland. Location, southwest corner Santa Rita and Ransome avenue. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FALL RIVER MILLS, SHASTA CO., CAL.—Residence, 1 story and base, frame, \$1,000. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owner, Alvin Florin. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

SCHOOLS

SAN JOSE, SANTA CLARA CO., CAL.—School addition and heating system. Cost not stated. Architects' names as follows. Owners, City of San Jose. All bids for the construction of the addition to the Washington School, designed by Architect F. G. Aitken, Theatre Bldg., have been rejected. About \$10,000 is available for construction and the lowest figure received was \$12,150. Plans will be revised and new figures called. The date for opening bids for the heating system to be installed in the San Jose High School addition, designed by Architect William Binder, has been postponed until October 10th.

MARTINEZ, CONTRA COSTA CO., CAL.—School, 1 and 2 story and base, brick, \$31,000. Architects, Stone & Wright, Stockton. Owner, Martinez School District. Will contain ten class rooms and a large auditorium. Plans complete and figures to be opened on October 28th.

SPARKS, NEVADA.—School, 1 story and base, brick or hollow tile, \$35,000. Architect, F. J. De Lencamp, Reno, Nev. Owners, Sparks School District. Will contain six rooms and auditorium. Plans complete and figures being taken. Plans can be secured from the architect or the Clerk of the Board of Education.

PALO ALTO, SANTA CLARA CO., CAL.—School, 2 story and base, Class C construction, \$100,000. Architect not

selected. Owners, City of Palo Alto. Competitive plans for the new \$100,000 school building to be erected at Palo Alto will be submitted by three architects only. From some sixteen applications the Board of Education selected Architect W. H. Weeks, 75 Post street, San Francisco; John J. Donovan Perry Bldg., Oakland, and Allison & Allison, of Los Angeles.

Contracts Awarded.

SEATTLE, WASH.—School, 1 story and base, Class A construction, \$196,600. Architect, Edgar Blair, Seattle. Owners, City of Seattle. Contractors, Jenkins & Jones, Hineley Bldg., Seattle. Contract price, \$196,600.

SEWERS, STREET WORK & WATER SYSTEMS

HILLSBOROUGH, SAN MATEO CO., CAL. Street improvement. Cost not stated. Engineer, City Engineer, Hillsborough Bldg., S. F. Owners, City of Hillsborough. Bids were to have been opened by the Town Trustees of Hillsborough at their regular meeting Tuesday evening, September 19th, for the improvement of Barriolhet avenue from the eastern limits of the city to the west line of Brewer Drive. Action was postponed, however, for two weeks and the bids will be opened on October 3d.

SUNNYVALE, SANTA CLARA CO., CAL. Street improvement. Cost not stated. Engineer, City Engineer, Sunnyvale. Owners, City of Sunnyvale. The Town Trustees have ordered bids received up to October 3rd at 8 p. m. for the construction of an oiled macadam roadbed, base seven inches deep with three grades of crushed rock and surface on the following streets: Taft street from the south side of the right-of-way of the Southern Pacific railroad or station, running thence southerly to the south side of Evelyn avenue. Evelyn avenue from Taft street to Murphy avenue. A 20-foot strip along the center of Murphy avenue from Washington avenue to San Jose and San Francisco road or the State highway. With full width at all crossing streets, and turnouts, or 30-foot gores, connecting with the gutter line and shoulders along the sides of said 20-foot strip, together with concrete curbs and gutters along both sides of said streets. Plans and specifications are on file in the office of the Town Clerk.

MARTINEZ, CONTRA COSTA CO., CAL. Road improvements. Cost not stated. Engineer, County Surveyor, Martinez. Owners, Contra Costa County. Bids will be opened on October 9th at 11 a. m. for the furnishing of materials and grading and preparing the sub-grade and placing corrugated non-culverts and furnishing material and placing an oil macadam base on road, beginning at the southwest corner of the property of the U. A. Smith Lumber Co. on the north line of the right-of-way of the Southern Pacific Railway and running east and parallel to the Southern Pacific tracks to a point opposite the main street in the town of Day Point at the Southern Pacific depot, a distance of 2,662 lined feet.

SANTA ROSA, SONOMA CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Santa Rosa

owners, Sonoma County. Bids will be opened on October 11th at 12 noon for the construction of a bridge between Cazadero and the mouth of Austin Creek in Austin Permanent Road Division.

FAIRFIELD, SOLANO CO., CAL.—Road Construction. Cost not stated. Engineer, County Surveyor. Fairfield Owners, Solano County. Bids will be opened on October 2nd at 11 a. m. for grading and paving with concrete part of roads No. 8 and No. 257, at Cordelia, Road District No. 1, Solano County. The total length to be improved is about 6,100 feet, and will include concrete culverts and small concrete bridges. Bidders will bid on entire work.

ORANGE, ORANGE CO., CAL.—Street paving. Cost not stated. Engineer, County Surveyor. Orange Owners, Orange County. Bids will be opened on October 11th at 2 p. m. for the construction of a 4 inch deep cut with concrete pavement on Oxford road, extending from State highway north-east a distance of about three-fourths of a mile. Under these specifications the County of Orange will furnish the necessary sand, crushed rock, gravel and cement 1 1/2 cents per cu. ft. freight siding to sub work.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer. Oakland Owners, City of Oakland. Bids will be opened on October 5th for street improvements authorized under the following resolution: That all that portion of Oak street that lies north of the north line of 11th street, and all that portion of Lake street that lies east of the east line of Jackson street, each be graded curbed with concrete, guttered with brick gutters 12 inches wide, and paved with asphalt; a vitrified pipe conduit, having an internal diameter of 16 inches, two brick storm water inlets and two brick manholes be constructed.

WOODLAND, YOLO CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer. Woodland Owners, City of Woodland. The Board of Trustees has ordered bids received for the improvement of 13th street from Main to Fenderist, and Third street from Main to Marshall. Plans may be had from the City Clerk.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer. Oakland Owners, City of Oakland. Bids will be opened on October 5th at 12 noon for street improvements authorized under the following resolution: That the portion of Foot-hill Boulevard, beginning at a point on the boundary line of the city of Oakland at San Leandro Creek, etc., be graded and paved with a concrete pavement, having an asphaltic wearing surface.

REDWOOD CITY, SAN MATEO CO., CAL.—Street improvement. Cost not stated. Engineer, County Surveyor. Redwood City Owners, San Mateo County. The County Supervisors have rejected the bid of Thomas Flynn recently submitted for macadamizing Laurel and Mills avenue in the Third District.

MERCED, MERCED CO., CAL.—Lighting system, \$10,000. Engineer, City Engineer. Merced Owners, City of Merced. The City Trustees have ordered Consulting Engineer Phillips to

prepare plans and specifications for the proposed lighting system.

SANTA ROSA, SONOMA CO., CAL.—Crushed rock. Cost not stated. Engineer, City Engineer. Santa Rosa Owners, City of Santa Rosa. Bids will be received on October 2nd at 5 p. m. for furnishing and delivering to any designated place or places in Santa Rosa, or undelivered at the quarry or crusher in the bunkers, 5,000 cubic yards, more or less, of crushed basalt rock, said rock to be free from all decomposed rock and soil, and to be what is known as Nos. 1, 2, 3 and 4. Separate bids will be received on grades Nos. 1 and 2, on grades 3 and 4 on grades 1, 2, 3 and 4 each grade to be separated in bids. Delivery of rock to be made in such quantities and at times as desired by the City Council.

Contracts Awarded

MARTINEZ, CONTRA COSTA CO., CAL.—Fire alarm system, \$5,000. Engineer, City Engineer. Martinez Owners, City of Martinez. Contractors Gamewell Fire Alarm System, 86 3rd street, S. F. Contract price, \$5,000.

RIO VISTA, SOLANO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer. Rio Vista Owners, City of Rio Vista. Contractors, Johnson-Shea Co., Central Bank Bldg. Oakland. Contract price not stated.

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement, \$10,721.25. Engineer, City Engineer. Richmond Owners, City of Richmond. Contractor L. L. Page, 8th and Bissell streets, Richmond. Contract price, \$10,721.25.

PETALUMA, SONOMA CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer. Petaluma Owners, City of Petaluma. Contractors, Woods & Silva, Petaluma. Contract price not stated.

VALLEJO, SOLANO CO., CAL.—Pipe cast iron, \$2,241.15. Engineer, City Engineer. Vallejo Owners, City of Vallejo. Contractors, American Cast Iron Pipe Co., Rathon Bldg., S. F. Contract price, \$2,241.15.

SAN JOSE, SANTA CLARA CO., CAL.—Street improvements, \$3,544. Engineer, City Engineer. San Jose Owners, City of San Jose. Contractor, J. W. McDonald, Bank of Italy Bldg., San Jose. Contract price, \$3,544.

LINDSAY, TULARE CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer. Lindsay Owners, City of Lindsay. Contractors, Worswick Paving Co., Fresno. Contract price not stated.

STOCKTON, SAN JOAQUIN CO., CAL.—Street paving, \$7,621.46. Engineer, City Engineer. Stockton Owners, City of Stockton. Contractors, Paul & Caldwell, Stockton. Contract price, \$7,621.46.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer. Sacramento Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That Sacramento avenue from Madrone avenue and 55th street to the north line of Cypress avenue, be improved by constructing concrete curb, concrete gutter, 6-inch, vitrified, ironstone sewer pipe drains, placing one 6-inch vitrified, ironstone Y branch on 8-inch sewer pipe in place, grading the space between the property line and curb, constructing concrete sidewalk, placing two cast iron gutter drains with 6-

inch, vitrified, ironstone sewer pipe elbows attached; reconstructing two concrete manholes; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2 inches thick. Awarded to Clark & Henry, Ochsner Bldg., Sacramento.

That Crandall lane, from J street to the north line of Cornell avenue, be improved by constructing concrete curb, concrete gutter, 6 and 8-inch, vitrified, ironstone sewer pipe drains, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes, placing six 6-inch, vitrified ironstone Y branches and 8-inch vitrified, ironstone pipe sewer; facing 85 linear feet of concrete curb now placed with cement mortar, grading the roadway from the south line of J street to the north line of Cornell avenue and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1 1/2 inches thick. Awarded to Clark & Henry Construction Co., Ochsner Bldg., Sacramento.

That the alley between Dwight Way and Channing Way, from P street in Wright & Kimbrough Subdivision No. 20 to the north line of lot N in Wright & Kimbrough Subdivision No. 20, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer; placing 32 6-inch, vitrified, ironstone Y branches on 8-inch, vitrified, ironstone pipe sewers; 2 concrete manholes. Awarded to J. W. Terrell, 1111 29th street, Sacramento.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer. Oakland Owners, City of Oakland. Contracts have been awarded under the following resolutions: That Fairfax avenue from the production of the northwest line of Renwick street to the production of the north line of lot 1, block 5, of the "Melrose Heights" Tract, be graded, curbed with redwood, guttered with concrete gutters 3 feet wide, paved with oil macadam and sidewalked with cement; a vitrified pipe conduit, having an internal diameter of 10 inches, a vitrified pipe conduit having an internal diameter of 16 inches, a concrete culvert three brick manholes, one concrete manhole and a cast iron inlet be constructed. Awarded to Hutchinson Co., 13th and Franklin streets, Oakland.

That Delaware street in the vicinity of Maple avenue be graded, curbed with redwood, guttered with concrete gutters 3 feet wide, paved with oil macadam and sidewalked with cement sidewalks 5 feet wide, a concrete culvert, having maximum internal dimensions of 2 1/2 feet in height by 3 feet in width, a brick storm water inlet with cast iron top, a 16-inch, vitrified pipe conduit and a cast iron manhole be constructed. Awarded to Hutchinson Co., 13th and Franklin streets, Oakland.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer. Sacramento Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That the alley between first north of

SAN FRANCISCO, Mo., 78.—Office of the Depot Quartermaster U. S. Army, Fort Mason, San Francisco, Cal., advised that there are stored there until September 27, 1916, under proposal No. 78 for furnishing 55 canteen baskets, 60 dozen hacksaw blades, 84 dozen saw brackets, 20 sheets brass board, 1,000 Bristol card, 100 bspn catches, 300 2 1/2 inch chain, 1,922 boxes paper clips, 1,000 counterpanes, 1000 tin wash brushes, 1000 tin wash brushes, 500 pounds flat iron, 12 wagon in, 144 table knives, 11 saddlers' kits key chain lines, 40 hose nozzles, 450 calendering rollers, 1000 pairs of shoes, 500 parts for electric fan, 15 pounds brass pine, 72 pitchforks, 50 racks comb and brush, 250 pounds rivets and nails, 1000 cotton waste, 1000 white cotton waste, 50 folding tables, 26 water coolers, 100 quires emery cloth, 120 tin boilers, 12 hacksaws, 1000 tin wash brushes, 1000 tin wash brushes, 18 blacksmiths' fullers and 500 pounds tool steel. STATE OF CALIFORNIA,
DEPARTMENT OF ENGINEERING,
CALIFORNIA HIGHWAY COMMISSION
NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on October 9, 1916, at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portions of State highway as follows:

Sonoma County, on the road between Cotati and Petaluma from Highland Avenue to Willow Brook (IV-Son-1-C), about 3.6 miles in length, to be graded. Plans may be seen, and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at: William Dunsinuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" attached to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The Department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

CHARLES D. BLANEY,
NEWELL D. DARLINGTON,
CHARLES F. STERN,
California Highway Commission,
GEO. R. WINSTON,
1st Assistant Highway Engineer,
WILSON R. ELLIS,
Secretary. (*)

Dated: September 12, 1916.

INTEREST DEVELOPED IN SOUTH AMERICAN INVESTMENTS.

The interest of United States investors in the South American field is indicated by a recent report from a commercial attaché in which he states that he had a conference with a representative of a prominent American investment firm, during which the representative stated that his firm was prepared to purchase South American municipal or State bonds in substantial amounts and that it would also be interested in industrials. The policy of this American firm was stated to be such as to preclude an interest in transactions involving construction contracts.

CONSUL TO NAGASAKI WILL INTERVIEW BUSINESS MEN.

E. Carlton Baker, American Consul to Nagasaki, Japan, on leave, will be in this vicinity from about September 26 to October 5, when he returns to his post. Business men desiring interviews with Mr. Baker can arrange through the commercial agent of the Bureau of Foreign and Domestic Commerce, 207 Custom House, San Francisco.

Mr. Baker is a Californian, graduate of U. of C. and served in the American Consular Service in Foochow, Amoy, Antung and Chungking, China, before his assignment to Nagasaki.

CO-OPERATIVE OFFICE ESTABLISHED IN PORTLAND.

A co-operative office of the Bureau of Foreign and Domestic Commerce has been established with the Foreign

Clean Traveling.

Electric travel does away with the grime, soot and other disagreeable inconveniences that go with usual railroad travel.

You are brought to your destination feeling just as fresh as when you started.

Use the electric line between San Francisco and Oakland and Sacramento, Woodland, Oroville, Colusa and Chico.

Oakland, Antioch & Eastern Railway

Trade Department of the Portland Chamber of Commerce, Portland, Ore., with Mr. Ansel R. Clark in charge of the office. Mr. Clark is foreign trade secretary of the organization.

MARTINEZ PLANS LIGHT SYSTEM.

Engineers Begin Survey For Last Word In Municipal Illuminating.

MARTINEZ—In preparation for the installation of an entirely new street lighting system, to be the last word in municipal illumination progress, electrical engineers and experts in the matter of municipal lighting soon will begin a comprehensive survey of Martinez. The present system is to be completely changed and better light is assured for all parts of town.

It is expected the new system will be completed before winter.

DRY DOCK AT SAN DIEGO.

SAN DIEGO—Culminating five months of investigation of suitable sites, plans are announced for the construction here of a \$1,250,000 dry dock and shipbuilding plant, actual construction work to begin within a month. Thomas C. Bond is promoting the scheme, which he claims has the backing of the O'Dell and Wanamaker interests of New York and Philadelphia. The dock is to be a replica of the "Dewey" the floating naval dock now in use in the Hawaiian Islands, and will accommodate the largest ships of either the navy or of private concerns. A working model is now in the Government exhibit at the Exposition. The building of ships is to be undertaken on a large scale, four berths being contemplated.

IRRIGATION PLANNED.

At a meeting at Placerville, El Dorado County, recently steps were taken in behalf of a proposed Diamond Ridge Irrigation Project for the Pleasant Valley district. Estimates were made that the cost would be \$3 per acre for the first twenty years, and not more than \$1 per acre thereafter. The total cost of the project was placed at between \$2,000,000 and \$2,500,000.—Sacramento Valley Magazine.

Contractors all over the country are moving more material in less time and at a smaller expense with
FOUR WHEEL DRIVE TRUCKS
than with any other method of transportation.

Consider what power on all four wheels would mean for you in your business.

Large Contractors and corporations the world over are finding that power on all four wheels results definitely and decisively in:--

100 per cent saving in cost of tires.

Greater durability to every wearing part.

Allows equal distribution of load, thus

Eliminating undue strain on any one part.

Enormous saving in cost of up-keep.

More mileage per gallon of gasoline and oil.

DEPENDABLE SERVICE - no idle days waiting for repairs.

Remember that every F. W. D. Truck built in the past seven years is working to-day, and they are performing harder and more persistent service at a given cost than any other truck built to-day.

You owe it to yourself to investigate the F. W. D. truck.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

APARTMENT HOUSE—1 story and base, Class C construction, \$25,000. San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner, William Smith. Location, Jones between Sutter and Bush. Will cover an area of 25 by 120 feet and contain eight apartments of two rooms each. Plans complete and figures being taken.

APARTMENT HOUSE—2 story and base, frame, \$16,000. San Francisco. Architect, none. Owner, M. Silverman. 1062 Van Ness avenue, S. F. Location, north Pacific, west Powell, covering an area of 15 by 125 feet. Plans complete and work to be done by Day Labor under the direction of J. Sackolov, 1558 Clay street.

APARTMENT HOUSE—2 story and base, frame, \$8,000. San Francisco. Architect, Kenneth McDonald, Sr., Call Post Bldg., S. F. Owner, C. J. Carter. Location, Lake street between 21st and 22nd avenues. Will contain two apartments of eight rooms each. Plans complete and segregated figures being taken.

RESIDENCE—2 story and base, frame, \$2,500. San Francisco. Architect, none. Owner, S. A. Born Building Co., 660 Market street, S. F. Location, lot 19, Lincoln Manor. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 1 story and base, frame, \$2,000 each. San Francisco. Architect, none. Owners, MacArthur Bros., 1500 Fell street, S. F. Location, west Madrid south Peru. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 1 story and base, frame, \$2,000 each. San Francisco. Architect, none. Owner, N. F. Nilsson, 355 Coleridge street, S. F. Location, north Santa Ynez east Otsego. Each house will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$5,000. San Francisco. Architect, none. Owner, L. A. Stricht, 650 24th avenue, S. F. Location, east 24th avenue south Lincoln. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$2,500. San Francisco. Architect, N. W. Mohr, 15 Kearny street, S. F. Owner, John J. Lane. Location, east Collinswood south 21st. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$2,000. San Francisco. Architect, A. Aronson. Owner, O. E. Gar-side, 2520 19th avenue, S. F. Location, west 25th avenue south Taraval. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$12,000. San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner's name withheld. Location, Forest Hill. Will contain twelve rooms, three baths and a separate garage. Plans being prepared.

RESIDENCES—5, 2 story and base, frame, \$2,000 each. San Francisco. Architect, J. C. Hladik, Monadnock Bldg., S. F. Owner, George Wagner. Location, south Sunnyside west Baden. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

HOSPITAL NURSES' HOME—2 and 3 story, Class A construction. Cost not stated. San Francisco. Architects, Willis Polk & Co., Hobart Bldg., S. F. Owners, St. Mary's Hospital. Preliminary plans have been prepared for a two and three story fireproof building for a nurses' home. Funds for the construction are not yet available. Further mention will be made of the work.

OFFICES—3 story and base, Class A construction. Cost not stated. San Francisco. Architect, Frederick H. Meyer, Bankers' Investment Bldg., S. F. Owners, Union Iron Works. Location, 20th and Illinois streets, covering an area of 65 by 110 feet. Plans complete and figures being taken.

STORES—3 story and base, Class C construction. Cost not stated. San Francisco. Architect, Smith O'Brien, Humboldt Bank Bldg., S. F. Owners, L. H. and B. C. Brown, leased to Newman's Furniture Co. Location, south east 17th and Mission streets, covering an area of 110 by 162½ feet. Plans complete and figures being taken.

WAREHOUSE—2 story and base, Class C construction, \$10,000. San Francisco. Architect, Sylvain Schnaitacher, 233 Post street, S. F. Owners, Raychester Co. Location, north Harrison near 5th. Bids in and under advisement. Contract to be awarded shortly.

FLATS—2 story and base, frame. Cost not stated. San Francisco. Architect, Henry Shermund, Mills Bldg., S. F. Owner, Adolph Kaufmann. Location, east 5th avenue north Lake. Will contain two flats of eight rooms and two baths each. Plans complete and segregated figures being taken.

FLATS—2, 3 story and base, frame, \$5,500 each. San Francisco. Architect, Charles Fantoni, 916 Kearny street, S. F. Owners, Mrs. Elena Dunn and D. Genimiani. Location, north Union west Taylor. Each building will contain three flats of five and six rooms. Plans complete and figures being taken.

WATER SYSTEM IMPROVEMENTS—\$50,000. San Francisco. Engineer, Constructing Quartermaster, Fort Mason. Owners, United States Government. Although T. W. McLenahan presented the low bid for all work except the construction of the pipe line at \$31,550, and T. D. Cowden the low bid for the pipe line at \$6,500, contracts will not be awarded to them. Cowden's bid did not state "all or none," and he admits a mistake in figuring

the pipe line. Frank M. Garden Co. will probably be awarded the contract for clearing the site and constructing the concrete dam. Pacific Wire Fence Co. the contract for the fencing, and Pringle-Dunn Co. the contract for the pipe line. Pringle-Dunn Co.'s figure for the pipe line is \$10,489.

RESIDENCES—4, 2 story and base, frame, \$3,500 each. San Francisco. Architect, H. H. Gutterston, 278 Post St., S. F. Owners, St. Francis Home Building Co. Location, south Terrace Drive east Portola Drive. Each dwelling will contain six rooms and bath. Separate garages. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$50,000. San Francisco. Architects, Bakewell & Brown, 251 Kearny street, S. F. Owner, Frank King. Location, Jackson and Walnut. Will contain 12 rooms and 6 baths. Plans complete and figures being taken.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, none. Owner, A. T. Morris, 501 11th avenue, S. F. Location, west 10th avenue south Balboa. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OFFICES—3 story and base, Class A construction. Cost not stated. San Francisco. Architect not selected. Owners, Merchants' Exchange. At Tuesday's meeting of the Directors of the Merchants' Exchange the Board placed themselves on record as favoring the construction of a three-story Class A office building to be erected on the property of the defunct California Safe Deposit at the southeast corner of California and Montgomery streets. While no official action was taken regarding the selection of an architect, it is generally conceded that plans will be prepared by Architect Willis Polk, Hobart Bldg. The building will be designed to carry several additional stories.

STORES—1 story and base, brick, \$12,000. San Francisco. Architect, William H. Crim, Jr., 125 Kearny street, S. F. Owners, Robert White Co. Location, west Fillmore east Geary, covering an area of 31 by 125 feet. Plans complete and figures being taken.

STORE AND LOFTS—7 story and base, reinforced concrete. Cost not stated. San Francisco. Architect, Henry H. Meyers, Kohl Bldg., S. F. Owners, Lumley & Michaels Co. Location, west First street between Market and Mission, covering an area of 10 by 162½ by 5½ feet. Plans complete and figures being taken.

Contracts Awarded.

APARTMENT HOUSE—4 story and base, Class C construction, \$45,000. San Francisco. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owners, O'Brien Bros. Contractors, R. De Luca, concrete work, \$2,700; J. Gibbs, plumbing, \$3,531; Brandon & Lawson, brick work, \$9,750; American Electric Co., electric work, \$1,270; Pa-

cific Structural Steel Co., steel work \$1,650.

STORES—1 story and base, frame, \$1,000. San Francisco. Architect, none. Owner, C. H. Westphal. Contractor Gustave Anderson, 2320 24th street, S. F. Contract price, \$1,000.

LAUNDRY—2 story and base, frame, \$2,000. San Francisco. Architect, none. Owner, R. C. Smith, 331 Mason street, S. F. Location, west Baker south Sutter, covering an area of 25 by 68 feet. Plans complete and work to be done by Day Labor.

City Bids Opened.

The San Francisco Board of Public Works has awarded the contract for furnishing electric switchboards for the Hetch-Hetchy project to the General Electric Co. and has requested the Board of Supervisors to appropriate \$2,849.50 to cover the cost of the contract.

The Board has authorized the receipt of bids for the construction of the High Pressure System in the Telegraph Hill District. Bids will close on this work October 4th.

The following bids were received for furnishing cedar poles for the Hetch-Hetchy project:

	25' long 10" long 15' long	Western Elec. Co.	\$8.15	\$9.15	\$10.97

SAN JOSE AND THE SANTA CLARA VALLEY

STREET IMPROVEMENT—Cost not stated. Hillsborough, San Mateo Co., Cal. Engineer, City Engineer, Hills-brook Bldg., S. F. Owners, City of Hillsborough. Bids were to have been opened by the Town Trustees of Hills-borough at their regular meeting Tuesday evening, September 19th, for the improvement of Barriolhet avenue from the eastern limits of the city to the west line of Brewer Drive. Action was postponed, however, for two weeks and the bids will be opened on October 3rd.

STREET IMPROVEMENT—Cost not stated. Sunnyvale, Santa Clara Co., Cal. Engineer, City Engineer, City Engineer, Sunnyvale, Owners, City of Sunnyvale. The Town Trustees have ordered bids received up to October 3rd at 8 p. m. for the construction of an oiled macadam roadbed, base seven inches deep with three grades of crushed rock and surface on the following streets: Taaffe street from the south side of the right-of-way of the Santa Pacific Railroad or station, running thence southerly to the south side of Evelyn avenue. Evelyn avenue from Taaffe street to Murphy street. A 20-foot strip along the center of Murphy avenue from Washington avenue to San Jose and San Francisco road or the State highway. With full width at all crossing streets and turn-outs or 36-foot gores connecting with the gutter line and shoulders along the sides of said 20-foot strip, together with concrete curbs and gutters along both sides of said streets. Plans and specifications are on file in the office of the Town Clerk.

BRIDGE REPAIRS—Cost not stated. Monterey, Monterey Co., Cal. Engi-ner, County Surveyor, Monterey, Own-ers, Monterey County. Bids will be opened on October 3rd at 2 p. m. for patching a portion of the San Lucas-Peach Tree road, in Peach Tree Road District also for repairing bridge over the Salinas River at a point near the town of San Ardo. Cost not stated. Hollister, San Benito Co.

Cal. Engineer, County Surveyor W. A. Winn, Hollister, Owners, San Benito County. Bids will be opened on October 2nd at 2 p. m. for constructing a reinforced concrete bridge over Santa Ana Creek near Hollister.

BRIDGES—Reinforced concrete. Cost not stated. San Jose, Santa Clara Co., Cal. Engineer, County Surveyor, San Jose, Owners, Santa Clara County. Plans and specifications for the following bridges were approved at the last meeting of the County Supervisors, and bids were ordered received up to 11 a. m. of October 16th: Bridge on Almaden road near Elwood road; bridge on Almaden road near Cooney place; bridge on Almaden road near Schneider place; culverts on San Felipe and Wehner roads. Plans and further information may be had from County Clerk Henry A. Pfister.

RETAINING WALL, ETC.—Cost not stated. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City, Owners, San Mateo County. Bids will be opened on October 2nd at 10 a. m. for the construction of retaining walls and timber bulkheads on the Redwood City to San Gregorio road, located in the Third and Fifth Road Districts.

STREET IMPROVEMENT.—Cost not stated. San Mateo Co., Cal. Engineer, County Surveyor, Redwood City, Owners, San Mateo County. The County Supervisors have rejected the bid of Thomas Flynn, recently submitted for macadamizing Laurel and Mills avenues in the Third Road District.

SCHOOL ADDITION AND HEATING SYSTEM. Cost not stated. San Jose, Santa Clara Co., Cal. Architects' names as follows. Owners, City of San Jose. All bids for the construction of the addition to the Washington School, designed by Architect F. G. Aitken, Theatre Bldg., have been rejected. About \$10,000 is available for construction and the lowest figure received was \$1250. Plans will be revised and new figures called. The date for opening bids for the heating system to be installed in the San Jose High School addition, designed by Architect William Binder, has been postponed until October 10th.

SCHOOL.—2 story and base. Class C construction. \$100,000. Palo Alto, Santa Clara Co., Cal. Architect not selected. Owners, City of Palo Alto. Competitive plans for the new \$100,000 school building to be erected at Palo Alto will be submitted by three architects only. From sixteen applications the Board of Education selected Architect W. H. Weeks, 75 Post street, San Francisco; John J. Donovan, Perry Bldg., Oakland, and Allison & Allison of Los Angeles.

Contracts Awarded.

STREET IMPROVEMENTS.—\$3,544 San Jose, Santa Clara Co., Cal. Engineer, City Engineer, San Jose, Owners City of San Jose. Contractor, J. W. McDonald, Bank of Italy Bldg., San Jose. Contract price, \$3,544.

HOSPITAL WARD ADDITION.—1 story, frame, \$8,285. San Jose, Santa Clara Co., Cal. Architect, William Binder, Rea Bldg., San Jose, Owners, Santa Clara County. Contractor, George H. Kemp, 482 Washington street, Santa Clara. Contract price, \$8,285.

LINING CANAL.—Concrete. Cost not stated. Modesto, Stanislaus Co., Cal. Engineer, Chief Engineer, Modesto Owners, Modesto Irrigation District. Bids will be opened on October 12th at 10 a. m. for the construction of concrete lining in the main canals of the Modesto Irrigation District immediately below Rafters Hill, and such work is more particularly described and specified in the plans and specifications.

BIDS RECEIVED FOR HOSPITAL WARD

Santa Clara Supervisors Open Bids and Award Contracts For Hospital Ward and Road Work.

SAN JOSE, Santa Clara Co., Cal., Sept. 18th, 1916—Bids were opened at this morning's meeting of the Board of Supervisors for the construction of a one-story frame tubercular ward to be erected at the county infirmary and also for a mile of the Trimble Road. SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

STREET IMPROVEMENT—Cost not stated. Woodland, Yolo Co., Cal. Engineer, City Engineer, Woodland. Owners, City of Woodland. The Board of Trustees has ordered bids received for the improvement of Elm street from Main to Pendegast, and Third street from Main to Marshall. Plans may be had from the City Clerk.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for

street improvements have been awarded under the following resolutions: That Sacramento avenue, from Madrone avenue and 35th street to the north line of Cypress avenue, be improved by constructing concrete curb; concrete gutter; 6-inch, vitrified, ironstone sewer pipe drains; placing one 6-inch vitrified ironstone Y branch on 8-inch sewer pipe in place; grading the space between the property line and curb; constructing concrete sidewalk; placing two cast iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached; reconstructing two concrete manholes; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Awarded to Clark & Henry, Ochsner Bldg., Sacramento.

That Crandall Lane, from J street to the north line of Cornell avenue, be improved by constructing concrete curb, concrete gutter; 6 and 8-inch, vitrified ironstone sewer pipe drains; placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes; placing 6 and 8-inch, vitrified, ironstone Y branches and 8-inch, vitrified, ironstone pipe sewer; facing 85 linear feet of concrete curb now placed with cement mortar; grading the roadway from the south line of J street to the north line of Cornell avenue and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to Clark & Henry Construction Co., Ochsner Bldg., Sacramento.

That the alley between Dwight Way and Channing Way, from P street to Wright & Kimbrough Subdivision No. 20 to the north line of lot M in Wright & Kimbrough Subdivision No. 20, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer; placing 32 6-inch, vitrified, ironstone Y branches on 8-inch, vitrified, ironstone pipe sewers; two concrete manholes. Awarded to J. W. Terrill, 1111 29th street, Sacramento.

BRIDGES—Concrete. Cost not stated. Auburn, Placer Co., Cal. Engineer, County Surveyor, Auburn. Owners, Placer County. The County Supervisors have rejected all bids for the construction of the Yankee Slough bridges and new bids have been ordered to be opened at the October meeting. Plans and further information may be had from the County Clerk.

BRIDGES—2, reinforced concrete, \$7,500. Marysville, Yuba Co., Cal. Engineer, County Surveyor, Marysville. Owners, Yuba County. Bids will be opened on October 3rd at 10 a. m. for the construction of three concrete bridges located as follows: Extension Parks Bar bridge on road to Smartsville, Yuba River, 50 feet 11 inches in length. J. Losey bridge on road to Smartsville, one mile from Parks Bar bridge at the J. Losey roadhouse, 19 feet in length. Smith bridge on Ban-

gor road, 6½ miles from Marysville, 13 feet 1 inches in length.

BRIDGE—Concrete and steel. Cost not stated. Eureka, Humboldt Co., Cal. Engineer, County Surveyor, Eureka. Owners, Humboldt County. Bids will be opened on October 10th at 2 p. m. for the construction of a highway bridge across Ohman Creek 3 miles south of Phillipsville, in Road District No. 2.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That the alley between first north of First avenue in West Curtis Oaks from Fireport road to the alley next west of 24th street; the alley first south of Fireport road and north of First avenue and the right-of-way through lot 8, Highland Park, from the alley south of Dallas avenue to the alley north of First avenue, be improved by excavating a trench in each of said alleys and right-of-way and constructing therein an 8-inch, vitrified, ironstone pipe sewer and 56 6-inch, vitrified ironstone Y branches; constructing 6 concrete manholes complete with cast iron curbs and covers, and backfilling the trenches. Awarded to W. J. Tobin, 735 Filbert street, Oakland.

That the alley between F street and G street and between Mont Clair avenue and 42nd street in Mont Clair, be improved by constructing therein 8-inch, vitrified, ironstone pipe sewer; a concrete manhole complete, placing 26 6-inch, vitrified, ironstone Y branches with covers, and doing all necessary excavating and backfilling of trenches. Awarded to J. W. Terrill, 1111 29th street, Sacramento.

RESIDENCE—2 story and base, frame, \$2,000. Sacramento, Cal. Architect, none. Owner, I. B. Mattson, 200 K street, Sacramento. Location, 11 1/2th avenue. Will contain five rooms and bath. Plans complete and to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Sacramento, Cal. Architect, none. Owner, W. D. McKay, 11 1/2th street, Sacramento. Location, lot 8, North Sacramento. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$4,000. Fall River Mills, Shasta Co., Cal. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owner, Alvin Florin. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

Contracts Awarded.

STREET PAVING—\$7,621.16. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractors, Paul & Caldwell, Stockton. Contract price, \$7,621.16.

BATH HOUSE—1 story, frame, \$6,518. Lodi, San Joaquin Co., Cal. Architect's name not given. Owners, City of Lodi. Contractors, Philbrick and Colvin, Lodi. Contract price, \$6,518.

LOS ANGELES AND SOUTHERN
CALIFORNIA

STREET PAVING—Cost not stated
Orange, Orange Co., Cal. Engineer
County Surveyor, Orange. Owners
Orange County. Bids will be opened
on October 14th at 2 p. m. for the con-
struction of a 4-inch 16-foot wide con-
crete pavement on Myford road, ex-
tending from State highway northeast
a distance of about three-fourths of a
mile. Under these specifications the
County of Orange will furnish the nec-
essary sand, crushed rock, gravel and
cement, f. o. b. cars nearest freight
siding to said work.

FOUND BUILDING—1 and 2 story
concrete and frame, \$20,500. Los An-
geles, Cal. Architect, John J. Frauen-
felder, Story Bldg., L. A. Owner, A. G.
Hemming. Location, Alameda street
from 16th to 17th street. The buildings
will be of reinforced concrete, hollow
tile, brick and frame construction, and
will include eight kennels, 16 runs, of-
fice building, bungalow, stables, three
asphyxiating rooms, storage building,
kitchen, refrigerating rooms, etc. The
work will also include the construction
of approximately 3,000 feet of wire
fence. Plans being prepared.

BREWERY ALTERATIONS—Brick
\$30,000. Los Angeles, Cal. Architects,
Mayberry & Parker, Pacific Electric
Bldg., L. A. Owners, Los Angeles
Brewing Co. Location, 1929
Main street. The work will include
the construction of a new cellar, fire-
proofing columns and beams in an ex-
isting building, replacing wooden floors
with reinforced concrete, new stair-
ways, new roof, etc. Plans being pre-
pared.

CITY HALL—2 story and base, brick
\$30,000. Van Nuys, Los Angeles Co.,

Cal. Architect, J. J. Backus, City Hall, L. A. Owners, City of Los Angeles. Designed for a branch city hall and will contain the offices of the city officials of Van Nuys, vaults, etc. Plans complete and figures to be opened on October 2nd. Plans can be secured from the architect.

HOSPITAL—1 and 2 story and base, reinforced concrete, \$50,000. Santa Barbara, Santa Barbara Co., Cal. Architects, Mayberry & Parker, Pacific Electric Bldg., L. A. Owners, Santa Barbara County. Preliminary plans are being prepared for a new County Hospital. Details will be given when working drawings have been started.

DRAINAGE CANAL—Cost not stated. Los Angeles, Cal. Engineer's name not given. Owners, Dominguez Estate Co., Title Insurance Bldg., L. A. Bids will be received by the Dominguez Estate Co. up to midnight October 3rd 1916, for the construction of a drainage canal for conveying the surface waters of Nigger Slough to a point at or near Watson Station on the Pacific Electric line to San Pedro. Plans and specifications may be obtained at the office of the company. The approximate quantities of work required are: 147,500 cubic yards of excavation, 400 lineal feet of 5-inch concrete pipe, 36 yards of plain concrete for wing walls. Certified check for \$5,000 is required. George H. Hand is the engineer. The length of the canal will be 21,000 feet with a maximum cut of 18 feet, base of canal 10 feet with one side slope. Average cut about 10 feet. Estimated wet excavation, 17,500 cubic yards; dry excavation, 120,000 yards. The canal will drain about 1,800 acres and will provide an outlet for the storm waters of the Gardena district.

WATER SYSTEM—Cost not stated. Los Angeles, Cal. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Sealed bids will be received by the Board of Supervisors of Los Angeles County until 2 p. m. October 21, 1916, for furnishing and installing a water system for Los Angeles Water Works District No. 2, in accordance with plans and specifications on file with said Board of Supervisors. Separate bids will be received for the sinking of the well, for the deep well pumping system and for the piping, etc. It is proposed to sink a 12-inch well approximately 100 feet deep, to be cased with No. 12 gauge double stovepipe casing. An alternate bid will be received for sinking a well by rotary process, furnishing 12-inch screw casing. The pumping system will consist of a deep well turbine pattern centrifugal pump with enclosed propellers, or a duplex well pump with Lutwiler type pump, pump to be capable of delivering 300 gallons of water per minute, the total lift being 90 feet. Pump is to be motor driven. The piping required will include 3,200 feet of 8-inch and 16,000 feet of 4-inch wood stave pipe, 2-inch circulating line, cast iron fittings, etc. There will be a 50,000 gallon wood stave tank on a 50-foot wooden tower resting on concrete piers.

THEATRE AND OFFICES—6 story and base. Class A construction, \$600,000. Los Angeles, Cal. Architect, Albert C. Martin, Higgins Bldg., L. A. Owners, Stability Building Co., incorporates: E. P. Clark, A. P. Johnson, Homer Laughlin, F. W. Flint, C. C.

Chapman, L. F. Kelly, J. R. Clark, Frank Clark and R. A. Rowan. Location, southwest 3rd and Broadway covering an area of 120 by 198 feet. Further mention will be made of this work as the plans progress.

Contracts Awarded.

HIGHWAY BRIDGE—Steel and concrete, \$124,650. Santa Barbara Co., Cal. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Contractors, Mercer-Fraser Co., First and G streets, Eureka. Contract price, \$124,650.

CHURCH—1 story and base, brick, \$35,000. Glendale, Los Angeles Co., Cal. Architect, Arthur G. Lindley, Hollingsworth Bldg., L. A. Owner, First Methodist Episcopal Church. Contractor, T. H. Addison, 316 Belmont street, Glendale. Contract price, \$35,000.

DAIRY—1 and 2 story and base, frame, \$20,500. Los Angeles, Cal. Architect, W. J. Dodd & William Richards, Brockman Bldg., L. A. Owner, J. M. Danziger. Contractor, C. G. Goldthwaite, Marsh-Strong Bldg., L. A. Contract price, \$20,500.

LIBRARY—2 story and base, reinforced concrete, \$59,938. Santa Barbara, Santa Barbara Co., Cal. Architect, W. Wilson, 717½ State street, Santa Barbara. Owners, City of Santa Barbara. Contractors, W. E. Kier Construction Co., San Diego. Contract price, \$59,938.

PORTLAND AND OREGON

VIA DUCT—Reinforced concrete, \$750,000. Portland, Ore. Engineer, City Engineer, Portland. Owners, City of Portland. The Council has adopted a resolution authorizing an invitation for contract figures for the proposed O. W. R. & N. East Side grade crossings. The official call will probably be published November 6th, to close December 6th. The work involves the erection of various reinforced concrete viaduct structures spanning the railroad company's lines through Sullivan's Gulch.

HOTEL—3 story and base, rock and frame, \$80,000. Bend, Ore. Architects, Tourtellotte & Hummel, Rothchild Bldg., Portland. Owners, Pilot Butte Hotel Co. Will cover a considerable ground area and contain 120 rooms and baths. Plans being prepared.

NATATORIUM—2 story and base, reinforced concrete, \$25,000. Portland, Ore. Architects, Root & Kerr, Henry Bldg., Portland. Owner, Mr. Woodward. Will include a pool 50 by 90 feet lockers and dressing rooms and a balcony for the spectators. Plans being prepared.

BAKERY—1 story and base, brick, \$25,000. Salem, Ore. Architect, Fred A. Legg, Salem. Owners, H. F. Rittman and J. A. Wright. Will contain office sales room and shop. Plans being prepared.

Contracts Awarded.

SEATTLE AND WASHINGTON

BAKERY—1 and 2 story and base, brick and concrete, \$30,000. Seattle, Wash. Architects, Bebb & Gould, Denny

Bldg. Seattle. Owners, Davidson Baking Co. Location, 13th avenue and Columbia street. The entire plant, of which this building will be the first unit will cost \$100,000. Plans for the first unit are nearly complete and figures will be called for shortly.

Contracts Awarded.

APARTMENT HOUSE—5 story and base, brick and frame, \$25,000. Seattle, Wash. Architect, F. H. Perkins, Lumber Exchange Bldg., Seattle. Owner, E. J. Teitzner. Contractor, John Dykahl, 135½ Lakeview Boulevard, Seattle. Contract price, \$25,000.

HOTEL AND STORES—2 story and base, brick and steel, \$35,000. Seattle, Wash. Architects, Thompson & Thompson, Mutual Life Bldg., Seattle. Owners, Prunthall Bros. Contractor, John Kaufman, 612½ 3rd avenue, Seattle. Contract price, \$35,000.

SCHOOL—4 story and base. Class A construction, \$196,600. Seattle, Wash. Architect, Edgar Blair, Seattle. Owners, City of Seattle. Contractors, Jenkins and Jones, Hinckley Bldg., Seattle. Contract price, \$196,600.

UNIVERSITY'S NEW FORESTRY DEPARTMENT TO TAKE UP LUMBER PROBLEMS.

The twenty-eight million acres of forest in California bristle with problems for investigation. The University of California has now completed the organization of a new Department of Forestry in order to try to help solve them.

Efficiency methods in logging need to be developed by stop-watch observations and motion studies. To reduce the cost of logging by ten cents per thousand board feet would save \$125,000 a year, or an increase in the value of California timber of \$58,000,000.

Nobody knows yet how fast California trees grow. The Division of Forestry wants to find out, so that the State, counties, towns and railroad, lumber, and water and power companies can devise wise policies for growing permanent crops of timber on the vast acreage unsuited for other purposes.

"Volume-tables" need to be compiled showing the contents of standing trees of various sizes and species. Such tables do not yet exist.

The University wants to train specialists in tropical forestry, to solve the problems of the vast forests of Central and South America and the Orient—storehouses of untouched wealth.

It was in response to urgent demands from the lumber interests of California and from the Pacific Logging Congress that the University of California organized its Division of Forestry, with a faculty of two Professors of Forestry, Walter Mulford and David Townsend Mason, and three Assistant Professors, Donald Bruce, Merritt B. Pratt, and Woodbridge Metcalf.

The announcement of the new courses in forestry, just issued by the University and obtainable by writing to Dean Thomas F. Hunt of the College of Agriculture, at Berkeley, shows that besides a four-year course in general forestry the University has started this year a new course in forest engineering. The former will train men for work in the National Forests or in

forests privately owned and the "Forest Utilization course for the lumber business. Each gives a thorough training in forestry, with much field work. The general forestry course is based on the fundamental biological sciences, while the forest utilization course emphasizes mathematics, physics, mechanics, and other special training for forest or logging engineers. Students may, if they wish, take a five-year combined course.

A new "Short Course" is to be given from January 15 to April 7, with training for rangers, fire-guardians, and employees of lumber companies in surveying and mapping; forest administration, improvements, protection, and mensuration; silviculture, logging, and grazing; and lectures by the U. S. Forest Service officers.

All the forestry students are to have much practical training out in the forest. A summer camp will be maintained, for eleven weeks every year where students will be drilled in timber-estimating, forest-mapping, sealing, the study of tree growth, wood-manship, and the planning of logging operations.

Wonderful opportunities are available in California for practical field work. There is as much forest in California as farm land. The twenty-eight million acres of forest in California contain approximately 350 billion board feet. Because of the heavy rain-fall and long growing season, California timber grows with unusual rapidity and to unusual size. The twenty million acres of national forest in the eighteen National Forests in California are now devoted to the permanent production of timber. While a billion and a quarter feet of lumber are cut in California annually, it would take three hundred years to exhaust the present virgin supply, even making no allowance for growth. The University predicts a great expansion of the lumber industry and an increasing demand for highly-trained foresters and forest engineers.

The University itself owns five thousand acres of virgin redwood, in Humboldt county, given by Mrs. Hooper as an endowment for the George Williams Hooper Foundation for Medical Research; the 320 acres of "Whitaker's Forest," containing an excellent stand of "big trees," where forestry investigations are being carried on by the University; and near the Berkeley campus are several thousand acres of privately-owned plantations of eucalyptus and conifers which are among the largest and oldest tree-plantations in the western United States.

The forestry department is already well equipped and has a good library. Excellent engineering facilities are afforded by the department of mechanical, electrical, and civil engineering. In Hildgard Hall, the new agricultural building now being built from the University Building Bonds, will be spacious quarters for the Division of Forestry, including laboratories for general forestry, forest utilization, and wood technology, drafting and blueprint rooms, a herbarium, five rooms for research, an instrument room, supply-rooms, and six offices. The forestry student enjoys also all the varied privileges of the University in the way of scientific laboratories, library, infirmary, gymnasium, athletic fields, and stimulating association with the more than six thousand other students.

NEW THEATRE ORDINANCE IN VALPARAISO.

A general ordinance governing the construction, lighting, and ventilation of theatres and buildings for moving pictures, amusements, and other public spectacles in Valparaiso, was published in the Chilean Diario Oficial for July 26. The ordinance gives detailed regulations for the installation of electric lighting and for hygiene and safety provisions. Theatres now in operation are given five months to comply with the new ordinance.

WATER PLANT PAYS.

CORNING (Tehama Co., Cal.)—Corning's municipal water system made a clear profit of \$1,190 in 1915, and the present year promises an increase. In 1914 the profit was \$2,140.

Plant Cost \$70,000.

The waterworks cost the city about \$70,000. The supply will average about 150 feet in depth. The water has been analyzed by the State Health Department and pronounced first class. The temperature is about 60 degrees as it comes from the wells.

Tank 100,000 Gallons Capacity.

The city is supplied by a tank of 100,000 gallons capacity, giving an average pressure of forty-five pounds. The fire pressure is obtained by pumping direct into the mains, a pressure of 135 pounds being possible.

There are thirteen miles of water mains and 118 fire hydrants.

BUILDING METHODS IN ITALY.

In spite of war conditions there is considerable building being carried on in Naples. Apartment houses are being erected in the Vomero, Piedegrotto, Torretto, and other sections, one of the finest being in course of erection near the center of the city on reclaimed ground. The contracts for these works, however, were all let before the European hostilities began.

Construction work in Italy is different from that in the United States, the only point of resemblance being in the use of the steel and iron girders for strengthening the floors of buildings. Window frames, doors, and shutters are all made by hand. American flooring and trimmings are used, but up to the present American builders' hardware and plumbing goods have not been able to compete.

Purchase your equipment direct from the manufacturer.

VOTE FOR MORE HIGHWAYS.

The committee on highways of the Commonwealth Club of California has made a report on the state highways now being constructed and on the proposal to vote another bond issue of \$15,000,000 for highway purposes. The club in 1910 disapproved of the \$18,000,000 now going forward, but the report of the committee presented recently favors going ahead.

"Having gone into the highway building on an extensive scale," says the report, "it will be very unwise to interrupt this work or to stop it. There is no doubt in the minds of the committee that haphazard methods of providing inadequate roadways through all the past years have swallowed up many millions of dollars, and by this antediluvian system we would continue to do the work in the same slipshod manner of anything to show for the expended millions. Therefore, let us adhere to the principle of carrying on this great work until it is done, but let us see to it that the system of highways to be given the state is what they want.

"If the present highways have proved too narrow in populous districts, widen them. If certain topings have proved unsatisfactory, remove them and put on a more approved surface. If the concrete base has proved too thin, correct the error. Close up the gaps, in order to make the two great trunk lines continuous, complete and in every way adequate for the service, and if need be, construct the main lines of the most approved type. Do this first and then with the money left over, build the branch roadways, the laterals, the new connections, and continue to work into districts that have not been reached."

The cost of the work, according to the figures of the club's committee is as follows, due and payable before the end of the year 1922:

Original bond	issue of 1910..	\$18,000,000
Interest thereon.	20,160,000	\$38,160,000

New bond issue of	1915	\$15,000,000
Interest thereon.	17,212,500	\$32,212,500

Total	\$70,372,500
-------------	--------------

The report finds that the state has a 900 mile coast highway and a 620 mile central valley highway in the course of construction. In this there are gaps aggregating 160 miles, or 26 per cent of the distance in the coast road and 270 miles or 30 per cent in the valley road. In addition, it found 100 miles on the coast line and 135 miles of the valley line "graded or uncompleted." Although these uncompleted portions may be finished under the existing bond issue, expenditures thus far are found to be apportioned as follows:

	Per cent
Materials and construction.....	\$1.32
Stores and equipment.....	1.19
Preliminary or advance surveys.....	1.90
Surveying and inspection.....	8.18
Administration	4.41

The average cost of all highways, including overhead, is given at \$12,000 per mile, exclusive of the three-mile Yolo causeway which cost \$400,000 to build. The average cost of concrete highway, with overhead, is put at \$16,000 per mile. These figures do not include right of way, or cost of bridges.

"These highways," the report says, "are expensive, but if they give us what we want and what we need, then the expenses and the expense is an investment which will bear fruit in the rapid development of the state."

EAT PASTEURIZED BUTTER.

Many creameries in California are already making their butter from pasteurized cream, according to the California State Board of Health, although the new milk law will not go into effect before the first of October. This law not only requires that all milk sold be either pasteurized or come from non-reacting tuberculin tested cows, but it requires also that all butter must be made from pasteurized cream and be labeled "Pasteurized," unless the product used in its manufacture come from non-reacting tuberculin tested cows.

In purchasing butter labeled "Pasteurized," however, the consumer will be able to protect himself not only against tuberculosis but against other diseases as well. Dr. W. A. Sawyer, Secretary of the California State Board of Health, says that it is inconsistent to give a child the safest possible milk supply and at the same time feed it with infected butter. It is anticipated that after the new milk law has begun working, nearly all butter produced in the State will be manufactured under the pasteurization requirements. Doctor Sawyer advises consumers to buy pasteurized butter in preference. Before purchasing butter for your family, look for the word "Pasteurized" on the carton.

NEW SIESTA HIGHWAY.

REDDING, Cal.—Forest Superintendent R. F. Hammatt of Sisson appeared before the supervisors requesting a \$15,000 road from Big Bend bridge at Elgin to Peck's bridge at Cayton valley, a distance of about 20 miles. Hammatt stated that under the law 45 per cent of the receipts of the forest reserve will go to the counties in which the reserve lies. Hammatt wanted the supervisors to give \$2000 a year for four years for the road, he promising to see that the government gave a like amount.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house, 4 story and base. Class C construction, 15,000. Architects, Fitch & Knoll, Hearst Bldg., S. F. Owner, William Smith. Location, Jones between Sutter and Bush streets, covering an area of 3 by 120 feet. Will contain eight apartments of four rooms and bath. Plans complete and figures being taken.

BERKELEY, ALAMEDA CO., CAL.—Apartment house, 3 story and base, brick, 11,000. Architects, Richardson & Purcell, Oakland. Owner's name withheld. Location, Durant near Telegraph. Will contain 21 apartments of two, three and four rooms. Plans nearly complete and work to be carried on under the direction of Sommerstrom Bros., 202 East 12th street, Oakland.

OAKLAND, CAL.—Apartment house, 6 story and base. Class A and Class C construction, 175,000. Architects, Richardson & Buttrill, Albany Bldg., Oakland. Owners, Sommerstrom Bros., 24th and Telegraph avenue, Oakland. Location 22nd and Broadway, covering an area of 106 by 165 feet. Will contain 150 rooms arranged in two and three room apartments. Twelve stores will occupy the first floor. Plans are complete and figures are being taken for the steel, fireproofing and elevator work. Bids on other parts of the work will be taken shortly.

SAN FRANCISCO—Apartment house, 4 story and base. Class C construction, 25,000. Architects, Fitch & Knoll, Hearst Bldg., S. F. Owner, J. B. Schroeder. Location, west Leavenworth north Post, covering an area of 25 by 87½ feet. Will contain 32 rooms arranged in suites of four rooms and bath. Preliminary plans prepared.

SAN FRANCISCO—Apartment house, 3 story and base, frame, 17,000. Architect, O. R. Thayer, 249 Montgomery street, S. F. Owner's name withheld. Location, northeast 8th avenue and California. Will contain nine apartments. Plans complete, bids in and under advisement.

SAN FRANCISCO—Apartment house 3 story and base. Class C construction, 25,000. Architect, A. W. Burgen, 30 Woodland avenue, S. F. Owner's name withheld. Location, Powell south Jackson, covering an area of 18 by 60 feet. Will contain 20 suites of two rooms each. Plans complete and figures being taken.

LOS ANGELES, CAL.—Apartment house, 2 story and base. Class C construction. Cost not stated. Architect, H. M. Patterson, O. T. Johnson Bldg., L. A. Owner, J. G. Warren. Location, northeast Hollywood Boulevard and Vermont street, covering an area of 150 by 20 feet. Will contain five stores and nine apartments. Plans being prepared.

Contracts Awarded.

EUREKA, HUMBOLDT CO., CAL.—Apartment house, 3 story and base. Class C construction, 21,791. Architects, Koehig & Christiansen, Humboldt

Bank Bldg., S. F. Owners, Daly Bros. Contractor, Louis Halvorsen, 2036 K street, Eureka. Contract price, 251,791

BONDS

MARYSVILLE, YUBA CO., CAL.—The \$15,000 State highway bond issue was endorsed by the Northern California Editorial Association in convention here.

ANDERSON, SHASTA CO., CAL.—An election has been called by the Trustees of the Anderson High School to vote bonds of \$60,000 for the purchase of a site, the erection of a school and for furnishing the structure.

MERCED, MERCED CO., CAL.—The County Supervisors have passed resolutions vacating the Los Banos School bonds of \$63,000. The issue was lost by default.

The Supervisors have sold the \$10,000 issue of the Dos Palos School bonds, which will finance the construction of a new school for the district.

NEWPORT BEACH, ORANGE CO., CAL.—The \$100,000 bond issue for building a jetty and the \$25,000 issue for dredging the Newport Bay were carried by a vote of 291 to 20.

The proposed work includes a jetty 2,000 feet long running from the eastern peninsula to Newport, while the dredging will dig an undersea canal from north of the bay to Newport, a distance of two miles.

LIVE OAK, SUTTER CO., CAL.—At a meeting of the Live Oak Chamber of Commerce the proposed bond issue for \$320,000 to erect a county hospital and building four bridges in various places throughout the county, was endorsed.

SAN JACINTO, RIVERSIDE CO., CAL.—The Chamber of Commerce has called a meeting of citizens to discuss the paving of the streets of the town. A bond issue of \$50,000 is planned to cover the cost of the work.

DANVILLE, CONTRA COSTA CO., CAL.—The San Ramon Valley High School District bonds of \$15,000 carried by a large majority. A new building will be erected from the proceeds of the sale of the bonds.

COLUSA, COLUSA CO., CAL.—A bond issue has been called for October 15th, to vote bonds of \$65,000 for a new grammar school. Architect, W. H. Weeks of San Francisco has been directed to prepare plans for the building.

BAIRDSTOWN, LOS ANGELES CO., CAL.—Citizens of the annexed territory of Bairdstown voted a \$200,000 bond issue at the election held September 15 to construct mains and enlargements to the distributing system to carry aqueduct water. Plans for the system are being prepared by William Mulholland, Chief Engineer of the Board of Public Service Commission, Knickerbocker Bldg., Los Angeles.

LOS ANGELES, CAL.—The City Council has set October 18 as the date

of election to vote \$1,920,000 bonds in Hollywood district for acquiring and enlarging the water system there. A previous bond issue for the same purpose was recently held to be illegal on account of an error in the description of the boundaries of the district in the ordinance calling for the election.

SANTA ROSA, SONOMA CO., CAL.—The Willford-Telleuve Drainage District voted \$20,000 bonds by a two to one vote at the special election held last week.

The bonds are to provide funds for the necessary work for draining the section within the district which lies south of Santa Rosa some five miles.

MODESTO, STANISLAUS CO., CAL.—The proposition of voting \$1,482,000 bonds for permanent improvement of a system of highway trunk lines throughout the county will be submitted to the voters at the same time as the general election, November 7th. This was decided at a meeting of the County Board of Supervisors when the resolution calling the election was passed by a unanimous vote.

SANTA BARBARA, SANTA BARBARA CO., CAL.—The Supervisors sold \$50,000 of the \$350,000 State highway bridge bonds to F. M. Brown.

BRIDGES, DAMS AND HARBOR WORK

SAN ANSELMO, MARIN CO., CAL.—Bridge, reinforced concrete, \$13,000. Engineer, City Engineer, San Anselmo. Owners, City of San Anselmo. At the last meeting of the Town Trustees plans and specifications for the new bridge at Lansdale were approved. Construction will be of concrete, 42 feet long and 24 feet wide, together with the 30-foot retaining wall, which will be necessary along the creek side of Forest avenue. Bids will be ordered received shortly.

SAN JOSE, SANTA CLARA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Bids will be opened on October 16th at 11 a. m. for the construction of a reinforced concrete bridge on Cochran road, over the Las Animas Creek.

COLUSA, COLUSA CO., CAL.—Levee construction. Cost as follows. Engineer, City Engineer, Colusa. Owners, City of Colusa. The City Trustees at their meeting received bids for raising the waterfront levee. The Trustees considering the bids too high and believing that the work could be done more economically by Day Labor, all bids were rejected. The Antioch Dredging Co. bid \$145 for a day of 22 hours, and Mooney & Boggs bid 30¢ per cubic yard.

GROSVILLE, BUTTE CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Grosville. Owners, Butte County. Bids will be received on October 16th at 2

p. m. for construction of bridge on Palm avenue over Lando Channel in Road District No. 2.

SACRAMENTO, CAL. Bridges, reinforced concrete. Cost not stated. Engineer, County Surveyor, Sacramento Owners, Sacramento County. The Supervisors adopted the plans and specifications for two reinforced concrete bridges Monday afternoon, and bids for the construction of the same will be received October 9th. One of the bridges is to be located on the old Marysville road in North Sacramento and the other on Marconi avenue near the Del Paso Country Club. Plans and further information may be had from the County Clerk.

VENTURA, VENTURA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Ventura. Owners, Ventura County. Until 11 a. m. October 14th bids will be received by the Board of Supervisors for constructing a concrete pile bridge, 120 feet long, with necessary earth fill, culverts, guard fence, etc., on Olaj avenue across San Antonio Creek, according to plans and specifications on file in the office of said board, and which may be obtained at the office of the County Surveyor upon depositing \$3. J. B. McCloskey, County Clerk.

SEATTLE, WASH.—Canal dredging, \$100,000. Engineer, United States Engineers, Seattle. Owners, United States Government. Bids have been called for by the U. S. Engineers Office, Lieut. Col. J. B. Cavanaugh, Burke Bldg., Seattle, chief, for the last large dredging contract in connection with the completion of the Lake Washington Canal. Bids will be opened at 12 noon October 23rd for dredging over 600,000 cubic yards of material from the canal between the Government locks at the Narrows and Puget Sound, a distance of 1½ miles or more.

SAN FRANCISCO—Sea wall construction. Cost as follows. Engineer, Assistant State Engineer, Ferry Bldg., S. F. Owners, State of California. Three bids were received at the Thursday meeting of the State Board of Harbor Commissioners for constructing the sea wall between Jones and Hyde streets. Approximately 45,000 tons of rock is required. Following is complete list: Blake Bros., \$147 per ton, \$66,650; Healy-Thibbitts Construction Co., \$197 per ton, \$88,650; Daniel Contracting Co., \$151 per ton, \$67,550. An award of contract will be made at the next meeting of the Commission.

CHURCHES

FOWLER, FRESNO CO., CAL.—Church, 1 story and base, frame, \$10,000. Architect, Henry F. Starbuck, Rowell Bldg., Fresno. Owners, Baptist Church, A. B. Murphy, pastor. Location, Merced and 3rd streets. Will contain main auditorium, Sunday school rooms and pastor's study. Plans being prepared.

Contracts Awarded.

MERCED, MERCED CO., CAL.—Church, 1 story and base, brick and concrete, \$24,500. Architect, W. J. Wythe, Central Bank Bldg., Oakland, associated with Cowell & Bedeson, Merced. Owners, Central Presbyterian Church. Contractor, Finch Wilcock, Merced. Contract price, \$24,500.

Factories and Warehouses

OAKLAND, CAL.—Factory, 1 story, steel and galvanized iron, \$100,000. Architect, none. Owners, Judson Mfg. Co., 119 Folsom street, S. F. Location, foot of Park street, covering an area of 300 by 300 feet. Complete steel frame, exterior covered with galvanized iron. Plans being prepared and work to be done by Day Labor.

OAKLAND, CAL.—Machine shop, 1 story, brick and concrete, \$9,000. Architect, Charles W. McCall, Central Bank Bldg., Oakland. Owner's name withheld. Location, near Broadway, covering an area of 100 by 100 feet. Plans being prepared.

Contracts Awarded.

SEATTLE, WASH.—Transit shed, 2 story, frame, \$32,000. Engineer, Port of Seattle Commission, Seattle. Owners, City of Seattle. Contractors, Harrington Peters Co., Orient Bldg., Seattle. Contract price, \$32,000.

FLATS

BERKELEY, ALAMEDA CO., CAL.—Flat alteration, 2 story and base, frame, \$3,000. Architect, W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owner, Mrs. Lindbrom. Location, Hillgass and Parker streets. Work will consist of altering a two-story frame residence into four modern flats. Plans complete and figures being taken.

GOVERNMENT WORK & SUPPLIES

PROSPECTIVE BIDDERS.

Supervising Architect.

Specifications for work under the office of the supervising architect have been furnished to the following firms in addition to those previously noted in these columns:

WILLOW, CAL. Construction, October 2. A. McP. Sweeney, McNichols Building, Pocatello, Idaho.

Lange & Bergstrom, 206 Sharon Building, San Francisco, Cal.

Frank Gallagher, 180 Jessie street, San Francisco, Cal.

W. D. Lovell, Minneapolis, Minn.

J. B. Reite, 110 Jessie street, San Francisco, Cal.

Macrae & Layaz, 1220 Hearst Building, San Francisco, Cal.

Welch Bros. & Hannaman, Kalispell, Mont.

Campbell Building Co., Salt Lake City, Utah.

Grant Fee, 2440 16th street, San Francisco, Cal.

Monson Bros., 1907 Bryant street, San Francisco, Cal.

Alfred Kohn, 110 Jessie street, San Francisco, Cal.

Elmer Carlson, 110 Jessie street, San Francisco, Cal.

L. Dioguardi, 715 Garden street, San Francisco, Cal.

Stebinger Bros., Roseburg, Ore.

Mack, Colo., Excavation.

Bids for excavation in the vicinity of Mack, Colo., were received at the U. S. reclamation service, Grand Junction, Colo., on September 14, as follows:

Wm. Pollock, Fruita, Colo., schedule 1, \$2,512.95; 2, \$4,974.

Starr, Kirkendall & Miles, Fruita, Colo., schedule 1, \$2,528.20; 2, \$4,106; 3, \$5,394.50; 4, \$5,766.50.

G. R. Maycock Springville, Utah, schedule 3, \$4,446.40.

W. J. Miller, Springville, Utah, schedule 1, \$ 194.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.
W. J. Miller, Springville, Utah, schedule 1, \$2,645.50.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.
W. J. Miller, Springville, Utah, schedule 1, \$1,616.

Santa Fe, N. M., Heating, Repairs, Etc.

The following bid was received by the supervising architect, Treasury Department, Washington, D. C., September 20, for repairs to heating, plumbing, conduit, and wiring, etc., in the U. S. public building at Santa Fe, N. M.:
Noland-Chifford Co., Newport News, Va., \$3,160, time 60 days.

Klamath Reservation, Ore., Bridge Spans.

The contract for furnishing 2 steel spans for bridge, Klamath Indian Reservation, Ore., bids opened August 7, has been awarded to the Omaha Structural Steel Works, Omaha, Neb., at \$69,500.

Port Townsend, Wash., Weather Strips.

The contract for installing metal weather strips and l-pairs to roof, etc., of the U. S. post office at Port Townsend, Wash., has been awarded to Henrikson & Co., Seattle, Wash., at \$1,020.

Santa Rosa, Cal., Repairs.

The contract for repairs to lookout at the U. S. post office, Santa Rosa, Cal., has been awarded to Barrett & Hilp, San Francisco, Cal., at \$2,493.

The contract for constructing new wharf, buildings, etc., at the U. S. quarantine station, Honolulu, H. T., has been awarded to the Lord-Young Engineering Company, Honolulu, H. T., at \$29,647. Time, March 12, 1917.

HOSPITALS

OAKLAND, CAL.—Hospital addition and ward, 1 and 2 story, frame, \$25,000. Architect, Charles Peter Weeks, Mutual Bank Bldg., S. F. Owners, Alameda County. Bids will be opened on October 30th for the construction of a two-story addition to the main building and for a one-story contagious ward. Plans can be secured from the County Clerk.

SAN LEANDRO, ALAMEDA CO., CAL.—Hospital, 6, 1 story frame wards, \$15,000. Architect, Henry H. Meyer, Kohl Bldg., S. F. Owners, Alameda County. Bids will be opened on October 30th for the construction of six tubercular wards at the Alameda County Tubercular Hospital. Plans can be secured from the County Clerk.

HOTELS

PITTSBURGH, CONTRA COSTA CO., CAL.—Hotel, 2 story and base, frame. Cost not stated. Architect, William Crowles, Hearst Bldg., S. F. Owners, C. A. Hooper-Lamont Co., Balfour Bldg., S. F. Will cover an area of 114 by 129 feet. Only preliminary plans have been prepared and further mention will be made of the work.

REMERTON, WASH.—Hotel, 4 story and base, reinforced concrete, \$75,000. Architects, A. L. Daley and G. L. Haley, People's Bank Bldg., Seattle. Owner, Jack Smith. Location, Front and Washington streets. Will contain 81 rooms, lobby, office and a number of public and private baths. Entire structure leased to Charles Perry and Bert Gray. Preliminary plans prepared.

LOS ANGELES, CAL.—Hotel and stores, 6 story and base. Class A construction. Cost not stated. Architect, S. Tilden Norton, Title Insurance Bldg., L. A. Owners, M. M. and I. H. Norton. Location, southeast Main and 5th streets, covering an area of 75 by 135 feet. Will contain 120 rooms. Plans being prepared.

IRRIGATION PROJECTS

OAKDALE, STANISLAUS CO., CAL.—Irrigation canals, \$10,000. Engineer, Chief Engineer, Oakdale Irrigation District. The Board of Directors of the Oakdale Irrigation District have advertised for bids for concreting the canals at Two-Mile Bar and also widening them. The cost is estimated to run between \$8,000 and \$10,000. The directors intended to let this work out by private bid, but other contractors objected and they decided to call for bids. Plans for the work may be had from the Secretary of the district at Oakdale.

Contracts Awarded.

TERRA BELLA, TULARE CO., CAL.—Irrigation wells. Cost not stated. Engineer, Chief Engineer, Terra Bella Owners, Terra Bella Irrigation District. At the last meeting of the Directors of the Terra Bella Irrigation District contracts were awarded for drilling six deep wells to be put down on optioned lands west of the Southern Pacific tracks. The contract for five wells was awarded to M. P. Bramlett of San Joaquin, and contract for one well was given to the Western Wells Works Co. of San Jose. Mr. Bramlett employs standard rigs, while the Western Co. uses a rotary rig. The letting of one well to the Western Co. was largely for experimental purposes, whereby a comparison can be made between the results obtained with a standard rig and a rotary rig.

LIBRARIES

SAN FRANCISCO—Library, 1 story and base. Class C construction. Cost not stated. Architect, Ernest G. Coxhead, Hearst Bldg., S. F. Owners, City and County of San Francisco. Location, Green and Octavia. Will contain two reading rooms, work space, office and stack rooms. Plans nearly complete.

MADERA, MADERA CO., CAL.—Library, 1 story and base, brick, \$12,000. Architects, Coates & Travel, Rowell Bldg., Fresno. Owners, City of Madera. The contract for this structure was awarded to Ed Layne of Madera on his bid of \$12,383 on proposition No. 4, he being \$63 higher than Jas. L. Daley of Fresno. The Carnegie Corporation has rejected the plans because the county proposed to pay the cost of the heating apparatus. The heating plant must be included, according to the Carnegie Trustees. The architects state that this will necessitate the building

being reduced in size at least one-third. Plans being revised.

POWER PLANTS AND WATER SYSTEMS.

LOS ANGELES, CAL.—Water system extension, \$200,000. Engineer, William Mulholland, Knickerbocker Bldg., L. A. Owners, City of Los Angeles. Citizens of the annexed territory of Bairdstown voted a \$200,000 bond issue at the election held September 15th to construct mains and enlargements to the distributing system to carry aqueduct water.

SANTA MONICA, LOS ANGELES CO., CAL.—Water system extension, \$60,000. Engineer, City Engineer, Santa Monica. Owners, City of Santa Monica. The city will begin at once combining and reconstructing the four private water systems recently purchased. The first step will be the construction of a 12-inch main from the present Irwin Heights reservoir to the Ocean Park Co.'s reservoir, a distance of one mile; estimated cost, \$25,000. The second improvement will be installation of a concrete or steel 50,000 gallon stand-pipe, estimated cost, \$10,000. The completion of the metering of the entire system will be the third step, estimated to cost \$23,000.

SEATTLE, WASH.—Water system extensions, \$3,000,000. Engineer, City Engineer, Seattle. Owners, City of Seattle. Under the direction of the City Engineer's department surveys are being made for the construction of the first unit of the \$3,000,000 extension to the city water system, the largest part of which will be built next year. The first unit calls for the construction of an addition to the Volunteer Park reservoir to have a capacity of 50,000,000 gallons and cost \$190,000. It will cover a space of practically two blocks, or 312 by 180 feet, 15 feet deep, and be of reinforced concrete construction. Plans are expected by Superintendent of Water Youngs to be ready so that bids may be called for before December 1st.

Contracts Awarded.

LOS ANGELES, CAL.—Steel riveted pipe, \$94,228. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. The Baker Iron Works, 912 North Broadway, Los Angeles, was awarded the contract at \$94,228 for furnishing riveted steel pipe for the Western avenue main of the city water system.

SANTA CRUZ, SANTA CRUZ CO., CAL.—Water pipe, \$3,266.80. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. Contractors, Crane Co., 2nd and Brannan streets, S. F. Contract price, \$3,266.80.

POST OFFICES

Contracts Awarded

SANTA ROSA, SONOMA CO., CAL.—Post office repairs, \$2,493. Architect, Supervising Architect, Washington, D. C. Owners, United States Government Contractors, Barrett & Hilt, Sharon Bldg., S. F. Contract price, \$2,493.

RAILROAD CONSTRUCTION AND EQUIPMENT.

VISALIA, TULARE CO., CAL.—Railroad station, etc., 1 and 2 story, frame and concrete, \$30,000. Engineer, Chief

Engineer G. W. Harris, Kerchoff Bldg., L. A. Owners, Santa Fe Railroad Co. Work will consist of removing the present freight sheds and constructing a new passenger depot. Plans complete and figures to be called for shortly.

RESIDENCES

SAN FRANCISCO—Residence, 2 story and base, frame. Cost not stated. Architect, Charles Peter Weeks, Mutual Bank Bldg., S. F. Owner, Douglas Cushman. Location, Chestnut street. Will contain ten rooms, three baths and basement garage. Plans being prepared.

SAN FRANCISCO—Residences, 2, 1½ story and base, frame, \$3,500 each. Architect, none. Owner, F. Nelson, 2701 Lincoln Way, S. F. Location, east 29th north Irving. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 1 story and base, frame, \$2,000 each. Architect, none. Owner, Charles J. Koenig, 320 Church street, S. F. Location, east Lisbon north Russia. Each dwelling will contain six rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence alteration, 2 story and base, frame, \$5,000. Architect, W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owner, George Billins. Location, West Clay Park. Work will consist of interior and exterior alterations, plumbing, heating, interior finish, hardwood floors, electric work, painting and plastering. Plans complete and figures being taken.

SAN LEANDRO, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, \$6,000. Architects, Schirmer & Bugbee Co., Datzel Bldg., Oakland. Owner's name withheld. Location, Foothill Boulevard. Will contain eight rooms, two baths, sleeping porch and separate garage. Plans being prepared.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, E. D. Hanna. Location, south Elwood west Valla Vista. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, George H. Hollidge, 3526 Taft avenue, Oakland. Location, southeast Broadway and Taft avenue. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, Frederick Parsons, 1325 Russell street, Berkeley. Location, west Colby south Webster. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 4, 2 story and base, frame, \$1,500 each. Architect, Frederick Whitton, 251 Kearny street, S. F. Owners, Wickham Havens Co., 1368 Broadway, Oakland. Locations, Kenmore avenue, Boulevard Way and Boulevard Way and Kenmore. Each dwelling will contain eight rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$3,000. Architect, none. Owner, Alfred Vords. First Savings Bank Bldg., Oakland. Location, north Lakeshore avenue east Howard. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 2, 2 story and base, frame, \$3,500 each. Architect, none. Owner, George W. Nunes, 5450 Dover street, Oakland. Location, Roos and Chabot Road and west Roos north Chabot Road. Each dwelling will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, A. N. Hill, 2311 Curtis street, Berkeley. Location, 2311 Curtis street. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residences, 2, 1 story and base, frame, \$2,200 each. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner, A. Samuels. Location, West Berkeley. Each house will contain five rooms and bath. Plans being prepared.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, John Gelder, 1131 53rd street, Oakland. Location, west West street north 45th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

VALLEJO, SOLANO CO., CAL.—Residences, 5, 1 story and base, frame. Cost not stated. Architect, none. Owners, Vallejo Realty Co., Vallejo. Location, Vallejo Annex Tract. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and figures being taken.

PRINEVILLE, ORE.—Residence, 2 story and base, hollow tile. Cost not stated. Architects, Jacobberger & Smith, Board of Trade Bldg., Portland. Owner, George F. Kelley. Will cover an area of 85 by 85 feet and will contain ten rooms, three baths and sleeping porch. Plans complete and figures being taken.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$3,500 each. Architect, none. Owners, Nelson Bros., 492 7th avenue, S. F. Location, east 18th north Balboa. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, P. S. Walsh, 195 Rich street, Oakland. Location, south Rich east Telegraph. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, C. S. Nichols, 2768 Baker street, Berkeley. Location, north Ward street east Mabel. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, C. S. Nichols, 2768 Baker street, Berkeley. Location, north Ward east Mabel. Will contain five rooms, bath and sleeping

porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, George Ferguson, Elmhurst Hotel, Elmhurst. Location, north Hill side east 90th avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ALBANY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, A. H. Pallen, 696 61st street, Oakland. Location, west Santa Fe avenue south Solano. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Benjamin Fehrmann, 224 Brighton avenue, S. F. Location, north Cordova west Athens. Will contain six rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 1, 2 story and base, frame, \$2,000 each. Architects, E. P. Antonovich and H. E. Harris, Monadnock Bldg., S. F. Owners, Conservative Home Building Co., 1125 Fillmore street, S. F. Location, east Levant south States. Each dwelling will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 3, 2 story and base, frame, \$1,500 to \$5,000. Architect, none. Owners, Allen Bros., 125 Sutter street, S. F. Location, east 28th avenue north California. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,100. Architect, W. L. Broderick, 1201 Colusa avenue, Berkeley. Owner, D. E. Hurtig. Location, Edith near Jaynes. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, I. A. Kellogg, 3404 Champion street, Oakland. Location, west Rhoda avenue north Montana. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOLS

SAN FRANCISCO—Schools, 20 portable frame, \$15,460. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. F. Warden presented the low bid for this work and will probably be awarded the contract. A complete list of the bids will be found under the heading of San Francisco in this issue. The same contractor was also low for the general construction of the Parkside School, a one-story frame building, at \$1,420.

SACRAMENTO, CAL.—School, 1 and 2 story, reinforced concrete, \$200,000. Architects, Shea & Lofquist, Bankers Investment Bldg., S. F. Owners, City of Sacramento. Preliminary plans have been approved for the new school building to be erected on property bounded by 17th, 18th, E and F Sts. Will contain 20 class rooms, depart-

ment rooms, gymnasium, auditorium, and domestic building.

Further description of the work, by SA, COLUSA CO., CAL.—School, 1 story and base, brick, \$10,000. Architect, W. H. Weeks, 75 Post street, S. F. Owner, Contra Costa School District. Will contain twelve class rooms, auditorium and principal's office. Plans being prepared. Bids will be called for as soon as plans are added.

CONNING, TEHAMA CO., CAL.—School, 1 story, brick, \$10,000. Architect, Chester Cole, Wateland Bldg., Chico. Owners, Conning School District. Will contain two class rooms with provision for further extension. Revised plans complete and figures to be called for shortly.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—School, 2 story and base, brick and concrete, \$55,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, South San Francisco School District. Will contain twelve class rooms, auditorium and office. Plans complete and figures being taken. Bids open October 9th.

SAN JOSE, SANTA CLARA CO., CAL.—School heating, etc. Cost not stated. Architect, William Binder, Rea Bldg., San Jose. Owners, City of San Jose. The San Jose Board of Education will open bids on October 14th for installing a heating system and high pressure water system in the San Jose High School.

SAN JOSE, SANTA CLARA CO., CAL.—School addition, 2 story, frame, \$10,000. Architect, F. G. Aitken, Theatre Bldg., San Jose. Owners, City of San Jose. Bids will be opened on October 10th for the addition to the Washington School. Bids are to be taken on revised plans.

PITTSBURG, CONTRA COSTA CO., CAL.—School fire escapes. Cost not stated. Architect, none. Owners, Pittsburg School District. Bids will be opened on October 11th for a fire escape on the primary schools. Plans can be secured from the Secretary of the Board of Education.

Contracts Awarded

SAN FRANCISCO—School addition, 2 story, frame, \$23,436. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. Contractors, Monson Bros., 1994 Bryant street, S. F. Contract price, \$23,436.

ALBANY, ALAMEDA CO., CAL.—School, 1 story and base. Class C construction, \$34,816. Architect, J. J. Donovan, Perry Bldg., Oakland. Owners, Albany School District. Contractor, E. E. Elberton, Monadnock Bldg., S. F. Contract price, \$34,816.

ALBANY, ALAMEDA CO., CAL.—School, 1 story and base. Class C construction, \$26,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Albany School District. Contractor, G. P. Hollenbeck, Thomson Bldg., Oakland. General construction, \$17,700. J. C. Hurley Co., S. F., heating and venting, \$991. A complete list of these bids will be found under the heading of Oakland and Alameda County in this issue.

CONNING, CONTRA COSTA CO., CAL.—School, 1 story, frame, \$12,600. Architect, Neuman R. Coulter, E. Kearney street, S. F. Owners, Town of Danville. Contractors, Kellar & Crane, 311 Commercial avenue, S. F. Contract price, \$12,600.

SEWERS, STREET WORK & WATER SYSTEMS

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, South San Francisco. Owners, South San Francisco. Bids will be opened on October 9th for street improvement under the following resolution: That that portion of the alley between Grand avenue and Miller avenue and alley between Grand avenue and Baden avenue be improved by grading and constructing therein a concrete pavement.

OROVILLE, BUTTE CO., CAL.—Road improvement. Cost not stated. Engineer, County Surveyor, Oroville. Owners, Butte County. Bids will be opened on October 9th for certain road work on the Oroville and Palermo road.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on October 5th for street improvements authorized under the following resolutions: That Euclid avenue from a line parallel to and 15 feet south from the north line of Hearst avenue, north to the north line of the Wheeler Tract and Vine street from Euclid avenue to Le Roy avenue, be improved as follows. That the roadways be graded, concrete curbs, water inlets, vitrified pipe and cast iron concrete culverts with branches and manholes and concrete steps with end walls, be constructed, the roadway be paved with brick pavement laid on a 4-inch concrete base.

FOWLER, FRESNO CO., CAL.—Street paving, \$7,750. Engineer, City Engineer, Fowler. Owners, City of Fowler, Cornfield & Davis, Bakersfield, were the lowest bidders at \$7,750 for constructing concrete pavement on about 6,000 lineal feet of streets in town to connect ends of the State highway. Other bidders were: Thompson Bros., Fresno, \$8,681.59; Kottlewell & Son, Kingsburg, \$8,706.20; George Shannon, Fresno, \$8,816.

HERMOSA BEACH, LOS ANGELES CO., CAL.—Sewer system. Cost not stated. Engineer, City Engineer, Hermosa Beach. Owners, Hermosa Beach. Until 7:30 p. m. October 17th bids will be received by the City Clerk for the construction of a sewage disposal and sewage treatment plant involving 320 cubic yards concrete, 1,800 feet 8-inch cast iron pipe, 830 feet 12-inch vitrified sewer pipe, 1,250 feet 12-inch reinforced concrete pipe, 700 feet 5½x7-inch tunnel, 2 air compressors, two 100-gallon sewage ejectors, electric motors and electric controls, machinery and fittings, and Armoco metal building at sewage treatment plant. Engineer's estimate, including Vrooman Act proceedings, \$27,000. Further information may be secured from C. R. Sumner, City Engineer, at the City Hall.

HUENEME, VENTURA CO., CAL.—Street pavement. Cost not stated. Engineer, City Engineer, Hueme. Owners, Town of Hueme. Until 11 a. m. October 14th, bids will be received by the Board of Supervisors for constructing approximately 21,000 square feet of oil macadam pavement on Market street, according to plans and specifications on file in the office of said Board and in the office of the County Surveyor.

CHINO, SAN BERNARDINO CO., CAL.—Street improvement, \$73,000. Engineer, City Engineer, Chino. Owners, City of Chino. Until 8 p. m. October 10th bids will be received by the City Clerk for the improvement of certain portions of Riverside Drive, Chino avenue, 15th street, D street, 5th street and G street, according to plans and specifications on file in the office of the City Clerk and obtainable at the office of the City Engineer, Paul E. Kressley, at the City Hall, 7th and D streets. Plans, estimates of quantities, specifications and blank forms of proposal may be secured after September 27th by addressing the City Clerk. Bonds in the sum of \$73,000 have been voted and sold for the work. Certified check for 10%. E. L. P. Wetmore, City Clerk.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Highway construction. Cost as follows. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Because the lowest bidder on the work for the improvement of Mission Ridge road for a distance of 2½ miles overlooked a bit of multiplication in his figures, the awarding of the contract for this work has been delayed by the City Council. Paul & Caldwell sent in the lowest bid for the improvement, their total being \$53,337.53, while the next lowest bid was \$54,182.16, submitted by Bradshaw-Barnes Co. In their estimate the first named concern bid by the lineal feet on the sewer work while the advertisement for bids designated that a lump sum should be stated for the sewer. Other bids on the work were: E. A. Garland, \$55,270.72; F. R. Ritchie, \$57,322.53; Modern Construction Co., \$67,879.77. The bid of Paul & Caldwell was only \$13 above the estimated cost of the work submitted by City Engineer Cook.

SAN FRANCISCO—Street improvements. Cost not stated. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Bids will be opened on October 11th for the following street improvements. The improvement of Elim alley from Ecker street to a line at right angles to the southeast line of Elim alley and 94 feet distant from the point of intersection of the northeast line of Ecker street and the southeast line of Elim alley by the construction of granite curbs, artificial stone sidewalks of the full official width, and an asphalt pavement, consisting of a 6-inch concrete foundation, a 1½-inch asphaltic binder course and a 2-inch asphaltic wearing surface.

The improvement of 10th street between Harrison and Bryant streets by the construction of artificial stone sidewalks, where asphalt, basalt block or artificial stone sidewalks are not already constructed at least 6 feet wide.

The improvement of Balboa street between 29th and 30th avenues by the construction of concrete curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway.

The improvement of 46th avenue between Geary and Anza streets by the construction of concrete curbs, a 7-foot strip of vitrified brick pavement on a concrete foundation adjacent to the center line thereof, and an asphalt pavement, consisting of a 6-inch concrete foundation and 2-inch asphaltic wear-

ing surface on the remainder of the roadway.

The improvement of 19th avenue between California and Lake streets by the construction of artificial stone sidewalks 9 feet wide where artificial stone sidewalks at least 6 feet wide have not already been constructed.

The improvement of 16th avenue between Anza and Balboa streets by the construction of artificial stone sidewalks 6 feet wide.

The improvement of 10th avenue between Geary and Clement streets by the construction of artificial stone sidewalks.

The improvement of Noriega street between 19th and 20th avenue by grading, construction of concrete curbs, artificial stone sidewalks 6 feet in width in the middle of the sidewalk area, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway.

SAN FRANCISCO—Street improvements. Cost not stated. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Bids will be opened on October 11th for the following street improvements: The improvement of Moulton street between Webster and Fillmore streets by the construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with twenty Y branches and two brick manholes along the center line of Moulton street from Fillmore street to a point 84.5 feet west from Webster street, and by the construction of granite curbs, artificial stone sidewalks and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2½-inch asphaltic wearing surface upon the roadway.

The improvement of Anza street between 25th and 26th avenues by the construction of granite curbs, by resetting the existing granite curbs to official line and grade; construction of artificial stone sidewalks 6 feet wide and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface.

The improvement of Ortega street between 19th and 20th avenues by grading; construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 18 Y branches and 1 brick manhole; concrete curbs; construction of artificial stone sidewalks 6 feet in width in the middle of the sidewalk areas, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway.

OAKLAND, CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on October 11th at 12 noon for sewer construction authorized under the following resolution: That a sewer having an internal diameter of 8-inches be constructed along Whittier avenue from Fruitvale avenue to lot 6 of the Ellen Stotts Tract No. 1; that 3 brick manholes; a lamphole with top of brick and cast iron; Y branches, having 5-inch openings; the aforesaid proposed sewer, Y branches and lamphole (except the top thereof) shall be constructed of vitrified sewer pipe.

LOS ANGELES, CAL.—Highway construction, \$48,236.96. Engineer, County Surveyor, Los Angeles. Owners, Los

Angeles County. White & Gaskill, Long Beach, submitted the lowest bid for the Harbor Truck highway at \$46,236.98 and will probably be awarded the contract.

Contracts Awarded.

OAKLAND, CAL.—Paving, etc. Cost as follows. Engineer, City Engineer, Oakland. Owners, City of Oakland. The Western Construction Co. was the lowest bidder among five for the construction of the reinforced concrete paving for the fill in along San Lorenzo Creek on A street. Its bid was \$1,110.50. The other bidders were: M. E. Fernandez, \$4,256; P. Mathiesen, \$1,642; Thos. B. Russell, \$4,747; H. M. Dain, \$5,513. The Western Construction Co. also received the contract for oiling and screening a portion of the Redwood road. The contract price is \$1,229. A. H. Kopperud was the next nearest bidder, \$1,832.40. P. H. Hoare, \$2,317.50.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. The City Council has awarded a contract to the Oakland Paving Co., 5000 Broadway, Oakland, for the following work: That portions of Fulton street between Allston Way and Dwight Way be graded; construct concrete curbs and gutters and the roadway be paved with asphaltic wearing surface 2 inches thick laid on a concrete base 5 inches thick.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Road improvement, \$53,327.50. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Contractors, Paul & Caldwell, Stockton. Contract price, \$53,327.50.

SANTA PAULA, VENTURA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Santa Paula. Owners, City of Santa Paula. Contractors, Fairchild-Gilmore-Wilton Co., 667 South Main street, L. A. Contract price not stated.

LOS ANGELES, CAL.—Highway improvement, \$33,534.87. Engineer, County Surveyor, Los Angeles. Owners, Los

Angeles County. Contractors, S. C. Co. Title Insurance Bldg., L. A. Contract price, \$33,534.87.

STORES AND OFFICES

SAN FRANCISCO—Stores, 1 story and base, brick, \$10,000. Architect, Patch & Knoll, Hearst Bldg., S. F. Owners, Eisenbach Co. Location, 9th avenue and Cabrillo, covering an area of 25 by 100 feet. Will contain two stores and a market. Plans complete and figures being taken.

SAN FRANCISCO—Stores and offices, 6 story and base, Class A construction. Cost not stated. Architect, Kenneth McDonald, Jr., Holbrook Bldg., S. F. Owner, John A. Hooper. Location, south Pine between Montgomery and Sansome. Preliminary plans only prepared and further details to be given when plans are more complete.

SAN FRANCISCO—Store, 3 story and base. Class C construction, \$100,000. Architect, Smith O'Brien, Humboldt Bank Bldg., S. F. Owners, L. I. and B. C. Brown, leased to Newman Furniture Co. Location, south east 17th and Mission streets, covering an area of 110 by 162 1/2 feet. Plans complete and figures being taken.

Contracts Awarded.

SEATTLE, WASH.—Market, 1 story and base, brick and concrete, \$26,000. Architect, W. Marbury, Somerville, White Bldg., Seattle. Owners, John Egarth & Co. Contractors, Broeker, Kiehl & Whipple, Central Bldg., Seattle. Contract price, \$26,000.

THEATRES

SAN FRANCISCO—Theatre and stores, 1 story and base, Class A construction, \$76,000. Architect, Benj. G. McDougall, Sheldon Bldg., S. F. Owner, Mrs. Mary E. Seidl. Location, southwest 10th avenue and Clement street. Will contain a theatre seating 1250 people and two stores. Plans being prepared.

SEALED PROPOSALS

PROPOSALS FOR CRANE.

CRANE—Sealed proposals indorsed "Proposals for Locomotive Crane" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m., November 11, 1916, and then and there publicly opened, for a locomotive pile crane of 50 gross tons capacity at the naval station, Pearl Harbor, T. H. Plan and specification can be obtained on application to the bureau or to the commandant of the naval station named. F. R. HARRIS, chief of bureau.

PROPOSALS FOR HYDROELECTRIC MACHINERY.

HYDROELECTRIC MACHINERY AND EQUIPMENT—Department of the Interior, Washington, D. C.—Sealed proposals will be received in the office of the supervisor of Yosemite National Park until 2 p. m., Thursday, October 12, 1916, and then opened, for the furnishing or installation or both of hydroelectric equipment for the park, consisting of water wheels, generators, transformers and switchboard, in accordance with plans and specifications, copies of which can be obtained from the supervisor of the park or from the postoffice at Markwart, 732 First National

Bldg., San Francisco, Cal. Proposals will be received for subdivisions of work. The right is reserved to reject any and all bids, to waive defects and to accept one part of the contract or the interest of any one person, may require. Proposals should be securely enveloped, and "Proposals for Hydroelectric Machinery" and addressed to W. B. Brown, supervisor, Yosemite National Park, Yosemite City, Bo. SWENEY, Assistant Secretary.

PROPOSALS FOR CRANE.

CRANE—Sealed proposals indorsed "Proposals for Floating Crane" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m., November 14, 1916, and then and there publicly opened, for a 250-ton floating revolving crane for the navy yard, Mare Island, Cal. Specifications can be obtained on application to the bureau or to the commandant of the navy yard named. F. R. HARRIS, chief of bureau.

PROPOSALS FOR RECLAMATION WORK.

RECLAMATION WORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, St. Ignace, Mont., until 2 o'clock p. m., October 10, 1916, for the construction of canals and structures on the Flathead project Montana, involving about 165,000 cubic yards of excavation, 425 cubic yards of reinforced concrete, 1,100 square yards of paving, laying 1,100 linear feet of vitrified pipe, erecting 6,000 feet, b. m., of lumber, erecting 2,500 linear feet of steel flume and placing 26,000 pounds of structural and reinforcing steel. The work is located near St. Ignace and Dixon, Mont. For particulars address the United States Reclamation Service, Washington, D. C., Denver, Colo., or St. Ignace, Mont. A. P. DAVIS, chief engineer.

PROPOSALS FOR EXCAVATORS.

EXCAVATORS—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 o'clock p. m., October 2, 1916, for furnishing dragline excavators. For particulars address the United States Reclamation Service, Denver, Colo. A. P. DAVIS, chief engineer.

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, St. Ignace, Mont., until 2 o'clock p. m., October 10, 1916, for the construction of canals and structures on the Flathead project, Montana, involving about 165,000 cubic yards of excavation, 425 cubic yards of reinforced concrete, 1,100 square yards of paving, laying 1,100 linear feet of vitrified pipe, erecting 6,000 feet, b. m., of lumber, erecting 2,500 linear feet of steel flume and placing 26,000 pounds of structural and reinforcing steel. The work is located near St. Ignace and Dixon, Mont. For particulars address the United States Reclamation Service, Washington, D. C., Denver, Colo., or St. Ignace, Mont. A. P. DAVIS, chief engineer.

PROPOSALS FOR BUILDING.

BUILDING—Treasury Department, Washington, D. C.—Sealed proposals will be opened in this office at 3 p. m., October 23, 1916, for the extension, remodeling, etc., of the United States post office at Boise, Idaho. Plans and specifications may be obtained from the custodian at Boise, Idaho, or from this office, at the discretion of the supervising architect, JAMES C. KETTER, acting supervising architect.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 23, 1912.

of **BUILDING AND ENGINEERING NEWS** published weekly at San Francisco, California for October 1st, 1916.
State of California, City and County of San Francisco, ss.

Before me, Chalmers Munday, a Notary Public, in and for the State and county aforesaid, personally appeared L. A. Larsen, who, having been duly sworn according to law, deposes and says that he is the Publisher of the Building and Engineering News.

Publisher, L. A. Larsen, San Francisco, Cal.

Editor, L. A. Larsen, San Francisco, Cal.

Managing Editor, L. A. Larsen, San Francisco, Cal.

Business Manager, L. A. Larsen, San Francisco, Cal.

Owner, L. A. Larsen, San Francisco, Cal.

Known bondholders, mortgagees, and other security holders, owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities? None.

L. A. LARSEN, Owner,

Sworn to and subscribed before me this 28th day of September, 1916.

CHALMER MUNDAY,

Notary Public in and for the City and County of San Francisco, State of California.

(My commission expires Oct. 18, 1917.)

WHITE PAINT FAVORED FOR BRIDGES.

It is urged by eastern state highway commissions that the country and township boards adopt white as the color for their bridges.

The main advantages are that the bridges show up better at night, and repainting is not so likely to be neglected, as there is a great contrast between the paint color and rust, while with a red or dark paint there is nothing to call attention to the fact that the bridge needs repainting.

It is necessary that the white paint be specified on the plans so that the shop coat can be of a light color, otherwise the white field coat will be darkened too much.

STEEL-FRAME CAR CONSTRUCTION.

NEW BRUNSWICK, Canada—The Canadian Government Railway shops in Moncton recently completed four steel-frame baggage cars, being the first equipment of this character to be built at these works. The cars have solid steel trucks so designed that the wheels can be changed quickly with a minimum amount of labor. The draft gear is constructed to absorb shock in starting and stopping, and is of sufficient strength to withstand the heaviest type of engine. Westinghouse brakes of the latest pattern are used.

Another feature is the side doors, which are brought closer together than in ordinary cars to permit of through baggage or express matter being loaded in the end of the car, the floors are fitted with hardwood strips, instead of "fish-racks," as being more readily kept clean, especially when the car is used for carrying shipments of fish.

Clean Traveling.

Electric travel does away with the grime, soot and other disagreeable inconveniences that go with usual railroad travel.

You are brought to your destination feeling just as fresh as when you started.

Use the electric line between San Francisco and Oakland and Sacramento, Woodland, Oroville, Colusa and Chico.

RAIN DAMPENS FOREST FIRES.

Owing to the recent wide-spread showers, the worst of the forest fire season in the National Forests of northern and central California is now over, according to Assistant District Forester Roy Headley. The precipitation reported to have totaled almost an inch in the central California Forests, occurring at this season when the nights are rapidly becoming colder and longer, means that the peak of the fire season is past and that the Forest Service can now commence to reduce its summer protective force without risk in many localities. Already in the back country, where high altitude with its scarcity of brush and lightness of travel, means low fire hazard even in the middle of the summer, a few lookout houses have been closed and hoarded up for the winter, and the lookout men and patrolmen are returning to their winter employment in the valleys. This is not the situation, however, in the southern California Forests where the high point in the fire season is not reached until the time of strong east winds,—usually between October 1 and December 1.

In the central and northern Forests, the closing of the fire season, always dependent on the weather, is usually about October 10, but for the past two years continued dry, hot weather in October has carried the season on to about November 1. It is almost axiomatic with the Forest officers that a half inch of rain after October 1 means the close of the fire season.

\$320,000 FOR BRIDGES.

YUBA CITY, Cal.—Five separate bonding propositions aggregating \$320,000 will be placed before the voters of Sutter county at the November election. In this way the board of super-

HIG CANAL PROJECT.

REDDING, Cal.—Twenty-six miles of the main canal of the Anderson-Cottonwood irrigation system stand completed and eight miles remain to be excavated, according to James Willison, contractor for the entire canal. The cost of the laterals, main canal and the tunnel at the intake aggregate almost \$200,000.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

APARTMENT HOUSE—4 story and base, Class C construction, \$25,000. San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner, William Smith. Location, Jones between Sutter and Bush streets, covering an area of 25 by 120 feet. Will contain eight apartments of four rooms and bath. Plans complete and figures being taken.

RESIDENCE—2 story and base, frame. Cost not stated. San Francisco. Architect, Charles Peter Weeks, Mutual Bank Bldg., S. F. Owner, Douglass Cushman. Location, Chestnut street. Will contain ten rooms, three baths and basement garage. Plans being prepared.

RESIDENCES—2, 1½ story and base, frame, \$3,500 each. San Francisco. Architect, none. Owner, P. Nelson, 2701 Lincoln Way, S. F. Location, east 29th north Irving. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 1 story and base, frame, \$2,000 each. San Francisco. Architect, none. Owner, Charles J. Koenig, 529 Church street, S. F. Location, east Lisbon north Russia. Each dwelling will contain six rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE ALTERATION—2 story and base, frame, \$8,000. San Francisco. Architect, W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owner, George Billings. Location, West Clay Park. Work will consist of interior and exterior alterations, plumbing, heating, interior finish, hardwood floors, electric work, painting and plastering. Plans complete and figures being taken.

STREET IMPROVEMENTS—Cost not stated. San Francisco. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Bids will be opened on October 11th for the following street improvements: The improvement of Elm avenue from Ecker street to a line at right angles to the southeast line of Elm alley and 91 feet distant from the point of intersection of the northeast line of Ecker street and the southeast line of Elm alley, by the construction of granite curbs, artificial stone sidewalks of the full official width, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 1½-inch asphaltic binder course and a 2-inch asphaltic wearing surface.

The improvement of 16th street between Harrison and Bryant streets by the construction of artificial stone sidewalks, where asphalt, basalt block or artificial stone sidewalks are not already constructed at least six feet wide.

The improvement of Balboa street between 29th and 30th avenues by the construction of concrete curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway.

The improvement of 16th avenue between Geary and Anza streets by the construction of concrete curbs, a 7-foot strip of vitrified brick pavement on a concrete foundation adjacent to the center line thereof, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway.

The improvement of 19th avenue between California and Lake streets by the construction of artificial stone sidewalks 9 feet wide where artificial stone sidewalks at least 6 feet wide have not already been constructed.

The improvement of 16th avenue between Anza and Balboa streets by the construction of artificial stone sidewalks 6 feet wide.

The improvement of 10th avenue between Geary and Clement streets by the construction of artificial stone sidewalks.

The improvement of Noriega street between 19th and 20th avenues by grading, construction of concrete curbs, artificial stone sidewalks 6 feet in width in the middle of the sidewalk area, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway.

STREET IMPROVEMENTS—Cost not stated. San Francisco. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Bids will be opened on October 11th for the following street improvements: The improvement of Moulton street between Webster and Fillmore streets by the construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 20 Y branches and 2 brick manholes along the center line of Moulton street from Fillmore street to a point 81½ feet west from Webster street, and by the construction of granite curbs, artificial stone sidewalks and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2½-inch asphaltic wearing surface upon the roadway.

The improvement of Anza street between 25th and 26th avenues by the construction of granite curbs, by resetting the existing granite curbs to official line and grade; construction of artificial stone sidewalks 6 feet wide and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface.

The improvement of Ortega street between 19th and 20th avenues by grading; construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 18 Y branches and one brick manhole; concrete curbs; construction of artificial stone sidewalks 6 feet in width in the middle of the sidewalk areas, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway.

APARTMENT HOUSE—4 story and base, Class C construction, \$25,000. San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner, J. B.

S. Kender. Location, West Leavenworth north Post, covering an area of 7½ by 87½ feet. Will contain 32 rooms arranged in suites of four rooms and bath. Preliminary plans prepared.

APARTMENT HOUSE—3 story and base, frame, \$17,000. San Francisco. Architect, O. R. Thayer, 210 Montgomery street, S. F. Owner's name withheld. Location, northeast 5th avenue and California. Will contain nine apartments. Plans complete, bids in and under advisement.

RESIDENCES—2, 2 story and base, frame, \$3,500 each. San Francisco. Architect, none. Owners, Nelson Bros., 193 7th avenue, S. F. Location, east 18th north Balboa. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SCHOOLS—20 portable, frame, \$15,150. San Francisco. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. P. Warden presented the low bid for this work and will probably be awarded the contract. A complete list of the bids will be found under the heading of San Francisco in this issue. The same contractor was also low for the general construction of the Parkside School, a one-story frame building, at \$4,420.

STORES—1 story and base, brick, \$10,000. San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owners, Eisenbach Co. Location, 9th avenue and Cabrillo, covering an area of 25 by 100 feet. Will contain two stores and a market. Plans complete and figures being taken.

STORES AND OFFICES—6 story and base, Class A construction. Cost not stated. San Francisco. Architect, Kenneth MacDonald, Jr., Holbrook Bldg., S. F. Owner, John A. Hooper. Location, south Pine between Montgomery and Sansome. Preliminary plans only prepared and further details to be given when plans are more complete.

STORE—3 story and base, Class C construction, \$100,000. San Francisco. Architect, Smith O'Brien, Humboldt Bank Bldg., S. F. Owners, I. I. and B. C. Brown, leased to Newman Furniture Co. Location, southeast 17th and Mission streets, covering an area of 110 by 162½ feet. Plans complete and figures being taken.

THEATRE AND STORES—1 story and base, Class A construction, \$70,000. San Francisco. Architect, Bond & McDougall, Sheldon Bldg., S. F. Owner, Mrs. Mary E. Seidl. Location, southwest 10th avenue and Clement street. Will contain a theatre seating 1,000 people and two stores. Plans being prepared.

APARTMENT HOUSE—3 story and base, Class C construction, \$20,000. San Francisco. Architect, A. W. Burdick, 20 Woodland avenue, S. F. Owner's name withheld. Location, Powell south Jackson, covering an area of 45 by 60 feet. Will contain 20 suites of two rooms each. Plans complete and figures being taken.

SEA WALL CONTRACTS—Cost as follows: San Francisco Engineer, Assistant State Engineer, City Bldg., S. F. Owners, State of California. Three bids were received for the Thursday meeting of the Board of Harbor Commissioners for erecting the sea wall between Jones and Hyde Sts. Approximately 15,000 ft. of rock is required. Following is a complete list: Blake Bros., \$147 per ton, or \$66,150; Healy-Tibbitts Construction Co., \$137 per ton, \$88,500; Daniel O'Connell Co., \$131 per ton, \$67,900. An award of contract will be made at the next meeting of the Commission.

RESIDENCE—1½ story and base, frame, \$2,000. San Francisco Architect, none. Owners, Fehnmann, 221 Brighton Avenue, S. F. Location, north Calhoun Ave., Athens. Will contain six rooms and bath. Plans complete and work to be done by Day Labor.

LIBRARY—1 story and base. Class of construction. Cost not stated. San Francisco Architect, Eric C. Coxhead, Harris Bldg., S. F. Owners, City and County of San Francisco. Location, Green and Octavia. Will contain two reading rooms, work space, office and stack rooms. Plans nearly complete.

RESIDENCES—4, 2 story and base, frame, \$2,000 each. San Francisco Architects, E. P. Antonovich and H. E. Harris, Monadnock Bldg., S. F. Owners, Conservative Home Building Co., 1125 Fillmore Street, S. F. Location, east Levant south States. Each dwelling will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—3, 2 story and base, frame, \$4,500 to \$5,000. San Francisco Architect, none. Owners, Allen Bros., 125 Sutter Street, S. F. Location, east 28th Avenue north California. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

Contracts Awarded.

SCHOOL ADDITION—2 story, frame \$23,426. San Francisco Architect, City Department of Architecture, City Hall S. F. Owners, City and County of San Francisco. Contractors, Monson Bros., 1905 Bryant Street, S. F. Contract price, \$23,426.

City Bids Opened.

Board of Works Opens Bids for Three School Jobs and For Lighting Fixtures at Monday Meeting.

Bids were opened at the Monday meeting of the San Francisco Board of Public Works for the construction of twenty portable one-room 1100 school buildings; for the general construction of the two-story frame addition to be made to the Mission High School, and for the general construction of the new one-story frame Parkside School. Bids were also received for furnishing lighting fixtures for the Juvenile Detention Home.

All bids received a week ago for furnishing cedar poles for the Hetch-Hetchy project were rejected and new bids ordered advertised. Following is a complete list of the bids received:

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not FOUR WHEEL DRIVE.

On the F-W-D Truck every wheel is a **Driving Wheel**. The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps ON the road and OUT of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

“Every Owner a Booster”

Four Wheel Drive Truck Co.

Telephone Market 334

343 Golden Gate Ave.

San Francisco

BIDS RECEIVED FOR OAKLAND STORE JOBS.

Architect Charles W. McCall to Shortly Award Contract for Work at Second and Franklin Streets.

The following bids were opened in the office of Architect Charles W. McCall, Central Bank Bldg., Oakland, for constructing two one-story brick store buildings and for extensive alterations to a three-story brick building adjoining.

Fred W. Diehl is the owner and the property effected is located at the corner of Second and Franklin streets, Oakland. A contract has not been awarded, but will probably be given to the low man.

STREET PAVING—\$7,750. Fowler, Fresno Co., Cal. Engineer, City Engineer, Fowler, Owners, City of Fowler. Cornfield & Davis, Bakersfield, were the lowest bidders at \$7,750 for constructing concrete pavement on about 6,000 lineal feet of streets in town to connect ends of the State highway. Other bidders were: Thompson Bros., Fresno, \$8,681.59; Kettlewell & Son, Kingsburg, \$8,706.20; George Shannon, Fresno, \$8,846.

STREET IMPROVEMENTS—Cost not stated. Lindsay, Tulare Co., Cal. Engineer, City Engineer, Lindsay, Owners, City of Lindsay. Worswick Paving Co., Los Banos, was awarded the contract for grading and constructing eight blocks of concrete pavements with asphaltic concrete surface, cement curbs, crushed rock and asphalt shoulders, corrugated iron pipe culverts, etc., in Sweet Briar avenue, Lewis street, Mt. Vernon avenue and other streets.

IRRIGATION CANALS—\$10,000. Oakdale, Stanislaus Co., Cal. Engineer, Chief Engineer, Oakdale Irrigation District, Oakdale. Owners, Oakdale Irrigation District. The Board of Directors of the Oakdale Irrigation District have advertised for bids for concreting the canals at Two-Mile Bar and

also widening them. The cost is estimated to run between \$8,000 and \$10,000. The directors intended to let this work out by private bid, but other contractors objected and they decided to call for bids. Plans for the work may be had from the Secretary of the district at Oakdale.

CHURCH—1 story and base, frame, \$10,000. Fowler, Fresno Co., Cal. Architect, Henry F. Starbuck, Rowell Bldg., Fresno. Owners, Baptist Church, A. B. Murphy, pastor. Location, Merced and 3rd streets. Will contain main auditorium, Sunday school rooms and pastor's study. Plans being prepared. RAILROAD STATION, ETC.—1 and 2 story, frame and concrete, \$30,000. Visalia, Tulare Co., Cal. Engineer, Chief Engineer, G. W. Harris, Kerchoff Bldg., L. A. Owners, Santa Fe Railroad Co. Work will consist of removing the present freight sheds and constructing a new passenger depot. Plans complete and figures to be called for shortly.

LIBRARY—1 story and base, brick, \$12,000. Madera, Madera Co., Cal. Architect, Cogges & Travel, Rowell Bldg., Fresno. Owners, City of Madera. The contract for this structure was awarded to Ed Layne of Madera on his bid of \$12,385 on proposition 4, he being \$63 higher than L. Daley of Fresno. The Carnegie Corporation has rejected the plans because the county proposed to pay the cost of the heating apparatus. The heating plant must be included according to the Carnegie Trustees. The architects state that this will necessitate the building being reduced in size at least one-third. Plans being revised.

Contracts Awarded.

IRRIGATION WELLS—Cost not stated. Terra Bella, Tulare Co., Cal. Engineer, Chief Engineer, Terra Bella Owners, Terra Bella Irrigation District. At the last meeting of the Directors of the Terra Bella Irrigation District contracts were awarded for drilling six deep wells, to be put down on optioned land west of the Southern Pacific tracks. The contract for five wells was awarded to M. P. Bramlet of San Joaquin, and contract for one well was given to the Western Wells Works Co. of San Jose. Mr. Bramlet employs standard rigs, while the Western Co. uses a rotary rig. The letting of one well to the Western Co. was largely for experimental purposes, whereby a comparison can be made between the results obtained with a standard rig and a rotary rig.

CHURCH—1 story and base, brick and concrete, \$24,500. Merced, Merced Co., Cal. Architect, W. J. Wythe, Central Bank Bldg., Oakland, associated with Cowell and Bedson, Merced Owners, Central Presbyterian Church. Contractor, Finch Wilson, Merced. Contract price, \$24,500.

Contractor...J. R. Church, 1221 U St., Fresno.

COST, \$1600

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

ROAD IMPROVEMENT—Cost not stated. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Bids will be opened on October 9th for certain road work on the Oroville and Palermo road.

LEEVE Construction—Cost as follows. Colusa, Colusa Co., Cal. Engineer, City Engineer, Colusa. Owners, City of Colusa. The City Trustees at their meeting received bids for raising the waterfront levee. The Trustees considering the bids too high and believing that the work could be done more economically by Day Labor, all bids were rejected. The Antioch Dredging Co. bid \$145 for a day of 22 hours, and Mooney & Briggs bid 30c per cubic yard.

BRIDGE—Reinforced concrete. Cost not stated. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Bids will be received on October 16th at 2 p. m. for constructing a bridge over Lindo Channel in Road District No. 2.

BRIDGES—Reinforced concrete. Cost not stated. Sacramento, Cal. Engineer, County Surveyor, Sacramento. Owners, Sacramento County. The Supervisors adopted the plans and specifications for two reinforced concrete bridges Monday afternoon and bids for the construction of the same will be received October 9th. One of the bridges is to be located on the old Marysville road in North Sacramento and the other on Marconi avenue near the Del Paso Country Club. Plans and further information may be had from the County Clerk.

SCHOOL—1 and 2 story, reinforced concrete, \$200,000. Sacramento, Cal. Architects, Shea & Lotquist, Bankers Investment Bldg., S. F. Owners, City of Sacramento. Preliminary plans have been approved for the new school building to be erected on property bounded by 17th, 18th, E and F Sts. Will contain 20 class rooms, departments for domestic science and manual training. Further mention will be made of the work.

SCHOOL—1 story, brick, \$10,000
Corning, Tehama Co., Cal. Architect
Chester Cole, Waterlud Bldg., Chico.
Owners, Corning School District. Will
contain two class rooms with provision
for further extension. Revised plans
complete and figures to be called for
shortly.

SCHOOL—2 story and base, brick
and concrete, \$65,000. Colusa, Colusa
Co., Cal. Architect, W. H. Weeks, 75
Post street, S. F. Owners, City of Colusa.
Will contain twelve class rooms,
auditorium and principal's office. Plans
being prepared. Bids will be called for
as soon as bonds can be sold.

Contracts Awarded

LOS ANGELES AND SOUTHERN CALIFORNIA

SEWER SYSTEM—Cost not stated. Hermosa Beach, Los Angeles Co., Cal. Engineer, City Engineer, Hermosa Beach. Owners, Hermosa Beach. Until 7:30 p. m. October 15th bids will be received by the City Clerk for the construction of a sewage disposal and sewage treatment plant involving 320 cubic yards concrete, 1,800 feet 8-inch iron pipe, 820 feet 12-inch vitrified sewer pipe, 1,380 feet 12-inch reinforced concrete pipe, 700 feet 52x75-inch tunnel, 2 air compressors, two 100-gallon sewage ejectors, electric motors and electric controls, machinery and fittings, and Armo metal building at sewage treatment plant. Engineer's estimate, \$27,000. Further information may be secured from C. R. Sumner, City Engineer, at the City Hall.

STREET PAVEMENT—Cost not stated. Hueneme, Ventura Co., Cal. Engineer, City Engineer, Hueneme. Owners Town of Hueneme. Until 11 a. m. October 14th bids will be received by the Board of Supervisors for constructing approximately 24,000 square feet of oil macadam pavement on Market street, according to plans and specifications on file in the office of said Board and in the office of the County Surveyor.

STREET IMPROVEMENT — \$73,000. Chino, San Bernardino Co., Cal. Engineer, City Engineer, Chino. Owners, City of Chino. Until 8 p. m. October 16th bids will be received by the City Clerk for the improvement of certain portions of Riverside Drive, Chino avenue, 15th street, D street, 5th street and G street according to plans and specifications on file in the office of the City Clerk and obtainable at the office of the City Engineer, Paul E. Kressley, at the City Hall, 7th and D streets. Plans, estimates of quantities, specifications and blank proposal forms may be secured after September 27th by addressing the City Clerk. Bonds in the sum of \$73,000 have been voted and sold for the work. Certified check for 10% E. L. P. Wetmore, City Clerk.

HIGHWAY CONSTRUCTION — Cost as follows. Santa Barbara, Santa Barbara Co., Cal. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Because the lowest bidder on the work for the improvement of Mission Ridge road for a distance of 2½ miles overlooked a bit of multiplication in his figures, the awarding of the contract for this work has been delayed by the City Council. Paul & Caldwell sent in the lowest bid for the improvement, their total being \$53,337.53, while the next lowest bid was \$51,183.16, submitted by Bradshaw-Barnes Co. In their estimate the first named concern bid by the lineal feet on the sewer work while the advertisement for bids designated that a lump sum should be stated for the sewer. Other bids on the work were: E. A. Garland, \$55,270.72; F. R. Ritchie, \$57,323.53; Modern Construction Co., \$67,

\$79.77. The bid of Paul & Caldwell was only \$13 above the estimated cost of the work submitted by City Engineer Cook.

BRIDGE—Reinforced concrete. Cost not stated. Ventura, Ventura Co., Cal. Engineer, County Surveyor, Ventura. Owners, Ventura County. Until 11 a. m. October 15th bids will be received by the Board of Supervisors for constructing a concrete pile bridge, 120 feet long, with necessary earth fill, culverts, guard fence, etc., on Olaj avenue across San Antonio Creek, according to plans and specifications on file in the office of said Board, and which may be obtained at the office of the County Surveyor upon depositing \$3. J. B. McCloskey, County Clerk.

WATER SYSTEM EXTENSION

\$200,000. Los Angeles, Cal. Engineer, William Mulholland, Knickerbocker Bldg., L. A. Owners, City of Los Angeles. Citizens of the annexed territory of Bairdstown voted a \$200,000 bond issue at the election held September 15th to construct mains and enlargements to the distributing system to carry aqueduct water.

WATER SYSTEM EXTENSION — \$60,000. Santa Monica, Los Angeles Co., Cal. Engineer, City Engineer, Santa Monica. Owners, City of Santa Monica. The city will begin at once combining and reconstructing the four private water systems recently purchased. The first step will be the construction of a 12-inch main from the present Irwin Heights reservoir to the Ocean Park Water Co.'s reservoir, a distance of one mile; estimated cost, \$25,000. The second improvement will be installation of a concrete or steel 50,000 gallon standpipe; estimated cost \$10,000. The completion of the metering of the entire system will be the third step; estimated to cost \$23,000.

STEEL RIVETED PIPE — \$94,228. Los Angeles, Cal. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. The Baker Iron Works, 912 North Broadway, L. A., was awarded the contract at \$94,228 for furnishing riveted steel pipe for the Western avenue main of the city water system.

APARTMENT HOUSE—2 story and base. Class C construction. Cost not stated. Los Angeles, Cal. Architect, H. M. Patterson, O. T. Johnson Bldg., L. A. Owner, J. G. Warren. Location, northeast Hollywood Boulevard and Vermont street, covering an area of 150 by 29 feet. Will contain five stores and nine apartments. Plans being prepared.

HOTEL AND STORES—6 story and base. Class A construction. Cost not stated. Los Angeles, Cal. Architect, S. Tilden Norton, Title Insurance Bldg., L. A. Owners, M. N. and L. H. Norton. Location, southeast Main and 5th Sts., covering an area of 75 by 135 feet. Will contain 120 rooms. Plans being prepared.

Contracts Awarded.

ROAD IMPROVEMENT — \$53,337.50. Santa Barbara, Santa Barbara Co., Cal. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Contractors, Paul & Caldwell, Stockton. Contract price, \$53,337.50.

STREET IMPROVEMENTS—Cost not stated. Santa Paula, Ventura Co., Cal. Engineer, City Engineer, Santa Paula. Owners, City of Santa Paula. Contractors, Fairchild-Gillmore-Wilton Co., 607 South Main street, L. A. Contract price not stated.

HIGHWAY IMPROVEMENT — \$33,337.50. Los Angeles, Cal. Engineer, County Surveyor, Los Angeles. Owners, Los Angeles County. Contractors, S. C. Co., Title Insurance Bldg., L. A. Contract price, \$33,337.50.

HIGHWAY CONSTRUCTION—\$48,236.26. Los Angeles, Cal. Engineer, County Surveyor, Los Angeles. Owners, Los Angeles County. White & Gyskill, Long Beach, submitted the lowest bid for the Harbor Truss highway at \$46,236.96 and will probably be awarded the contract.

PORTLAND AND OREGON

RESIDENCE — 2 story and base, hollow tile. Cost not stated. Prineville, Ore. Architects, Jacobberger & Smith, Board of Trade Bldg., Portland. Owner, George P. Kelly. Will cover an area of 85 by 55 feet and will contain ten rooms, three baths and sleeping porch. Plans complete and figures being taken.

SEATTLE AND WASHINGTON

CANAL DREDGING—\$160,000. Seattle, Wash. Engineer, United States Engineers, Seattle. Owners, United States Government. Bids have been called for by the U. S. Engineer's Office, Lieut. Col. J. B. Cavanaugh, Burke Bldg., Seattle, chief, for the last large dredging contract in connection with the completion of the Lake Washington Canal. Bids will be opened at noon October 23rd for dredging over 600,000 cubic yards of material from the canal between the Government locks at the Narrows and Puget Sound, a distance of 1½ miles or more.

WATER SYSTEM EXTENSION—\$3,000,000. Seattle, Wash. Engineer, City Engineer, Seattle. Owners, City of Seattle. Under the direction of the City Engineers department surveys are being made for the construction of the first unit of the \$3,000,000 extension to the city water system, the largest part of which will be built next year. The first unit calls for the construction of an addition to the Volunteer Park reservoir to have a capacity of 50,000,000 gallons and cost \$190,000. It will cover a space of practically two blocks, or 312 by 180 feet, 15 feet deep and of reinforced concrete construction. Plans are expected by Superintendent of Water Works to be ready so that bids may be called for before December 1st.

HOTEL—4 story and base, reinforced concrete, \$75,000. Bremerton, Wash. Architects, A. L. Haley and G. L. Haley, People's Bank Bldg., Seattle. Owner, Jack Smith. Location, Front and Washington streets. Will contain 81 rooms, lobby, office and a number of public and private baths. Entire structure leased to Charles Perry and Bert Gray. Preliminary plans prepared.

Contracts Awarded.

TRANSIT SHED—2 story, frame, \$32,000. Seattle, Wash. Engineer, Port of Seattle Commission, Seattle. Owners, City of Seattle. Contractors, Harrington-Peters Co., Orient Bldg., Seattle. Contract price, \$32,000.

MARKET—1 story and base, brick and concrete, \$36,000. Seattle, Wash. Architect, W. Marbury Somerville, White Bldg., Seattle. Owners, John Egardh & Co. Contractors, Brocker, Kiehl & Whipple, Central Bldg., Seattle. Contract price, \$36,000.

NEW ZEALAND WANTS NEW IDEAS IN WORKMEN'S HOUSES.

The increasing cost of building materials and labor in New Zealand has led the Workers' Dwellings Board to seek either substitutes for the materials now used or new methods of construction that effect substantial economies, and to this end the deputy superintendent addressed the following letter to Alfred A. Winslow, the Auckland consulate general:

In consequence of the increased cost of building materials and labor, the Workers' Dwellings Board is desirous of obtaining information concerning new materials and methods with a view to counteracting to some degree the present upward tendency in the cost of erection. Inclosed is a booklet giving particulars of the act which is administered by the Workers' Dwellings Board. From these particulars you will be able to judge as to what information will be useful to us in the erection of these dwellings, either in respect of materials or methods. In view of the present policy of the board has been to give each applicant the privilege of selecting his own design from a number of standard designs already drawn up by the architect, but as the cost of erection is now so high the board is considering the question of erecting a number of dwellings on the same design. I believe that Edison has brought out a new system by which molds are used whereby the house can be built at a much smaller cost than by the method now in use, but we are not able to find out if this method has been adopted to any extent with success. We should be pleased if you could give us any information about this system, or any other system of standardized building that would reduce the cost.

I would be glad if this matter could be called to the attention of persons in the United States in position to give the desired information, for I believe it might lead to some business, and it will be doing the people of this country a kindness at least. The information can be addressed to the Auckland consulate general to be forwarded or direct to the Department of Labor, Wellington, as may seem best.

TYPICAL DESIGNS OF WORKERS' DWELLINGS.

In connection with the foregoing letter and request the following extracts from an article on the New Zealand workers' dwellings act of 1910 that appeared in Daily Consular and Trade Reports for September 21, 1911, should be of interest.

The new houses, whether of wood, concrete, or brick, are intended to be substantial, comfortable, and inexpensive, but not without ornamentation of a quiet character. The following is a description of five types of houses as planned by the Government architect:

1. A dwelling of four rooms with conveniences, a scullery 7 by 12 feet being counted as two rooms. There are two front rooms about 12 feet square, a living room 16 feet 4 inches by 15 feet 4 inches, which contains the range fitted with hot-water apparatus, a bedroom 18 feet by 9 feet 6 inches, and a reasonable large bathroom. The front door leads to a hall 4 feet wide, and at the back is a lobby containing a coal bunker under shelter. The wash-house, with hopper, has two fixed tubs. Price, \$1,350 to \$1,825.

2. Five rooms, planned similarly to the first type, but with an additional bedroom at the back 8 by 9 feet, and slightly more generous proportions. The front elevation is made attractive with a gabled porch and ornamental glass door. There is a corner fireplace in the front rooms. Price, \$1,150 to \$1,900.

3. Four rooms: this is distinctive in having a veranda along the whole front, and it will probably be popular because it is of the familiar "square" type of architecture beloved of the colonies. Three bedrooms (one with a

fireplace and suitable for a sitting room) are 12 feet square, while the dining room is 12 feet by 11 feet 4 inches. Price, \$1,350 to \$1,700.

FREIGHT REDUCTIONS AT HONG KONG.

HONGKONG, British China, Aug. 5.

There has been a sharp decline in trans-Pacific freight rates within the past few days, and at the present writing rates comparable with those obtainable previous to the war have been quoted. General business slackness in the Far East, due to some extent to the high value of silver exchange, which prevents the sale of Chinese products abroad to advantage, has resulted in a marked decrease in the movement of produce.

As usual under such circumstances, the subsidized Japanese lines have cut rates. Several large tramp steamers have come into the market for cargoes, and additional tonnage has been offered from other sources. The result has been a general collapse in rates eastward, which is likely to obtain until some of the tonnage now in service on the Pacific is transferred to other routes and until a change in the silver situation permits a renewal of active exports to the United States and Canada. Rates from Hongkong and China ports to the United States and Canadian overland common points at the present time are open and competitive.

The China coast freight situation is completely demoralized. Rates on rice from Saigon to Hongkong, usually counted as the basic rate for coastal freights, have fallen from \$1.20 local currency to \$0.29 local currency per picul or 123½ pounds. Chartering is slow in consequence, and it is likely that it will be some time before there will be a readjustment more in accordance with freight conditions in other parts of the world.

WORK ON HIGHWAYS IN COLOMBIA.

The Colombian Government has decreed that work on the new northern highway from Bogota to Cucuta is to be under the direction of the Minister of Public Works, with the co-operation of the Departmental Governments of Cundinamarca, Boyaca, and Santander. A commission of engineers appointed by the National Government will complete surveys for the highway, and will give instructions to the local engineers in charge of the work in each department. On completion of the principal road from Bogota to Cucuta, a branch road will be built to Bucaramanga, according to the decree in the Diario Oficial. Another decree provides that prisoners in the State penitentiaries shall work on the construction of a highway from Alban to the river Magdalena. The scarcity of railways in Colombia makes these highways of great value in transportation.

NATIONAL HIGHWAY IN VENEZUELA

Consul Homer Brett at La Guaira reports that the Government of Venezuela has determined to undertake the construction of a highway from Caracas to San Cristobal in the extreme western part of the Republic. This road will be the largest public work

undertaken by the Government of Venezuela; it will be 682 miles in length and will run from Caracas to San Carlos, Guanare, Barinas, and San Antonio de Caparo. The work is probably to be done by the Ministerio de Obras Publicas, Caracas, without the aid of contractors.

WATER SUPPLY FOR PUERTO BARRIOS.

The Government of Guatemala has authorized the Guatemala Railway Co. to supply drinking water to the city of Puerto Barrios. The water will be taken from the River Las Escobas, in the jurisdiction of the port Estrada Cabrera and pipe lines will be extended under water through the bay. The contract between the railway company and the Government, which is published in El Guatemalteco of August 3, specifies that the work must be completed within six months.

FOREST NOTES.

One tone of coniferous wood waste will produce from 15 to 25 gallons of 190-proof alcohol.

The bark of black oak, or "yellow oak," as it is often called on account of the color of the inner bark, is now used for dye-making.

The stand of timber on the two great National Forests in Alaska is estimated by the Forest Service as over 70 billion board feet, while the annual growth will, it is said, produce of pulpwood alone enough for the manufacture of three thousand tons of wood pulp a day.

Oak is the most suitable wood for carving, on account of its durability and toughness, without being too hard. Chestnut, American walnut, mahogany and teak are also desirable, while for fine work Italian walnut, lime, sycamore, apple, pear or plum are generally chosen.

GOVERNMENT PUBLICATIONS FOR SALE.

The following were among the publications received in stock for sale by the Superintendent of Documents at Washington during the week ended September 30:

Markets for Machinery and Machine Tools in Peru, Bolivia, and Chile (Special Agents Series 118).—Reviews the character and methods of the machine trade in the countries covered and gives latest available statistics for imports of articles of this class. Price 10 cents.

Density and Expansion of American Petroleum Oils (Standards Bureau Technologic Paper 77).—Describes method of procedure, apparatus used, reduction of observations, and tabulated results in detail applicable to all petroleum oils, both crude and refined, produced in the United States. Price 10 cents.

Vice Consul G. C. Woodward reports that Vancouver's building permits for the month of August totaled \$620,879, as compared with \$156,455 in July, 1916, and \$55,320 in August, 1915.

DESIGNS OF DOORS AND WINDOWS IN SOUTH AMERICA.

The Bureau of Foreign and Domestic Commerce has had prepared blue prints showing designs of doors and windows common in South American countries. Some of these show designs of the massive ornamental front doors that are in high favor for city residences, others of the less expensive front and rear doors, as well as several windows and window doors, together with their dimensions. These were prepared from drawings furnished by Special Agent of South America, Special Agents Roger E. Simmons in connection with his reports "Lumber Markets of the East Coast of South America," Special Agents Series No. 112, and "Lumber Markets of the west and North Coast Series No. 117, in which publications is given an account of the sash and door market in each country. These prints will be loaned to firms interested (Refer to files Nos. 741 and 772.)

PUBLIC EMPLOYMENT BUREAUS OF STATE OF CALIFORNIA.

That the Public Employment Bureaus of the State of California are making vast inroads on the business of the private employment bureaus is apparent from the large volume of business transacted by this new state institution during the past seven months. Labor Commissioner John P. McLaughlin's report, just issued, shows that the state has been instrumental in finding positions for the large army of 26,914 men and women since February 1, and saving them approximately \$54,000 in fees. The state's employment business is steadily increasing, the month of August being the banner period, when 5952 positions were filled, 1053 more than in July.

The efficient business methods have convinced private corporations, companies and private employers that they can obtain dependable service from the state, and this attitude has brought about the enormous business of California's youngest state institution.

The state employment bureaus have received 34,152 applications for employees during the past seven months. 31,393 persons were sent to fill these positions and of this number 26,914 were engaged. In all 27,918 men and women have applied for work. The great majority of the positions filled were permanent.

Of the 5952 positions filled in August, 3199 were outside of the cities of San Francisco, Sacramento and Los Angeles, where the bureaus are located, or 1046 more than were filled in these cities. The positions of this month were divided among 5241 men and 708 women.

The distribution of positions by the state since February 1 is interesting: Agriculture, 2707; food beverages and tobacco, 153; building and construction, 3252; clerical and professional, 242; hotels and restaurants, 534; lumber 632; metals and machinery, 578; mining, oil and quarries, 339; printing and publishing, 8; transportation and public utilities, 6025; wholesale and retail trade, 538; wood working and furniture, 67; casual workers, 354; manufacturing, 270; private homes, 1662; miscellaneous, 6655. In this list is included practically every kind of work. The positions were

filled by 23,115 men and 3,796 women.

While the state has done remarkably well in filling positions, nevertheless many more positions could have been filled if there had been a sufficient supply of suitable employees who were willing to accept out-of-town work. At the four bureaus, during the past two months, from 1000 to 1500 jobs have gone begging, the wages being from \$2 to \$3 per day. The positions included section work, state highway, concrete, quarry, packing house, street, muckings, mining and kindred work. Idleness among people who are able to perform such out-of-town work is therefore inexcusable.

County and city officers, Chambers of Commerce and various civic organizations can do effective work in connecting employees with jobs if they would co-operate with the state employment bureaus.

RAILWAY DEVELOPMENT IN NEW ZEALAND.

AUCKLAND, N. Z.—According to the railways statement made to Parliament by the minister of railways there were on March 31, 1916, 2,970 miles of railway in New Zealand, against 2,955 miles at the end of the fiscal year ended with March 31 1915. The construction cost of these lines at the close of the past fiscal year was \$181,691,167, with gross earnings for the year of \$22,124,574, against \$19,379,206 for the previous fiscal year. The net profits during the fiscal year ended March 31, 1916, were \$7,768,762, against \$5,766,812 for the year ended March 31, 1915.

It is estimated that the revenue of the current fiscal year will be \$21,607,260, with an estimated expenditure of \$11,818,492.

During the fiscal year ended March 31, 1916, there was expended on improvements on the New Zealand Government railways the sum of \$1,750,843, against an estimated expenditure for the current fiscal year of \$2,918,566.

During the present fiscal year it is proposed to begin work on new modern stations at Auckland, Wellington, and Christchurch.

Scheme of Railway Improvements.

According to late published statements, it is proposed to inaugurate an extensive scheme of railroad improvements in New Zealand following the close of the war, since it is recognized that better railway systems are necessary in order to develop the country so as to take care of a large number of the returned soldiers on the land. As it is, most of the valuable land is situated so far from the railway that the transportation problem makes it practically impracticable to raise grain for the markets, and this territory at present is only used for grazing and to some extent for dairying.

SIAMESE HARDWOODS.

Indian (Government) Trade Journal, August 11.

In Siam the rose-woods are worked more particularly from the regions lying northeast and east of Bangkok and are exported in the form of roughly trimmed round logs, the average size of which is 12 to 24 inches in circumference and 80 to 120 inches in length. The rosewood forests have been heavily

overexploited, and as the Siamese Government is now taking measures to protect this wood by requiring workers to take out permits and by fixing a minimum girth at which it may be felled, restriction in general output is likely to ensue. The ebony woods are found to the west of Bangkok in the districts of Kanburi, Petchaburi, and to the south toward the Malay Peninsula. They also are exported in the form of roughly trimmed logs 12 to 20 inches in circumference and 80 to 120 inches in length.

The exploitation of these woods is not a regular industry in Siam, but forms one of the desultory occupations of the people when they are not engaged in rice growing. The wood is bought by Chinese, who are either middlemen or agents of Bangkok Chinese firms, and, as it will not float, it is brought to Bangkok by boat or by train. It is sold by weight, the unit for export being usually 100 piculs (about 6 tons), and the average price in Bangkok ranges from \$22 10s (\$109.50) to \$37 10s, (\$182.50) for rosewoods and about \$22 10s, per 100 piculs for the ebonyes. The ebonyes are apparently more uniform in quality than the rosewoods. None of these woods appear to be dealt with in Bangkok in the sawn form.

LASSEN COUNTY PLANS IRRIGATION PROJECT.

SUSANVILLE—If plans for the organization of two more irrigation districts are carried out successfully Lassen will be the ranking county in California for acreage under water with 120,000 acres. Two large districts have been organized in the county since the beginning of the year and petitions are on file asking the Supervisors to call elections for the organization of two more districts. One of the proposed districts will furnish water to 7000 acres in the Janesville section and the other, known as the Southern Lassen District, will irrigate about 25,000 acres in Long Valley. Lassen County has a great acreage of fertile deep soil, now covered with sage brush which only needs water to become the equal of any in the world for productivity, as shown by the lands in the county that have been irrigated in the Honey Lake Valley section.

FOREIGN TRADE POSSIBILITIES.

PORTLAND — The United States should learn two lessons from the present war in Europe, says Samuel Hill, well-known capitalist and good roads advocate, who has returned to Portland from a trip around the world that took him to almost every one of the belligerent nations. These two lessons are: Develop trade relations with Russia and prepare to defend the country against possible future aggressions. Mr. Hill spoke in Japan, Russia, England and France and said that the matter of the greatest importance now before the United States was cementing friendly relations between Japan, Russia and the United States.

"Russia and the United States possess the two greatest areas of food land in the world, and Japan occupying the position between them and controlling, as she does, practically all the vessels on the Pacific, should build up a great

carrying trade between Russia, a country of 200,000,000 people, and the United States with its 100,000,000 people," said Mr. Hill. "It seems strange that our Government has overlooked the opportunity to strengthen her relations with Russia. If you look back you will find that Russia always has been the consistent friend of the United States. Acre for acre, I believe the land of Siberia is better land than Dakota and Montana; there is more timber."

PROGRESS IN SIAM'S IRRIGATION SCHEME.

BANGKOK, Siam.—Two American engineers have recently arrived in Siam to superintend the assembling of the machinery which has arrived from the United States for the "Prasak" scheme of irrigation. An American firm of Milwaukee has supplied a steam shovel and hydraulic dredge, and another steam shovel came from manufacturers in Ohio.

These engineers will remain in Siam until the machinery is in satisfactory running order, and, if necessary, they may be asked to take permanent charge of the excavating work.

Two other American engineers are at present employed by the Siamese Irrigation Department in connection with this irrigation scheme.

NEW ROADS BUREAU IN SALVADOR.

The National Assembly of Salvador has created a bureau of public roads, designated Direccion General de Caminos, to operate under the Ministerio de Fomento, according to a decree in a recent number of the *Diario Oficial*. The new bureau will be in charge of technical men who will make an exhaustive study of all plans for roads and bridges, with a view to working out a system of connecting routes which will provide means of communication for the entire country. All work relating to the construction of new roads or the repair of old ones will be administered by this roads bureau.

AMERICAN SHIPPING DOUBLES IN TWO YEARS.

American shipping in the foreign trade has increased from 2,405 vessels of 1,076,152 gross tons on June 30, 1914, to 3,135 vessels of 2,194,470 gross tons on June 30, 1916. Nearly half of this tonnage, 326 vessels of 1,071,679 gross tons, hails from New York City.

INCREASED TOTAL OF AMERICAN BUILDING OPERATIONS.

Building operations in many of the larger cities of the country increased in 1915, according to the United States Geological Survey. In 48 selected cities the total cost of building operations was \$641,769,199, an increase of \$22,016,845, or nearly 4 per cent over 1914. Twenty-eight of these cities showed increase and 20 showed decrease. New York was the leading city in cost of building operations, with \$103,023,800, an increase of \$28,993,559 over 1914. Chicago, which was the leading city in 1914, was second in 1915, with building operations costing \$97,291,400, an increase of \$14,029,690. Brooklyn was third, with a total of \$45,601,851, an increase of \$3,729,544 over 1914. The

average cost per operation was \$33.15 in 1915, compared with \$33.012 in 1914.

TUNGSTEN DEPOSITS IN CALIFORNIA DEVELOPED.

Tungsten deposits in California, which were discovered in 1913, but remained practically unknown until the spring of 1916, have recently yielded considerable quantities of the mineral under the stimulus of the increased demand. A representative of the United States Geological Survey, who has visited the plant established there, finds that the ore bodies have some remarkable characteristics.

The deposits are 8 miles west of Bishop, Inyo County, Cal. On April 7 the Standard Tungsten Co. began work. Trails and roads were built, ore bodies were opened up, a mill was erected, and electric power was brought in. On June 7 the mill began to crush ore. The Tungsten Mines Co., started work on May 1, and by the latter part of July had completed a mill of 300 tons daily capacity, and was rapidly opening its main ore body, disclosing a lode as much as 60 feet wide. This activity has greatly stimulated prospecting, and tungsten has been found in a belt 15 miles long.

The ore bodies, it is found by the Geological Survey, are of a kind not mentioned by the recognized authorities on ore deposits as a commercial source of tungsten. The ore consists of scheelite associated mainly with garnet, epidote, and quartz. The general country rock is granite, but in it are scattered masses of limestone, which became mineralized at the time when the granite cooled from a molten condition. The limestones were altered to masses of garnet carrying subordinate scheelite by the metallic vapors then given off, and these are the ore bodies now worked. They average about 2 per cent of tungsten trioxide (WO₃).

\$2,000,000 RESERVOIR.

MARTINEZ, Cal.—Construction is soon to be started on the \$2,000,000 impounding reservoir of the People's Water Company, in the San Pablo Canyon. Materials are now on the ground for foundation work of the big dam which will extend across the canyon between the old Cancy and Castro ranches.

When finished the reservoir will be the main supply point of the People's Water Company system. The plan of the company to erect the dam was kept secret, but became public when wagons commenced to haul materials to the spot.

The dam will be located about six miles above the town of San Pablo and will create a lake about four miles long. Rebuilding of the present country road will be necessary. The contract has been let to Bates, Borland & Ayer and the work will require about three years.

A REMARKABLE HIGHWAY BRIDGE.

One of the interesting features of the State highway system of California is a trestle over three miles long across the Yolo Basin, which formerly isolated the people living along many miles of one bank of the Sacramento

from those on the other side. The trestle is a great marsh, which could be crossed formerly only during the dry season of summer and early fall. At other seasons a difficult succession of mud and chuckholes could be laboriously traversed, but at other time Sacramento was practically closed to the people on the other side of the basin. No road could possibly be maintained on the surface of the marsh, so the State Highway Commission built one high above it. For about 2,000 feet at one end, where an embankment will be built later to carry the highway, the trestle is of wood. Elsewhere it is constructed of reinforced concrete throughout, except the iron railing and asphalt pavement. The roadway is 21 feet wide and an average distance of 20 feet above the basin. It cost the State about \$100,000 but it lopped 30 miles off the distance to San Francisco by road making it 98 miles, and it brought Davis and Woodland within 30 and 50 minutes' motoring distance of Sacramento, although formerly they were practically isolated from it during most of the year.

THEN AND NOW.

Over 100 years ago John Adams called attention to the fact that there was little difference between the man who worked for wages that he must spend for the necessities of life and the chattel slave who received no wages and had his necessities supplied by his master. The real truth is that the average wage worker is economically no better off than the black man was under slavery, and it is no misnomer to call him a wage slave. When the black slave was sick he was well cared for because he was a piece of valuable property. When he was too old to work he was as well fed as those who worked. When the wage slave gets sick his wages stop and if he has managed to save nothing from his wages he goes hungry; when he is too old to work he becomes an object of charity, he is not valuable property. His death is no loss to the masters. The wage slave has but one advantage over the chattel slave—he has a vote and he can vote himself out of slavery whenever he gets sense enough to do it—Quarry Worker.

INDUSTRIAL INJURIES DURING 1915.

The Industrial Accident Commission of the State of California has issued statistical information concerning injuries in the industries of the State during the year 1915.

There were reported 67,538 injuries, as follows:

Fatal	532
Permanent	1,264
Temporary	65,711

The total payments for the above injuries, reported up to June 30, 1916, amounted to \$2,602,706.04. This sum was apportioned between compensation to injured, \$1,150,503.56 Medical Payments, \$52,202.48

There were 13,254 injuries out of the 67,538 that lasted 15 days and over. It is interesting to compare the 1915 figures with those tabulated for 1914. During the latter year there were 691 accidental deaths, 1,292 permanent injuries and 60,241 temporary injuries, a total of 62,224. Last year's death list

shows a reduction of 158, due largely to the gospel of "Safety First" and the activities of employers and employees in co-operating to remove industrial hazards. The permanent injuries also decreased 28. There was an increase of 5,500 in the temporary injuries last year as compared to the 1914 figures. This is the experience of compensation history all over the world. More care is taken as time goes on in reporting injuries. The natural increase in population is a factor in contributing to a larger number of temporary injuries.

The Industrial Accident Commission is of the opinion that the decrease of 158 in the death columns will commend itself to the people of California, as will also the lowering by 28 of the number of permanent injuries.

DEVELOPMENT OF THE RUSSIAN-AMERICAN TRADE.

Facts of interest to American business men who may desire to enter the Russian markets are given in a recent publication of the American-Russian Chamber of Commerce. The bulletin presents a summary of the incorporation laws of Russia and devotes special attention to the Russian press as an advertising medium.

The development of trade between the two countries, the commerce chamber states, involves particularly the establishment of American corporations in Russia for the purpose of selling American products and of undertaking the development of Russian business enterprises, and the securing of direct and permanent connections in the Russian market by the use of advertising.

During the past 10 years there has been a great increase in the number of joint stock companies incorporated in Russia, and many of these have the support of English, Belgian, French, and German capital. In 1913 there were 240 joint stock companies incorporated with \$205,602,920 capital. Twenty-one of these, with \$18,260,000 capital, were foreign. Representatives of American business may enter the Russian market in two ways—either by the establishment of companies in the United States for the purpose of doing business in Russia or by establishing companies under Russian laws. In order to do business in Russia it is necessary to secure special permission from the Imperial Russian Government, but the Russian business interests are now attempting to secure a change in the incorporation laws, and it is believed that in the future companies will be in-

corporated in Russia on the principle of registration instead of the now existing principle of special permission.

Russia has an extensive and well-established press. Just before the war there were approximately 2,167 papers and magazines published in 216 cities and towns, reaching every part of the empire. There is not only a daily metropolitan press, with large circulation, but the provincial press and the trade papers are thoroughly organized.

The booklet just issued presents a detailed list of all the more important publications, with their circulations and present advertising rates. The title of the bulletin is "The Russian Market: Its Possibilities and Problems." The organization has headquarters at 60 Broadway, New York City.

INVENT TALKING MOVIES.

LOS ANGELES—Through the medium of a selenium cell, which he has invented and patented, W. F. Alder of 131 Mariposa Street, a member of the American Association for the Advancement of Science, who has been conducting experiments with light and sound waves for more than 11 years, has produced actual "talking pictures" which seriously threaten to revolutionize the film industry and bring the spoken drama back into its own. With a motion-picture camera, Mr. Alder photographed "sound waves," or tone vibrations, on an ordinary motion-picture film, developed it, and then, using a motion-picture apparatus, projected these photographs images upon the disk of his selenium cell.

SEEKS NEW STATISTICS.

SACRAMENTO—For the purpose of gathering first-hand data on the major industries of California, George Robertson, statistician of the State Agricultural Society, will leave in a few days for a tour of the State, returning here in December. Robertson's statistical data, which he has been collecting for 16 years, together with records of the State Agricultural Society dating back to 1854 were burned in the fire which destroyed the Administration Building at the State Fair—Statistical records from every nation, including the Republics of Central and South America, were lost, and cannot be replaced because they are out of print. Robertson has established temporary headquarters in the Women's Building, which has been converted into an Administration Building pending the erection of a new structure.

REMOTE CONTROL FOR ELECTRIC TESTING LABORATORY.

An elaborate system for the rapid and accurate control of electric generators is described in Scientific Paper No. 291, which has been published by the United States Bureau of Standards. In a laboratory in which a large number and variety of electrical instruments are tested it is important that means be provided for such control of the generators that provide the current for testing. In this new publication the system in use at the bureau is described. The control rheostats are not handled by the observers directly but are operated by small motors which are controlled from any one of the several laboratory rooms by means of small multiple-lever switches.

MILITARY TRAINING.

From Fresno Republican.

Students in the Fresno high school are in favor of military training, provided it can be so arranged as to interfere only with lessons, and not to obstruct athletics. Since lessons are a mere necessary evil while athletics are the ultimate good, the summum bonum, the conclusion follows inevitably. For that matter, they are probably right about it. The athletics should be continued and should not be interrupted by new or additional work. Neither should the studies. All the gain possible of knowledge, of strength and discipline is still less than enough for those precious high school years, which in too many cases mark the last free-growing period of life.

But if there must be a great increase in the total quantity of school activities, we may have to learn a lesson out of the German example, by very considerably increasing the total number of hours spent in school. This does not mean to increase the total number of hours now spent in studying and reciting. In fact, when the American school system becomes more efficient and escapes fully from traditionalism we may learn very greatly to reduce the present amount both of studying and of reciting. Much of the studying now done consists of waste effort on the part of students, who do not know how to study, and much of the alleged reciting consists of mere policing, to detect and punish those who have shirked the task of studying. This remark applies not so much to any particular high school as to the general traditional system of all the schools everywhere. We may drift toward an ideal of efficiency which will be able to produce the present amount of learning with less study and less reciting than is now done. But even when that time comes, if school activities are to be much extended the German example of increased hours may become a necessity. In the increased hours of a German school the students do not merely do all their studying and reciting, but most of their playing, athletics, instructive amusements and social training. The increase in hours does not increase the total burden of activity of life, but merely puts more of it into the school.

We are not advocating this or any other revolutionary change in the immediate conduct of California high schools. This digression is merely an incident to congratulating the schools in Fresno, Sacramento and elsewhere upon even a conditional vote on the part of the students in favor of general military training.

Unless this crazy word can be revolutionized in much less time than now seems possible, America must

take seriously the problem of preparing to maintain itself among the lullabies around it. And the mere preservation of one's own sanity would be no safeguard against a cordon of armed maniacs just turned loose from the violent ward. Against force only force can prevail, and in the modern world no force is useful except trained force. The beginnings of training in the high schools may easily be the beginning of national safety in the years very soon to come.

AMERICAN TIMBER EXPERTS TO STUDY EUROPEAN FIELD.

The Bureau of Foreign and Domestic Commerce and the Lumber Manufacturers' Association have completed arrangements for a joint study of the markets in Europe for the sale of American lumber. Four or five men are to be employed on this work, and they are to be selected from among the persons who successfully pass an examination to be given in the principal cities of the country on September 22.

Applicants for positions must be citizens of the United States and must be available for two years' service. The first subject of the examination will be practical questions, covering forestry, or timber production; manufacture of forest products, and marketing of forest products. For the second subjects a thesis on investigation methods will be required. Foreign languages will be the third subject and the competitors will be required to translate a passage from one at least of the following languages: French, German, Italian, Dano-Norwegian, Swedish, Spanish, or Russian. Education and experience will be considered in making the selection.

Ability to write good English is an essential qualification and will be judged on the basis of the written examination papers. Good address and appearance will also be considered, as will ability to address public gatherings. Candidates who successfully pass the written examination may be required to appear before an oral examining board at Washington.

Applications to take this examination should be made at once direct to the Bureau of Foreign and Domestic Commerce at Washington, and should contain a complete statement of the applicant's education and particularly his experience in the fundamental subjects of the examination.

The experts chosen are to be employed by the Bureau of Foreign and Domestic Commerce, although the larger part of the fund required will be furnished by the lumber association. Salary not to exceed \$10 a day will be offered, and in addition all transportation expenses will be paid, and \$1 a day will be allowed for subsistence expenses.

SAN FRANCISCO—Apartment house, 3 story and base, frame. Cost not stated. Architect, W. J. Keenan, 2 Atalaya Terrace, S. F. Location, Masonic and Fulton. Will contain sixteen apartments of three and four rooms and built storage. Stores on the Masonic front. Plans being prepared.

FRESNO, CAL.—Apartment house, 3 story and base, 7 story and base, 10 story reinforced concrete. Cost not stated. Architect, E. Mathewson, 1414 E. Blvd., Fresno. Owner, S. N. Griffith. Location, M and Mariposa streets. Only preliminary studies have been made of this project and details of construction cannot be given at this time. Further mention will be made of the work.

Contracts Awarded.

LOS ANGELES, CAL.—Apartment house, 3 story and base, frame, \$10,000. Architects, Taylor Bros., Black Bldg., L. A. Owner, Henry J. Benidict. Contractors, Taylor Bros., Black Bldg., L. A. Contract price, \$10,000.

BATH HOUSES.

BAKERSFIELD, KERN CO., CAL.—Bath house, 1 story, frame. Cost not stated. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. Location Reale Park. Plans complete and figures to be opened on October 16th at 3 p. m.

BONDS

MARTINEZ, CONTRA COSTA CO., CAL.—Bonds of \$51,000 for the erection of a new grammar school building in Martinez have been sold and bids for the erection of the structure are now being advertised.

RICHVALE, BUTTE CO., CAL.—Bonds of \$50,000 have been sold by the Directors of Drainage District No. 100, near Richvale, and the proceeds of the sale will finance the construction of a large outlet. Frank Robinson, an engineer of Chico, is in charge of the work and states that the outlet will be seven miles in length, extending from a point on the Biggs-Princeton road a mile and a half west of the Cherokee canal to Butte Creek, entering the creek three-quarters of a mile above the Gridley Gun Club bridge.

LINDSAY, TULARE CO., CAL.—Owing to a technical error the bonds of the Lindsay-Strathmore Irrigation District will be readvertised for sale.

TRACY, SAN JOAQUIN CO., CAL.—The \$19,000 worth of fire bonds recently voted have been sold and the purchase of fire equipment will be ordered by the City Trustees within the next few days.

SAN DIEGO, SAN DIEGO CO., CAL.—An election will be held November 17, for voting on an issue of bonds in the sum of \$682,000 for the construction of

the Lower Otay dam and two bridges across the San Diego River.

PHOENIX, ARIZ.—An election will be held October 23, for the purpose of voting bonds in the sum of \$600,000 for the construction of an electric light and gas plant to be owned and controlled by the city.

PUCATELLO, IDAHO.—The citizens of Lucetello have voted in favor of issuing \$20,000 bonds for the purpose of extending and otherwise perfecting the water system.

RIVERDALE, FRESNO CO., CAL.—Bids for the purchase of \$25,000 in school bonds will be received up to October 19, by the Riverdale Joint Union High School District. Proceeds of the sale will finance the construction of a new school.

SACRAMENTO, CAL.—The \$1,750,000 county highway bond issue carried by a large majority. The bonds will be advertised for sale within the next few weeks. The proceeds of the sale will be used to construct 124 miles of concrete road.

MIDWAY, KERN CO., CAL.—The Midway School District bonds have been sold by the County Supervisors and plans for the new building to be erected from the sale will be ordered within the next few days.

YREKA, SISKIYOU CO., CAL.—Judge Lodge has rendered a decision in the matter of testing the validity of the Yreka City bonds for the building of a city hall and widening Fourth street.

He holds the city hall bonds were valid, they having received the necessary two-thirds majority of all the votes cast at the municipal election in April, but declares the bonds for the widening of Fourth street invalid, because they lacked the necessary two-thirds vote.

BRIDGES, DAMS AND HARBOR WORK

SAN FRANCISCO—Sea wall construction. Cost not stated. Engineer, Constructing Quartermaster's Office, Fort Mason. Owners, United States Government. Plans have been approved by the War Department for the construction of a concrete sea wall at Fort Point in the Presidio of San Francisco. Plans call for about 260 feet of solid granite wall. Bids will be called for shortly.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Bridge, reinforced concrete, \$11,500. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. The County Supervisors have rejected the two bids received for the construction of a bridge in Gaviota Canyon. Plans for the structure were prepared by E. H. Flaherty. The engineers estimate was \$11,500 and the bids were: Boardman Construction Co., \$16,240; Mesmer & Rice, \$15,597. Both bids were rejected, and the Supervisors discussed plans for providing a temporary crossing across the creek at this point on the State high-

way until plans that will bring lower bids are made.

Contracts Awarded.

WILLOWS, GLENN CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, Willows. Owners, Glenn County. Contracts for four reinforced concrete bridges to be erected in Glenn County were awarded by the Board of Supervisors, and bids for two other bridges were taken under advisement. Following are the awards made:

Ledger Bridge—Ross Construction Co., Forum Bldg., Sacramento, \$2,696.
Cordin Slough Bridge—Teal & Thompson, \$1,300.

Union Bridge—Ross Construction Co., \$1,870.

Reiman Bridge—Manning Bros., General Delivery, San Leandro, and 924½ Jay street, Fresno, \$4,625.

Lkenmyer and Mason Bridges—Bids for these two bridges were taken under advisement. Manning Bros. presented the low figure.

OROVILLE, BUTTE CO., CAL.—Bridge, reinforced concrete, \$2,288. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractor, A. Peter, Oroville. Contract price, \$2,288.

REDDING, SHASTA CO., CAL.—Bridges, reinforced concrete, \$2,365.75. Engineer, County Surveyor, Redding. Owners, Shasta County. The Supervisors have let the contract for building two bridges over Griffiths Gulch on the road from Anderson to Olinda to S. Seyson for \$2,365.75. Other bidders and their bids were: Bolton & Rhyndress, \$5,400; William Stephens, \$3,784; J. T. Black and C. L. Oliphant, \$2,799; T. H. Polk, \$3,919; Rolle Arbuckle, \$2,676.75.

MARYSVILLE, YUBA CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, Marysville. Owners, Yuba County. The Supervisors have awarded the contracts for the building of the extensions to the Smith bridge, Joe Losey and Park Bar bridges to Jenkins & Wells. They will build the Smith bridge for \$2,188; Park's Bar bridge for \$1,868, and Joe Losey bridge for \$900.

SAN JOSE, SANTA CLARA CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Bids have been received and the following contracts awarded for bridges: Montague Bridge—John Williams, San Jose (awarded), \$1,570; James Casley, \$1,698; R. H. Jamison, \$1,600; John Doyle, \$1,597; S. Sciarino, \$1,580; Baker & Martin, \$1,925; L. T. McFadden, \$2,399. County Surveyor's estimate, \$1,505.

McKear Road Bridge—John Doyle, 660 North 10th, San Jose, awarded contract, \$2,650; John Williams \$2,738; William Martin, \$2,975; S. Sciarino, \$2,850; Baker & Martin, \$4,208. County Surveyor's estimate, \$2,940. All bids for the construction of a drainage ditch were rejected, as the amount asked was

nearly twice the amount of the Engineers estimate.

HOLLISTER, SAN BENITO CO., CAL.—Bridge, reinforced concrete, \$2,460. Engineer, County Surveyor W. A. Winn. Hollister, Owners, San Benito County. Contractor, R. B. Williams, Hollister. Contract price, \$2,460.

SALINAS, MONTEREY CO., CAL.—Bank protection, \$10,000. Engineer, County Surveyor, Salinas. Owners, Monterey County. Contractors, Midland Bridge Co., St. Louis, Mo. Contract price, \$10,000.

FRESNO, FRESNO CO., CAL.—Bridge approaches, \$1,095. Engineer, City Engineer, Fresno. Owners, City of Fresno. Contractor, J. E. Mitchell, 201 201 N street, Fresno. Contract price, \$1,095.

SAN FRANCISCO—Sea wall construction, \$66,150. Engineer, Assistant State Engineer, Ferry Bldg., S. F. Owners, State of California. Contractors, Blake Bros., Oakland Bank of Savings Bldg., Oakland. Contract price, \$66,150.

CITY WORK.

The San Francisco Bureau of Architecture has been instructed by the Board of Public Works to prepare plans and specifications for alterations to be made on County Jails Nos. 2 and 3. The work will cost in the neighborhood of \$12,000.

The Bureau reports the preparation of specifications for furnishing and installing window shades in the Juvenile Court and Detention Home. An estimate of \$800 is placed on this work.

Plans for furnishing and installing disinfectors and sterilizers in the new Central Emergency Hospital are nearing completion and will be sent to the Works Board for approval within the next few days. The work will cost approximately \$3,000.

FACTORIES AND WAREHOUSES

SAN FRANCISCO—Packing house, 7 story mill construction, \$45,000. Architect, Hermann Barth, 12 Geary street, S. F. Owners, Frye & Co. Location, southeast Front and Pacific streets, covering a large ground area. Contract for excavating awarded. Plans complete for balance of the work and figures being taken. Bids close on October 16th.

OAKLAND, CAL.—Machine shop, 1 story, brick, \$9,000. Architect, Charles W. McCall, Central Bank Bldg., Oakland. Owner, J. H. Kim. Location, Sixth street between Broadway and Franklin. Will contain office and work space. Plans complete and segregated figures being taken.

OAKLAND, CAL.—Factory chimney, reinforced concrete, \$2,000. Engineer, none. Owners, Barbour Chemical Co. Location, 50th avenue and E street. Plans complete and work to be done by Day Labor.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Factory group, 1 story, frame and corrugated iron. Cost not stated. Architect, none. Owners, E. H. Edwards Co. Contractor, George Wagner, 251 Kearny street, S. F. Contract price not stated. Will cover an area of 60 by 200 feet. This is the first of a group of five buildings which will form the new factory. The other buildings will be similar in construction, and will be erected following the completion of the first building.

SEATTLE, WASH.—Transit shed, 1 story, frame, \$32,800. Engineer, Port of Seattle Commission. Owners, City of Seattle. Contractors, Harrington-Peters Co., Oriental Bldg., Seattle. Contract price, \$32,800.

FLATS

STOCKTON, SAN JOAQUIN CO., CAL.—Flats, 2 story and base, frame. Cost not stated. Architect, Franklin Warner, San Joaquin Bldg., Stockton. Owner, Peter G. Knutze. Location, Aurora between Park and Oak streets. Will contain two flats of four and five rooms. Plans are being prepared.

SAN FRANCISCO—Flats, 2 story and base, frame, \$5,000. Architect, none. Owner, Gustave Peterson, 682 9th avenue, S. F. Location, east 12th avenue north Fulton. Will contain two flats of five and six rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$15,800. Architect, Bernard J. Joseph, Call-Post Bldg., S. F. Owner, Harry P. Franklin. Location, Pacific avenue east Buchanan, covering an area of 32 by 90 feet. Will contain two large residential flats. Plans complete and figures being taken.

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$3,000 each. Architect, none. Owner, Thomas Hamill, 5535 Geary street, S. F. Location, west 25th avenue south Anza. Each building will cover an area of 25 by 45 feet and contain two flats of five rooms each. Basement garages. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Flats, 2 story and base, brick, \$6,000. Architect, F. Holberg Reimers, Acheson Bldg., Berkeley. Owner, Mrs. Harvey Location, corner Colusa and Solano streets, covering an area of 40 by 50 feet. Will contain two flats of four and five rooms, bath and basement garage. Plans being prepared.

GOVERNMENT WORK & SUPPLIES

Ironstone Canal Extension

Bids for constructing Ironstone Canal extension, etc., Uncomphere Valley project, were received by the U. S. reclamation service, Montrose, Colo., as follows:

The Osman Construction Co. of Montrose, Col., Montrose, Col., \$11,005, schedules 1, 4, 9, 10 and 11.

Holliday & Eldridge, Montrose, Col., \$8,365, schedules 7, 8 and 12.

Flathead Canal Work.

Bids for constructing canals and structures on Flathead project, Mont., were received at the U. S. reclamation service, St. Ignatius, Mont., as follows:

Pearson Construction Company, Seattle, Wash., schedule 1, \$3,765; 2, \$4,212.60; 3, \$20,867.50; 4, \$9,261.40.

Welch Bros. & Hannaman, Kalispell, Mont., schedule 1, \$8,530; 2, \$8,538.81; 3, \$24,385; 4, \$16,002.

Nelson Rich Dixon, Mont., schedule 1, \$5,980; 2, \$9,393.49; 3, \$22,357; 4, \$20,241.50.

Clarence B. Long, Polson, Mont., schedule 1, \$6,920; 2, \$11,406.75.

Mendenhall, Bird & Co., Springfield, Utah, schedule 1, \$5,540; 2, \$21,635.

Los Angeles, Cement.

Bids for Portland cement, sand, and stone at San Pedro, Cal., were received

by the U. S. engineer office at Los Angeles, Cal., as follows:

Item 1, 18,500 bbls Portland cement; 2, 11,000 short tons sand; 3, 22,000 short tons gravel and crushed rock.

Golden State Portland Cement Co., Los Angeles, Cal., item 1, \$1.78 per bbl. Riverside Portland Cement Co., Los Angeles, Cal., item 1, \$1.73.

California Portland Cement Co., item 1, \$1.75.

Russell-Greene-Foell Co., Los Angeles, Cal., item 2, 65c; 3, 85c.

Pacific Rock and Gravel Co., Los Angeles, Cal., item 2, 65c; 3, 84c.

Light House Service, Repairs.

The following bids were received by the light house inspector, 17th district, Portland, Ore., for repairing wharf at Seiamoo Harbor Light Station, Wash.: American Pile Driving Co., Everett, Wash., \$5,600; 90 days; accepted.

P. B. Church & Co., Seattle, Wash., \$7,599; 90 days.

HALLS AND SOCIETY BUILDINGS.

SAN FRANCISCO—Club house, 1 and 2 story, frame and plaster, \$50,000. Architect, George W. Kelham, Kelham, Sharon Bldg., S. F. Owners, San Francisco Golf and Country Club. Location, Great Highway. Will contain banquet rooms, social rooms, kitchen and sleeping apartments. Plans nearly complete and figures to be taken in January when work on the links is completed.

SAN RAFAEL, MARIN CO., CAL.—Lodge hall, 1 story, frame and plaster, \$14,112. Architect, Charles W. Drysdale, Sharon Bldg., S. F. Owners, San Rafael Elks' Hall Association, T. Saywell submitted the lowest bid for this work and will probably be awarded the contract.

SACRAMENTO, CAL.—Lodge hall, 3 story and base, Class A construction, \$300,000. Architect, R. A. Herold, Forum Bldg., Sacramento. Owners, Sacramento Masonic Hall Association. Location, 12th and J streets, covering an area of 100 by 100 feet. Will have two mezzanine floors, giving it a height of practically five stories. Preliminary plans approved and bids to be called for before the end of this year.

HOSPITALS

STOCKTON, SAN JOAQUIN CO., CAL.—Hospital chapel, morgue and boiler room, 1 story, frame and concrete, \$8,000. Architect, Ralph P. Morrell, old Fellows' Bldg., Stockton. Owners, San Joaquin County. Plans for these additions to the San Joaquin County Hospital have been completed and are now out for figures. Bids will be opened on October 20th at 10 a. m.

PATTON, SAN BERNARDINO CO., CAL.—Hospital cottage, 1 story, frame and concrete. Cost not stated. Architect, State Architect George B. McLaughlin, Sacramento. Owners, State of California. Bids will be opened on October 20th for the construction of this building. Plans can be secured from the State Department of Engineering. An official proposal appears in another column of this issue.

Contracts Awarded.

TACOMA, WASH.—Nurses' home, 4 story and base, brick and concrete \$60,000. Architects, Heath & Gove, National Realty Bldg., Tacoma. Owners

Tacoma General Hospital. Contractor, J. E. Bonnell, 750 Commercial street Tacoma. Contract price, \$50,000.

HOTELS

SAN FRANCISCO. Hotel alterations, steel and concrete, \$15,000. Architects, Wright & Rughforth, 351 Pine street, S. F. Owners, Otis Estate. Location 1217 to 1245 Market street. This work will consist of constructing a sun porch on the front of the present building, extending two elevators, constructing additional fireproof stairs and installing three emergency exit doors. Plans complete and contract to be awarded at once.

SAN LEANDRO, ALAMEDA CO., CAL.—Hotel, 2 story and base, brick or frame, \$50,000. Architects, Crosbie & Judson, Fresno. Owners, San Leandro Hotel Co. Will contain 80 rooms, office, dining room, kitchen and a number of baths. Plans complete and figures being taken for both frame and brick construction.

SAN JOSE, SANTA CLARA CO., CAL.—Hotel addition, 2 story and base, reinforced concrete, \$50,000. Architect, William Binder, Ben Bldg., San Jose. Owners, Hotel Montgomery. Location, San Antonio street. New portion of the building will contain sample rooms, kitchen and a banquet room. Plans are being prepared.

IRRIGATION PROJECTS

MERCED, MERCED CO., CAL.—Drainage ditch, \$50,000. Engineer, County Surveyor, Merced. Owners, Merced County. The County Supervisors at their meeting rejected all bids received for the construction of the drainage canal at Atwater. Many bids were submitted for only parts of the work. One bid was submitted for \$54,761.84 for the job complete. It is very probable that the Board will readvertise for bids.

HILT SAC, SAN JOAQUIN CO., CAL.—Irrigation flume, reinforced concrete. Cost as follows: Engineer, J. B. Leonard, Rialto Bldg., S. F. Owners, South San Joaquin Irrigation District. Consulting Engineer J. B. Leonard is preparing plans for a large concrete flume to be constructed at Hilt Sac, San Joaquin County, for the South San Joaquin Irrigation District. Mr. Leonard states that the work will be done by Day Labor under the direction of the irrigation district and will extend over a period of three years. An estimated cost of between \$75,000 and \$85,000 is placed on the work.

LIBRARIES

SACRAMENTO, CAL.—Library, 3 story and base. Class C construction, \$130,000. Architect, Loring P. Rixford, Sharon Bldg., S. F. Owners, City of Sacramento. Bids were opened on October 5th for this work and show Knowles & Mathewson, Call Post Bldg., San Francisco, low on the general construction at \$75,000 and \$99,000. A complete list of the firms will be found under the heading of Sacramento in this issue. A contract has not been awarded.

RAYLESS SCHOOL DISTRICT, GLENN CO., CAL.—Library, 1 story, frame. Cost not stated. Architect's name not given. Owners, Glenn Coun-

ty. Bids will be opened on October 20th at 10 a. m. for a small public library. Plans can be secured from the office of the County Clerk.

POST OFFICES

WILLOWS, GLENN CO., CAL.—Post office, 2 story and base, brick and stone, \$77,997. Architects, Bliss & Paville, Balboa Bldg., S. F. Owners, United States Government. Bids opened in Washington on October 2nd for this building show Welch Bros. & Hannaman, of Kalispell, Mont., low at \$77,997. A complete list of the bids received will be found under the heading of Sacramento and Northern California in this issue.

POWER IMPROVEMENTS

SAN FRANCISCO.—Laying high pressure mains, \$8,750. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. E. M. Whitlock submitted the lowest figures for laying high pressure mains and will probably be awarded the contract. A complete list of the bids received will be found under the heading of San Francisco in this issue.

SAN FRANCISCO.—Copper wire. Cost not stated. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Bids will be opened on October 18th for furnishing copper wire for the Hetch Hetchy project.

RIO VISTA, SOLANO CO., CAL.—Laying water mains. Cost not stated. Engineer, City Engineer, Rio Vista. Owners, City of Rio Vista. Bids will be opened on October 19th at 8 p. m. for laying an 8-inch water main, consisting of approximately 2,900 feet of 8-inch pipe to run from the pump house at the foot of Main street, along Main street Front street, Brumley avenue and the alleys in block 36, to connect with the steel water tower at the head of St. Gertrude's avenue.

RAILROAD CONSTRUCTION AND EQUIPMENT

REDDING, SHASTA CO., CAL.—Passenger station, 1 story and base, stone and concrete, \$17,000. Architect, Architectural Department Southern Pacific Co., Flood Bldg., S. F. Owners, Southern Pacific Co. Location, Yuba street. Will contain two waiting rooms, baggage rooms and agent's office. Plans being prepared and work may be done by the company under the Day Labor system or by contract.

RESIDENCES

SAN FRANCISCO.—Residence, 2 story and base, frame, \$3,000. Architect, none. Owner, W. H. Keenan, Fulton and Masonic avenue, S. F. Location, west Alameda north Fulton. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO.—Residence, 2 story and base, frame, \$5,000. Architect, none. Owner, James Welsh, 513 18th avenue, S. F. Location, west 18th avenue north Balboa. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1½ story and base, frame, \$2,500. Architect, Chester H. Miller, First National

Bank Bldg., Oakland. Owner, Ulric Peterson. Location, Steiny Terrace. Will contain six rooms, bath and sleeping porch. Plans being prepared.

BERKELEY, ALAMEDA CO., CAL.—Residences, 2, 1 story and base, frame, \$2,000 each. Architect, none. Owner, R. C. Hillen, 439 Haight avenue, Alameda. Location, east Sacramento north Cedar. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owners, Morgensen Bros., 589 63rd street, Oakland. Location, south 44th street west Webster. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, M. L. Newsom, 1748 Broadway, Oakland. Owner, A. F. Werum. Location, 35th avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owners, Broadhead and Wishart, 864 57th street, Oakland. Location, north 42nd street west Market. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

WEST BERKELEY, ALAMEDA CO., CAL.—Residences, 2, 1 story and base, frame, \$2,500 each. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner, A. Samuels. Location, West Berkeley. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and figures are being taken.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 1½ story and base, frame, \$2,500. Architect, none. Owner, C. M. Balboa. Location, south Wildwood, Lot 35, Lakewood Park. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, G. Taylor, 96 Pearl street, Oakland. Location, west Greenwood avenue north Park Boulevard. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 2 story and base, frame, \$5,000. Architect, Ernest Kump, Rowell Bldg., Fresno. Owner, W. H. Kump. Location, Alta Vista Tract. Will contain eight rooms, bath and sleeping porches. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 2 story and base, brick and frame. Cost not stated. Architects, Crosbie & Judson, Fresno. Owner, F. W. Pussey. Location, 12 miles east of Fresno. Will contain ten rooms, three baths and sleeping porch. Concrete swimming pool is also included. Plans complete and figures being taken.

STOCKTON, SAN JOAQUIN CO., CAL.—Residence, 2 story and base, \$3,500. Architect, M. L. Newsom, 1748 Broadway, Oakland. Owner, A. F. Werum. Location, Yosemite Terrace. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor under the direction of W. C. Brown.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$2,500 each. Architect, none. Owner, F. Nelson, 2701 Lincoln Way, S. F. Location, west Hill-way south of Carl and north Parnassus. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 1 story and base, frame, \$1,200. Architect, none. Owner, T. E. Taylor, 538 20th street, Richmond Location, Panama and Roosevelt avenues. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

PAJO ALTO, SANTA CLARA CO., CAL.—Residence, 2 story and base, Class A construction, \$50,000. Architect, Louis Christian Mullgardt, Chronicle Bldg., S. F. Owners, Trustees of Leland Stanford, Jr., University. Bids have been opened for the construction of the three-story Class A residence to be erected on the campus at Palo Alto for the President, David Starr Jordan. The Dinwiddie Construction Co., Crocker Bldg., San Francisco, presented the lowest bid at \$92,800 and will probably be awarded the contract although such action has not been taken.

FRESNO, FRESNO CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, E. S. Kallman Belmont and West streets, Fresno. Location, Buena Vista Addition. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residences, 2, 2 story and base, frame, \$2,000 each. Architect, James T. Narbett, 704 Macdonald avenue, Richmond. Owner, Mathew Morton, 10th Macdonald avenue, Richmond. Location, Pennsylvania avenue between 7th and 8th streets. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL.—Residence, 2 story and base, reinforced concrete. Cost not stated. Architects, Montgomery & Montgomery, Merritt Bldg., L. A. Owner's name not given. Location West Hollywood, covering an area of 100 by 60 feet. Will contain twelve rooms and three baths. Plans being prepared.

LOS ANGELES, CAL.—Residence, 2 story and base, brick. Cost not stated. Architect, Frederick J. Soper, Story Bldg., L. A. Owner, G. E. Hagard, 310 South Hill street, L. A. Location Brentwood Park. Will contain twenty rooms and six baths. Plans complete and figures to be called for shortly.

SALINAS, MONTEREY CO., CAL.—Residence, 2 story and base, frame, \$5,000. Architect, Ralph Wychoff, Watsonville. Owner, M. Mortensen. Will contain eight rooms, bath and sleeping porches. Plans being prepared.

Contracts Awarded.

WATSONVILLE, SANTA CRUZ CO., CAL.—Residence, 2 story and base, frame, \$5,000. Architect, Ralph Wychoff, Watsonville. Owner, C. E. Ford. Contractors, Hamilton & Church, Santa Cruz. Contract price, \$5,000.

SCHOOLS

MODESTO, STANISLAUS CO., CAL.—School, 1 story and base. Class C construction, \$33,000. Architects, De Remer & Hewitt, L. A. Owners, Mo-

desto School District. At the Tuesday night meeting of the Board of Education all bids for the construction of the Class C school building were rejected. Plans will be revised and new figures called. The Board of Education and Architect De Remer will meet Wednesday morning and decide upon what part of the work can best be cheapened and how long it will take to revise the plans. Bids received for the general construction were as follows: Philbrick & Coldin, \$29,896; A. Stevens & Son, \$32,181; and Harvey A. Klyce, \$15,600.

OAKLAND, CAL.—School addition, 2 story, frame, \$13,849. Architect's name not given. Owners, City of Oakland. W. G. Thornally, 5027 East 16th street, Oakland, presented the lowest bid for the addition to the University School and will probably be awarded the contract. A complete list of these bids will be found under the heading of Oakland and Alameda County in this issue.

ALAMEDA, ALAMEDA CO., CAL.—School, 2 story and base, brick, steel and concrete, \$50,000. Architects, Cunningham & Politeo, First National Bank Bldg., S. F. Owners, City of Alameda. A complete list of the bids opened on October 3rd for the construction of the Lincoln School will be found under the heading of Oakland and Alameda County in this issue.

WATSONVILLE, SANTA CRUZ CO., CAL.—School, 1 story and base, frame or concrete, \$15,000. Architect, Ralph Wychoff, Watsonville. Owners, City of Watsonville. Will contain three class rooms and a kindergarten department. Figures are to be taken for both concrete and frame construction. Plans complete and figures being taken.

PAJO ALTO, SANTA CLARA CO., CAL.—Women's buildings, 4, 1 or 2 story, concrete. Cost not stated. Architect, George William Kelham, Sharon Bldg., S. F. Owners, Trustees of Leland Stanford, Jr., University. The architect has just been commissioned to prepare these plans and details have not been given out. Further mention will be made of the work.

HANFORD, KINGS CO., CAL.—School gymnasium, 1 story, frame, \$5,000. Architects, Glass, Butler & Bowser, Republican Bldg., Fresno. Owners, City of Hanford. Will cover an area of 71 by 100 feet. Plans complete and figures to be called for at once.

SAUSALITO, MARIN CO., CAL.—Retaining wall, reinforced concrete. Cost not stated. Architect, none. Owners, City of Sausalito. Bids will be opened on October 16th at 5 p. m. for constructing a concrete retaining wall in front of the High School building. Plans can be secured from E. E. Wood at the High School.

Contracts Awarded.

SAN FRANCISCO—School, 1 story, frame, \$1,420. Architect, Arthur G. Schulz, Phelan Bldg., S. F. Owners, City and County of San Francisco. Contractor, F. Warden. Contract price, \$1,420.

SAN FRANCISCO—Temporary schools, 20, 1 story, frame, \$16,000. Architect, Architectural Department, City Hall. Owners, City and County of San Francisco. Contractor, Fred Warden, 354 Sussex street, S. F. Contract price, \$16,000.

SEWERS, STREET WORK & WATER SYSTEMS

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Richmond. Owners, City of Richmond. Bids will be received up to October 16th at 8 p. m. for street work authorized under the following resolution: That 47th street, formerly Bay avenue, between the right-of-way of the Southern Pacific Company and Potrero avenue be graded, curbed, and sidewalked with cement concrete, paved with a pavement consisting of a 5-inch cement concrete base and a ¾ inch paint coat, consisting of asphalt, petrolastic cement and rock screenings; corrugated iron and cement concrete culvert with cement concrete portals and wing walls; a 12-inch corrugated iron pipe culvert, and an 18-inch corrugated iron pipe culvert with cement concrete catch basins; a cement concrete wall with galvanized iron pipe railing; 6-inch standard, vitrified, salt-glazed pipe sewers, lampholes of standard, vitrified, salt-glazed sewer pipe with cast iron rims and covers; manholes of brick and concrete with cast iron rims and covers and parkings with redwood headers, be constructed all as shown on the plans and specifications hereinafter referred to.

FAIRFIELD, SOLANO CO., CAL.—Road construction. Cost as follows. Engineer, County Surveyor, Fairfield. Owners, Solano County. Engineer, County Surveyor, Fairfield. S. S. Abrams, 130 Kearny street, S. F., presented the lowest figure for the improvement of about 6,400 feet of the Cordelia road. The work includes concrete curbs and small concrete bridges. His bid was \$14,873, considerably below the next bidder, and he has asked to withdraw. The request is being considered by the Board of Supervisors. Following is a complete list of the bids received: S. S. Abrams, S. F., \$14,873; P. H. Hoare, Oakland, \$19,372; Baker & Martin, S. F., \$16,840; Whitlock & Gornall, S. F., \$18,450; W. A. Montaville, Salinas, \$18,382.

VALLEJO, SOLANO CO., CAL.—Street paving. Cost as follows. Engineer, City Engineer, Vallejo. Owners, City of Vallejo. The Worswick Co. of Fresno, were the only bidders submitting an estimate for the paving of Florida street between Sacramento and Santa Clara streets. Their bid was as follows: (1) Regrading 18,817 square feet, 2c per square foot. (2) Concrete base 4 inches thick, 20,057 square feet at 3.5c per square foot. (3) Asphaltic concrete surface 1½ inches thick, 20,057 square feet at 3.5c per square foot. (4) Corrugated iron culvert, 6x18 inches with concrete inverts, 124 linear feet at 70c per square foot. (5) Cast iron lampholes for culverts, 16x16 inches, two at \$12 each. While no award was made, it is expected that the Worswick Co. will be awarded the contract.

RIO VISTA, SOLANO CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Rio Vista. Owners, City of Rio Vista. Bids will be opened on October 16th at 8 p. m. for the improvement of the south-westerly half of Montezuma street from 3rd street to 4th street.

DAILY CITY, SAN MATEO CO., CAL.—Street and sewer work. Cost not stated. Engineer, City Engineer, Daily City. Owners, Daily City. Bids will be

opened on October 23rd for street improvements and closed under the following resolution: That Alpha, Beta, Como, Lake and Lombetta avenues be graded between the property lines and from the east end of Mission road to the east boundary line of Vista Grande Tract No. 2 and Vista Grande Tract No. 3, also Mission road be graded between the east curb line and the east property line thereon and from a line 115.31 feet south of the south line of Gambetta avenue, produced, to a line 265.73 feet north from the north line of Alpha avenue, produced. Also that a 4-inch, vitrified, salt-glazed, ironstone pipe lateral sewers with Y's; cement concrete sidewalks and combined cement concrete gutters 18 inches wide, and armored concrete curbs be constructed, and an asphaltic concrete pavement, consisting of a 4-inch cement concrete base and 12-inch asphaltic concrete surface be constructed in the roadway, etc.

DAILY CITY, SAN MATEO CO., CAL.—Street and sewer work. Cost not stated. Engineer, City Engineer, Daily City. Owners, Daily City. Bids will be opened on October 23rd for street improvements authorized under the following resolutions: That the following portions of Brunswick, Menchster, Hanover, and Rised streets, Bellevue avenue, Frankfurt, Henrietta, Gutterberg, Oliver, Whittier and Lowell streets, etc., be improved by grading, construct combined cement concrete gutters and armored concrete curbs and cement concrete sidewalks, an asphaltic concrete pavement, consisting of a cement concrete base 4 inches in thickness and an asphaltic concrete wearing surface 12 inches in thickness be constructed from gutter line to gutter line; combined sanitary storm water sewers, together with all storm water laterals, brick catch basins and manholes and appurtenances, be constructed of vitrified, salt-glazed, sewer pipe and ditch, vitrified, salt-glazed, ironstone pipe lateral sewers with Y's.

SANTA CRUZ, SANTA CRUZ CO., CAL.—Sewer work. Cost not stated. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. The City Council has instructed the City Engineer to prepare plans and specifications for a 6-inch sewer on Surridge avenue from Pendergast avenue to Delaware avenue, and on that street to Beach curve.

PORTLAND, ORE.—Sewer construction. \$275,000. Engineer, City Engineer, Portland. Owners, City of Portland. City Engineer later has completed plans and specifications for a Tanner Creek trunk sewer. The plans call for the reconstruction in a new course of all that part of the big pipe laid thirty years ago from a point on 15th street, 185 feet south of Taylor street, running in a northeasterly direction to the Willamette at a point near the intersection of Pettygrove and Front streets. The new plans call for construction entirely in street area. The big pipe will run along 11th street. The pipe at Taylor and 17th streets will be 6 feet wide by 8.5 feet high, and at a point where it discharges in the river it will be 6 feet wide and 12 feet in height. Estimates of cost call for \$239,005 for construction and \$135,000 for engineering, advertising and inspection, making a total of \$274,005. The plans and specifications call for either concrete or cement pipe.

STOCKTON, SAN JOAQUIN CO., CAL.—Road construction. \$9,000. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. At the last meeting of the San Joaquin County Supervisors, bids were opened for the improvement of the Brookside road from the Lower Sacramento road to the Sargent-Barnhart tract. This is to be improved with gravel and is to be 12 feet wide. Two bids were received and taken under advisement. Cy Moreing & Sons, Commercial and Savings Bank Bldg., Stockton, gave a bid of \$8,561.50, and A. B. Munson & Son, 1130 East Clay, Stockton, made an offer of \$9,011.74.

RED BLUFF, TEHAMA CO., CAL.—Road work. Cost not stated. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. No bids were received by the County Supervisors for repairing the Red Bluff-Harrison Gulch road, the work was ordered done under the Day Labor system in charge of Supervisor Schafer.

HANFORD, KINGS CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. No bids were received by the Kings County Supervisors for the construction of 13.4 miles of highway running north and east of Hanford and known as Highway No. 4, Divisions Nos. 1, 2 and 3. What action will be taken by the County Board is not known at this time, but it is probable that a new call for bids will be issued.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That 31st street, from the north line of B street to the north line of J street, be improved by constructing concrete curb; concrete gutter; grading the space between the property line and curb; constructing concrete sidewalk; 6 and 8 inch, vitrified, ironstone sewer pipe drains; reconstructing two concrete manholes; constructing eleven concrete manholes complete; placing twenty-seven cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 12 inches thick. Awarded to the McGilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento.

That the alley between K and L Sts., from the east line of 14th street to the west line of 15th street, be improved by constructing one concrete catch basin; placing six linear feet of 8-inch vitrified, ironstone sewer pipe drain connecting catch basin to sewer; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 6 inches thick and a sheet asphalt wearing surface 12 inches thick. Awarded to the McGilivray Construction Co.

That the alley first north of 1st avenue, in Oak Grove, from the manhole in place in the Lower Stockton road to a point 100 feet west from the center line of East avenue, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; three concrete manholes, placing fifty-eight 6-

inch, vitrified, ironstone Y branches on 8-inch sewer, and doing all necessary excavating and backfilling of trenches. Awarded to W. J. Tobin, 735 Filbert street, Oakland.

That the alley first north of Cypress avenue, from the manhole in place of Lower Stockton road to the intersection of the alley first north of First avenue, in Oak Grove, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer with forty 6-inch Y branches; constructing two concrete manholes, complete with cast iron curbs and covers, and backfilling the trench. Awarded to W. J. Tobin.

That the alley between 1st and 2nd avenues and between Fair Oaks street and Lower Stockton road, in Curtis Oaks, be improved by constructing an 8-inch, vitrified, ironstone pipe sewer; two concrete manholes; placing 18 6-inch, vitrified Y branches, one flusher branch, complete, and doing necessary excavating and backfilling of trenches. Awarded to W. J. Tobin.

OAKLAND, CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. The Federal Construction Co., 323 Sharon Bldg., S. F., has been awarded the contract by the City Council for the improvement of that portion of College avenue from the northwest line of Broadway to the southern boundary line of the city of Berkeley, be curbed with concrete, guttered with brick gutters 14 inches wide, and paved with asphalt; fourteen brick manholes, a brick catch basin, a vitrified pipe sewer, having an internal diameter of 21 inches and a vitrified pipe conduit, having an internal diameter of 14 inches.

REDWOOD CITY, SAN MATEO CO., CAL.—Culvert, corrugated iron and concrete. Cost not stated. Engineer, City Engineer, Redwood City. Owners, Redwood City. Bids will be opened on October 23rd for culverts authorized under the following resolutions: That 5 inch by 30 inch and 5 inch by 48 inch ten gauge corrugated iron arch culverts with concrete base and Y branch vents with concrete, base and Y branches, also 18-inch semi-circular 12-inch corrugated iron Y branches, etc., be constructed on Whipple avenue, El Camino Real, Rogers street, Hopkins avenue, Brewster avenue, East Brewster avenue, Broadway and Arguello street.

REDWOOD CITY, SAN MATEO CO., CAL.—Retaining wall, concrete. \$4,441.50. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. At the last meeting of the County Supervisors, one bid was received for the construction of the retaining walls and concrete bulkheads on the Redwood City to San Gregorio road. William Monk, Sharon Bldg., San Francisco, submitted a figure of \$4,441.50, which was considerably in excess of the estimate of the engineer. The bid was rejected.

FRESNO, FRESNO CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be received on October 16th for sewer construction authorized under the following resolution: That 4 and 6-inch sewer, Y branches, etc., be constructed in the alley in block 296, alley in block 314, etc. (The sewer pipe to be of the best quality vitrified, salt-glazed, ironstone pipe).

SAN RAFAEL, MARIN CO., CAL.—Street improvements, etc. Cost not stated. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. Bids will be opened on October 16th at 8 p. m. for the following street improvements: That that portion of Clark street between San Rafael avenue and Florinda avenue be graded and paved with a rock macadam pavement, concrete curb and concrete gutter be constructed on both sides thereof. Also that three corrugated iron and concrete culverts, and two cast iron manholes, and two cast iron gutter gratings be constructed. For the filling and grading of the San Rafael and San Quentin toll road, from the easterly line of Irwin street to the easterly corporate limits. Excavating and cleaning out the Nahon Creek to a bottom width of 16 feet wide, slope of 1 m. 1. That West End avenue, East street, Jessup street, Harte street and West street, be graded and paved with a rock macadam pavement, corrugated iron culverts and catch basins.

Contracts Awarded.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, City Hall. Owners, City and County of San Francisco. Contracts for street improvements have been awarded as follows: The improvement of 18th street between Potrero avenue and Utah street by constructing granite curbs, and paving the roadway with a basalt block pavement with a gravel filler on a sand foundation with basalt block gutters. Awarded to Colman O'Toole, 697 Rhode Island street, S. F., for \$1,700.

The improvement on the east side of 16th avenue between Clement and California street by the construction of artificial stone sidewalks 9 feet wide in the middle of the sidewalk area where artificial stone sidewalks have not already been constructed at least 9 feet wide. Awarded to A. O. Field, 1165 20th avenue, for \$187.36.

The improvement of Minna street between 10th and 11th streets by the construction of brick catch basins; a 12-inch, vitrified, salt-glazed, ironstone pipe sewer with 24 Y branches; by re-dressing and resetting existing granite curbs; and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation with a 1½-inch asphaltic binder course and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to D. O. Church Co., 68 Post street, for \$1,880.25.

REDDING, SHASTA CO., CAL.—Road work, \$4,800. Engineer, County Surveyor, Redding. Owners, Shasta County. Contractor, Jesse Sutton, Anderson. Contract price, \$4,800.

BAKERSFIELD, KERN CO., CAL.—Road construction, \$25,288. Engineer, County Surveyor, Bakersfield. Owners, Kern County, George S. Benson & Sons, 531 Stimson Bldg., L. A. have been awarded the contract for the construction of division 4, section 1, Rio Bravo-Wasco road by the Board of Supervisors. This firm's bid was for \$25,288, and was recommended by the Kern County Highway Commission. The other bidders for this work were as follows: W. C. Price & Co., \$29,538; Brashear-Burns Co., \$27,452.20; Highton & Cook, \$29,194; Messmer & Rice, \$22,592.

SALINAS, MONTEREY CO., CAL.—Street improvement, \$4,988.27. Engi-

neer, City Engineer, Salinas. Owners, City of Salinas. Contractor, Dan McCormick, Salinas. Contract price, \$4,988.27.

FAIRFIELD, SOLANO CO., CAL.—Highway improvement, \$1,873. Engineer, County Surveyor, Fairfield. Owners, Solano County. Contractor, S. S. Abrams, 139 Kearny street, S. F. Contract price, \$1,873.

SAN RAFAEL, MARIN CO., CAL.—Sewer construction, \$9,370.86. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. At the last meeting of the City Council, bids for installing storm sewers on H, D and Bay View streets were opened. The contract was awarded to Baker & Martin for \$9,370.86. The following were the bidders: H. M. Dam, \$9,528.50, A. Ghilotti for part of the work, \$9,757; Carl Ehrhart, \$15,000; D. C. Church Co., \$20,000; P. S. Strander, \$13,000; E. Mathieson, \$9,992.50; Wm. H. Hoge, \$11,999; Meltay & Lazay, \$12,500.

RICHMOND, CONTRA COSTA CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Richmond. Owners, City of Richmond, The Raven Company, 309 Macdonald avenue Richmond, being the lowest bidder, the City Council awarded them the contract for the following work: That the alley between Bishop avenue and Crest avenue, from the center line of the alley running from Front avenue to Crest avenue northeast a distance of 280 feet, a portion of Bishop avenue and Front street, be improved by constructing 8 and 12 and 6-inch, vitrified, salt-glazed sewer pipe, manholes of brick and concrete, lampholes of vitrified; salt-glazed sewer pipe, Y branches, vitrified, salt-glazed sewer pipe and risers of vitrified, salt-glazed sewer pipe with bends and tees with cast iron vents and covers, be constructed on said sewers.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. The following contracts for street improvements have been awarded by the Board of Public Works: The improvement of Noe street between Laidley and 20th streets by the construction of concrete curbs and of a vitrified brick pavement on the roadway thereof. Awarded to T. Gallagher. Cost, \$605.40.

The improvement of Bonview street between Eugenia and Cortland avenues by the construction of concrete curbs, one brick manhole; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to D. O. Church Co., 68 Post street. Cost, \$2,740.36.

The improvement of Oakdale avenue between San Bruno avenue and Selby street by the construction of granite curbs; artificial stone sidewalks on the angular corners of the intervening street crossings and intersections, and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Finn & Treacy, 404 First National Bank Bldg. Cost, \$25,334.10.

The improvement of Athens street between Persia and Russia avenues, by the construction of granite curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Finn & Treacy, First National Bank Bldg. Cost, \$1,085.

The improvement of De Haro street between 19th and 20th streets, by grading to official line and grade, by the construction of a 12-inch, vitrified salt-glazed ironstone pipe sewer with 24 Y branches and two brick manholes with cast iron frames and covers and galvanized wrought iron steps along the center line of De Haro street. Awarded to J. P. Holland, 350 3rd street. Cost, \$8,872.50.

STORES AND OFFICES

SAN FRANCISCO—Stores, 1 story and base, brick, \$10,000. Architects, Faleh & Knoll, Hearst Bldg., S. F. Owners, Eisenbach Co. Location, southeast 9th avenue and Cabildo, covering an area of 25 by 100 feet. Will contain several small stores. Plans nearly complete and figures to be called for shortly.

SAN FRANCISCO—Stores, 1 story and base, brick, \$10,000. Architects, Faleh & Knoll, Hearst Bldg., S. F. Owners, Eisenbach Co. Location, southeast 9th avenue and Cabildo, covering an area of 25 by 100 feet. Will contain two stores and a large market. Plans complete and figures being taken.

OAKLAND, CAL.—Stores and offices 1 story and base, frame, \$16,000. Architect, Julia Morgan, Merchants' Exchange Bldg., S. F. Owner, Mrs. E. L. Turner. Location, northwest 16th and Piedmont avenue. Will contain stores on the ground floor and a number of offices above. Plans complete.

SACRAMENTO, CAL.—Store alteration, 3 story. Class C construction, \$5,000. Architect, Albert Lapachet, 119 Sutter street, S. F. Owner, Louis Schindler, leased to the China Toggery. Work will consist of new store fronts, plumbing, painting and interior trim. Plans being prepared.

ESCALON, SAN JOAQUIN CO., CAL.—Stores, 1 story and base, brick, \$6,000. Architect, Ralph P. Morrill, Odd Fellows' Bldg., Stockton. Owner, Mr. Lwin. Will contain three small stores. Plans being prepared.

SAN JOSE, SANTA CLARA CO., CAL.—Stores, 2 story and base. Class C construction, \$15,000. Architect, William Binder, Rea Bldg., San Jose. Owner, Hiram Thompson. Location, South First street. Designed for a cafeteria on the first floor and offices above. Plans complete and figures to be called for shortly.

WATSONVILLE, SANTA CRUZ CO., CAL.—Store alterations, brick. Cost not stated. Architect, Ralph Wychoff Watsonville. Owners, Fred & Sanborn. Work will consist of new store fronts (tile wainscot and base and terra cotta tile roof). Plans being prepared.

VISALIA, TULARE CO., CAL.—Stores, 1 story and base, brick, \$10,000. Architect, none. Owner, Robert Johnson Visalia. Location, West Main street, covering an area of 66 by 125 feet. Plans being prepared.

DOS PALOS, FRESNO CO., CAL.—Stores, 1 story and base, brick. Cost not stated. Architect, Ernest Kump Rowell Bldg., Fresno. Owner's name not given. Location, Main street, covering an area of 50 by 75 feet. Will contain two stores. Plans being prepared.

THEATRES.

SAN FRANCISCO—Theatre, 2 story and base. Class A construction, \$250,000. Architect, Alfred Henry Jacobs, 110 Sutter street, S. F. Owners, Market Street Realty Co., leased to The California Theatre. Location, south-east Market and Fourth streets, covering an area of 100 by 170 feet. Will have a seating capacity of 3,000 people. Steel contract awarded, and bids for excavating being taken. Other parts of the work to be segregated.

SEALED PROPOSALS

NOTICE TO CONTRACTORS.

SEALED BIDS will be received by W. F. McClure, State Engineer, Forum Building, Sacramento, California, **up to and including 12 o'clock, noon, Monday, October 30, 1916**, said bids then and there to be publicly opened and read for furnishing all plant, materials, and labor, and doing the work and specifications for the complete construction and erection of "Cottage No. 16," Southern California State Hospital, Patton, California, in accordance with the plans and specifications therefor, copies of which may be obtained on application to the State Department of Engineering, Sacramento, California.

Such bids will be received for the Entire Work, and must be submitted on forms prepared and furnished by the State Department of Engineering.

Cash, a bidder's bond, for a certified check in the sum of ten per centum (10%) of the amount of the bid must accompany each bid.

A deposit of Fifty (\$50.00) Dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the State Department of Engineering, at Sacramento, California, in good condition.

The State Department of Engineering reserves the right to reject any and all bids and to waive any informality in any bid received.

All bids must be addressed to W. F. McClure, State Engineer, Sacramento, California, and plainly marked on the envelope: "Proposal for 'Cottage No. 16,' Southern California State Hospital, Patton, California."

(SIGNED) W. F. McCLURE, State Engineer. (*)

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1063—Proposals for Equipment for Hydro-Electric Station, including Penstocks, Water Turbine-Driven Exciter, Power Transformers, Induction Motor-Driven Pumps and Travelling Crane.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:30 a. m., October 19, 1916**, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1063) may be obtained from this office or the offices of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; EARL J. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

INVITATION FOR PROPOSALS.

TREASURY Department, Supervising Architect's Office, Washington, D. C., October 2, 1916.—Sealed proposals will be opened in this office at 2 p. m., **November 10, 1916**, for the construction complete of the United States Post Office at Wenatchee, Washington. Drawings and specifications may be obtained from the Custodian of site at Wenatchee, Washington, or at this office, in the discretion of the Supervising Architect, JAS. A. WETMORE, Acting Supervising Architect.

PROPOSALS FOR CRANE.

CRANE—Sealed proposals Indorsed "Proposals for Locomotive Crane" will be received at the bureau of yards and

docks, Navy Department, Washington, D. C., until **11 o'clock a. m., November 11, 1916**, and then and there publicly opened, for a locomotive jib crane of 50 gross tons capacity at the naval station, Pearl Harbor, T. H. Plan and specification can be obtained on application to the bureau or to the commandant of the naval station named, F. R. HARRIS, chief of bureau.

PROPOSALS FOR HYDROELECTRIC MACHINERY.

HYDROELECTRIC MACHINERY AND EQUIPMENT—Department of the Interior, Washington, D. C.—Sealed proposals will be received in the office of the supervisor of Yosemite National Park until 2 p. m., **Thursday, October 12, 1916**, and then opened, for the furnishing or installation or both of hydroelectric equipment for the park, consisting of a vertical wheel, generator, transformers and switchboard, in accordance with plans and specifications, copies of which can be obtained from the supervisor of the park or from the law firm of A. Markwart, 722 First National Bank Bldg., San Francisco, Cal. Proposals will be received for subdivisions of the work. The right is reserved to reject any and all bids, to waive technical defects and to accept one part and reject the other, as the interest of the government may require. Proposals should be securely enveloped, marked "Proposals for Hydroelectric Equipment" and addressed to W. B. Lewis, supervisor, Yosemite National Park, Yosemite, Cal. Bo SWEENEY, assistant secretary.

PROPOSALS FOR CRANE.

CRANE—Sealed proposals indorsed "Proposals for Floating Crane" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m., November 11, 1916**, and then and there publicly opened, for a 250-ton floating revolving crane for the navy yard, Mare Island, Cal. Specifications can be obtained on application to the bureau or to the commandant of the navy yard named, F. R. HARRIS, chief of bureau.

PROPOSALS FOR RECLAMATION WORK.

RECLAMATION WORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, St. Ignatius, Mont., until **2 o'clock p. m., October 10, 1916**, for the construction of canals and structures on the Flathead project Montana, involving about 165,000 cubic yards of excavation, 425 cubic yards of reinforced concrete, 1,100 square yards of paving, laying 1,000 linear feet of vitrified pipe, erecting 64,000 feet, b. m. of lumber, erecting 2,300 linear feet of steel flume and placing 36,000 pounds of structural and reinforcing steel. The work is located near St. Ignatius and Dixon, Mont. For

particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or St. Ignatius, Mont. A. P. DAVIS, chief engineer.

SEA WALL CONSTRUCTION—Cost not stated. San Francisco. Engineer, Constructing Quartermaster's Office, Fort Mason. Owners, United States Government. Plans have been approved by the War Department for the construction of a concrete sea wall at Fort Point in the Presidio of San Francisco. Plans call for about 260 feet of solid granite wall. Bids will be called for shortly.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, none. Owner, W. H. Keenan, Fulton and Masonic avenue, S. F. Location, west Alameda north Fulton. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, none. Owner, James Welsh, 543 15th avenue, S. F. Location, west 18th avenue north Balboa. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FLATS—2, 2 story and base, frame, \$3,000 each. San Francisco. Architect, none. Owner, Thomas Hamill, 5535 Geary street, S. F. Location, west 25th avenue south Anza. Each building will cover an area of 25 by 45 feet and contain two flats of five rooms each. Basement garages. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$15,800. San Francisco. Architect, Bernard J. Joseph, Call-Post Bldg., S. F. Owner, Harry P. Franklin. Location, Pacific avenue east Buchanan, covering an area of 32 by 90 feet. Will contain two large residential flats. Plans complete and figures being taken.

LAYING HIGH PRESSURE MAINS—\$8,750. San Francisco. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. E. M. Whitlock submitted the lowest figures for laying high pressure mains and will probably be awarded the contract. A complete list of the bids received will be found under the heading of San Francisco in this issue.

APARTMENT HOUSE—3 story and base, frame. Cost not stated. San Francisco. Architect, W. J. Keenan, 2 Alameda Terrace, S. F. Location, Masonic and Fulton. Will contain sixteen apartments of three and four rooms and basement garage. Stores on the Masonic street frontage. Plans being prepared.

COPPER WIRE—Cost not stated. San Francisco. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Bids will be opened on October 18th for furnishing copper wire for the Hetch Hetchy project.

STREET IMPROVEMENTS—Cost as follows. San Francisco. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. The following contracts for street improvements have been awarded by the Board of Public Works: The improvement of Noe street between Laidley and 30th

streets by the construction of concrete curbs and of a vitrified brick pavement on the roadway thereof. Awarded to T. Gallagher. Cost, \$605.40.

The improvement of Bonview street between Eugenia and Cortland avenues by the construction of concrete curbs, one brick manhole; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to D. O. Church Co., 68 Post street. Cost, \$2,740.26.

The improvement of Oakdale avenue between San Bruno avenue and Selby street by the construction of granite curbs; artificial stone sidewalks on the angular corners of the intervening street crossings and intersections and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn & Treacy, 404 First National Bank Bldg. Cost, \$25,331.10.

The improvement of Athens street between Peoria and Russia avenues by the construction of granite curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn & Treacy First National Bank Bldg. Cost, \$1,085.

The improvement of De Haro street between 19th and 20th streets by grading to official line and grade by the construction of a 12-inch, vitrified, salt-glazed, ironstone pipe sewer with 29 Y branches and two brick manholes with cast iron frames and covers and galvanized wrought iron steps along the center line of De Haro street. Awarded to J. P. Holland, 550 Third St. Cost, \$8,872.50.

RESIDENCES—2, 2 story and base, frame, \$2,500 each. San Francisco. Architect, none. Owner, F. Nelson, 2701 Lincoln Way, S. F. Location, west Hillway south Carl and north Parnassus. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

PACKING HOUSE—3 story, mill construction, \$15,000. San Francisco. Architect, Hermann Barth, 12 Geary St., S. F. Owners, Frye & Co. Location, southeast Front and Pacific streets, covering a large ground area. Contract for excavating awarded. Plans complete for balance of the work and figures being taken. Bids close on October 16th.

CLUB HOUSE—1 and 2 story, frame and plaster, \$50,000. San Francisco. Architect, George William Kelham, Sharon Bldg., S. F. Owners, San Francisco Golf and County Club. Location, Great Highway. Will contain banquet room, social rooms, kitchen and sleeping apartments. Plans nearly complete and figures to be taken in January when work on the links is completed.

HOTEL ALTERATIONS—Steel and concrete, \$15,000. San Francisco. Architects, Wright & Rushforth, 354 Pine street, S. F. Owners, Otis Estate. Location 1217 to 1245 Market street. This work will consist of constructing a sun porch on the front of the present building, extending two elevators, construct-

ing additional fireproof stairs and installing three emergency exit doors. Plans complete and contract to be awarded at once.

STORES—1 story and base, brick \$10,000. San Francisco. Architects, Patch & Knoll, Hearst Bldg., S. F. Owners, Eisenbach Co. Location, southeast 9th avenue and Cabrillo, covering an area of 25 by 100 feet. Will contain two stores and a large market. Plans complete and figures being taken.

STORES—1 story and base. Class C construction, \$10,000. San Francisco. Architect, H. C. Skidmore, Hearst Bldg., S. F. Owner's name not given. Location, Larkin street. Will contain several small stores. Plans nearly complete and figures to be called for shortly.

TEMPORARY SCHOOLS—20 1 story, frame, \$16,000. San Francisco. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. Contractor Fred Warden, 354 Sussex street, S. F. Contract price, \$16,000.

THEATRE—2 story and base. Class A construction, \$250,000. San Francisco. Architect, Alfred Henry Jacobs 110 Sutter street S. F. Owners, Market Street Realty Co., leased to The California Theatre. Location, southeast Market and Fourth streets, covering an area of 100 by 170 feet. Will have a seating capacity of 3,000 people. Steel contract awarded, and bids for excavating being taken. Other parts of the work to be segregated.

Contracts Awarded

STREET IMPROVEMENTS—Cost as follows: San Francisco. Engineer, City Engineer, City Hall. Owners, City and County of San Francisco. Contracts for street improvements have been awarded as follows: The improvement of 18th street between Potrero avenue and Utah street by constructing granite curbs, and paving the roadway with a basalt block pavement with a gravel filler on a sand foundation, with basalt block gutters. Awarded to Colman O'Toole, 67 Rhode Island, street, S. F.

The improvement on the east side of 18th street between Clement and California street by the construction of artificial stone sidewalks 9 feet wide in the middle of the sidewalk area, where artificial stone sidewalks have not already been constructed at least 9 feet wide. Awarded to A. O. Field, 1465 29th avenue, for \$187.38.

The improvement of Minna street between 10th and 11th streets by the construction of brick catch basins; a 12-inch, vitrified, salt-glazed, ironstone pipe sewer with 24 Y branches; by re-dressing and resetting existing granite curbs; and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation with a 1 1/2-inch asphaltic binder course and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to D. O. Church Co., 68 Post street, S. F., for \$1,880.25.

SEA WALL CONSTRUCTION—\$66,150. San Francisco. Engineer, Assistant State Engineer, Ferry Bldg., S. F. Own-

ers, State of California. Contractors, Blake Bros., Oakland Bank of Savings Bldg., Oakland. Contract price, \$66,150.

Old building moved and foundation under same, also new part and frame of new up.....\$400

Enclosed and brown coated.....300

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. So the **F-W-D** lasts years longer. The **F-W-D** eliminates minor and major breakdowns that lose time and minimize your profits. The **F-W-D** keeps **ON** the road and **OUT** of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

SAN JOSE AND THE SANTA CLARA VALLEY

RESIDENCE—2 story and base frame, \$5,000. Salinas, Monterey Co., Cal. Architect, Ralph Wychoff, Watsonville. Owner, M. Mortensen. Will contain eight rooms, bath and sleeping porches. Plans being prepared.

STREET AND SEWER WORK—Cost not stated. Daly City, San Mateo Co., Cal. Engineer, City Engineer, Daly City. Owners, Daly City. Bids will be opened on October 23rd at 8 p. m. for street improvements authorized under the following resolutions: That Alpha avenue, Beta avenue, Como avenue, Lake avenue and Bambetta avenue be graded between the property lines and from the east line of Mission road to the east boundary line of Vista Grande Tract No. 2 and Vista Grande Tract No. 3; also Mission road be graded between the east curb line and the east property line thereof, and from a line 115.21 feet south of the south line of Gamietta avenue, produced, to a line 305.73 feet north from the north line of Alpha avenue, produced. Also that a 4-inch, vitrified, salt-glazed, ironstone pipe lateral sewers, with Y's; cement concrete sidewalks, and combined cement concrete gutters 11 inches wide, and armored concrete curbs be constructed; and an asphaltic concrete pavement, consisting of a 4-inch cement concrete base and 1½ inch asphaltic concrete surface be constructed in the roadway, etc.

STREET AND SEWER WORK—Cost not stated. Daly City, San Mateo Co., Cal. Engineer, City Engineer, Daly City. Owners, Daly City. Bids will be opened on October 23rd for street im-

provements authorized under the following resolutions: That the following portions Bruswick street, Hanover street, Risel street, Bellevue avenue, Frankfort street, Henrietta street, Guttenburg street, Oliver, Whittier, Lowell, etc., be improved by grading; constructing combined cement concrete gutters and armored concrete curbs and cement concrete sidewalks; an asphaltic concrete pavement, consisting of a cement concrete base 4 inches in thickness and an asphaltic concrete wearing surface 1½ inches in thickness, be constructed from gutter line to gutter line; combined sanitary storm water sewers; together with all storm water laterals; brick catch basins and manholes and appurtenances, be constructed of vitrified, salt-glazed, sewer pipe and 4-inch, vitrified, salt-glazed, ironstone pipe lateral sewers with Y's.

SEWER WORK—Cost not stated. Santa Cruz, Santa Cruz Co., Cal. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. The City Council has instructed the City Engineer to prepare plans and specifications for a six-inch sewer on Surfside avenue, from Pendergast avenue to Delaware avenue, and on that street to Beach curve.

CULVERT—Corrugated iron and concrete. Cost not stated. Redwood City, San Mateo Co., Cal. Engineer, City Engineer, Redwood City. Owners, Redwood City. Bids will be opened on October 23rd for culverts authorized under the following resolutions: That 5 inch by 30 inch and 5 inch by 48 inch ten gauge corrugated iron arch culverts with concrete base and Y branches; also 18 inch semi-circular twelve corrugated iron Y branches, etc., be constructed on Whipple avenue, El Camino Real, Rogers street, Hopkins avenue, Brewster avenue, East Brewster avenue, Broadway and Arguello street.

RETAINING WALL—Concrete, \$4,441.50. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. At the last meeting of the County Supervisors, one bid was received for the construction of the retaining walls and concrete bulkheads on the Redwood City to San Gregorio road. William Monk, Sharon Bldg., S. F., submitted a figure of \$4,441.50, which was considerably in excess of the estimate of the engineer. The bid was rejected.

RESIDENCE—3 story and base. Class A construction, \$50,000. Palo Alto, Santa Clara Co., Cal. Architect, Louis Christian Mulgard, Chronicle Bldg., S. F. Owners, Trustees of Leland Stanford, Jr., University. Bids have been opened for the construction of the three-story Class A residence to be erected on the Campus at Palo Alto for the President, David Starr Jordan. The Dinwiddie Construction Co, Crocker Bldg., S. F., presented the lowest bid at \$92,800 and will probably be awarded the contract although such action has not been taken.

HOTEL ADDITION—2 story and base, reinforced concrete, \$50,000. San Jose, Santa Clara Co., Cal. Architect, William Binder, Itca Bldg., San Jose. Owners, Hotel Montgomery. Location, San Antonio street. New portion of the building will contain sample room, kitchen and a banquet room. Plans are being prepared.

SCHOOL—1 story and base, frame or concrete, \$15,000. Watsonville, Santa

Cruz Co., Cal. Architect, Ralph Wychoff, Watsonville. Will contain three class rooms and a kindergarten department. Figures are to be taken for both concrete and frame construction. Plans complete and figures being taken.

WOMEN'S BUILDINGS—4, 1 or 2 story, concrete. Cost not stated. Paic Alto, Santa Clara Co., Cal. Architect, George William Keiham, Sharon Bldg., S. F. Owners, Trustees of Leland Stanford, Jr., University. The architect has just been commissioned to prepare these plans and details have not been given out. Further mention will be made of the work.

STORES—2 story and base. Class C construction, \$15,000. San Jose, Santa Clara Co., Cal. Architect, William Binder, Rea Bldg., San Jose. Owner Hiram Thompson. Location, South First street. Designed for a cafeteria on the first floor and offices above. Plans complete and figures to be called for shortly.

STORE ALTERATIONS—Brick. Cost not stated. Watsonville, Santa Cruz Co., Cal. Architect, Ralph Wychoff, Watsonville. Owners, Fred & Sanborn Work will consist of new store fronts, tile wainscot and base and terra cotta tile roof. Plans being prepared.

Contracts Awarded.

STREET IMPROVEMENT—\$4,988.27. Salinas, Monterey Co., Cal. Engineer, City Engineer, Salinas. Owners, City of Salinas. Contractor, Dan McCormick, Salinas. Contract price, \$4,988.27.

BRIDGES—Reinforced concrete. Cost as follows. San Jose, Santa Clara Co., Cal. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Bids have been received and the following contracts awarded for bridges: Montague Road Bridge—John Williams San Jose (awarded) \$1,570; James Casley, \$1,698; R. H. Jamison, \$1,600; John Doyle, \$1,597; S. Sciarino, \$1,580; Baker & Martin, \$1,925; L. T. McFadden, \$2,399. County Surveyor's estimate, \$1,505.

McKean Road Bridge—John Doyle, 660 north 10th street, San Jose, awarded contract, \$2,650; John Williams, \$2,738; William Martin, \$2,975; S. Sciarino, \$2,850; Baker & Martin, \$4,208. County Surveyor's estimate, \$2,940. All bids for the construction of a drainage ditch were rejected, as the amount asked was nearly twice the amount of the Engineer's estimate.

BANK PROTECTION—\$10,000. Salinas, Monterey Co., Cal. Engineer, County Surveyor, Salinas. Owners, Monterey County. Contractors, Midland Bridge Co., St. Louis, Mo. Contract price, \$10,000.

BRIDGE—Reinforced concrete, \$2,460. Hollister, San Benito Co., Cal. Engineer, County Surveyor W. A. Winn, Hollister. Owners, San Benito County. Contractor, R. B. Williams, Hollister. Contract price, \$2,460.

RESIDENCE—2 story and base, frame, \$5,000. Watsonville, Santa Cruz Co., Cal. Architect, Ralph Wychoff, Watsonville. Owner, C. E. Ford. Contractors, Hamilton & Church, Santa Cruz. Contract price, \$5,000.

MARIN, CONTRA COSTA AND SONOMA COUNTIES

STREET IMPROVEMENTS—Cost not stated. Richmond, Contra Costa Co., Cal. Engineer, City Engineer, Richmond. Owners, City of Richmond. Bids will be received up to October 16th at 8 p. m. for street work authorized under the following resolution: That Forty-Seventh street, formerly Bay avenue, between the right-of-way of the Southern Pacific Company and Potrero avenue, be graded, culbed, and sidewalked with cement concrete, paved with a pavement consisting of a five-inch cement concrete base and a three-fourths inch paint coat consisting of asphalt, petroleastic cement and rock screenings, corrugated iron and cement concrete culvert with cement concrete portals and wing walls, a twelve-inch corrugated iron pipe culvert, and an eighteen-inch corrugated iron pipe culvert with cement concrete catch basins, a cement concrete wall with galvanized iron pipe railing, six-inch standard vitrified, salt-glazed, sewer pipe with cast iron rims and covers; manholes of brick and concrete with cast iron rims and covers, and parkings with redwood headers, be constructed all as shown on the plans and specifications hereinafter referred to.

STREET PAVING—Cost as follows. Vallejo, Solano Co., Cal. Engineer, City Engineer, Vallejo. Owners, City of Vallejo. The Worswick Construction Co., of Fresno, were the only bidders submitting an estimate for the paving of Florida street between Sacramento and Santa Clara streets. Their bid was as follows: (1) Regrading 18x17 square feet, 2c per square foot. (2) Concrete base, 1 inches thick, 20,087 square feet at 8.92c per square foot. (3) Asphaltic concrete surface 1½ inches thick, 20,087 square feet at 3.5c per square foot. (4) Corrugated iron culvert, 6x18 inches with concrete inverts, 124 linear feet at 79c per square foot. (5) Cast iron handholes for culverts, 16x16 inches, two at \$12 each. While no award was made it is expected that the Worswick Co. will be awarded the contract.

ROAD CONSTRUCTION—Cost as follows. Fairfield, Solano Co., Cal. Engineer, County Surveyor, Fairfield. Owners, Solano County. S. S. Abrams, 130 Kearny street, San Francisco, presented the lowest figure for the improvement of about 6,400 feet of the Cordelia road. The work includes concrete curbs and small concrete bridges. His bid was \$14,873, considerably below the next bidder, and he has asked to withdraw. The request is being considered by the Board of Supervisors. Following is a complete list of the bids received: S. S. Abrams, San Francisco, \$14,873; P. H. Hoare, Oakland, \$19,372; Baker & Martin, San Francisco, \$16,849; Whitlock & Gerrill, San Francisco, \$18,450; W. A. Dontanville, Salinas, \$18,382.

STREET IMPROVEMENT—Cost not stated. Rio Vista, Solano Co., Cal. Engineer, City Engineer, Rio Vista. Owners, City of Rio Vista. Bids will be opened on October 16th at 8 p. m. for the improvement of the southwesterly half of Montezuma street from 3rd street to 4th street.

LAYING WATER MAINS—Cost not stated. Rio Vista, Solano Co., Cal. Engineer, City Engineer, Rio Vista. Owners, City of Rio Vista. Bids will be opened on October 19th at 8 p. m. for laying of an 8-inch water main, consisting of approximately 2,900 feet of 8-inch pipe to run from the pump house at the foot of Main street along Main street, Front street, Bruning avenue and the alleys in block 36, to connect with the steel water tower at the head of St. Gertrude's avenue.

STREET IMPROVEMENTS, ETC.—Cost not stated. San Rafael, Marin Co., Cal. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. Bids will be opened on October 16th at 8 p. m. for the following street improvements: That that portion of Clark St., between San Rafael avenue and Clorinda avenue, be graded and paved with a rock macadam pavement, concrete curb and concrete gutter be constructed on both sides thereof. Also, that three corrugated iron and concrete culverts and two cast iron manholes, and two cast iron gutter gratings be constructed. For the filling and grading of the San Rafael and San Quentin toll road from the easterly line of Irwin street to the easterly corporate limits. Excavating and cleaning out the Mahon Creek to a bottom width of sixteen wide, slope of 1 in 1. That West End avenue, East street, Jessup street, Harte street and West street be graded and paved with a rock macadam pavement, corrugated iron culverts and catch basins.

SEWER CONSTRUCTION—Cost not stated. Richmond, Contra Costa Co., Cal. Engineer, City Engineer, Richmond. Owners, City of Richmond. The Raven Company, 909 McDonald avenue, Richmond, being the lowest bidder the City Council awarded them the contract for the following work: That the alley between Bishop avenue and Crest avenue, from the center line of the alley running from Front Ave. to Crest Ave., northeast a distance of 250 feet, a portion of Bishop avenue and Front street, be improved by constructing 8 and 12 and 6 inch, vitrified, salt-glazed sewer pipe, manholes of brick and concrete, lampholes of vitrified, salt-glazed sewer pipe, and Y branches; vitrified, salt-glazed sewer pipe and risers of

vitrified, salt-glazed sewer pipe with bends and tees with cast iron vents and covers, be constructed on said sewers.

RESIDENCES—2, 2 story and base frame, \$2,600 each. Richmond, Contra Costa Co., Cal. Architect, James T. Nabett, 794 Macdonald avenue, Richmond. Owner Mathew Morton, 10th and Macdonald avenue, Richmond. Location Pennsylvania avenue between 7th and 8th streets. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base frame, \$1,200. Richmond, Contra Costa Co., Cal. Architect, none. Owner, T. E. Taylor, 538 20th street, Richmond. Location, Panama and Roosevelt avenue. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

LODGE HALL—1 story, frame and plaster, \$14,112. San Rafael, Marin Co., Cal. Architect, Charles W. Drysdale, Sharon Bldg., S. F. Owners, San Rafael Elks Hall Association. T. Saywell submitted the lowest bid for this work and will probably be awarded the contract.

RETAINING WALL—Reinforced concrete. Cost not stated. Sausalito, Marin Co., Cal. Architect, none. Owners, City of Sausalito. Bids will be opened on October 16th for constructing a concrete retaining wall in front of the High School building. Plans can be secured from E. E. Wood at the High school.

Contracts Awarded

HIGHWAY IMPROVEMENT—\$14,873. Fairfield, Solano Co., Cal. Engineer, County Surveyor, Fairfield. Owners, Solano County. Contractor, S. S. Abrams, 130 Kearny street, S. F. Contract price, \$14,873.

SEWER CONSTRUCTION—\$9,370.86. San Rafael, Marin Co., Cal. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. At the last meeting of the City Council, bids for installing storm sewers on H. D. and Bay View streets were opened. The contract was awarded to Baker & Martin for \$9,370.86. The following were the bidders: H. M. Pan, \$9,528.50; A. Ghilotti for part of the work, \$8,795; Carl Erhart, \$15,000; D. C. Church Co., \$20,000; F. S. Strander, \$13,600; E. Mathiesen, \$9,892.50; Wm. B. Hoge, \$11,999; McKay & Lazay, \$12,500.

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

STORES—1 story and base, brick, \$10,000. Visalia, Tulare Co., Cal. Architect, none. Owner, Robert Johnson Visalia. Location, West Main street covering an area of 66 by 127 feet. Plans being prepared.

ROAD CONSTRUCTION — Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford Owners, Kings County. No bids were received by the Kings County Supervisors for the construction of 13½ miles of highway running north and east of Hanford, and known as Highway No. 4, Divisions Nos. 1, 2, and 3. What action will be taken by the County Board is not known at this time, but it is probable that a new call for bids will be issued.

ROAD CONSTRUCTION — \$25,288. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. George S. Benson & Sons, 531 Stinson Bldg., L. A., have been awarded the contract for the construction of division 1, section 1, Rio Bravo-Wasco road by the Board of Supervisors. This firm's bid was for \$25,288 and was recommended by the Kern County Highway Commission. The other bidders for this work were as follows: W. G. Price & Co., \$29,538; Brasher-Burns, \$27,153.29; Highton & Cook, \$29,194; Mesmer & Rice, \$32,502.

RESIDENCE — 2 story and base, frame, \$5,000. Fresno, Fresno Co., Cal. Architect, Ernest Kump, Rowell Bldg., Fresno. Owner, W. H. Kump. Location, Alta Vista Tract. Will contain eight rooms, bath and sleeping porches. Plans complete and work to be done by Day Labor.

RESIDENCE — 2 story and base, brick and frame, cost not stated. Fresno, Fresno Co., Cal. Architects, Crosbie & Judson, Fresno. Owner, F. W. Pusey. Location, 12 miles east of

Fresno. Will contain ten rooms, three baths, and sleeping porch. Concrete swimming pool is also included. Plans complete and figures being taken.

SCHOOL—1 story and base. Class C construction, \$33,000. Modesto, Stanislaus Co., Cal. Architects, De Remer & Hewitt, L. A. Owners, Modesto School District. At the Tuesday night meeting of the board of Education, all bids for the construction of the Class C school building were rejected. Plans will be revised and new figures called. The board of Education and Architect De Remer will meet Wednesday morning and decide upon what part of the work can best be cheapened and how long it will take to revise the plans. Bids received for the general construction were as follows: Philbrick & Coldin, \$29,806; A. Stevens & Son, \$32,181, and Harvey A. Klyce, \$45,000.

BRIDGE APPROACHES — \$1,095. Fresno, Fresno Co., Cal. Engineer, City Engineer, Fresno. Owners, City of Fresno. Contractor, J. E. Mitchell, 201 N street, Fresno. Contract price, \$1,095.

FLATS—2 story and base, frame, \$5,000. San Francisco. Architect, none. Owner, Gustave Peterson, 683 9th avenue, S. F. Location, east 12th avenue north Fulton. Will contain two flats of five and six rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

SEWER CONSTRUCTION—Cost not stated. Fresno, Fresno Co., Cal. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be received on October 16th for sewer construction authorized under the following resolution: That 4 and 6 inch sewer, Y branches, etc., be constructed in the alley in block 26, alley in block 314, etc. (The sewer pipe to be of the best quality vitrified, salt-glazed, ironstone pipe.)

DRAINAGE DITCH—\$50,000. Merced, Merced Co., Cal. Engineer, County Surveyor, Merced. Owners, Merced County. The County Supervisors at their meeting rejected all bids received for the construction of the drainage canal at Atwater. Many bids were submitted for only parts of the work. One bid was submitted for \$54,701.84 for the job complete. It is very probable that the Board will readvertise for bids.

RESIDENCE — 1 story and base, frame, \$2,000. Fresno, Fresno Co., Cal. Architect, none. Owner, E. S. Kallman, Richmond and West streets, Fresno. Location, Buena Vista Addition. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BATH HOUSE—1 story, frame. Cost not stated. Bakersfield, Kern Co., Cal. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. Location, Beale Park. Plans complete and figures to be opened on October 16th at 3 p.m.

SCHOOL, GYMNASIUM — 1 story, frame, \$7,000. Hanford, Kings Co., Cal. Architects, Glass, Butler & Bowser, Republic Bldg., Fresno. Owners, City of Hanford. Will cover an area of 74 by 100 feet. Plans complete and figures to be called for at once.

STORES—1 story and base, brick. Cost not stated. Dos Palos, Fresno Co., Cal. Architect, Ernest Kump, Rowell Bldg., Fresno. Owner's name not given. Location, Main street, covering an area of 50 by 75 feet. Will contain two stores. Plans being prepared.

APARTMENT HOUSE AND HOTEL—6 or 7 story and base, steel or reinforced concrete. Cost not stated. Fresno, Fresno Co., Cal. Architect, E. Mathewson, Cory Bldg., Fresno. Owner, S. N. Griffith. Location M and Mariposa streets. Only preliminary studies have been made of this project and details of construction cannot be given at this time. Further mention will be made of the work.

REJECT ALL FIGURES FOR MODESTO SCHOOL.

Architect De Remer of Los Angeles Will
Revise Plans and New Figures Will
Be Called.

(By Special Wire)

MODESTO, Stanislaus Co., Cal. —At the Tuesday night meeting of the Board of Education all bids for the construction of the Class "C" School Building, designed by Architects De Remer & Hewitt of Los Angeles, were rejected. Plans will be revised and new figures called.

The Board of Education and Architect De Remer will meet Wednesday morning and decide upon what part of the work can best be cheapened and how long it will take to revise the plans. Bids received for the general construction were as follows: Philbrick & Coldin, \$29,896; A. Stevens & Son, \$32,184 and Harvey A. Kyle, \$45,000.

Contracts for four reinforced concrete bridges were erected in Glenn County were awarded at today's meeting of the Board of Supervisors, and bids for two other bridges were taken under advisement. Following are the awards made:

Leader Bridge—Ross Construction Co., Forum Bldg., Sacramento, \$2,606.

Cordin Slough Bridge—Teal & Thompson, 1,300.

Union Bridge—Ross Construction Co., \$1,870.

Reimann Bridge—Manning Bros. General Delivery, San Leandro, and 2414 Jay street, Fresno, \$4,625.

Lakemnyer and Mason Bridges—Bids for these two bridge were taken under advisement. Manning Bros. presented the low figure.

BRIDGE—Reinforced concrete, \$2,288. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractor, A. Peter, Oroville. Contract price, \$2,288.

BRIDGES—Reinforced concrete, \$2,365.75. Redding, Shasta Co., Cal. Engineer, County Surveyor Redding. Owners, Shasta County. The Supervisors have let the contract for building two bridges over Griffiths Gulch on the road from Anderson to Olinda to S. S. Syron for \$2,365.75. Other bidders and their bids were: Bolton & Rhynsdress, \$3,400; William Stephens, \$3,784; J. T. Black and C. L. Oliphant, \$2,799; T. H. Polk, \$3,949; Rolle Arbuckle, \$2,676.75.

BRIDGES—Reinforced concrete. Cost as follows. Marysville, Yuba Co., Cal. Engineer, County Surveyor, Marysville. Owners, Yuba County. The Supervisors have awarded the contracts for the building of the extensions to the Smith bridge, Joe Losey and Park's Bay bridge to Jenkins & Wells. They will

and the Smith bridge for \$2,188, Park's Bay bridge for \$1,868 and Joe Losey bridge for \$900.

BIDS RECEIVED FOR SACRAMENTO LIBRARY.

All Figures Taken Under Advisement
For Three-Story Structure Designed
By Architect Loring P. Rixford.

(By Special Wire)

SACRAMENTO, CAL., October 5th, 1916. Bids were opened today for the construction of the three-story Class C library building to be erected at the southwest corner of Ninth and I streets, designed by Architect Loring P. Rixford, San Francisco. Knowles & Mathewson, Call-Post Bldg., San Francisco, presented the lowest bid on propositions 1 and 2 and will probably be awarded the contract although all bids were taken under advisement.

Bids were taken on the following departments of the work: Department 1, general construction, except ornamental terra cotta, structural steel and iron work; Dept. 2, general construction including ornamental terra cotta, structural steel and iron work; Dept. 3, ornamental terra cotta; Dept. 4, structural steel and iron work; Dept. 5, steel book stacks; Dept. 6, shelving and furniture, and Dept. 7, cork carpet and cork base.

Following is a complete list of the bids received:

Bidder	Dept. No. 1	Dept. No. 2
Knowles & Mathewson	\$75,000	\$ 99,000
Caldwell & Son	75,820	98,940
Teichert & Ambrose	78,390	101,790
Clinton Constr. Co.	78,950
Mathews Constr. Co.	81,000	106,237
Wm. Murcell	81,366

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

BUILDING CONTRACTS

SACRAMENTO COUNTY.

BRICK STORE

NO. 816 L ST., Sacramento One-story and basement brick store.

Owner.....Russell Estate, P. A. Gordon, Trustee, 1010 Yale Ave., Sacramento.

Architect...None.

Contractor..Herndon & Finnigan, 914 T St., Sacramento.

COST, \$5600

BRICK STORE

NO. 306 L ST., Sacramento. Two-story brick store and 6 rooms.

Owner.....Jas. Nusbaum, 2027 M St., Sacramento.

Architect...None.

Contractor...Chas. A. Vanina, 2022 M St., Sacramento.

COST, \$4000

ALTERATIONS

NO. 912 THIRD ST., Sacramento. Place on new foundation, two-story dwelling, 2 flats of 7 and 6 rooms moved from No. 1218 10th St.

Owner.....F. W. Wadewitz, 903 S St., Sacramento.

Architect...None.

Contractor..Herndon & Finnigan, 914 T St., Sacramento.

COST, \$1920

ALTERATIONS

NO. 905 S ST., Sacramento. Move and place on new foundation two-story 9-room dwelling.

Owner.....F. W. Wadewitz, Premises

Architect...None.

Contractor..Herndon & Finnigan, 914 T St., Sacramento.

COST, \$1175

ALTERATIONS

NO. 710 K ST., Sacramento. Raise floor and place store fixtures.

Owner.....G. C. Schindler, 2814 B St., Sacramento.

Architect...None.

Contractor..G. H. Lindall, 1859 Post St., San Francisco.

COST, \$850

BUILDING CONTRACTS

SAN JOAQUIN COUNTY.

BRICK STORES AND ROOMS

PTN LOTS 10 AND 12 BLK 39 East of Center St., Stockton. All work for two-story brick stores and rooms.

Owner.....Theodore Kuppers, 1230 N. Sutter St., Stockton.

Architect...W. B. Thomas, Yosemite Bldg., Stockton.

Contractor..O. H. Chain, 511 W-Willow St., Stockton.

Filed Sept. 29, '16. Dated Sept. 29, '16.
Second floor on.....\$1655
Building plastered and inside finished.....1655
Completed and accepted.....1655
Usual 35 days.....1655

TOTAL COST, \$6620

Bond, \$3210. Sureties, F. B. Littleton and W. H. Post. Limit, 90 working days. Forfeit, \$5 Plans and specifications filed.

BATH HOUSE

LODI, San Joaquin Co. All work for municipal bath house.

Owner.....City of Lodi.

Architect...None.

Contractor..Philbrick & Colvin.

COST, \$6848

WARD BUILDINGS

COUNTY HOSPITAL SITE, Sacramento. Construct two ward buildings.

Owner.....Sacramento County.

Architect...R. A. Herold, Forum Bldg., Sacramento.

Contractor..Wm. Keating, Forum Bldg., Sacramento.

COST, \$76,077

ELEVATOR

NO. 912 NINTH ST., Sacramento. Install elevator.

Owner.....Blakes Package Co.

Architect...None.

Contractor..Barton & Hite, 1812 L St., Sacramento.

COST, \$1000

BRICK PARTITION

NO. 708 K ST., Sacramento. Brick partition in rear.

Owner.....Ancil Hoffman, Premises.

Architect...None.

Contractor..Wm. Kennedy, 3230 Orange St., Sacramento.

LOS ANGELES AND SOUTHERN CALIFORNIA

BRIDGE—Reinforced concrete, \$11,500. Santa Barbara, Santa Barbara Co., Cal. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. The County Supervisors have rejected the two bids received for the construction of a bridge in Gaviota Canyon. Plans for the structure were prepared by E. H. Flaherty. The engineer's estimate for \$11,500 and the bids were: Boardman Construction Co., \$16,240; Mesmer & Rice, \$15,597. Both bids were rejected and the Supervisors discussed plans for providing a temporary crossing across the creek at this point on the State highway until plans that will bring lower bids are made.

RESIDENCE—2 story and base, reinforced concrete. Cost not stated. Los Angeles, Cal. Architects, Montgomery & Montgomery, Merritt Bldg., L. A. Owner's name not given. Location West Hollywood, covering an area of 100 by 60 feet. Will contain twelve rooms and three baths. Plans being prepared.

RESIDENCE—2 story and base, brick. Cost not stated. Los Angeles, Cal. Architect, Frederick J. Soper Story Bldg., L. A. Owner, G. E. Hagard, 310 South Hill street, L. A. Location Brentwood Park. Will contain twenty rooms and six baths. Plans complete and figures to be called for shortly.

HOSPITAL COTTAGE—1 story, frame and concrete. Cost not stated. Patton, San Bernardino Co., Cal. Architect, State Architect George B. McDougall, Sacramento. Owners, State of California. Bids will be opened on October 30th for the construction of this building. Plans can be secured from the State Department of Engineering. An official proposal appears in another column of this issue.

Contracts Awarded.

APARTMENT HOUSE—2 story and base, frame, \$40,000. Los Angeles, Cal. Architects, Taylor Bros., Black Bldg., L. A. Owner, Harry J. Benidict. Contractors, Taylor Bros., Black Bldg., L. A. Contract price, \$40,000.

PORTLAND AND OREGON

SEWER CONSTRUCTION — \$275,000 Portland, Ore. Engineer, City Engineer, Portland. Owners, City of Portland. City Engineer Dater has completed plans and specifications for the Tanner Creek trunk sewer. The plans call for the reconstruction in a new course of all that part of the big pipe laid 30 years ago from a point of 17th street, 485 feet south of Taylor street, running in a northeasterly direction to the

Willamette at a point near the intersection of Pettygrove and Front Sts. The new plans call for construction entirely in street area. The big pipe will run along 11th street. The pipe at Taylor and 15th streets will be 6.6 feet wide by 8.5 feet high, and at the point where it discharges into the river it will be 6 feet wide by 12 feet in height. Estimates of cost call for \$273,369.65 for construction and \$13,688.45 for engineering, advertising and inspection, making a total of \$287,058.10. The plans and specifications call for either concrete or cement pipe.

SEATTLE AND WASHINGTON

Contracts Awarded.

TRANSPORT SHEET—2 story, frame, \$22,800. Seattle, Wash. Engineer, Port of Seattle Commission. Owners, City of Seattle, Contractors, Harrington-Peters Co., Oriental Bldg., Seattle. Contract price, \$22,800.

NURSES' HOME—4 story and base brick and concrete, \$60,000. Tacoma Wash. Architects, Heath & Gove, National Realty Bldg., Tacoma. Owners, Tacoma General Hospital. Contractor, J. E. Bonnell, 760 Commerce street, Tacoma. Contract price, \$60,000.

CALIFORNIA LEADS IN HIGHWAYS.

That California with her magnificent highway system is a model for other states to follow, and is likely to maintain this lead has been vividly brought to light by researches concerning the good roads of the country made in connection with National Touring Week. The promoters of the great national automobile outing, who in their work had occasion to look carefully into the good road system found that when it came to road preparedness, both in regard to what has been made, and plans for increase of mileage, California heads the list.

California State Highways.

In 1910 the people of California voted \$18,000,000 for a state highway system. Construction of this system was begun in 1912. A report of progress to April 15, 1916, showed the following results:

Miles of road surveyed.....	2,280
Miles of right way secured.....	1,765
Acres of right of way secured.....	13,327
Miles of highway constructed....	1,490
This road mileage is made up of the following types of highway:	
Oiled macadam	129 miles
Concrete pavement.....	933 miles
Asphalt	33 miles
Graded	295 miles

Total 1,990 miles

Roads paved by counties and taken over, improved, and maintained by the state, 108 miles.

On April 15, 1916, there was left approximately \$1,900,000 of the original bond issue. This will be used to complete the roads already under contract and for the construction of a few short sections.

As the work has progressed it has become evident that the bonds voted in 1910 would not be sufficient to complete the system contemplated. The legislature at its 1915 session became convinced of this fact and provided for a bond issue of \$15,000,000 to be voted upon at the election in November, 1916.

Of this proposed issue, \$12,000,000 is intended to complete the highway system of main trunk roads and connect seat laterals. The \$3,000,000 will be applied on a county aid co-operative basis in the building of greatly needed cross state and other important connecting roads.

The California state highway building is administered by a committee of the advisory board of the department of engineering composed of Messrs. Charles D. Blancy, chairman; Newell D. Darlington, and C. Frank Stern, known as the California highway commission. Austin B. Fletcher, highway engineer, is the executive officer in charge of the work.

California is fortunate in that her system of state highways was begun after the automobile traffic had shown that fast moving traffic was a most important factor to be considered by the road engineer. Her system of state highways is, therefore, speaking in automobile terms, the very latest test and most improved model. As compared with most of the states older in highway building, California has today a "1920" model of state highways while most other states are still repairing their old "1890" or "1900" models and are having all the heavy upkeep that goes with old style roads not suited to modern conditions.

POWER CONTRACT MADE IN TASMANIA.

In previous reports it was forecasted that there would be an extension of the State hydroelectric plant at the Great Lakes. A contract has now been closed between the hydroelectric department and Amalgamated Zinc (Ltd.) of Melbourne, in which the local plant agrees to furnish the company with 4,000 horsepower not later than January 1, 1918.

Amalgamated Zinc (Ltd.) will establish a plant here for the electrolytic treatment of ores. If the process, which is similar to that used by the Anaconda Co. of the United States, is successful, Amalgamated Zinc (Ltd.) can demand an additional 26,000 horsepower from the hydroelectric department, and if power is available, a further 20,000 horse power will be supplied to this company upon request.

The Mount Lyell Mining and Railroad Co. also is negotiating for 25,000 horsepower for treatment of silver-lead ores in the Zeehan field, and the Complex Ores Co. (Ltd.) has contracted for 3,500 horsepower, with an option on an additional 6,500 horsepower for a carbide and ore-treatment plant that will be constructed at Northwest Bay as soon as conditions become more favorable.

Increased Power to Be Offered at Reduced Price.

Amalgamated Zinc (Ltd.) will pay about \$17 per horsepower per annum for the initial 4,000 horsepower and has already paid \$68,121 to the hydroelectric department for the first year's power. In case the zinc company decides to avail itself of the privilege of demanding the large increase in power on which it has an option, the price will be \$9.73 per horsepower per annum.

The Tasmanian Government has offered a tract of land near Hobart to

the zinc company for its plant, but consent of Parliament is necessary to confirm the offer. It is stated that arrangements can be made for locating the factory elsewhere in case Parliament will not grant this particular tract.

No information is available here as to the size and cost of the initial plant contemplated by the zinc company, but as the power will be available January 1, 1918, and the company will be charged for it whether it is used or not, it is likely that work will be started in the near future. This information will be forwarded as soon as available. Persons interested in this particular phase of the undertaking should note that the company intends to employ in the electrolytic treatment of zinc concentrates the methods employed by the American company mentioned, although it may happen that some minor changes will be necessary to obtain the best results from Australian concentrates.

ISSUE PAMPHLET ON USE OF HYDRATED LIME FOR CONCRETE ROADS.

A discussion of the use of hydrated lime in concrete roads has been issued in pamphlet form by the National Lime Manufacturers' Association of Pittsburgh. No claim is made that the use of the material will prevent or overcome defects in concrete roads built under unfavorable conditions. It is stated, however, that the addition of hydrated lime will, to a great extent, overcome such defects as cracking and soft spots, and will generally improve the durability and wearing qualities of any properly constructed concrete road.

Statements of men of authority in the roads field, who have used hydrated lime, are included in the pamphlet.

EFFECT OF DRY HEAT ON RUBBER INSULATION OF WIRE.

Numerous tests have been made by the United States Bureau of Standards in connection with an investigation to determine the effect of dry heat on the physical properties of the rubber insulation of wire. This work is being carried out in collaboration with the testing department of the Pennsylvania Railroad Co. and other laboratories identified with the American Society for Testing Materials, the object being to develop an accelerated test for insulated wire that will indicate the problem life of the wire insulation under normal service conditions.

MORE ORDERS FOR CALIFORNIA MANUFACTURERS.

"How Easily Big Orders Can Be Obtained by California Factories From Populous China and Japan" will be described in word and picture by the Honorable Julean H. Arnold American Commercial Attache to China and Japan, of the Bureau of Foreign Trade of the United States Department of Commerce, at the weekly luncheon meeting of the Home Industry League of California to be held at the Palace Hotel, on Thursday, September 25th. The kind of goods either grown or manufactured in California for which

there is a great demand in China and Japan,—especially since the long duration of the European war has caused the stored supplies of such goods to be used up in those countries, will be told in detail by Mr. Arnold. He will also tell of goods made and grown in China and Japan which were exported so extensively before the war to Europe and Australia, there to be used in various manufactures, but which now are a drag in the export markets of China and Japan, and which could be utilized by California factories in turning out more goods at cheaper prices.

The illustrations will be colored stereopticon views the authenticity of which is vouched for by the government of the United States.

At the conclusion of the talk, any questions asked by local manufacturers about the why and wherefores of getting more business from or with China and Japan will be answered by Mr. Arnold. The Home Industry League extends a cordial welcome to all businessmen to come to hear the talk and ask questions affecting their own particular needs, membership in the League not being necessary to business people wishing to attend the regular luncheons.

SACRAMENTO'S GOOD ROADS FACTS.

The bond issue calls for 124.12 miles of road that will cost \$1,750,000. They will be constructed of concrete never less than four inches thick and fifteen feet wide. The wearing surface will be of asphalt.

The bonds are 4½ per cent, 25-year serials.

They will cost \$1.01 per thousand dollars existing valuation per year.

The bulk of the \$1,750,000 will be paid for labor in the construction of the roads and will go for the purchase of the necessities of life from Sacramento County merchants.

The roads will be constructed by the Sacramento County Highway Commission consisting of E. B. McKevitt, George N. Randall and W. S. Carruthers.

R. M. Morton, former Government Engineer who built the San Joaquin County roads and was consulting engineer in the construction of the San Mateo system of highways, will supervise the road construction.

Plans and specifications have been checked up and O. K'd by the County Highway Commission.

No money can be expended except with the authority of the County Highway Commission.

If the bond issue carries Sacramento County will get one hundred cents worth of roads for every dollar expended.

A vote for the bonds is a vote for reduction in the tax levy, because it will eliminate the present expensive system of maintenance.

If the bond issue fails, the construction of the river road alone by direct tax, will boost the tax rate far above what it is at the present time.

CALIFORNIA'S CHANCES IN CHINA.

The great opportunities in China today for selling California cottons, both raw and manufactured, the wonderful chances there today for selling mining, agricultural, electrical and manufacturing machinery made in California

mills, together with an outline description of how easily these opportunities may now be grasped were told in word and picture at the luncheon meeting of the Home Industry League of California at the Palace Hotel yesterday noon by the Hon. Julian Arnold, commercial attache to China of the United States Government Department of Commerce. The value of the talk was evidenced by the fact that all of the hundred members remained until the end although the affair lasted over an hour longer than the time set for adjournment.

"If you want to sell to China today, all you need to do is to write to any of the American consuls there, for the consulates of the United States located in China have become so efficient during the past four years that they are the envy of all the European powers," declared Mr. Arnold. "It is best of course to open up a headquarters of your own over in China, but when that is impracticable on account of the cost, it is safe to trust your business affairs over there to any American firm located in China who is recommended by the department of commerce which has a branch information bureau in San Francisco at the Custom House. While some English and German houses located in China can be trusted to handle American orders with fairness, it is always best to turn them over to an American firm, for various reasons."

"China wants Americans to go over there—they are welcomed everywhere as the best friends China has abroad. No American has ever lost a dollar's worth of property through any of the revolutions—any damage done by troops of either side being rapidly compensated for by the Chinese government. The Chinese will go out of their way to do business in China with an American who goes there with his goods."

"Sending catalogs to China, printed in English, is a waste of American money, although quite a number of United States firms are trying for business there by such absurd means. The goods must be shown the Chinese on their own ground—either by Americans themselves or by men who understand Americanism. A million small marine engines of the kerosene variety are needed in China today; any interested parties can write direct to the American Chamber of Commerce in Shanghai and get reliable information and responsible agents to handle their goods. So badly are American railroads needed in China that hordes of coolies make their living by carrying bales of cotton, weighing as much as 175 lbs., on their own backs a distance of 1800 miles. English firms representing American goods are frequently holding the agencies simply to shove the American merchandise while really pushing the British; same with the German importing firms. No American need fear so-called 'Japanese Aggression' in China. The Chinese want the American and will give him the preference every time."

BETHLEHEM STEEL EARNINGS.

NEW YORK—The strength of Bethlehem Steel is attributed to assurances that net earnings in the current year will be fully up to the expectations of the management. Earnings since the first of the year, indicate that net

profits for the full year will be \$60,000,000 or more. Of course large sums will be deducted for depreciation and new construction, but there will still remain an enormous surplus. It is estimated that Bethlehem Steel now has on its books a gross business of close to \$250,000,000. This, notwithstanding the fact that it has been working on orders off the books to the extent of approximately \$20,000,000 gross per month. Big earnings for Bethlehem in the first half of next year are now assured. This is in contrast with the feeling in certain quarters early in the year that Bethlehem's prosperity might now extend into the year 1917. Earnings of \$100,000,000 for Bethlehem for the 18 months to end June 30, 1917, is the estimate of the steel man. This would be 3½ times the authorized capital of \$30,000,000 preferred and common.

Bethlehem Steel is now employing in its mills, furnaces, ore properties and various subsidiaries a total of 60,000 men, which is a new high record. Wall street is paying very little attention to talk or a readjustment of Bethlehem's capitalization, now that present market value of the common will soon be covered by actual earnings since the first of last year. The munition tax may cost Bethlehem \$5,000,000 annually, but this amount, while large, is no cause for concern when considered with present earnings.

UNION IRON WORKS.

ALAMEDA—A ship per month for the next three years is to be the shipbuilding output of the Union Iron Works plant on the inner harbor, according to the statement of J. R. Christy before the recent hearing on the estuary bridge matter, and it is announced by officers of that concern that within the next year their working force, now approximately 2,000 men, will be increased to 10,000. Recently acquired ground adjoining the plant of the former United Engineering Works has been fitted for a rolling mill plant by the driving of 1,000 piles and work is now in progress on this plant. Additional ground is to be leased or purchased for further necessary extensions, which are directly connected with the shipbuilding plant, exclusive of the big steel mills project, formal announcement of which is expected soon.

AMERICAN SHIPPING PROSPECTS ON THE PACIFIC.

Notwithstanding the fact that the war has cut down the total shipping of all nations engaged in trans-Pacific trade from 550,000 gross tons to 250,000, and that the American share, at its lowest mark of the past two years, has fallen from 21 per cent to 2 per cent of the total, recent developments have shown that gradually the American flag is returning to the Pacific. A report on these conditions has been published by the Bureau of Foreign and Domestic Commerce.

The report states that the United States has more merchant vessels under construction than any other country in the world, and while the greater part of this new tonnage is not intended for immediate use in the Far East, it is probable that sooner or later some of it will be diverted to that trade.

Whether American shipping will fully regain its former standing on the Pacific cannot now be definitely foretold, but there is no further danger of the flag disappearing in that quarter. The recent purchase of three large ships by the Pacific Mail Steamship Co. marked the turning point. It adds 17,100 gross tons to the 5,000 tons that remained. Prior to the war the total American tonnage engaged in this trade was 80,000 gross tons.

Before the war British shipping represented 29 per cent and Japanese 32 per cent of the total. When our share was at its lowest point, however, British tonnage had fallen off to 30 per cent, Japanese tonnage had increased to 55 per cent of the total, and Dutch shipping had jumped from practically nothing at all to 13 per cent. English tonnage fell from 150,000 gross tons to \$4,000 tons, Japanese tonnage increased from 125,000 to 155,000 tons, and the Dutch increased from a negligible quantity to 35,000 tons.

Shipbuilding Activities in Japan and China.

A very interesting section of the report is devoted to shipbuilding activities in Japan and China. Japanese shipyards are taxed to the limit of their capacities. Orders for ships from abroad have been refused, as the yards have booked orders for Japanese ships that will keep them busy for the next two years. The builders, however, are handicapped by a lack of material, and it is an interesting fact that one large shipbuilding company is buying all of its material from this country. Boilers, engines, and other fittings cannot be had at very reasonable prices for they cannot be manufactured at home as cheaply as they can be turned out in the United States and England. But in spite of all handicaps, Japan is losing no time in taking advantage of the present unparalleled opportunities. Purchases of foreign ships have been made at very high prices. The Chinese also are busy in their yards in Shanghai and Hongkong, although badly handicapped by scarcity of materials. One Hongkong company is at work on eight ocean freighters for Norwegian owners.

The new report is entitled "Trans-Pacific Shipping," Miscellaneous Series No. 44, and is the work of Julian Arnold, American commercial attaché at Peking, who has made a very careful study of the recent development of Japanese shipping. Much of the report is devoted to this subject. For the nominal price of 5 cents this bulletin may be obtained from the Superintendent of Documents, Washington, or from the nearest district office of the Bureau of Foreign and Domestic Commerce.

INFANTILE PARALYSIS, DUSTY STREETS AND THE AUTOMOBILE.

Never has any city experienced such an epidemic of infantile paralysis as that that has afflicted New York this summer, says Engineering and Contracting. Never in the memory of the editor have the streets of New York been so generally dusty as this summer, and never have there been so many effective devices for stirring up the dust. May it not be more than a coincidence that these three conditions are

conjoined — infantile paralysis, dusty streets and automobiles.

Whether the paralysis germ is blown about or not is open to question, but the evidence seems to indicate that it travels through the air. Note, for example, the decrease in the disease following the recent showers.

Infantile paralysis disappears almost entirely in the autumn, and this has been attributed to the fact that its germs are carried by flies or other insects. But flies and insects seem to have remained quite as active as ever, although the number of new paralysis cases has decreased.

Many diseases, such as tuberculosis and "colds" are known to be transmitted on or with dust that is inhaled. Infantile paralysis seems to be carried in a similar manner. In any case, the lesson is apparent: Cities must have cleaner streets.

The rapidly moving automobile has greatly increased the dust nuisance, and, as the number of motor cars is increasing in geometric ratio, the inference is plain that a formidable problem confronts all cities. Before there can be really clean streets there must be more pavements that can be readily cleaned. The old cobble pavement obviously must go, and the old water-bound macadam pavements either must go or be resurfaced with some bituminous compound. In fact every type of pavement that has become worn or pounded into humps and hollows must give way to a smooth, clean pavement.

We believe that, with the general advent of smooth, non-porous pavements, street flushing will be universally demanded as a matter of sanitation.

A ROAD IS NO BETTER THAN ITS BRIDGES.

A highway can be no better than its bridges. A score of years ago when bridges seldom had to bear a greater weight than an occasional two-ton load of hay, light timber construction sufficed for the needs of the day. In those days the sign "Five dollars fine for crossing this bridge faster than a walk," deterred reckless souls who were tempted to trot their horses across the shaking structures.

The problem is a different one today. Heavy automobiles whirling along at a road speed of twenty-five miles an hour do not pause to creep across a bridge on "low." Farm machinery is of increased weight. The heavy motor trucks and the tractors have invaded even the most remote agricultural regions. The tendency is constantly toward increasing weight, larger loads and more speed. This places added burdens on the bridges. Therefore, in progressive communities strong steel and concrete bridges and well-built culverts are being built. A good highway with a poor bridge is as lacking in economy as an excellent piece of machinery with a weak part. The machine is no stronger than its weakest part—the road in the final analysis is no better than its bridges.

The Hon. W. A. McLean, deputy minister of highways of Ontario, has advised the taxpayers of that province to pay for large bridge expenditures by bond issue, so that the burden will be distributed over a number of years. Where there are few bridges and the cost is not great he advocates paying

them out of the annual tax levy.—*Transportation Bulletin.*

FOREST NOTES.

An automobile with car wheels is used for fire-fighting purposes on the mountain railroads by the rangers in the Sierra National Forest.

Investigations made by the Forest Service of the wooden piling in wharves about San Francisco Bay have disclosed the fact that the damage done this season by the destructive pile borer, teredo, is apparently much less than usual.

Artificial silk manufactured from wood pulp for which several kinds of California timber are suitable is used annually in this country to the amount of seven billion pounds. It is utilized principally in the manufacture of millinery, sweaters, and hosiery.

In Southern California electric companies and the Forest Service are co-operating in testing out zinc chloride, creosote, crude oil, and their combinations as preservatives for poles.

The relative durability of California commercial timber is being experimented upon at the Forest Service Laboratory, Madison, Wisconsin, in rotting pits. These pits, constructed of cement, are kept in a condition of temperature and humidity most favorable for the development of wood destroying fungi, of which cultures are introduced.

FILING CASE CONTRACT AWARDED.

FAIRFIELD, Solano Co., Cal.—At the last meeting of the Solano County Supervisors The Berger Manufacturing Co. of San Francisco was awarded a contract for furnishing and installing additional document filing cases in the office of the County Clerk on a bid of West & Co., \$375, and the General Fire-Proofing Co., \$372.

BIG DEMAND FOR MAGNESITE.

A sudden increase in the demand for magnesite has been experienced by the mine operators at Porterville. One of the mines has just secured a contract for two thousand tons while several of the other mines have orders that will keep them busy for several months. Several of the small mines that have been closed down for weeks are opening up again.

COLORING CONCRETE.

You can not use paints or stains, but must use a pure mineral cement color that is free from clay, gypsum and organic matter, says a well-informed contractor.

I recommend the use of an average of 5 lbs. of color to every bag of cement, with the exception of green, in which instance use 7 lbs., and in the case of black use 2 lbs. in 1 to 2 1/2 mix.

I submit, says another, the following formula for coloring cement, which I am sure he will find to be satisfactory, and, I might say, durable. The colors will not fade if the directions are closely followed. These recipes

were given me some years ago, and I find that wherever tried they have proved to be all that was expected of them. The quantities given are per barrel of cement, the coloring matter in each instance being mixed dry with the cement and sand. Caution is given that Venetian red and common lamp-black should not be used, as the color obtained with these materials will run and fade. The various colors and quantities of coloring materials for each barrel of cement are as follows:

For brown, 25 lbs. of best roasted iron oxide; or 15 lbs. to 20 lbs. of brown ochre.

For black, 45 lbs. of manganese dioxide.

For blue, 19 lbs. of ultramarine.
For buff, 15 lbs. of ochre. (This is likely to considerably reduce the strength of the mixture).

For green, 23 lbs. of greenish-blue ultramarine.

For gray, 2 lbs. boneblack.
For red, 22 lbs. of raw iron oxide.

For bright red, 22 lbs. of Pompeian or bright vermillion.

In using coloring matter with concrete, the color should always be mixed with the cement dry, before any sand or water is added. The mixing should be thorough, so that the mixing is uniform in color after this mixing. The combination is treated in the same way as clear cement.—Exchange.

IRIG LAKE PROJECT.

The proposition to reclaim 262,000 acres of the Tulare Lake basin and construct a reservoir and canals to hold the lake waters for irrigation purposes, at a cost of \$6,000,000, is being presented to land owners, and after a few more signatures are secured the plan will be presented to the State Reclamation Commission, according to a statement made by A. G. Wilson, general manager of the San Joaquin Light and Power Company, when he returned from the lake to Fresno last week. At present 175,000 acres of the lake bed is under water, and the damage this season was \$2,000,000. The cost of the reclamation project is estimated at \$20 per each acre of land benefited, but more than this amount will be added to the value of the land. It is planned to confine the lake to a reservoir covering 20,000 acres, to lead the water into the reservoir from the various rivers and streams flowing into the lake, and to provide canals to carry off the surplus water.

HISTORY OF CONCRETE-SHIP CONSTRUCTION.

The following statement from the Washington office of The Panama Canal add to information regarding the history of concrete ships which was published in Commerce Reports for September 15, 1916:

In 1910 the Isthmian Canal Commission constructed three concrete barges on the Isthmus for use in supporting the dredging pumps for the hydraulic excavating and pumping plant of the Pacific Division. The first of these barges was launched on April 20, 1910, and the last on August 8 of the same year. The barges were 64 feet long by 24 feet wide, having a depth of 5 feet, 8 inches. In an article which appeared in the Canal Record of February 5, 1910, relative to the proposed construction of these barges, it was stated: "While the construction of barges from concrete is not a new idea, its adaptation is not known to have hitherto been attempted in American engineering. Concrete barges have been successfully used in Italy during the past few years, and recently the use of this material in the construction of floating craft in that country was extended to the building of tugboat boats, a type of vessel similar to the New York car ferries. The plans of the Pacific Division barges contain numerous modifications from the Italian type, some to meet local conditions and some because of the continual improvement in concrete construction methods."

PROPOSED IMPROVEMENT OF CHILEAN RIVER PORT.

SANTIAGO, Chile.—A bill for the improvement of the river port of Lebu is under discussion in the Chilean Congress. A recent number of the *Diario Ilustrado* states that Manuel Jervasio Alarcon, resident in London, and Carlos Alarcon have presented a project for the improvement of this port with American capital. The plans have been prepared by Julio Delaunay, and the cost is estimated at approximately \$3,000,000. The port of Lebu is near the Chilean coast and is in the region of important coal mines.

PAPER MILL AT GRAYS HARBOR.

There is no section on the Pacific Coast where a more abundant supply of hemlock, spruce and white fir for pulp and paper making purposes can be more easily secured than at Grays Harbor, Wash. It is rather remarkable that the manufacture of pulp or paper has not been undertaken as every indication, insofar as raw material is concerned, is favorable. The question of a supply of water could probably be solved by tapping the Wiskah and Wynooche and other river.—The Timberman.

HIGHWAY ACCEPTED.

SACRAMENTO, Cal.—Over twenty-three miles of State Highway in Butte and Monterey counties have been accepted by the State Highway Commission.

The highway accepted in Butte county is 12½ miles between Chico and Nelson.

With the exception of a few small connecting links in various parts of the state, there is no more roadway to be constructed out of the \$18,000,000 bond issue of which remains a little over \$1,000,000.

With the completion of the two new links of highway, a little more than 1500 miles of highway have been built out of the big bond issue. Of this total about 950 miles is in concrete pavement.

CAN MOBILIZE SWISS ARMY IN 30 HOURS.

BY CHARLES EDWARD RUSSELL.

Noted Writer and Economist Touring Europe.

A stirring old picture of life in Switzerland AS IT USED TO BE hangs in one of the galleries at Berne. It shows a village roused at night by the war alarm. The signal is burning on the hundspitz, or alarm station, that overlooks the valley, and the people are rushing from their houses, the men arming themselves as they come.

That was the war summons, right enough, in those days. The moment an invader set foot in the land fires flashed from hill to hill like the fiery cross of Scotland, and the stern Swiss warriors came out to fight.

The mundskitzen are still there, the alarm signal tripod is on each of them, as every traveler knows; and the people, you may say, still sleep on their arms, but other things have changed.

At 10 minutes past midnight on Aug. 1, 1914, the Swiss government, for the first time, sent out the war alarm or fiery cross in its modern shape. It was an order by telegraph mobilizing the Swiss army, and in two hours it had reached every station in the country.

At the word, government officers in every city, town and village went forth to post up the notices prepared for such an emergency, and to notify the people, in some cases with the telephones and in others with the fire engines.

By 6 o'clock the men began to issue from their homes, fully uniformed and fully equipped, each with his rifle. At half past 7 the ranks in the towns and cities were full, every man knowing his place and falling into it automatically. Before 9 o'clock the trains that were ready and waiting on the government railroads began to move the troops toward the frontier.

In the sparsely settled rural regions, where the meeting places were far off, more time was required, but by nightfall 300,000 soldiers were on the border or nearing it, and at 7 o'clock the morning of August 2 practically the entire active army of Switzerland, 100,000 men, was in its positions guarding the boundary lines. A few hours before and they had been working in the fields, factories and stores!

This beat all the records of quick mobilization. It beat even the Germans, with all their deserved fame for efficiency and preparation. All the other nations of Europe were mobilizing. NONE OF THEM MOBILIZED SO SWIFTLY AND EFFICIENTLY AS THE SWISS.

Four hundred thousand men, fully equipped, at their posts in 30 hours, was the record of Switzerland.

If I remember rightly, 30,000 men in 30 days was the record of the United

States militia when called by the Mexican crisis.

The 100,000 trained, equipped and efficient troops of Switzerland cost little more than one-half as much as the 200,000 untrained troops of the United States.

Our system, put to the test, FILLED US WITH CHAGRIN AND DISGUST; THE SWISS SYSTEM, PUT TO THE TEST, WORKED WITH THE PRECISION OF A STEAMSHIP'S ENGINES.

It is no wonder that now, when the republic of Colombia wishes to reorganize its army, it sends for Swiss officers to do the job. Artillery, ammunition, transport, commissariat, cavalry, infantry, ready as at the touching of a button. Even the horses and carts had been tagged in the farmers' barns.

"Ah yes—militarism," says some American, as wrapped in self-satisfaction as a turtle in his shell. Ah no! Not militarism. Not in 600 years. There is no militarism in Switzerland—not a particle of it. This is no soil for such a growth. To put militarism on these stiff-necked and independent people that have been free of it for 600 years would be some task. As a matter of fact, complacent American, there is much more of the military caste idea in the United States than there is in Switzerland.

But in Switzerland every citizen of the republic expects to serve her and defend her and that abolishes caste at the same time that it produces THE CITIZEN ARMY. BEST IN THE WORLD.

HIGH EXPORT BUSINESS.

WASHINGTON—The export trade shows a trade balance for the first eight months of 1916 of \$1,730,000,000 in favor of the United States, and department officials predict that by the end of the year it will exceed \$2,500,000,000. The total exports amounted to \$2,155,969,219, an increase of \$1,205,087,606 over the same eight months a year ago. The largest gain was in exports to the United Kingdom, which took nearly one-third of all goods exported from the United States in that period. They amounted to \$1,297,751,239, an increase of \$554,000,000 over the same period last year and \$731,000,000 more than the entire fiscal year of 1914. France, the second best customer of the United States, took goods valued at \$541,475,000, an increase of \$211,000,000 over the previous eight months and \$384,000,000 more than 1914. Canada was third taking \$373,736,569, an increase of \$163,000,000 over the eight months of last year, but only \$29,000,000 more than 1914. Russia in Europe and Asia took \$300,362,626 worth, an increase of \$219,000,000 over the previous eight months' period. Greece imports from the United States amounted to \$23,597,141, compared with \$1,000,000 in the whole fiscal year before the war.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO. Apartment house, 4 story and base. Class C construction. Cost not stated. Architect, O. R. Thayer, 240 Montgomery street, S. E. Owner's name withheld. Location, Sutcliffe street. Will contain eighteen apartments of two, three and four rooms. Plans nearly complete.

Contracts Awarded.

LOS ANGELES, CAL. Apartment house, 2 story and base. Price, \$25,000. Architect, none. Owner, M. M. Olin. Contractors, Taylor Bros., Black Bldg., L. A. Contract price, \$25,000.

BONDS

TRACY, SAN JOAQUIN CO., CAL.—A petition of the land owners of the West Side Irrigation District was presented to the board of directors at a recent meeting, asking them to call an election and submit the question of voting bonds of \$195,000 to be used for the construction of ditches, pumping plant, etc., for the district. After consideration, November 14th was set as the date to hold the election.

RICHMOND, CONTRA COSTA CO., CAL.—The Richmond Water Commission has decided to call a bond issue to finance the Martin water project. As yet, no date for the election has been set.

DUNSMUIR, SISKIYOU CO., CAL.—A special election has been called for October 28th for the purpose of determining whether bonds shall be issued and sold in the amount of \$30,000 for building and equipping a modern school building in Dunsmuir.

YREKA, SISKIYOU CO., CAL.—The Trustees of the Siskiyou Union High School have voted to submit the question of a \$60,000 bond issue to the voters of this high school district on November 14th, the purpose of the proposed bonds being the construction of a new high school building to replace the structure recently destroyed by fire.

FRESNO, FRESNO CO., CAL. An election has been called for the purpose of deciding whether or not Fresno County shall issue bonds for the sum of \$3,500,000 to construct a permanent highway system.

LOS ANGELES, CAL.—Another big irrigation project, which will bring under intensive cultivation 35,000 acres of rich land, is on the eve of coming into active development. This rich area lies in Apple Valley, lying in the southeastern portion of the great Victor Valley district. The irrigation project contemplates the expenditures through a \$3,600,000 bond issue to carry waters from the easterly slopes of the San Bernardino Mountains to these lands. Final signatures have been secured on the petitions for the formation of the Mojave River Irrigation District.

TIERRA BELLA, TULARE CO., CAL.—November 15th is the date set by the directors of the Tierra Bella Irrigation District at which time the \$600,000 bond issue for improvements will be sold to the highest bidder.

ST. JOHNS, ARIZ.—A movement has been started to vote bonds in the amount of \$15,000, to be held in conjunction with the general election in November, for erecting a court house for Apache County.

SAN DIEGO, SAN DIEGO CO., CAL.—The City Council has called an election for November 20th to vote \$125,000 bonds for constructing water-front improvements at Ocean Beach, consisting of two rock jetties, a concrete pleasure pier, eight timber groins, cement walks and stairs and a comfort station.

WATERFORD, STANISLAUS CO., CAL.—Bids for the \$465,000 bond issue, recently voted by the Waterford Irrigation District were not as high as the directors expected, and it is probable that all will be rejected. A meeting will be held shortly to again consider the bids.

ANDERSON, SHASTA CO., CAL.—An additional bond issue for \$110,000 is being considered by the Board of Directors of the Anderson-Cottonwood Irrigation District. Several hundred thousand dollars are already being invested in improvements in the district.

PIEDMONT, ALAMEDA CO., CAL.—The Board of Trustees has decided on a \$115,000 bond issue for parking improvements.

CHANDLER, ARIZ.—Bonds of \$12,000 have been voted for a new primary school and equipment.

TIERRA BELLA, TULARE CO., CAL.—Bids will be received by the Board of Directors of the Tierra Bella Irrigation District up to 12 o'clock noon, November 15th, for the purchase of bonds in the sum of \$600,000, funds from which are to be used in the construction of irrigation works.

BRIDGES, DAMS AND HARBOR WORK

RED BLUFF, TEHAMA CO., CAL.—Bridge, timber. Cost not stated. Engineer, County Surveyor, Red Bluff Owners, Tehama County. Bids will be opened on October 25th at 10 a. m. for the construction of a wooden bridge across a slough on the road to the citrus farms in Road District No. 3.

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—Protection work. Cost not stated. Engineer, County Surveyor, San Bernardino Owners, San Bernardino County. Bids will be received by the Board of Supervisors up to 11 a. m. of October 30th for the construction of protection work along the Mojave River near Harstow, and for repairs and addition to the bridge now in place at the Harstow Crossing on the Mojave River, in accordance with plans and specifications on file at the office of the Clerk of the Board.

Certified check of 10 per cent required. L. R. Patty is Clerk of the Board.

EUREKA, HUMBOLDT CO., CAL.—Bridge and dike work. Cost as follows. Engineer, County Surveyor, Eureka Owners, Humboldt County. The County Supervisors received only one bid at their last meeting for the construction of the Ohman Creek bridge that of the Moicer-Fraser Co., First and G streets, Eureka, at \$2,887. But one bid was received for the construction of a dike near Arcata for road purposes at \$1,200, this being submitted by the Suisun Dredging Co. It is probable that the contracts will be awarded to the bidder in each case.

BAKERSFIELD, KERN CO., CAL.—Bridge and culverts. Cost not stated. Engineer, County Surveyor, Bakersfield Owners, Kern County. Bids will be opened on November 9th for grading and construction of bridges and culverts on Division 10, Section 3, Bakersfield-Mojave road, being the portion lying between the Keene School and the summit of Old Town grade length approximately 12.3 miles.

VISALIA, TULARE CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor Visalia Owners, Tulare County. Bid will be received by the Board of Supervisors up to 2 p. m. of October 27th for constructing a reinforced concrete 26-foot bridge across Deep Creek near the Ellis ranch, about 6 miles south of Visalia, in accordance with plans and specifications.

Contracts Awarded

SANTA ROSA, SONOMA CO., CAL.—Bridge and road construction. Cost as follows. Engineer, County Surveyor Santa Rosa Owners, Sonoma County. The Board of Supervisors at their last meeting took the following action on road contracts. D. E. Albers, 175 Ellis street, Santa Rosa, awarded contract for Sausal Creek bridge on his bid of \$1,350. The contract for the construction of the Harbine bridge on the Sebastopol and Donastville road was awarded to The Call Construction Co. for \$371.

FACTORIES AND WAREHOUSES

SAN FRANCISCO. Steel plant addition, steel and corrugated iron. Cost not stated. Engineer, none. Owners Pacific Coast Steel Co., Rialto Bldg., S. F. The Pacific Coast Steel Co. will shortly start construction on a large addition to their plant at South San Francisco. A large blooming mill and soaking pit will be the first of the improvements undertaken, and these will be followed later by the construction of a building housing machinery for the manufacture of ship plates. The work will probably be done by Day Labor.

SAN FRANCISCO. Warehouse, 1 story, reinforced concrete. Cost not stated. Architect, not selected. A sale is pending between a company, report-

ed to headed by Capt. John Barneson, Alaska Commercial Bldg., and the present owners of Mission Rock. If the sale is consummated the new owners plan to convert the rock in to a modern terminal warehouse site, and by the construction of a railroad bridge between the present tracks and the rock, unload the largest freighters direct into the cars.

ALAMEDA, ALAMEDA CO., CAL.—Warehouse, 1 story, brick, \$1,500. Architect, none. Owner, Jacob House, 1818 Hearst street, Berkeley. Location, Tunnel street. Plans complete and work to be done by Day Labor.

PETALUMA, SONOMA CO., CAL.—Warehouse addition, 1 story, concrete and frame, \$9,000. Architect, Brainerd Jones, 110 Washington street, Petaluma. Owners, Golden Eagle Milling Co., Building will cover a large ground area. Special machinery to be installed. Plans are being prepared.

PORTLAND, ORE.—Warehouse, 3 story and base, brick and concrete, \$28,000. Architect, Houghtaling & Jougan, Henry Bldg., Portland. Owners, Rodney L. Glisan, leased to Winston & Haynes Auto Co. Location, northwest 10th and Burnside streets. Will cover a considerable ground area. Plans complete and figures being taken.

Contracts Awarded.

SAN FRANCISCO—Warehouse andactory, 4 story and base, reinforced concrete. Cost not stated. Architect, William H. Crim, Jr., 425 Kearny St., S. F. Owners, United States Envelope Co. Contractor, P. A. Palmer, Monadnock Bldg., S. F. Contract price not stated. Sub contracts will be let.

LOS ANGELES, CAL.—Warehouse, 7 story and base, reinforced concrete. Cost not stated. Architect, none. Owner, Lyon Fireproof Storage Co. Contractors, Richards-Neustadt Construction Co., Wright and Callender Bldg., 4 A. Contract price not stated. Building will cover an area of 80 by 80 feet.

FIRE HOUSES AND JAILS

SAN FRANCISCO—Jail and detention home equipment. Cost not stated. Architect, Architectural Department, City Hall, S. F. Owners, City and County of San Francisco. Bids will be opened by the Board of Public Works on October 20th for furnishing and installing toilet fixtures in the County Jail and for shades for the Juvenile Detention Home.

Contracts Awarded.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Detention addition, 2 story, brick, \$17,277. Architect, Roland P. Sauter, 338 San Marcos street, Santa Barbara. Owners, Santa Barbara County. Contractors, The Kiling Co., 613 East 15th street, L. A. Contract price, \$17,277.

FLATS

SAN FRANCISCO—Flats, 2 story and base, frame. Cost not stated. Architect, Henry Shermund, Mills Bldg., S. F. Owner, A. Kauffmann. Location, east 5th avenue north Lake. Will contain two flats of eight rooms, two baths and sleeping porch. Basement garage. Plans complete and segregated figures being taken.

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$6,000 each. Architect, Edward E. Young, 251 Kearny

street, S. F. Owner, Thomas Seohne, 5415 Geary street, S. F. Location, west of Pierce north Sacramento, covering an area of 25 by 32 feet. Each building will contain two flats of five and six rooms and basement garages. Plans complete and work to be done by Day Labor.

GARAGES

SAN FRANCISCO—Auto sales room, 3 story and base, reinforced concrete, \$15,000. Architect, W. H. Weeks, 75 Post street, S. F. Owner's name withheld. Location, Van Ness avenue near Pine street. Will cover an area of 95 by 100 feet. Plans complete and figures have been taken under advisement.

BERKELEY, ALAMEDA CO., CAL.—Garage, brick and concrete, \$6,000. Architect, F. Holberg Reimers, Acheson Bldg., Berkeley. Owner, A. M. Harvey. Location, Colusa and Solano streets. Garage on first floor and flats above. Plans complete and owner taking figures for all work except brick.

GOVERNMENT WORK & SUPPLIES

Denver, Colo., Mail-Handling Apparatus.

The following bids were received by the supervising architect, Treasury Department, Washington, D. C., for installing mail-handling devices in the U. S. post office at Denver, Colo.:
Alvey Ferguson Co., Cincinnati, Ohio, \$7,700; 75 days.
The Lamson Co., Boston, Mass., \$8,418; 120 days.

Standard Store Service Co., Plantsville, Conn., \$11,222; 120 days.

Reclamation Service, Steel Pipes, Etc.

Bids for steel pipes, bronze casting, etc., for north tunnel, Roosevelt Dam, Ariz., were received at the U. S. Reclamation Service, Denver, Colo., as follows:

Item 1, Three bronze inlet castings, 1.5 in riveted steel pipe 3/4 in flange steel.
2, 51 in riveted steel pipe 3/4 in tank steel.
4, 3 1/2 in cast iron anchor pipes.
Western Pipe and Steel Co., Los Angeles, Cal., item 1, \$900; 2, and 3, \$8,090; 4, \$2,185.

Llewellyn Iron Works, Los Angeles, Cal., item 1, \$1,015; 4, \$2,105.

Puget Sound, Wash., Heating and Power Plant.

The following bids were received by the chief of the bureau of yards and docks, Navy Department, Washington, D. C., for a heating and power plant at the Naval Torpedo Station, Puget Sound, Wash.:

Item 1, heating and power plant complete; 2, do, with bidder's modifications; 3, increase or decrease in price for furnishing a radial brick chimney in lieu of concrete; 4, add or deduct for furnishing boilers as described under paragraph 31 of the specifications; 5, deduct from items 1 and 2 for the omission of the concrete pump well; 6, price for wooden crib; 7, deduct from items 1 and 2 for omitting the 3-inch oil piping connection between wharf and oil tank.

Applying-Griggs Co., 2906 6th avenue, Tacoma, Wash., item 1, \$49,670, 180

days; add \$170, 3, deduct \$1,000, 8, deduct \$427.
Cassett Plumbing and Heating Co., 1011 1/2 St., Wash., item 1, \$47,678, 14 days; 2, \$7,000, 6, \$2,365; 7, \$450, 7 days; 8, \$1,000, 7 days; 9, \$50,375, 8 1/2 months; 10, \$2,000, 3, add \$200, 5, deduct \$25, 6, \$1,694; 7, deduct \$700.

Stockton, Cal., Repairs and Painting.

The contract for repairs and painting inside U. S. post office at Stockton, Cal., has been awarded to C. A. Towne at \$4,000.

The Bureau of Supplies and Account, Washington, D. C., will receive bids on October 24th for eight turbine driven blowers for Mare Island and for 12,000 pound of chain for Bremerton.

On October 31st for a thrust track turning machine for Mare Island and for an electrically operated refrigeration apparatus for Bremerton. Plans and full particulars can be secured from the Navy Pay officer at San Francisco, Cal.

HALLS AND SOCIETY BUILDINGS.

SAN FRANCISCO—Association Building, 2 and 6 story and base, Class C construction. Cost not stated. Architect, Lewis P. Hobart, Crocker Bldg., S. F. Owners, Young Women's Christian Association. Location, north Sutter near Mason. Will cover an area of 65 by 120 feet. Designed so that the entire building may be brought up to the height of six stories. Plans being prepared.

VAN NUYS, LOS ANGELES CO., CAL.—Branch City Hall, 2 story and base; brick, \$24,000. Architect, J. J. Backus, Chief Building Inspector, L. A. Owners, City of Van Nuys. Contractors Edwards & Willey Co., L. A., presented the lowest figures for this work at \$24,000. All bids have been referred to Architect Backus.

HOSPITALS

SAN FRANCISCO—Hospital equipment. Cost as follows. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. Bids for installing disinfecting and sterilizer in the Central Emergency Hospital were opened by the Board of Public Works at their afternoon meeting. Burnham Plumbing Co. bid \$2,575 and J. E. O'Mara bid \$2,887.

FRESNO, FRESNO CO., CAL.—Hospital addition, 2 story and base, reinforced concrete, \$55,000. Architects, Glass & Butler, Republican Bldg., Fresno. Owners, Fresno County. Location, County Hospital grounds. Will cover an area of 158 1/2 by 55 feet. Plans complete and figures being taken.

IRRIGATION PROJECTS

R. Whitehead of Oakland has applied to the State Water Commission for permission to appropriate 150 cubic feet per second of the waters of Plumas Lake and Feather River, tributary to the Sacramento River, for the purpose of raising rice and other agricultural products. The proposed diversion is in Butte County. A main canal three miles long is a part of the

works, the only data given in the application on the engineering phases. Complete maps will have to be prepared before the application can be further considered by the Commission. The estimated cost of the project is given as \$50,000, and the number of acres to be watered at 6,209.

The Lucerne Water Co., of Montague, Siskiyou County, has applied to the State Water Commission for permission to appropriate 50 cubic feet per second of the waters of Shasta River, tributary to Klamath River, for irrigating 5,000 acres. A dam is proposed to back the water into a sump. A pumping plant at the dam will elevate the water 70 feet above the river through a 10-inch pipe. For the main lift there is proposed a 20-inch pump driven by a 300 h. p. motor, and for the secondary lift a 12-inch pump operated by a 200 h. p. motor. The water will be carried thence 720 feet through a pipe line and a flume 1,170 feet long to the main ditch. The estimated cost of the project is given as \$50,000.

The Mono Canal Company has applied to the State Water Commission for permission to appropriate 750 cubic feet per second of the waters of Rush and Lee Vining Creeks in Mono County, tributary to Mono Lake. No data is given in regard to the engineering phases of the project except to mention that there is a canal 30 miles long. The application states that it is proposed to irrigate 50,000 acres at an estimated cost of \$500,000.

TERRA BELLA, TULARE CO., CAL.—Irrigation project, \$500,000. Engineer, Stephen E. Kieffer, 57 Post street, S. F. Owners, Terra Bella Irrigation District. Bids will be received up to and including 3 p. m. on November 13th for the construction of the first of the Terra Bella Irrigation District, Tulare County, which will include 16 wells and 5 pumping stations.

MODESTO, STANISLAUS CO., CAL.—Irrigation work. Cost not stated. Engineer, Chief Engineer, Modesto. Owners, Modesto Irrigation District. All bids for lining approximately 500 feet of the main canal with concrete were rejected as being too high. Thurston & Co., 57 Post street, S. F., presented the lowest figure as \$6,969. New bids were ordered received up to November 2nd.

Contracts Awarded.

LOS ANGELES, CAL.—Irrigation canals, \$31,525. Engineer's name not given. Owners, Dominguez Estate Co. Title Insurance Bldg., L. A. Contractor, T. J. Shea, 2029 Oxford avenue, L. A., was awarded contract at \$31,525 for constructing 21,000 linear feet of canal starting at Harbor Boulevard, crossing of Nigger Slough and running south to an ocean outlet, to drain 1,800 acres.

LIBRARIES

MADERA, MADERA CO., CAL.—Library heating system. Cost not stated. Architects, Coates & Travers, Rowell Bldg., Fresno. Owners, Madera County. Bids will be opened on October 28th at 10 a. m. for the heating system to be installed in the new library building. Plans can be secured from the architects.

Contracts Awarded.

SACRAMENTO, CAL.—Library, 3 story and base. Class C construction, \$130,000. Architect, Loring P. Rixford,

Sharon Bldg., S. F. Owners, City of Sacramento. Contractors, Knowles & Mathewson, Call-Post Bldg., S. F. general construction except structural steel. Contract price, \$75,000. Bids now being taken for the structural steel and iron.

POWER IMPROVEMENTS

SAN FRANCISCO—Hydrants. Cost not stated. Engineer, Constructing Quartermaster, Fort Mason. Owners, United States Government. Bids will be opened on October 27th for furnishing and installing hydrants in the Presidio of San Francisco. Plans can be secured from the office of the Constructing Quartermaster.

LOS ANGELES, CAL.—Power plant project. Cost as follows. Engineer, Public Service Commission, Los Angeles. Owners, City of Los Angeles. The City of Los Angeles Public Service Commission has applied to the State Water Commission for permission to appropriate 10 second feet of the waters of Cartago Creek in Inyo County. The proposed diversion relates to one of the units of the power scheme of the city of Los Angeles. The application sets forth that the applicant proposes to divert the water into the Los Angeles aqueduct, 272 miles long, by means of a concrete flume and gives the estimated cost of the power and aqueduct plants at \$33,000,000.

POST OFFICES

WENATCHEE, WASH.—Post office, 2 story and base, brick and steel. Cost not stated. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids will be opened on November 10th for the construction of this building. Revised plans are now available from either the Supervising Architect or the Custodian of the site. An official proposal appears in another column of this issue.

RAILROAD CONSTRUCTION AND EQUIPMENT

Contracts Awarded.

VANCOUVER, B. C.—Freight sheds, 1 story, steel and corrugated iron, \$125,000. Engineer, Engineering Department Canadian Northern Railway. Owners, Canadian Northern Railway. Contractors, Nettleton, Bruce & Eschbach, American Bank Bldg., Seattle. Contract price, \$125,000.

RESIDENCES

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, E. J. Spence, 537 25th avenue, S. F. Owner, Mr. Logan. Location, 30th avenue. Will contain six rooms, bath and basement garage. Plans being prepared.

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,000. Architects, Koenig & Christiansen, Humboldt Bank Bldg., S. F. Owner, H. C. Christiansen. Location, south Caselli west Douglas. Will contain seven rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1½ story and base, frame, \$3,500. Architect, none. Owner, C. D. Bevier, 60 Cordova street, S. F. Location, south Athens east Naples. Will contain six

rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, E. J. Spence, 537 25th avenue, S. F. Owner, Martin Brannon. Location, 49th avenue north Fulton. Will contain six rooms, bath and sleeping porch. Plans being prepared.

SAN FRANCISCO—Residences, 2, 1½ story and base, frame, \$2,500 each. Architect, E. J. Spence, 537 25th avenue, S. F. Owner, James Brown and E. J. Spence. Location, 26th avenue. Each house will contain six rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1½ story and base, frame, \$2,250. Architect, none. Owner, F. C. Bogle, 147 College avenue, S. F. Location, east College north St. Marys. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story, frame, \$3,500. Architect, none. Owner, E. Maasberg, 3915 Greenwood, Oakland. Location, north Fairbanks west Warfield. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1½ story and base, frame, \$2,500. Architect, W. E. Schirmer, Dalziel Bldg., Oakland. Owner, F. R. Jordan. Location, south Lakeside avenue east Walla Vista. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, D. A. Sinclair, 2828 Prince street, Berkeley. Location, east 38th and Elston. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, A. E. Olson, 2129 Telegraph avenue, Berkeley. Location, Park street north Oregon. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owners, W. and O. Johnson, 3228 Adeline street, Oakland. Location, north Alcatraz avenue east Baker. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, A. T. Anderson, 7325 Lakewood street, Oakland. Location, south Brookdale west Short. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, L. A. Kellogg, 3161 Champion street, Oakland. Location, west Rhoda north Montana. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, William H. Kerrigan, 5153 Shafter avenue, Oakland. Location, east Warfield avenue north Wickson. Will contain seven rooms, bath

and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 2, 1 story and base, frame, \$2,000 each. Architect, none. Owner, R. C. Hillen, 420 Haight avenue, Alameda. Location, south Montana west curran. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, H. A. Pleitner, 951 Fruitvale avenue, Oakland. Location, north Noble opposite 61st avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,000. Architect, none. Owner, C. J. Pfingst, 5187 Claremont avenue, Oakland. Location, north Lawton avenue west Manilla. Will contain four rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1½ story and base, frame, \$2,000. Architect, none. Owner, H. S. Butler, 5648 Oak Grove avenue, Oakland. Location, west Miles avenue south Forest. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$20,000. Architects, Schirmer & Bugbee Co., Dalziel Bldg., Oakland. Owner's name withheld. Location, Sequoyah Hill. Will contain fourteen rooms, several baths and sleeping porches. A separate garage and concrete swimming tanks are other features of the plans. Plans are being prepared.

ALAMEDA, ALAMEDA CO., CAL.—Residences, 2, 1 story and base, frame, \$2,000 each. Architect, none. Owner, G. H. Noble, 2220 Central avenue, Alameda. Locations, 2414 and 2910 Santa Clara avenue. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, Thomas Seoble, 563 14th avenue, S. F. Location, east 19th avenue south Geary. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame, \$2,500. Architect, Willis Polk & Co., Hobart Bldg., S. F. Owner, Mrs. Lillian Union. Location, Edgewood avenue. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, I. W. Button, 367 63rd street, Oakland. Location, east Arbor north Hudson. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN MATEO, SAN MATEO CO., CAL.—Residence, 1 story and base, frame. Cost not stated. Architect, C. S. McNally, 46 Kearny street, S. F. Owners, Mr. and Mrs. Wm. R. Kneass. Location, Hayward Park. Will contain six rooms, bath and sleeping porch. Plans complete and work to be let shortly.

LOS ANGELES, CAL.—Residence, 2 story and base, frame, \$60,000. Archi-

tect, A. B. Benton, 111 North Main street, L. A. Owner, Dr. H. A. V. Location, 2210 West Adams. Will cover an area of 135 by 90 feet. Will contain 20 rooms, seven bath and sleeping porch. Separate garage. Plans complete and figures being taken.

Contracts Awarded.

LOS ANGELES, CAL.—Residence, 1 story and base, hollow tile construction. Architects, The Milwaukie Bldg. Co., Wright and Callender Bldg., L. A. Owner, R. T. Gaffney, L. A. Contractors, The Milwaukie Building Company, Wright and Callender Bldg., L. A. Contract price not stated.

LOS ANGELES, CAL.—Residence, 1 story and base, hollow tile construction, \$30,000. Architects, The Milwaukie Building Co., Wright and Callender Bldg., L. A. Owner, D. A. Meyer, 1103 Haas Bldg., L. A. Contractors, The Milwaukie Building Co., Wright and Callender Bldg., L. A. Contract price, \$30,000.

SCHOOLS

BERKELEY, ALAMEDA CO., CAL.—School addition, 1 story, brick, \$11,000. Architect, W. H. Ratcliff, Jr. First National Bank Bldg., Berkeley. Owners, City of Berkeley. Location, Garfield School. The Parents' Association has requested that a one-story addition be constructed at the Garfield School at once to relieve the crowded condition. The City Architect has been instructed to prepare plans and specifications.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—School, 2 story and base, brick and concrete, \$50,000. Architect, W. H. Weeks, 75 Post street, S. F. Owner, South San Francisco School District. A complete list of the bids opened for this building will be found under the heading of San Jose and the Santa Clara Valley in this issue. All bids were taken under advisement and it is generally believed that plans will have to be revised.

SAN CARLOS, SANTA CLARA CO., CAL.—School, 1 story and base, frame, \$15,000. Architect, Norman R. Coulter, 46 Kearny street, S. F. Owners, San Carlos School District. Preliminary plans are now being prepared for a four-class room school. Two of the rooms will be open air class rooms. Beside the class rooms the plans provide for a library and teachers' room. Further mention will be made of the work.

SAN JOSE, SANTA CLARA CO., CAL.—School addition, frame, \$9,545. Architect, F. G. Aitken, Theatre Bldg., San Jose. Owners, City of San Jose. Charles Thomas, San Jose, presented the low bid for the one-story addition to be made to the Washington School and will probably be awarded the contract on his bid of \$9,545. Bids for the heating and high pressure water system in the High School were taken under advisement.

WATSONVILLE, SANTA CRUZ CO., CAL.—School, 2 story and base, brick and concrete, \$100,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Watsonville Union High School District. Plans are nearly complete and figures will be taken this week for a fourteen class room building. Besides the class rooms there will be a library and large auditorium. Plans can be secured from the architect's office.

PAISLEY, ORG.—School, 2 story and base, concrete, \$10,000. Cost not stated. Architects, The Portland & Hummel, Rothchild Bldg., Portland. Owners, Paisley School District. Will cover an area of 60 by 125 feet and contain nine class rooms and a large auditorium. Plans being prepared.

Contracts Awarded.

ALAMEDA, ALAMEDA CO., CAL.—School, 2 story and base, brick and concrete, \$65,300. Architects, Cunningham & Pollock, First National Bank Bldg., S. F. Owners, City of Alameda. Contractors, Cushman & Mulford, 15 Kearny street, S. F. Contract price, \$65,300.

SEWERS, STREET WORK & WATER SYSTEMS

FORT MASON, CAL.—Sewer extension. Cost not stated. Engineer, Consulting Quartermaster, Fort Mason. Owners, United States Government. Sealed proposals will be received in triplicate for constructing extension to sewer system, Letterman General Hospital, until 11 a. m. October 26, 1916, and then opened. Further information in application.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on October 20th for street improvements authorized under the following resolutions. For the grading, curbing with redwood, guttering with concrete gutters 3 feet wide, paving with oil macadam and sidewalk with cement sidewalks 6 feet wide, of all that portion of Bissell street that lies northwest of the northwest line of 72nd avenue.

That the portions of 51st avenue in the vicinity of East 10th and East 12th streets be graded, construct redwood curbs, concrete gutters 3 feet wide, pave with oil macadam and construct cement sidewalks 6 feet wide.

Also the crossing or East 10th street with 51st avenue be regraded, resurfaced with redwood, concrete gutters 3 feet wide, paved with oil macadam and sidewalk with cement, a corrugated iron and concrete culvert with two branches be constructed.

SAN LEANDRO, ALAMEDA CO., CAL.—Street improvements. Cost as follows. Engineer, Town Engineer, San Leandro. Owners, Town of San Leandro. Three bids for the contract of bituminizing East Fourteenth street, from the San Leandro bridge to the county limits on the east end of town, were considered at a special meeting of the Town Board Thursday night. The contract will be let at a meeting of the Board Monday night. The bids were as follows: Johnson-Shea Co., Central Bank Bldg., Oakland, \$26,325.60, California Bitumathic Co., 1109 Franklin street, Oakland, \$31,114.35, Ransome-Crummey Co., First National Bank Bldg., Oakland, \$31,190.70.

SAN RAFAEL, MARIN CO., CAL.—Road improvement, \$10,000. Engineer, County Surveyor, San Rafael. Owners, Marin County. Marin County scenic road, the Bolinas-San Rafael highway, is to be made immediately available. The Marin Supervisors have adopted a resolution calling for bids for widening the stretch from the town of Bolinas to the summit of the Bolinas ridge. It is the intention of the Board to widen the road 20 feet. Plans for

the work may be had from the County Clerk.

SAN JOSE, SANTA CLARA CO., CAL.—Resurfacing street, \$3,115. Engineer, City Engineer, San Jose. Owners, City of San Jose. The bid of John W. McDonald, Jr., Bank of Italy Bldg., San Jose, at \$3,115, for resurfacing North First street, from Santa Clara to Saint John, was laid over until the next meeting. It is probable that he will be awarded the contract.

STOCKTON, SAN JOAQUIN CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Bids will be opened on October 20th at 10 a. m. for grading and graveling work and installation of culverts on the Grant Line and Lammers Ferry road, from the intersection of the Grant Line road with the east line of the State highway in Sec. 13, T. 2 S., R. 4 E., M. D. B. and M., east 2,325 feet, thence north on the Lammers Ferry road 9,900 feet.

SONOMA, SONOMA CO., CAL.—Highway construction. Cost not stated. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Bids were opened by the State Highway Commission for constructing approximately three and one-half miles of highway located in Sonoma County between Sonoma and Cotati. W. C. Price & Co., 211 Clay street, San Francisco, presented the lowest bid at \$12,224.50. A complete list of the bids received will be found under the heading of Marin, Contra Costa and Sonoma Counties.

LONG BEACH, LOS ANGELES CO., CAL.—Drainage system, \$96,000. Engineer, R. V. Pearsall, First National Bank Bldg., Long Beach. Owners, Signal Hill Drainage District. The Signal Hill Drainage District will shortly call for bids for 11,266 feet of 48-inch reinforced concrete pipe to be laid in trench averaging 11.4 feet in depth, 31,000 cubic yards of clay and sand excavation. The pipe will be laid for the greater part below water level. The district embraces about three square miles.

LOS ANGELES, CAL.—Sewer system. Cost not stated. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Bids will be opened on October 23rd at 10 a. m. by the Board of Public Works for the construction of a sewer system in the Florence Avenue Sewer District, involving the following approximate quantities: 122 feet 42-inch concrete or 2-rising common brick, 4,048 feet 38-inch brick or concrete, 3,593 feet 34-inch brick or concrete, 5,433 feet 30-inch brick or concrete, 5,229 feet 26-inch double strength vitrified pipe with 82 20x6-inch T's and 72 20x6-inch Y's, 2,678 feet 18-inch double strength vitrified pipe with 50 18x6-inch T's, 2,654 feet 16-inch vitrified pipe, 1,165 feet 12-inch vitrified pipe, 1,216 feet 8-inch vitrified pipe, 2,427 feet 10-inch cement pipe, 5,677 feet 6-inch house connections with 176 6x4 1/2 bends, 25 manholes "B," 15 manholes "C," 5 junction chambers "F," 4 junction chambers "N," 7 drop manholes "S," 22 drop manholes "T," 1 flush tank and 1 flushing manhole "E," 81 manhole cover sets, 295 chimney pipe "R," 165 chimney pipe "D." Total length of sewer 31,245 feet. Plans and specifications are available to contractors at the City Engineer's office.

LOS ANGELES, CAL.—Highway improvement, \$52,112.61. Engineer, County Surveyor, Los Angeles. Owners, Los Angeles County. S. C. Contracting Co., 543 Title Insurance Bldg., Los Angeles, was the lowest bidder at \$52,112.61 for improving 2.21 miles of Beverly road and Scenic road, known as Road Improvement District No. 126, under the 1907 Act. Beverly road will be paved with concrete 18 feet wide, 5 inches thick, surfaced with bituminous wearing coat with 3 1/2-foot oiled shoulders. Scenic road will be graded 16 feet wide.

VENTURA, VENTURA CO., CAL.—Paving. Cost not stated. Engineer, County Surveyor, Ventura. Owners, Ventura County. Bids will be opened on October 25th by the Board of Supervisors for paving of Castitas bridge, La Crosse bridge, Mantalvo bridge extension, Saticoy bridge extension, Sespe bridge and Sespe concrete trestle, according to plans and specifications on file in the office of the County Surveyor. The approximate quantities are 47,798 square feet oil macadam pavement and 11,660 feet B. M., 1x3 O. P. battens. J. R. McCloskey, County Clerk.

OAKLAND, CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on October 26th for street improvements authorized under the following resolution. That cement sidewalks 6 feet wide, where cement or bitumen do not already exist, be constructed on the sidewalks of Seminary avenue, from the northeast line of East 14th street to the southwest line of Foothill Boulevard.

SALINAS, MONTEREY CO., CAL.—Highway improvements. Cost not stated. Engineer, County Surveyor, Salinas. Owners, Monterey County. The County Supervisors at their last meeting approved plans and specifications for the following road work and ordered bids received up to November 6th at 2 p. m. for the construction of a new road in the King City Road District on the Arroyo Seco near Piney Creek; also for the reconstruction of the new road in San Antonio Road District on the Milpitas ranch. Plans for the work and full particulars may be had from the County Clerk.

SANTA CRUZ, SANTA CRUZ CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. After three unsuccessful attempts to secure bids for the construction of the Surfside avenue sewer, the City Council has decided to abandon proceedings on the work. It is probable that the work will now be carried on by Day Labor.

SANTA ROSA, SONOMA CO., CAL.—Road construction, \$9,000. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. The Sonoma County Supervisors at their last meeting rejected the bid of E. T. Stoddard at \$9,750 for the construction of several miles of road in the Austin Permanent Road District. It is probable that new bids will be called.

FRESNO, FRESNO CO., CAL.—Cement. Cost not stated. Engineer, County Surveyor, Fresno. Owners, Fresno County. Bids will be opened on November 6th for furnishing the County of Fresno with 1,890 barrels of

Portland cement, f. o. b. Fowler, Cal., in the original packages, with the brand and name of the manufacturer plainly marked thereon at the time of delivery. Said Portland cement shall conform to the standard specifications for Portland cement adopted by the American Society for Testing Materials, August 16, 1909, and amendments thereto, supplemental and mandatory thereof. If cement is delivered in cloth bags, all such bags to be returned to bidder f. o. b. Fowler, Cal.

BAKERSFIELD, KERN CO., CAL.—Road roller. Cost not stated. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on November 8th for furnishing a gasoline road roller. Full particulars from the County Clerk.

CHINO, SAN BERNARDINO CO., CAL.—Street improvement, \$53,715.75. Engineer, City Engineer Paul E. Kressly, Chino. Owners, City of Chino. The California-Arizona Construction Co., 1700 Washington street, L. A., presented the lowest figures for improving streets in Chino. All bids were taken under advisement.

SANTA ANA, ORANGE CO., CAL.—Road improvement, \$16,728. Engineer, County Surveyor, Santa Ana. Owners, Orange County. Brashers-Burns Co., Van Nuys Bldg., L. A., submitted the low bid for about 3 miles of highway improvement and will probably be awarded the contract at the next meeting of the Board of Supervisors.

Contracts Awarded

WOODLAND, YOLO CO., CAL.—Street paving, 12.2 cents per square foot. Engineer, City Engineer, Woodland. Owners, City of Woodland. Contractors, Clarke & Henery Co., Stockton. Contract price, 12.2 cents per square foot.

GROVILLE, BUTTE CO., CAL.—Road improvement, \$5,800. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractors, Hewitt & Felch, Palermo. Contract price, \$5,800.

C., until 10:30 a. m. October 30, 1916, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1085) may be obtained from this office or the offices of the assistant purchasing agent, Fort Mason, San Francisco, Cal., also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

INVITATION FOR PROPOSALS.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., October 2, 1916.—Sealed proposals will be opened in this office at 3 p. m. November 10, 1916, for the construction complete of the United States Post Office at Wenatchee, Washington. Drawings and specifications may be obtained from the Custodian of site at Wenatchee, Washington, or at this office, in

the discretion of the Supervising Architect. JAS. A. WETMORE, Acting Supervising Architect.

PROPOSALS FOR CRANE.

CRANE—Sealed proposals, indorsed "Proposals for Locomotive Crane" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m., November 11, 1916, and then there publicly opened, for a locomotive jib crane of 50 gross tons capacity at the naval station, Pearl Harbor, T. H. Plan and specification can be obtained on application to the bureau or to the commandant of the naval station named. F. R. HARRIS, chief of bureau.

BEGIN IRRIGATION WORK.

LINDSAY, Cal.—Work has been started by the Lindsay-Strathmore Irrigation district at Exeter. The district's contractors are now hauling and installing redwood pipes to carry the water from Exeter to the Lindsay district where the water will be required for irrigation purposes. A trenching machine will be put to work in a few days.

MADEIRA TO HAVE OLIVE PLANT.

Plans are being formulated for the construction of a big olive plant that will be built at Madeira by the California Associated Olive Growers. The majority of the olive growers in Madeira county belong to the association. At present it is necessary to ship the crop for processing.

CONSTRUCTION COMPANY HEADS IN FRESNO.

FRESNO, Cal.—H. V. B. Malcolm, vice-president of the Coast Construction Co., and H. F. Armstrong, head of the office department, arrived from Los Angeles recently and opened offices in the Griffith-McKenzie Building. The company has the contract for the new storm and sanitary sewer.

PROMINENT ARCHITECT PLACED UNDER ARREST.

LOS ANGELES, Cal.—Charles Krueger, prominent architect of Los Angeles, is under arrest here as a result of a request for his detention by the Sheriff of Twin Falls, Idaho. The complaint stated Krueger was wanted in connection with a charge of obtaining a signature to a forged document in which several hundred dollars were involved. Krueger is very well known among Los Angeles architects and has designed a number of large buildings here.

TWOHY DENIES HE WILL BUILD OREGON LINE.

PORTLAND, Ore.—Is the contracting firm of Twohy Brothers Company endeavoring to float a \$2,000,000 bond issue of the old proposed California and Coast Railroad for the purpose of building forty-five miles of road from Wilderville to Waldo, Oregon, in the extension of the railroad from Grant's Pass? Reports current here assert the fact with great positiveness, but John Twohy, from his apartments in the Hotel Biltmore, New York, sends an emphatic denial.

The construction of the road would open up a richly productive country

that is now undeveloped for lack of rail facilities. Twohy has long been active in promoting the railroad, which originally was projected to run between Grant's Pass and Crescent City, California, a distance of ninety miles.

LIGHTING PROBLEM IS AGITATING SALINAS.

SALINAS, Cal.—The Chamber of Commerce committee on Main street electroliters have met and discussed the new lighting system, its cost, the best way to obtain it, and who should share in its maintenance. Committee members present were J. A. Anderson, chairman; George White, H. L. Burns and Clarence Tynan.

VISALIA'S CITY ENGINEER DIES.

VISALIA, Cal.—Sidney Benton Greeley, former city engineer of Bakersfield, died Tuesday morning at Three Rivers where he had been living for the past 18 months. He was 41 years of age and was considered one of the most capable engineers in the valley.

BANK RESOURCES INCREASE.

SACRAMENTO—The report of State Bank Commissioner, W. E. Williams, for the past 60 days shows that the total resources and liabilities of the 576 banks in California have increased \$17,972,053.

SELMANS OPPOSE GOOD ROAD BONDS.

SELMA, Cal.—A strong organization of taxpayers has been formed at Selma for the purpose of fighting the proposed good roads bond issue of \$3,600,000 in Fresno County.

WORK STARTS ON MILK PLANT.

MODESTO—The first activity on the ground to be occupied by a \$160,000 Borden's Condensed Milk Co. factory was started with the drilling of a 300-foot well from which the water supply for the plant will be secured. Contracts are expected to be let within the next week for the first building of the plant. Arrangements for sewers and switching connections have already been made by Manager C. D. Van Dersen. It

is planned to have the plant built and in operation by January 1. Contracts have been signed with ranchers for the entire milk output of more than 2000 cows and this number will be increased as soon as the factory is opened.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps ON the road and OUT of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

OAKLAND AND ALAMEDA COUNTY

STREET IMPROVEMENTS—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on October 20th for street improvements authorized under the following resolutions: For the grading, curbing with redwood, guttering with concrete gutters 3 feet wide, paving with oil macadam and sidewalking with cement sidewalks 6 feet wide, of all that por-

tion of Bissell street that lies north of the northwest line of 73rd ave-

tion of the portions of 51st avenue, in the vicinity of East 10th and East 12th streets, be graded, construct redwood concrete gutters 3 feet wide, paved with oil macadam and construct cement sidewalks 6 feet wide.

Also the crossing of East 10th street with 51st avenue be regraded, resurfaced with redwood, concrete gutters 3 feet wide, paved with oil macadam and sidewalked with cement; a corrugated iron and concrete culvert with two branches be constructed.

STREET IMPROVEMENTS—Cost as follows. San Leandro, Alameda Co, Cal. Engineer, Town Engineer, San Leandro. Owners, Town of San Leandro. Three bids for the contract of bituminizing of East Fourteenth street, from the San Leandro bridge to the county limits on the east end of town were considered at a special meeting of the Town Board Thursday night. The contract will be let at a meeting of the Board Monday night. The bids were as follows: Johnson-Shea Co, Central Bank Bldg., Oakland, \$26,325.-60; California Bitutholitic Co., 1109 Franklin street, Oakland, \$31,144.35; Rausome-Crummey Co., First National Bank Bldg., Oakland, \$31,490.70.

RESIDENCE—1 1/2 story and base, frame, \$2,500. Oakland, Cal. Architect, W. E. Schirmer, Dalziel Bldg., Oakland. Owner, F. R. Jordan. Location, south Lakeside avenue east Walla Vista. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, D. A. Sinclair, 2823 Prince street, Berkeley. Location, 38th and Elston. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,500. Berkeley, Alameda Co, Cal. Architect, none. Owner, A. E. Olson, 2129 Telegraph avenue, Berkeley. Location, Park street north Oregon. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owners, W. and O. Johnson, 3224 Adeline street, Oakland. Location, north Alcatraz avenue east Baker. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, A. T. Anderson, 7325 Lakewood street, Oakland. Location, south Brookdale west Short. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, I. A. Kellogg, 3404 Champion street, Oakland. Location, west Rhoda north Montana. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, William H. Kerrigan, 557 Shafter avenue, Oakland. Location, east Warfield avenue north Wick-

on. Will contain bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—2 1/2-story and base, frame, \$2,000 each. Oakland, Cal. Architect, none. Owner, R. C. Hagen, 130 Haight avenue, Alameda. Location, south Montana west Corral. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame \$2,000. Oakland, Cal. Architect, none. Owner, H. A. Fleiter, 61 Fruitvale avenue, Oakland. Location, north Noble opposite 61st avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,000. Oakland, Cal. Architect, none. Owner, C. J. Pfingst, 7457 Claremont avenue, Oakland. Location, north Lawton avenue west Manila. Will contain four rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 1/2 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, H. S. Butler, 5618 Oak Grove avenue, Oakland. Location, west Mills avenue south Forest. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$20,000. Oakland, Cal. Architects, Schirmer & Buehler Co., Balzied Bldg., Oakland. Owner's name withheld. Location, Squoway Hill. Will contain fourteen rooms, several baths and sleeping porches. A separate garage and concrete swimming tank are other features of the plans. Plans are being prepared.

RESIDENCES—2, 1-story and base, frame, \$2,000 each. Alameda. Alameda Co., Cal. Architect, none. Owner, G. H. Noble, 2229 Central avenue, Alameda. Locations, 2141 and 2149 Santa Clara avenue. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOL ADDITION—1 story, brick, \$11,000. Berkeley, Alameda Co., Cal. Architect, W. H. Richter, Jr., First National Bank Bldg., Berkeley. Owners, City of Berkeley. Location, Garfield School. The Parents' Association has requested that a one-story addition be constructed at the Garfield School at once to relieve the crowded condition. The City Architect has been instructed to prepare plans and specifications.

WAREHOUSE—1 story, brick, \$15,000. Alameda, Alameda Co., Cal. Architect, none. Owner, Jacob House, 1815 Hearst street, Berkeley. Location, Tunnel street. Plans complete and work to be done by Day Labor.

GARAGE—brick and concrete, \$6,000. Berkeley, Alameda Co., Cal. Architect, F. Holberg Remers, Acheson Bldg., Berkeley. Owner, A. M. Harvey. Location, Colusa and Solano streets. Garage on first floor and flats above. Plans complete and owner taking figures for all work except brick.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, I. W. Burton, 267 63rd street, Oakland. Location, east Arbor north Hudson. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

STREET IMPROVEMENT—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on October 26th for street improvements authorized under the following resolution: That cement sidewalks 6 feet wide, where cement or bitumen do not already exist, be constructed on the sidewalks of Seminary avenue, from the northeast line of East 14th street to the southwest line of Foothill Boulevard.

STREET IMPROVEMENTS—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. The City Council has awarded a contract to the Clark & Henry Construction Co., First Savings Bank Bldg., Oakland, for the following work: That all of that portion of Oak street that lies north of the north line of 14th street, and all that portion of Lake street that lies east of the east line of Jackson street, each be graded, curbed with concrete, guttered with brick gutters 14 inches wide, and paved with asphalt; a vitrified pipe conduit, having an internal diameter of 10 inches, two brick storm water inlets and two brick manholes be constructed.

THEATRE AND STORES—2 story and base. Class A and Class C construction, \$100,000. Berkeley, Alameda Co., Cal. Architect, James W. Plachek, Acheson Bldg., Berkeley. Owners, Williamson & Bradshaw. Location, south University avenue west Shattuck avenue. Will contain a large theatre in the class A portion and stores and offices in the class C portion. Plans complete and segregated figures being taken.

RESIDENCE—1 story, frame, \$3,500. Oakland, Cal. Architect, none. Owner, E. Maasberg, 3915 Greenwood, Oakland. Location, north Fairbanks west Warfield. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

Contracts Awarded

SAN JOSE AND THE SANTA CLARA VALLEY

RESURFACING STREET — \$3,115. San Jose, Santa Clara Co., Cal. Engineer, City Engineer, San Jose. Owners, City of San Jose. The bid of John W. McDonald, Jr., Bank of Italy Bldg., San Jose, at \$3,115, for resurfacing North First street, from Santa Clara to Saint John, was laid over until the next meeting. It is probable that he will be awarded the contract.

SCHOOL—2 story and base, brick and concrete, \$50,000. South San Francisco, San Mateo Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, South San Francisco School District. A complete list of the bids opened for this building will be found under the heading of San Jose and the Santa Clara Valley in this issue. All bids were taken under advisement, and it is generally believed that plans will have to be revised.

SCHOOL—1 story and base, frame, \$15,000. San Carlos, Santa Clara Co., Cal. Architect, Norman E. Coulter, 46 Kearny street, S. F. Owners, San Carlos School District. Preliminary plans are now being prepared for a four-class room school. Two of the rooms will be open-air class rooms. Beside the class rooms the plans will provide for a library and teachers' room. Further mention will be made of the work.

SCHOOL ADDITION—Frame, \$9,545. San Jose, Santa Clara Co., Cal. Architect, F. G. Aitken, Theatre Bldg., San Jose. Owners, City of San Jose. Charles Thomas, San Jose, presented the low bid for the one-story addition to be made to the Washington School and will probably be awarded the contract on his bid of \$9,545. Bids for the heating system and high pressure water system in the High School were taken under advisement.

SCHOOL—2 story and base, brick and concrete, \$160,000. Watsonville, Santa Cruz Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Watsonville Union High School District. Plans are nearly complete and figures will be taken this week for a fourteen class room building. Besides the class rooms there will be a library and large auditorium. Plans can be secured from the architect's office.

RESIDENCE — 1 story and base, frame. Cost not stated. San Mateo, SEAN Mateo Co., Cal. Architect, C. S. McNally, 46 Kearny street, S. F. Owners, Mr. and Mrs. Wm. B. Kneass. Location, Hayward Park. Will contain six rooms, bath and sleeping porch. Plans complete and work to be let shortly.

SEWER CONSTRUCTION—Cost not stated. Santa Cruz, Santa Cruz Co., Cal. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. After three unsuccessful attempts to secure bids for the construction of the Surfside avenue sewer, the City Council has decided to abandon proceeding on the work. It is probable that the work will now be carried on by Day Labor.

HIGHWAY IMPROVEMENTS — Cost not stated. Salinas, Monterey Co., Cal. Engineer, County Surveyor, Salinas. Owners, Monterey County. The County Supervisors at their last meeting approved plans and specifications for the following road work and ordered bids

received up to November 6th at 2 p. m. for the construction of a new road in the King City Road District, on the Arroyo Seco near Piney Creek; also for the reconstruction of the new road in San Antonio Road District on the Milpitas ranch. Plans for the work and full particulars may be had from the County Clerk.

SOUTH SAN FRANCISCO SCHOOL BIDS OPENED

L. G. Bergren & Son Present Low Bid. Minor Changes in Plans Before Contract is Awarded.

SOUTH SAN FRANCISCO, Cal., Oct. 9, 1916—Bids were opened at the Monday night's meeting of the Board of Education for the construction of a two-story and basement brick and concrete building, designed by Architect W. H. Weeks, 75 Post St., San Francisco.

Bids for this work were taken separately for the general construction; plumbing; heating and ventilating; roofing; electric work; vacuum cleaning, and program clock system.

L. G. Bergren & Son, Call-Post Bldg., San Francisco, presented the lowest bid for the general construction at \$49,872. All bids were taken under advisement until a meeting between the Board and the Architect could be arranged.

Bonds in the amount of \$60,000 are available and it may be necessary to make minor changes in the plans before signing the contract. Following is a complete list of the bids as opened:

MARIN, CONTRA COSTA AND SONOMA COUNTIES

ROAD IMPROVEMENT—\$10,000. San Rafael, Marin Co., Cal. Engineer, County Surveyor, San Rafael. Owners, Marin County. Marin County's scenic road, the Bolinas-San Rafael highway, is to be made immediately available. The Marin Supervisors have adopted a resolution calling for bids for widening the stretch from the town of Bolinas to the summit of the Bolinas ridge. It is the intention of the Board to widen the road 20 feet. Plans for the work may be had from the County Clerk.

HIGHWAY CONSTRUCTION—Cost not stated. Sonoma, Sonoma Co., Cal. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Bids were opened by the State Highway Commission for constructing approximately three and one-half miles of highway located in Sonoma County between Sonoma and Cotati. W. C. Price & Co., 211 Clay street, San Francisco, presented the lowest bid at \$12,224.50. A complete list of the bids received will be found under the heading of Marin, Contra Costa and Sonoma Counties.

BRIDGE AND ROAD CONSTRUCTION—Cost as follows. Santa Rosa, Sonoma Co., Cal. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. The Board of Supervisors at their last meeting took the following action on road contracts: D. E. Albers, 473 Ellis street, Santa Rosa, awarded contract for Sausal Creek bridge on his bid of \$1,350. The contract for the construction of the Harbinger bridge on the Sebastopol and Forestville road was awarded to The Call Construction Co. for \$371.

WAREHOUSE ADDITION—1 story, concrete and frame, \$9,000. Petaluma, Sonoma Co., Cal. Architect, Brainerd Jones, 116 Washington street, Petaluma. Owners, Golden Eagle Milling Co. Building will cover a large ground area. Special machinery to be installed. Plans are being prepared.

ROAD CONSTRUCTION—\$9,000. Santa Rosa, Sonoma Co., Cal. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. The Sonoma County Supervisors at their last meeting rejected the bid of E. T. Stoddard at \$9,750 for the construction of several miles of road in the Austin Permanent Road District. It is probable that new bids will be called.

STORES—1 story and base, frame. Cost not stated. Ross Valley, Marin Co., Cal. Architects, Schirmer, Bugbee & Co., Dalziel Bldg., Oakland. Owner,

Scott. Will contain five stores, being prepared.

Contracts Awarded.

SEWER CONSTRUCTION, \$2,982.55. J. C. Solano Co., Cal. Engineer, City Engineer, Vallejo. Owners, City of Vallejo. Contractors, Worswick Construction Co., Fresno. Contract price, \$2,982.55.

RECEIVE FIGURES FOR STATE HIGHWAY.

Three and a Half Mile Grading Job in Sonoma County Will Probably Be Awarded at Next Meeting.

(By Special Wire)

SACRAMENTO, Cal., Oct. 9th, 1916.—Bids were opened today by the State Highway Commission for constructing approximately three and one-half miles of highway located in Sonoma County, between Sonoma and Cotati. W. C. Price & Co., 211 Clay street, San Francisco, presented the lowest bid at \$12,224.50. Following is a complete list of the bids received:

State Highway Construction.
Hate-Gorland & Ayer, Oak-land.....\$18,484.20
W. C. Price & Co., S. F..... 12,224.50
G. W. Connors, Eureka..... 20,841.00
A. J. Fairbanks, Willits..... 23,067.40
W. J. Schmidt, Berkeley..... 16,951.35
T. M. Olney, Oakland..... 17,869.00
Spring Constr. Co., Berkeley, 24,231.80
Contra Costa Con. Co., Bkly., 22,539.90
P. A. Hoare, Oakland..... 22,713.80
J. S. Fitzpatrick, Sacramento, 18,352.00
A. T. Brady, S. F..... 27,542.60
J. A. Marshall, Berkeley..... 17,240.00
D. O. Church, S. F..... 19,042.10
William B. Hoag, S. F..... 18,204.05

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

IRRIGATION PROJECT—\$500,000. Terra Bella, Tulare Co., Cal. Engineer, Stephen E. Kieffer, 57 Post street, S. F. Owners, Terra Bella Irrigation District. Bids will be received up to and including 3 p. m. on November 13th for the construction of the first unit of the Terra Bella Irrigation District, Tulare County, which will include 16 wells and five pumping stations.

BRIDGE AND CULVERTS—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on November 9th for grading and construction of bridges and culverts on Division 16, Section 9, Bakersfield-Mojave road, being that portion lying between the Keene School and the summit of Old Town grade, length approximately 12.3 miles.

HOSPITAL ADDITION—2 story and base, reinforced concrete, \$55,000. Fresno, Fresno Co., Cal. Architects, Gies & Butler, Republican Bldg., Fresno. Owners, Fresno County. Location, County Hospital grounds. Will cover an area of 158 1/2 by 85 feet. Plan complete and figures being taken.

LIBRARY HEATING SYSTEM—Cost not stated. Madera, Madera Co., Cal. Architects, Coates & Travers, Rowell Bldg., Fresno. Owners, Madera County. Bids will be opened on October 28th at 10 a. m. for the heating system to be installed in the new library building.

Plans can be secured from the architects.

IRRIGATION WORK—Cost not stated. Modesto, Stanislaus Co., Cal. Engineer, Chief Engineer, Modesto, Owners, Modesto Irrigation District. All bids for lining approximately 700 feet of the main canal with concrete were rejected as being too high. Thurston & Co., 57 Post street, S. F., presented the lowest figure at \$6,969. New bids were ordered received up to November 2nd.

CEMENT—Cost not stated. Fresno, Fresno Co., Cal. Engineer, County Surveyor, Fresno. Owners, Fresno County. Bids will be opened on November 5th for furnishing the County of Fresno with 1,890 barrels of Portland cement, f. o. b., Fowler, Cal., in the original packages, with the brand and name of the manufacturer plainly marked thereon at the time of delivery. Said Portland cement shall conform to the Standard specifications for Portland cement adopted by the American Society for Testing Materials of August 16, 1909, and amendments thereto, supplemental and amendatory thereof. If cement is delivered in cloth bags, all such bags to be returned to the bidder f. o. b. Fowler, Cal.

ROAD ROLLER—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on November 5th for furnishing a gasoline road roller. Full particulars from the County Clerk.

BRIDGE—Reinforced concrete. Cost not stated. Visalia, Tulare Co., Cal. Engineer, County Surveyor, Visalia. Owners, Tulare County. Bids will be received by the Board of Supervisors up to 2 p. m. of October 25th for constructing a reinforced concrete 50-foot bridge across Deep Creek near the Bliss ranch, about 6 miles south of Visalia, in accordance with plans and specifications.

BUILDING CONTRACTS

FRESNO COUNTY.

DWELLING

LOT 6 BLK 17 Alta Vista Tract, Fresno Dwelling and garage.

Owner.....Geo. Beall, Vineyard Temperance Colony, Fresno.

Architect...None.

Contractor..Fred Stone, 2007 Mariposa St., Fresno.

COST, \$3600

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

HIGHWAY IMPROVEMENT—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Bids will be opened on October 20th at 10 a. m. for grading and graveling work and installation of culverts over the Grant Line and Lammers Ferry roads, from the intersection of the Grant Line road with the east line of the State highway in Sec. 15, T. 2 S., R. 4 E., M. D. B. and M., east 2,325 feet, thence north on the Lammers Ferry road 9,960 feet.

BRIDGE—Timber. Cost not stated. Red Bluff, Tehama Co., Cal. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. Bids will be opened

on October 25th at 10 a. m. for the construction of a wooden bridge across a slough on the road to the citrus farms in Road District No. 2.

BRIDGE AND DIKE WORK—Cost as follows. Eureka, Humboldt Co., Cal. Engineer, County Surveyor, Eureka. Owners, Humboldt County. The County Supervisors received only one bid at their last meeting for the construction of the Ohman Creek bridge, that of the Mercer-Fraser Co., First and G streets, Eureka, at \$2,887. But one bid was received for the construction of a dike near Arcata for road purposes at \$1,200. This being submitted by the Suisun Iredging Co. It is probable that the contracts will be awarded to the bidder in each case.

Contracts Awarded.

STREET PAVING—12.2 cents per square foot. Woodland, Yolo Co., Cal. Engineer, City Engineer, Woodland. Owners, City of Woodland. Contractors, Clark & Henery Co., Stockton. Contract price, 12.2 cents per square foot.

LIBRARY—2 story and base. Class C construction, \$120,000. Sacramento, Cal. Architect, Loring P. Rickford, Sharon Bldg., S. F. Owners, City of Sacramento. Contractors, Knowles & Mathewson, Call-Post Bldg., S. F. general construction except structural steel. Contract price, \$75,000. Bids now being taken for the structural steel and iron.

HIGHWAY IMPROVEMENT—\$8,861.50. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Contractors, C. J. Moring & Sons, Commercial and Savings Bank Bldg., Stockton. Contract price, \$8,861.50.

ROAD IMPROVEMENT—\$5,800. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractors, Hewitt & Felch, Palermo. Contract price, \$5,800.

Filed Oct. 7, '16. Dated Oct. 4, '16.
TOTAL COST, \$1938
Bond, \$975. Sureties, I. F. Stein and E. C. Marks. Limit, forfeit, none. Plans specifications filed.

SET & FURNISH TILE FOR THREE vestibules, including concrete and furnish 3 cast iron bronze plated grills on above.
Contractor...H. P. Fisher, 315 N-California St., Stockton.
Filed Oct. 7, '16. Dated Oct. 4, '16.
TOTAL COST, \$54
Bond, limit, forfeit, none. Plans and specifications filed.

LOS ANGELES AND SOUTHERN CALIFORNIA

DRAINAGE SYSTEM—\$26,000. Long Beach, Los Angeles Co., Cal. Engineer, R. V. Pearsall, First National Bank Bldg., Long Beach. Owners, Signal Hill Drainage District. The Signal Hill Drainage District will shortly call for bids for 11,266 feet of 48-inch reinforced concrete pipe to be laid in trench averaging 11.4 feet in depth, 31,000 cubic yards of clay and sand excavation. The pipe will be laid for the greater part below water level. The district embraces about three square miles.

SEWER SYSTEM—Cost not stated. Los Angeles, Cal. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Bids will be opened on October 23rd at 10 a. m. by the Board of Public Works for the construction of a sewer system in the Florence Avenue Sewer District, involving the following approximate quantities: 122 feet 42-inch concrete or 2-ring common brick, 4,048 feet 28-inch brick or concrete, 2,593 feet 34-inch brick or concrete, 5,423 feet 30-inch brick or concrete, 5,229 feet 20-inch double strength vitrified pipe with 82 20x6-inch T's and 72 20x6-inch Y's, 2,678 feet 18-inch double strength vitrified pipe with 50 18x9-inch T's, 2,654 feet 16-inch vitrified pipe, 1,165 feet 12-inch vitrified pipe, 1,216 feet 8-inch vitrified pipe, 2,427 feet 16-inch cement pipe, 5,677 feet 6-inch house connections with 176 6x4-inch bends, 25 manholes "B," 15 manholes "C," 3 junction chambers "D," 1 junction chamber "N," 7 drop manholes "C," 22 drop manholes "T," 1 flush tank and 1 flushing manhole "E." 81 manhole cover sets, 205 chimney pipe "B," 163 chimney pipe "D." Total length of sewer 34,245 feet. Plans and specifications are available to contractors at the City Engineer's office.

WAY IMPROVEMENT—\$52.- Los Angeles, Cal. Engineer, Surveyor, Los Angeles. Owners, Los Angeles County, S. O. Con. Co., 512 Title Insurance Bldg., Los Angeles. Bids will be opened for improving 2.2 miles of road and scenic road, known as Road Improvement District No. 126, under the 1907 Act. Beverly road will be paved with concrete 18 feet wide, 7 feet thick with 2 1/2 feet oil-oid shoulder. Scenic road will be graded 16 feet wide.

PAVING—Cost not stated. Ventura, Ventura Co., Cal. Engineer, County Surveyor, Ventura. Owners, Ventura County. Bids will be opened on October 18th by the Board of Supervisors for paving of Castitas bridge, La Crosse bridge, Mantalvo bridge extension, Salchoy bridge extension, Sesepe bridge and Sesepe concrete trestle, according to plans and specifications on file in the office of the County Surveyor. The approximate quantities are 47,798 square feet oil macadam pavement and 11,000 feet B. M. 1x3 O. P. battens, J. B. McCloskey, County Clerk.

PROTECTION WORK—Cost not stated. San Bernardino, San Bernardino Co., Cal. Engineer, County Surveyor, San Bernardino. Owners, San Bernardino County. Bids will be received by the Board of Supervisors up to 11 a. m. of October 20th for the construction of protection work along the Mojave River near Barstow, and for repairs and addition to the bridge now in place at the Barstow Crossing on the Mojave River, in accordance with plans and specifications on file at the office of the Clerk of the Board. Certified check of 10 per cent required. L. R. Patty is Clerk of the Board.

WAREHOUSE—7 story and base, reinforced concrete. Cost not stated. Los Angeles, Cal. Architect, none. Owner, Lyon Fireproof Storage Co. Contractors, Richards-Neustadt Construction Co., Wright and Callender Bldg., L. A. Contract price not stated. Building will cover an area of 80 by 80 feet.

BRANCH CITY HALL—2 story and base, brick, \$24,100. Van Nuys, Los Angeles Co., Cal. Architect, J. J. Backus, Chief Building Inspector, Los Angeles. Owners, Town of Van Nuys. Contractors, Edwards & Wilsey Co., L. A. presented the lowest figures for this work at \$25,100. All bids have been referred to Architect Backus.

POWER PLANT PROJECT—Cost as follows. Los Angeles, Cal. Engineer, Public Service Commission, Los Angeles. Owners, City of Los Angeles. The City of Los Angeles Public Service Commission has applied to the State Water Commission for permission to appropriate 10 second feet of the waters of Cartago Creek in Inyo County. The proposed diversion relates to one of the units of the power scheme of the city of Los Angeles. The application sets forth that the applicant proposes to divert the water into the Los Angeles aqueduct, 232 miles long by means of a concrete flume, and gives the estimated cost of the power and aqueduct plants at \$32,000,000.

RESIDENCE—2 story and base, frame, \$50,000. Los Angeles, Cal. Architect, A. R. Benton, 111 North Spring street, L. A. Owner, Dr. E. A. Bryant located on 3210 West Adams street. Will cover an area of 135 by 95 feet and contain 20 rooms, seven baths and

Sleeping porch. Separate garage. Plans complete and figures being taken.

ROAD IMPROVEMENT—\$52,112.61. Los Angeles, Cal. Engineer, County Surveyor, L. A. Owners, Los Angeles County. The S-C Construction Co., Title Insurance Bldg., L. A., submitted the lowest bid for improvements in Road District No. 126 and will be awarded the contract. Contract price, \$52,112.61.

ROAD IMPROVEMENT—\$16,728. Santa Ana, Orange Co., Cal. Engineer, County Surveyor, Santa Ana. Owners, Orange County. Brashear-Burns Co., Van Nuys Bldg., L. A., submitted the low bid for about three miles of highway improvement and will probably be awarded the contract at the next meeting of the Board of Supervisors.

STREET IMPROVEMENT—\$53,715.75. Chino, San Bernardino Co., Cal. Engineer, City Engineer Paul E. Kressly, Chino. Owners, City of Chino. The California-Arizona Construction Co., 1700 Washington street, L. A., presented the lowest figures for improving streets in Chino. All bids were taken under advisement.

Contracts Awarded.

IRRIGATION CANALS—\$31,525. Los Angeles, Cal. Engineer's name not given. Owners, Dominguez Estate Co., Title Insurance Bldg., L. A. Contractor, T. J. Shea, 2629 Oxford avenue, Los Angeles, was awarded contract at \$31,525 for constructing 21,000 linear feet of canal starting at Harbor Boulevard, crossing Nigger Slough and running south to an ocean outlet, to drain 1,800 acres.

RESIDENCE—2 story and base, hollow tile. Cost not stated. Los Angeles, Cal. Architects, The Milwaukee Bldg. Co., Wright & Callender Bldg., L. A. Owner, R. T. Gaffney, L. A. Contractors, The Milwaukee Building Co., Wright & Callender Bldg., L. A. Contract price not stated.

RESIDENCE—2 story and base, hollow tile construction, \$50,000. Los Angeles, Cal. Architects, The Milwaukee Building Co., Wright & Callender Bldg., L. A. Owner, D. A. Mizener, 1103 Haas Bldg., L. A. Contractors, The Milwaukee Building Co., Wright & Callender Bldg., L. A. Contract price, \$50,000.

APARTMENT HOUSE—2 story and base, frame, \$25,000. Los Angeles, Cal. Architect, none. Owner, M. M. Olin. Contractors, Taylor Bros., Black Bldg., L. A. Contract price, \$25,000.

DETENTION ADDITION—2 story, brick, \$17,275. Santa Barbara, Santa Barbara Co., Cal. Architect, Roland F. Sauter, 228 San Marcos street, Santa Barbara. Owners, Santa Barbara County. Contractors, The Kling Co., 1612 East 15th street, L. A. Contract price, \$17,275.

STREET IMPROVEMENT—\$29,437.54. Los Angeles, Cal. Engineer, City Engineer, L. A. Owners, City of Los Angeles. Contractors, Los Angeles Paving Co., 2900 Santa Fe avenue, L. A. Contract price, \$29,437.54.

STREET PAVING—\$26,455.48. San Bernardino, San Bernardino Co., Cal. Engineer, City Engineer, San Bernardino. Owners, City of San Bernardino. Contractors, Highway Construction Co., First National Bank Bldg., Highland. Contract price, \$26,455.48.

PORTLAND AND OREGON

THEATRE, STORES AND OFFICES—3 story and base, brick. Cost not stated. Enterprise, Ore. Architects, Tourtellotte & Hummel, Rothchild Bldg., Portland. Owner, L. W. Riley. Location, Main and West streets. Besides the theatre and stores the building will be arranged for both offices and apartments. Plans are being prepared.

SCHOOL—2 story and base, concrete and stucco. Cost not stated. Paisley, Ore. Architects, Tourtellotte & Hummel, Rothchild Bldg., Portland. Owners, Paisley School District. Will cover an area of 70 by 108 feet and contain nine rooms and a large auditorium. Plans being prepared.

WAREHOUSE—3 story and base, brick and concrete, \$28,000. Portland, Ore. Architects, Houghtaling & Dougan, Henry Bldg., Portland. Owner, Rodney L. Glisan, leased to Winton & Haynes Auto Co. Location, northwest 10th and Burnside streets. Will cover a considerable ground area. Plans complete and figures being taken.

SEATTLE AND WASHINGTON

POST OFFICE—2 story and base, brick and steel. Cost not stated. Wenatchee, Wash. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids will be opened on November 10th for the construction of this building. Revised plans are now available from either the Supervising Architect or the Custodian of the site. An official proposal appears in another column of this issue.

STORES—1 story and base, brick and concrete, \$30,000. Seattle, Wash. Architects, Webster & Ford, Lyon Bldg., Seattle. Owners, Frank Ebright & Co. Location, Westlake avenue and Stewart street, covering an area of 150 by 150 feet. Plans being prepared.

Contracts Awarded

FREIGHT SHEDS—1 story, steel and corrugated iron, \$125,000. Vancouver, B. C. Engineer, Engineering Department Canadian Northern Railway. Owners, Canadian Northern Railway. Contractors, Nettleton, Bruce & Eschbach, American Bank Bldg., Seattle. Contract price, \$125,000.

DEPARTMENT STORE HEATING, VENTILATING AND PLUMBING—Cost as follows. Seattle, Wash. Architect, John Graham, Green Bldg., Seattle. Owners, Frederick & Nelson Department Store. Contractors, Rautman Plumbing and Heating Co., Seattle, heating and ventilating. Contract price, \$55,000. P. J. Glennon, Seattle, plumbing. Contract price, \$25,000.

HIGHWAY NOTES.

The Portland Cement Association is planning to undertake some time between October 15 and November 15, a comprehensive survey of all concrete roads in the United States, the object being to determine their condition and to confer with local road authorities everywhere as to maintenance or any similar attention that such roads may need. It is intended to so record the findings of this survey that there will be in existence a real history of the concrete roads at present in the United States.

The first real concrete road Contra Costa County, Cal., was recently started. This will be under constant inspection of a representative of the Portland Cement Association. The new Cowell finishing machine is being used on this work and reports say that the machine eliminates the formation of rolls or waves on the surface. The concrete screened as customary and also subjected to a tamping action which tends to eliminate air bubbles. In fact some of the concrete removed from the road shows the top inch or inch and a half to be much denser than that near the subgrade.

The William Penn Highway Association has started a movement to have Pennsylvania again vote on \$50,000,000 good roads bond issue 1918. This proposition was defeated three years ago because of opposition from farmers. Efforts are also being made to appropriate \$5,000,000 annually for two years, at the next session of the Pennsylvania legislature, the funds to be added to the income from automobile license fees and other sources to increase the funds available for the State Highway Department.

A. N. Johnson, Consulting Highway Engineer for the Portland Cement Association is making an extended trip through the west, keeping a number of important engagements with highway engineers and others, looking toward good roads extensions. Among these will be one with the Lincoln Highway authorities relative to the concrete road that is to be laid across the desert west of Great Salt Lake. Automobile interests have contributed the funds for this work and President Joy of the Lincoln Highway Association has asked Mr. Johnson to make a survey of the route and present a report on the feasibility of using concrete.

Concrete paving has often proved its adaptability to steep grades. So far as is known, the steepest grade upon which concrete has been used is in Los Angeles. The Portland Cement Association, 111 West Washington Street, Chicago, has recently distributed a photographic reproduction of Baxter street, Los Angeles, showing the concrete pavement mentioned, where grades range from 11 to 29 per cent and some people say concrete is not suited to steep grades.

AUGUST FOREIGN TRADE STATISTICS.

American exports in August last set a new high record, rising to 510 million dollars and exceeding by 35 million the former record made in May, and by 4 million the total for June, 1916. Preliminary figures announced by the Bureau of Foreign and Domestic Commerce of the Department of Commerce show exports valued at \$509,778,680 compared with \$260,609,395 in August, 1915, and \$110,367,491 in August, 1914. For the year ended with August exports exceeded 4 1/2 billion dollars in value, exceeding by 1 1/2 billion the total for the corresponding period one year ago and by 2 1/2 billion that for a like period two years ago.

August imports aggregated \$199,247,-391 in value, being 47 million dollars less than the high record shown by June but exceeding any previous August. This year's monthly total compares with 142 million in August, 1915 and 120 million in August, 1914. Twelve months' imports to August 31 of the present year totaled 23-10 billion dollars, which was 625 million dollars more than the total for the preceding year and 388 million more than that for a like period two years ago.

Of the August imports, 66.5 per cent entered free of duty, compared with 67.5 per cent in August, 1915.

The favorable trade balance for August was \$11 million dollars, comparing with an export balance of 119 million in August, 1915, and an import balance of 19 million in August, 1914. For the 12 months to August 31, 1916, the export balance was 2,465 million dollars, as against 1,263 million in the preceding year and 374 million two years ago.

The net inward gold movement for the month of August was 29 million and for the year 110 million dollars, a record total. Last year the net inward gold movement was 116 million and two years ago a net outward movement of 95 million. Gold imports in August were \$11,238,716, compared with \$61,-641,191 in August, 1915, and \$3,045,219 in August, 1914. Gold exports in August were \$11,780,129, against \$1,128,-428 in August, 1915, and \$18,125,617 in August, 1914. The year's gold imports were \$518,451,553, as against \$211,035,-950 last year and \$59,312,528 two years ago; while gold exports in 1916 were \$108,104,549, compared with \$97,749,276 last year and \$153,984,944 for the 12 months ending with August, 1914.

KNIGHTS' LANDING DRAINAGE.

WOODLAND—Reclamation District 108, above Knights Landing, have let contracts for the building of 32 miles of drainage ditches. The completion of the work will give this district 180 miles of ditches. At the present time the trustees of the district have men engaged in constructing a \$25,000 concrete pump in the pumping plant and \$15,000 worth of headgates at the Howell point levy.

UNCLE SAM'S MAPS AT A PREMIUM.

That Uncle Sam's topographic maps are appreciated by public-utility corporations is shown by the fact that telephone companies throughout the United States are constant purchasers. These companies send frequent orders to the Geological Survey, Department of the Interior, for its maps in lots of 250 or 500, and occasionally when some big contract has been landed as many as 1,000 maps are ordered at a time for the use of the engineers and linemen. Some electrical-supply companies keep complete sets of the maps of areas in States in which they expect to do extended work, and when they hear that contracts are to be let for such work they refer to these maps, and with the "lay of the land" before them can tell at a glance the character of the work that will be required and can make their bids promptly and intelligently. The telephone officials who are "using the maps extensively" state to the Survey that they are of "indispensable value" in their work.

PACIFIC MAIL STEAMSHIPS' RUN- NING TO CRISTOBAL.

COLON, Panama, Sept. 16.—(U. I. N.) announced that when the San Jose of the Pacific Mail Steamship Co. sailed from Balboa on September 12 for Guayaquil via Buenaventura and Tumaco it was the first vessel of that company to sail for a port south of Balboa in 10 years. On the return trip from Guayaquil by way of intermediate ports to Balboa the San Jose will come through the Panama Canal to Cristobal on the Atlantic side, which will be the terminus of this line in future. The principal office of the company on the Isthmus has been moved from Balboa to Cristobal-Colon.

OROVILLE IRRIGATION.

OROVILLE—The first step toward the formation of a mutual company for the irrigation of several thousand acres of land south of this city, was taken at a meeting of the irrigation committee of the Chamber of Commerce. The committee was a unit in favor of the formation of a mutual company. An effort will be made immediately to ascertain from the Western Canal Co. the minimum number of acres that would have to be signed up before the company would be granted the land owners to pay for water rights.

LEAD.

The statement on lead issued annually by the United States Geological Survey, Department of the Interior, is now available for distribution for the year 1915. The total production of refined lead in the United States for the year is given at 550,055 short tons.

LUMBER SITUATION IN CHILE.

Previous to May, 1916, the Chilean import duty on rough "pine" that is Oregon pine, or Douglas fir, was 15 centavos Chilean gold (\$55 United States currency) per square meter (39.764 square feet), but to this there had been added a surtax of 5 per cent of its legal value, amounting to 3 centavos Chilean gold. That is, the total import duty was 18 centavos per square meter, or \$6.10 per thousand feet.

Under the new tariff which governs today there is a specific import duty on "pine" of 30 centavos per square meter, or \$10.17 United States gold per thousand feet. A short time previous to the addition of the new duty the market value of rough "pine" was from \$50 to \$55 United States gold per thousand feet, so the increase in price due to the higher duties would hardly be more than 8 per cent. As a matter of fact the present local price is from \$65 to \$70 per thousand feet, due to the condition of stock, increasing freight rates, import duties, and exchange fluctuations. This last item alone often amounts to 5 per cent, and sometimes even 10 per cent, one way or another, within a month, and it may be assumed that \$1.07 increase due to altered import duties would not be a factor of great importance to the consumer.

It happened that this increase of price went into effect about the time there was a sudden improvement in exchange, and there was really a decrease in the price of lumber in Chilean currency almost simultaneous with the increase in gold value.

Slight Variations in Prices of Native Woods.

The quotations on native woods have not varied greatly, as this material is being used chiefly in cheap construc-

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

White Brothers

Fifth & Brannan Sts. San Francisco

tion, and the small demand has continued. American lumber is used principally in first class construction of which there is very little at the present time, and the demand is poor. American lumber has no serious competitor, and the Chilean consumers do not buy it because it is cheap but rather because of its quality.

A notable decrease in imports of Northwest American lumber is shown in the following approximate figures. 1912, \$1,160,000; 1914, \$958,000 1915, \$500,000.

It is obvious that construction was falling off rapidly even previous to the adoption of the new tariff. It is doubtful if general construction will begin in Chile until the effect of the European war on the nitrate industry is known. If this effect is highly detrimental, construction will probably be postponed for some time, while if it is not in any way adverse, there should be a boom period when the slight difference in price would have little effect. The comparatively small stocks carried here would undoubtedly rise rapidly in price, in pure sympathy with the demand.

FORESTRIEVE EXHIBIT TO BE SHOWN AT INTERNATIONAL SOIL PRODUCTS EXPOSITION, EL PASO, TEXAS.

WASHINGTON, October 7, 1916.—An exhibit devoted to forest windbreak planting, the preservative treatment of farm timbers, and the administration of the National Forests in their relation to the farmers of the West has been prepared for the International Soil Products Exposition at El Paso, Texas, October 14 to 24.

The central feature of the display is a miniature growing windbreak made of young trees of the various species suited for windbreak planting in the Southwest and properly spaced, as they would be in a full-grown shelter-belt. Daily demonstrations of the proper manner of tree planting will be given at this exhibit.

Two models of 160-acre farms, one in the North and one in the South, show the proper location and composition of windbreaks. The shelter afforded by rows and groves of the proper kinds of trees upon farms in the subhumid regions of the United States is most important in the economies of the farming in these regions. Crops and livestock will thrive better and the homestead will be more comfortable if sheltered from the drying winds of summer and the chilling winds of winter by well placed windbreaks. It is important, however, that the right species be selected, that they be spaced properly and handled wisely. Information concerning these matters is given on charts showing prevailing winds during the growing season in various regions, the species suitable for different regions, and in "Ten Rules for Windbreak Owners" and "Fourteen Don'ts for Tree Planters." Colored enlargements, transparent pictures, and stereoscopic views of windbreaks and windbreak handling will also be shown.

Another feature of the exhibit will be an actual working model of two types of post-treating plants suitable for use by farmers in treating fence posts and other farm timbers with pre-

servatives. Many species of timber which rot quickly in contact with the ground, if treated with preservatives can be made to last three and four times longer than if left untreated.

The system of fire protection upon the National Forests will be shown, by the miniature of a typical lookout tower from which the Forest guard watches for signs of fire, the telephone system with the wire strung on swinging insulators from the trees, the weatherproof telephone for use at exposed situations, the portable telephone, with which the wire can be tapped at any point, and the fire-fighting tools and other equipment in a fire-fighting tool box placed at convenient locations throughout the Forests. In this connection, a model camp is also shown, with a camp fire built safely so as to prevent forest fires arising, as so many do arise from camp fires improperly built.

A model of a portion of a typical National Forest shows various activities and uses of interest to farmers living in National Forest States. Besides the fire-protection system, the model depicts the grazing of livestock, the disposal of timber, watershed protection, and the improvement of the Forests by roads, trails, and bridges.

A very live exhibit, which has attracted much attention wherever shown and which is to be displayed at El Paso, is a working erosion model. This model demonstrates, by the use of water sprinkled on mounds of actual soil representing forested and deforested hills, the protection from soil erosion and floods afforded by a forest cover on slopes.

Mr. C. A. Lindstrom of the Forest Service, Washington, D. C., will be in charge of the exhibit, and will give continuous demonstrations and distribute literature.

AMERICAN CONCERN TO BUILD CHINA'S ROADS.

Contract Provides for Construction of 1100 Miles by Siems-Carey Railway & Canal Company.

The American International Corporation and the Siems-Carey Railway & Canal Co. have signed a contract with China for the building of 1100 miles of Chinese Government railways, the construction to be financed by Chinese Government bonds to be issued through the American International. The lines to be constructed have not been decided upon, but are to be located by an American engineer appointed by China on the recommendation of the American company.

Until the location of the line is settled the cost of construction cannot be estimated, but it may run as high as \$100,000,000. Certain points between which the line may be built have been mentioned tentatively, but others may be selected. The engineer will be appointed immediately and will set out for China without delay.

In selecting the lines care will be taken to avoid conflicting with agreements for railroad construction between China and any other powers.

The Siems-Carey Railway & Canal Co. was organized recently by the American International Corporation and Siems & Carey of St. Paul, Minn., undertaking railway and canal work in China. A preliminary contract for

the dredging of the Grand Canal has been concluded, but the final contract is not yet signed. It is estimated that this work will cost somewhere in the neighborhood of \$6,000,000.

An advance of \$500,000 has already been made to China by the American International for preliminary investigation expenses.

HOME INDUSTRY LEAGUE OF CALIFORNIA.

C. R. Thorburn, Executive Secretary; Chauncey McGovern, Secretary of Publicity Committee, The Examiner Bldg., 928, S. F.

ANNIE LAURIE BOOSTS CALIFORNIA PRODUCTS — NATURAL AND MANUFACTURED.

Every man, woman and child who loves California; every person who lives in the State, whether native-born or Californian by adoption, will be thrilled to read of what was declared, by Annie Laurie, of California products—either natural or manufactured—at the luncheon given, by the Home Industry League of California, recently, in honor of the newspaper women of the Bay Cities, at the Palace Hotel in San Francisco.

When it is realized that Annie Laurie is not at all interested financially in any product of the Golden State; when it is remembered that she could more conveniently reside in New York than in California, on account of her professional position, as "Star" woman writer of the Hearst newspapers, where she has a readership of over 10,000,000 for each of her regular editorials; when it is known that Annie Laurie has been around the world twice, residing in all famous centers, where she has been entertained by kings, queens, princes and presidents, the value of her opinions of California people and things is all the more appreciable. The fact that she is the most highly paid woman newspaper writer in the world gives inestimable weight to her words on this occasion.

Annie Laurie stated, in part:

"Among the products of California which rank first in the products of the entire world are California people: Go to any great banquet in New York today—and you'll find that 6 out of every 10 people of prominence there are Californians, either by birth or adoption. And of these 6 as many as 4 are residents of San Francisco.

"A real Californian appreciates travelling abroad mostly for the thought of how he or she will enjoy it when coming back to California to live.

"In many intelligent centers in the East they freely state that there is no natural green grass in California; that the birds never sing; that the fruit has no real flavor, while perfume is unknown to the California flowers.

"The prices of 'living' in California are so much lower than in the East that the common laboring man in San Francisco eats nicer food than the average doctor or other professionals in Boston or New York.

"Everything that grows in California and everything that is made here is bigger or better than any similar thing grown or manufactured anywhere else on earth.

"What California need today is more and better publicity. East and in Europe, to include moving pictures of our sights and our products. These pictures should be sent East in numbers, and more general paid advertising in the Eastern magazines is very necessary now."

"Without sentiment you cannot do business—and even sell a pair of shoe laces. Every California woman should show her sentiment by insisting upon getting goods with a "Made-in-California" label. It means more prosperity to her own family as well as a more prosperous California."

"In Scotland all the good fruit they have comes from California. Your hostess takes care, when you are helped to grapes, to remind you that they come from California—and no one ever dares to help oneself to more than two or three grapes at one time; they are so expensive! At swell dinners they never eat pineapples, they simply hire them from the caterers and send them back after the meal, for they can't be bought there for less than a guinea apiece."

"In California you can build a house without sending outside the State for a single thing—and you can build it more cheaply and more artistically for the money than in any other place in the world."

"Every time a California woman insists upon having California flags—or any other California product—she is helping to make the price of her other groceries cheaper."

"San Francisco today has an opportunity of becoming the second greatest city in the United States—and if everyone living in California will arise and assert his or her pride in San Francisco, nothing can keep her from becoming the metropolis of the Pacific—with her hands on the purses of the Far East, of Australia and the East Indies, as well as of South America."

CASE-IRON PIPING FOR ARGENTINA.

The Argentine public health works (obras sanitarias de la Nacion) have issued a call for bids on an order of cast-iron piping, the bids to be opened on October 13. The River Plate Review, in noting this call, add that the last Argentine order for this class of piping was secured by a British firm. This new contract, on the basis of recent prices, would involve about \$3,000,000. The call is for 31,613 metric tons of straight pipes, conforming to specifications of the obras sanitarias, 27.15 tons 551 tons specials for same, 27,115 tons of straight pipes, conforming to said specifications, heavy type, and 690 specials for same. Inquiries regarding this call should be addressed to "obras sanitarias de la Nacion," Buenos Aires.

REPORT ON KINGS DAM SENT TO WASHINGTON.

FRESNO, Cal., Louis C. Hill, U. S. consulting engineer, and builder of the Roosevelt Dam, is in Fresno conferring with irrigationists in regard to the proposed Pine Flat Dam on Kings River. He has completed his report on the feasibility of the plans made by I. Teitman, L. A. Nares and others, and will present it to the irrigationists as

soon as the report is approved by Arthur P. Davis, head of the reclamation service.

A telegram was sent to Secretary Franklin K. Lane telling him that the report of Engineer Hill had been forwarded to Davis, with the approval of the committee of thirty, and that the irrigators are anxiously awaiting the action of the Department of the Interior on the plans.

RECLAMATION SCHEME IN PANAMA

Use of Reclaimed Land for Building Purposes.

A large undertaking has been begun in Colon. The Panama Railroad Co., which owns almost all the land on which this city is built, has some 200 acres of unoccupied land which was reclaimed from swamp four years ago by means of suction dredges. An area of nearly 20 acres of this land is being filled in to a sufficient depth to make it suitable for residential purposes. The earth for filling in the land, between 90,000 and 100,000 cubic yards, is brought by rail from the vicinity of Mount Hope, 2 miles south of the city, and the temporary tracks are moved along as the grading proceeds. Plans have already been made by the building division of the Panama Canal to erect early next year on this land 19 frame buildings intended for four families each and 25 houses for one family each, thus providing accommodations for 100 families of Panama Canal employees. Most of these families will be moved from Cristobal, where it is desirable to make room for buildings needed for various purposes.

At present there is only one highway leading out of Colon, that to Gatun, 7 miles south of the city. Another road, 16 feet wide, has just been graded on the east side of Folks River between Mount Hope and Fort Randolph at Margarita Point. This road, which is about 6 miles long, will be macadamized during the next dry season.

OIL INDUSTRY.

The oil industry of California represents a direct investment of \$250,000,000. Directly and indirectly it supports industries and communities in which perhaps \$250,000,000 more is represented. This estimate of the value of the oil industry forms a part of the coming annual report of State Oil and Gas Supervisor R. P. McLaughlin. The valuations assigned to each branch of the industry are: Oil lands, \$80,000,000; pipe lines, \$10,000,000; refineries, \$15,000,000; tank steamers \$15,000,000; wells, more than \$100,000,000; total, \$250,000,000. Thirty-one oil wells were started in California last week, the largest number in any one week for the last few years, according to McLaughlin.

HEATING AND SANITARY ENGINEERING IN PEKING.

[John R. Arnold, in charge of commercial attaché's office, Peking, China.]

There are indications that with careful development on the ground a good future is to be looked for in the business of importing and installing heating and sanitary apparatus and equipment in the cities of North China. The

present investigation has covered only the city of Peking, but it is understood that conditions are similar in Tientsin and elsewhere. There are several firms engaged in the business at present, but much the most active of these is an American concern with a head office in Tientsin and a branch at Peking. The only others that do any worth-while business are two of British nationality. The American house referred to has in Peking an experienced heating and sanitary engineer and reports an excellent beginning of business.

The winters in North China are quite severe, and an adequate heating system is a necessity. Unlike the Japanese, the Chinese are accustomed to heat their houses as well as they can afford during the winter, and, while with characteristic national conservatism they will be slow in coming to see the advantage of modern central heating plants, there is reason to expect that they will do so in time. So far most of the orders received by the American company referred to have been from foreign residents and business houses. Coal is plentiful in the region roundabout and it is delivered in Peking at reasonable cost.

Foreigners the Chief Buyers at Present

Sanitary installations are more likely for some time to be confined to properties with which foreigners are concerned, as the Chinese are not strongly interested in this subject. There is no sewer system in Peking, and existing sanitary arrangements are mostly primitive, although the large hotels and some of the other more modern buildings occupied by foreigners have full equipment. There is a very good water system and no insurmountable obstacle to the extension of installations of this character when a demand has been worked up.

While Peking is not a treaty port, nor even a commercial center of great importance, its position as the capital of China is likely to cause it always to be the site of a considerable foreign colony, and it will, of course, attract to itself large numbers of Chinese of the classes able to pay for foreign comforts of the kinds referred to, and who have in some cases been more or less accustomed to them.

Imports of heating and sanitary equipment are not shown separately in the Chinese customs statistics, but the American concern just mentioned is said to have imported more than 200,000 taels (approximately \$125,000) worth of boilers, radiators, and other heating apparatus in about six months, besides large quantities of pipe, valves, and other plumbing equipment. These are all of American manufacture.

MANY TYPHOID OUTBREAKS DUE TO DIRTY MILK.

There have been several milk-borne epidemics of typhoid fever in California during the past ten years, all of which would never have occurred if the new pasteurization law, which goes into effect October 1st, had been in force at the times these epidemics occurred. This means that the 382 cases in the milk-borne epidemics at Palo Alto, Colusa, Richmond, Taft and Maricopa might have been prevented. In the Palo Alto epidemic alone, there were 236 cases traced directly to infected milk supplies, and in the epidemic in the oil

held, just brought under control, there were 112 cases, and the source of the epidemic was found in a dairy. The epidemics at Colusa and Richmond were of minor importance as far as the number of persons affected is concerned, but as the source of infection not been discovered promptly, these epidemics might have assumed much greater importance.

The following table shows the number of cases and the number of deaths that occurred in these epidemics:

	Cases	Deaths
Colusa, 1905.....	236	12
Colusa, 1915.....	22	0
Richmond, 1915.....	12	0
Watt and Maricopa, 1916.....	112	5
	382	17

ALUMINUM SILICATES AND ALUMINATE IN CEMENT.

A report on an investigation of the properties of calcium silicates and calcium aluminate occurring in Portland cement has been published by the United States Bureau of Standards, in Technologic Paper No. 78.

As has been shown comparatively recently, the constituents of Portland cement of normal composition and normal burning are tricalcium silicate, dicalcium silicate, and tricalcium aluminate. The present investigation was undertaken to show what part each of these played in developing the physical properties of this material.

By the use of small amounts of boric acid and chromium oxide as "mineralizers," the two silicates were prepared in a fair condition of purity and in amounts large enough to permit of the making of neat and standard sand-mortar test pieces. These test pieces were broken over a period of one year. The rate of setting and of hydrating was also studied, the latter both chemically and microscopically. The results show that the aluminate sets and hydrates almost immediately on the addition of water, but never attains a strength much over 100 pounds per square inch. The tricalcium silicate takes several days for setting, and at the end of one year contains but 5.5 per cent water of hydration. It has practically no strength at seven days, but at the end of one year has a tensile strength of 600 pounds per square inch. The tricalcium silicate has all the properties of Portland cement, both in regard to setting and attaining strength. Mixtures of either silicate with the aluminate and with the aluminate and boric acid, and of both silicates with the aluminate and with the aluminate and boric acid, were also studied. The effect of the aluminate was more marked on the setting properties, as was also the case with the plaster additions; the effect of either of these two additions on the strength of either silicate or of the mixture of the two was not very striking, in general not materially changing the strength of the silicate.

Copies of Technologic Paper No. 78 will be ready for distribution in a few days and may be obtained without charge upon application to the Bureau of Standards, Washington, D. C.

BEEFLES DESTROY TIMBER.

The Forest Service has recently completed four years' work in the eradication of the timber destroying beetle

Pendroctonus on the Trinity National Forest, according to a report made public. In the course of the campaign thousands of beetle infested trees were cut down and burned in an area of 24,000 acres of virgin yellow and sugar pine in the Hayfork Valley country. Crews of from 10 to 30 expert woodmen under the direction of forest officers were employed to do this work. The campaign has resulted in reducing the annual loss of timber from beetles in this section from 2000 trees to less than 100 for this season. The beetle has been at work in the forests of California for many years, and it is stated on good authority that evidence points to much greater losses before the coming of the white men than at present. Some idea of the damage done is disclosed in that the loss in one district alone for the past 20 years has been estimated at 1,500,000,000 feet, valued at present stumpage prices at more than three-quarters of a million dollars. The only known way of combating the beetles is to cut and burn the infested trees. A forest fire which destroys only the brush cover and the young growth and does not destroy the mature infested trees has little effect upon the beetle. The insects' habit of boring deeply beneath the bark into the sapwood affords it protection from the ordinary forest fire.

CONCRETE ROADS FOR NEW ZEALAND.

The New Zealand authorities, both local and national, are carefully studying the subject of good roads, realizing that this is the best way to open up the hinterland of the Dominion. The roads of the country, in the main, are not in very good condition. There are some stone roads about the larger centers, but few of them extend out more than 25 or 30 miles. Their upkeep has been found very expensive, especially in the northern part of the country, since the rainfall is heavy and washouts are numerous because the stone used is soft and grinds up and decays rapidly.

Of late, much has been said in regard to the construction of concrete highways, and it is thought that this will be far cheaper in the long run than the stone roads as they are now constructed, for the reason that the upkeep will be so very greatly reduced. It is estimated that a mile of 12-foot concrete road 4 inches thick could be built for \$2,000 more than a mile of ordinary stone road, on which there would be a saving in upkeep for the first five years of at least 1,200, while at the end of ten years there would be a saving of \$7,000 or \$8,000 per mile.

Information as to American Methods and Machinery Desired.

The experiments being carried on in the United States along this line have received much attention here and are being carefully studied, with the result that it is proposed to adopt some of these methods. This will call for the use of up-to-date American road-making machinery. Alfred A. Winslow, American Consul General at Auckland, suggests that his consulate be supplied with catalogues, price lists, etc., of this class of machinery, together with such printed matter as may be available for distribution covering the construction, cost, and maintenance of concrete roads. This infor-

mation can be put in the hands of persons here who are in position to make good use of it. There is one feature in the construction of concrete roads that does not need to be taken into consideration in New Zealand, and that is frost, since there is no frost to speak of in the North Island and but little in the South Island.

A very good grade of cement is manufactured in large quantities in New Zealand, two large cement works having been installed within the last two or three years, supplied principally with up-to-date American machinery, and it is possible to manufacture the cement here at a price much below the cost of imported cement. This domestic cement seems to be good enough for concrete-road building and ordinary structural work.—Commerce Reports.

NEW CANYON ROADS PLANNED.

VISALIA, Cal.—Acting under authorization of an act of congress passed July 11th last, entitled "An Act to Give Federal Aid to Counties Building Mountain Roads into and Touching Reserves and Parks," the Supervisors have decided to go ahead with all the big mountain projects in mind for months and adopted a resolution asking the government for the proportionate aid agreed upon. The roads outlined costing over \$130,000 are set forth in the resolution to the government as follows:

Badger via Quail Flat, Big Meadows to Giant Forest—thus connecting Grant Park and Sequoia National Park (now being constructed in part) 18 miles at a cost of \$30,000 of which \$10,000 government aid is asked.

Oak Grove to the park line—four miles—cost \$11,000. This is a part of the new Mineral King road through the park which the government is building and which will become part of the Mt. Whitney to the Sea road.

Kern river canyon. Cost \$50,000 of which \$10,000 government aid is asked. This is one of three roads opening up Kern river canyon.

Pine Flat via Parker Meadow to Kern river canyon, costing \$20,000. This road would likewise lead via Hot Springs into Kern river canyon through the bed of which canyon a connecting road would be built to the base of Mt. Whitney.

Mineral King to Kern river canyon via Trout meadows, cost not estimated but close to \$25,000. This road with the Oak Grove and government park road would be the Mt. Whitney to the Sea highway direct through Exeter, Visalia, Hanford and Coalinga to San Luis Obispo.

LOS ANGELES POWER PLANT.

LOS ANGELES—A decision on what price the city will offer the three power companies for the privately owned distributing systems inside the city, so the municipality can take them over for the distribution of aqueduct hydro-electricity will soon be announced. According to members of the council and water board, the city is prepared to make an offer of not more than \$8,500,000 for the distributing systems of the Pacific L. & P. Corp., the Los Angeles G. & E. Corp. and the Southern California Edison Co.

DENTAL PREPAREDNESS.

What is the most important attribute of a soldier?

Good feet?

No.

Good eyesight?

No.

Good brains?

No.

What then?

Good teeth.

A soldier may have good feet, good eyesight, and good brains but if he has bad teeth, he can't eat. If he can't eat he can't march near enough to the enemy to see him and use his brains to fight him.

How does a soldier get good teeth?

By having good teeth in childhood.

How do children keep good teeth?

Through being taught by their mother how to keep their teeth clean and having their teeth looked after while they are growing. This make good teeth for future soldiers.

It would seem then as though the first patriotic duty of a mother was to keep her children's teeth in good condition. It is.

WASTE TANBARK NOW USED TO MAKE ROOFING.

WASHINGTON, D. C. A method for using waste hemlock tanbark to partially replace expensive rag stock in the manufacture of felt roofing has been developed at the Forest Products Laboratory and is now being used commercially by co-operating mills, according to an announcement made by the Forest Service. It is stated that, in those mills, from 20 to 30 per cent of the rags is being replaced by waste bark and that the quality of the finished product is equal to that manufactured solely from rags. Members of the Forest Service who have been conducting the experiments say that the utilization of the bark will make it possible to effect a considerable saving in the manufacture of felt roofing.

According to the census of 1909, over 698,000 tons of hemlock bark were produced each year in the United States. After the tannin is extracted this bark is used for fuel purposes, for which it is said to have a value of 60 cents per ton.

The extent of the savings rendered possible by the new methods is pointed out by the fact that the roofing mills of the United States have a total estimated annual production of 237,666

tons of finished roofing of all kinds, equal to about 11,300,000 "squares." By a "square" of roofing is meant 100 square feet. The utilization of the waste bark in this industry should, it is said, enable the mills to reduce their manufacturing costs appreciably.

In addition to the use of the bark for roofing, papers made at the Forest Products Laboratory on the basis of 80 per cent of waste tanbark, have been successfully printed on a commercial twelve-color wall-paper printing machine, and give promise of being entirely satisfactory. Other paper of the same make-up has been made into fiber conduits by a commercial manufacturer.

Other possible uses of waste bark which suggests themselves, say the Forest service paper experts, are the use of bark mixed with ground wood for the production of wall board, or with sulphite screenings in the manufacture of car liners. Studies already made at the Forest Products Laboratory indicate that it may be possible to use waste hemlock and oak tanbark in making sheathing paper, carpet liners, bottle wrappers, deadening felt, and the like.

BUTTONLATH RECOMMENDED BY DR. CLAYD PAYNE AFTER USING IN SIX-STORY BUILDING.

Says Most Satisfactory Job in His Experience.

In a letter to the Pioneer Paper Co. Dr. Clayd Payne, goes squarely on record as a champion for Buttonlath. Here is what he says:

San Francisco, Oct. 10, 1916.
Pioneer Paper Co., Hearst Bldg.,
San Francisco, Cal.
Gentlemen.

Regarding the BUTTONLATH that Smyth Bros. have used on my six-story building on Bush street near Jones, wish to say that the cracks in the joints have not materialized. The Euton spots have not appeared. The noise from room to room is maximum silenced.

In fact, any and all the bug-a-boo in connection with the use of the BUTTONLATH have not asserted themselves.

This building, the last one of twenty-eight apartment houses I have erected in San Francisco, is by far the most satisfactory job of plastering I have had.

By the use of the BUTTONLATH we have saved a month's time in the completion of the building, which means \$1,000 in rent, and I believe that Smyth Bros. have saved at least 30% in the amount of material used to cover as compared with metal lath.

I believe a plasterer can conveniently put on a much greater yardage per day with one-half the energy.

I am writing this letter unsolicited in appreciation of a most excellent job of plastering due to your BUTTONLATH, and the careful attention of Smyth Bros., the plaster contractors.

Very truly yours,
CLYDE S. PAYNE
(SIGNED) Inspection of this job invited by all interested.

PUGET SOUND MILLS OUTPUT.

PORT ANGELES—September shipping from the Puget Sound Mills' and Timber Co., far surpassed any other month, the shipments by water alone amounting to 12,800,000 feet of lumber. Sixteen ocean carriers loaded at the mill during the month, their destinations being California, Australia and Hawaii and the west coast of Peru.

Purchase your equipment direct from the manufacturer.

September Building Totals.

Building operations throughout the country are in an eminently satisfactory condition, if the municipal statistics on the subject read the situation aright. There is a firm maintenance of the generous construction activities, that have been the feature of most cities during the present year. And there is a little more than that. There is gradual expansion of building work.

The total for San Francisco shows a decrease of a little over one hundred thousand dollars. This can be explained by the fact that the Mare Island Navy Yard contract, amounting to \$141,700 was included in September 1915 totals.

Of the 118 cities 70 make gains, while 48 show comparative losses. Details follow:

Cities	Sept., 1916	Sept., 1915
	Cost.	Cost.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house, 3 story and base, Class B, reinforced concrete, \$115,000. Architect, C. A. Meussdorffer, Humboldt Bank Bldg., S. F. Owner, Mayer Wood. Location, northwest Jackson and Franklin Sts., covering an area of 10 by 127½ feet. Will contain seven apartments of nine rooms and three baths. Plans being prepared.

SAN FRANCISCO—Apartment house, 3 story and base, Class C, reinforced concrete, \$105,000. Architect, C. A. Meussdorffer, Humboldt Bank Bldg., S. F. Owner, A. W. Wilson. Location, N. Jackson W. Franklin, covering an area of 35 by 155½ feet. Will contain eight apartments of nine rooms and three baths. Preliminary plans only prepared.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$26,000. Architect, C. A. Meussdorffer, Humboldt Bank Bldg., S. F. Owners, D. H. Green and Roy G. Sandfield. Location, southwest Pacific and Franklin, covering an area of 47½ by 100 feet. Will contain six apartments of six rooms and two baths. Plans complete and figures to be called for shortly.

SAN FRANCISCO—Apartment house alteration, 1 story and base, frame, \$15,000. Architect, C. A. Meussdorffer, Humboldt Bank Bldg., S. F. Owner, Miss C. Chord. Location, north Post between Fillmore and Steiner. Work will consist of altering the present three-flat building into six modern apartments. Plans are being prepared.

SAN FRANCISCO—Apartment house and stores, 3 story and base, Class C construction, \$17,000. Architect, W. S. Hind, 16 Kenny street, S. F. Owners, Mealy & Collins. Location, southwest Powell, and Washington streets, covering an area of 37 by 60 feet. Will contain two stores and nine apartments of two and three rooms. Plans complete and segregated figures being taken.

SAN FRANCISCO—Apartment house, 1 story and base, reinforced concrete, \$35,000. Architect, C. F. Hansen, Hearst Bldg., S. F. Owner, J. G. Kinnaman, 3616 Steiner street, S. F. Location, north Post east Leavenworth. Will contain twenty apartments of two and three rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$30,000. Architects, O'Brien Bros., 210 Montgomery street, S. F. Owner, James J. Finn. Location, northwest Duboce and Divisadero, covering an area of 50 by 70 feet. Will contain eighteen apartments of two and three rooms. Plans complete and excavating being done by owner. Other parts of the work to be figured shortly.

SAN FRANCISCO—Apartment house, 5 story and base, Class C construction, \$15,000. Architect, Albert Schroeffer, Nevada Bank Bldg., S. F. Owner, Louis

D. Stoff. Location, north Bush between Mason and Taylor, covering an area of 10 by 120 feet. Will contain seventeen apartments of three rooms and bath. Plans complete and segregated figures being taken.

OAKLAND, CAL.—Apartment house, 3 story and base, brick veneer, \$50,000. Architect, M. I. Duggs, Syndicate Bldg., Oakland. Owner's name not given. Location, west Oak north 11th. Will contain ninety rooms arranged in suites of two, three and four rooms. Plans being prepared.

BARRACKS.

SAN FRANCISCO—Barracks, 1 story and base, Class C construction, \$100,000. Architect, not selected. Owners, Non-Commissioned Officers of the Volunteer League of America, H. W. Postlewarthe, Monadnock Bldg. Location, 17th and Folsom streets. Only preliminary plans, prepared by the eastern engineers of the owners have reached here. The site has been purchased. Further mention will be made of the work.

BATH HOUSES.

Contracts Awarded.

BAKERSFIELD, KERN CO., CAL.—Bath house, 1 story, brick, \$1,897. Architect's name not given. Owners, City of Bakersfield, Contractors, Ferguson & Rogers, Bakersfield. Contract price, \$1,897.

BONDS

PORTERVILLE, TULARE CO., CAL.—School officials are planning to issue bonds of \$100,000 or more for a new high school to be located on a site yet to be chosen. The property most frequently mentioned is a 20-acre tract just north of Luther Burbank park.

COLINGA, FRESNO CO., CAL. The City Trustees have called a special election for November 8th, when the question of voting \$100,000 for the acquisition and construction of a municipal water works. Engineers, Dessery & Bell of Los Angeles are handling the engineering feature of the proposed work.

MODESTO, STANISLAUS CO., CAL. The bids for the purchase of the \$165,000 bond issue voted by the Waterford Irrigation District have been rejected by the directors and a new call for bids will be issued. It is also reported that bids for the construction of the irrigation system will be called for within the next few weeks.

COLUSA, COLUSA CO., CAL.—At a recent meeting of the Colusa Trustees an election for voting bonds of \$5,000 was favored, instead of the \$65,000 issue. No definite action was taken.

FORT JONES, SISKIYOU CO., CAL.—The Trustees of the Fort Jones School District have decided to call an elec-

tion to vote bonds of \$10,000 to provide for the erection of a modern school building.

LONG BEACH, LOS ANGELES CO., CAL. The \$50,000 city hospital bond issue was defeated at a special election. The \$500,000 issue for the construction of the Horseshoe pier was also turned down, while the \$700,000 proposition for harbor improvements carried by a vote to 5,933 to 1,672.

MODESTO, STANISLAUS CO., CAL.—Bonds of \$135,000 were voted in Modesto recently. The issue carried by a good majority, and will provide for the erection of two or more school buildings.

RIVERDALE, FRESNO CO., CAL.—The County Supervisors have sold the \$25,000 bond issue of the Riverdale Joint Union High School District.

OAKLAND, CAL.—A school bond election to raise \$2,000,000 will probably be held in this city in the near future as the result of the recommendations of the advisory bond committee of forty, which has been investigating school needs.

A new high school to be located at Nineteenth avenue and East Twentieth street, will be recommended by Commissioner W. H. Edwards, a former member of the school board, in the event that the election carries. The cost of the new building will be in the neighborhood of \$250,000.

SAN FRANCISCO—E. G. Hopson of Portland, Ore., has applied to the State Railroad Commission for authority to build and operate an irrigation system in Shasta County, upon which, he says, he will spend \$100,000, and which, he asserts, will supply water to 2,960 acres of land now uncultivated and without water. Hopson proposes to build a ditch from Cow Creek, a tributary of the Sacramento River, to the land to be irrigated.

FOUNDA, LOS ANGELES CO., CAL. W. J. Wilton, in charge of the construction work on the Greek Theatre at Graciosa Park, states that the committee plans to ask a bond issue in the sum of \$50,000 for the construction of a cement auditorium containing 6,000 seats for the Greek Theatre.

TRACY, SAN JOAQUIN CO., CAL.—The Land owners of the West Side Irrigation District have presented a petition to the directors asking for a bond election to raise \$195,000 to be used for the construction of ditches, pumping plant, etc., for the district.

BRIDGES, DAMS AND HARBOR

VISALIA, TULARE CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Visalia. Owners, Tulare County. Bids will be received by the Board of Supervisors up to 2 p. m. of October 27th for constructing a reinforced concrete 30-foot bridge across Deep Creek near the Bliss ranch, about six miles south

of Visalia, in accordance with plans and specifications.

SAN LUIS OBISPO, SAN LUIS OBISPO CO., CAL.—Bridge, timber construction. Cost not stated. Engineer, County Surveyor, San Luis Obispo. Owners, San Luis Obispo County. Bids will be received by the Board of Supervisors up to 10 a. m. of November 9th for the construction of a 50 foot wooden truss bridge of one span, with reinforced concrete foundation and wood flooring across Stenner Creek on the Polytechnic School road, near the city of San Luis Obispo, and about 1 1/2 miles from the Southern Pacific Railroad station at that point. Plans and specifications are on file at the office of the clerk of the board. Certified check required. F. J. Rodriguez is the clerk.

MERCED, MERCED CO., CAL.—Bridges, concrete and timber. Cost not stated. Engineer, County Surveyor, Merced. Owners, Merced County. The County Supervisors at their last meeting approved plans and specifications for a number of bridges to be constructed throughout the county as follows: Road District No. 1—Across San Luis Creek on Middle road, to be known as Bridge No. 17. Road District No. 2—Across Dutchman Creek on Baxter road, to be known as Bridge No. 48. Road District No. 2—Across Mariposa Creek on Plate road, to be known as Bridge No. 49. Road District No. 2—Across a slough on State highway, to be known as Bridge No. 50. Also for the construction of a bridge across Canal Creek on the Cox Ferry road in Road District No. 2. Bids on the work close November 14th at 10 a. m. A certified check of 10 per cent, payable to the chairman of the Board of Supervisors, must accompany each bid. Plans and further information may be had from the County Engineer or County Clerk.

SAN JOSE, SANTA CLARA CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. The County Supervisors have rejected bids received for the construction of reinforced concrete bridges on San Felipe road over Dry Creek and on the Cochrane road. Bids for these structures were received as follows:

For Cochrane Road Bridge—Adams & Crew, \$2,694; John Doyle, \$3,087; W. L. Gillham & Son, \$3,320. Surveyor's estimate, \$1,730. The County Surveyor was directed to proceed with the construction of the bridge.

For San Felipe Road Bridge—F. T. Edmans, \$5,364; John F. Adams & Crew, \$5,378. Surveyor's estimate, \$4,805.

VENTURA, VENTURA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Ventura. Owners, Ventura County. Until 2 p. m. November 9th bids will be received by the Board of Supervisors for constructing the Telephone road bridge across the Sateioy storm ditch in the town of Sateioy, according to plans and specifications on file in the office of said board and which may be obtained at the office of the County Surveyor. The approximate quantities are 26 cubic yards class A concrete, 39 cubic yards class B concrete, 5,000 pounds reinforcing steel. J. B. McClockey, County Clerk.

SAN FRANCISCO—Wharf repairs, timber and concrete. Cost not stated.

Engineer, Constructing Quartermaster, Fort Mason, Owners, United States Government. Bids will be opened November 3rd for repairs to the wharf at the Presidio of San Francisco. An official proposal appears in another column of this issue.

Contracts Awarded.

SAN JOSE, SANTA CLARA CO., CAL.—Bridges, 2, reinforced concrete. Cost as follows. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Contractor, William Martin. Bridge No. 1, Abandon road bridge, \$1,000. Cooney bridge, \$924 and Elgin bridge, \$898.

ALTURA, MONTANA CO., CAL.—Bridge, timber, \$1,098. Engineer, County Surveyor A. M. Green. Altura Owners, Modoc County. Contractor, Catherwood & Leonard, Altura. Contract price, \$1,098.

OROVILLE, BUTTE CO., CAL.—Bridges, steel and reinforced concrete. Cost as follows. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractor, O. A. Peter, Oroville. Watt's Slough bridge, \$18,818. Linda Channel bridge, \$3,924.

CHURCHES.

WHITTIER, LOS ANGELES CO., CAL.—Church, 1 story and base, brick, \$60,000. Architect, H. M. Patterson. O. T. Johnson Bldg., L. A. Owners, Friends Church of Whittier. Location, Philadelphia and Washington streets, covering an area of 96 by 138 feet. Will contain main auditorium and Sunday school rooms. Plans are complete and figures being taken.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO—Factory and warehouse, 1 story and base, reinforced concrete, \$350,000. Engineer, Maurice C. Couchot, 110 Sutter street, S. F. Owners, American Even Ready Co. Location, northeast 8th and Brannan, covering an area of 275 by 275 feet. Construction fireproof. Further details will be given as the plans progress.

SAN FRANCISCO—Laundry alteration, 3 story, frame, \$2,500. Architects, Fabre & Bearwald, Merchants' National Bank Bldg., S. F. Owner, A. Calver. Location, Geary and Fillmore. Work will consist of new concrete floors, interior trim, plumbing and electric work. Plans complete and figures being taken.

VALLEJO, SOLANO CO., CAL.—Flour mill addition, steel or reinforced concrete. Engineer's name not given. Owners, Sperry Flour Co. The Sperry Flour Co. is now considering plans submitted by a Chicago engineer for extensive improvements to be made to their South Vallejo plant. A new mill building will be erected and a large storage warehouse. The amount of money to be expended and the nature of construction have not been settled as yet. Further mention will be made of this work.

LOS ANGELES, CAL.—Warehouse, 5 story and base, reinforced concrete. Cost not stated. Architect, John Parkinson, Title Insurance Bldg., L. A. Owners, Joannes Bros. Co. Location, southeast Hewitt and Tracton streets. Will cover a large area. Plans complete and figures being taken.

Contracts Awarded.

SAN FRANCISCO—Steel mill, steel and brick, \$100,000. Architect's name not given. Owners, Gordon Condensed Milk Co. Contractor, Ernest Green, Modesto. Contract price, \$100,000.

FIRE HOUSES AND JAILS.

SAN FRANCISCO—Jail toilet fixtures, \$2,695. Architect, City Department of Architecture, City Hall, S. F. Owner, City and County of San Francisco. Alex. Coleman presented the low bid for toilet fixtures in Jails Nos. 2 and 3 and will be awarded the contract. A complete list of these bids will be found under the heading of San Francisco in this issue.

SAN FRANCISCO—Detention home, bldgs. \$174. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. F. W. Callahan presented the low bid for furnishing shades for the Juvenile Detention Home and will be awarded the contract. A complete list of the figures will be found under the heading of San Francisco in this issue.

TRACY, SAN JOAQUIN CO., CAL.—Fire house, 1 and 2 story and base, brick. Cost not stated. Architects, Sala & Mayo, Commercial Savings Bank Bldg., Stockton. Owners, City of Tracy. Will contain apparatus room and living quarters. Plans are being prepared.

BAKERSFIELD, KERN CO., CAL.—Jails, 2, 1 story, reinforced concrete. Cost not stated. Architect, none. Owners, Kern County. Bids will be received by the Board of Supervisors at Bakersfield on November 9th for the construction of a reinforced concrete jail with a cess pool at Mojave, and at the same time and place bids will be received for the construction of a reinforced concrete jail with cess pool at Landsburg. Bids formerly received on this work were rejected as being too high.

FILMORE, VENTURA CO., CAL.—Jail cells, steel. Cost not stated. Architect, Albert C. Martin, Higgins Bldg., L. A. Owners, Ventura County. Bids will be opened on November 10th for a steel cell cage. Plans can be secured from the County Clerk or from the architect.

FLATS

SAN FRANCISCO—Flats, 3 story and base, frame, \$10,000. Architect, none. Owners, John J. Binet Co., 68 Ramona street, S. F. Location, west Ramona south 14th street, covering an area of 25 by 85 feet. Will contain six flats of four and five rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$3,000. Architect, none. Owner, E. A. Knoop, 345 14th street, S. F. Location, east Ramona south 14th, covering an area of 24 1/2 by 48 feet. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 3 story and base, frame, \$7,000. Architect, J. Devencenzi, 1069 Union street, S. F. Owner, P. Costello, 412 Broadway, S. F. Location, south Green west Montgomery, covering an area of 25 by 68 1/2 feet. Will contain six small flats.

Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 1 story and base, frame, \$9,000. Architect, none. Owner, P. D. Taylor, 115 9th Avenue, S. E. Location, southwest 20th Avenue and Lake street, covering an area of 55 by 80 feet. Will contain four flats of four and five rooms. Plans complete and work to be done by Day Labor.

5. Fred M. Crane, Omaha, Neb.

6. J. E. Hilton, Billings, Mont.

7. W. E. Callahan Construction Co., Omaha, Neb.

8. DeRenzo, Olsen & Brock, Denver, Colo.

9. Lingle Supply Co., Lingle, Wyo.

Schedule 1—1280-1410

Item 1. 287,000 cu yds excavation, class 1—Bid 1, 13.5c; 2, 11.2c; 3, 11c; 4, 14.5c; 5, 12.4c; 6, 14c; 9, 15c.

2. 8,000 cu yds excavation, class 2—Bid 1, 30c; 2, 11.2c; 3, 11c; 4, 14.5c; 5, 40c; 6, 14c; 9, 46c.

3. 100 cu yds excavation, class 3—Bid 1, 75c; 2, 80c; 3, 14c; 4, 60c; 5, 90c; 6, 60c; 9, \$1.

4. 42,000 sta. yds overhaul—Bid 1, 2c; 2, 2c; 3, 2c; 4, 2c; 5, 2c; 6, 2c; 7, 2c.

Total schedule 1—Bid 1, \$12,060; 2, \$33,960; 3, \$42,154; 4, \$13,675; 5, \$39,718; 6, \$42,260; 9, \$47,670.

Schedule 2—1410-1555

5. 233,000 cu yds excavation, class 1—Bid 1, 13.5c; 2, 15.4c; 3, 16c; 4, 15.5c; 5, 12.4c; 6, 15c; 7, 24c.

6. 35,000 cu yds excavation, class 2—Bid 1, 30c; 2, 15.4c; 3, 16c; 4, 35c; 5, 40c; 6, 60c; 7, 24c.

7. 100 cu yds excavation, class 3—Bid 1, 75c; 2, 80c; 3, 16c; 4, 70c; 5, 90c; 6, 60c; 7, 57c.

8. 59,000 sta. yds overhaul—Bid 1, 2c; 2, 2c; 3, 2c; 4, 2c; 5, 2c; 6, 2c; 7, 2c.

Total schedule 2—Bid 1, \$43,210; 2, \$42,532; 3, \$44,076; 4, \$49,615; 5, \$44,162; 6, \$48,440; 7, \$43,189.

Schedule 3—1555-1725

9. 260,000 cu yds excavation, class 1—Bid 1, 13.5c; 2, 14.9c; 3, 17c; 4, 15c; 5, 12c; 6, 15c; 7, 14.4c; 8, 14.75c.

10. 43,000 cu yds excavation, class 2—Bid 1, 30c; 2, 14.9c; 3, 17c; 4, 30c; 5, \$17,200; 6, 32c; 7, 26c; 8, 40c.

11. 100 cu yds excavation, class 3—Bid 1, 75c; 2, 80c; 3, 17c; 4, 60c; 5, \$90; 6, 70c; 7, 57c; 8, 65c.

12. 100,000 sta. yds overhaul—Bid 1, 2c; 2, 2c; 3, 2c; 4, 2c; 5, 2c; 6, 2c; 7, 2c; 8, 2c.

Total schedule 3—Bid 1, \$11,975; 2, \$38,287; 3, \$43,327; 4, \$44,900; 5, \$45,290; 6, \$45,830; 7, \$42,037; 8, \$48,765.

Schedule 4—1725-1850

13. 210,000 cu yds excavation, class 1—Bid 1, 13.5c; 2, 15.5c; 3, 17c; 4, 15c; 5, 13c; 6, 15c; 7, 14.4c; 8, 14.75c.

14. 44,000 cu yds excavation, class 2—Bid 1, 30c; 2, 15.5c; 3, 17c; 4, 30c; 5, 40c; 6, 32c; 7, 26c; 8, 40c.

15. 100 cu yds excavation, class 3—

Bid 1, 75c; 2, 80c; 3, 17c; 4, 60c; 5, 90c; 6, 70c; 7, 57c; 8, 65c.

16. 182,000 sta. yds overhaul—Bid 1, 2c; 2, 2c; 3, 2c; 4, 2c; 5, 2c; 6, 2c; 7, 2c; 8, 2c.

Total schedule 4—Bid 1, \$45,265; 2, \$42,582; 3, \$46,837; 4, \$48,400; 5, \$48,630; 6, \$49,290; 7, \$45,377; 8, \$52,250.

Schedule 5—1850-2050

17. 263,000 cu yds excavation, class 1—Bid 1, 13.5c; 2, 11.5c; 3, 16.5c; 4, 14.5c; 5, 13c; 6, 14.75c; 7, 14.4c; 8, 14.75c; 9, 14.75c.

18. 25,000 cu yds excavation, class 2—Bid 1, 30c; 2, 28c; 3, 16.5c; 4, 34c; 5, 40c; 6, 35c; 7, 24c; 8, 40c; 9, \$11,250.

19. 400 cu yds excavation, class 3—Bid 1, 75c; 2, 80c; 3, 16.5c; 4, 60c; 5, 90c; 6, 70c; 7, 57c; 8, 65c; 9, \$260.

20. 161,000 sta. yds overhaul—Bid 1, 2c; 2, 2c; 3, 2c; 4, 2c; 5, 2c; 6, 2c; 7, 2c; 8, 2c; 9, \$3,220.

Total schedule 5—Bid 1, \$46,525; 2, \$40,785; 3, \$50,806; 4, \$50,095; 5, \$47,170; 6, \$51,042; 7, \$47,320; 8, \$52,272.50; 9, \$53,522.50.

Schedule 6—2050-2280

21. 285,000 cu yds excavation, class 1—Bid 1, 13.5c; 2, 10.55c; 3, 16.5c; 4, 11.5c; 5, 13c; 6, 14.5c; 7, 14.4c.

22. 22,000 cu yds excavation, class 2—Bid 1, 30c; 2, 30c; 3, 16.5c; 4, 34c; 5, 40c; 6, 35c; 7, 24c.

23. 1,000 cu yds excavation, class 3—Bid 1, 75c; 2, 80c; 3, 16.5c; 4, 60c; 5, 90c; 6, 70c; 7, 57c.

24. 115,000 sta. yds overhaul—Bid 1, 2c; 2, 2c; 3, 2c; 4, 2c; 5, 2c; 6, 2c; 7, 2c.

Total schedule 6—Bid 1, \$48,125; 2, \$39,767.50; 3, \$52,020; 4, \$51,705; 5, \$49,450; 6, \$52,025; 7, \$43,550.

Schedule 7—16 Culverts.

25. 15,000 cu yds excavation, class 1—Bid 1, 20c; 2, 25c; 3, 20c; 4, 20c.

26. 3,500 cu yds excavation, class 2—Bid 1, 50c; 2, 50c; 3, 50c; 4, 50c.

27. 100 cu yds excavation, class 3—Bid 1, \$1; 2, \$1; 3, \$1; 4, \$1.

28. 1,150 cu yds concrete—Bid 1, \$12; 2, \$11.50; 3, \$11.20; 4, \$16.50.

29. 127,000 lbs. placing reinforcing steel—Bid 1, 1c; 2, 0.9c; 3, 0.5c; 4, 1c.

30. 690 lin ft. placing 24 in dia vitrified pipe—Bid 1, \$1.25; 2, 55c; 3, 60c; 4, \$1.50.

31. 300 sq yds 12 in grouted paving—Bid 1, \$3.50; 2, \$2.20; 3, \$2.25; 4, \$2.75.

32. 7,000 cu yds backfill—Bid 1, 20c; 2, 25c; 3, 30c; 4, 25c.

Total schedule 7—Bid 1, \$77,825.50; 2, \$32,147.50; 3, \$32,259; 4, \$41,080.

SAN FRANCISCO—Government work. Cost not stated. Engineer, Constructing Quartermaster, Fort Mason. Owners, United States Government. Bids will shortly be called for by the Constructing Quartermaster's office at Fort Mason for repairs to Presidio dock, road construction at Fort Miley and for a boulevard in the Presidio connected the Lincoln Highway and West Clay street. Instructions have been received from the War Department to proceed with the construction of the Fort Baker tunnel at once. The work will be handled by the Constructing Quartermaster's office under the Day Labor system, the only contracts to be let being for machinery and equipment, cement, power and lumber. The tunnel will be 16 by 16 feet on a gradient of 4 per cent, making a total length of 2,500 feet. The tunnel will be in rock for its entire length.

HOSPITALS

AGNEWS, SANTA CLARA CO., CAL.—Hospital cottage, 1 story, frame, cost not stated. Architect, State Architect George B. McDougall, Sacramento. Owners, State of California. Bids will be opened on November 13th for the construction of an open air cottage. An official proposal appears in another column of this issue.

MARTINEZ, CONTRA COSTA CO., CAL.—Hospital addition, 1 story, reinforced concrete, \$3,000. Architect, County Surveyor, Martinez. Owners, Contra Costa County. Plans have been prepared for an addition to the county hospital and bids will shortly be called. The new addition will be used for an insane ward.

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—Hospital, 1 and 2 story, reinforced concrete. Cost as follows. Architect, Lyman Farwell, Story Bldg., L. A. Owners, San Bernardino County. The F. O. Engstrom Co., Fifth and Seaton streets, L. A., was the lowest bidder at \$89,997 (and \$82,259 omitting east wing) on the general contract for the erection of the reinforced concrete county hospital buildings. Howe Bros., 1188 San Pedro street, L. A., will probably be awarded the plumbing contract, Hunt Engineering Co. or Howe Bros. the steam heating and machinery contract, and Field Electric Co. of San Bernardino the electric work, their bid including fixtures not offered by F. E. Newberry Electric Co. It is reported. Contractors will probably be awarded on the basis of omitting the east wing, which will bring the total cost to about \$113,648.

SAN JOSE, SANTA CLARA CO., CAL.—Hospital boiler set, etc. Engineer, none. Owners, Santa Clara County.

At the last meeting of the Santa Clara County Supervisors' specifications for removing one high-pressure, tubular, brick-set boiler and stack and furnishing one new high-pressure boiler and connection; also specifications covering one 80 H. P. high-pressure horizontal tubular boiler as proposed to be furnished and installed at the County Hospital, were approved and the Clerk directed to advertise for bids to be opened on Monday, November 13th at 11 o'clock a. m.

Contracts Awarded.

SAN FRANCISCO—Hospital sterilizers, \$3,575. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contractors, Bunham Plumbing Co., 1220 Webster street, S. F. Contract price, \$3,575.

STOCKTON, SAN JOAQUIN CO., CAL.—Hospital power plant, morgue and chapel, 1 story, class A construction, \$7,579. Architect, Ralph P. Morrell, Odd Fellows' Bldg., Stockton. Owners, San Joaquin County. Contractor, Frank Tucker, Stockton. Contract price, \$7,579.

IRRIGATION PROJECTS

FRESNO, FRESNO CO., CAL.—Irrigation project. Cost not stated. Engineer, Louis C. Hill, Hollingsworth Bldg., L. A. Owners, Fresno Canal and Irrigation District. Ponds of the Fresno Canal and Irrigation Co. have been sold to San Francisco and Los Angeles bonding houses and work on the construction of a dam and reservoir at Pine Flat in the Kings River country

will be started shortly. The dam will be 295 feet high, 1,000 feet long on top and 350 feet long on the bottom. The reservoir will impound about 600,000 acre feet of water.

ALTURAS, MODOC CO., CAL.—Irrigation reservoirs, reinforced concrete. Cost not stated. Engineer, A. M. Green, Alturas. Owners, Potter-Huffman Land and Live Stock Co., County Surveyor A. M. Green of Alturas is preparing plans for two flood water storage reservoirs to be erected in Modoc County for the Potter-Huffman Land and Live Stock Co. One reservoir will have a capacity of 1,550 acre feet and the other 1,407 acre feet. Construction will be of concrete. Construction will start early in 1917.

SAN JOSE, SANTA CLARA CO., CAL.—Drainage ditch. Cost not stated. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. The County Supervisors have ordered bids received up to November 4th at 11 a. m. for the construction of the Foxworthy drainage ditch to be constructed in Supervisor District No. 1. Plans for the work were prepared by the County Engineer. Further information together with plans and specifications may be had from the County Clerk, Henry A. Pister, at San Jose.

WATERFORD, STANISLAUS CO., CAL.—Office building, 1 story, concrete. Cost not stated. Engineer, Chief Engineer, Waterford. Owners, Waterford Irrigation District. Bids will be opened on November 10th at 2 p. m. for a concrete office building with a preproof vault. Plans can be secured from the Secretary of the Irrigation District at Waterford.

Contracts Awarded

OKADALE, STANISLAUS CO., CAL.—Canal lining, \$5,595. Engineer, Chief Engineer, Okadale Irrigation District. Owners, Okadale Irrigation District. Contractors, Tieslau Bros., 110 Jessie street, S. F. Contract price, \$5,595.

POWER HOUSES.

FRESNO, FRESNO CO., CAL.—Hydroelectric plant, \$350,000. Engineer, A. S. Kalenborn, Fresno. Owners, San Joaquin Light and Power Co. The San Joaquin Light and Power Co. has begun work of excavating for the construction of a hydroelectric plant in Crane Valley. The plant will be completed by June, 1917.

SAN FRANCISCO—Hetch Hetchy work. Cost as follows. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The following low bids have been received for work at the Hetch Hetchy: Riveted steel pipe, Western Pipe and Steel Co., \$6,380; logging road engine, Leland Equipment Co., \$2,490; copper wire, John A. Roebling Sons Co., \$9,397 per pound.

Contracts Awarded

WOODLAND, YOLO CO., CAL.—Cast iron water pipe, \$1,945.38. Engineer, City Engineer, Woodland. Owners, City of Woodland. Contractor, American Cast Iron Pipe Co., S. F. Contract price, \$1,945.38.

RAILROAD CONSTRUCTION AND EQUIPMENT

ECHANDIA, LOS ANGELES CO., CAL.—Car barns, 1 story steel and brick, \$95,000. Architect, M. C. Halsey,

Pacific Electric Bldg., 1 A. S. S. Pacific Electric Railway Co., Echandia Junction and Watts, Cal., an area of 65 by 385 feet. Plans and considerable other work are at present prepared.

SAN FRANCISCO—Railroad extension, \$6,380. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Leland Smith submitted the low bid for extension of the Potrero Street Municipal Car Line at \$6,380.

RESIDENCES

SAN FRANCISCO—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, Emil Nelson, 130 1/2 avenue, S. E. Location, east 16th and south 17th avenue. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$15,000. Architect, Henry C. Smith, Humboldt Park Bldg., S. F. Owner, P. J. Mollet. Location, 12th avenue between Fulton and Carabelle. Will contain twelve rooms, three baths and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$4,000. Architect, William Koenig, Humboldt Park Bldg., S. F. Owner, Margaret A. Koenig. Location, east 13th avenue south Cabrillo. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame \$2,000. Architect, H. B. Mithell, 629 Montgomery street, S. F. Owner, Robert Prognier. Location, north Balboa east 22nd avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, J. B. Clifford, 3847 35th avenue, Oakland. Location, west 35th avenue north Hopkins. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, C. A. Jackson, 2911 Viola street, Oakland. Location, north East 16th street west 57th avenue. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 1/2 story and base, frame, \$3,000. Architect, James W. Plachik, Acheson Bldg., Berkeley. Owner, A. H. Brandt. Location, 918 Mono street. Will contain six rooms, bath and sleeping porch. Plans complete and figures being taken.

OAKLAND, CAL.—Residence, 1 story and base, \$1,800. Architect, none. Owner, F. P. Montague, 1052 Central avenue, Oakland. Location, west 63th avenue south Fairview. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Emma Coburn, 2370 East 28th street, Oakland. Location, west Maple, south Delaware. Will contain six

rooms and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, J. B. Peppong, 888 12th street, Oakland. Location, Squawfish Hill. Will contain six rooms, bath and sleeping porch. Separate entry. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,000 each. Architect, none. Owner, Lucien North, 135 Richmond avenue, Oak and Jackson, west Richmond avenue, south 18th street. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

GLEN BELLEN, SONOMA CO., CAL.—Residence, 1 story and base, brick and concrete. Cost not stated. Architect, none. Owner, Nataba Pooni, 165 7th street, Santa Rosa. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,500. Architect, C. S. McNally, 16 Kearny street, S. F. Owner, S. S. Reed, 684 7th avenue, S. F. Location, 21th avenue between Anza and Balboa. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$1,000 each. Architect, none. Owners, S. A. Born Building Co., 600 Market street, S. F. Location, Lincoln Manor. Each dwelling will contain eight rooms, two baths and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$1,500. Architect, M. E. Duggs, Syndicate Bldg., Oakland. Owner, John D. Garretson. Location, east Thomas north Broadway. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, H. C. Pfriang, 320 Forest street, Oakland. Location, south 6th west Colby. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, George C. Ferguson, Elmhurst location, west 94th avenue north Cherry. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ALBANY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, H. C. Pfriang, 320 Forest street, Oakland. Location, northwest Ventura and Marin. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ALBANY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, E. N. Berthland, 1037 Pralita avenue, Oakland. Location, northeast Marin and Neilsen. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, Herbert Bowles, 635 19th street,

Richmond. Location, 2600, between Roosevelt and Montezuma. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

BURLINGAME, SAN MATEO CO., CAL.—Residence, 2 story and base, concrete, frame and brick, \$60,000. Architect, Charles E. Gottschalk, Thelan Bldg., S. F. Owner, Edwin Christensen. Will contain twenty rooms, six baths and a number of out buildings. Plans complete and contracts awarded for the excavating, plain and reinforced concrete work and plumbing. Balance of the work to be awarded shortly.

SCHOOLS

OAKLAND, CAL.—Schools, portable, 1 story, frame, \$610 each. Architect, none. Owners, City of Oakland. John R. Faulkes presented the lowest figure for four portable schools and will probably be awarded the contract. A complete list of these figures together with the bids for a toilet building at the Lakeview School will be found under the heading of Oakland in this issue.

RIVERDALE, FRESNO CO., CAL.—School, 2 story and base, brick and concrete, \$25,000. Architect, Ernest J. Kump, Fresno. Owners, Riverdale School District. Trehmitt & Shields Co. presented the lowest bid for the new school building at \$25,890, with James L. Daly second low at \$27,320. Bids were taken under advisement.

SEATTLE, WASH.—School addition, 2 story and base, brick, \$16,000. Architect, Edgar Blair, 901 7th avenue, Seattle. Owners, City of Seattle. This addition will be made to the Fauntleroy School. Plans are complete and figures will be called for at once.

SEATTLE, WASH.—School addition, 2 story and base, brick, \$75,000. Architect, Edgar Blair, 901 7th avenue, Seattle. Owners, City of Seattle. This addition, to be made to the J. B. Allen School, will contain twelve class rooms and an auditorium. Plans are nearly complete and bids will be called for shortly.

WATSONVILLE, SANTA CRUZ CO., CAL.—School, 2 story and base, brick and concrete, \$100,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Watsonville Union High School District. Will contain sixteen class rooms, auditorium, library and office. Plans complete and figures being taken. Bids open on November 6th. Plans on file with the architect or Clerk of the Board of Education.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—School, 2 story and base, brick and concrete, \$32,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, South San Francisco School District. Revised plans for this work have been completed and are now out for figures. New bids are to be opened on October 30th.

ALAMEDA, ALAMEDA CO., CAL.—School, 2 story and base, brick and concrete. Cost not stated. Architects, Cunningham & Politeo, First National Bank Bldg., S. F. Owners, City of Alameda. After tentatively awarding the contract for the Lincoln School to Carnahan & Mulford, the Alameda Board of Education has revoked the contract and ordered changes in the specifications. Revised plans are now out for

figures. New bids will be opened on November 7th.

Separate bids are being taken for the heating, ventilating, plumbing and electric work. Plans can be secured from the Superintendent of Schools, Marysville.

Contracts Awarded.

KNIGHTS VALLEY SCHOOL DISTRICT, SONOMA CO., CAL.—School, 1 story, frame, \$2,669. Architects, Turton & Herbert, Santa Rosa. Owners, Knights Valley School District. Contractor, T. H. Money, Santa Rosa. Contract price, \$2,009.

SEWERS, STREET WORK & WATER SYSTEMS

STOCKTON, SAN JOAQUIN CO., CAL.—Street paving, \$3,562.24. Engineer, City Engineer, Stockton. Owners, City of Stockton. The Federal Construction Co., Sharon Bldg., S. F., submitted the lowest bid for paving streets fronting the North School and will probably be awarded the contract.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on October 27th for street improvements authorized under the following resolution: That the roadway of San Pablo avenue from the southern boundary line of the city of Berkeley to the northern boundary line of the city of Berkeley, be graded, construct concrete curbs and gutters, a vitrified pipe storm sewer be constructed in San Pablo avenue from Hearst avenue to Delaware street; one manhole, reinforced concrete catch basins, vitrified pipe connections with the storm sewer, and the remainder of the roadway be paved with asphaltic wearing surface 2 inches thick laid on a concrete foundation 6 inches thick.

OAKLAND, CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on October 26th for sewer construction authorized under the following resolution: That a sewer having an internal diameter of 8 inches be constructed in Fleming avenue in the vicinity of Courtland avenue. Also three brick manholes, a lamphole and Y branches, having 5-inch openings, be constructed on said sewer so as to provide one such branch for each 40-foot lot. The aforesaid sewer, Y branches and lamphole (except the top thereof) shall be constructed of vitrified sewer pipe.

CHINO, SAN BERNARDINO CO., CAL.—Street paving, \$53,715.75. Engineer, City Engineer Paul E. Kressly, Chino. Owners, City of Chino. The California-Arizona Construction Co., Los Angeles, presented the lowest figure at \$52,715.75 for street paving and will be awarded the contract. The next lowest bid was that of George R. Curtis at \$61,304.85.

NAPA, NAPA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Napa. Owners, City of Napa. Bids will be opened on October 30th for street improvements authorized under the following resolution:

That the roadway on Linn street, from Seymour street to the westerly limits of the city of Napa and the termination of Linn street, be graded, cement concrete curbs constructed, and the roadway paved with water bound macadam, consisting of crushed rock 6 inches in depth after its final rolling and dressing of crushed rock screenings.

FRESNO, FRESNO CO., CAL.—Cottage at sewer farm, 1 story, frame. Cost not stated. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be opened on November 6th for a frame cottage to be erected at the sewer farm. Plans can be had from the City Clerk.

BAKERSFIELD, KERN CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. At the last meeting of the City Council the City Engineer was instructed to prepare plans and specifications for paving of 23rd street from E to Chester avenue.

SAN FRANCISCO—Sewer construction, \$37,976.50. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The Clinton Construction Co. submitted the low bid for the La Playa sewer at \$37,970.50.

FRESNO, FRESNO CO., CAL.—Street sweeper, \$3,500. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be opened on November 20th for furnishing a motor-driven street sweeper.

LOS ANGELES, CAL.—Drainage work, \$81,936. Engineer, County Surveyor, L. A. Owners, Los Angeles County. James Kennedy, Washington Bldg., L. A., submitted the low bid for improvement work in Drainage District No. 1. He will probably be awarded the contract.

VENTURA, VENTURA CO., CAL.—Highway improvement. Cost not stated. Engineer, County Highway Commission, Ventura. Owners, Ventura County. Bids will be received by the Board of Supervisors up to 11 a. m. of November 8th for improving Division 1, Ventura to Santa Paula (11.1 miles), by grading and paving with concrete 16 feet wide and 4 inches thick, and constructing culverts. Plans and specifications, etc., may be obtained at the office of the Highway Commission upon deposit of \$3.

WATTS, LOS ANGELES CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Watts. Owners, City of Watts. Bids will be received by the City Clerk up to 5 p. m. of November 14, 1916, for improving Sunland avenue between Success avenue and Compton avenue. Will include 24,000 square feet of oil bound rock macadam paving, 1,460 linear feet of curb and 7,300 square feet of cement sidewalk. For improving Queen avenue between Success avenue and Compton avenue. Work will include 24,000 square feet of oil bound rock macadam paving, 1,520 feet of curb and 7,600 square feet of cement sidewalk. For improving Ann street between Sunland avenue and Queen avenue. Work will include 15,750 square feet of oil bound rock macadam paving, 1,050 linear feet of cement curbs, and 5,250 square feet of cement sidewalk. For improving Wall street between Sunland avenue and Queen avenue. Work will include 15,360 square feet of oil bound rock

macadam paving, 1,024 linear feet of cement curb, and 5,120 square feet of cement sidewalk, in accordance with plans and specifications, which may be obtained at the office of the City Engineer. Certified check or bond for 10 per cent is required. Virgil R. Franklin is the City Clerk.

Contracts Awarded.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, San Francisco. Contracts for street improvements have been awarded under the following resolutions: The improvement of 20th avenue, between Lawton and Moraga Sts., by the construction of concrete curbs and asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Owen McHugh, 301 Russ Bldg., S. F., for \$3,900.

The improvement of 19th avenue, between Lawton and Moraga streets by the construction of artificial stone sidewalks at least 9 feet wide where artificial stone sidewalks at least 9 feet wide are not already constructed. Awarded to A. O. Field, 1165 20th avenue, S. F., for \$821.45.

The improvement of the crossing of 21st and Church streets by resetting existing curbs and catch basins; construction of artificial stone sidewalks on the angular corners; an asphalt pavement consisting of a 6-inch concrete foundation with a 2-inch asphaltic wearing surface. Awarded to D. L. Bienfeld, Phelan Bldg., S. F., for \$1,257.92.

The improvement of Balboa street, between the east line of 28th avenue and the east line of 29th avenue, by grading; construction of concrete curbs; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface; artificial stone sidewalks and three brick catch basins, and 16-inch, vitrified, salt-glazed, ironstone, pipe culverts in the crossing. Awarded to Owen McHugh, 301 Russ Bldg., S. F., for \$3,109.60.

The improvement of Anza street, between the west line of 15th avenue and the west line of 16th avenue, by the construction of concrete curbs; artificial stone sidewalks and three brick catch basins with 10-inch, vitrified, salt-glazed, ironstone pipe culverts on the crossing; and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Peter McHugh, Jr., 3908 Clay street, S. F., for \$1,911.46.

The improvement of 20th avenue, between Moraga street and Quintara street, by the construction of the following vitrified, salt-glazed, ironstone pipe sewers with the necessary Y branches and brick manholes with cast iron frames and covers and galvanized wrought iron steps: 8, 12, 18, 21-inch with 141 Y branches and 10 brick manholes; 10 brick catch basins, and 10-inch, vitrified, salt-glazed, ironstone pipe culverts; artificial stone sidewalks; concrete curbs; and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway of the crossing and

intervening blocks of 20th avenue between the south line of Moraga street and the south line of Quintara street. Awarded to Owen McHugh, 301 Russ Bldg., S. F., for \$27,135.65.

The improvement in front of city property of the north half of Division street from 10th street to Bryant street, produced north, and of the north half of 11th street between Bryant and Division streets, where not already improved, by laying and grouting basalt header blocks to be furnished by the city along the outside rails; by the construction of two brick catch basins with cast iron frames, gratings, traps and 16-inch, vitrified, salt-glazed, ironstone pipe culvert, and an asphalt pavement, consisting of a 6-inch concrete foundation, a 1½-inch asphaltic binder course and a 1-inch asphaltic wearing surface. Awarded to The Pay Improvement Co., Phelan Bldg., S. F., for \$2,018.46.

SAN LEANDRO, ALAMEDA CO., CAL.—Street paving, \$26,325.60. Engineer, Town Engineer, San Leandro. Owners, Town of San Leandro. Contractors, Johnson-Shea Co., Central Bank Bldg., Oakland. Contract price, \$26,325.60.

The phosphate rock marketed in the United States during the year is stated at 1,835,667 long tons, valued at \$5,412,449.

STANDARDS FOR SCHOOL HOUSE CONSTRUCTION.

Attention is called to the waste and lack of system in schoolhouse construction in this country in a forthcoming bulletin of the schoolhouse standardization committee of the National Educational Association. The committee appeals for information from local authorities relative to the standards used in their vicinities for schoolhouses and which have met with the approval of state and city officials, commercial organizations, and boards of education.

From the returns the committee hopes to secure sufficient data for drafting a set of standards for schoolhouse planning. The information desired will cover such items as cost, analysis of situations, and relative areas set aside for the various purposes of the school. The committee plans to send out its standards expressed in such language that boards of citizens will not require a technical expert to assist them.

The committee, which will make its report at the next meeting of the National Educational Association, has the following members: Chairman, Frank Living Cooper of Boston; S. A. Callahan, school building commissioner of Minnesota; C. E. Chadsey, superintendent of schools Detroit; Prof. Lewis M. Terman of Stanford University, and Dr. Leonard P. Ayres of the Russell Sage Foundation, New York.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

BAIRACKS—4 story and base, Class construction, \$100,000. San Francisco, Architect not selected. Owners, on Commissioned Officers of the Volunteer League of America, H. W. Ostlewaite, Monadnock Bldg. Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps **ON** the road and **OUT** of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It **reduces first cost of tires one-third.** It **doubles tire mileage.** It **starts quickly—stops quickly.** Breaks on four wheels as well as drives on four wheels. It **saves time and avoids accidents.** Phone for demonstrations.

"Every Owner a Booster"

OAKLAND AND ALAMEDA COUNTY

SCHOOLS—Portable, 1 story, frame, \$640 each. Oakland, Cal. Architect, none. Owners, City of Oakland. John R. Faulkes presented the lowest figure for four portable schools and will probably be awarded the contract. A complete list of these figures together with the bids for a toilet building at the Lakeview School will be found under the heading of Oakland in this issue.

STREET IMPROVEMENTS—Cost not stated. Berkeley, Alameda Co, Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on October 27th for street improvements authorized under the following resolution: That the roadway of San Pablo avenue from the southern boundary line of the city of Berkeley to the northern boundary line of the city of Berkeley be graded, construct concrete curbs and gutters, a vitrified pipe storm sewer be constructed in San Pablo avenue from Henry avenue to Delaware street; one manhole, reinforced concrete catch basins, vitrified pipe connections with the storm sewer, and the remainder of the roadway be paved with asphaltic wearing surface 2 inches thick laid on a concrete foundation 6 inches thick.

SEWER CONSTRUCTION—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on October 26th for sewer construction authorized under the following resolution: That a sewer, having an internal diameter of 8 inches, be constructed in Fleming avenue in the vicinity of Coastland avenue. Also three brick manholes, a lamphole and Y branches, having 5-inch openings, be constructed on said sewer so as to provide one such branch for each 40-foot lot. The aforesaid sewer, Y branches and lamphole (excepting the top thereof) shall be constructed of vitrified sewer pipe.

RESIDENCE—1 story and base, \$1,800. Oakland, Cal. Architect, none.

owner, F. P. Montague, 1052 Central avenue, Oakland. Location, west 65th avenue south Fairview. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1½ story and base, frame, \$3,000. Berkeley, Alameda Co, Cal. Architect, James W. Plachek, Acheson Bldg., Berkeley. Owner, A. H. Brandt. Location, 918 Mono street. Will contain six rooms, bath and sleeping porch. Plans complete and figures being taken.

RESIDENCE—1 story and base, frame, \$1,700. Oakland, Cal. Architect, none. Owner, C. A. Jackson, 2911 Viola street, Oakland. Location, north East 16th street west 55th avenue. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,500. Oakland, Cal. Architect, none. Owner, J. B. Clifford, 3847 35th avenue, Oakland. Location, west 35th avenue north Hopkins. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—3, 1 story and base, frame, \$1,800 each. Oakland, Cal. Architect, none. Owner, Justus Norris, 2828 Richmond avenue, Oakland. Location, west Richmond avenue south 20th street. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, Emma Coburn, 2370 East 28th street, Oakland. Location, west Maple south Delaware. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$3,000. Oakland, Cal. Architect, none. Owner, J. B. Peppine, San Leandro. Location, Sequoyah Hills Tract. Will contain six rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—3 story and base, brick veneer, \$50,000. Oakland, Cal. Architect, M. I. Diggs, Syndicate Bldg., Oakland. Owner's name withheld. Location, west Oak north 11th. Will contain ninety rooms arranged in suites of two, three and four rooms. Plans being prepared.

RESIDENCE—2 story and base, frame, \$4,500. Oakland, Cal. Architect, M. I. Diggs, Syndicate Bldg., Oakland. Owner, John D. Garretson. Location east Thomas north Broadway. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, H. C. Pfirang, 320 Forest street, Oakland. Location, south 60th west Colby. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,600. Oakland, Cal. Architect, none. Owner, George Ferguson, Elmhurst. Location, west 26th avenue north Cherry. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,500. Albany, Alameda Co., Cal. Architect, none. Owner, H. C. Pfarr, 320 Forest street, Oakland. Location, northwest Ventura and Marin. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,500. Albany, Alameda Co., Cal. Architect, none. Owner, E. N. Berthand, 1037 Peralta avenue, Oakland. Location, northeast Marin and Neilsen. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOL — 2 story and base, brick and concrete. Cost not stated. Alameda, Alameda Co., Cal. Architects, Cunningham & Poitoe, First National Bank Bldg., S. F. Owners, City of Alameda. After tentatively awarding the contract for the Lincoln School to Carnahan & Mulford, the Alameda Board of Education has revoked the contract and ordered changes in the specifications. Revised plans are now out for figures. New bids will be opened on November 7th.

STORES — 1 story, frame, \$10,000. Oakland, Cal. Architect, M. I. Diggs, Syndicate Bldg., Oakland. Owner, I. P. Diggs. Location, College and Shafter avenues. Will contain six stores. Plans complete and architect taking sub-figures.

Contracts Awarded.

STREET PAVING — \$26,325.60. San Leandro, Alameda Co., Cal. Engineer, Town Engineer, San Leandro. Owners, Town of San Leandro, Contractors, Johnson-Shea Co., Central Bank Bldg., Oakland. Contract price, \$26,325.60.

STREET IMPROVEMENTS — Cost price not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland, M. I. Cambar, 1644 91st avenue, Oakland, has been awarded the contract by the City Council for the following work: That a sewer having an internal diameter of 8 inches, be constructed along Whittle avenue from Fruitvale avenue, Lot 6 of the Ellen Stotts Tract No. 1; that three brick manholes, a lamp-hole with top of brick and cast iron, Y branches, having 5-inch openings; the for-said proposed sewer, Y branches and lamp-hole (except the top thereof) shall be constructed of vitrified sewer pipe.

RECEIVE FIGURES FOR OAKLAND SCHOOL WORK.

Board of Education Opens Bids For Two Small Jobs and Also Awards Contract for School Addition.

The following bids were opened by the Oakland Board of Education at their meeting held Monday, October 16th, for constructing four portable schools and for additional toilets at the Lakeview School:

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

IRRIGATION RESERVOIRS — Reinforced concrete. Cost not stated. Engineer, A. M. Green, Alturas. Owners, Potter-Huffman Land and Live Stock Co. County Surveyor A. M. Green is preparing plans for two flood water storage reservoirs to be erected in Mono County for the Potter-Huffman Land and Live Stock Co. One reservoir will have a capacity of 1,550 acre feet and the other 1,497 acre feet. Construction will be of concrete. Construction will start early in 1917.

FIRE HOUSE—1 and 2 story and base, brick. Cost not stated. Tracy, San Joaquin Co., Cal. Architects, Sala & Mayo, Commercial Savings Bank Bldg., Stockton. Owners, City of Tracy. Will contain apparatus room and living quarters. Plans are being prepared.

SCHOOL—1 story, brick. Cost not stated. Marysville, Yuba Co., Cal. Architect's name not given. Owners, City of Marysville. Bids will be received on November 27 for a brick school. Separate bids are being taken for the heating, ventilating, plumbing and electric work. Plans can be secured from the Superintendent of Schools, Marysville.

Contracts Awarded.

HOSPITAL, POWER PLANT, MOBILE AND CHAPEL — 1 story. Class A construction, \$7,879. Stockton, San Joaquin Co., Cal. Architect, Ralph P. Morrell, Odd Fellows' Bldg., Stockton. Owners, San Joaquin County. Contractor, Frank Tucker, Stockton. Contract price, \$7,879.

BRIDGES—Steel and reinforced concrete. Cost as follows. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractor, O. A. Peter, Oroville. Watt's Slough bridge, \$18,848; Lindo Channel bridge, \$3,324.

STREET PAVING—\$3,562.24. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. The Federal Construction Co., Sharon Bldg., S. F., submitted the lowest bid for paving streets fronting the North School and will probably be awarded the contract.

CAST IRON PIPE—\$1,915.38. Woodland, Yolo Co., Cal. Engineer, City Engineer, Woodland. Owners, City of Woodland. Contractors, American Cast Iron Pipe Co., S. F. Contract price, \$1,915.38.

LOS ANGELES AND SOUTHERN CALIFORNIA

BRIDGE—Timber construction. Cost not stated. San Luis Obispo, San Luis Obispo Co., Cal. Engineer, County Surveyor, San Luis Obispo. Owners, San Luis Obispo County. Bids will be received by the Board of Supervisors up to 10 a. m. of November 9 for this construction of a 50-foot wooden truss bridge of one span, with reinforced concrete foundation on wood flooring across Stenner Creek on the Polytechnic School road near the city of San Luis Obispo, and about 1½ miles from the Southern Pacific Railroad station at that point. Plans and specifications are on file at the office of the clerk of the board. Certified check required. F. J. Rodriguez is the clerk.

BRIDGES—Reinforced concrete. Cost not stated. Ventura, Ventura Co., Cal. Engineer, County Surveyor, Ventura. Owners, Ventura County. Until 2 p. m. November 9 bids will be received by the Board of Supervisors for constructing the Telephone road bridge across the Saticoy storm ditch in the town of Saticoy, according to plans and specifications on file in the office of said board and which may be obtained at the office of the County Surveyor. The approximate quantities are 2½ cubic yards class A concrete, 33 cubic yards class B concrete, 5,000 pounds reinforcing steel. J. R. McCloskey, County Clerk.

STREET PAVING—\$53,715.75. Chino, San Bernardino Co., Cal. Engineer, City Engineer Paul E. Kressly, Chino. Owners, City of Chino. The California-Arizona Construction Co., Los Angeles, presented the lowest figure at \$53,715.75 for street paving and will be awarded the contract. The next lowest bid was that of George R. Curtis at \$61,904.85.

CHURCH—1 story and base, brick, \$60,000. Whittier, Los Angeles Co., Cal. Architect, H. M. Patterson, O. T. Johnson Bldg., L. A. Owners, Friends Church of Whittier. Location, Philadelphia and Washington streets, covering an area of 96 by 138 feet. Will contain main auditorium and Sunday school rooms. Plans are complete and figures being taken.

JAIL CELLS—Steel. Cost not stated. Fillmore, Ventura Co., Cal. Architect, Albert C. Martin, Higgins Bldg., L. A. Owners, Ventura County. Bids will be opened on November 10th for a steel cell cage. Plans can be secured from the County Clerk or from the architect.

WAREHOUSE—5 story and base, reinforced concrete. Cost not stated. Los Angeles, Cal. Architect, John Parkinson, Title Insurance Bldg., L. A. Owners, Joannes Bros. Co. Location, southeast Hewitt and Traction streets. Will cover a large area. Plans complete and figures being taken.

HOSPITAL—1 and 2 story, reinforced concrete. Cost as follows. San Bernardino, San Bernardino Co., Cal. Architect, Lyman Farwell, Story Bldg., L. A. Owners, San Bernardino County. The P. O. Engstrom Co., Fifth and Seaton streets, L. A., was lowest bidder at \$89,997 (and \$83,259 omitting east wing) on the general contract for the erection of the reinforced concrete county hospital buildings. Howe Bros.,

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

White Brothers

Fifth & Brannan Sts.

San Francisco

98 San Pedro street, L. A., will probably be awarded the plumbing contract; Hunt Engineering Co. or Howers, the steam heating and machinery contract, and Field Electric Co. of San Bernardino the electric work, their bid including fixtures not offered by P. E. Jewberry Electric Co., it is reported. Contracts will probably be awarded on the basis of omitting the east wing, which will bring the total cost to about 13,648.

CAR BARN—1 story, steel and brick, \$95,000, Echandia, Los Angeles 5, Cal. Architect, M. C. Halsey, Pacific Electric Bldg., L. A. Owners, Pacific Electric Railway Co. Location, Echandia Junction and Watts, covering an area of 65 by 385 feet. Plans for considerable other work are also being prepared.

DRAINAGE WORK—\$84,936, Los Angeles, Cal. Engineer, County Surveyor, A. Owners, Los Angeles County. James Kennedy, Washington Bldg., L. A., submitted the low bid for improvement work in Drainage District No. 1. It will probably be awarded the contract.

HIGHWAY IMPROVEMENT—Cost not stated. Ventura, Ventura Co., Cal. Engineer, County Highway Commission, Ventura. Owners, Ventura County. Bids will be received by the Board of Supervisors up to 11 a. m. of November 8th for improving Division 1, Ventura to Santa Paula (11.1 miles), by adding and paving with concrete 16 feet wide and 4 inches thick, and constructing culverts. Plans and specifications, etc., may be obtained at the office of the Highway Commission upon deposit of \$3.

STREET IMPROVEMENTS—Cost not stated. Watts, Los Angeles Co., Cal. Engineer, City Engineer, Watts, Owners, City of Watts. Bids will be received by the City Clerk up to 5 p. m.

November 14, 1916, for improving inland avenue, between Success avenue and Compton avenue. Will include 10,000 square feet of oil bound rock macadam paving, 1,460 linear feet of curb and 7,300 square feet of cement sidewalk. For improving Queen avenue, between Success avenue and Compton avenue. Work will include 10,000 square feet of oil bound rock macadam paving, 1,520 feet of curb and 7,600 square feet of cement sidewalks. For improving Ann street between Sanland avenue and Queen avenue. Work will include 15,750 square feet of oil bound rock macadam paving, 1,500 linear feet of cement curbs, and 5,500 square feet of cement sidewalk. For improving Wall street between inland avenue and Queen avenue. Work will include 15,360 square feet of oil bound rock macadam paving, 1,400 linear feet of cement curb, and 5,000 square feet of cement sidewalk. In accordance with plans and specifications which may be obtained at the office of the City Engineer. Certified check or bond for 10 per cent is required. Virgil R. Franklin is the City Clerk.

THEATRE AND OFFICES—Class A construction, \$600,000, Los Angeles, Cal. Architect, Albert S. Martin, Highways Bldg., L. A. Owners, Stability Building Co. Location, southwest corner of Broadway, covering an area 120 by 198 feet. The major portion

of the building will be occupied by the theatre and the balance given over to stores and offices. Plans for the structural steel work are now being figured.

HIGHWAY CONSTRUCTION—\$62,000, Tucson, Ariz. Engineer, County Surveyor, Tucson. Owners, Pima County. Contractors, Aubrey Investment Co., Prescott. Contract price, \$62,000.

Contracts Awarded.

ROAD IMPROVEMENT—\$52,112.61, Los Angeles, Cal. Engineer, County Surveyor, L. A. Owners, Los Angeles County. Contractors, S. C. Contracting Co., Title Insurance Bldg., L. A. Contract price, \$52,112.61.

SEATTLE AND WASHINGTON

SCHOOL ADDITION—2 story and base, brick, \$16,000, Seattle, Wash. Architect, Edgar Blair, 301 7th avenue, Seattle. Owners, City of Seattle. A two-story addition will be made to the Fawcett School. Plans are complete and figures will be called for at once.

SCHOOL ADDITION—2 story and base, brick, \$75,000, Seattle, Wash. Architect, Edgar Blair, 301 7th avenue, Seattle. Owners, City of Seattle. This addition, to be made to the J. R. Allen School, will contain twelve class rooms and an auditorium. Plans are nearly complete and bids will be called for shortly.

CONSTRUCTION WORK ABROAD.

SIAM.

Construction of Bridges, Railways, etc. BANGKOK, Aug. 17.—The Siamese budget estimates for the fiscal year 1916-17 provide \$148,000 for the construction of bridges and roads in the Provinces, the intention being to facilitate a freer movement of merchandise within the Kingdom, and to increase the traffic of goods and passengers on the new railways. waterways, including destruction of the "Java weed" the sum of \$296,000 has been set aside.

The amount allotted by Siam's budget for the construction of the southern railway extension for the current year is \$2,326,320, a reduction of \$625,670, as compared with the grant for last year, the reduction being mainly due to the fact that nearly all the requirements for rails and steelwork for bridges have been completed, but the allotment for the branch lines of this railway, however, shows an advance of \$217,190 over last year, or a total of \$254,190. The branch lines were nearly completed last year, but were seriously damaged, owing to heavy floods during the latter months of the year, and hence the increased appropriation, which also includes the first grant of about \$148,000 for the construction of a new terminus for the southern line which is estimated to cost about \$370,000.

For the northern railway extension the sum of \$1,332,000 is allotted, and for the completion of the new royal audience hall the sum of \$129,500 has been set aside.

Appropriations for Irrigation Purposes.

The total provision for irrigation purposes during the current year amounts to \$1,291,844, \$736,844 more than last year. This is an initial ap-

propriation for the "Prasak" Irrigation scheme for the estimated cost of which \$1,500,000 has been sanctioned, while a more extensive system of irrigation, requiring an outlay within six years of about \$9,000,000, still remains under consideration.

C. Jorgensen & Co. Move.

Growing Firm Take New and Larger Quarters in the Crossley Building, Mission and New Montgomery

C. Jorgensen & Co., located for many years at 356 Market street, announce the removal of their offices to Rooms 19 and 20 Crossley Bldg., corner of New Montgomery and Mission streets. The new office suite has been handsomely furnished and presents a most attractive appearance.

C. Jorgensen & Co. carry one of the most extensive lines of general building materials of any firm in the city, and enjoy a large and growing trade, both local and country.

CHANGES IN SHIPPING ON THE PACIFIC.

Uncertainty characterizes shipping affairs along the Asiatic coast and in the trans-Pacific trade at present, as a result of changing conditions. There has been a reaction from the great boom in trans-Pacific business which had developed within the past year and a half. The high price of silver has tended to stop exports from the south China markets, while general business conditions have caused a diminution in imports.

The decrease in tonnage moving naturally led to a sharp decline in trans-Pacific freights. By decision of the trans-Pacific conference lines, however, freight rates from October on are to be quoted approximately at the level that has obtained during the past year—on the basis of \$12 per ton for rice. The rates are now open and competitive, and the rate on rice—the basis for trans-Pacific business going east—is around \$8 per ton.

Talk of Possible Change by Japanese Lines.

While the conditions in the freight market that have prevailed in the past few weeks apparently are to be overcome in the fall trade, there are several features of the general situation which also are to be considered by American importers and exporters. Shipping circles here consider it possible that with the resumption of a strong demand for cargo space anticipated in the fall, the subsidized Japanese tonnage may be withdrawn from the China and other non-Japanese ports, and that no freight space will be offered Hongkong, Shanghai, or Manila shippers on Japanese trans-Pacific vessels. This would be likely

PLUMBERS WILL REVISE BY-LAWS.

WASHINGTON, D. C.—The Department of Justice has been advised that the Association of Master Plumbers, which has been under attack as in violation of the Sherman law, have passed a resolution by which the entire plan of operation and by-laws of the organization are to be revised to meet the government's criticisms.

to make a material difference in the situation in some lines of trade. Already Japanese ports have the first call on a rule some outside freight has been carried.

Rates to and from Europe have held up much more stiffly all along than those to and from the United States. One explanation lies in the uncertainty of tonnage for Europe.

◆ DRAINING THE ZUIDER ZEE.

After being discussed pro and con through many columns of periodicals and hundreds of pages of books and pamphlets during three-quarters of a century, the proposition to drain the Zuider Zee has finally reached the form of a bill introduced into the Second Chamber of the Netherlands Parliament on September 9.

The bill provides for a dam across the upper part of the Zuider Zee, extending from the Province of North Holland, over the Amsteldiep (a narrow strait), to the island of Wieringen and thence to the Frieland coast at the town of Piaam, in a northeasterly direction. Including the island, the total length of the dam would be about 24 miles; excluding the island, about 19 miles of dam actually to be constructed. A lake of 882,000 acres in area would be formed, of which, it is understood, about 500,000 acres would be drained, leaving the remainder as a lake in the midst of the redeemed arable land.

As numerous fisher folk depend upon the Zuider Zee for their livelihood, the bill now introduced contemplates indemnity for such injury as they may suffer. The bill also takes account of possible damage to shipping and other interests.

◆ Cost of Project—Will Take Fifteen Years to Complete.

It is estimated that the full execution of the project will require 15 years and will cost \$14,220,000, of which two-thirds would be for the dam and auxiliary works and one-third for the draining. In addition, would be works and measures of a protective nature, following the draining, the cost whereof, as estimated, would swell the grand total to approximately \$90,000,000, subject of another bill to be introduced in the Parliament.

When work on the project will begin is not yet known, but it will be decided as the bill progresses through the Parliament. Long discussion and consideration is expected. Many interests which will be affected must be taken into account. Among them are the canals of Amsterdam, which are flushed and freshened by water pumped from the Zuider Zee, and provision therefor must be arranged.

It is calculated that the dam will be completed in the ninth year of work on the project. In the fourth year work will begin on dikes for the area to be reclaimed. Just how the draining will be done does not appear in the published details of the project.

◆ PAPER MILLS TO USE NEW WOODS.

WASHINGTON—As the result of studies which have been made at the Forest Products Laboratory on methods

of handling wood chips suitable for paper pulp, it is announced that Wisconsin paper companies are now negotiating with the railroads for shipment to their factories of experimental train loads of chips of western woods adapted to paper making.

Previous investigations by the Forest Service have demonstrated that good grades of paper can be made from a number of western woods. The experts now estimate that some of these woods, when cut into chips and dried and baled, can be delivered to the mills in Wisconsin at a very small advance over the cost of chips made from local timber. If a favorable freight rate can be obtained, they say, the great quantity of pulpwood on the National Forests should prove to be a considerable factor in supplying favorable located paper mills with the necessary raw material. In Wisconsin alone, it is stated, there is an annual market for over 300,000 cords of pulpwood.

◆ WANTS METAL BRUSHES.

F. W. Seager, Central Garage, Porterville, Cal., has requested the San Francisco Chamber of Commerce to place him in touch with dealers in metal brushes.

◆ ENGINEER TELLS OF ROAD BUILDING.

SAN JOSE, Cal.—Technical points about the construction of the State-highway roads and the necessity for good roads, were the main divisions of the speech made at the weekly luncheon of the San Jose chamber of commerce by Arthur E. Loder, division engineer of the State highway commission.

Seventy business men were in attendance. The chairman, Dr. W. C. Bailey, first introduced John D. Kuster, president of the Rotary Club, who spoke on the new course in salesmanship about to be offered here.

Loder dealt largely with facts and figures. He said that what was left of the \$18,000,000 bond issue would be used up this year; that so far, under that issue, 129 miles of macadam, 933 miles of concrete, 22 miles of asphalt and 395 miles of graded roads had been completed, or a total of 1490 miles. In addition, 860 miles of road had been surveyed, making in all 2350 miles of State highway, completed or surveyed, for the \$18,000,000 expended.

The speaker explained that, according to the unprejudiced report of the California State Automobile Association, the average cost of excavating for all classes of road constructed under the bond, had been 41c a cubic yard, and that the overhead expenses had been 12 1/2 per cent of the gross construction cost.

He said that the building of the great highway system under the bond had given California contractors a good training. At the start they had not known the best kind of materials, using gravel concrete, which sooner or later crumbled under heavy wear. Finally he urged that the new bond be supported, for \$12,000,000 of it was but for the completion of what was contemplated under the other bond.

◆ COSTS \$753 A MINUTE TO RUN RAILROAD.

ST. PAUL, Minn.—It costs \$133.28 a minute to operate the Northern Pacific railroad. These figures were given by the railroad. The cost of operating the road's 6,000 miles of track is \$148,780 daily, but this does not include the \$19,757 daily spent for permanent improvements. Annually the road spends \$7,235,965 for betterments.

◆ SEATTLE MAN FINALLY GETS GRANT.

SEATTLE, Wash.—By passing over the mayor's veto the Bremerton City Council has finally given the franchise for the construction of a gas plant there to E. L. Blaine, of the Grant Construction Co., Seattle, who will invest over \$150,000 in a new plant at once. Practically all service mains were laid by a former company.

Important constructive legislation that will establish guide lines for the future development of California cities will be recommended at the next session of the State Legislature. This program determined on by the third California conference on city planning, which has just concluded its session at Visalia.

The conference unanimously decided to recommend the following legislative measures:

Extension of the state housing laws to include a more comprehensive and stringent tenement house act for the regulation of all types of dwellings.

Establishment of a bureau, under some existing commission similar in function to the work of the Massachusetts Homestead Commission, to supply information and encouragement to all the city planning commissions of the state.

Submission at the next general election of a constitutional amendment for the public acquisition power (sometimes called excess condemnation power.)

Passage of an act further strengthening the power of cities to restrict the building of flats and tenements in the single family residence districts.

Passage of an act permitting cities to establish building setback lines, making for wider streets and parking area.

◆ Redistricting Big Problem.

Charles Henry Cheney, architect and city planner, secretary of the conference, who returned to San Francisco recently, said:

The foremost problem of all the cities seemed to be the question of zoning or redistricting; the general desire to provide a plan for protecting homes from the intrusion of apartment houses, flats and business, nuisances and industries, such as is established by the new Berkeley zone ordinance.

Chester H. Rowell of Fresno, emphasized as the first necessity of city planning the granting of wider public land acquisition powers by the Legislature; second, the adoption of well thought out redistricting plans, and, third, a system of extension of city limits for future growth by some plan like that used

change the character of Fifth avenue, making it less desirable for retail shops. At the same time, a great amount of upstairs floor space farther down town, which the garment trades had occupied, would be left tenantless.

Fortunately the Fifth avenue shopkeepers were extensive patrons of the garment makers and the threat of an extensive boycott seems to have stopped the movement. But such means of stopping similar disturbing movements are not usually available. Whenever a skyscraper is built many offices in more modest and aged structures are left vacant—permanently vacant in some cases. Then a still loftier skyscraper blankets one side of the first tall building, cutting off its light and air, and that side is relegated to dust and cockroaches.

From a big city, which has registered an important growth at every census period for two generations and is still growing at the accustomed rate, we hear complaints that never before was there so great an amount of vacant space in the wholesale district.

A good many expanding concerns have moved out where the ground for their growing needs can be got cheaper. In two or three huge mail-order houses is now concentrated the business that was formerly handled by hundreds of jobbers. The city's restless squirming has left many empty places in what, by its location, should be a very busy district. How residential sections all round the city map are overrun, and entirely change their character, is well known.

Perhaps in time the growth of a city will be made to conform to some carefully thought-out, settled, comprehensive plan. There seems no particular reason why it should not be, and the advantages are obvious.—Saturday Evening Post.

THE ENGINEER'S PLACE IN ROAD WORK.

(By W. S. Keller, State Highway Engineer of Alabama.)

Despite the fact that a majority of county commissioners or district supervisors have had no training whatever in road building, they will concede to no one that they are not as well qualified to direct road work as any engineer they can employ. They will often admit that an engineer should locate and stake out a road, but they think his duty ends there. It is just as necessary that an engineer should supervise construction work as it is that he should locate the road. How many commissioners can tell how much it costs to move a yard of earth, or how much it costs to install pipe culverts, or how much a cubic yard of concrete in their culverts is costing them?

The commissioners of a certain county in Alabama claimed that they were building roads as cheaply or more cheaply than any contractor could do the work. They had an engineer estimate the cubic yards of earth moved during a certain period of time and to their surprise it was costing 37½ cents per cubic yard, when the average contract price in Alabama for three years had been 23 cents. Authorities should know whether they are getting full value for their money. Many counties are imposed upon in the purchase of materials and

supplies, and are paying more for them in large quantities than individuals are paying for them in small quantities.

The remedy for these ills is to have some one in charge of road building qualified by education and training and free from political influences, who can be held responsible for results. Very few counties have commissioners or supervisors who devote all of their time and attention to their office, and it is self-evident that an engineer trained in roadbuilding will get better results than can any set of men who give only a few days in the year to their public office.

An engineer is indispensable even though a good superintendent directs the work. A large proportion of all roads to be constructed require relocation, profiles of them must be made, grades established, and, if the work is done by contract, the road must be cross-sectioned, and the amount of excavation and embankment calculated and made to balance as nearly as possible. No one but an engineer can do such work, and the man who does it is manifestly best fitted to supervise the construction. The average road supervisor is usually ignorant of the methods of accounting correctly for large expenditures and unable to keep cost accounts of the work.

Many county commissioners can see only the engineer's salary, to be paid twelve times a year, with the inevitable consequence that there will be quite a decrease in the number of days for which they can legitimately demand pay for laying aside their personal work and superintending the building or repair of roads in their respective districts. They regard the engineer as a usurper, taking away the salary of those guardians of the people's rights who are so anxious to save money for the people that they vote against the \$200 per month needed for an engineer's salary and spend \$500 per month in trying to do his work.

A case of this kind came to my attention in Alabama. A competent man in the employ of a county was discharged by the commissioner of the district in which he had been working. The commissioner gave as a reason for this action that he himself could look after the teams and hands and thereby save the county a considerable sum per month. This discharged man resented this action and kept a record of the commissioner's methods. The following occurrence is typical of them. One day the commissioner drove seven miles to a small bridge where he contracted with a man to repair the structure for \$1.50. A few days later he returned to the bridge site to inspect the work. He charged \$3.00 a day for his time, or \$6 for his services on a \$1.50 job. While he was certainly entitled to pay for his time, it is manifestly not good business to do work in that way, as compared with handling it at a nominal expense, and an incident in connection with other work, which is the way such repairs are attended to under the direction of an experienced road official.

On the other hand, it must be acknowledged that the most expensive man on road work is a fool engineer. He is responsible to a very great extent for the prejudice many have against engineering supervision of

road construction. But there is no excuse for a county employing an incompetent man. An engineer applying for a position should be endorsed by those for whom he has worked and by men competent to pass judgment on engineering work. An engineer with only a good character will build roads

"SAFETY FIRST" PRINCIPLE DATE BACK MANY YEARS.

The practical application of the "Safety First" principle on the Southern Pacific, dates back as far as the days of the construction of the Central Pacific. At that time a treaty was entered into between the railroad company and the various tribes of Indian under the terms of which the red men even when on the war path, rigorously abstained from molesting the passengers or employees. The attention of the United States Senate was called to this in 1888, when Attorney Creed Haymon referred to it in an argument before the Senate Committee on Pacific Railroads in the following language:

"The situation in like respect was no less dangerous between the Sierra and Ogden. That country was infested with hostile Indian tribes, constantly at war with the whites. While this danger existed and had to be met, it was not by force of arms, but by a treaty made between the Central Pacific Company and the Indian tribes between the Sierra and Ogden, which has on both sides been most faithfully kept from that day to this.

"Many times since the construction of the road these tribes have been at war with the United States. In no single instance have they violated that solemn treaty or injured a man connected with the railroad or a passenger borne upon its trains. The influence of the treaty was felt long years afterward, and still is felt, on the Southern Pacific Railroad lines.

"The same obligation was implicitly entered into between the Apache Indians, the wildest tribe known to the continent, and to the railroad company. Although that tribe has carried murder and arson over the territories of New Mexico and Arizona and the northern states of Mexico, in no single instance has it interfered with the trains of the Southern Pacific, its passengers or section men, though repeatedly war parties have crossed and recrossed the track."

Even to this day, under the terms of a treaty with the Pan-Utes made in 1882, members of that tribe are entitled to free transportation in the state of Nevada.

\$22,000,000 INCREASE IN NEVADA VALUATION.

CARSON CITY (Nev.)—The Nevada Tax Commission, after certifying to the tax returns from the various counties of Nevada, states that the total assessment valuation of property in the State is \$174,000,000, as against \$152,000,000 in 1915, an increase of \$22,000,000.

FUNDS NEEDED FOR DISTRICT.

TRACY—The land owners of the West Side Irrigation District have presented a petition to the directors asking for a bond election to raise \$195,000 to be used for the construction of ditches, pumping plant, etc., for the district.

in German cities for condemning contiguous farm lands.

Duncan McDuffie of the Berkeley Civic Art Commission, outlined a plan of organization for an effective city planning commission. Charles P. Stern of the State Highway Commission pointed out that motor vehicle traffic is breaking down all city limits, pushing the city far out into the country and thereby increasing enormously the demand for city planning.

Officers Are Elected.

The following officers were elected: President, F. C. Wheeler, Los Angeles; vice president, Duncan McDuffie, Berkeley; vice president, T. H. Reed, San Jose; secretary-treasurer, Charles Henry Cheney, San Francisco.

FORMER SECRETARY OF WAR FOR NATIONAL MILITARY TRAINING,

condemns Volunteer System. Says National Guard Inadequate.

Hon. Elihu Root, at the request of the association for National Service, makes distinct contribution to the literature on National Military Training and National Service in the following interview:

The Association is conducting a nationwide campaign for an expression of public opinion on the adoption of a system of military and naval training for the youth of the Nation. The question is being submitted through the daily press by means of the subjoined all form.

After praising the patriotic endeavor of the Association, and the educational campaign which it is prosecuting, Mr. Root says:

Spirit of National Service Needed.

"We certainly need the spirit of National Service in our country. It is a mistake to suppose that a people can have good government, peace, order, and progress for any long period without any effort on their part. We in the United States need to have our patriotism awakened, throw off our difference, and think more of our duties as well as of our rights. Every one who is fit to be a citizen of a free country ought to be willing to serve his country, when called upon, in accordance with his ability. The young men who are physically fit for military duty should hold themselves ready to fight for their country if need be, and if they are not ready when the need comes they will not long have any country, and they will not deserve to have any. The vast change in the way of carrying on war which has occurred within a very few years has created a situation in which it is perfectly plain that a country can be ready to defend her dependence against foreign aggression except by universal military training and a resulting universal readiness for military service.

"The old way of waiting until war came and then calling for volunteers has become obsolete and is no longer effective.

"The national guard system is not adequate and can not be made adequate to meet the needs of national defense under any real assault upon our rights. It is impossible to have an effective body of soldiers who serve to masters and are raised and organized to accomplish two different purposes.

"Universal training and readiness for service are not only demanded by common sense, but they are essential to a democratic life. They were required by the country during the early years of our republic for every male citizen between the ages of eighteen and forty-five was required to be ready to fight for his country and was required to be trained and provided with arms in accordance with the simple needs of warfare in those days.

"It is only necessary now to apply the principles and requirements of the national law of 1793, adapted to present conditions."

(Issued by the Association for National Service.)

FOR ROADS AND BRIDGES.

Although the various states and territories are now expending close to three hundred million dollars a year in improving their rural highways and building bridges, an increase of more than two hundred and fifty per cent in the last decade, only about 11 per cent of the country's highways have been improved with some form of surfacing. According to statistics recently compiled by the office of public roads and rural engineering of the U. S. Department of Agriculture, the total length of public roads in the United States, outside of incorporated towns and cities, is about 2,452,000 miles, of which only about 277,000 miles, or 11.3 per cent, are surfaced.

The mileage of surfaced roads has been increasing at the rate of about 16,000 miles a year and in 1915 approximately one-half of this increase was made under the supervision of state highway departments, which in addition supervised the maintenance of nearly 52,000 miles of main and trunk line roads.

The increase in expenditures for road and bridge work in the United States has been from approximately \$80,000,000 per year in 1904 to about \$282,000,000 in 1915, an increase of more than 250 per cent. The expenditure of state funds during this same period increased from about \$2,550,000 to more than \$53,000,000. In addition, more than \$27,000,000 of local funds was spent under state supervision in 1915, bringing the total road and bridge expenditures managed by the states to \$8,511,699. This amount is greater than the total expenditures for roads and bridges from all sources in 1904.

The growth in importance of the state highway departments has been rapid. The first of these agencies was created in 1891 in New Jersey and now some form of highway department exists in every state except Indiana, South Carolina and Texas. Since their inception these departments had expended to January 1, 1916, an aggregate of \$263,350,825 in state funds for road and bridge construction, maintenance and administration. They had constructed over 50,000 miles of roads in co-operation with the states. More than 40,000 miles of these roads were surfaced.

The falling off in the value of road work performed by statute and convict labor was from \$20,000,000 in 1904 when the total road expenditures were \$80,000,000, to about \$15,000,000 in 1915 when the total expenditure had grown to \$282,000,000. This was a reduction from 25 per cent of the total in the

year to less than 5 1/2 per cent total in 1915.

The increase in the use of better and more expensive types of roads also is shown by the recently compiled statistics.

This development has been due, in part, to the great increase in automobile traffic. It is estimated that there are now approximately two and a half million automobiles in use on the roads of the country, or one car for every mile of road. This present excess traffic is in excess of traffic of all cars twelve years ago.

The cash road and bridge expenditures of the United States averaged only \$28 per mile of rural roads in 1904. In 1915 this average had grown to \$109 per mile. New Jersey led all other states both in 1904 and in 1915 with \$221 and \$475 per mile respectively. Nevada made the least expenditure in both years—\$3.72 per mile in 1904 and \$17 per mile in 1915.

BARYTES AND STRONTIUM.

The Geological Survey, Department of the Interior, now has available for distribution its annual statement on Barytes and Strontium in 1915.

NEVADA FALLS IN LINE FOR GOOD ROADS.

The citizens of Nevada interested in the good roads agitation will vote for a constitutional amendment in the coming election which would increase the borrowing powers of the state from \$600,000 to \$1,750,000. If the amendment carries, the next legislature will be asked for a comprehensive good roads bill creating a state highway commission, a state highway appropriation of \$1,000,000, and directing the highway commission to supplement county road appropriations with money from the state road fund for road work of permanent character when such work is part of the state road system. The state law will not conflict with the recent federal act appropriating \$75,000,000 for road work in the various states. The transcontinental routes traversing the state will receive the first attention of the commission.

TO NAVIGATE WESTERN CANAL.

OROVILLE—That water transportation from Oroville to San Francisco via the Western Canal is a certainty within the next few years, is the statement of L. M. Culver, a prominent figure in the rice industry. The company has announced its intentions of placing barges upon the western unit of its canal. The unit will be built to the full width of 150 feet. The plan of the company is to widen the eastern units of the canal to this width. When this is done the barge system will be operated throughout the canal.

THE SHIFTING OF BUSINESS IN THE AMERICAN CITIES.

The typical big American city not only grows but squirms restlessly round in its shell, which causes much inconvenience. Recently, for example, New York woke to the significance of the fact that the garment trades were following the Fifth avenue shopping district. Those trades occupy a great amount of upstairs floor space and employ hundreds of thousands of operatives. Their coming would inevitably

Clean Traveling.

Electric travel does away with the grime, soot and other disagreeable inconveniences that go with usual railroad travel.

MODESTO MAY GET IMMENSE FACTORY.

MODESTO, Cal.—A combined vegetable canning factory and a can manufacturing plant, estimated in investment at more than \$200,000, was the offering made to Modesto through the Chamber of Commerce by A. C. Harvey, president of the Southern California Canning Company of Ontario. The factory plans and the requirement of co-operation by the Chamber of Commerce were outlined at a meeting of the chamber by Harvey, and the industrial committee of the boost body was authorized to assist in the selection of a site suitable for the enterprise. The plant will require ten acres, and this the Chamber of Commerce expects to be able to donate to the company to secure the factory. The plant will employ 1000 people during the canning season. The committee appointed to assist Harvey consists of C. D. Swan, president of the Union Savings Bank; C. J. Wisecarver and T. K. Beard, the latter two both extensive land holders in this vicinity.

ZINC IN CALIFORNIA AND OREGON, 1915.

The annual statement on Gold, Silver, Copper, Lead, and Zinc in California and Oregon, issued by the Geological Survey, Department of the Interior, is now available for distribution for 1915.

LARSEN PEAK IS NOT MOUNT LARSEN.

The previous dispatches describing the latest eruptions of Lassen Peak, have a continued tendency to refer to the volcano as Mount Lassen. But it is thought that the name should respond with those of some other famous peaks of the Cascade Range, such as Mount Shasta or Mount Rainier. But Lassen Peak, as the most active and interesting volcano in the United States, is especially entitled to be called by its own name, and not by Congress and Presidential proclamations in creating and recognizing the Lassen Peak National Forest and Lassen Peak National Monument. It has given the name Lassen Peak a status of high rank in the geologic and the Cascade Range. The area has recently been set apart as the Lassen Volcanic National Park.

The name Lassen Peak, according to the United States Geological Survey, Department of the Interior, is the only authorized form on maps, reports, and gazetteers, from the Whitney Geological Survey of California, in 1891 to the Geomorphologic map of California and Nevada published by the Earthquake Investigation Commission, as well as on the latest map issued by the Forest Service.

Peter Lassen, the sturdy pioneer who guided many an early settler to the sunny lands of the Sacramento, has buried in a lonely grave in Lassen County. A small, crumbling monument, about 30 miles from the peak in his last resting place, but his grave and more enduring monuments in the county and peak named in his honor by a grateful people. The snow expects Lassen Peak has piloted many an emigrant to the mountain pass.

In the early days of the Pacific Road surveys some points named, called the peak St. Joseph's Mountain, but the names Lassen's Peak and Lassen Butte soon came into general use. Whitney has shown the inappropriateness of the French term butte, which translated exactly, means knoll. Lassen never owned the mountain, and later years the possessive form of the name was dropped, and to correct an old tendency to wander from established usage the United States Geographic Board, in its decision of October 3, 1915, officially recognized the fact that the name of the mountain was Lassen Peak, not Mount Lassen.

PAPER ALMOST GONE IN GERMANY.

WASHINGTON, D. C. Wood has been received here that owing to the scarcity of print paper in Germany and the consequent high prices, many of the smaller papers throughout the empire have found it necessary to suspend publication, temporarily at least, while other papers have gladly re-

ceived their output and number of

The new paper publishers of Wurttemberg, called a special session to consider the situation and have passed resolutions calling upon the government to place a fixed price on print paper in order to protect the smaller new papers.

In Austria the government has already taken hold of the matter, dividing papers into first and second-class and limiting them to a certain number of pages each day, and also fixing the price at which they can be sold.

In this manner it is hoped to prevent any further shortage, for no matter what exigencies arise, newspapers can still publish in any more pages.

DO YOU KNOW THAT

A recent investigation made by the U. S. Public Health Service in connection with studies of rural school children showed that 92.3 per cent had defective teeth, 21.1 per cent had two or more missing teeth, and only 16.9 per cent had had dental attention. Over 11 per cent never used a tooth brush, 58.2 per cent used one occasionally and only 27.4 per cent used one daily. Defective teeth reduce physical efficiency. Dirty, suppurating, jagged-toothed mouths are responsible for many cases of heart disease, rheumatism and other chronic affections. The children are not responsible for the neglected state of their teeth. The ignorant and careless parent is to blame for this condition—a condition which hampers mental and physical growth and puts a permanent handicap on our future citizens. School teachers can and are doing much in propagating habits of personal cleanliness on the rural school child but this is the duty of the highest accomplishment only if parents cooperate heartily and continuously. This is a duty which we owe our children.

CANNERY TO BE BUILT ON HENEME BEACH.

CONNARD, Cal. A \$50,000 tuna-canning factory is to be erected at Heneme on a 15-acre tract north of the light house just bought for \$75,000 by J. B. McCloskey and John Tweeddale of Huntington from J. A. Duffell and John Johnson. The fish cannery will employ from 100 to 150 people.

HUNT FOR OIL IN MADIRA.

CLOVIS, Cal. A second test well is now being sunk near Clovis by several oilfield specialists who are interested in oil. The drilling is being done on a royalty basis. The location of both wells was found by means of an electro-meter, an instrument invented by a Los Angeles man for finding oil locations.

APARTMENT HOUSES

RICHMOND, CONTRA COSTA CO., CAL. Apartment house and stores, 3 story and base, brick and steel, \$15,000. Architect, James T. Narbett, 910 Macdonald avenue, Richmond. Owner, Herbert Brown, Wells-Fargo Bldg., S. F. Location, northeast Macdonald avenue and 10th street, covering an area of 54 by 50 feet. Will contain a number of stores and two, three and four room apartments. Plans complete and figures to be called for shortly.

PORTLAND, ORE. Apartment house, 3 story and base, brick, \$28,000. Architect, F. Manson White, Chamber of Commerce Bldg., Portland. Owner, name withheld. Location, East Side, covering an area of 50 by 100 feet. Will contain 21 suites of two and three rooms. Plans being prepared.

OAKLAND, CAL. Apartment house, 2 story and base, frame. Cost not stated. Architect, William Ernest Spink, 309 Jackson street, S. F. Owner's name withheld. Location, 16th street east Diamond. Will contain four two and three room apartments. Plans complete and figures being taken.

SAN FRANCISCO. Apartment house, 8 story and base. Class C construction, \$85,000. Architect, Benj. O. McQuinn, Sheldon Bldg., S. F. Owner, M. C. Harris. Location, Stockton at north portal of Stockton street tunnel, covering an area of 68½ by 100 feet. Will contain a number of two, three and four room apartments. Plans being prepared.

SAN FRANCISCO. Apartment house, 3 story and base, brick, \$15,000. Architect, Edward E. Young, 251 Kenney street, S. F. Owner, W. Yager, 1485 Pine street, S. F. Location, west Leavenworth north Post, covering an area of 25 by 82½ feet. Will contain twelve suites of two and three rooms. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. Apartment house and stores, 5 story and base. Class A and Class C construction, \$175,000. Architects, Richardson & Burdell, Alway Bldg., Oakland. Owners, Sommarstrom Bros. Location, 22nd and Broadway. Will contain stores on the first floor and a number of two, three and four room apartments above. Plans complete and in the hands of the owners who are now letting completed contracts.

BARRACKS.

SAN FRANCISCO. Barrack, 2 or 3 story and base. Class C construction. Cost not stated. Architect, Kenneth MacDonald, Jr., Hollbrook Bldg., S. F. Owners, Non-Commissioned officers of the Volunteer League of America. Location, Folsom and 17th. The architect has just been appointed to prepare these plans and details will be given when plans are more progressed.

BONDS

COALINGA, FRESNO CO., CAL.—An election has been called for November 8th to vote on a bond issue of \$100,000. Money will be used either to purchase private water system or to construct municipal system. F. G. Desser, Central Bldg., Los Angeles, is consulting engineer.

YUBA CITY, SUTTER CO., CAL.—Night mass meetings are being held to discuss the benefits of the proposed \$320,000 bond issue with which to build four new bridges and a new county hospital. The election will be held on November 7th.

BAKERSFIELD, KERN CO., CAL.—Mrs. M. Pasquini has purchased the property at the corner of V and Union avenue and will erect a modern rooming house in the near future.

CHICO, BUTTE CO., CAL. President Allison Ware has consulted the consulting engineer of the State relative to the present Norman School in Chico. It is planned to erect a building costing \$50,000 for manual training equipment and industrial art classes.

DIXON, SOLANO CO., CAL.—Meetings are being held here to consider data regarding irrigation and comparative facts and figures from this and other irrigated districts of the State. If the scheme proves feasible and the time opportune, steps will be taken for the formation of the Dixon Irrigation District, the object of which will be to supply cheaper and more water than is now had under the pumping plan.

Engineers C. H. Loveland, R. W. Hawley and H. A. Whitney have made superficial examinations of the dam sites and reservoirs, and their data is being used.

FRESNO, FRESNO CO., CAL. The proposition to bond the county for \$2,600,000 to build 116 miles of permanent highway was defeated at an election held last week.

BAKERSFIELD, KERN CO., CAL. The bond election held to vote \$175,000 in bonds by East Bakersfield was defeated by a large majority. The election was held last week.

CULESA, CULUSA CO., CAL. The grammar school \$65,000 bond issue carried by a vote of five to one. An architect will be selected shortly to design plans for the new building to be erected from the proceeds of the sale of the bond.

CULESA, CULUSA CO., CAL. The second school bond election for a new grammar school has been set for November 17.

The first election carried by five to one for a \$65,000 bond issue and the second contest is for an additional \$20,000.

SAN FRANCISCO.—The State Railroad Commission has authorized Sierra and San Francisco Power Co., 58 Sutter

street to issue \$1,000,000 in bonds. Proceeds will be used for completion of Strawberry dam, enlargement of San Francisco plant, and extension of distribution lines.

LOS ANGELES, CAL.—The Hollywood water system bonds of \$1,026,000 carried at an election held October 18. The money from the bonds is to be expended as follows: District's proportion of the purchase of the system of the Hollywood Union Water Company, \$519,000; purchase of the Hall and Robertson water systems in East Hollywood, \$12,228; trunk line for Sunset Boulevard, \$113,550; district's proportion of the cost of building trunk line over Calhoun Pass and east on Franklin avenue, \$112,982; enlargements of the present systems \$177,000; cost of elections, preparing bonds, etc., \$22,000.

MONROVIA, LOS ANGELES CO., Cal.—Bonds in the amount of \$30,000 for the construction of a grade school on Orange avenue were defeated at an election held on October 20.

BRIDGES, DAMS AND HARBOR WORK

MERCED, MERCED CO., CAL.—Bridges, 5, reinforced concrete and timber. Cost not stated. Engineer, County Surveyor, Merced. Owners, Merced County. Bids will be opened on November 14th for the construction of the following bridges: A reinforced concrete bridge on Middle road over San Luis Creek, known as Bridge No. 17. A wooden bridge on concrete abutments and pier over South Fork of Butchman's Creek on the Baxter road, known as Bridge No. 48. A wooden bridge on concrete abutments and pier over Mariposa Creek on the Pate road, known as Bridge No. 19. A reinforced concrete bridge over slough on the Merced and Fresno road, now State highway, known as Bridge No. 59. A wood and concrete bridge over Canal Creek on Cox Ferry road, known as Bridge No. 51.

SAN ANDREAS, CALAVERAS CO., CAL. Bridge 5th. Cost not stated. Engineer, County Surveyor, San Andreas. Owners, Calaveras County. Bids will be opened on November 6th for filling the approaches to the concrete bridge recently constructed across the Middle Fork of the Mokelumne River, in the Mokelumne Road District, between the town of Redwood Flat and West Point.

WILLOWS, GLENN CO., CAL.—Bridges, 5, reinforced concrete. Cost not stated. Engineer, County Surveyor, Willows. Owners, Glenn County. The improvement of Noriega, between 19th and 26th avenues, by grading, construction of concrete curbs, artificial stone sidewalks 6 feet wide and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to J. G. Harney, 3619 18th street, for \$4,952.49.

The improvement of Anza, between 25th and 26th avenues, by the construction of granite curbs, resetting granite curbs, construction of artificial stone sidewalks 6 feet wide and an asphalt pavement consisting of a concrete foundation and a 2-inch asphaltic wearing surface. Awarded to D. L. Blenheim, Phelan Bldg., for \$3,682.52.

The improvement of Ortega street, between 19th and 20th avenues, by grading, construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 18 Y branches and 1 brick manhole, concrete curbs, artificial stone sidewalks 6 feet wide and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to Clarence B. Eaton, 497 11th street, for \$4,419.50.

The improvement of Moulton street, between Webster and Fillmore streets, by the construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 20 Y branches and 2 brick manholes along the center line of Moulton street from Fillmore to a point 84.5 feet west from Webster street, and by the construction of a granite pavement consisting of a 6-inch concrete foundation and a 2½-inch asphaltic wearing surface upon the roadway. Awarded to Thos. A. Clark, 68 Post street, for \$1,032.

The San Francisco Board of Public Works has awarded a contract to The Clinton Construction Co., 110 Townsend street, S. F., for the construction of sewers and appurtenances in La Playa and the Great Highway between Lincoln Way and Noriega street for \$27,970.50.

FRESNO, FRESNO CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer Fresno. Owners, City of Fresno. Contractors, Thompson Bros., 514 H street, Fresno. Contract price not stated.

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement, \$10,151.21. Engineer, City Engineer, Richmond. Owners, City of Richmond. Contractor, George Cushing, 420 Macdonald avenue, Richmond. Contract price, \$10,151.21.

OAKLAND, CAL.—Street Improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. The following contracts for street improvements have been awarded: For the grading, curbing with redwood, guttering with concrete gutters 3 feet wide, paving with oil macadam and sidewalk with cement sidewalks 6 feet wide, of all that portion of Bissell street that lies northwest of the northwest line of 73rd street. Awarded to the Hutchinson Co., 13th and Franklin streets, Oakland.

That portions of 51st avenue in the vicinity of East 10th and East 12th streets, be graded, construct redwood curbs, concrete gutters 3 feet wide, paved with oil macadam and construct cement sidewalks 6 feet wide. Awarded to the Hutchinson Co.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That Cornell avenue, from Florence avenue to 35th street, be improved by constructing concrete curbs and gutters; one concrete manhole; placing 6-inch, vitrified, ironstone sewer pipe with elbows attached; one cast iron gutter drain; 14 linear feet of 6-inch, vitrified, ironstone sewer pipe drain; 25 linear feet of 8-inch, vitrified ironstone sewer pipe drain; grading the space between the property line and curb; constructing concrete sidewalks; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Awarded to the Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That the alley between 5th avenue and 6th avenue and between East avenue and Sacramento avenue in Oak Terrace and South Oak Park, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; 4 concrete manholes complete; placing 30 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer. Awarded to Joe Lawrence, Broderick, Cal.

That the alley between Allen avenue and V street, from T Street Addition to 24th street, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; two concrete manholes complete; placing 26 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer, and doing all necessary excavating and backfilling of trenches. Awarded to W. J. Tobin, 735 Filbert street, Oakland.

That the alley between Y street and Orange avenue, from 57th street to 10th street in South Sacramento Subdivision B, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, 4 concrete manholes; placing 61 6-inch, vitrified Y branches on 8-inch pipe sewer, and doing all necessary excavating and backfilling of

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Cal.
SEALED PROPOSALS, in triplicate, for
repairing wharf at Presidio of San
Francisco, Cal., will be received here
until 11 A. M., November 3, 1916, and
then opened. Further information on
application. (6)

PROPOSAL FOR BIDS.

SEALED BIDS will be received at the Office of the Comptroller, 20 California Hall, University of California, Berkeley, California, at or before 9:00 A. M., November 1st, 1916, for the **Exterior Cement Finish for the first wing of the permanent Chemistry Building on the grounds of the University of California at Berkeley.**

Plans and specifications may be obtained at the "Chief's" window, "Comptroller's Office," at 9 A. M. Monday, October 23rd, 1916, on payment of a deposit of \$2.00 for a set of plans and specifications taken out, which deposit will be refunded on return of said plans and specifications. A measure by a regular bid for the work. No bids will be received unless accompanied by a certified check or bond in favor of the undersigned equal to one of the bid, to secure execution of the contract by the successful bidder.

The right is reserved to reject any and all bids.

THE REGENTS OF THE UNIVERSITY OF CALIFORNIA.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CANAL SUPPLIES. Proposals for Steel, Iron, Pipe, Cast-iron, Steel Cable, Chain, Tow Cables, Hooks, Hooks, Wrenches, Chisels, Hatchets, Axes, Adzes, Mattocks, Saws, Saws, Blades, Files, Pins, Drills, Runners, Tapes, Stocks, and Dies, Drill Sockets, Wire Cutters, Bolt Cutters, Planes, Files, Vises, Jacks, Sockets, Saw Clamps, Hose Clamps, Hose Nozzles, Grinders, Bolts, Nuts, Chain Hooks, Smash Blocks, Tackle, Block, Rope, Cables, Hooks, Chains, Pulleys, Pulleys, Frushers, Tool Handles, Wire, Ropes, Ladders, Buckets, Torches, Guns, Oilers, Tallow, Pots, Lamps, Lamp Chimneys, Stoves, Stoves, Stoves, Boring Bits, Tool Grinders, Battery Charging Panel, Generator Panel, Shelf Brackets, Elbow, Elbow, Inlets, Fuls, Funnels, Ratchet, Ratchet, Table Casters, Stumps, Vine, Vine, Welding Spectacles, Asbestos Gloves, Rubber Hose, Railroad Flares, Ribs, Steel Tapes, Tying Chains, Boards, Pins, Brakes, Brakes, Brakes, Brakes, Blank Books, Paper, Pressboard, Envelopes, Cans, Oil, Pine Tar, Oil, Alcohol, Metallics, Zinc, White, Zinc, Lead Oxide of Mercury, Indigo, Red and Gum, Shot, Shot, Shot, Shot, will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m., November 2, 1916. At which time they will be opened in public for furnishing the above mentioned articles. Bids and general information relating to this tender (No. 10) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal. also from the U. S. engineer offices in the following cities: Seattle, Wash., and Berkeley, Cal. EARL I. BROWN, major corps of engineers, U. S. army, general purchasing officer.

SALE OF MATERIAL.

SALE OF MATERIAL. There will be sold at the navy yard, Mare Island, Cal., material belonging to the navy, condemned as unfit for use, to-wit: furniture, bed, chairs, beds, trunks, scales, musical instrument, clothing, lathe, air compressors, pump machine, engines, furnaces, blowers, hose, pumps, fire, and other articles, and tools, etc. The sale will be open to the highest bidder by sealed proposals to be opened at 1:30 p. m., November 2, 1916. Sealed proposals and forms of proposals and terms of sale can be obtained upon application to the supply officer, navy yard, Mare Island, Cal., J. SEYMOUR DANIELS, Secretary of the Navy.

CALL FOR BIDS ON TREES & SHRUBS

TREASURY DEPARTMENT Supervising Architect's Office, Washington, D. C., October 21, 1916. SEALED PROPOSALS will be received in this office until 10 A. M. December 1, 1916, and then opened, for planting trees, shrubs, etc., on the grounds of the Federal

Buildings at Albany, Eugene, Pendleton, The Dalles, Oregon; Idaho Falls, Idaho; Brigham City, Utah; Edgingham, Everett, Walla Walla, Washington; Chico, Grass Valley, Pasadena, Santa Barbara, California; in accordance with the specification, copies of which, as well as copies of approach plans of the several buildings may be had upon application to the respective Custodians of the Buildings, or at this office. Make application only for the specifications and drawings for the buildings which you intend to submit proposals. JAS. A. WETMORE, Acting Supervising Architect.

MODERN WIRE HOPE.

Mathematical Precision Rules Every Process in its Making.

Although wire rope has been used as a mechanical appliance for almost 5,000 years, its is commonly regarded as a modern invention. During the many years which have elapsed since the first records of its use, wire rope has passed from a crude to a highly developed product, and the purposes for which it is employed have increased a thousandfold. In no other branch of the American steel industry is there so great a demand for material of proved integrity, for it might be safely suggested that wire rope is born to be abused. It is subjected to tremendous tensile strains; it must withstand constant bendings, abrasion, corrosion and the peculiar internal stress produced by vibration.

Wire rope as it is made today is the product of the metallurgist and the mechanic. Every process, from the smelting of the ores, the cold-drawing of the wire and the heat treatments it receives down to the standing or laying up of the cable, is conducted with mathematical precision.

The chemist sees that only steel of the proper analysis is used; the electric pyrometer insures uniformity of heat treatment in various testing machines clearly develops the worth of the product before it is allowed to leave the mill. Wire rope is used in the mine shafts more than a mile in depth, and may be found on aeroplanes which sail a mile or more above the ground.—Technical World.

FUNDAMENTALS OF REINFORCED CONCRETE DESIGN.

The above subject was given in a lecture by Ernest McCullough, Chief Engineer, Fireproof Construction Bureau, Portland Cement Association, for the short course of Manual Training and Vocational Teachers, held at Lewis Institute, Chicago, June 26th to July 1st, 1916, and has been reprinted in pamphlet form by the Association for free distribution among those interested in the subject. Address the Portland Cement Association, 111 West Washington St., Chicago, Ill.

AN ARCHITECT'S SON'S IDEA.

"My father is an architect," said the new boy on the block, proudly.

"What does an architect do?" asked the boy next door.

"Oh, he tells people how to build their houses, and they have to pay him for telling them."

"Yes, but 'sposin' they don't build the house the way he tells 'em to?"

"Why, then they have to pay him

more money for changing the plans," replied the architect's son.—Chicago News.

JUDSON WORKS TO BUILD FURNACE

EMERYVILLE, Cal.—Ground has been broken for the building of the first open hearth steel furnace to be operated on this side of the bay. The site selected will be at the foot of Park avenue in Emeryville, immediately at the mouth of the Judson Iron Works, and to be owned and operated by this corporation.

The plans mean the expenditure of \$100,000 and an addition of 500 men to the plant's payroll.

The matter of constructing such a plant has been considered for several years by the management of the big iron works and action was delayed from time to time until conditions have proven satisfactory.

The total investment will pass the one hundred thousand dollar mark, as the completed plant will cover approximately ten acres of ground, necessitating special constructed buildings and expensive equipment.

One of the difficult problems to be solved was the securing of brick able to stand the terrific heat units required. However, this was overcome with a shien brick that cost \$115 a ton, much of which is already delivered. In connection with the plant will be a steel stack one hundred and fifty feet in height with a base circumference of forty-five feet and brick-lined to the top.

In the operation of the plant oil will be used as a fuel and the ores and manganese will come from the California deposits.

THE VALUE OF GOOD SURVEYS IN ROAD BUILDING.

Surveys for roads are often criticized as an unnecessary expense, mainly useful in giving temporary jobs to surveying parties. It seems to many people a very easy matter to stake out a proposed road so that the grades will not be too heavy and the curves too sharp. There are other things to be considered, however, as was recently brought out in some statements by John H. Gordon, president of the New York State Roadbuilders' Association. "The preliminary survey is too often made hurriedly or under adverse weather conditions, and when the actual construction begins the contractor finds that his work is radically different from his idea as derived from the plans and specifications. Final surveys of excavation and embankment at times show as great a discrepancy as 25 per cent, although no great departure has been made from the plans—a result scarcely excusable. The preliminary survey should be made with the utmost care and the plans and specifications drawn therefrom should be the subject of the most careful thought and study, and when finally adopted should not be lightly changed. The location of the material to be used should be definitely and exactly stated and the responsibility for these locations and quality of material should rest with the state. Should these sources of supply be exhausted or deteriorate in quality, it should be the state's burden to bear the loss, and not the contractor's."

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

STREET IMPROVEMENTS—Cost as follows. San Francisco, Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco, Contracts or street improvements have been awarded under the following resolutions: The improvement of Elim alley from Ecker street to a line at right angles to the southeast line of Elim alley and 94 feet distant from the point of intersection of the northeast line of Ecker street and the southeast line of Elim alley, by the construction of granite curbs, artificial stone sidewalks of the full width and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic binder course and a 2-inch asphaltic wearing surface. Awarded to D. J. Church Co., 68 Post street, for \$21,556.

The improvement of Balboa street, between 29th and 30th avenues, by the construction of concrete curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to J. H. Franks, 639 29th avenue, for \$135.

The improvement of 46th avenue, between Geary and Anza streets, by the construction of concrete curbs, a 7-foot strip of vitrified brick pavement on a concrete foundation adjacent to the center line thereof, and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway. Awarded to Peter McHugh, 2908 Clay street, for \$789.60.

The improvement of 19th avenue, between California and Lake streets, by the construction of artificial stone sidewalks. Awarded to A. O. Field, 165 20th avenue, for \$75.

The improvement of 16th avenue, between Anza and Balboa streets, by the construction of artificial stone sidewalks 6 feet wide. Awarded to A. O. Field, 1465 20th avenue, for \$25.50.

The improvement of 10th avenue, between Geary and Clement streets, by the construction of artificial stone sidewalks. Awarded to A. O. Field for \$13.42.

The improvement of Noriega, between 19th and 20th avenues, by grading, construction of concrete curbs, artificial stone sidewalks 6 feet wide and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to J. G. Harney, 3619 8th street, for \$4,952.40.

The improvement of Anza, between 25th and 26th avenues, by the construction of granite curbs, resetting granite curbs, construction of artificial stone sidewalks 6 feet wide and an asphalt pavement consisting of a concrete foundation and a 2-inch asphaltic wearing surface. Awarded to D. J. Glenfield, Phelan Bldg., for \$3,683.52.

The improvement of Ortega street, between 19th and 20th avenues, by

grading, construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 18 Y branches and 1 brick manhole; concrete curbs, artificial stone sidewalks 6 feet wide and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to Clarence B. Eaton, 407 11th street, for \$4,119.80.

The improvement of Moulton street, between Webster and Fillmore streets, by the construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 20 Y branches and 2 brick manholes along the center line of Moulton street from Fillmore to a point 84 1/2 feet west from Webster street, and by the construction of granite pavement consisting of a 6-inch concrete foundation and a 2 1/2-inch asphaltic wearing surface upon the roadway. Awarded to Thos. A. Clark, 68 Post street, for \$1,022.

The San Francisco Board of Public Works has awarded a contract to The Clinton Construction Co., 110 Townsend street, S. F., for the construction of sewers and appurtenances in La Playa and the Great Highway between Lincoln Way and Noriega street, for \$37,970.50.

APARTMENT HOUSE—3 story and base, brick, \$15,000. San Francisco. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, W. W. Yager, 1485 Pine street, S. F. Location, west Leavenworth north Post, covering an area of 25 by 87 1/2 feet. Will contain twelve suits of two and three rooms. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—8 story and base. Class C construction, \$85,000. San Francisco. Architect, Benj. G. McDougall, Sheldon Bldg., S. F. Owner, M. C. Harris. Location, Stockton street at north portal of Stockton Street Tunnel, covering an area of 68 1/2 by 100 feet. Will contain a number of two, three and four room apartments. Plans being prepared.

RESIDENCE—1 story and base, frame, \$2,000. San Francisco. Architect, none. Owner, John Bjorkman, 12 Naples street, S. F. Location, north Rolph west Munich. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, C. S. McNally, 46 Kearny street, S. F. Owner, Annie M. Reed. Location, west 24th avenue south Anza. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, Albert L. Lapachet, 110 Sutter street, S. F. Owner, Joseph O. Dillingham. Location, west 21st avenue north Ulloa. Will contain six rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$4,000. San Francisco. Architect, Joseph A. Leonard, 85 Cerritos

avenue, S. F. Owners, Urban Realty Co. Location, lot 24, block 16, Ingle-side Terrace. Will contain seven rooms, bath and separate garage. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. San Francisco. Architect, none. Owner, N. F. Nilsson, 355 Coleridge street, S. F. Location, north Santa Ynez east Otsego. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES—3, 2 story and base, frame, \$14,000 each. San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owners, Newell-Murdock Co. Location, Forest Hill. Each house will contain twelve rooms, three baths and separate garage. Plans being prepared.

RESIDENCES—2, 2 story and base, frame, \$5,000 each. San Francisco. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, Thomas Seoble. Location, west 3rd avenue north Fulton. Each house will contain eight rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

WAREHOUSE—1 story and base, reinforced concrete. Cost not stated. San Francisco. Architect's name not given. Owners, San Francisco Commercial Co., leased to Goodyear Tire and Rubber Co. Location, southeast Mission adjoining Ocean Shore R. R. Co., covering an area of 100 by 165 feet. Construction to be in charge of MacOndaid & Kahn, Rialto Bldg.

SEWER CONSTRUCTION—\$17,841.90. San Francisco. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The Tibblits Pacific Co. presented the lowest bid for constructing sewers in Somerset and Wayland streets and will be awarded the contract. A complete list of these figures will be found under the heading of San Francisco in this issue.

FLATS—2 story and base, frame, \$3,000. San Francisco. Architect, none. Owner, W. T. Drayer, 435 Green street, Daly City. Location, north Amazon west Paris, covering an area of 25 by 22 1/2 feet. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

FLATS—2, 2 story and base, frame, \$3,000 each. San Francisco. Architect, A. Draga. Owner, V. Maita, 704 Chenery street, S. F. Location, east Chenery south Diamond, covering an area of 50 by 65 feet. Each building will contain two flats, of four and five rooms. Plans complete and work to be done by Day Labor.

FLAT ALTERATION—2 story and base, frame, \$7,500. San Francisco. Architect, W. H. Crim, Jr., 425 Kearny street, S. F. Owner's name not given. Location, south Washington west Leavenworth. Work will consist of interior and exterior alterations, electric work, plastering, painting and plumbing. Plans complete and figures being taken.

RESIDENCE—2 story and base,

BAILOON, \$3,000. San Francisco. Architect, none. Owner, J. M. Peber, 1910 Balboa, S. F. Location, west 12th avenue south Cavallo. Will contain six rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$2,000. San Francisco. Architect, none. Owner, Victor Bjors, 559 Sanchez. Location, south 21th street east Fountain. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame and plaster, \$10,000. San Francisco. Architect, Louis M. Epton, 141 21th street, S. F. Owner, J. Tynan. Location, southeast Lyon and Vallejo. All bids except for the heating and painting have been received and a contract will be awarded at once. Williams Bros. & Henderson Holbrook Bldg., are low on the general construction.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, none. Owner, James Welch, 512 18th avenue, S. F. Location, east 18th avenue north of Balboa. Will contain six rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

BARRACKS, 2 of 3 story and base, Class C construction, Cost not stated. San Francisco. Architect, Kenneth MacDonald, Jr., Holbrook Bldg., S. F. Owners, Non-Commissioned Officers of the Volunteer League of America. Location, Folsom and 17th. The architect has just been appointed to prepare these plans and details will be given when plans are more progressed.

FACTORY AND WAREHOUSE—4 story and base, mill construction, \$100,000. San Francisco. Construction Manager Frederick Whitton, 251 Kearny street, S. F. Owners, Hill Bros. Location, southeast Howard and Fremont street, covering an area of 137½ by 137½ feet. Will contain offices and warehouse space. Plans being prepared.

GARAGE—1 story and base, reinforced concrete. Cost not stated. San Francisco. Architect, E. P. Antonovich, Monadnock Bldg., S. F. Owner's name withheld. Location, Van Ness avenue. Will contain commercial garage and paint shop. Plans complete and figures being taken.

SEWER EXTENSION AND SEA WALL—Cost as follows. San Francisco Engineer, Constructing Quartermaster, Fort Mason. Owners United States Government. Contracts for constructing a sea wall at Fort Scott and for the extension of the sewer system at the Letterman General Hospital have been awarded by the Constructing Quartermaster at Fort Mason. Frank M. Gardin & Co., 251 Kearny street, was awarded the contract for the sea wall at \$4,676 and James Curry the contract for the sewer extension at \$1,172. Fringio-Bunn Co. submitted the lowest bid for furnishing and installing heavy hydrants in the Presidio at \$720.

GARAGE—1 story and base, Class C construction, \$25,000. San Francisco. Architect, Willis Polk & Co., Hobart Bldg., S. F. Owners, Wallace Estate. Location, west Van Ness avenue near Kddy, covering an area of 120 by 125 feet. Will contain garage and paint shop. Plans complete and figures being taken.

POST OFFICE—1 and 2 story, brick and concrete. Cost not stated. Twin Falls, Idaho. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids will be received on December 6th for this work. Plans can be secured from the offices of the architect or from the custodian of the site at Twin Falls. An official proposal appears in another column of this issue.

STORES—1 story and base, brick, \$23,000. San Francisco. Architect's name not given. Owner, O. H. Cortaz, 517 Hayes street, S. F. Location, southeast Golden Gate avenue and Leavenworth, covering an area of 82½ by 100 feet. Will contain four stores. Plans complete and work to be done by Day Labor.

THEATRE—1 story and base, Class A construction, \$250,000. San Francisco. Architect, Alfred Henry Jacobs, 110 Sutter street, S. F. Owners, Market Street Realty Co., leased to the California Theatre. Location, southeast Market and Fourth streets. The architect states that bids will be called for within a week for the concrete work and the architectural terra cotta.

LOFTS—7 story and base, reinforced concrete. Cost not stated. San Francisco. Architect, Henry H. Meyers, Kohl Bldg., S. F. Owners, Langley & Michaels Co. Location, west First street between Market and Mission, covering an area of 60 by 87½ by 137½ feet. Plans complete and figures on the general construction being taken.

AUTO SUPPLY HOUSES—2, 3 story and base reinforced concrete. Cost not stated. San Francisco. Architect, none. Owner, Lawrence Meyers. Location, northeast Franklin and Pine streets. Construction to be in charge of MacDonald & Kahn, Bialto Bldg., S. F.

FLATS—3, 2 story and base, frame, \$1,000. San Francisco. Architect, none. Owner, L. B. Ham, 274 25th avenue, S. F. Location, east 18th avenue south Clement. Each building will contain two flats of five and six rooms. Basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$2,500. San Francisco. Architect, none. Owner, Thomas Hamill, 5535 Geary street, S. F. Location, southwest 12nd avenue and Balboa. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$5,000. San Francisco. Architect, none. Owner, Fernando Nelson & Son, 2007 Lincoln Way, S. F. Location, northeast Potrero Drive and 15th avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

Contracts Awarded

CO-OPERATIVE—\$2,100. San Francisco. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contractors, Leland Equipment Co., 126 Pine street, S. F. Contract price, \$2,100.

RESIDENCE—3 story and base, frame and plaster, \$18,000. San Francisco. Architect, Henry C. Smith, Humboldt Bank Bldg., S. F. Owner, P. J. Muller. Contractors, Williams Bros. &

Henderson, Holbrook Bldg., S. F., general construction except heating and ventilating and electric fixtures. Contract price, \$16,000.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps ON the road and OUT of the repair shop.

The F-W-D saves **20 to 25 per cent** of gasoline and oil money. It reduces first cost of tires **one-third.** It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

OAKLAND AND ALAMEDA COUNTY

STREET IMPROVEMENTS—Cost not stated, Berkeley, Alameda Co., Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on November 3rd for street improvements authorized under the following resolutions: That the roadway of University avenue from West street to Third street be graded. Concrete curbs and gutters be constructed; a cast iron and concrete culvert with cast iron manhole and granite header block; the roadway be paved with asphaltic wearing surface 2 inches thick

laid on a concrete foundation 6 inches thick.

That the roadway of University avenue from a line 160 feet west of Third and parallel to the western line of Grove street west to the south extension of the center line of W. I. street be graded; concrete curbs and gutters constructed; a cast iron and concrete culvert with two cast iron manholes and two granite header blocks; a corrugated pipe sewer be constructed on Grand street from University avenue to the storm sewer in Addison street; reinforced concrete catch basin be constructed and the roadway be paved with asphaltic wearing surface 2 inches thick laid on a concrete foundation 6 inches thick.

APARTMENT HOUSE AND STORES—1 story and base. Chas A and Chas C construction, \$175,000. Oakland, Cal. Architects, Richardson & Barrall, Albany Bldg., Oakland. Owners, Sommerstrom Bros. Location, 22nd and Broadway. Will contain stores on the first floor and a number of two, three and four room apartments above. Plans complete and in the hands of the owners who are now letting segregated contracts.

STREET IMPROVEMENTS—Cost not stated, Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. The following contracts for street improvements have been awarded: For the grading, curbing with redwood, guttering with concrete gutters 3 feet wide, paving with oil macadam and sidewalking with cement sidewalks 6 feet wide, of all that portion of Bissell street that lies north-west of the northwest line of 73rd street. Awarded to the Hutchinson Co., 13th and Franklin streets, Oakland.

That portions of 51st avenue in the vicinity of East 10th and East 12th streets be graded, construct redwood curbs, concrete gutters 3 feet wide paved with oil macadam and construct cement sidewalks 6 feet wide. Awarded to the Hutchinson Co.

RESIDENCES—3, 1 story and base, frame, \$2,500 each. Piedmont, Alameda Co., Cal. Architect, Alvin J. Stern, 206 14th street, Oakland. Owner, C. B. Coit, 206 14th street, Oakland. Location, Jerome and Oakland avenues. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRATERNITY HOUSE ADDITION—1 story, frame, \$3,000. Berkeley, Alameda Co., Cal. Architect, W. H. Ratcliff Jr., First National Bank Bldg., Berkeley. Owners, Delta Chi Fraternity. Location, head of Piedmont avenue. Work will consist of adding one story. Plans complete and figures being taken.

RESIDENCE—2 story and base, frame, \$5,000. Berkeley, Alameda Co., Cal. Architect, W. H. Ratcliff Jr., First National Bank Bldg., Berkeley. Owner, Mr. Yolland. Will contain six rooms, bath and sleeping porch. Plans being prepared.

RESIDENCES—6, 1 story and base, frame, \$1,500 each. Oakland, Cal. Architect, none. Owner, E. M. Marquis, 2827 Russell street, Berkeley. Location, west 51th avenue east 11th street. Each dwelling will contain five rooms,

bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,500. Berkeley, Alameda Co., Cal. Architect, none. Owner, C. H. Allison, 61 Brookside street, Berkeley. Location, north Parkside west Maple. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

FACTORY—1 story and base, brick, \$8,500. Oakland, Cal. Architects, J. C. and M. I. Newson, 1718 Broadway, Oakland. Owner, L. H. Morris. Location, Market and Lydia streets. Designed for a candy factory. Plans complete and figures being taken.

SCHOOL, POWER HOUSE—1 story, concrete, \$1,529. Berkeley, Alameda Co., Cal. Architect, State Architect George B. McDougall, Sacramento. Owners, State of California. G. A. Scott, 685 23rd street, Oakland, presented the lowest bid for this work and will be awarded the contract. A complete list of these figures will be found under the heading of Oakland and Alameda County in this issue.

STORES—1 story, frame, Cost not stated. Oakland, Cal. Architect, Sidney B. Newson, Nevada Bank Bldg., S. F. Owner, George H. Rand. Location, northwest 16th and West streets. Will contain three stores with small living apartments in the rear. Plans complete and figures being taken.

APARTMENT HOUSE—2 story and base, frame. Cost not stated. Oakland, Cal. Architect, William Ernest Spink, 20099 Jackson street, S. F. Owner's name withheld. Location, 16th street east of Diamond. Will contain four two and three room apartments. Plans complete and figures being taken.

Contracts Awarded

CHURCH—1 and 2 story and base, brick and frame, \$25,000. Oakland, Cal. Architect, A. M. Rowe, 5109 Manila St., Oakland. Owners, Pioneer Methodist Church. Contractor, A. N. Rowe, 5109 Manila street, Oakland. Contract price, \$35,000.

HOTEL—2 story and base, frame, \$5,500. Oakland, Cal. Architect, Chester H. Miller, First Savings Bank Bldg., Oakland. Owner, J. Espiasse. Contractor, Harry C. Knight, Havenscourt Boulevard, Oakland. Contract price, \$5,500.

BIDS RECEIVED FOR BERKELEY STATE JOB.

White Brothers

Fifth & Brannan Sts.

San Francisco

ened on November 6th for filling the approaches to the concrete bridge recently constructed across the Middle Fork of the Mokelumne River, in the Mokelumne Road District, between the Wens of Railroad Flat and West Point.

SIDEWALK CONSTRUCTION.—Cost not stated. Eureka, Humboldt Co. Cal. Engineer, City Engineer, Eureka. Owners, City of Eureka. Bids will be opened on November 6th for the construction of a concrete sidewalk and a taining wall on Grant and B streets about the Jefferson School property and for furnishing of all labor and material necessary therefor.

DRAINAGE SYSTEM UNITS.—Cost not stated. Richvale, Butte Co. Cal. Engineer, Chief Engineer, Drainage District No. 100, Richvale. Owners, Drainage District No. 100. Bids will be opened November 10th at 7:30 p. m. for the construction of units 1, 2, and 3 of the outlet drain for Drainage District No. 100 of Butte County. The work to be done under said proposals constitutes only a part of the drainage work annexed for said district, being that portion thereof lying outside of the district and extending from the southeast corner thereof to Butte Creek, comprising a ditch 6.5 miles, more or less, in length. Unit 1 is estimated to require the removal of about 2,510 yards of earth; unit 2 about 27,700 yards and unit 3 about 72,100 yards. Bids will be received for separate units or for the work as a whole.

SEWER CONSTRUCTION.—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Plans and specifications prepared by the City Engineer for the construction of storm drain sewers from the junction of 15th street and McKinley avenue to McDougall Canal were approved by the Council and a call for bids has been issued. This work also calls for a concrete sump. The City Engineer's estimate for the work amounted to \$8,596.00. Sealed proposals will be opened on November 3rd. The Council also adopted plans and specifications for a storm water sewer to discharge in Yosemite Lake, estimated cost \$679.25. Plans and further information may be had from the City Clerk.

STREET IMPROVEMENTS.—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That Cornell avenue from Florence avenue to 35th street be improved by constructing concrete curbs and gutters; one concrete manhole; placing 8-inch, vitrified, ironstone sewer pipe, elbows attached, with one cast iron gutter drain; 14 linear feet of 6-inch, vitrified ironstone sewer pipe drain; 25 feet of 8-inch, vitrified ironstone sewer pipe drain; grading the space between the property line and curb; constructing concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete

wearing surface 1½ inches thick. Awarded to the Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That the alley between 5th avenue and 6th avenue and between East avenue and Sacramento avenue, in Oak Terrace and South Oak Park, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; 4 concrete manholes complete; placing 10 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer. Awarded to Joe Lawrence, Frederick, Cal.

That the alley between Allen avenue and V street, from T Street Addition to 35th street, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; 2 concrete manholes complete; placing 26 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and doing all necessary excavating and backfilling of trenches. Awarded to W. J. Tobin, 735 Filbert street, Oakland.

That the alley between Y street and Orange avenue, from 35th street to 10th street in South Sacramento, Subdivision B, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; 4 concrete manholes; placing 64 6-inch, vitrified Y branches on 8-inch pipe sewer, and doing all necessary excavating and backfilling of trenches. Awarded to W. J. Tobin, 735 Filbert street, Oakland.

That Cornell avenue, from Clark avenue to Florence avenue, be improved by constructing concrete curb and gutter; 10 linear feet of 6-inch, vitrified, ironstone sewer pipe, elbows attached; 7 linear feet of 8-inch, vitrified, ironstone sewer pipe drain; placing one cast iron gutter drain with 8-inch, vitrified, ironstone sewer, etc.; grading the space between the property line and curb; construct concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete foundation 4 inches thick, an asphaltic concrete wearing surface 1½ inches thick. Awarded to the Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That 35th street, from P street to S street, be improved by constructing concrete curb and gutter; 6 and 8-inch, vitrified, ironstone sewer pipe drains; 2 concrete manholes; reconstructing 2 concrete manholes; placing 6 cast iron gutter drains with 6-inch vitrified, ironstone sewer pipe elbows attached; grading the space between the property line and curb; constructing concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick an asphaltic cement flush coat and asphaltic wearing surface 1½ inches thick. Awarded to A. Telchert & Son, Ochsner Bldg., Sacramento.

That the easement grant between 3rd avenue and 4th avenue in Oak Grove, from Lower Stockton road to a point 100 feet west of the west line of East avenue, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer with 51 6-inch, vitrified, ironstone branches; constructing three concrete manholes complete and back-

filling the trench. Awarded to Joe Lawrence, Frederick, Cal.

That 29th street, from C street to R Street, except certain intersections, be improved by grading the space between the property line and curb; constructing concrete sidewalk. Awarded to Joe Lawrence.

That Ashby avenue be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from C street to a point 100 feet north from the intersection of the center line of Ashby avenue with the north line of lot No. 16 in J Street Suburban Tract No. 1 produced west; constructing 2 concrete manholes; placing 20 6-inch, vitrified, ironstone Y branches on 8-inch, vitrified ironstone pipe sewer; placing 200 linear feet of concrete protective covering over sewer pipe, and doing all necessary excavating and backfilling of trenches. Awarded to Joe Lawrence.

That the easement granted the city of Sacramento for the purpose of constructing a sewer between 4th avenue and 5th avenue from Lower Stockton road to East avenue, be improved by constructing an 8-inch, vitrified, ironstone pipe sewer; 6 manholes; placing 64 6-inch, vitrified, ironstone Y branches on 8-inch sewer, and excavating and backfilling trench. Awarded to Joe Lawrence.

That the alley between T street and P street, from 31st street to 34th street, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; three concrete manholes complete; placing 52 6-inch, vitrified, ironstone Y branches on 8-inch, vitrified, ironstone pipe sewer. Awarded to W. J. Tobin, 735 Filbert street, Oakland.

PUMPING STATION.—Concrete. Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. The City Council has approved plans and specifications for the installing of a new pumping station on the east side of Yosemite Lake, and bids have been ordered received up to November 3rd. Plans may be had from the City Clerk.

SIPHON.—Cast iron, \$2,859.82. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Plans for a 26-inch cast iron siphon across the Smith Canal have been approved by the Stockton City Council and the Clerk has been instructed to receive bids on the work up to November 3rd. Plans and further information may be had from the City Clerk.

COURT HOUSE REPAIRS.—Cost not stated. Stockton, San Joaquin Co., Cal. Architect, Franklin E. Warner, San Joaquin Bldg., Stockton. Owners, San Joaquin County. Bids will be opened on November 13th for painting, staining, varnishing and tinting all halls and toilet rooms of the County Court House.

LOS ANGELES AND SOUTHERN CALIFORNIA

HOTEL—11 story and base. Class A construction, \$120,000. Los Angeles, Cal. Architects, Morgan, Walls & Morgan, Van Nuys Bldg., L. A. Owner, Frank Simpson. Location, northwest Sixth and Grand avenue, covering an area of 60 by 80 feet. Will contain stores on the first floor and a total of 150 rooms on the upper floors. Plans complete and figures for the general construction to be taken at once.

PLATS—9, 2 story and base, frame, \$15,000. Los Angeles, Cal. Architect, J. A. Schwarz Co., Van Nuys Bldg., L. A. Owner's name withheld. Location, Alvarado street near 6th street. Each building will contain two five room flats. Plans are being prepared.

Contracts Awarded.

GARAGE—1 story and base, brick, \$30,000. Los Angeles, Cal. Architects, Milwaukee Building Co., Wright and Callender Bldg., L. A. Owner, H. W. O'Melveny. Contractors, Milwaukee Building Co., Wright and Callender Bldg., L. A. Contract price, \$30,000.

SCHOOL—2 story and base, frame and brick, \$50,000. Los Angeles, Cal. Architects, Milwaukee Building Co., Wright and Callender Bldg., L. A. Owners, Frederick De Laguna and Jessica F. Vance. Contractors, Milwaukee Building Co. Contract price, \$50,000.

PORTLAND AND OREGON

APARTMENT HOUSE—2 story and base, brick, \$28,000. Portland, Ore. Architect, F. Manson White, Chamber of Commerce Bldg., Portland. Owner's name withheld. Location, East Side, covering an area of 50 by 100 feet. Will contain 21 suites of two and three rooms. Plans being prepared.

COAST GUARD STATION—Frame, \$11,000. Sinaloa River, Ore. Architect, Superintendent 13th District, U. S. Coast Guard Service, Custom House Bldg., S. E. Owners, United States Government. Bids will be opened on December 1th for constructing 1½ story frame quarters, 1 story frame boat house with concrete floor, concrete cistern 12x32x6½ feet and erecting steel tower 80 feet high, which will be furnished by the government. Exterior of buildings shingles. Roofs asbestos shingles.

SEATTLE AND WASHINGTON

WAREHOUSE—1 story and base, brick, cost not stated. Seattle, Wash. Architect, George W. Lawton, Alaska Bldg., Seattle. Owners, Clifford and Wiley. Location, Lake Shore lands, covering an area of 50 by 100 feet. Plans complete and segregated figures being taken.

CONSTRUCTION WORK ABROAD.

COLOMBIA.

New Port Projected—Medellin Hospital—Interest in the prospect of Barranquilla becoming a seaport by the opening of the mouth of the Magdalena River is being stimulated locally, and the question is being agitated of having local firms subscribe to a fund to be used in the United States for carrying on a propaganda advertising the commercial advantages of Barranquilla.

Plans have been drawn in Europe for a hospital which it is proposed to erect in the city of Medellin when the necessary funds can be obtained. The cost estimate is said to approach \$1,000,000.

Vice Consul Claude E. Guyant, of Barranquilla, reports that Colombia's budget estimates for the coming year place the expenditures at \$16,354,455 and the income at \$14,720,000, leaving a deficit of \$1,634,455.

City May Be Moved to More Healthful Site.

The sanitation of the port of Buenaventura is occupying the attention of the Colombian Government to a greater extent than ever, since the recent visit of the Yellow Fever Commission of the Rockefeller Foundation. From plans submitted by the house of Pearson & Son it is estimated that it will cost \$15,000,000 gold to accomplish this work and the prospect of this great expense has led to the consideration of a substitute plan for moving the town of Buenaventura to the Bay of Malaga, some 25 miles to the westward of its present site. No decision on this matter has been announced by the Colombian Government.

VENEZUELA.

Electric Plant for Barinas.

A Caracas newspaper states that on September 12, a company was organized in Barinas, Venezuela, to build an electric plant in that city. Officers: Sr. Jesus M. Rodriguez, president; Sr. Rafael Parra Bastidas, vice president; Sr. Simon Jimenez, secretary.

A REMINDER OF THE VIGILANTES.

One of the last reminders of the timber days at Truckee, California, was uncovered a few days ago when workmen demolishing one of the old Truckee Lumber Company's sawmills uncovered a bell used by the vigilantes. It was used to summon the vigilantes when the leaders felt the necessity of taking the law in their own hands and exercising the prerogatives of Judge Lynch. Truckee is among the oldest towns of the state and just as it was prominent in the historic days when the Sierras' slopes gave up their gold, so it is prominent now as a summer and winter resort city. Its fishing and hunting and meanness to Lake Tahoe make it the mecca of sportsmen and pleasure-seekers during the summer months and its winter carnival, which begins about Christmas time, attracts thousands during the snow period. Preparations are already under way for the season of winter sports this year. There will be skiing, tobogganing, the ice carnival and the sleighrides to historic Lake Donner again this year, and the interest created by the city risks in skating is expected to add greatly to the number of Truckee visitors.

AMERICANS BUILD LARGEST DAM IN EUROPE.

The largest dam in Europe, just completed in the Barcelona consular district, is the result of the work of American engineers and experts. It is built across the chasm through which the Noguera Pallaresa River flows, and is situated near the old fortified town of Talam. Abutting on almost

perpendicular cliffs, the dam is constructed of concrete and measures 33 feet in height and 700 feet in length. The thickness is 230 feet at the base, gradually decreasing to 14 feet at the top.

The valley above the dam was bought from the various landholders at a cost of nearly \$1,000,000, and now filled with water forms an artificial lake 15½ miles long and 3½ miles wide. 70 floodgates are so carefully balanced that they open automatically under the pressure of a rise of 1 inch of water. The natural formation of the rock near the dam has been utilized to provide a spillway with a capacity of 70,000 cubic feet of water a second.

To Produce Power and Aid in Irrigation.

The dam has a twofold object in the production of electric power and use in irrigation. The water that now passes through the power house yields an electric current of 20,000 horsepower. Later it will be increased to 10,000 horsepower. The water is carried by a system of canals into an arid district, where it irrigates a surface of nearly 100 square miles.

The cement used in the construction of the dam was made on the spot from limestone and marl found within a short distance and transported by a temporary railroad. The cement-making machinery, stone crushers, mixers, etc., were brought from the United States, as well as considerable quantities of the other machinery and parts employed in building.

An obstacle that had to be overcome in this construction work was the lack of communication. This necessitated the running of a telephone line from Barcelona to the dam and the building of a road more than 11 miles long, part of which was cut through a canyon at heavy expense. Over this road two traction engines hauled the building materials on platform cars of American manufacture.

OLDEST LIVING THING.

One of the wonders of the ancient world, and probably the greatest of them, was the pyramids of Egypt. And yet some of the giant sequoias of California that now grow from the parent roots, thrifty tree, had bark on them a foot thick when Cheops began building the great pyramid that bears his name. Beneath the shadow of the pyramids Napoleon said to his troops: "Forty centuries look down upon us." In the shadow of the Big Trees of California one might say: "Eighty centuries look down upon us." There are trees in the grove estimated by scientists, among them John Muir, the eminent naturalist, to be 8,000 to even 10,000 years old.

The oldest living things in the world today are these giant trees. Also the species of vegetation to which they belong is the oldest in the world. The sequoia tree, exactly like that of California, flourished several millions of years ago. We know that because we find their fossil remains buried beneath thousands of feet of rock and geologists are able, by reading the leaves of these rocks as an ordinary man would read a book, to tell when the sequoias beneath them lived.—Kansas City Star.

PADDING YOUR OWN POCKET.

No one will deny that everyone, in any given community, is happier, healthier and better satisfied generally, if there is in circulation at all times a good supply of ready cash.

Whether a man or woman is in business himself or herself—or is not in business—it makes no difference; his or her own happiness is measured largely by the amount of cold cash in general circulation in the community in which he or she actually resides. Anyone stopping to think over this statement will need no argument to prove its absolute truth.

Now, it being true that everyone is personally better off in proportion to the cold cash in circulation in his or her community, and it being equally obvious that every time you buy something in your own town—instead of sending off to the East or to Europe for that something—you are helping to make your own self happier in proportion as you are contributing to keeping more money in actual circulation in your own community. And, to carry the thought further, if those articles which you buy locally are, also, actually manufactured locally, your buying those articles in your own community swells the local payrolls—boosts business generally in your own community—and so many other people are made so much better off that their happiness exudes and radiates back to yourself.

According to an interesting statement just issued by Chas. R. Thorburn, Executive Secretary of the Home Industry League of California, our State can produce anything wanted in the home, or in the everyday life of the people. It adds nothing to our own prosperity to take foreign stuff, when the home article better supplies the want.

We are replacing in the markets many of the foreign makes of goods which were favored some years ago because of their labels under the mistaken notion that European manufacturers were producing better articles than we could manufacture here. People have learned that they can do better in price and in materials by demanding American goods and our factories are on rush orders in consequence of the belated education.

We find in the markets now superior American foodstuffs taking the place of the foreign makes, such as fruit products, cheese, meats and dainties of all sorts, for which people were charged big prices for the labels. We buy now delicious "Holland" cheese, red-colored and shaped like the long-popular foreign article; we have the domestic "Swiss" cheese that easily fills the want for the imported article; we have cordials of home make, vineyard and wines that outclass foreign labeled goods, and so on, not forgetting the fragrant "Limburger" now made in America. If what we want is not California made it certainly can be found with a label "Made in America."

AMERICAN LUMBER TO REDUCEL EUROPE.

"Europe will need a billion dollars' worth of lumber the first year after the war," asserted Dr. Edward Ewing

Pratt, chief of the Bureau of Plant and Domestic Commerce, Department of Commerce, in an address Wednesday afternoon before the Forest Industries Conference, at Portland, Ore. "There will not only be an opportunity for lumber, there will be a duty that we cannot be shirked."

"If the war should end in December, which is hardly likely, and lumber exports into Europe should in the meantime show no increase, there would be the close of 1916 an actual shortage of the normal European lumber supplies of some \$100,000,000. This would be entirely outside of the great additional needs for lumber due to the general destruction of the war. No one knows at present the amount of lumber that will be needed by France, Belgium, Poland, and other countries which have suffered directly from the war, to replace ruined buildings, railroad bridges, etc. There can be little doubt that this amount will run into large figures and that hundreds of millions worth of general purpose lumber will be called for as soon as the great European struggle is ended. It has been estimated in Europe that at least \$100,000,000 worth of lumber will be needed for this purpose. Add the \$100,000,000 deficit in the normal demand. This seems to indicate that a total of \$200,000,000 worth of lumber over and above the usual demand of \$50,000,000 will have to be supplied to Europe by the lumber-producing countries. Allowance must of course be made for buildings that will never be replaced. Allowance must also be made for curtailment of consumption due to enforced economy. \$50,000,000 would seem ample for those purposes. So it seems likely that in the year following the war there will be a demand for a billion dollars worth of lumber in Europe."

"This huge demand for lumber will, I believe, be largely for general purpose lumber for temporary construction and rebuilding, wood paving blocks, rough construction timbers of all kinds, railway ties, car building blocks. There will no doubt be a continued and increased demand for the finer grades of American lumber, particularly hardwoods, for undoubtedly the stocks of lumber in Europe have been exhausted, as have the stocks of many other lines of manufactured goods."

"It is easy to anticipate what countries will compete for the privilege of supplying this lumber. We can not expect to do all the business. We should be lucky if we are able to do even a major part of the business. In the year 1913 we shipped more wood products than any other country in the world, amounting to a total of \$115,000,000 worth in all. In the same year Russia shipped \$88,000,000 worth; Sweden \$81,000,000; Austria-Hungary \$68,000,000; Canada \$50,000,000; Finland \$47,000,000; Germany \$26,000,000; Norway \$24,000,000; Roumania \$7,000,000. The total European exportation, therefore amounted to \$292,000,000 and the combined Canadian and American exportations amounted to \$167,000,000, making a total from these, the chief lumber exporting countries of the world, of approximately \$550,000,000. Of course, all this lumber did not go to Europe, Sweden, Germany, and Austria shipped lumber all over

Europe, but naturally after the war the greatest amount of lumber will be shipped to Europe for years to come."

MUNICIPAL WATER WORKS REPORT FOR DENVER COMPLETE.

ROSVILLE, Cal.—H. A. Kluegel, who has been employed as consulting engineer by the City of Denver, in the preparation of a report upon a municipal system of water works, is in Oregon on a brief visit. In a few days Kluegel will return to Denver, and submit his final report to the city officials.

The importance of Kluegel's commission can be judged from the fact that the provision of a municipal water system will entail an expenditure of about \$20,000,000. The preliminary engineering work has been completed, the data compiled, and Kluegel expects to submit his report in about a month.

PLAN BOND ELECTION.

RIO VISTA, Cal.—Plans are being considered for the calling of a bond election on the proposition of issuing \$10,000 worth of bonds for improvement of the municipal water system by the addition of a new water main, the purchase of a new auxiliary pumping engine, and the erection of a new building to house the pumps.

DOES NOT PREPARE PLANS.

Linny Petersen, a contractor, was recently awarded a contract to erect a building for a Dennis O'Connell. The contract that was filed at the Hall of Records gave the name of Mr. Petersen as the one to furnish the working drawings and details for the job, which is the work of an Architect. In publishing the particulars of the job Mr. Petersen was mentioned as the Architect. Mr. Petersen desires to be placed on record as not having furnished the plans at all, because he never "makes plans."

Here is Mr. Petersen's letter of explanation:

San Francisco, Oct. 24, 1916.
Mr. Larsen, Editor,
Daily Pacific Builder,
260 Mission Street,
Dear Sir:—
I wish to call your attention to a mistake in printing notice of contract between myself and Dennis O'Connell in The Daily Pacific Builder of the 11th of October. You print **Plans by Contractor**, as a matter of fact I do not make plans. Said plans were furnished to owner and made by Mr. Frederick C. Burlingame, whom I have never met.
In writing this letter as an appeal for your fairness in this matter as I can not understand you would knowingly try to hurt a man's business.
Enclosed please find copies of contract which you will notice refer only to details as the work progressed. Said details are as a rule, on smaller jobs, made in the planing mills.
Respectfully,
LINNY PETERSEN,
3536 25th Street

IRRIGATION BONDS SOLD.

INDIANAY, Cal. A Los Angeles firm has purchased the bonds of the Lindsay Strathmore Irrigation district, buying them at par. The bond issue is for \$1,100,000. Preliminary work is now being pushed along, several hundred men being employed.

Clean Traveling.

Electric travel does away with the grime, soot and other disagreeable inconveniences that go with usual railroad travel.

You are brought to your destination feeling just as fresh as when you started.

Use the electric line between San Francisco and Oakland and Sacramento, Woodland, Oroville, Colusa and Chico.

PORTLAND TO HAVE SHIPBUILDING PLANT.

PORTLAND, Ore.—Construction work on a shipbuilding plant has been started by the Oregon Shipbuilding corporation, which holds contracts to build four \$800 ton steel freighters for Norwegian interests. The vessels will cost more than \$1,000,000 each.

Contracts for seven other vessels of the same type are held by the Northwest Steel Company. The Albina Engine and Machine Works, which will start construction of a third plant for steel ships in Portland within a few days, hold contracts of two 2300 ton steel ships.

PLAN TO PLANT BIG ACREAGE TO TOBACCO ON OROVILLE LANDS.

OROVILLE, Cal.—Secretary E. R. Ward of the Chamber of Commerce, has received an inquiry from a group of Greek capitalists, who desire to engage in raising tobacco on the lands about Oroville. The men state that they are familiar with the previous experiments made here, and are convinced that the plant can be grown and cured successfully here. They desire lands with a better supply of water than was available at Tres Vias where the previous experiment in tobacco culture on a commercial scale was made.

The Tres Vias experiment revealed the fact that tobacco plants would thrive here, but the promoters were not successful in curing the leaf.

CHINESE COMPANY USES AMERICAN TRACTORS.

The Sunda Cultivation & Pasturage Co., which has headquarters at Shanghai, purchased in 1915 a large type tractor and a complete outfit of plows, seeders, harrows, and other tillage implements for use on its areas in Manchuria. An American mechanic put the machinery into operation and in spring 600 acres were plowed and seeded to wheat. The crop is now being harvested, and averages a satisfactory yield, considering that the soil is new and was seeded for the first time. The second year's yield is expected to be greater if weather conditions are normal.

The company was so pleased with the first tractor that it has placed an order for four more complete medium tractors, with outfits, and in addition has ordered grain-harvesting, self-binders, and thrashing machines. The tractors and other machines are of the latest designs, and the engines are of the kerosene burning type with modern equipment. The company expects to have fully 3,000 acres plowed and seeded in wheat for 1917, and anticipates good results.

Chinese Realize that Machines Will Solve Problem.

Climatic conditions and insect pests in Northern Manchuria render farm profits uncertain. About 50 per cent of the working animals succumb to large horse flies during the short summer. The Chinese realize that the tractor will solve this problem. Several attempts at farming with tractors have been made in the past four years, but the Sunda Co., of Shanghai, claims to have made the first real beginning. Those concerned believe that another of the world's storehouses of wheat will be opened up in Manchuria, and that as a result increasing quantities of suitable agricultural machinery will be required there.

The Sunda Cultivation & Pasturage Co., which has offices at No. 11 Szechuen Road, Shanghai, China, was organized by Mr. Lee Yung, Su, proprietor and manager of the Lee Chung Chung Land & Estate Co., which owns much property at Shanghai. The capital of the company is about \$15,000. The amount, it is stated, will be increased in the near future, if the experimental farming now being carried on at Hume-hsien proves successful. Mr. Lee states that the company owns 10,000 acres of land in the district where this work has been done, although the holdings of the organization are generally assumed to be upward of 20,000 acres.

RESCUED FROM THE DEEP.

Ambrose Pierce once wrote a volume on beetles preserved in amber. In the peat bogs of Ireland are frequently found the trunks of trees which have been preserved for thousands of years.

Now it is the mud of our own Petaluma Creek which has given up after seven years a considerable number of logs, which had apparently been lost forever.

Like oak, as in other hardwoods, it is the general rule that the heaviest wood is the strongest and best. Therefore, the logs are thrown into a mill pond, and what sink to the bottom are, as a general rule, the best logs.

White Brothers, the pioneer lumber dealers of this City, were operating their own sawmill at Petaluma; they converted into lumber large quantities of Oak, Mahogany, Redwood and Koa logs. Their mill pond was always full of the choicest hardwood logs brought from all over the world and what was known as White Brothers Mahogany Mill at Petaluma was the scene of great industry and activity until the entire plant was moved to San Francisco, about seven years ago.

Seven years after the original cargo of logs was dumped into the lagoon, Mr. John McNear, the father of Petaluma and owner of the property upon which the mill formerly stood, decided to dredge out the lagoon in preparation for its new use as an industrial pond. One of the largest clamshell dredges was put on the job and, much to the surprise of the dredger crew, each bucketful brought up a fine big Oak log. These were thrown upon the bank and a schooner load of them has already been unloaded on the bay wharf here in San Francisco for delivery to White Brothers.

Far from showing any bad effects from their seven years submersion, in the mud, the logs appear to be greatly improved. They are sound and perfect and a great number of them will be made into the finest of Quartered Oak veneers. While not as valuable as white Oak, which is recovered from the bogs and marshes of that country and is worth \$5,000 per M ft., these logs are greatly increased in value since they were originally submerged.

PLASTER COMPANY TO BUILD PLANT

INTERVILLE, Cal. Edward Durand of the Rex Plaster Company, is now in Los Angeles and is looking over the district with a view to the location of the company's mill in this city. Heretofore the company's plastics have been manufactured in Los Angeles. Their mill there was recently badly damaged by fire. A large proportion of their magnesite has since been contracted from this district, and it is probable that the plant will be reconstructed here.

The Rex people have closed a lease with the Lindsay Mining Company for a tract of land situated near Magnesite, suitable for a plant site, and that the project is being seriously considered.

HOSPITALS.

PATTON, SAN BERNARDINO CO., CAL.—Hospital cottages, 1 story, frame and concrete, \$56,000. Architect, State Architect George R. McDougall, Sacramento. Owners, State of California. The Cresmer Mfg. Co., Riverside, presented the lowest figure for this work and will probably be awarded the contract. A complete list of the bids received for this work appears under the heading of Los Angeles and Southern California in this issue.

Contracts Awarded.

OAKLAND, CAL.—Hospital cottages, 6, 1 story, frame and concrete, \$106,885. Architect, Henry H. Meyers, Kohl Bldg., S. F. Owners, Alameda County. Contractor, W. G. Thomsdell, 565 16th street, Oakland. Contract price, \$106,885. A complete list of these figures will be found under the heading of Oakland and Alameda County.

OAKLAND, CAL.—Hospital ward, 2 story, frame and concrete, \$21,000. Architect, Charles Peter Weeks, Phelan Bldg., S. F. Owners, Alameda County. Contractor, R. W. Little field, 565 16th street, Oakland. Contract price, \$21,000. A complete list of these figures will be found under the heading of Oakland and Alameda County in this issue.

IRRIGATION PROJECTS

The Paradise Irrigation District of Paradise, Butte County, organized March, 1916, has applied to the State Water Commission for permission to appropriate 19,600 acre feet, equivalent to 66 second feet, by the storage of flood water of Butte Creek, to be used in the irrigation of the lands of the district, in Butte County. The storage and diversion dams are one and the same. The proposed dam specifications are given in the application as follows: 134 feet high, 1250 feet long on top, 710 feet long on bottom, 20 feet wide on top, constructed of earth, with a 100 ft. rock rip-rapped on face, base rock or asphaltic concrete on back, concrete cut-off wall, concrete to waste-way in natural rock at sides. The main ditch or pipe line is given as 7,000 feet. It is proposed to begin work in the summer of 1917 and complete in two years. The number of acres to be watered is 11,100 which are also involved in two other applications the district now has before the Commission. The estimated cost of this diversion is given as \$350,000.

The Farm Land and Investment Co. of San Francisco has applied to the State Water Commission for permission to appropriate 100 cubic feet per second of the waters of the Yuba and Feather Rivers, tributary to the Sacramento River in Yuba County for the culture of rice. The proposed diversion is to be by means of one 24-inch and one 36-inch centrifugal pump, electrically driven. The number of acres to be watered is 5,500 and the estimated cost is \$31,000. The same company, in a second application, asks permission to divert an additional 200 cubic feet from the Feather River into Plumas and Messick Lakes, also tributary to the Sacramento River. A 24-inch, 36-inch and 40-inch electric pumps are to be used in this diversion for 3,000 acres at a cost of \$31,000.

E. W. Pereira of Ft. Jones has applied to the State Water Commission for permission to appropriate 125 cubic feet per second of the waters of Scott River, tributary to the Klamath River in Siskiyou County, for agricultural purposes. There is a proposed main canal seven miles long and a cement dam 8 feet high, 60 feet on top and 55 feet on bottom, the works to cost, as estimated, \$18,500. Ten thousand acres are sought to be brought under the ditches.

SUNSANVILLE, LASSEN CO., CAL.—Irrigation project, \$2,600,000. Engineers, Wales and Waterman, Woodland. Owners, Honey Lake Irrigation District. W. L. Wales and Herbert Waterman of Woodland are now in Amador, Lassen County, where Wales has received a contract to build an irrigation system for the Honey Lake Valley Irrigation District in Lassen County. The district embraces 33,000 acres. Wales recently did the preliminary work toward constructing a water system in the Southern Lassen Irrigation District, embracing 23,000 acres. The systems in the two projects will call for an expenditure of over two millions of dollars. Wales is the engineer. Waterman is resident engineer and will attend to the field work.

LIBRARIES.

PALO ALTO, SANTA CLARA CO., CAL.—Library, 3 story and base, Class A construction, \$500,000. Architects, Edgewell & Brown, 251 Kearny street, S. F. Owners, Trustees of Leland Stanford, Jr. University. Location, University Campus. Preliminary plans only have been prepared and further mention will be made of this work. Construction will probably be handled under the direction of the P. J. Walker Co., Mendocino Bldg.

POST OFFICES.

WILLOWS, GLENN CO., CAL. Post office, 1 and 2 story and base, reinforced concrete. Cost not stated. Architects, Bliss & Paville, Balboa Bldg., S. F. Owners, United States Government. Word has been received from Washington, D. C., to the effect that all bids for constructing the Federal Building at Willows, Glenn Co., Cal., have been rejected as being in excess of the amount awarded. The lowest bid was presented by Welch Bros. & Hansonman and amounted to \$77,997.

RESIDENCES.

SAN FRANCISCO—Residence, 2 story and base, frame, \$6,500. Architects, Willis Polk & Co., Hobart Bldg., S. F. Owner, John W. Proctor. Location, southwest 25th avenue and Scenic Way. Will contain seven rooms, two baths and sleeping porch. Plans complete and figures being taken.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$2,700 each. Architect, none. Owner, A. V. Anderson, 500 19th avenue, S. F. Location, east 18th avenue south Balboa. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 8, 2 story and base, frame, \$4,500 each. Architects, Heiman & Schwartz, Nevada

Bank Bldg., S. F. Owner's name withheld. Location, 20th avenue and Balboa. The two corner houses will be built on the sidewalk line, and the other six will set back a distance of 20 feet. Plans provide for a community garage and garage. Plans are being prepared.

SAN FRANCISCO—Residences, 2, 1 story and base, frame, \$3,000 each. Architect, none. Owner, Oscar Lind, 438 25th avenue, S. F. Location, west 19th avenue north Anza. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 4, 1 story and base, frame, \$2,000 each. Architect, none. Owner, E. F. Helm, 1303 California street, S. F. Location, south Santa Ynez east Delano. Each house will contain six rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 1 story and base, frame, \$2,500 each. Architect, none. Owner, W. J. Keenan, Masonic and Fulton street, S. F. Location, west Atalaya north Fulton. Each dwelling will contain six rooms and bath with basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$3,000. Architect, none. Owner, J. P. Dingwell, 1011 Franklin street, Oakland. Location, Lakewood Park. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 2, 1 story and base, frame, \$2,000 each. Architect, none. Owner, R. C. Hilton, 438 Haight avenue, Alameda. Location, southwest Hopkins and High streets. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$7,500. Architect, August G. Headman, Call-Post Bldg., S. F. Owner, Mrs. Blanch Whiteside. Location, Claremont Court. Will contain ten rooms, bath and separate garage. Plans being prepared.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owners, Morgenson Bros., 559 63rd St., Oakland. Location south 44th street east Webster. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, Andrew Anderson, 1096 45th St., Oakland. Location north Arkansas east Peralta. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, C. J. Pfirang, 5487 Claremont avenue, Oakland. Location, west Shattuck avenue north 56th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, M. I. Diggs, Syndicate Bldg., Oakland. Owner, J. E. Devereaux. Location, west Vicente south 58th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, R. C. Pollard, 266 14th street, Oakland. Owner, C. E. Cohn. Location, west Jerome street north Oakland avenue. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BURLINGAME, SAN MATEO CO., CAL.—Residence, 1 story and base, frame, \$5,000. Architect, E. L. Norberg, Bank Bldg., Burlingame. Owner's name withheld. Location, Glenwood Park. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

BURLINGAME, SAN MATEO CO., CAL.—Residence, 1 story and base, frame, \$1,800. Architect, E. L. Norberg, Bank Bldg., Burlingame. Owner's name withheld. Location, Cypress avenue. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Louis Johnson, 27 Richmond avenue, S. F. Location, west 18th avenue south Moraga. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,000. Architect, none. Owner, Louis Johnson, 27 Richmond avenue, S. F. Location, southwest 18th avenue and Moraga. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame and brick, \$10,000. Architects, Bliss & Faville, Balboa Bldg., S. F. Owner, James Walsh. Location, Broadway and Buchanan street. Will contain twenty rooms, five baths and conservatory. Separate garage. Plans complete and figures being taken.

SAN FRANCISCO—Residence, 2 story and base, frame, \$6,000. Architect, none. Owners, Allen & Co., 125 Sutter street, S. F. Location east 28th avenue south Lake. Will contain eight rooms two baths and basement garage. Plans complete and work to be done by Day Labor.

ALBANY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, David Stromberg, 1411 West street, Oakland. Location, west Evelyn north Cordina Creek. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOLS

BERKELEY, ALAMEDA CO., CAL.—College building exterior cement work, \$7,940. Architect, John Galt Howard, 604 Mission street, S. F. Owners, Regents of the University of California. Leonard Bosch submitted the lowest figure for exterior cement work on the Chemistry Building, and will be awarded the contract. A complete list of the bids will be found under the heading of Oakland and Alameda County in this issue.

SAN CARLOS, SAN MATEO CO., CAL.—School, 1 story, frame and plaster, \$15,000. Architect, Norman R. Coulter, 46 Kearny street, S. F. Owners, San Carlos School District. The architect has been officially commissioned to prepare these plans. Working drawings are being made and bids will probably be called for next week.

PALO ALTO, SANTA CLARA CO., CAL. College buildings, 1, 1 story, concrete. Cost not stated. Architects, George William Kelham, Sharon Bldg., S. F. Owners, Trustees of Leland Stanford, Jr. University. Location, University Campus. Will contain living rooms and offices. Plans being prepared.

Each house will contain twelve rooms, three baths and conservatory. Separate garages. Plans complete for one house and figures being taken.

OAKLAND, CAL.—Residence, 1½ story and base, frame. Cost not stated. Architect, none. Owner, Paul E. Woodburn, 3965 Greenwood avenue, Oakland. Location, east Dolores north El Centro. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

Contracts Awarded

LOS ANGELES, CAL.—Residence, 2 story and base, brick and frame, \$51,000. Architect, A. R. Denton, 111 North Spring street, L. A. Owner, Dr. E. A. Bryant. Contractors, Willard-Brent Co., Baker-Betwiler Bldg., L. A. Contract price, \$51,000.

RIVERSIDE, RIVERSIDE CO., CAL.—Residence, 2 story and base, hollow tile. Cost not stated. Architects, De Remer & Hewitt, Title Insurance Bldg., L. A. Owner, Dr. A. B. West, Contractor, William Goodell, Balboa. Contract price not stated.

SEWERS, STREET WORK & WATER SYSTEMS

BERKELEY, ALAMEDA CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be

called on November 10th for sewer construction authorized under the following resolution: "That a six inch, vitrified, ironstone pipe sewer and three brick manhole 4 feet in diameter be constructed in Cedar street in the vicinity of Sacramento street."

DAILY CITY, SAN MATEO CO., CAL.—Street improvement. Cost as follows. Engineer, City Engineer, Daily City. Owners, Daily City. Bids received by the City Trustees for street improvements in the Vista Grande No. 2 District have been rejected. The bids received were as follows: Peterson & Co., S. F., \$15,687.00; Hanson-Crummey, S. F., \$11,013.00; Tibbitts-Pacific Co., S. F., \$15,325.00. New bids were ordered received. Plans and further information may be had from the City Clerk.

RICHMOND, CONTRA COSTA CO., CAL.—Subway walks, etc. Cost as follows. Engineer, City Engineer, Richmond. Owners, City of Richmond. Plans for three proposed pedestrian walks through the Macdonald avenue subway at Sixteenth street have been submitted to the Council by the City Engineer. The cost of installing any one of the three walks and widening and paving the subway will be \$10,000. The plans call for either a walk to the north of the subway, one in the subway or one to the south of it. The grade of the walks will be approximately 10 per cent. At the suggestion of the Council the Engineer was instructed to place the plans before the Railroad Commission and the railroad officials relative to certain reinforcements which will have to be placed under the railroad tracks.

SANTA PAULA, VENTURA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Santa Paula. Owners, City of Santa Paula. Bids will be received by the City Trustees up to 7:30 p. m. of November 17, 1916, for paving on several streets. The specifications will be for Warrenite surface on concrete base, similar to the work being done by Fairchild-Gilmore-Wilton Co. of Los Angeles under contract from the county for the central strip on portions of Telegraph and Main streets. Edward M. Lynch of Glendale is City Engineer.

NAPA, NAPA CO., CAL.—Street improvement, \$806.26. Engineer, City Engineer, Napa. Owners, City of Napa. Contractor, George E. Errington, East Third street, Napa. Contract price, \$806.26.

AUBURN, PLACER CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Auburn. Owners, City of Auburn. The City Trustees of Auburn have passed resolutions providing for the paving of the main business thoroughfares—Placer road, Main, East, Broad, High and Railroad streets. A call for bids will be issued shortly.

Contracts Awarded.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The following contracts for street improvements have been awarded by the Board of Public Works: The improvement of the north half of Grove street, between lines respectively distant 112 feet and 157 feet 6 inches west from the west line of Gough street, by the construction of an artificial sidewalk. Awarded to A. A. Field, 1463 29th ave-

nue, S. E., for 13½¢ for 26. feet.

The improvement of the west half of Polk street between Fell and Hayes streets by the construction of artificial stone sidewalks except between lines respectively distant 95 feet and 125 feet northerly from the northerly line of Fell street. Awarded to P. McDonnell for 13½¢ for 3,553 feet.

HERMOSA BEACH, LOS ANGELES CO., CAL.—Sewer disposal plant. Cost as follows. Engineer, City Engineer, Hermosa Beach. T. J. Shea, 2939 South Oxford avenue, Los Angeles, was the lowest bidder at \$23,121 for the construction of a sewage disposal plant at Hermosa Beach. The other bids were: S. M. Kerns, \$35,407; Lynn S. Atkinson, \$37,743.85; and R. H. McCray Co., \$44,300.

LOS ANGELES, CAL.—Sewer construction. Cost as follows. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. John Radish, Los Angeles, was the lowest bidder at \$113,500 for the construction of the Florence avenue main sewer system. The approximate totals of the other bids received were as follows: T. J. Shea, \$127,900; John Balch, \$119,000; James Kennedy, \$162,000; Leo Miletich, \$181,000.

The improvement of Ord street, from Corbett avenue to 17th street, by resetting existing catch basins, construction of granite curbs, artificial stone sidewalks, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn & Treacy, 404 First National Bank Bldg., S. E., for \$1,418.95.

The improvement of Ada Court from O'Farrell street to its northerly termination, of Amity Alley from Ada Court to its easterly termination, and of O'Farrell street opposite the termination of Ada Court, by the construction of granite curbs, artificial stone sidewalks and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2½-inch asphalt wearing surface. Awarded to Thomas A. Clark, 68 Post street, S. E., for \$1,425.29.

The improvement of Corbett avenue from the west line of Hattie street, produced, to a line 136 feet west from the west line of Ord street, by resetting existing catch basins, construction of granite curbs, artificial stone sidewalks, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn & Treacy, 404 First National Bank Bldg., S. E., for \$4,587.30.

The improvement of Teddy avenue, from a line 225 feet east from the east line of Alpha street, at its intersection with the south line of Teddy avenue, to the center line of Alpha street, and the improvement of Alpha street between Teddy avenue and Aleta avenue, by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12 inch with 29 Y branches and two brick manholes. Awarded to the Tibbitts-Pacific Co., 16 California street, S. E., for \$1,188.

The improvement of Clarion alley, between Mission and Valencia streets, by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Thomas A. Clark, 68 Post street, S. E., for \$311.55.

The improvement of the east half of

Front street, between lines respectively distant 68 feet and 94 feet north from the north line of California street, by the construction of artificial stone sidewalks. Awarded to A. O. Fields, 1455 20th avenue, S. E., for 13½¢ for 377 feet.

The improvement of the south side of Richland avenue, between Andover and Murray streets, and the improvement of the west side of Andover street, between Richland avenue and Crescent avenue, by the construction of artificial stone sidewalks. Awarded to A. O. Fields for 13½¢ for 1,387 feet.

The Board of Public Works has awarded a contract to Tibbitts-Pacific Co., 16 California street, for the construction of the Somerset street sewer, and has requested the Board of Supervisors to appropriate \$20,000 to cover the cost of contract.

The Board has also awarded a contract to the Healy-Tibbitts Construction Co., 6 Main street, for piles, walling braces, and dolphins for the Sixth street bridge.

CHINO, SAN BERNARDINO CO., CAL.—Street improvement, \$53,714.79. Engineer, City Engineer, Chino. Owners, City of Chino. Contractors, California-Arizona Construction Co., 1700 East Washington street, L. A. Contract price, \$53,714.79.

LOS ANGELES, CAL.—Street improvement, \$17,762.10. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Contractors, Gilmore-Wilton Co., L. A. Contract price, \$17,762.10.

DAILY CITY, SAN MATEO CO., CAL.—Street improvement, \$135,858.50. Engineer, City Engineer, Daily City. Owners, Daily City. Contractors, Federal Construction Co., Sharon Bldg., S. F. Contract price, \$135,858.50. Other bidders were Peterson & Grier at \$147,122.20, and Tibbitts-Pacific Construction Co., \$141,552.17.

STOCKTON, SAN JOAQUIN CO., CAL.—Road improvements, \$7,000. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Contractor, George Laursen, Bethany. Contract price, \$7,000.

LOS ANGELES, CAL.—Street paving, \$25,210. Engineer, City Engineer, L. A. Owners, City of Los Angeles. Contractor, George H. Oswald, O. T. Johnson Bldg., L. A. Contract price, \$25,240.

STORES AND OFFICES

SAN FRANCISCO—Stores, 1 story and base. Class C construction, \$15,000. Architect, E. M. Frasier, 1973 Geary street, S. F. Owner, P. A. Palmer, Monadnock Bldg., S. F. Location, south Golden Gate avenue west Leavenworth, covering an area of 10 by 75 feet. Designed for a film exchange. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Offices, 12 story and base. Class A construction. Cost not stated. Architects, Reid Bros., California-Pacific Bldg., S. F. Owners, Matson Navigation Co. Location, Market and Main streets. Only the preliminary sketches of the architects have been approved and further details will be given when working drawings are prepared.

SAN FRANCISCO—Offices, 4 story and base. Class A construction. Cost not stated. Architect, Benj. G. Mc-

Dougall, Sheldon Bldg., S. F. Owner, Oden Mills. Location, south Pine east Montgomery, covering an area of 63½ feet by 120 feet. Will contain a number of modern offices and connect with the present Mills Building. Plans being prepared.

PORTLAND, ORE.—Stores and offices, 2 story and base, reinforced concrete. Cost not stated. Architect, John V. Bennes, Chamber of Commerce Bldg., Portland. Owners, Hextor & Strauss. Location, Park and Morrison streets. Will contain stores on the first floor and a number of offices on the two upper floors. Plans complete and figures being taken.

SAN FRANCISCO—Stores and lofts, 2 story and base. Class C construction, \$17,500. Architects, Heiman & Schwartz, Nevada Bank Bldg., S. F. Owner, A. Aronson. Location, north Mission, 225 west Fourth, covering an area of 50 by 90 feet. Will contain two stores and two lofts. Plans complete and figures being taken.

SEATTLE, WASH.—Store and market, 1 story and base, brick, \$35,000. Architect, none. Owners, Frey & Co. Location, First avenue and Pike, covering an area of 110 by 120 feet. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Store, 1 story, frame, \$5,500. Architect, Albert W. Beigren, 30 Woodland avenue, S. F. Owner, John Von Hausen. Location, southeast Stanyan and Parnassus avenues, covering an area of 35 by 84 feet. Will contain four stores. Plans complete and segregated figures being taken.

SAN FRANCISCO—Stores and offices, 4 or 12 story, Class A construction. Cost not stated. Architect, George William Kelham, Sharon Bldg., S. F. Owners, Merchants' Exchange, Architect, George William Kelham. K-Wham has been selected to prepare plans for the new building to be erected at the southwest corner of California and Montgomery streets, the property recently purchased by the Merchants' Exchange. The building to be erected will be twelve or a four story Class A structure, arranged for banking quarters on the ground floor and offices above.

SEALED PROPOSALS

PROPOSALS FOR CANAL WORK.

CANAL WORK.—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the U. S. Reclamation Service, St. Ignatius, Mont., until 2 o'clock, p. m., November 28, 1916, for the construction of a canal on the Flathead Project, Mont., involving about 195,000 cubic yards of excavation. The work is located from 8 to 15 miles north of Camas, Mont. For particulars address the U. S. Reclamation Service, Washington, D. C.; Denver, Colo., or St. Ignatius, Mont. MORRIS HEN, acting director.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1095—Proposals for Steel, Bolt, Lock Nuts, Nails, Rivets, Nuts, Screws Washers Pipe Fittings Key-Seater, Lathe, Grinding Attachment, Tool Grinder, Sanitary Fixtures, Valves, Cocks, Flush Pipe, Lead Traps Cleanouts, Test Plugs, Wash Tray Plugs, Force Cups, Copper Gaskets, Packing, Belting, Seaming Brushes, Memorandum Books, Card-board, Ledger Paper, Carbon Paper and Lumber.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m., November 17, 1916, at which time they will

be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1093) may be obtained from this office or the offices of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineers' office at the following cities: Seattle, Wash.; Los Angeles, Cal.; EARL L. BROWN, major, corps of engineers, U. S. A., general purchasing officer.

◆
PROPOSALS FOR LEVEE WORK.

LEVEE WORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Mills Building, El Paso, Tex., until **2 o'clock p. m. November 21, 1916**, for canal excavation involving 135,000 cubic yards and levee construction involving 2,000 cubic yards. For particulars address United States Reclamation Service, El Paso, Tex.; Denver, Colo., or Washington, D. C. MORRIS BLEN, acting director.

◆
PROPOSALS FOR SEWER WORK.

SEWER—Fort Worth, Wash.—Sealed proposals, in triplicate, for constructing outlet at Fort Flavel, Wash., will be received here until **2 o'clock p. m. November 17, 1916**, and then publicly opened. Information upon application to constructing quartermaster.

◆
NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until **November 13, 1916**, for dredging at the naval coal depot (California City Point), Tiburon, Cal. Plans and specifications may be obtained on application to the Bureau of Yards and Docks, or to the commandant of the navy yard, Mare Island, Cal. (9).

◆
PROPOSALS FOR BUILDING.

BUILDING—Treasury Department, U. S. Coast Guard, Washington, D. C.—Sealed proposals will be received at this office until **2 o'clock p. m. Monday, December 4, 1916**, and then publicly opened, for constructing a Coast Guard station and accessories on the Siuslaw River, Ore. Specifications and drawings, form of proposal, etc., and full information can be obtained upon application to the superintendent, thirtieth district, Coast Guard, San Francisco, Cal., or to this office. E. P. BERTHOLE, captain commandant.

◆
PROPOSALS FOR DREDGING.

DREDGING—Sealed proposals in dorsed "Proposals for Dredging" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. November 13, 1916**, and then there publicly opened, for dredging at the naval coal depot (California City Point), Tiburon, Cal. Plans and specifications can be obtained on application to the bureau or to the commandant of the navy yard, Mare Island, Cal. E. R. HARRIS, chief of bureau.

◆
PROPOSALS FOR ROOF WORK.

ROOF WORK—Sealed proposals in dorsed "Proposals for Remodeling Roof" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. November 13, 1916**, and then there publicly opened, for a new roof with monitor and skylights on building No. 58, navy yard, Puget Sound, Wash. Plans and specifications can be obtained on application to the bureau or to the commandant of the navy yard named. E. R. HARRIS, chief of bureau.

◆
NOTICE TO CONTRACTORS.

SEALED BIDS will be received by W. P. McClure, State Engineer, Forum Building, Sacramento, California, up to and including **12 o'clock, noon, Monday, November 13, 1916**, said bids then and there to be publicly opened and read for furnishing all plant, ma-

terials, and labor, and doing the work required for the complete construction and erection of "Open Air Cottage," Agnew's State Hospital Agency, California, in accordance with the plans and specifications therefor, copies of which may be obtained on application to the State Department of Engineering, Sacramento, California.

Such bids will be received for the Entire Work, and must be submitted on forms prepared and numbered by the State Department of Engineering. Cash, a bidder's bond, or a certified check in the sum of ten per cent of the amount of the bid must accompany each bid.

A deposit of Fifteen (\$15.00) dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plan and specifications to the State Department of Engineering, at Sacramento, California, in good condition.

The State Department of Engineering reserves the right to reject any and all bids and to waive any informality in any bid received.

All bids must be addressed to W. P. McClure, State Engineer, Sacramento, California, and plainly marked on the envelope: "Proposal for Open Air Cottage," Agnew's State Hospital, Agnew, California.

(SIGNED) W. P. McCLURE,
State Engineer (9)

◆
CALL FOR BIDS ON TREES & SHRUBS

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., October 21, 1916. **SEALED PROPOSALS** will be received in this office until **11 A. M. December 1, 1916**, and then opened, for planting trees, shrubs, etc., on the grounds of the Federal Buildings at Albany, Eugene, Pendleton, The Dalles, Oregon, Idaho Falls, Idaho, Brigham City, Utah, Ellensburg, Everett, Walla Walla, Washington, Chico, Grass Valley, Pasadena, Santa Barbara, California; in accordance with the specification, copies of which, as well as copies of approach plans of the several buildings may be had upon application to the respective Custodian of the Buildings, or at this office. Make application for the plans, specifications and drawings for the buildings which you intend to submit proposals. JAS. A. WETMORE, Acting Supervising Architect. (9)

◆
APPLE VALLEY IRRIGATION.

SAN BENARDINO—According to an option to purchase placed on file with the County Recorder, a group of property owners in Victor and Apple Valley are making plans to obtain possession of the holdings of the Arrowhead Reservoir and Power Co. and Victor C. Smith, its vice president and general manager. The option is for four months and the price to be paid is \$2,500,000. The new project includes in the scheme of irrigating lands on both sides of the Mojave River from Hesperia to Victorville.

◆
CANADIAN LUMBER ENTERS.

BELLINGHAM—Sixty-three carload of Canadian cut forest products entered the United States via Blaine during the month of September to compete with American lumber. This is a reduction in the amount which entered in August and also in September a year ago and this is explained by railway men as due to the car shortage which affects Canadian mills as well as those in the United States and by the order of the British Government, compelling all long hauls to be made on the Canadian Pacific Railway.

◆
HOLLANDER SAYS MAGNESITE ROOM IS BUILT.

PRESNO, Cal. The magnesite industry in California is almost purely a war industry, according to N. Rosenberg, of Vlandingen, Holland, who is in the San Joaquin Valley buying mineral for the trade. He has bought two properties in Napa for the Dutch firm, and is examining properties at Porterville and Piedra, and buying the output of some of the mines. The firm ships largely to Pittsburgh.

The war has ruined the magnesite business in Holland and Greece, and nothing is available from those countries. But he says the chrysotilline form of the rocks here with veins of magnesite does not compare with the amorphous deposits of the Greek islands, and that as soon as the war is over water shipments to New York and Pittsburgh will be cheaper than from California. Better satisfaction is given by the Greek products, whether used for steel making, lining furnaces or for composition flooring.

◆
FOUR MILLION DOLLARS FOR CANALS.

HANFORD, Cal. Four million dollars is the estimated cost of building canals and purchasing land to reclaim the lands of the Tulare Lake region, according to J. H. Levering. Levering has prepared plans for an overflow district, a petition for the formation of which is shortly to be presented to the supervisors. Levering states that it will cost 1,405,000 to build the main levee to surround the project, while 3,000,000 would be required to build the overflow canal. The land upon which the canal and reservoirs would be built is estimated at \$30 per acre in value and as 30,000 acres would be required for this purpose, 3,000,000 is added to the cost. Armoring the canal against water and building pumping plants would bring the cost up to \$4,000,000. This amount would be provided for by an assessment of \$20 per acre on the land benefited. The district would contain 265,000 acres.

◆
HISTORIC PAWNEE ROCK.

A short distance north of Pawnee Rock station, Kansas, is a high southward-facing cliff of sandstone known as Pawnee Rock, projecting as a rocky promontory from the broad ridge that forms the north side of the valley. The elements and the hand of man have made great changes in its size and appearance since the days when the Santa Fe Trail passed along its base. Here there were many encounters between the savages and the whites, and also between hostile hands of Indians, for the place is noted not only in pioneer history but in Indian traditions as well. Names and initials of many travelers, from the early trappers and the "forty-niners" to the later Army detachments, have been scratched on the smooth faces of the edges. Santa Fe Guidebook, Superintendent of Documents.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

RESIDENCES—2, 2 story and base, frame, \$3,000 each. San Francisco. Architect, none. Owner, Oscar Lind, 4285 25th avenue, S. F. Location, west 19th avenue north Anza. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—S, 2 story and base, frame, \$4,500 each. San Francisco. Architects, Heiman & Schwartz, Nevada Bank Bldg., S. F. Owner's name withheld. Location, 26th avenue and Balboa. The two corner houses will be built on the sidewalk line and the other six will set back a distance of 20 feet. Plans provide for a community garden and garage. Plans are being prepared.

RESIDENCE—2 story and base, frame, \$6,500. San Francisco. Architects, Willis Polk & Co., Hohart Bldg., S. F. Owner, John W. Proctor. Location, southwest 25th avenue and Seaside Way. Will contain seven rooms, two baths and sleeping porch. Plans complete and figures being taken.

RESIDENCES—2, 2 story and base, frame, \$2,700 each. San Francisco. Architect, none. Owner, A. V. Anderson, 1669 19th avenue, S. F. Location, east 18th avenue south Balboa. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—1, 1 story and base, frame, \$2,000 each. San Francisco. Architect, none. Owner, E. F. Helms, 1263 California street, S. F. Location, south Santa Ynez east Delano. Each house will contain six rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 2 story and base, frame, \$2,500 each. San Francisco. Architect, none. Owner, W. J. Kennan, Masonic and Fulton street, S. F. Location, west Atalaya north Fulton. Each dwelling will contain six rooms and bath with basement garage. Plans complete and work to be done by Day Labor.

Contracts Awarded

STREET IMPROVEMENTS—Cost as follows. San Francisco, Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The following contracts for street improvement have been awarded by the Board of Public Works. The improvement of the north half of Grove street, between respectively distant 112 feet and 17 feet 6 inches west from the west line of Gough street by the construction of artificial stone sidewalk, awarded to A. O. Fields, 1445 20th avenue, S. F., for 134c for 363 feet.

The improvement of the west half of Oak street between Fell and Hayes streets by the construction of artificial stone sidewalks except between lines respectively distant 95 feet and 125 feet easterly from the northerly line of Hill street. Awarded to P. McDonnell for 134c for 2,552 feet.

The improvement of Ord street, from Rebert avenue to 15th street, by resetting existing catch basins, construction of artificial curbs, artificial stone sidewalks, and of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn & Treacy, 404 First National Bank Bldg., S. F., for \$1,448.98.

The improvement of Ada Court, from Farrell street to its northerly termination, of Amity Alley, from Ada Court to its easterly termination, and of Farrell street opposite the termination of Ada Court by the construction of granite curbs, artificial stone sidewalks, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2½-inch asphaltic wearing surface. Awarded to Thomas A. Clark, 68 1st street, S. F., for \$1,125.29.

The improvement of Corbett avenue, from the west line of Hattie street, proceeding, to a line 136 feet west from the east line of Ord street, by resetting existing catch basins, construction of granite curbs, artificial stone sidewalks, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn & Treacy, 404 First National Bank Bldg., S. F., for \$4,547.20.

The improvement of Teddy avenue, from a line 325 feet east from the east line of Alpha street at its intersection with the south line of Teddy avenue, to the center line of Alpha street, and the improvement of Alpha street, between Teddy avenue and Arleta avenue, by the construction of the following vitel, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12 inch 19 Y branches and two brick manholes. Awarded to the Tibbitts-Pacific Co., 16 California street, S. F., for \$188.

The improvement of Clarion Alley, between Mission and Valencia streets, by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Thomas A. Clark, 68 Post street, S. F., for \$311.85. The improvement of the east half of Mont street, between lines respectively distant 68 feet and 94 feet north from the north line of California street, by the construction of artificial stone sidewalks. Awarded to A. O. Fields, 55 20th avenue, S. F., for 134c for 7 feet.

The improvement of the south side of Highland avenue, between Andover and

Murray streets, and the improvement of the west side of Andover street between Richmond avenue and Ore-cut avenue, by the construction of artificial stone sidewalks. Awarded to A. O. Fields for 134c for 1,387 feet.

The Board of Public Works has awarded a contract to Tibbitts-Pacific Co., 16 California street, for the construction of the Somerset street sewer, and has requested the Board of Supervisors to appropriate \$20,000 to cover the cost of contract.

The Board has also awarded a contract to the Healy-Tibbitts Construction Co., 6 Main street, for piles, walling braces and dolphins for the Sixth street bridge.

Building Contracts Awarded.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. So the **F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps **ON the road and OUT of the repair shop.**

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.
